General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures.

See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Criminal Justice, B.A. at DuBois Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

- † Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Career Paths

Graduates of the Criminal Justice program are prepared to enter the workforce or can continue their graduate education in Master's and Ph.D. programs, as well as law school. Penn State Altoona Career Services supports and serves students in all areas related to career development and preparation including: Major and Career Exploration Career Decision-Making Preparation of Employment Documents Internship and Job Search Strategies Interview Preparation Preparing for Graduate School Developing your Professional Online Brand Presentations and Workshops.

Criminal Justice, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Beaver, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, New Kensington, Schuylkill, Shenango, Wilkes-Barre

Program Description

Students receiving a baccalaureate degree in criminal justice should understand each of the three main components of the criminal justice system and their interrelationships, be able to evaluate critically both current and future crime control policy proposals and criminal justice research, and understand the complexity of the crime phenomenon and its relationship to individual, social, and cultural factors. This major includes study in law enforcement, courts and corrections individually and as components of a system, plus work in theories of crime causation, and crime control policy. Students should expect reading, writing, and

critical thinking skills to be rigorously applied and developed throughout the degree program. The Bachelor of Arts degree in Criminal Justice provides a broadly based liberal arts background for the study of crime, justice and the criminal justice system. The Bachelor of Science degree offers an opportunity for educational enrichment in fields not traditionally considered part of the liberal arts. Either degree is excellent preparation for a career in criminal justice, graduate, or professional study, or informed citizenship.

What is Criminal Justice?

Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law, public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.

You Might Like This Program If...

You have an interest in working in corrections, courts, court administration, law enforcement, and probation and parole. Students completing this course of study are prepared to enter law school and graduate degree programs in more specialized areas. Every student in this degree will participate in an internship at a host agency located in a local, state or federal agency of their choice.

MORE INFORMATION ABOUT CRIMINAL JUSTICE (<https://altoona.psu.edu/academics/bachelors-degrees/criminal-justice/>)

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Criminal Justice, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	18-22
Requirements for the Major	60-61

4-7 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 0-3 credits of GH courses; 4 credits of GQ courses.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
CRIMJ/CRIM 100	Introduction to Criminal Justice	3
CRIMJ 210	Policing in America	3
CRIMJ 220	Courts and the Prosecution Process	3
CRIMJ 230	Corrections in America	3
CRIMJ 290	Introduction to Internship Experience	2
CRIMJ/CRIM 441	The Juvenile Justice System	3
CRIMJ 450W	Senior Seminar	3
CRIMJ 495	Internship in Criminal Justice	3
SOC/CRIMJ/CRIM 12	Criminology	3
SOC 119N	Race, Ethnicity and Culture	3-4
STAT 200	Elementary Statistics	4

Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
CRIMJ 250W	Research Methods in Criminal Justice	3
or SOC 207	Research Methods in Sociology	
PHIL 103	Ethics	3
or CRIMJ 465	Ethics in Criminal Justice	
Select 9 credits from any 400-level CRIMJ course that does not already fulfill another requirement in the major		9

Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Select 12 credits, in consultation with the adviser, in one or two of the following skill enhancement areas: accounting, computers, composition and rhetoric, counseling, education, law and legal studies, world language, management, public speaking, research methods and statistics, science and engineering, biobehavioral health; or in the following topics: adolescence, deviant behavior, drugs, minorities		12

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits

- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives Beaver, New Kensington, and Shenango Campuses

- Students will be able to have a basic understanding of the nature of the three branches of the Criminal Justice System (Legal, Law Enforcement, Corrections).
- Students will be able to apply analysis and evaluation strategies specific to criminal justice/criminology to formulate solutions to criminological problems.
- The students will have developed a core of criminological knowledge and concepts which will help them understand the functioning of and issues relevant to the criminal justice system.
- Students will be able to understand and apply theories of criminal and deviant behavior, and the behavior of law.
- Students will be able to read and correctly interpret Criminal Justice research and data.
- Students will be able to understand the relationship between culture, social class and criminal justice.
- Students will be able to communicate criminological issues effectively and deliver written and/or oral presentations.
- Students will be able to demonstrate knowledge and application skills regarding the fact that the criminal justice professional must operate in a climate of tolerance and respect where opposing viewpoints can be exchanged openly.
- Students will be able to show professionalism, interact appropriately with colleagues, uphold professional ethical principal, and work ethically, as part of their internships, consistent with professional standards and practices.

