Cubing

Australia Post will assess charges according to their actual weight or cubic weight equivalent, whichever is greater. The cubic weight is the parcel's volume in cubic metres multiplied by 250. Australia Post reserves the right to apply cubic charges to all parcels, and this will be more likely in instances where a parcel is large in size or irregular or cylindrical in shape. Cubing is not applicable on eligible Australia Post packaging products.

For more information visit auspost.com.au/parcels-mail/size-and-weight-guidelines

Maximum weight and size of a parcel accepted over the counter

Maximum weight	22kg
Maximum length	The greatest linear dimension must not exceed 105cm

Cubing

Australia Post will assess charges according to their actual weight or cubic weight equivalent, whichever is greater. The cubic weight is the parcel's volume in cubic metres multiplied by 250. Australia Post reserves the right to apply cubic charges to all parcels, and this will be more likely in instances where a parcel is large in size or irregular or cylindrical in shape. Cubing is not applicable on eligible Australia Post packaging products. For more information visit auspost.com.au/parcels-mail/size-and-weight-guidelines.

Maximum weight and size of a parcel accepted over the counter

Maximum weight	22kg
Maximum length	The greatest linear dimension must not exceed 105cm
Maximum dimension	The maximum cubic dimension must not exceed 0.25m ³

In some instances a Post Office may not have capacity to weigh parcels up to 22kg. In these instances, the Post Office will accept the parcel if a charge can be agreed to. If not, the Post Office may refuse to accept the article.

Authorisations may be declined at some merchants (such as gambling merchants or merchants who choose not to accept Mastercard Prepaid cards). We are not liable in any way when authorisation is declined for any particular transaction except where the authorisation has been declined because of an act or omission on our part. The card can be used for purchasing goods and services where Mastercard Prepaid cards are accepted for electronic transactions (excluding transactions at ATMs or over the counter at financial institutions).

When using the Card with some merchants (such as hotels, taxis, rental cars, restaurants and cruise ships) or for mail order purchases, Card "tolerance limits" may apply. This means that the authorisation or approval obtained on the Card can be for an amount up to 20% or more than the total bill (or anticipated bill) to cover additional items such as tips and incidentals or to ensure that adequate funds are available to cover the final purchase. The entire amount of the authorisation or approval will be debited and will not form part of the available balance until the authorisation or approval clears, although only the amount actually spent or authorised will be finally deducted from the available balance after the authorisation or approval clears.
