April 30, 2007

To the Board of County Commissioners and to the
Citizens of Adams County, Colorado:

The Comprehensive Annual Financial Report of Adams County, Colorado, for the fiscal year ended December 31, 2006, is hereby submitted. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the management of Adams County (hereafter referred to as the County). To provide a reasonable basis for making these representations, management of the County has established internal controls designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not outweigh the benefits, the County's internal controls have been designed to provide reasonable assurance that the financial statements will be free from material misstatements. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the County. All disclosures necessary to enable the reader to gain an understanding of the County's financial activities have been included.

The County is required by Local Government Uniform Accounting Law, Colorado Revised Statutes, to have an annual audit conducted in accordance with generally accepted auditing standards by an independent certified public accountant licensed to practice in Colorado. The audit report must be completed and submitted to the County within six months of the end of the fiscal year, which is December 31st. The County must then submit the audit report to the Office of State Auditor within 30 days of completion.

The County is also required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, the Single Audit Act Amendments of 1996, and U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments and Non-Profit Organizations. Information related to this single audit, including the Schedule of Expenditures of Federal Awards and the auditor's report thereon, are included in the single audit section of this report.

The County's financial statements have been audited by Swanhorst & Company LLC, a licensed certified public accounting firm. The goal of the independent audit is to provide reasonable assurance that the County's financial statements for the fiscal year ended December 31, 2006 are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial

statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the County's financial statements for the fiscal year ended December 31, 2006 are fairly presented and in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The Comprehensive Annual Financial Report (CAFR) is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the County's organizational chart, a list of principal officials, and a reproduction of the Government Finance Officers Association Certificate of Achievement for Excellence in Financial Reporting awarded to Adams County for the 2005 CAFR. The financial section includes the auditor's report on the financial statements and schedules, Management's Discussion and Analysis (MD&A), the basic financial statements including accompanying notes and required supplementary information, and supplementary schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found on pages 3-15 of the report.

Profile of Adams County

Adams County, a political subdivision of the State of Colorado, was organized under the statutes of the State. The County was organized over one hundred years ago on November 15, 1902. The Board of County Commissioners held their first meeting in Brighton on December 4, 1902. Over time, western Adams County has grown from an agricultural region of truck gardens and dairy farms to a complex urbanized corridor of towns and cities. The eastern end of the County, still mostly agricultural land, has also seen increasing development in recent years.

Located on the Great Plains of northeastern Colorado just east of the Front Range of the Rocky Mountains, Adams County is one of six counties that surround the City and County of Denver and make up the Denver Metropolitan Area. The County, approximately eighteen miles wide and seventy-two miles long, totals 1,180 square miles. It is topographically characterized by a series of valleys separated by gently rolling uplands. The County includes a number of growing municipalities: Brighton (the county seat), Commerce City, Northglenn, Federal Heights, Thornton, Bennett, and portions of Aurora, Westminster, Arvada, and Lochbuie.

Agricultural activities continue as the single largest land use throughout the County, accounting for more than three quarters of the land area. Most irrigated farmland is located in the northwest section of the County, where an extensive network of canals and ditches

supports crops in our semi-arid climate. The central portion of the County primarily produces wheat, while the eastern area provides pasture for animals.

A three-member Board of County Commissioners (the Board), elected at large with a residency requirement within a specified district, governs the County. The Board is required by statute to hold at least two meetings in each week of the year, except during the months of July and August, when only two meetings each month are required. Currently, the Board holds its regular meetings and public hearings on Mondays and Wednesdays. The Board administers all County functions, appoints other boards and commissions, and attends and represents the County as directors of regional and County organizations. The Board acts as the County's legislative body while an appointed County Administrator acts as the chief administrative officer of the County.

Other locally elected officials include the Assessor, Clerk and Recorder, Coroner, Sheriff, Surveyor, Treasurer, and District Attorney. These elected officials govern specific areas of County services and establish policies on the basis of the local community's needs and preferences. The County also has a Public Trustee who is appointed by the Governor. The County provides a full range of services, including judicial and public safety; construction and maintenance of highways, streets and other infrastructure; parks and recreation; planning and development; employment and social services; and general administrative services.

The County has two component units for which it is considered to be financially accountable. Blended component units, although legally separate entities, are part of the County's operations. The County's blended component unit is the Adams County Building Authority. The Front Range Airport Authority is a discretely presented component unit and is reported separately in the government-wide financial statements to emphasize a legal separation from the primary government. Additional information on each of these component units can be found in Note 1-A, pages 31 and 32 in the notes to the basic financial statements.

The annual budget serves as the foundation for the County's financial planning and control. All County departments and elected offices are required to submit requests for appropriation by the middle of September to the Finance Department. These requests are used as a starting point for developing a proposed budget that is presented to the Board of County Commissioners on or before October 15. Public hearings are conducted and a final budget is legally enacted no later than December 31, the close of the County's fiscal year.

Any revisions that alter total expenditures of any fund or spending agency require supplemental appropriation, which is subject to public hearing and taxpayer response. Department directors and elected officials are authorized to transfer budgeted amounts between line items within their authorized spending agency; however any revisions that alter the total expenditures require an appropriation resolution by the Board.

Factors Affecting Economic Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the economic environment within which the County operates.

Local Economy. The long-term outlook for the local economy in the County is bright. Besides the beauty of the Rocky Mountains to the west, the Denver area has plenty of attraction power.

The Denver Metro Area boasts one of the highest educated workforces in the country. This skilled workforce, combined with the availability of quality commercial real estate, a great transportation system, and many institutions of higher learning, are just some of the ways the Metro Area and Adams County make themselves very attractive to businesses. Previously, development in the Denver Metro Area occurred to the south and west of the City and County of Denver. Today, the northeast region invites investment and development and is now considered the primary area for expansion due to available and affordable land surrounding Denver International Airport and the E-470 beltway. Therefore, Adams County has grown significantly during the past decade. The 2000 decennial census data recorded population at 363,857 people. This represents a 37% growth rate from the 265,000 residents recorded in 1990 and places the County among the top five most populated counties in Colorado. The estimated population as of 2006 is 414,338. The Denver Regional Council of Governments expects the County to be one of the fastest growing counties in the region over the next two decades with the population reaching 603,345 by the year 2025.

Transportation remains an important part of the Denver Metro Area's future. In 2005, voters approved construction funds for FasTracks, a comprehensive regional transportation plan proposed by the Regional Transportation District. This approval was key in addressing transportation needs related to the area's steady growth. In August 2006, the County celebrated the long-awaited completion of 120th Avenue between Quebec and U.S. Highway 85, utilizing federal highway grant monies and County funds. 120th Avenue will grow to become a regionally significant link between the northwestern parts of the metro area and Denver International Airport. Substantial future commercial, residential, retail, and industrial development will also be realized as a result of the recently completed highway access from the Northwest Parkway and E-470.

The redevelopment of the former Fitzsimons Army Medical Center in the City of Aurora provides 578 acres of multiple development opportunities emphasizing the areas of bioscience research and healthcare. The Fitzsimons Redevelopment Authority is dedicated to developing the area in a manner that maximizes the long-term economic benefits to the surrounding community. The bioscience business park will house 19,000 workers by the year 2010. In addition to these opportunities, Denver International Airport and Front Range Airport will continue to have positive effects on the local economy over the next several years.

The local economy provides employment in a variety of economic sectors. The primary sectors include services, government, construction, retail, wholesale, manufacturing, and

transportation. Distribution of employment among these industries ranges from 9% (transportation) to 30% (services) of total employment in the County. This range of industry provides diversity in employment opportunities and multiple revenue sources for the County. The Adams County Enterprise Zone encourages businesses to locate in the County by providing various tax credits. This Enterprise Zone has been established within the parameters required by the Colorado Urban and Rural Enterprise Zone Act of 1986. Businesses locating in the Enterprise Zone are eligible for specialized incentives.

Long-term financial planning. The County continues to develop projects that address important needs in capital improvements, transportation, law enforcement, human services, and economic expansion. The County is projected to grow significantly over the next twenty years, nearly doubling in population. To accommodate this growth, the County plans to build new facilities and focus on ways to finance large projects the County determines necessary. A facilities master plan was developed in 2002 to address some of these projected needs and to address outdated and inefficient County facilities.

One of the County's newest facilities, the Sheriff's Headquarters and Coroner's Office, opened in Brighton in 2006. The County spent over \$5.4 million on the construction of this facility, which will help meet growing public safety needs. The development of a new, centralized, County government center facility is also currently in progress. In 2004, the County purchased strategically-located land near E-470, I-76, 120th Avenue, and State Highway 2 for this purpose. The planning and development of this facility continues into 2007, with \$1.2 million budgeted. The 2007 budget also includes \$2 million for the design of the Justice Center expansion with the addition of 12 courtrooms and a potential pre-trial holding facility.

Current and future growth in the County necessitates the construction and improvement of road and bridge infrastructure as well. Several major road projects dominate the County's immediate future. The widening of Washington Street from 83rd Avenue south to 52nd Avenue is currently in Phase III, with a \$2.7 million budget. Eventually, this project will reach the City and County of Denver, thereby expanding alternate routes from the County to the downtown Denver area. Another current major transportation project is the street widening and improvements in the Goat Hill area. This project will widen 64th Avenue from Little Dry Creek to Lowell Boulevard and will help solve many local traffic problems. The projected completion date for the Goat Hill project is 2008, with \$2.5 budgeted in 2007. The construction of 120th Avenue from Trussville to Imboden will complete the connection between two portions of 120th Avenue east of Denver International Airport, providing an important east-west link for the County roadway system. This project was started in 2005, and \$1.8 million has been budgeted in 2007 for continuing construction.

To help pay for these and other important transportation projects, the citizens of the County voted in 2002 and again in 2006 in favor of extending a sales tax to pay for transportation and capital projects. Some revenues from the sales tax are shared with the cities in the County.

County leaders and planners are working to identify high priority corridors and step up the completion of regionally important projects within the County. All these efforts are part of a

coordinated transportation plan demonstrating intergovernmental cooperation among governments within the County.

In conjunction with the Comprehensive and Open Space Plan and the Farmland Preservation Plan, the County has moved into its second century with an open space vision for the future. Priority areas continue to include: planned open space purchases to add additional buffer land around Barr Lake State Park and to preserve farmland and wildlife areas adjacent to the South Platte River corridor; expanding the 104th Avenue fishing lakes, and improving the Regional Park in accordance with the master plan. The Regional Park improvement plan is in the 7th year of a 9-year plan for updating infrastructure. The Multi-Use Water Storage Plan includes the creation of a storage facility for reclaimed water with an emphasis on restoration of wildlife habitat, providing new wetlands, and enhancing property values.