DuBois and Greater Allegheny Campuses

- **Know Structure:** Demonstrate understanding around the history, structure, and function of the three branches of criminal justice (Courts, Law Enforcement, Corrections).
- **Know Context:** Demonstrate understanding around the relationship between culture, social class, race and ethnicity, gender and sexuality and criminal justice involvement.
- **Know and Use Theory:** Demonstrate understanding of core theories in criminology and the sociology of deviance along with their relevance to different types of offenses and offenders.
- **Think Critically:** Demonstrate ability to solve criminal justice problems through an understanding of context, the identification of appropriate evidence, and appreciation of potential barriers and limitations.
- **Research:** Demonstrate ability to formulate research questions, implement basic quantitative and qualitative research methods, collect and analyze limited data.
- **Communicate:** Demonstrate ability to effectively communicate practical and theoretical criminal justice issues through papers, visual media, and oral presentations.

Fayette Campus

- **Application of research methods:** Students will create a plan to answer a specific research question related to crime and criminal justice.
- **Evaluation of strategies to reduce crime:** Students will evaluate the effectiveness of prominent crime control policies and strategies.
- **Identification of power structures:** Students will enumerate the motives and forces that determine the shape and scope of criminal law.

- **Identify Alternatives:** Students will identify alternatives to the formal criminal justice systems as a means of facilitating pro-social, non-criminal behaviors.
- **Knowledge of American Criminal Justice System:** Students will identify and describe the components of the American criminal justice system and the processing of cases.
- **Knowledge of crime theories:** Students will identify the elements that comprise the major biological, psychological, and sociological perspectives that attempt to explain the causes of crime.

Hazleton and Wilkes-Barre Campuses

- **Knowledge Base in Criminal Justice:** Students will develop knowledge and understanding of the major components of the criminal justice system and juvenile justice system as well as how these components interact. Student understanding of the criminal justice process will be enhanced through targeted courses in courts, corrections, and policing that highlight the unique needs, challenges, and operation of these components. Across the curriculum, students will be exposed to criminological theories that help to explain the role of gender, race/ ethnicity, and other background characteristics on offending, victimization, and criminal justice processing.
 - Describe key concepts, principles, and overarching themes in criminal justice
 - Develop a working knowledge of criminal justice content domains
 - Describe applications of criminological theory
- **Research Methods:** Students will understand the importance and practical use of social science research methods and the role these play in criminal justice policy.
 - Use scientific reasoning to interpret criminal justice policy
 - Demonstrate criminal justice information literacy
 - Engage in innovative and integrative thinking and problem solving
 - Interpret, design, and conduct basic criminological research
- **Professional Writing and Critical Thinking:** Students will practice writing and critical thinking skills through writing assignments across the curriculum and the completion of at least one writing intensive course.
 - Demonstrate effective writing for different purposes
 - Exhibit effective presentation skills for different purposes
 - Interact effectively with others
 - Demonstrate critical thinking skills concerning issues in criminal justice
- **Ethics:** Students will understand the role of ethics in criminal justice.
 - Apply ethical standards to evaluate criminal justice research and policy
 - Build and enhance interpersonal relationships
 - Adopt values that build community at local, national, and global levels
- **Placement:** Students will be prepared for placement in the criminal justice field through an internship experience.
 - Apply criminal justice content and skills to career goals
 - Exhibit self-efficacy and self-regulation
 - Refine project and time-management skills
 - Enhance teamwork capacity
 - Develop meaningful professional direction for life after graduation

Schuylkill Campus

- Students will be able to have a basic understanding of the nature of the three branches of Criminal Justice System (Legal, Law Enforcement, Corrections)
- Students will be able to have developed critical thinking skills to understand and to formulate solutions to problems relating to criminological issues.
- Students will be able to read and correctly interpret Criminal Justice research and data. Data will be collected from CRIMJ 494 the capstone course for the program.
- Students will be able to demonstrate knowledge and application skills regarding the fact that the criminal justice professional must operate in a climate of tolerance and respect where opposing viewpoints can be exchanged openly.
- Analyze the nature of crime and criminal behavior and their impact on policy related to crime and public safety.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

University Requirements and General Education Notes:

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- Additional CRIMJ 400-level courses: Select at least 9 credits at the 400-level.
- Major Supporting Courses: Select 12 credits, in consultation with adviser. Recommended options include psychology courses (e.g., abnormal, forensic), BBH courses (e.g., Drugs, Behavior and Health), ECON 104 or ECON 102, HDFS courses (e.g., courses on developmental or family problems), or IST or SRA security courses.

