# Severed Fate

## Summary

### [ **Bleach x Male Reader** ]

A new thread emerges as the old one is severed, weaving a fresh tapestry of possibilities. The once familiar pattern of life is disrupted, and in its wake, a blank canvas awaits the strokes of destiny. The threads of the past, once tightly interwoven, now unravel and drift apart, leaving space for new connections to be formed.

Throughout countless lifetimes, he tirelessly sought after him,  
the one who held the key to his salvation.

In each lifetime, their paths would cross, sometimes as friends,  
sometimes as enemies, but always intertwined in a cosmic dance of destiny.

He would catch glimpses of him in crowded marketplaces,  
fleeting moments of recognition that left him yearning for more.

Yet, just as quickly as he appeared,  
his counterpart would vanish, leaving him with nothing  
but a lingering sense of loss.