The County continues to invest in technology that improves processes by focusing on systems that increase productivity and availability of information through automation. In 2005 and 2006, the County spent over \$2.3 million on a touch-screen voting system in compliance with the Federal Help America Vote Act. The County also implemented the County-wide use of vote centers for the 2006 election. The State of Colorado and federal election requirements have mandated accessible polling locations and voting equipment. The vote centers comply with these mandates and simultaneously lower the investment needed by reducing the number of specialized voting machines. Approximately \$4 million has been budgeted in 2007 for other technology equipment throughout the County, including computer software, hardware, and communication equipment.

Future reductions of state and federal monies passed through to the County due to budget constraints could negatively impact finances in years to come. Such a reduction in sources of revenue is a concern as the County may be inclined to make up for revenue shortfalls to maintain current service levels. Generally, the County eliminates or reduces programs when state and federal grants decline. The County continues to consider alternative sources of revenue to fund future projects and maintain operational expenditures at current service levels.

Relevant financial policies. The County Revenue Policy emphasizes diversification of revenue sources beyond property taxes. The total County sales tax rate in 2006 was 0.70%. The rate increased to 0.75% effective January 1, 2007.

The sales tax rate is made up of two components, 0.50% for transportation projects and 0.20% for open space preservation. In November 2004, voters approved increasing the open space sales tax rate from 0.20% to 0.25%, beginning January 1, 2007 until 2026. The 0.5% approved sales tax rate for transportation was set to expire December 31, 2008, however, in November 2006, the voters approved the extension of the 0.5% to December 31, 2028. It was also approved that this tax will be distributed into two areas, 0.2% for transportation, with a proportionate share-back to cities in the County, and 0.3% for County capital facilities. The 0.3% rate for County capital facilities will be used in the construction and the offset of operating costs for the future centralized government center, the expansion of the Justice Center, and the construction of a pre-trial holding facility. The extension and new distribution

will go into effect January 1, 2009. Several retail sites including Larkridge in Thornton, The Orchard at Westminster, Brighton Pavilions, Prairie Center in Brighton, and Prairie Gateway in Commerce City should lead to increased sales tax revenue for the County.

The County Fund Balance Policy classifies fund balance as either discretionary or non-discretionary. The County has established a minimum level for discretionary fund balance in the General Fund, currently set using a formula of 5% of net property tax collections. Discretionary fund balance may be utilized to provide temporary operational funding for County programs and services during a recessionary period. It may also be used to fund expenditures that have a minimal impact on future operating costs, including capital equipment replacement and smaller facility/infrastructure projects. The County continually evaluates the minimum level of discretionary fund balance.

Since all funds, excluding the General Fund, have been established for a specific purpose, the fund balances within these other funds are normally considered non-discretionary. In addition, a portion of the General Fund's balance is considered non-discretionary, including a cash reserve, employee vacation and sick accrual, and other sources of unexpended revenue earmarked for specific purposes.

In 2006, total governmental fund balances decreased from \$162,299,123 to \$161,711,848. The changes in fund balances are presented in more detail beginning on page 10 of the Management Discussion and Analysis.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Adams County for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended December 31, 2005. This is the twentieth consecutive year the County has received the prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such reports must satisfy both Generally Accepted Accounting Principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements, and are submitting it to GFOA to determine its eligibility for another award.

In addition, the County also received the GFOA's Distinguished Budget Presentation Award for its annual budget document for the fiscal year beginning January 1, 2006. In order to qualify for the Distinguished Budget Presentation Award, the County's budget document was judged to be proficient in several categories, including as a policy document, a financial plan, communications device, and an operations guide.

The preparation of this CAFR is made possible by the dedicated service of the entire staff of the Finance Department. Particular gratitude is expressed to Ms. Mary Ha, Ms. Roxanne Custer, Ms. Tracy Vidmar, and Ms. Lynn Cruz of the Finance Department, Ms. Mary Ann Record and Ms. Sandy Brookman of the Treasurer's Office, Mr. Osgood McCollum of the Social Services Department, and Ms. Sue Bauserman for her administrative support. The staff of the independent auditing firm, Swanhorst & Company LLC, are especially worthy of recognition, as they have contributed greatly to the excellence of this report.

Due credit should also be given to the Board of County Commissioners and other elected officials of the County for their diligent commitment to planning and conducting the operations of the County in a responsible and progressive manner.

Respectfully submitted,

Board of County Commissioners
Adams County, Colorado

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Adams County, as of and for the year ended December 31, 2006, which collectively comprise the basic financial statements of Adams County, as listed in the table of contents. These financial statements are the responsibility of Adams County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Adams County, as of December 31, 2006, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 25, 2007, on our consideration of Adams County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and required supplementary information listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Adams County's basic financial statements. The supplementary statements and schedules and local highway finance report listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory and statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

May 25, 2007

Management's Discussion and Analysis

The Management's Discussion and Analysis for Adams County (hereafter referred to as the County) offers readers a narrative overview and analysis of the County's financial activities for the fiscal year ended December 31, 2006. Readers are encouraged to consider the information presented here in conjunction with the additional information furnished in the letter of transmittal, financial statements, and notes to the basic financial statements.

Financial Highlights

- The County's assets exceeded its liabilities at the close of 2006 by \$710,019,088. Of this amount, \$122,984,309 is unrestricted, and may be used to meet the County's ongoing obligations to citizens and creditors.
- The County's total net assets increased by \$40,031,029 in 2006. Net assets of governmental activities alone increased by \$39,597,831.
- As of the close of 2006, the County's governmental funds reported total combined ending fund balances of \$161,711,848. This is a decrease of \$587,275 in comparison with the prior year.
- Total fund balance of the General Fund, the chief operating fund of the County, reached \$82,074,695, an increase of \$10,857,388 from 2005.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. Additionally, this report contains other supplementary information that supports the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the County's finances. These statements are prepared in a manner similar to that of a private-sector business using the accrual basis of accounting and economic resources measurement focus.

The Statement of Net Assets presents information on all of the County's assets and liabilities. The difference between the two is reported as net assets. Over time, trend analysis relating to the increases and decreases in net assets, may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information that shows how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements clearly distinguish governmental activities from business-type activities. Governmental activities can be described as functions of the County that are principally supported by taxes and intergovernmental revenues. The governmental activities of the County include general government, public safety, county funded human services, public works, culture and recreation, health and welfare, urban housing and redevelopment, conservation of natural resources, and economic opportunity. In contrast, business-type activities are functions that are intended to recover all or a significant portion of their costs through user fees or charges. The business-type activity of the County is the operation of the Riverdale (Adams County) Golf Courses.

The government-wide financial statements encompass not only the financial activities of the County (also referred to as the primary government), but also the financial activities of the legally separate Front Range Airport Authority. Financial information for this discretely presented component unit is reported separately from the financial information presented for the primary government itself. The Adams County Building Authority, although legally separate, functions as part of the County's operations and has been included as a blended component of the primary government.

The government-wide financial statements can be found on pages 18 - 19 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to assure and demonstrate compliance with legal requirements. The funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are essentially used to account for the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements follow the modified accrual basis of accounting and the current financial resources measurement focus to report the financial activities in the County's funds.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains 19 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds

statement of revenues, expenditures, and changes in fund balances for the General Fund, Road and Bridge Fund, and Social Services Fund, all of which are considered to be major funds. Data from the other 16 non-major governmental funds is combined into a single, aggregated column called “Other Governmental Funds.” Individual fund data for each of these non-major governmental funds is provided in the form of combining statements.

The basic governmental funds financial statements can be found on pages 21 - 23 of this report.

Proprietary funds. The County maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses an enterprise fund to account for the operation of the Riverdale (Adams County) Golf Courses. Internal service funds accumulate and allocate costs internally among the County’s various functions. The County uses internal service funds to account for its equipment services (fleet) program and its self-insurance programs. The County’s internal service funds benefit governmental functions rather than business-type functions. They have been included as a part of the governmental activities presentation in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Golf Course Fund, which is also considered to be a major fund for the County. Conversely, both internal service funds are aggregated into a single presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements.

The basic proprietary fund financial statements can be found on pages 24 - 26 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County’s own programs. The accounting used for fiduciary funds is much like that of proprietary funds. The County reports the Treasurer’s Agency Fund and the Public Trustee’s Agency Fund as fiduciary funds.

The basic fiduciary funds statement can be found on page 27 of this report.

Notes to the basic financial statements. The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 31 - 56 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information, as well as combining

and individual fund statements and schedules that can be found on pages 57 - 100. Details of the original budgets, final budgets, and actual amounts are also found in this section.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time, as a useful indicator of a government's financial position. The County's assets exceeded its liabilities by \$710,019,088 at the close of 2006. The financial condition of the County remains healthy.

The largest portion of the County's net assets, \$542,645,734 or 76% reflects its investment in capital assets (e.g., land, buildings and improvements, machinery and equipment, conservation easements, infrastructure, construction in progress, issuance costs, and software); less any related outstanding debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net assets, \$42,328,514 or 6%, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets, \$125,044,840 or 18%, may be used to meet the County's ongoing obligations to its citizens and creditors.

	Governmental Activities		Business-Type Activities		Total	
	2006	2005	2006	2005	2006	2005

Overall, total net assets of the County increased by \$40,031,029 during the current fiscal year. For more information on the County's current restrictions of net assets, please see Note 1 - D.4 on pages 36 - 37 of the notes to the basic financial statements.

At the end of 2006, the County reported a positive, total net asset increase, both for the government as a whole, as well as for its separate governmental and business-type activities. The same was true in 2005.

Governmental activities. Governmental activities increased the County's net assets by \$39,597,831 in 2006. Key elements of this increase are as follows:

Revenues:

- Total revenues from governmental activities reached \$326,379,574 in 2006, an increase of \$20,416,122 or 7%, over the previous year.
- Revenues from capital grants and contributions increased by \$2,280,420, or 27% in 2006.
 - The Sheriff's Office accounted for \$653,634 of this increase, with the purchase of new radios by Adams County Communications Center, Inc. (AdCom 911) who then donated these radios to Adams County. Adams County Sheriff's Office, along with AdCom 911 and several local police and fire departments have been working together over the last four years to upgrade the radios used by these member agencies. This upgrade will allow for greater interagency communications.

- In addition, general government activities received \$456,758, which was primarily new software for the Adams County Clerk and Recorder's Office.
- The remaining increase of \$1,170,028 was received by Public Works. A portion was in the form of streets created by developers and deeded to the County upon completion of the development. Additionally, Public Works received contributions for the completion of the work on the 120th Avenue expansion project. This was a State managed project that included federal funds, funds from Adams County and some city participation.
- Property tax revenues, which make up 32% of the County's total revenues, also increased by 7% to \$105.6 million in 2006. The increase is directly attributable to an increased number of houses and businesses in the County, which continues to experience growth and new construction. The valuation of residential and commercial property, which make up 81% of the County's total assessed valuation, increased by 3% and 4% respectively.
- Revenues from investment earnings increased by \$3.7 million or 55% in 2006 as compared to 2005. The increase in interest revenue during 2006 is due to higher interest rates in the market, led by monetary changes made by the Federal Reserve Bank.
- Miscellaneous revenues increased by 24% in 2006; primarily due to the return of Open Space Sales Tax grants from cities and districts within Adams County. This grant money was returned for projects that were either completed under budget or never came to fruition. The returned money will be reallocated and used for other open space projects within the County.