Cybersecurity Analytics and Operations, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Beaver, Brandywine, Greater Allegheny, Lehigh Valley, Schuylkill, York

Program Description

The Bachelor of Science in Cybersecurity Analytics and Operations in the College of Information Sciences and Technology (IST) is an interdisciplinary program that prepares students for careers as cybersecurity professionals. It educates students on the essential concepts of cyber-defense and the analytical fundamentals of cybersecurity, with a focus on the analytical and risk management underpinnings and associated cyber-defense techniques and strategies for ensuring the safety of online information stored in large and heterogeneous networks that are embedded within and across the complex socio-technical infrastructures that are pervasive in today's business, government and military organizations. Students will acquire the knowledge and skills needed to critically assess and respond to modern information security threats, using approaches that are grounded in a holistic understanding of adversarial strategies and effective responses. More specifically, it will offer an in-depth and domain-independent approach to the development of skills in cyberdefense technologies, tools and processes; cybersecurity analytics and visualization; and cybersecurity risk analysis and management. The major draws from concepts and skills associated with a number of disciplines, including information science, management science, statistics and data science, human behavior, and law/policy. Graduates

will be prepared to join the rapidly growing cybersecurity workforce deployed across organizations of diverse sizes and missions.

What is Cybersecurity Analytics and Operations?

Cybersecurity is a field that deals with the protection of computer systems, networks, programs, and data from attacks and unauthorized access. This includes the development of cyber defense tools to protect critical infrastructure as well as the analysis and mitigation of cyber threats.

Cybersecurity is a very broad field. This program focuses students beyond the information technology field and instead focuses on the analysis of cybersecurity data, identification of cyber incidents, understanding the actions of malware, communication of concerns to business stakeholders and the general public. High performing cyber analysts have a strong mathematical and computational background. They often employ computer programming and scripting to solve problems and integrate existing tools. They analyze the data they are presented with from intrusion detection sensors, firewalls, and anti-malware tools.

Cybersecurity professionals apply their skills for organizations to prevent cyber criminals, hackers, and persistent nation-state actors. They protect organizations, companies, healthcare institutions, and government agencies from the loss of confidential data. They keep abreast of new developments technically, as well as those in the work domain of the organization and events that occur in the world at large.

MORE INFORMATION ABOUT CYBERSECURITY ANALYTICS AND OPERATIONS (<https://ist.psu.edu/prospective/undergraduate/academics/cybersecurity/>)

You Might Like This Program If...

- You enjoy working with and on computers as well as their operating systems and applications.
- You have an interest in business and organizations and securing
- You want to protect digital information, data stores, and computer networks from threats.
- You want to learn the cyber defense strategies used to anticipate, recognize, and defend against computer attacks.
- You're passionate about how we can keep sensitive information out of the hands of hackers, cybercriminals, and terrorist organizations.
- You enjoy working on a team to solve technical problems for organizations.
- You are interested in computer programming and mathematics.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY CYBERSECURITY ANALYTICS AND OPERATIONS (<https://ist.psu.edu/prospective/undergraduate/academics/cybersecurity/>)

Entrance to Major

To be eligible for the Cybersecurity Analytics and Operations major, students must:

1. Have completed the following entrance-to-major requirements with a grade of C or better in each: CYBER 100 or CYBER 100S, IST 210, IST 220, IST 242 or CMPSC 122 or CMPSC 132, and STAT 200 or SCM 200.

2. Have achieved a minimum cumulative grade point average of 2.00 prior to and through the end of the semester during which the entrance to major is requested.

