Technical Alert: Grants.gov Release 15.2.0.1 – Update to Daily Email Subscription Notifications

Thanks to feedback from our users, we have made email subscription notifications easier to read with Release 15.2.0.1.

The readability enhancements include:

- The agency code and agency name have been moved to the top of each listing.
- More space has been added between listings.
- Each listing element is now displayed on a new line.

Several other changes have also been made to improve readability.

Thank you for helping to improve the Grants.gov system.
