Grants.gov Mobile Release Notes R2024-01.0

Mobile Deployment: May 9, 2024

Release Notes Overview

This update focuses on improving app performance and user experience by addressing several key issues and incorporating a visual enhancement.

- **Enhanced Stability**
  - Addressed an issue that caused the iOS app to freeze when deleting saved searches
  - Resolved a separate iOS freezing issue that occurred when unsubscribing from funding opportunities
- **Improved Accuracy**
  - Fixed a bug that incorrectly saved the package closed date as one day after the actual date
- **Visual Update**
  - The loading indicator throughout the app has been upgraded in iOS

Impacts

- **Enhanced Stability**
  - A smoother workflow when managing your search preferences on the go
  - You can now unsubscribe seamlessly and stay focused on the opportunities that matter most
- **Improved Accuracy**
  - Ensures you have access to the most accurate information for grant deadlines in your calendar
- **Visual Update**
  - Gives a more modern and visually appealing experience