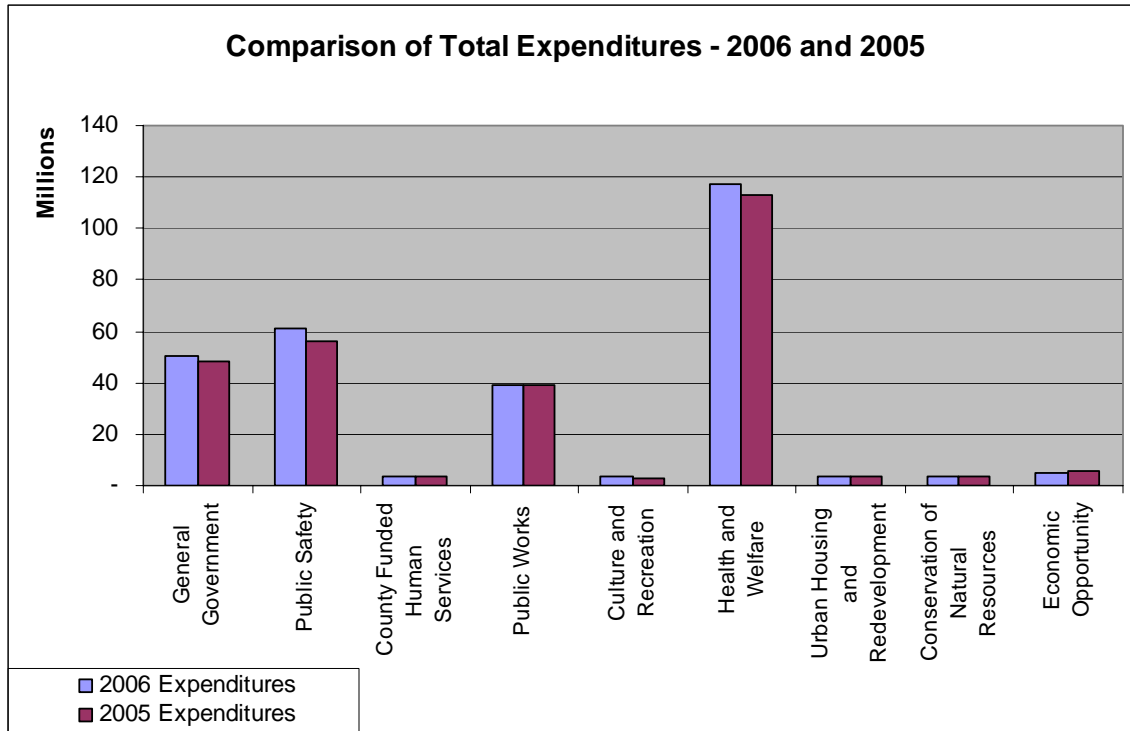

Expenditures:

- Total expenditures of governmental activities totaled \$287,121,743 in 2006, which represents an increase of 4% in comparison with 2005.
- Expenditures for the general government function increased by \$2.1 million during 2006. This increase was primarily due to an increase in payments to cities made from proceeds of settlement monies from Denver International Airport for noise violations, under the DIA noise mitigation agreement.
- A \$4.4 million increase in the expenditures of the public safety function can be attributed to growth in personnel.
 - The Sheriff's Office added twelve new deputies, two new victim advocates, one new lieutenant and one new administrative assistant. Population increases have led to a rising number of calls for service, police reports (criminal and other), summonses issued and arrests.
 - In addition, the demands of the current and growing inmate population have required additional staff at the Detention Facility which added one new officer.
- Expenditures of the health and welfare function increased by \$4.0 million.
 - Nearly half of this increase (\$1.5 million) was in the area of Social Services Energy Assistance (LEAP Benefits). This program helps qualifying individuals pay for winter heating costs; increasing natural gas

prices combined with a colder than usual winter lead to higher demand for these benefits.

- The remaining increase was due to the need for more staff to cover the additional work load of utilizing the Colorado Benefits Management System since its statewide implementation.
- The culture and recreation function of the county had an increase of \$342,429 or 11% in expenditures during 2006. This increase results from higher fuel prices as well as additional consultant services necessary to conduct a water survey at the regional park complex.
- The economic opportunity function experienced a decrease in expenditures of 13% or \$742,490. This decrease is attributable to Federal Department of Labor grant funding reductions for the Workforce Business Center.

Business-type activities. The Golf Courses increased the County’s total net assets by \$433,198 in 2006. The County’s golf courses have managed another profitable year, while at the same time experiencing a decrease in the rounds of golf played. Professional Recreation Management, Inc., which operates the facility under contract, has reacted to a changing market by curtailing expenditures to carefully manage limited resources.

- Revenue generated by charges for services decreased by \$17,228, but was more than offset by an increase in investment earnings of \$60,734.
- A decrease in expenses also contributed to the increase in fund balance for 2006. The majority of this decrease (76%) is attributable to a sales tax audit conducted in 2005 by the Colorado Department of Revenue. Changes were made regarding cart rentals at the golf courses and sales tax is now collected on golf cart rentals by the user and remitted to the Colorado Department of Revenue. In the past, this sales tax was not collected.

Financial Analysis of the Government’s Funds

As noted earlier, the County uses fund accounting to assure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County’s financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$161,711,848, a decrease of \$587,275 in comparison with the prior year. Approximately 97% of this total amount or \$156,390,819 constitutes unreserved fund balance (both designated and undesignated). The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed to: 1) inventory in the Road and Bridge Fund (\$548,165) and 2) emergencies (\$4,772,864). For more information on the County's designations and reservations of fund balances, please see Note 1 - D.11 on pages 40 - 41 of the notes to the basic financial statements.

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$82,074,695. Fund balance increased by \$10,857,388 during the year. Key factors in this increase include:

- A carryover of \$8.1 million in projects not completed during 2006. The County's policy is to budget multi-year projects at 100% for the current year, and carry-over any remaining budget to subsequent years. Expenditures for several projects were budgeted in 2006 but were not completed thereby creating an increase in fund balance.
- Total revenues for the General Fund increased by \$9.5 million in 2006. One third of this increase was due to higher investment earnings of \$3.1 million. Additionally, intergovernmental revenue, charges for services and taxes all saw small increases from 2005, mostly due to population growth within the County.
- Expenditures in the General Fund increased by \$5.6 million, or 5% from 2005, totaling \$123,739,159 in 2006. The majority of this increase (\$5.2 million) was in the public safety area. This increase is due, in part, to the hiring of new sheriff deputies in 2006 and an increase in overtime when compared to 2005.

The Road and Bridge Fund has a total fund balance of \$21,611,529, which is a decrease of \$6,185,519 from 2005. Factors contributing to this decrease include:

- A minimal increase in revenues for 2006 was offset by a planned increase in capital outlay.
- As stated above, multi-year projects are budgeted at 100% each year and any amounts remaining at the end of the year are carried over to the next year. A prime example is the 120th Avenue expansion project. This project was finished in early 2006 and had current year expenditures of \$5.1 million. This carry-over was in fund balance for 2005; which lead to a decline in fund balance for 2006 as the project was completed.
- Several other multi-year transportation projects were continued into 2006. These projects were not finished. Notable projects include: 1) improvements to Washington Street Phase III, 2) 120th Avenue from Trussville to Imboden, and 3) 64th Avenue from Little Dry Creek to Lowell.

Total fund balance for the Social Services Fund increased minimally by \$313,982 to \$19,407,940 in 2006.

Proprietary funds. The County’s proprietary funds statements provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Golf Course Fund at the end of the year amounted to \$2,756,160. Total net assets increased by \$433,198. Factors relating to the finances of the Golf Course Fund have been addressed in the discussion of the County’s business-type activities (page 10).

General Fund Budgetary Highlights

Differences between the total original budget and the total final amended budget for revenues were minimal (1% increase).

The final amended budget for expenditures was 7% higher than the original budget. The vast majority of this increase (75%) can be accounted for in capital outlay, for the following projects which were carry-over projects from the previous year: 1) Parks for the construction of a new South Parks Shop Building, 2) Facilities for the new Sheriff’s Headquarters and Coroner’s Office; 3) Clerk and Recorder’s Election Department for the new touch-screen voting system and 4) Public Works for the Irondale/Kentwood Pond Outfall project. The projects were budgeted, but not completed in 2005. The budget was adjusted in 2006 to reappropriate funds for these multi-year projects.

Differences in the total final amended budget and actual amounts were minor. Actual revenues came in at 4% above the final budget, primarily due to interest on deposits.

Actual expenditures were 12% lower than the final budget, which can be attributed in large part to capital projects that were budgeted in 2006, but will be carried over and completed in 2007. These include the purchase of new touch-screen voting machines, various drainage projects, facilities projects and technology projects.

Capital Assets and Capital Leases

Capital Assets. The County's investment in capital assets for its governmental and business-type activities as of December 31, 2006, amounts to \$563,685,734 (net of accumulated depreciation). This investment includes land, buildings and improvements, machinery and equipment, conservation easements, infrastructure, construction in progress, issuance costs, and software. The total increase in the County's investment in capital assets for the current fiscal year was 7%.

	Governmental Activities		Business-Type Activities		Total	
	2006	2005	2006	2005	2006	2005

Major capital asset events during the current fiscal year included the following:

- The County completed construction of the new Sheriff's Headquarters and Coroner's Office in 2006; \$1.4 million was spent on the project during the current fiscal year.
 - The Sheriff Headquarters and Coroner's Office was completed in April 2006, less than three years after construction began.
 - The overall \$5.4 million cost of the building was paid from existing fund balance as well as \$1.4 million in 2006 resources.
- The County completed the extension of 120th Avenue from Quebec Street to US Highway 85.
 - This multi-year project was dedicated in August 2006; providing an alternate route to Denver International Airport from the northwest area of the County.
 - During 2006 a total of \$5.1 million was spent on the project; the overall cost of the project was \$42.8 million. The federal government helped fund this project by contributing \$19.2 million in grant money.
- The County continued its commitment to preserve open space by purchasing three tracts of land in 2006 which were added to the County's land capital assets. With

these purchases, the County was able to preserve approximately 330 acres of land for open space.

