
Dianne Prost O'Leary

Distinguished University Professor, Emerita

Computer Science Department and Institute for Advanced Computer Studies
University of Maryland
College Park, MD 20742 U.S.A.

Email: oleary@cs.umd.edu
<http://www.cs.umd.edu/~oleary/>

I. Personal Information

1. *Personal Data*

Born November 20, 1951, Chicago, Illinois
Married, 3 children

2. *Educational Background*

B. S. (Mathematics major, Physics minor), Purdue University June 1972
Ph.D. (Computer Science), Stanford University April 1976

3. *Employment Background*

Distinguished University Professor, Emerita, University of Maryland	2014-
Distinguished University Professor, University of Maryland	2014
Professor, Computer Science Department, University of Maryland	1988-2014
Sabbatical 1984-85 NBS	
Sabbatical 1991-92 IMA, Univ. of Minnesota	
Sabbatical 1998-99 NIST and ETH, Zürich, Switzerland	
Sabbatical 2005-06 NIST and CCS	
Sabbatical 2013 NIST	
Professor, Institute for Advanced Computer Studies, University of Maryland	1988-2014
Affiliate Professor, Department of Electrical and Computer Engineering, University of Maryland	2007-2014
Associate Professor, Computer Science Department, University of Maryland	1982-1988
Associate Professor, Institute for Advanced Computer Studies, University of Maryland	1985-1988
Assistant Professor, Computer Science Department, University of Maryland	1978-1982
Assistant Professor, Institute for Physical Science and Technology, University of Maryland	1978-1981
Mathematician (consultant) National Institute of Standards and Technology (National Bureau of Standards)	1978-2015
Assistant Professor, Mathematics Department, University of Michigan	1975-1978
Teaching Assistant, Computer Science Department, Stanford University	1974
Computer Programmer at a commercial data processing bureau	Sum 1969, 1970
Computer Programmer at a university computing center	Summer, 1971

II. Research and Scholarly Activities

(My students are marked with asterisks and my postdoctoral fellows are marked with daggers. Other students and postdoctoral fellows are marked with a plus sign.) The publications are organized by field at <http://www.cs.umd.edu/users/oleary/res12/>.

Books Authored

- [B2] Dianne P. O’Leary, *Scientific Computing with Case Studies*, SIAM Press, Philadelphia, 2009.
- [B1] Per Christian Hansen, James G. Nagy, and Dianne P. O’Leary, *Deblurring Images: Matrices, Spectra, and Filtering*, SIAM Press, Philadelphia, 2006.

Books Edited

- [A3] Misha E. Kilmer and Dianne P. O’Leary, eds., *G. W. Stewart: Selected Works with Commentaries*, Birkhauser Press, 2010.
- [A2] Raymond H. Chan, Chen Greif, and Dianne P. O’Leary, eds., *Milestones in Matrix Computation: Selected Works of Gene H. Golub, with Commentaries*, Oxford University Press, 2007.
- [A1] George Cybenko, Dianne P. O’Leary, and Jorma Rissanen, eds., *The Mathematics of Information Coding, Extraction and Distribution*, IMA Volumes in Math. and Its Applics., Springer-Verlag, New York, 1999.

Grant Support

- [G22] National Science Foundation Grant DMS-1016266, 2010-2014: “Confidence and Misplaced Confidence in Image Reconstruction.”
- [G21] Department of Energy Grant DESC0001862, 2009-2013: “Advanced Optimization Techniques for Entropy-Based Moment Closures,” (With A. Tits and C. Hauck)
- [G20] Department of Energy Grant DESC0002218, 2009-2013: “Interior-Point Algorithms for Optimization Problems with Many Constraints,” (With A. Tits)
- [G19] National Science Foundation Grant CCF-0514213, 2005-2009: “Computations with Unitary Matrices,” (With G. W. Stewart).
- [G18] Department of Energy Grant DEFG0204ER25655, 2004-2009: “Interior Point Algorithms for Optimization Problems,” (with A. Tits).
- [G17] National Science Foundation Grant, 2004-2008: “HP and Visualization Cluster,” (co-PI, with A. Varshney et al.)
- [G16] Department of Energy Grant DEFG0203ER25555, 2003-2004: “Workshop on Women of Applied Mathematics: Research and Leadership,”
- [G15] National Science Foundation Grant ITR, 2002-2005: “Fast Multipole Translation Algorithms for Solution of the 3D Helmholtz Equation,” (with R. Duraiswami, H. Elman, N. Gumerov, I. Mayergoyz).
- [G14] National Science Foundation Grant CCR-0204084, 2002-2005: “New Krylov Methods: Theory and Applications,” (With G. W. Stewart).
- [G13] Office of Naval Research Grant N000140110181, 2000-2003: “Solution Algorithms and Probabilistic Analysis of Models and Scattering,” (With Howard Elman).
- [G12] National Science Foundation Grant CCR-97-32022, 1998-2001: “Numerical Methods for Ill-Posed Problems and Large scale Eigenvalue Problems,” (With G. W. Stewart).
- [G11] National Science Foundation Grant, 1999, “Support of Householder Symposium XIV on Numerical Algebra.” (With G. W. Stewart)
- [G10] National Science Foundation Grant CCR-95-03126, 1995-1998: “Numerical Methods for Ill-Posed Problems and Markov Chains” (With G. W. Stewart).

