Rochester, MN 55902

Customer ID: **2401**
Certificate: **41-B-0239**
Site: 001
DAN MOULTON

Type: PILOT ANNOUNCED INSPECTION
Date: 16-OCT-2018

2.40(b)(3) DIRECT REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The facility currently has found and is treating at least 16 animals that are kept in the 'sick bay' area of the facility. There are several animals that were found during the inspection that had not been identified as having a health issue during the daily inspections of their animals.

Enclosure	Chinchilla sex	Health issue
120C	F	Swollen right eye with pale discharge
110C	F	Swollen, hair loss wound/mass on RR leg, low weight, scours
108C	F	Tight collar causing hair loss and strong odor of skin infection
100B	F	Left eye swollen with pale discharge
	M	Left eye swollen with pale discharge
93A	F	Tight collar causing hair loss with open sore around neck, crusty nose
92A	F	Tight collar causing crusty buildup under chin, open sore around neck
86B	M	Left eye swollen with pale discharge
76A	F	Tight collar causing open sore around neck
71B	F	Right eye swollen with pale discharge
70B	M	Right eye swollen with pale discharge
68B	M	Abscess on right side of neck under chin, swollen and hard
43C	F	Tight collar causing open sore around neck
48C	M	Both eyes with pale discharge
29B		Left eye was crusted and had a pale discharge
30D	F	Both eyes were swollen and had pale discharge
	M	Right eye swollen with pale discharge
33C	F	Left eye was crusted and had pale discharge
35A	F	Under chin was moist and unkempt; touching under jaw had hard bumps; licensee said bumps are likely due to impacted teeth.

Date: 16-OCT-2018

Inspection Report

37C	M	Left eyelids swollen, crusted, pale discharge and pale adhered material to eyeball.
2B	F	Right eye crusted with pale discharge
3C	F	Right eye crusted with pale discharge

Health issues that are not identified in a timely manner can cause unnecessary pain and discomfort to the regulated animals until proper treatment is provided.

The licensee must increase their daily observations to a more detailed look at each animal. This should include looking at both eyes on each animal, and observations of their neck collars to check for tightness.

Inspection and exit interview was conducted with the licensee.

Additional Inspectors

Welch Scott, Veterinary Medical Officer
