

Crossing the kingdoms: Macroalgae-Bacteria Interactions

Workshop and Training School of the COST Action FA 1406

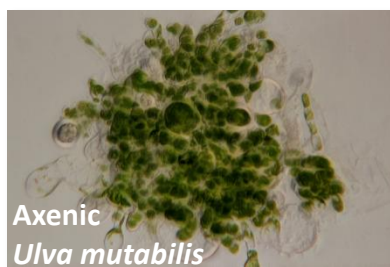

11th -15th September 2017

Workshop: 11th -12th September 2017

“Macroalgae-bacteria interactions promoting
algal growth and development”

Training School in Analytical Chemistry: 13th -15th September 2017

“Chemistry of macroalgae:
Exploring the chemical nature of seaweed-microbial interactions”

Axenic
Ulva mutabilis

Ulva mutabilis

Description

The main focus of the **Workshop** is on the cross-kingdom interactions between macroalgae and bacteria. It will cover various aspects of chemical ecology, evolutionary ecology, developmental biology, symbiosis and analytical tools. Current topics are presented by invited speakers, early stage researchers and students. The workshop is open to everybody who is interested in growth and morphogenesis of macroalgae. Please register and submit your abstract!

In continuation of the Workshop a **Training School** will introduce selected tools in Analytical Chemistry (e.g., metabolomics, isotope labeling, etc.) for deciphering seaweed-microbial interactions. Mainly students and early stage researchers will participate in a hand-to-hand laboratory course. The Training School is open to participating COST countries of the COST Action F1406.

For more information please see our Phycomorph website or contact us:

Crossing the kingdoms: Macroalgae-Bacteria Interactions

Workshop and Training School of the COST Action FA 1406

11th -15th September 2017

Workshop: 11th -12th September 2017

**“Macroalgae-bacteria interactions promoting
algal growth and development”**

Training School in Analytical Chemistry: 13th -15th September 2017

**“Chemistry of macroalgae:
Exploring the chemical nature of seaweed-microbial interactions”**

Venue: Friedrich Schiller University Jena, Institute for Inorganic and Analytical Chemistry in Jena (Germany)

Registration starts 28th of February and ends 31st of March 2017

on the Phycomorph website: <http://www.phycomorph.org/>

(no registration fees, but to participate you need to be registered!)

Workshop: The two-days multi national workshop is limited to 50 participants and will cover various aspects of macroalgae-bacteria interactions including chemical ecology, evolutionary ecology, symbiosis and analytical tools. If you want to give a oral presentation, please send a abstract (300 words) with your registration.

Training School: The three-days hand-to-hand Training School in the laboratory targets mainly early-stage researchers (PhD and post-doc). It is strictly limited to 15 participants and covers various aspects of analytical tools necessary to decipher cross-kingdom interactions in macroalgae. Selected participants will be granted 600€ as a contribution for their travel and accommodation costs.

To apply to the Training School, please send:

(i) your Curriculum Vitae, (ii) the description of your motivation to participate in the Training School, (iii) your abstract for a short talk at the Workshop or Training School.

Importantly, priority will be given to applicants with a research topic in relation with seaweed development, reproduction and morphogenesis!

Applicants notification: 15th April 2017

Other information

For more information please see our Phycomorph website or contact us:

Dr. Thomas Wichard (Organizer)
Friedrich Schiller University Jena
Institute for Inorganic and Analytical Chemistry
Lessingstr. 8, 07743 Jena, Germany

Travelling to Jena

Arrival by plane:

Airport Halle/Leipzig (+ 1h train ride, one-way ticket ~35 Euros)
Airport Berlin (Tegel or Schoenefeld) (+ 3h train ride, one-way ticket ~65 Euros)
Airport Frankfurt (+ 3h train ride, one-way ticket ~75 Euros)
Airport Munich (+ 4h train ride, one-way ticket ~85 Euros)

Arrival by train:

There are two train stations in Jena: Jena-Paradies (directions Berlin or Munich), and Jena-West (direction Frankfurt). The hotels as well as the conference site are in walking distance from both stations (taxi ride ~ 10 Euros)

Local Accommodation in Jena

There are various accommodation (hotels, pension and hostels) available in walking distance to the venue (price: 35 – 120 Euros/per night). Please see the suggestions on the next side.

Computer requirements:

- Please bring a laptop to the Training School for the hands-on course.
- Please ensure your computer is registered with the EduRoam network.

This workshop is funded by the COST Action FA1406

Accommodation - suggestions

Guesthouses:

Gasthof "Zur Schweiz"

Quergasse 15
07743 Jena