- The Smith Open Space purchase in August for \$2.5 million.
- The Lueck Open Space purchase in December for \$1.5 million.
- The Mazzotti Open Space purchase in June for \$437,406.
- The County also spent approximately \$5.8 million in 2006 for the improvement and widening of Washington Street, a project that spans from 83rd Avenue south to 52nd Avenue.
 - This is a multi-year, phased endeavor that will eventually reach the City and County of Denver, thereby expanding alternate commuting routes from the County to the downtown Denver area.
 - This project will continue into 2007 and is expected to be completed in 2012.
- Approximately \$4.0 million was spent on other multi-year transportation projects that remain as construction-in-progress, including improvements in the Goat Hill area of the County near 64th Avenue and Lowell Street, 56th Avenue Federal to Zuni, Lowell Boulevard from 62nd to 68th, improvements to 80th Avenue from Brighton Road to Highway 2, and Pecos Street from I-76 to 52nd Avenue.
- The County purchased new touch-screen voting machines in 2006 for \$2.3 million.
 - These new voting machines bring the County into compliance with HAVA (Help America Vote Act) requirements.
 - Additionally, the State of Colorado mandated accessible polling locations and voting equipment. The new touch-screen machines comply with this mandate.
- The County's software assets increased by just over \$1.0 million (153%) in 2006. Approximately 67% of this increase is attributable to new software for the Clerk and Recorder's Office. An additional 32% was for the Sheriff's and Coroner's Offices.
 - The new software for the Clerk and Recorder's Office will allow compliance with State requirements regarding tracking maintenance and location of the new touch-screen voting machines.
 - Additionally, Clerk and Recorder's Office upgraded their real estate recording system.
 - The Coroner's Office purchased new case management software. This new software is more efficient and will allow for additional modules should the need arise.
 - Most of the Sheriff's Office acquisitions during 2006 were necessary to complete the radio upgrade discussed above.

Additional information on the County's capital assets can be found in Note 4 – C on page 48 - 49 of the notes to the basic financial statements.

Capital Leases. During 1999 and 2003, the County entered into two capital lease transactions on three County properties. These sale-leaseback transactions are in the form of Certificates of Participation (COP). The 1999 COP resulted in the sale-leaseback

of two buildings, the Human Services Building and the Children and Family Services Building. The sale of these buildings provided financing for the construction of the Adams County Service Center (Sheriff Substation). The COP in 2003 resulted in the sale-leaseback of the Adams County Service Center to provide financing for the purchase and remodel of the Western Service Center and the construction of the new Offices of the District Attorney. At the end of the current year, the County has total capital leases outstanding of \$21,040,000.

Additional information on the County's capital leases and long-term debt can be found in Note 4 – E.2 and Note 4 - F on pages 52 – 53 of notes to the basic financial statements.

Economic Factors and Next Year's Budget and Rates

- Unemployment numbers for the County continue to indicate improvement, dropping to 5.0% from 5.2% a year ago. However, the County rate is still higher than both the state's forecast average of 4.3% and the national average of 4.6%.
- The consumer price index for the Denver metro area increased by 1.5% in 2006 to 3.6%.

The long-term outlook for the local economy is positive. Unemployment figures indicate an improving job market in Adams County and the County has ample undeveloped land to meet future growth requirements. In the coming year, the County will benefit economically from several significant developments and retail sites, including the Fitzsimmons Redevelopment Project, Larkridge in Thornton, The Orchard in Westminster, Prairie Gateway in Commerce City and Prairie Center in Brighton. These projects should help keep more sales tax dollars in the County. Some risks to a sustained economic recovery include delays in the improvement of telecommunication and high tech industry, stagnant job growth and economic recession.

All of these factors were considered in preparing the County's budget for the 2007 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the County's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Director of Finance and Information Technology, Adams County Finance and Information Technology Department, 450 South 4th Avenue, Brighton, Colorado 80601.

ADAMS COUNTY, COLORADO
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Year Ended December 31, 2006

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balance - total governmental funds	\$ (305,766)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeds depreciation in the current period.	25,654,337
The net effect of various miscellaneous transactions involving capital assets (i.e. sales, disposals, and donations) is to increase net assets.	10,577,950
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(916,807)
The net revenue of certain activities of internal service funds is reported with governmental activities.	3,322,516
Governmental funds reported repayment of a loan/note as miscellaneous revenue. However, in the Statement of Activities, the revenue is applied to the receivable asset account and therefore is not reported as a revenue in governmental funds.	(4,500)
Government-wide statements reported a prepaid item in 2005. However, the expenditure was reported under the purchase method in the governmental funds last year and therefore not included in current year expenditures.	(29,899)
Governmental funds reported principle payment of capital leases as expenditures. However, in the Statement of Activities, the costs are applied to the long-term liability accounts and therefore are not reported as expenditures in governmental funds.	<u>1,300,000</u>
Change in net assets of governmental activities	<u>\$ 39,597,831</u>

The notes to the basic financial statements are an integral part of this statement.

ADAMS COUNTY, COLORADO
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2006

Note 1. Summary of Significant Accounting Policies

This summary of significant accounting policies of Adams County, Colorado (the County) is presented to assist in understanding the County's financial statements. The financial statements and notes are representations of the County's management, which is responsible for their integrity and objectivity. These accounting policies conform to generally accepted accounting principles (GAAP) as applied to government units, and have been consistently applied in the preparation of the financial statements. The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates. The following is a summary of the significant accounting policies of the County.

A. Financial Reporting Entity

The County is a municipal corporation and a political subdivision of the State of Colorado. The County is governed by an elected three-member Board of County Commissioners. The Board of County Commissioners exercises budgetary authority over all activities of the primary government. The primary government of the County includes the activities of seven other elected officials (the Assessor, Clerk and Recorder, Coroner, District Attorney, Treasurer, Surveyor, and Sheriff). The financial transactions of these Offices are recorded in the General Fund. The primary government also includes the activities of the Public Trustee, whom is appointed by the Governor. Public Trustee fees and related operating expenses are recorded in the General Fund.

As required by GAAP, the financial statements present the financial activities of the County and its component units. Component units are entities for which the County is considered to be financially accountable. Blended component units, though legally separate entities, are also part of the County's operations. Data from these units is combined with that of the primary government. Conversely, each discretely presented component unit is reported in a separate column in the government-wide financial statements, to emphasize that it is legally separated from the primary government. All component units have a December 31 year-end.

Blended component unit. The Adams County Building Authority, formed in 1975 as a non-profit corporation under Section 501(c)(4) of the Internal Revenue Code, exists solely to acquire real estate and buildings for lease to Adams County. The County is financially accountable for the activities of the Building Authority and its assets are reflected in the County's capital assets. The Adams County Building Authority has no activity.

Note 1. Summary of Significant Accounting Policies (continued)

Discretely presented component unit. The Front Range Airport Authority (FRAA) is a governmental organization formed by Adams County pursuant to Section 41-3-104 of the Colorado Revised Statutes for the purpose of developing and operating the Front Range Airport. The County is responsible for the creation of the FRAA, has influence over its operations, and is financially committed to contribute annually toward airport operating expenses. The FRAA is run by a 5 member board which includes the three Adams County Commissioners. The majority of the services of FRAA are provided to Colorado residents and businesses. FRAA is reported as a discretely presented component unit and is reflected as such in the County's government-wide Statement of Net Assets and Statement of Activities.

FRAA issues separate financial statements that may be obtained from their office at 5200 Front Range Parkway, Watkins, Colorado 80137.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. the Statement of Net Assets and the Statement of Activities) report information on all of the non-fiduciary activities of the County and its component units. The effect of interfund activity has been removed from these statements for the most part. Governmental activities normally supported by taxes and intergovernmental revenues are reported separately from business-type activities, which are supported primarily by fees and charges for services. As discussed above, the primary government is also reported separately from certain legally separate component units for which the County is financially accountable.

The Statement of Net Assets presents the County's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on use of net assets are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provision.

Unrestricted net assets consist of net assets which do not meet the definition of the two preceding categories. Unrestricted net assets are often designated to indicate that management does not consider them to be available for general operations. Unrestricted net assets often have constraints on resources that are imposed by management, but may still be removed or modified.

Note 1. Summary of Significant Accounting Policies (continued)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. The County does not allocate indirect expenses to functions in the Statement of Activities. Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions. When identifying to which function a program revenue pertains, the determining factor for charges for services is which function generates that revenue. For grants and contributions, the determining factor is to which function the revenue is restricted. Internally dedicated resources are reported as general revenues rather than as program revenues. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

For the most part, the effect of interfund activity has been eliminated from the government-wide financial statements. The exception to this general rule is the interfund charges between the Golf Course Fund and the General Fund. Elimination of these interfund activities would distort the direct costs reported for the various functions concerned.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported in separate columns in the fund financial statements, with non-major funds being combined into a single column.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are reported as a receivable and deferred revenue when levied and as revenue upon collection in the following year. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The agency funds use the accrual basis of accounting as well.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989 are generally followed in both the government-wide and proprietary fund financial statements, to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

Note 1. Summary of Significant Accounting Policies (continued)

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources, as they are needed.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period, generally not to exceed 60 days. Revenues from taxes, grants, licenses and interest associated with the current fiscal period are considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the County. Expenditures are generally recorded when the related fund liability is incurred. Exceptions to the general rule include: 1) accumulated unpaid vacation and sick leave pay and 2) principal and interest on general long-term debt, which is recognized when due.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Golf Course Fund and the County's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The County reports the following major governmental funds:

The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except for those required to be accounted for in another fund.

The Road and Bridge Fund reflects costs related to County road and bridge construction and maintenance, with the exception of engineering costs that are recorded in the General Fund.

The Social Services Fund accounts for the many federal and state public welfare programs administered by the County, including Temporary Aid to Needy Families (TANF) and Food Stamps, among others.

The County reports the following major proprietary fund:

The Golf Course Fund accounts for activities of the Riverdale Golf Complex.

Note 1. Summary of Significant Accounting Policies (continued)

Additionally, the County reports the following fund types:

Internal service funds account for the financing of goods and services provided by one department or agency to other departments of the County on a cost reimbursement basis. The internal service funds of the County are the Equipment Service Fund and the Insurance Claims Fund.

Agency Funds account for assets held by the County as an agent for individuals, private organizations, other governments and/or other funds. The Treasurer's agency fund collects and distributes property tax revenue to other governments and funds within the County. The Public Trustee's agency fund collects fees pertaining to deeds of trust transactions and distributes fees collected to mortgage companies, individuals, the County, and other entities as appropriate.

D. Assets, Liabilities, and Net Assets or Fund Balance**1. Deposits and Investments**

The County and its includable entities maintain demand deposits, savings accounts, certificates of deposit, repurchase agreements and other permitted investments with a variety of financial institutions. Deposits and investments are displayed on the Statement of Net Assets as cash and cash equivalents, and investments. Deposits and investments of the Front Range Airport Authority and Public Trustee are held separately from those of other County funds. Deposits are carried at cost plus accrued interest. Investments are stated at fair value.