-
- [G09] Office of Naval Research Grant N00014-94-10580, 1995-1997, “Numerical Methods for Underwater Structural Acoustics Simulations” (With H. Elman, J. Saltz, and G.W. Stewart).
- [G08] NSF CISE Research Infrastructure Award, National Science Foundation, 1994-1997: “Systems and Software Tools for High Performance Computing” (With L. S. Davis, H. Elman, J. Hendler, and J. Saltz)
- [G07] National Science Foundation Grant 95-1120-8721, 1996, “Support of Householder Symposium XIII on Numerical Algebra.”
- [G06] Office of Naval Research Grant N00014-94-10580, 1994-1995, “Numerical Methods for Underwater Structural Acoustics Simulations” (With H. Elman, J. Saltz, and G.W. Stewart).
- [G05] National Science Foundation Grant CCR-91-15568, 1992-1995: “The Numerical Treatment of Markov Chains” (With G. W. Stewart).
- [G04] Air Force Office of Scientific Research Grant AFOSR-82-0078 and AFOSR-87-0188, 1982-92: “Parallel Matrix Computation” (With G. W. Stewart).
- [G03] National Science Foundation Grant MCS-79-23422, 1980-84: “Representation and control in computer vision: multi- level relaxation approaches” (With A. Rosenfeld).
- [G02] Office of Naval Research Grant N00014-76-C-0391, 1979-1982, “Research in numerical linear algebra” (With G. W. Stewart).
- [G01] National Science Foundation Grant MCS 76-06595, 1976-1978: “Conjugate gradient algorithms for nonlinear elliptic equations” and “Linear programming problems arising from partial differential equations”.

Awards and Achievements

Celebration on the Occasion of the Retirement of Dianne O’Leary at the SIAM Conference on Applied Linear Algebra, October 2015, Atlanta, Georgia.

2012 Cray Distinguished Speaker for the Computer Science Department, University of Minnesota.

“Portfolio Selection Using Tikhonov Filtering to Estimate the Covariance Matrix,” by graduate student Sungwoo Park and Dianne P. O’Leary, winner of the 2011 SIAM Student Paper Competition.

2011 Norbert Wiener Lecturer for Tufts University.

Named a SIAM Fellow, 2009 (inaugural group).

Outstanding Authorship Award, Best Journal Paper of the Year, Information Technology Laboratory, National Institute of Standards and Technology, May 2009.

AWM-SIAM Sonia Kovalevsky Lecturer, July 2008.

Keynote address, SIAM Conference on Data Mining, April 2008.

Board of Visitors Distinguished Faculty Award, College of Computer, Mathematical, and Physical Sciences, University of Maryland, 2007.

Named an ACM Fellow, November 2006.

Named an ACM Distinguished Scientist, October 2006.

Doctor of Mathematics, *honoris causa*, from the University of Waterloo for “outstanding contributions to research and education in the mathematical and computer sciences and leadership and promotion of women in the field,” October 2005.

Best Paper Award, 19th Annual Symposium on Automation and Robotics in Construction (ISARC 2002), for "Reconstructing Images of Bar Codes for Construction Site Object Recognition," with D. Gilsinn and G. Cheek, NIST, Gaithersburg, MD, September 2002.

St. George Emblem, Washington D.C. Catholic Committee on Boy Scouting, 2001.

P.A.D.I Certified Open-water SCUBA Diver, 1997; Advanced Open-water Diver 1998.

Outstanding Poster Award for "Overview of the Semi-Discrete Matrix Decomposition and Its Applications," (with Tamara G. Kolda), Sixth SIAM Conference on Applied Linear Algebra, Snowbird, Utah, October 1997.

