About this document

This Financial Services Guide is an important document that includes information about the services we can provide to you under our Australian Financial Services Licence (AFSL).

TAL Life Insurance Services Limited (TLISL) is the providing entity of the financial services. TLISL provides general financial product advice services to life insurance customers. In this guide, references made to 'we', 'us' and 'our' is a reference to TLISL as the providing entity of the financial services.

The purpose of this guide is to help you decide whether to use our services.

It contains important information about:

- TLISL and its related entities within the TAL Group
- the services we are authorised to provide
- other documents you may receive, such as a product disclosure statement when you are issued a life insurance product
- how we can be contacted
- remuneration paid to us or our related entities in relation to the services provided
- how we collect and use your personal information, and
- how to make a complaint and how complaints are dealt with.

Find out more about TLISL on page 6.

Our financial services

We are authorised to provide general financial product advice about and deal in life insurance and superannuation issued by us and other entities within the TAL Group.

We only arrange the issue of superannuation in limited circumstances for existing BT life insurance policy holders.

When a consultant provides you with financial services, they act for TLISL and not for you.

Other documents you may receive

If you choose to use our services, you may also receive a product disclosure statement (PDS).

Generally, where we issue, offer or arrange to issue a financial product to you, we will provide you with a PDS or other disclosure document to help you make an informed decision about the product. It will contain information about the key features and benefits of the product, along with information about the fees and costs payable by you for the product.

Please ensure you carefully read and understand the PDS and other disclosure documents for the product before making a decision to use or acquire that particular product.

General advice

A consultant can provide factual information and general financial product advice. General financial product advice is a recommendation or an opinion about a financial product that doesn't take into account your personal objectives, financial situation and needs.

This means that you must consider whether a financial product meets your personal circumstances and read the PDS before acquiring or disposing of it.

Your consultant will not provide personal advice. Personal advice does take into account one or more of your objectives, financial situation and needs.

Providing instructions to us

You may give us instructions by telephone, in writing or other means by prearrangement with us. How you give us instructions will depend on the services provided to you and the arrangements agreed between you and us.

Phone calls to and from us may be recorded for quality, assurance and training purposes. If you do not wish for your call to be recorded, please tell us when you have been connected.