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, money market accounts and short-term investments with original maturities of three months or less from the date of acquisition. County funds are invested by the Treasurer in accordance with the Public Deposit Protection Act of 1975 and other state statutes.

2. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements and is outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (the current portion of interfund loans) or "advances to/from other funds" (the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Note 1. Summary of Significant Accounting Policies (continued)

Property taxes attach as an enforceable lien on property January 1 and are levied the following January 1. Taxes are payable in full on April 30 or in two installments on February 28 and June 15. Taxes become delinquent June 16.

Since property tax revenue is collected in arrears during the succeeding year, a receivable and a corresponding deferred revenue is recorded at December 31. As the tax is collected in the succeeding year, the deferred revenue is recognized as revenue and the receivable is reduced.

All trade account receivables are shown at actual. Property tax receivables are shown net of allowance for uncollectibles. The property tax receivable allowance is equal to 0.70% of outstanding property taxes at December 31, 2006.

3. Inventories and Prepaid Items

On the government-wide statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. On the fund financial statements, inventories of governmental funds and proprietary funds are stated at cost. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased. Reported inventories in governmental fund types are equally offset by a fund balance reserve that indicates they do not constitute "available spendable resources" even though they are a component of current assets. Inventories of the proprietary funds are expensed when consumed.

For the government-wide statements and the fund statements, payments made to vendors for services that will benefit periods beyond December 31 are recorded as prepaid items using the consumption method, by recording an asset for the prepaid amount and reflecting the expenditure in the year in which the services are consumed.

4. Restricted Assets

Certain resources of the County have been set aside due to restrictions placed on those resources by external entities or by constitutional provision. These restrictions are clearly identified in the government-wide Statement of Net Assets.

As shown in the 2006 statement of net assets, \$4,772,864 has been restricted for emergencies pursuant to the State of Colorado constitutional amendment to Article X, which requires a 3% set-aside of relevant expenditures.

A restriction of \$6,282,422 in the Public Works function represents sales tax monies for specific road and bridge projects.

Note 1. Summary of Significant Accounting Policies (continued)

Lottery proceeds accounted for in the Conservation Trust Fund in the amount of \$862,219 must be restricted for use in the conservation of natural resources, pursuant to the State of Colorado constitutional amendment Article XXVII. An additional restriction for conservation of natural resources in the amount of \$13,540,207 is required based on a voter-approved 0.2% increase in sales tax to be used for the purchase and maintenance of open space.

The amount of \$3,901,032 restricted in the Health and Welfare function is excess Title IV-E money distributed to Social Services. It is restricted due to Senate Bill 91-80, which requires that certain funds provided to Social Services should be used only for child welfare purposes.

The airport noise mitigation restriction of \$657,361 is pursuant to a judicial order requiring the County to set aside excess noise fines paid by Denver International Airport. These funds are used to pay claims made by residents within the County.

The restrictions in the capital projects funds represent voter-approved uses of sales tax revenue. The amount restricted for use by the County's Detention Facility is \$7,186,314, and the amount restricted for use by the County's Courthouse is \$5,126,095.

5. Capital Assets

Capital assets, which include land, buildings, equipment and infrastructure assets purchased or constructed after 1980, (i.e. roads, bridges, drainage and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and proprietary funds in the fund financial statements. Capital assets are defined by the County as assets with an initial, individual cost of \$2,500 or more and an estimated useful life of one year or longer. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

The County reports infrastructure assets on a project and a project-segment basis. The amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide and proprietary fund financial statements regardless of their amount. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Donated capital assets are recorded at estimated fair market value at the date of donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Note 1. Summary of Significant Accounting Policies (continued)

Capital assets of the primary government and enterprise funds are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings	40
Building Improvements	15
Infrastructure	60
Vehicles and Heavy Equipment	3 to 5
Office Equipment	3 to 5

6. Deferred Revenues

Deferred revenues include property taxes that are levied for a subsequent period and grant fund revenues that have been collected but corresponding expenditures have not been incurred. Gains on sale/leaseback of capital leases are being amortized over the life of the related lease and are also recorded as deferred revenue in the financial statements.

7. Claims Liabilities

The County's claims liabilities are based on estimates of the ultimate cost of claims (including unallocated loss adjustment expenses) that have been reported but not settled. Also included are estimates for claims incurred but not reported. Estimated amounts to be recovered under excess coverage insurance are deducted from the liability for unpaid claims.

The projected claims liabilities are estimates used by management and provided by a third party actuary, whom has issued separate reports for the workers' compensation and general liability programs, and as such are subject to variability. This potential for variability is due to the fact that not all of the factors affecting the projections have taken place and cannot be evaluated with certainty. These factors include, but are not limited to, potential tort reform, future inflation, future judicial proceedings, and future jury awards.

Management's projections are based upon the County's historical experience. County management has not anticipated any extraordinary changes in the various factors that might affect the future costs of claims. County management uses methods that it believes produce reasonable results given current information. Claims liabilities are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claims frequency, and other economic and social factors. Claims liabilities are not discounted.

Note 1. Summary of Significant Accounting Policies (continued)**8. Compensated Absences**

County employees accumulate vacation and sick leave to a maximum amount which is dependent on a combination of months of service and the employment status of permanent part-time or full-time. Temporary employees do not accumulate vacation and sick leave.

In governmental funds, accumulated unpaid vacation and sick leave will not generally be paid with expendable and available fund resources. Therefore, these liabilities are being reported on the government-wide financial statements, but the liability is reported at the fund level only when due. Compensated absences are liquidated out of the fund in which the employee was paid.

9. Long-Term Liabilities

In the government-wide financial statements, and in proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type on the Statement of Net Assets. In the governmental fund statements the face amount of the debt is reported as other financing sources.

10. Contingent Liabilities

At December 31, 2006, the County is a defendant in lawsuits that allege negligence, deprivation of civil rights, and/or racial or sexual discrimination, personal injury, property damage, and other miscellaneous claims. The outcome of these matters is currently unknown, however, management and legal counsel are of the opinion that the claims against the County resulting from such litigation and not covered by insurance may not materially affect the financial statements of the County.

Under the Colorado Revised Statutes 13-60-101 and 24-10-113, should the courts sustain any of the litigation against the County, the County may levy sufficient ad valorem property taxes to cover any resulting expenditures not anticipated in the current year. This tax levy is limited to ten mills per year.

The County participates in several federally-assisted grant programs, such as the Community Services Block Grant, Community Development Block Grant, Head Start, Social Services grant flow-through, and the Workforce Investment Act. The determination of the eligibility of the recipients of these federally-assisted programs is made internally. All programs and eligibility determinations are subject to program compliance reviews by the grantors or their representatives. The amount, if any, of expenditures that may be disallowed by the granting agencies is not determinable at this time, although the County expects such amounts, if any, should not materially affect the financial statements.

Note 1. Summary of Significant Accounting Policies (continued)**11. Fund Balance**

In the fund financial statements, governmental funds report reservations of fund balances for amounts that are not available for appropriation or are legally restricted by outside parties to use for a specific purpose.

The County uses the following reservations of fund balance:

Reserved for Inventory - This reservation segregates a portion of fund balance to indicate that inventories do not represent available, spendable resources, even though they are a component of net assets. In 2006, \$548,165 is reserved in the Road and Bridge Fund for inventory (salt, sand, gravel, culverts, etc.).

Reserved for Emergencies - This reservation in the Contingent Fund represents the 3% legal restriction pursuant to Article X, Section 20 of the State Constitution. The reservation totaled \$4,772,864 in 2006.

Reserved for IV-E Program – This reservation of \$3,901,032 designates excess Title IV-E money distributed to Social Services for child welfare purposes.

Governmental funds also report designations of fund balances that represent tentative management plans that are subject to change. They are not legally required segregations. The County uses the following designations in the General Fund (totaling \$3,656,358 in 2006):

Designated for Brantner Lake - An amount of \$105,345 is segregated for the construction and protection of Brantner Lake water storage at the regional park complex. This includes the net amount of royalties remaining for the relining of the sand and gravel pits.

Designated for Public Land Dedication Fees - An amount of \$143,586 is designated for Regional Park and park facilities improvements. This is the County's portion of cash collected in-lieu of developer's public land dedications.

Designated for the Sheriff's Office - An amount of \$71,630 is designated for use by the Sheriff's Office. A portion of these funds, \$58,513, represents monies collected from the rental of the shooting range to other law enforcement agencies and is used to pay for future improvements made to the facility. The remaining portion, \$13,117, represents donations received from various sources to be used by the Sheriff's Office.

Designated for DIA - An amount of \$2,900,632 segregates a portion of fund balance in the General Fund to indicate a designation for monies received from the City and County of Denver from the settlement of the Denver International Airport noise mitigation lawsuit. These funds include monies held by the County for payment of noise claims and legal costs.

Note 1. Summary of Significant Accounting Policies (continued)

Designated for Special Transit - An amount of \$334,638 segregates a portion of fund balance to indicate a designation for use by the County's Special Transit program. This program provides transportation services to senior citizens and persons with disabilities within the County. The designation accumulates revenues with the specific purpose of funding the program. The program receives grants prior to expenditures, which allows an accumulation of fund designation.

Designated for CSU Programs - An amount of \$100,527 segregates a portion of fund balance to indicate a designation for use by the Colorado State University Extension Office. This designation includes accumulated revenues in excess of certain expenditures for CSU Extension programs, which include agriculture, horticulture, family and consumer science education, commercial greenhouse, nutrition, and 4-H youth.

The County uses the following designation in the Road and Bridge Fund:

Designated for Traffic Impact Fees - An amount of \$1,283,450 segregates a portion of fund balance to help cover the cost of expanding the County's major road systems and deal with increased traffic demands due to expansion in the County. Fees not spent within the specified period of time must be refunded to the payor with interest.

The County uses the following designation in the Waste Management Fund:

Designated for Hazardous Waste - An amount of \$758,738 segregates a portion of fund balance to indicate a designation for unforeseen contingencies pertaining to hazardous waste management by the County.

12. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through external restrictions imposed by creditors, grantors, laws, or regulations of other governments.