Semester Research Award, General Research Board, Office of Graduate Studies and Research, 1992, 1997.

Second Place Award for the poster presentation "Regularization by Truncated Total Least Squares," (with R. Fierro, G.H. Golub, and P.C. Hansen), Fifth SIAM Conference on Applied Linear Algebra, Snowbird, Utah, June 1994.

Distinguished Alumna Award, Purdue University 1993.

Hertz Foundation Fellow 1972-1975.

Betty Crocker Homemaker of Tomorrow for the State of Illinois 1969.

Editorships and Reviewing Activities for Journals

Editor-in-Chief, *SIAM Journal on Matrix Analysis and Applications* 2009-2015

Member, Editorial Board, *SIAM Review* Education Section 2007-2014

Member, Editorial Board, SIAM Books 2009-2014

Department Editor, "Your Homework Assignment," a column in *Computing in Science and Engineering*, <http://www.computer.org/cise/homework/> 2002-2006, 2011-

Member, Editorial Board, *Computing in Science and Engineering*, formerly *IEEE Computational Science and Engineering* 1994-

Member, Editorial Board, *SIAM Journal on Matrix Analysis and Applications* 1995-2003, 2006-2009

Member, Editorial Board, SIAM book series on "Fundamentals of Algorithms" 2003-2010

Associate Editor, *Linear Algebra and Its Applications* 1998-2003

Member, Editorial Board, *SIAM Review* 1989-1997

Editor, *Linear Algebra and Its Applications* issue on papers presented at the ILAS Conference, Winnipeg, Canada, June 1997.

Editor, *Linear Algebra and Its Applications* issue on papers presented at the Third ILAS Conference, Pensacola, FL March 1993.

Member, Editorial Board, *SIAM Journal on Scientific and Statistical Computing* 1981-1989

Memberships in Professional Societies

Society for Industrial and Applied Mathematics

Association for Computing Machinery

American Association for the Advancement of Science

Association for Women in Mathematics

Phi Beta Kappa

III. Teaching and Advising

1. *Courses Taught Recently*

CMSC 460/ AMSC 460	Computational Methods	(30 students)	Fall 2007
CMSC 498D/ AMSC 498D	Image Deblurring	(30 students)	Spring 2012
CMSC 660/ AMSC 660	Scientific Computing I	(30 students) (30 students) (30 students)	Fall 2010 Fall 2009 Fall 2008
CMSC 661/ AMSC 661	Scientific Computing II	(20 students)	Spring 2010
CMSC 662/ AMSC 662	Computer Organ. and Prog. for Scientific Computing	(25 students) (35 students)	Fall 2011 Fall 2013
CMSC 760/ AMSC 600	Advanced Linear Numerical Analysis	(25 students)	Fall 2007
CMSC 764/ AMSC 607	Advanced Optimization	(20 students) (25 students)	Fall 2010 Fall 2008

2. *Other Courses*

- CMSC 150: Discrete Mathematics
- CMSC 251: Algorithms
- CMSC 311: Computer Organization
- CMSC 411: Computer Systems Architecture
- CMSC 452: Theory of Computation
- CMSC/MAPL 466: Introduction to Numerical Analysis I
- CMSC/MAPL 666: Numerical Analysis I
- (ETH) Parallel Numerical Computing

3. *Advising: Other than Research Direction*

4. *Advising: Research Direction*

Ph.D. Students

- (a) Mansuk Song, “Regularization - Projection Methods and Finite Element Approximations for Ill-Posed Linear Operator Equations,” University of Michigan, 1978. (Directed jointly with M. Z. Nashed).
- (b) David C. Fisher, “Matrix Computation on Processors in One, Two, and Three Dimensions,” Applied Mathematics Program, University of Maryland, 1985.
- (c) John Conroy, “Parallel Direct Solution of Sparse Linear Systems of Equations,” Applied Mathematics Program, University of Maryland, 1986.
- (d) Pil Seong Park, “Iterative Solution of Sparse Linear Systems Arising from Queueing Networks,” Applied Mathematics Program, University of Maryland, 1991.
- (e) Chiou-Ming Huang, “Multi-Splitting Preconditioners for the Conjugate Gradient Algorithm,” Computer Science Department, University of Maryland, 1992.