Degree Requirements

For the B.S. degree in Cybersecurity Analytics and Operations, a minimum of 123 credits is required:

Requirement	Credits
General Education	45
Electives	3
Requirements for the Major	87

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses, 3 credits of GS courses, 3 credits of GWS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
CYBER 262	Cyber-Defense Studio	3
CYBER 342W	Cyber Incident Handling and Response	3
CYBER 362	Cybersecurity Analytics Studio	3
CYBER 366	Malware Analytics	3
CYBER 440	Cybersecurity Capstone	3
IST 210	Organization of Data	3
IST 220	Networking and Telecommunications	3
IST 230	Language, Logic, and Discrete Mathematics	3
IST 432	Legal and Regulatory Environment of Information Science and Technology	3
IST 451	Network Security	3
IST 454	Computer and Cyber Forensics	3
IST 456	Information Security Management	3
IST 495	Internship	1
SRA 111	Introduction to Security and Risk Analysis	3
SRA 211	Threat of Terrorism and Crime	3
SRA 221	Overview of Information Security	3
SRA 231	Decision Theory and Analysis	3
SRA 311	Risk Analysis in a Security Context	3
SRA 365	Statistics for Security and Risk Analysis	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
CYBER 100 or CYBER 100S	Computer Systems Literacy	3
ENGL 202C or ENGL 202D	Effective Writing: Technical Writing	3
MATH 110 or MATH 140	Techniques of Calculus I	4
STAT 200	Elementary Statistics	4

or SCM 200	Introduction to Statistics for Business	
Select one of the following:		3
CMPSC 121	Introduction to Programming Techniques	
CMPSC 131	Programming and Computation I: Fundamentals	
IST 140	Introduction to Application Development	
Select one of the following:		3
CMPSC 122	Intermediate Programming	
CMPSC 132	Programming and Computation II: Data Structures	
IST 242	Intermediate & Object-Oriented Application Development	
Select one of the following:		3
IST 256	Programming for the Web	
IST 261	Application Development Design Studio I	
IST 361	Application Development Design Studio II	

Supporting Courses and Related Areas

Select 9 credits from one of the Application Focus course lists. At least 3 credits must be at the 400-level. Students may also complete a custom Application Focus sequence with approval from an academic adviser and a CYBER undergraduate program coordinator. 9

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Knowledge/Application:** Understand and apply the interdisciplinary knowledge of information sciences in a security context to recognize, analyze, defend against, and manage cyber risks.
 - Understand the components and interoperability of computer hardware, operating systems, networks and databases.
 - Demonstrate proficiency in programming and scripting to perform Cybersecurity automation and analysis.
 - Understand Cyber threats and appropriate defensive designs and tools to mitigate the risk of attack.
 - Understand the procedures for Cybersecurity Incident Handling and Response.
 - Understand the static and dynamic analysis of malware.
- **Problem-Solving:** Understand, apply and adapt various problem solving strategies, using appropriate technology and methods.
 - Identify Cybersecurity threats and implement complementary defensive measures to mitigate risk.

- Apply data analytics in a security context to analyze, predict and prevent cyberattacks.
- Perform malware analysis and forensics to understand the nature and origin of attacks.
- Evaluate several Cybersecurity frameworks and provide analysis that culminates in a high level executive briefing exercise.
- **Evaluation and Communication (Individual and Team):** Communicate and work effectively (both individually and in teams) with a range of perspectives and audiences through a variety of media.
 - Synthesize data from multiple sources to help make informed decisions.
 - Communicate effectively to a variety of audiences through writing and the spoken word.
- **Professional Responsibilities:** Understand professional responsibilities in terms of the ethical, legal and security policy aspects of information assurance and security.
 - Understand the rules, regulations and issues related to compliance with applicable laws and regulations related to Information Security and Privacy.
 - Understand the legal and ethical ramifications of violating the trust that organizations will place in you as a Cybersecurity professional.
- **Lifelong Learning:** Commit to the continuous acquisition of relevant knowledge for professional development by self-teaching and/or on-going education and certification.
 - Employ information-seeking strategies and self-directed learning in pursuit of current knowledge.
 - Enroll in professional development and pursue industry certifications to enhance your career and the profession.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Cybersecurity Analytics and Operations, B.S. at Beaver Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
IST 140 (*# or CMPSC 121 (GQ)#‡ or CMPSC 131*#) ^{1,2}	3 IST 220 *#	3
Application Focus Selection 1 (GS) (IST 110)	3 IST 242 *# ¹	3

Elective	3	
	17.5	18

Total Credits 138-140

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

¹ Since IST 240 will not be offered at this campus, these courses are required courses for ISTBS or ISSCC at Brandywine.