Note 2. Reconciliation of Government-wide and Fund Financial Statements**A. Explanation of certain differences between the governmental fund Balance Sheet and the government-wide Statement of Net Assets**

The governmental funds Balance Sheet includes a reconciliation between fund balance – total governmental funds, and net assets – governmental activities, as reported in the government-wide Statement of Net Assets. One element of that reconciliation explains, “long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.” The detail of this (\$32,680,169) difference is as follows:

Capital Leases Principal Payable	\$ (21,040,000)
Capital Leases Interest Payable	(85,763)
Compensated Absences	<u>(11,554,406)</u>
 Net adjustment to reduce fund balance - total government funds to arrive at net assets - governmental funds	 <u>\$ (32,680,169)</u>

B. Explanation of certain differences between the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances and the government-wide Statement of Activities

The governmental funds Statement of Revenues, Expenditures and Changes in Fund Balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government-wide Statement of Activities. One element of that reconciliation explains, “Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The detail of this \$25,654,337 difference is as follows:

Capital Outlay	\$ 40,326,220
Depreciation Expense	<u>(14,671,883)</u>
 Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	 <u>\$ 25,654,337</u>

Note 2. Reconciliation of Government-wide and Fund Financial Statements (continued)

Another element of the reconciliation states, “The net effect of various miscellaneous transactions involving capital assets (i.e. sales, trade-ins, and donations) is to increase net assets.” The detail of this \$10,577,95012 is as follows:

Capital Asset Donations	\$ 10,740,920
Loss on Disposal of Assets	<u>(162,970)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ 10,577,950</u>

The reconciliation also states, “Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The detail of this (\$916,807) difference is as follows:

Compensated Absences	\$ (640,702)
Accrued Interest	5,404
Decrease in Inventory	<u>(281,509)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ (916,807)</u>

Note 3. Legal Compliance

A. TABOR Amendment

In November 1992, the voters of the State of Colorado approved Amendment I to Article X, Section 20, of the State Constitution. This amendment is popularly known as the TABOR (**T**axpayer’s **B**ill **O**f **R**ights) Amendment.

The TABOR amendment limits growth in both state and local government expenditures and revenues. Annual local government expenditure and revenue increases are limited to inflation in the prior calendar year plus annual local growth. In order to increase revenues and/or expenditures above the limitations, to increase any taxes, to increase the mill levy, or to increase bonded debt, a local government must first obtain voter approval in an election held for such purposes annually in November.

Note 3. Legal Compliance (continued)

The policy of the County is to take into consideration all the provisions of the TABOR Amendment and to fully comply with the amendment, as well as to assure that the County is able to continue to provide a cost-effective delivery of services, facilities, and programs to all County residents. In November 2002, the County obtained voter approval to keep and spend all revenues it receives from current tax rates and other revenues generated by the County beginning in 2003. With this permission, the County no longer has revenue and spending limitations. However, the County still needs to ask for voter approval to increase tax rates and issue bonded debt. The County will also continue to reserve 3% of fiscal year spending in the Contingent Fund as required by TABOR.

Note 4. Detailed Notes on All Funds**A. Cash and Investments**

Cash and investments at December 31, 2006, consisted of the following:

Deposits	\$ 96,175,520
Investments	<u>102,968,235</u>
Total	<u><u>\$ 199,143,755</u></u>

Cash and investments at December 31, 2006 reported in government-wide and agency funds consisted of the following:

Government-wide	\$ 187,777,727
Agency Funds	<u>11,366,028</u>
Total	<u><u>\$ 199,143,755</u></u>

1. Deposits

The Colorado Public Deposit Protection Act (PDPA) requires that all local governments deposit cash in eligible public depositories. Eligibility is determined by state regulations. The State regulatory commissioners regulate the eligible public depositories. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. The PDPA allows the financial institutions to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. At December 31, 2006, the County had deposits of \$100,391,161 collateralized with securities held by the financial institutions' agents but not in the County's name.

Note 4. Detailed Notes on All Funds (continued)**2. Investments**

The County is required to comply with State statutes which specify investment instruments meeting defined rating, maturity, and concentration risk criteria in which local governments may invest, which include the following. State statute does not address custodial credit risk.

- Obligations of the United States and certain U.S. Agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Banker's acceptance of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

The County has no investment policy that would further limit its investment choices.

At December 31, 2006, the County had the following investments:

	S & P Rating	Investment Maturities			Fair Value
		Less than 1 Year	2 Years	3-5 years	
Local Government Investment Pools	AAA	\$ 37,431,119	\$ -	\$ -	\$ 37,431,119
Money Market Funds	AAA	4,065,303	-	-	4,065,303
U.S. Agency Securities	AAA	20,993,923	7,669,617	25,815,226	54,478,766
Repurchase Agreements	N/A	6,993,047	-	-	6,993,047
Total		<u>\$ 69,483,392</u>	<u>\$ 7,669,617</u>	<u>\$ 25,815,226</u>	<u>\$ 102,968,235</u>

3. Credit Risk

State statutes limit investments in U.S. Agency securities to the highest rating issued by two or more nationally recognized statistical rating organizations (NRSROs). State statute also limits investments in money market funds to those that maintain a constant share price, with a maximum remaining maturity in accordance with Rule 2a-7, and either have assets of one billion dollars or the highest rating issued by a NRSRO.

Note 4. Detailed Notes on All Funds (continued)**4. Concentration of Credit Risk**

State statute does not limit the amount the County may invest in one issuer. At December 31, 2006, the County's investments in Federal National Mortgage Association, Federal Home Loan Bank, and Wells Fargo repurchase agreement represented 15%, 36% and 7% respectively, of the County's total investments.

5. Local Government Investment Pool

The County also had \$28,307,993 invested in Colorado Surplus Asset Fund Trust (CSAFE), and \$9,123,126 in Colorado Local Government Liquid Asset Trust (COLOTRUST). These are investment pool trusts established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces the requirements of creating and operating CSAFE and COLOTRUST. These pools operate similarly to a money market fund with each share equal in value to \$1.00. CSAFE and COLOTRUST are rated AAA by Standard & Poor's. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. Substantially all securities owned are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by the participating governments.

6. Interest Rate Risk

State statutes limit the maturity of investments in U.S Agency securities and repurchase agreements to an original maturity of five years unless the governing board authorizes the investment for a period in excess of five years.

B. Receivables and Payables

Receivables as of year-end for all governmental funds, internal service funds and the enterprise fund, including the applicable allowances for uncollectible accounts, are as follows:

	Governmental Funds	Internal Service Funds	Total	Enterprise Fund
Receivables:				
Taxes	\$ 110,599,462	\$ -	\$ 110,599,462	\$ -
Accounts	<u>11,876,169</u>	<u>44,189</u>	<u>11,920,358</u>	<u>12,925</u>
Gross Receivables	122,475,631	44,189	122,519,820	12,925
Less: Allowance for Uncollectibles	<u>(774,196)</u>	<u>-</u>	<u>(774,196)</u>	<u>-</u>
Net Total Receivables	<u>\$ 121,701,435</u>	<u>\$ 44,189</u>	<u>\$ 121,745,624</u>	<u>\$ 12,925</u>

Note 4. Detailed Notes on All Funds (continued)

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period.

At the end of the current fiscal year, the various components of deferred revenue reported in the governmental funds were as follows:

	<u>Unavailable</u>
Property Taxes Receivable, Levied for Subsequent Year	\$ 109,825,266
Deferred Gain on Capital Leases	3,723,726
Grant Advance Funding	144,794
Other Deferred Revenue	<u>108,367</u>
Total Deferred Revenue, Governmental Funds	<u>\$ 113,802,153</u>

Payables as of year-end for all governmental funds, internal service funds, and the enterprise fund are as follows:

	<u>Governmental Funds</u>	<u>Internal Service Funds</u>	<u>Total</u>	<u>Enterprise Fund</u>
Payables:				
Due to Vendors	\$ 12,885,176	\$ 369,637	\$ 13,254,813	\$ 36,022
Salaries & Employee Benefits	1,410,290	32,039	1,442,329	-
Deposits Payable	<u>500</u>	<u>20,083</u>	<u>20,583</u>	<u>-</u>
Total Payables	<u>\$ 14,295,966</u>	<u>\$ 421,759</u>	<u>\$ 14,717,725</u>	<u>\$ 36,022</u>

Note 4. Detailed Notes on All Funds (continued)**C. Capital Assets****1. Governmental and Business-type Activities**

Capital asset activity for the year ended December 31, 2006 for governmental and business-type activities was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental Activities:				
Capital Assets, Not Being Depreciated:				
Land	\$ 29,705,720	\$ 5,403,832	\$ -	\$ 35,109,552
Construction in Progress	59,427,337	42,544,011	(78,277,327)	23,694,021

Front Range Airport Authority Capital Assets, Net	<u>\$ 27,603,369</u>	<u>\$ (399,344)</u>	<u>\$ (160,962)</u>	<u>\$ 27,043,063</u>

3. Depreciation Expense

Depreciation expense has been charged to functions of the primary government as follows:

Governmental Activities:	
General Government	\$ 1,810,663
Conservation of Natural Resources	50,500
Culture and Recreation	423,181
Economic Opportunity	48,333
Health and Welfare	745,070
Public Safety	4,888,302
Public Works	6,699,029
Urban Redevelopment and Housing	6,804
Capital assets held by the government's internal service funds are charged to the various functions based on their usage of the asset	<u>2,251,594</u>
Total Depreciation Expense - Governmental Activities	<u>\$ 16,923,476</u>
Business-type Activities:	
Adams County Golf Courses	\$ 333,566
Total Depreciation Expense - Business-type Activities	<u>\$ 333,566</u>

Note 4. Detailed Notes on All Funds (continued)**4. Construction Commitments**

The County has numerous active construction projects as of December 31, 2006. These projects include road and street improvements, drainage improvements, and a new touch-screen locking system at the Detention Facility. At year-end, the County's commitments with contractors are as follows:

Project	Expenditures to Date	Remaining Commitment
Mann-Nyholt Lake Restoration	\$ 12,083	\$ 12,867
Detention Facility Touch-screen Locking System	2,831,418	334,994
Justice Center Security Barrier Upgrade	308,200	8,800
Goat Hill Area Street Improvements	235,980	64,020
56th Avenue Improvements	15,291	105,639
Lowell Boulevard Improvements	139,353	95,161
Pecos Street Improvements	421,983	118,017
Washington Street Improvements - Phase III	727,360	162,919
120th Avenue Improvements (Trussville to Imboden)	774,742	2,911,251
Dahila Pond/Kentwood Outfall	671,891	91,822
Utah Junction/Clay Street Outfall	118,379	85,248
Total	\$ 6,256,680	\$ 3,990,738

D. Interfund Receivables, Payables and Transfers

The composition of interfund balances as of December 31, 2006 is as follows:

	Receivable Fund:			Total
	General Fund	Nonmajor Governmental Funds	Internal Service Funds	
Payable Fund:				
General Fund	\$ -	\$ 813,061	\$ 1,870,645	\$ 2,683,706
Road and Bridge Fund	1,000,703	-	-	1,000,703
Social Services Fund	229,968	-	-	229,968
Nonmajor Governmental Funds	1,475,442	-	-	1,475,442
Internal Service Funds	578,969	-	-	578,969
Golf Course Fund	346,090	-	-	346,090
Total Interfund Payables	\$ 3,631,172	\$ 813,061	\$ 1,870,645	\$ 6,314,878
Total Interfund Receivables				\$ 6,314,878

Note 4. Detailed Notes on All Funds (continued)

As shown in the table, at the end of the current year, the General Fund has made a total payment of \$3,631,172 to the County's other funds to cover yearly operating expenses. This amount will be immediately reimbursed to the General Fund in the following year.

