

Grants.gov Release Notes R2024-03.8

Grants.gov Search Fixes and Assistance Listing Update

Production Deployment: August 15, 2024

Release Notes Overview

The following updates have been made:

- Several fixes have been implemented to resolve bugs and improve the Search Grants feature to make it easier for you to find the grants you're looking for.
- Regain the ability to:
 - Add new saved searches with customized criteria
 - Edit existing saved searches to refine your results
 - View saved searches to access relevant opportunities without re-entering criteria

Impacts

- **Improved Pagination:** We've fixed several issues with how search results were displayed across multiple pages. You'll no longer see duplicate page numbers, empty pages, or negative page numbers. The 'Next' and 'Previous' buttons will now be disabled when you're on the first or last page of results.
- **Clearer Search Results:** When your search doesn't find any matching grants, you'll now see a clear message that says "No results found".
- **Consistent Pagination:** The number of page links displayed at the bottom of the search results will be consistent, showing up to 6 page numbers at a time.
- **Smoother Facet Selection:** When you select filters on the left side of the Search Grants page, the page will no longer jump back to the top. This makes it easier to select multiple filters at once.
- **Sorting Consistency:** When you interact with search criteria in such a way that it changes the result set, and initiates a new query, the pagination will now reset to page one.

Impacts Continued

- **"CFDA" Updated to "Assistance Listings":** The term "CFDA" has been replaced with "Assistance Listings" within the Search Grants feature.