-
- (f) Peter Whitman, “Solution Ranges in Stochastic Linear Programming,” Applied Mathematics Program, University of Maryland, 1993.
 - (g) Yuan-Jye Jason Wu, “Matrix Decompositions for Markov Chains and Signal Processing,” Applied Mathematics Program, University of Maryland, 1995.
 - (h) Weichung Wang, “Iterative Methods in Interior Point Methods for Linear Programming,” Applied Mathematics Program, University of Maryland, 1996.
 - (i) Tamara Gibson Kolda, “Limited-Memory Matrix Methods with Applications,” Applied Mathematics Program, University of Maryland, 1997.
 - (j) Misha E. Kilmer, “Regularization of Ill-Posed Problems,” Applied Mathematics Program, University of Maryland, 1997 (directed jointly with G. W. Stewart).
 - (k) Ilya A. Zavorin, “Analysis of GMRES Convergence by Spectral Factorization of the Krylov Matrix,” Applied Mathematics and Scientific Computing Program, University of Maryland, 2001 (directed jointly with Howard Elman).
 - (l) Bitu Khoshvaghti, “Prediction of Protein Folding Using Residue Fragment Graphs,” Applied Mathematics and Scientific Computing Program, University of Maryland, 2003.
 - (m) Daniel M. Dunlavy, “Homotopy Optimization Methods and Protein Structure Prediction,” Applied Mathematics and Scientific Computing Program, University of Maryland, 2005.
 - (n) Haw-ren Fang, “Matrix Factorizations, Triadic Matrices, and Modified Cholesky Factorizations for Optimization,” Computer Science Department, University of Maryland, 2006.
 - (o) Simon P. Schurr, “An Inexact Interior-Point Algorithm for Conic Convex Optimization Problems,” Applied Mathematics and Scientific Computing Program, University of Maryland, 2006 (directed jointly with Andre Tits).
 - (p) Elena Zotenko, “Computational Methods in Protein Structure Comparison and Analysis of Protein Interaction Networks,” Computer Science Department, University of Maryland, 2007 (directed jointly with Teresa Przytycka).

 - (x) Brianna Cash, “Automated Parameter Selection Tool for Solution to Ill-Posed Problems,” M.S. Scholarly paper, Applied Mathematics, Statistics, and Scientific Computing Program, University of Maryland, 2012. (Graduate School lost the paperwork, so degree is dated 2013).
 - (y) Roozbeh Yousefdeh, “A Homotopy Method for Optimizing Real-time Dispatching Decisions in Freight Systems,” M.A. scholarly paper, Computer Science Department, University of Maryland, 2018.

B.A. Students

- (a) Nilani Aluthgedara, “Recognizing Sentence Boundaries and Boilerplate,” Honors thesis, Computer Science Department, University of Maryland, 2003.

High School Students

- (a) Urja Mittal, “Evaluating and Improving the Efficiency of Mangasarian’s Linear Programming Algorithm,” winner of Galileo Circle Award, Washington Academy of Science and Blair High School’s Vaccaro Award.

IV. *Service*

1. *Professional*

Member of AMS-MAA-SIAM Joint Committee on the Porter Public Lecture, 2016-

Reviewer for NCWIT Award for Aspirations in Computing, 2014-

Speaker at the CRA-W Early and Mid Career Mentoring Workshops, November 2016.

Member of Program Committee, NAACL-HLT 2012 Workshop on Evaluation Metrics and System Comparison for Automatic Summarization June 8, 2012 Montreal, Quebec, Canada

Member of Oversight Committee, Gene Golub SIAM Summer Schools, 2010-2014.

Member of Organizing Committee, SIAM Conference on Applied Linear Algebra (LA12), Valencia, Spain, June 18-22, 2012.

Member of Advisory Committee, SIAM Linear Algebra Activity Group International Summer School on Numerical Linear Algebra, 2007-2012.

Member of Organizing Committee, Numerical Linear Algebra: Perturbation, Performance, and Portability, Conference in honor of G. W. Stewart, Austin, Texas, 2010.

Member of Organizing Committee, 2010 SIAM Annual Meeting.

Chair of AWM Committee on Committees, 2009-2011.

Member of Review Committee, Applied Science, College of William and Mary, 2009.

Member of External Advisory Board, Computer Science Department, George Washington University, 2005-2007

Mentor in AWM Mentor Network, 2001-

Member of SIAM/AMS/ASA/AWM/IMS/MAA/NCTM Joint Committee on Women 2004-2007

Member of the Organizing Committee, Householder Conferences (formerly the Gatlinburg series of conferences), 1987-2005

Member of the Organizing Committee, SIAM 2004 Annual Meeting

Co-organizer (with Tamara Kolda) of “Women of Applied Mathematics: Research and Leadership” Meeting, October 2003.