The Non-major Governmental Funds reported \$813,061 due from the General Fund at the end of 2006. An amount of \$247,932 due to the Contingent Fund is required in order to comply with the State of Colorado emergency funds requirement in TABOR. An additional amount of \$265,368 in sales tax revenue is due to the Open Space Projects Fund. Other items totaled \$299,761.

The \$1,870,645 total receivable in the Internal Service Funds is made up of two components. First, the Equipment Service Fund has a receivable amount of \$1,562,114 due from the General Fund for the acquisition of new vehicles purchased for the County in 2006. Second, at the end of each year, the General Fund reimburses the Insurance Fund for the year's expenses incurred in the County's administration, workers' compensation, property and casualty, dental and unemployment programs. For 2006, the total expense reimbursement was \$308,531. This amount will be paid to the Insurance Fund immediately in the following year.

	Transfers In:				Total
	General Fund	Road and Bridge Fund	Governmental Funds	Internal Service Funds	
Transfers Out:					
General Fund	\$ -	\$ -	\$ 497,932	\$ 455,720	\$ 953,652
Road and Bridge Fund	-	-	-	648,822	648,822
Social Services Fund	-	-	-	30,105	30,105
Nonmajor Governmental Funds	7,572,227	232,536	4,135,601	-	11,940,364
Golf Course Fund	340,000	-	-	-	340,000
Total Transfers Out	<u>\$ 7,912,227</u>	<u>\$ 232,536</u>	<u>\$ 4,633,533</u>	<u>\$ 1,134,647</u>	<u>\$ 13,912,943</u>
Total Transfers In					<u>\$ 13,912,943</u>

As identified above, at the end of the current year, the total amount transferred to the General Fund was \$7,912,227. Of this amount, \$3,486,166 represented the employer's contribution portion from the Retirement Fund. An additional \$528,950 transferred from the Retirement Fund as of December 31, 2006 of the remaining fund balance of the Retirement Fund when it was closed out pursuant to resolution (see Note 9 for more information).

An amount of \$2,941,964 was transferred from the Detention Facility Fund to the General Fund for the purpose of covering the incremental operating and capital costs associated with the Detention Facility.

Note 4. Detailed Notes on All Funds (continued)

The Board of County Commissioners determines on an annual basis if the fund balance in the Golf Course Fund can support a reimbursement of a past capital contribution. The Golf Course Fund reimbursed the General Fund \$340,000 in 2006.

Also in 2006, \$247,932 was transferred from the General Fund to the Contingent Fund in order to supplement the TABOR requirement.

The Open Space Sales Tax Fund transferred \$3,075,336 to the Open Space Projects Fund for the acquisition of open space in the County, including the Mazzotti, Smith, and Lueck property purchases.

The General Fund transferred \$455,720 and the Road and Bridge Fund transferred \$648,822 to the Equipment Service Fund for the acquisition of new vehicles for the County in 2006.

E. Leases**1. Operating Leases**

The County has entered into various lease obligations for both office space and office equipment. The County also receives building usage fees from grant programs including but not limited to Social Services, Workforce Investment Act and Headstart. The amount expended during the year as total lease payments in governmental funds is \$3,131,031, and \$4,495 in the proprietary funds. The following is a schedule of estimated annual lease payments for leases the County plans to renew as of December 31, 2006:

<u>Year</u>	<u>Annual Lease Payments</u>
2007	\$ 971,303
2008	644,230
2009	504,331
2010	418,959
2011	98,542
2012	26,370
Total	<u>\$ 2,663,735</u>

2. Capital Leases

The County has entered into two sale-leaseback transactions for the sale and subsequent repurchase of several existing county properties. The 1999 transaction resulted in the sale-leaseback of two buildings, the Human Services Building and the Children and Family Services Building. The sale of these buildings provided financing for the construction of the Adams County Service Center (Sheriff Substation), which was completed in 2001. The 2003

Note 4. Detailed Notes on All Funds (continued)

transaction resulted in the sale-leaseback of the Adams County Service Center to provide financing for the purchase and remodel of the Western Service Center and the construction of the Offices of the District Attorney. The Western Service Center opened in February 2004 and the Offices of the District Attorney opened in May 2004.

The 1999 sale-leaseback runs through November 2014 and the 2003 sale-leaseback ends on December 2024. Interest rates on these sale-leasebacks vary by year, 5.4% to 4.75% and 4.75% to 3.0% respectively.

The assets acquired through these capital leases are recorded as capital assets of the County. They are recorded as follows: The Human Services Building at \$8,385,473, the Children and Family Services Building at \$2,714,527 and the Adams County Service Center for \$15,890,000 for a total of \$26,990,000. The future minimum lease obligations, subject to annual appropriation, and the net present value of these minimum lease payments as of December 31, 2006 are as follows:

<u>Year Ending December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2007	\$ 1,345,000	\$ 918,526	\$ 2,263,526
2008	1,395,000	865,401	2,260,401
2009	1,450,000	809,399	2,259,399
2010	1,510,000	750,699	2,260,699

F. Long-Term Liabilities

During the year ended December 31, 2006, the following changes occurred in long-term liabilities:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental Activities					
Capital Leases	\$ 22,340,000	\$ -	\$ (1,300,000)	\$ 21,040,000	\$ 1,345,000
Claims	4,011,721	495,206	(1,655,327)	2,851,600	970,170
Compensated Absences	11,016,971	8,660,927	(7,994,757)	11,683,141	708,190
Total Long-Term Liabilities	<u>\$ 37,368,692</u>	<u>\$ 9,156,133</u>	<u>\$ (10,950,084)</u>	<u>\$ 35,574,741</u>	<u>\$ 3,023,360</u>

Note 5. Insurance Claims Fund

The insurance activities of the County are accounted for in this internal service fund. The dental plan and unemployment claims plan are self-funded. The workers' compensation plan and the property and casualty program are high-deductible plans as defined below.

The County uses excess insurance coverage to limit the exposure to large losses on the self-funded workers' compensation plan and the property and casualty programs. Excess insurance permits the recovery of a portion of the losses from insurance claims, although it does not discharge the primary liability to the County. There are no reductions in insurance coverage from prior years. Settlement amounts have not exceeded insurance coverage for any of the past three years.

The County's liability for unemployment benefits is determined by the State of Colorado Department of Labor and Employment. All claims for benefits are paid on a reimbursement basis.

Workers' Compensation claims are administered through an intergovernmental agreement for shared services with the Jefferson County School District R-1 as administrator. The program is supported through premiums charged to the departments. Coverage is provided through a combination of self-insurance and an excess insurance policy. The County's maximum liability for workers' compensation claims under the self-insurance plan is \$500,000 per claim.

The property and general liability programs are also accounted for in this fund. Current protection is provided through a combination of self-insurance and an excess insurance policy. Under a general liability claim, the County will assume the first \$250,000 per occurrence. Covered claims over these amounts are covered by excess insurance up to \$6 million per occurrence with a \$6 million annual aggregate. Under employment discrimination liability the County is responsible for the first \$500,000 with an annual aggregate limit of \$6 million. Property is protected by an excess insurance policy for replacement cost subject to a deductible of \$50,000 per occurrence.

The following represents changes in unpaid claims liabilities during the past two years:

	<u>General Liability</u>		<u>Workers' Compensation</u>		<u>Dental Plans</u>	
	<u>2006</u>	<u>2005</u>	<u>2006</u>	<u>2005</u>	<u>2006</u>	<u>2005</u>

Note 6. Defined Benefit Pension Plan**A. Plan Description**

The County contributes to the Adams County Retirement Plan (the Plan), which is a cost-sharing multi-employer public employee retirement system (PERS). The Plan is a defined benefit pension plan. The County and Rangeview Library District are currently the only participating employers in the Plan. The Plan includes all full-time and permanent part-time employees working 30 hours or more per week. The Plan provides retirement, disability and death benefits. All benefits are determined by the requirements established by the Plan. Benefit provision changes are made by the Adams County Retirement Board which was established under the authority of Colorado Revised Statutes 24-54-107. The Adams County Retirement Board is the administrator of the Plan

The Plan issues a publicly available annual financial report that may be obtained by writing to Adams County Retirement Plan, 450 South 4th Avenue, Brighton, Colorado, 80601 or by calling 303-654-6167.

B. Funding Policy

The authority for establishing the funding policy for the Plan is vested in the Board of County Commissioners. The Commissioners mandate the contribution obligation of the County and the employees by resolution. The current funding policy calls for equal contributions of 6.75% of base salaries from the County and from covered employees. The County contributed \$5,047,968 at the rate of 6.75% during 2006. This amount represents 100% of the contribution required by the funding policy as of December 31, 2006. The total contributions made by the County in 2005 and 2004 were \$4,472,370 and \$4,054,317 respectively. These amounts also represented 100% of the contributions required by the funding policies for 2005 and 2004.

Note 7. Other Post-Employment Benefits

The County offers post-employment health insurance benefits to employees that meet the eligibility requirements for retirement and retire from the County. The County contributes up to \$50 per month towards group health insurance premiums for those participants with retirement dates after January 1, 1991. On October 29, 1990, the Board of County Commissioners adopted a resolution approving the Retiree Health Care Plan. The plan is funded on a pay-as-you-go basis. In 2006, the County paid \$164,212 towards the insurance premiums. As of December 31, 2006, 277 retirees are receiving benefits through the retirement group health care insurance program. Presently no other post-employment benefits are offered.

Note 8. Conduit Debt Obligations

The County has participated in various issuances of bonds, including private activity bonds, single and multi-family housing mortgage revenue bonds, and industrial development revenue bonds. These bonds are not direct or contingent liabilities of the County in any manner. Revenues from the facilities constructed or from mortgages are pledged for the total payment of principal and interest. Bondholders can only look to these sources for repayment. As of December 31, 2006, a total of \$452 million of bonds are outstanding as conduit debt.

Note 9. Other Information

On December 18, 2006, the Board of County Commissioners resolved to close out the Retirement Fund, a special revenue fund of the County. The fund was established in 1970 to account for the collection of general property taxes with the specific purpose of making employer contributions for the General Fund and the Road and Bridge Fund to the Pension Plan. Due to the fact that the contribution rate continues to increase, the taxes collected no longer fully support the County's required contribution to the Plan and the contributions are made from each individual County fund with employees participating in the Plan. Fund balance remaining in the Retirement Fund as of December 31, 2006 was transferred to the General Fund.

On November 6, 2001, Adams County citizens voted to continue the imposition of a one-half of one percent sales tax, which was originally approved by the voters on November 2, 1999. This tax was approved for the purpose of capital improvements to or the building of road and bridge projects due to deficiency in roadway infrastructure. The tax took effect on January 1, 2002 and ends December 31, 2008. On November 7, 2006, voters approved an extension of the one-half of one percent sales tax until December 31, 2028. It was also approved that this sales tax will be split into two components, 0.2% for transportation and 0.3% for capital facilities.