² Course substitutions required for Computer Science minor.

³ MATH 110 or MATH 140 required for graduation requirements. HS Trigonometry or MATH 22 required for admission.

⁴ Students must complete three (3) credits of United States Cultures (US) and three (3) credits of International Cultures (IL) as part of General Education, choice of course may vary.

⁵ Application Focus Selection: Consider courses toward a minor like Business, Peace and Conflict Studies, or Computer Science.

⁶ Recommend one (1) GN selection be FRNSC 100 Intro to Forensic Science before taking IST 454 Cyber Forensics.

⁷ One internship for credit is required to complete degree requirements, a maximum of three internships for credit are allowed.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Students should consult with an adviser when scheduling courses.
- See Adviser for Internship Preparation (CNED 280) – recommended elective; offered every semester.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Students should consult with an adviser when scheduling courses.

Application Focus Lists

Students may select from the Application Focus Lists found on the College of IST Suggested Academic Plan for CYAOP BS degree (p. 1044), or create a custom 3-course application from the lists below, in consultation with their academic adviser. Note that not all courses are available at the Brandywine campus.

Students are required to pick one track to fulfill the degree requirements. Students must pick three (3) credits at the 400 level. All nine (9) credits must be in the same application focus area. It is recommended that students use the application focus area list to select a course that meets a General Education requirement (GS/GHW) and serves as a prerequisite for more advanced coursework within the application focus. This course does not count as part of the 9 credits of application focus sequence.

Business (Minor)

Code	Title	Credits
ECON 102 or ECON 104	Introductory Microeconomic Analysis and Policy Introductory Macroeconomic Analysis and Policy	3
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
MGMT 301	Basic Management Concepts	3
MKTG 301	Principles of Marketing	3
IST 432	Legal and Regulatory Environment of Information Science and Technology (Required for CYAOP major)	3
One (1) three credit 400-level business course from the following disciplines: ¹		3
Accounting		
Business Administration		
Business Law		
Energy Business and Finance		
Economics		
Entrepreneurship		
Finance		
Financial Services		
Health Policy and Administration		
International Business		
Management Information Systems		
Management		
Risk Management		
Supply Chain Management		
Statistics		

¹ Each 400-level business course will have different prerequisites; make sure to confirm meeting prerequisites before scheduling

Computer Science (Minor)

Requires planning and decision during NSO to schedule CMPSC required courses.

Code	Title	Credits
MATH 140	Calculus With Analytic Geometry I (Course Substitute for MATH 110) ¹	4
CMPSC 121	Introduction to Programming Techniques (Course Substitute for IST 140) ²	3
CMPSC 122	Intermediate Programming	3
CMPSC 221	Object Oriented Programming with Web-Based Applications	3
CMPSC 360	Discrete Mathematics for Computer Science	3
CMPSC 462 or CMPSC 465	Data Structures Data Structures and Algorithms	3

Two (2) additional CMPSC courses for six more credits of 400-level work in computer science 6

¹ Prerequisite: ALEKS score > 75 or MATH 22 and MATH 26

² Prerequisite: ALEKS score > 45

Peace and Conflict (Minor)

Code	Title	Credits
PLSC 14	International Relations	3
PLSC 291	Introduction to Peace and Conflict Studies	3
PLSC 491	Peace and Conflict Studies Seminar	3
SRA 211	Threat of Terrorism and Crime (Required for CYAOP Major)	3
Two (2) additional 400-level courses from approved list (e.g., CAS 404; COMM 458)		6

Health Policy and Administration (via DLC from consortium)

Code	Title	Credits
HPA 101	Introduction to Health Services Organization	3
HPA 332	Health Systems Management	3
HPA 470	Health Care Information Management	3
BBH 440	Principles of Epidemiology	3

Custom

Custom 4-course application focus provides coherent sequence in Cybersecurity context for student in terms of three credits of GS coursework and must contain six credits of 400-level coursework.

Examples are student taking courses to receive Homeland Security minor, Criminal Justice minor, Cybersecurity Computational Foundations minor (variant of Computer Science minor), or Crime, Law, and Psychology minor.

Requires completion and submission of Custom 4-Course Focus Approval Form.