Member of the Board on Mathematical Sciences of the National Research Council, 1996-2001

Chair of the Organizing Committee, “Research, Careers, and Computer Science: A Maryland Symposium,” 2001.

Member of the Organizing Committee, Workshop on the Interface between Computer Science and Mathematics, sponsored by the National Research Council, 2000, and moderator for the Data Mining and Search session.

Member of Organizing Committee and Co-Chair of Program Committee, Olga Taussky Todd Celebration, MSRI, Berkeley, July 1999.

Member of review committee, Computer Science Department, Purdue University, 1999.

Member of Committee of Visitors for the Division of Mathematical Sciences, National Science Foundation, 1995, 1998.

Member of NSF Panel on Postdoctoral Programs in Computational Science and Engineering, New Technologies Program, Division of Advanced Scientific Computing, 1994.

Member of SIAM Nominating Committee, 1994-96

Mentor for participants in the AWM Workshop for Graduate Students and Post-Docs, SIAM Meeting, Stanford, CA, July 1997.

Organizer (with George Cybenko and Jorma Rissanen) of the IMA Workshop on The Mathematics of Information Coding, Extraction, and Distribution, November 11-15, 1996, Minneapolis, MN.

Founder and moderator of AWM-Net, an electronic mailing list, 1994-2005.

Organizer of the AWM Workshop for Graduate Students and Post-Docs, SIAM Meeting, San Diego, CA, July 1994.

Co-chair (with Bob Plemmons) of Program Committee and member of the Organizing Committee for the Workshop on Linear Algebra in Control Theory, Signal Processing and Image Processing, Winnipeg, Canada, June 6-8, 1997.

Member of Organizing Committee, University of Minnesota IMA Special Year on the Mathematics of High Performance Computing, 1996-97.

Member of the AMS-SIAM Committee on Applied Mathematics, 1994-97.

Chair of Program Committee, Householder Conference, 1993-96.

Member of Review Committee, Mathematics and Computer Science Division, Argonne National Laboratory, 1989-1994. Chair of Committee, 1991-94.

Member of Awards Committee, SIAM Student Paper Competition, 1993.
Member, SIAM Council, 1989-1991
Representative of SIAM Council to SIAM Board of Trustees, 1990-91
Member, Board of Directors, ACM Special Interest Group on Numerical Mathematics, 1985-1988
Member of the Evaluation Panel for NSF Postdoctoral Fellowships in the Mathematical Sciences, 1985-1988
Member of the Executive Committee of the Evaluation Panel for NSF Postdoctoral Fellowships in the Mathematical Sciences, and Chairperson of the Evaluation Panel, 1987-1988
Organizer of Workshop on Scientific Computing Using Parallel Architectures, (Greenbelt, Maryland), sponsored by University of Maryland Institute for Advanced Computer Studies and Computer Science Department, and the Air Force Office of Scientific Research, April, 1987
SIAM Representative to Joint Committee on Women in the Mathematical Sciences, 1984-1986
Member of NSF Selection Panel for Equipment Grants for the Mathematical Sciences, 1985
Referee for National Science Foundation, Department of Energy

2. *University*

Computer Science Department:

Member of CS/UMIACS Diversity and Inclusion Committee, 2016-
Member of Teaching Evaluation Committee, 2012-2014.
Member of Departmental Council, 1987-1991, 1993-1994, 2000-2001, 2007-2009, 2011-2012, 2013-2014.
Member of Search Committee for Computer Science Department Chairperson, 1978-1979, 1981-1982, 1987-1988, 2011-2012.
Member of Education Committee, 1978-2014
Member of Numerical Analysis Field Committee, 1978-2014
Chair, Faculty Search Committee, 2009-2010. Member, Faculty Search Committee, 2010-2011, 2011-2012.
Chair, Academic Integrity Committee, 1999-2005, 2007-2008.
Chairperson of Review Committee for Departmental Plan of Organization, 1979-1980, 1999-2000, 2006-2007.
Co-Chair of Recruiting and Retention of Women and Minorities Committee, Departmental Retreat, 2003-2004.
Chair, Faculty Awards Committee, 2004-2005.
Chairperson of the Appointments, Promotion, and Tenure (APT) Committee, 1990-1991, 2001-2002, 2002-2003, 2008-2010.