On November 2, 2004 the citizens of Adams County authorized the extension of an existing county-wide sales tax of one-fifth of one percent through December 31, 2026, with an increase to one-fourth of one percent effective January 1, 2007. This sales tax revenue will be used to preserve open space and create and maintain parks and recreation facilities in the County.

**ADAMS COUNTY, COLORADO
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
DECEMBER 31, 2006**

Note 1: Budgetary Information

Budgets for all governmental funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgets for the proprietary funds are adopted on a non-GAAP basis. The County follows the policy of adopting a legal budget for all funds except the fiduciary funds. The legal level of control is at the fund level or spending agency level. Department heads are authorized to transfer budgeted amounts between line items within their spending agency. Any revisions that alter the total budgeted expenditures of a fund or spending agency require supplemental appropriation, which needs approval from the Board of County Commissioners. Appropriations lapse at year end for all funds with legally adopted budgets.

The County adheres to the following schedule in establishing the budget:

October 15	Deadline for submission of proposed budget to Board of County Commissioners.
Early December	Public hearings on proposed budget.
December 15	Adoption and appropriation of County budget completed.
January 31	Deadline for filing certified budget with State Division of Local Government.

Note 2: Budgeting, Budgetary Control and Legal Compliance

Appropriations over Revenues and Available Resources

The following table reflects those funds which had more budgeted expenditures than budgeted revenues and available resources for the year ended December 31, 2006, which may be a violation of Colorado Revised Statutes.

Fund	Available Resources	Appropriation	(Over)
DIA Noise Mitigation Fund	\$3,304,471	\$3,533,771	(229,300)

Adams County, Colorado
Explanation of Funds
Non-major Special Revenue Funds

Special Revenue Funds are used to finance and account for revenue derived from specific taxes or other earmarked revenue sources, which cannot be diverted for other purposes.

CONTINGENT FUND-Colorado counties are required by state law to maintain a Contingent Fund. The Contingent Fund records the funds which the County would use to cover expenditures not reasonably foreseen at the time of adoption of the budget.

RETIREMENT FUND-The Retirement Fund is used to reflect the collection of general property taxes for the specific purpose of making contributions to the Adams County Retirement Plan for the General and Road and Bridge Funds.

DEVELOPMENTALLY DISABLED FUND-The Developmentally Disabled Fund is used to report the collection of property taxes for the specific purpose of making contributions to the developmentally disabled programs of Adams County.

OPEN SPACE FUND-The Open Space Fund accounts for revenues received from proceeds on sale of county land. The interest earned on the proceeds will be used to purchase open space for the benefit of county residents.

CONSERVATION TRUST FUND-The Conservation Trust Fund accounts for revenue received from the State to be used for the acquisition, development and maintenance of park and trail systems within the County.

WASTE MANAGEMENT FUND-The Waste Management Fund accounts for all revenues received from service fees imposed on operators of solid waste disposal sites. The proceeds are restricted for the purpose of monitoring and redefining environmental problems associated with waste disposal activities.

OPEN SPACE PROJECTS FUND-The Open Space Projects Fund was established for the purpose of consolidating the various sources of open space funding into one fund, and to designate and track expenditures solely for open space projects.

OPEN SPACE SALES TAX FUND-The Open Space Sales Tax Fund accounts for revenues received from a sales tax of one-fifth of one percent on sales in the County, for the purpose of preserving open space and creating and maintaining parks and recreation facilities.

DIA NOISE MITIGATION FUND-The DIA Noise Mitigation Fund was established for the purpose of tracking revenues and expenditures associated with revenues and payments made related to noise mitigation. Revenues received from settlement with Denver International Airport for violations, including interest earned, were restricted by the District Court in Jefferson County, which required the creation of this special fund.

COMMUNITY DEVELOPMENT BLOCK GRANT FUND (CDBG)-The CDBG Fund is used to account for revenues and expenditures related to the Department of Housing and Urban Development Community Development Block Grant.

HEAD START FUND-The Head Start Fund is used to account for the revenues and expenditures under a federal grant received from the Department of Health and Human Services. Also, funds are received from the United States Department of Agriculture passed through the Colorado Department of Public Health and Environment for reimbursement for meals served to underprivileged children. Expenditures are made under the grant to provide various educational programs for low-income pre-school children.

OTHER HUMAN SERVICES FUND-The Other Human Services Fund is used to account for revenues and expenditures related to small human services programs administered by Adams County.

COMMUNITY SERVICES BLOCK GRANT FUND (CSBG)-The CSBG Fund is used to account for revenues and expenditures related to Department of Human Services Community Services Block Grant.

WORKFORCE AND BUSINESS CENTER FUND (formerly EMPLOYEMENT AND TRAINING FUND)-The Workforce and Business Fund is used to account for revenues and expenditures received as grants from the Federal Department of Labor and State, to meet community needs for employment training and job placement.

Adams County, Colorado
Explanation of Funds
Non-major Capital Project Funds

Capital Project Funds are used to account for the acquisition and construction of major capital facilities other than those financed by Proprietary Funds and Trust Funds.

DETENTION FACILITY EXPANSION FUND-This fund is used to account for the expansion of the Detention Facility. An extension of a previous temporary sales tax of one-half of one percent in the County is used to finance this project.

COURTHOUSE CONSTRUCTION FUND-This fund is used to account for the construction of a new courthouse. A temporary sales tax of one-half of one percent was used to finance this project.

Adams County, Colorado
Explanation of Funds
Enterprise Fund

Enterprise Funds account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

GOLF COURSE FUND-The enterprise fund used to account for the financial operations of the Riverdale (Adams County) Golf Complex.

Adams County, Colorado
Explanation of Funds
Internal Service Funds

Internal service funds account for the financing of goods and services provided by one department or agency to other departments of the County on a cost reimbursement basis.

EQUIPMENT SERVICE FUND-The Equipment Service Internal Service Fund is used to account for the revenues generated from internal rental charges of vehicles, equipment and maintenance costs provided to other departments.

INSURANCE CLAIMS FUND-The Insurance Claims Internal Service Fund is used to account for the self-insurance activities of the County. The County is self insured for unemployment and a dental program. The workers' compensation and property and casualty programs are high deductible plans.

Adams County, Colorado
Explanation of Funds
Agency Funds

The Agency Funds account for assets held by the County as an agent for individuals, private organizations, other governments and/or other funds.

TREASURER'S FUND-The Treasurer's Fund accounts for all monies collected (principally tax collections) by the Adams County Treasurer for various local governmental units within the County.

PUBLIC TRUSTEE'S FUND- The Public Trustee's agency fund collects fees pertaining to deeds of trust transactions and distributes fees collected to mortgage companies, individuals, the County and other entities as appropriate.

Board of County Commissioners
Adams County, Colorado

**INDEPENDENT AUDITORS' REPORT ON SCHEDULE OF
EXPENDITURES OF FEDERAL AWARDS**

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Adams County, as of and for the year ended December 31, 2006, which collectively comprise the basic financial statements of Adams County, and have issued our report thereon dated May 25, 2007. These financial statements are the responsibility of Adams County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards*, issued by the Comptroller General of the United States, and the provisions of Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Adams County's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. The information in this schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

May 25, 2007

ADAMS COUNTY, COLORADO
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the Year Ended December 31, 2006

NOTE 1: BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards is presented in accordance with the requirements of OMB Circular A-133 *Audits of States, Local Governments, and non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in the financial statements.

NOTE 2: SUBRECIPIENTS

The following programs receiving funds from U.S. Department of Housing Urban Development and the U.S. Department of Health and Human Services passed through the Colorado Department of Local Affairs provided awards to subrecipients as follows:

<u>Agency/Program Title</u>	<u>CFDA #</u>	<u>Amount Provided to Subrecipients</u>
Community Development Block Grant	14.218	\$1,589,120
HOME Partnership Investment Act	14.239	747,371
Community Service Block Grant	93.569	86,864

Board of County Commissioners
Adams County, Colorado

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Adams County, as of and for the year ended December 31, 2006, which collectively comprise the basic financial statements of Adams County, and have issued our report thereon dated May 25, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Adams County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Adams County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Adams County's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Adams County's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of Adams County's financial statements that is more than inconsequential will not be prevented or detected by Adams County's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by Adams County's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Adams County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of County Commissioners, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

May 25, 2007

Board of County Commissioners
Adams County, Colorado

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND
ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH OMB CIRCULAR A-133**

Compliance

We have audited the compliance of Adams County with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended December 31, 2006. Adams County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Adams County's management. Our responsibility is to express an opinion on Adams County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Adams County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Adams County's compliance with those requirements.

In our opinion, Adams County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended December 31, 2006.

Internal Control Over Compliance

The management of Adams County is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Adams County's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Adams County's internal control over compliance.

A control deficiency in Adams County's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Adams County's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by Adams County's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by Adams County's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of County Commissioners, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

ADAMS COUNTY, COLORADO
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended December 31, 2006

Summary of Auditors' Results

Financial Statements

Type of auditors' report issued: Unqualified

Internal control over financial reporting:

- Material weaknesses identified? _____ yes x no
- Significant deficiencies identified that are not considered to be material weaknesses? _____ yes x none reported

Noncompliance material to financial statements noted?

_____ yes x no

Federal Awards

Internal control over major programs:

- Material weaknesses identified? _____ yes x no
- Significant deficiencies identified that are not considered to be material weaknesses? _____ yes x none reported

Type of auditor's report issued on compliance for major programs: Unqualified

Any audit findings disclosed that are required to be reported in accordance with section 510(a) of OMB Circular A-133?

_____ yes x no

Identification of major program:

- | | |
|---|--|
| 17.258 Workforce Investment Act Adult Program | 93.558 Temporary Assistance for Needy Families |
| 17.259 Workforce Investment Act Youth Activities | 93.563 Child Support Enforcement |
| 17.260 Workforce Investment Act Dislocated Workers | 93.568 Low-Income Home Energy Assistance |
| 17.207 Employment Service/Wagner-Peyser Funded Activities | |
| 17.801 Disabled Veterans' Outreach Program (DVOP) | |
| 17.804 Local Veterans' Employment Representative Program | |

Dollar threshold used to distinguish between type A and type B programs: \$2,295,697

Auditee qualified as low-risk auditee? _____ x yes _____ no

Financial Statement Findings

The audit of the financial statements did not disclose significant deficiencies in internal control that would be considered material weaknesses, and did not disclose fraud, illegal acts, violations of provisions of contracts and grant agreements, or abuse that were material to those financial statements.

Federal Awards Findings and Questioned Costs

The audit of federal awards did not disclose significant deficiencies in internal control that would be considered material weaknesses, and did not disclose instances of noncompliance or abuse that were material to those federal awards.