Cybersecurity Analytics and Operations, B.S. at Greater Allegheny Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- CYBER, IST, and SRA courses have enforced prerequisites
- 1 credit of IST 495 IST Internship is required

Application Focus Lists:

- Business:
 - Students should choose 2 courses from the following: ACCTG 211, MGMT 301, or MKTG 301.
 - Select 3 credits at the 400-level from: ACCTG, BA, BLAW, EBF, ECON, ENTR, FIN, FINSV, HPA, IB, LER, MIS, MGMT, MKTG, RM, SCM, or STAT.
 - Note: MGMT 301 and MKTG 301 both require ECON 102 or ECON 104 as prerequisites, so students should take ECON 102/ECON 104 as their GS selection.
 - Note: IST 432 counts toward the business minor.
- Custom:
 - Custom 3 credit application focus provides coherent sequence in Cybersecurity context for student in terms of three credits of GS coursework and must contain 3 credits of 400-level courses.
 - Examples are student taking courses to receive Homeland Security minor, Criminal Justice minor, Cybersecurity Computational Foundations minor (variant of Computer Science minor), or Crime, Law, and Psychology minor.
 - Requires completion and submission of Custom 4-Course Focus Approval Form.

Cybersecurity Analytics and Operations, B.S. at Lehigh Valley Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

† Course satisfies General Education and degree requirement

¹ Students enrolled at Schuylkill campus must take CYBER 100 and schedule the PSU 8 First-Year Seminar (FYS) course. If you have taken CYBER 100S elsewhere, it may be accepted as an alternative to CYBER 100 to satisfy the Entrance-to-Major requirement.

² CMPSC 122 or CMPSC 132 may be substituted as an alternative to IST 242 to satisfy the Entrance-to-Major requirement.

³ MATH 140 may be substituted as an alternative to MATH 110.

⁴ IST 256 or IST 361 may be substituted as an alternative to IST 261.

⁵ SCM 200 may be substituted as an alternative to STAT 200 to satisfy the Entrance-to-Major requirement.

⁶ Students satisfy the Application Focus Area requirement by taking 9 credits of coursework in an approved application track or custom focus area, including a minimum of 3 credits of 400-level coursework in the area. Students may optionally take a 4th course in an approved Application Focus Area track or choose a related elective in their senior year.

⁷ 1 credit of IST 495 is required. A grade of C or better must be earned in this course. This requirement can be completed at any time before graduation. Up to 3 internship credits may be earned during your degree work.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Application Focus Lists:
 - Business:
 - Students should choose 2 courses from the following: ACCTG 211, MGMT 301, or MKTG 301.
 - Select 3 credits at the 400-level from: ACCTG, BA, BLAW,EBF, ECON, ENTR, FIN, FINSV, HPA, IB, LER, MIS, MGMT, MKTG, RM, SCM, or STAT.
 - Note: MGMT 301 and MKTG 301 both require ECON 102 or ECON 104 as prerequisites, so students should take ECON 102/ECON 104 as their GS selection.
 - Note: IST 432 counts toward the business minor.
 - Custom:
 - Custom 3 credit application focus provides coherent sequence in Cybersecurity context for student in terms of three credits of GS coursework and must contain 3 credits of 400-level courses.
 - Examples are student taking courses to receive Homeland Security minor, Criminal Justice minor, Cybersecurity Computational Foundations minor (variant of Computer Science minor), or Crime, Law, and Psychology minor.
 - Requires completion and submission of Custom 4-Course Focus Approval Form.

Career Paths

Cybersecurity blends the technical expertise needed to analyze security issues and create cyberdefense strategies with the interpersonal skills needed to communicate threats to a variety of audiences. The program prepares students to meet the growing need for professionals who can defend against threats to digital information and assets. IST's Office of Career Solutions helps students navigate their internship and career development in the field through coaching, workshops, interview preparation, resume reviews, career fairs, job postings, and networking opportunities.

Careers

Because our courses blend technical knowledge with skills in communication and business, a Cybersecurity Analytics and Operations degree allows students to pursue opportunities as cybersecurity analysts,

cyberthreat advisers, penetration testers, and a number of other unique careers in fields such as defense, government, and business.

Diversity Studies, Certificate (University College)

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

This certificate is designed to provide students with an overview of issues concerning diversity. Students will take one foundational class and additional courses examining women, gender, sexuality, race, ethnicity, and religion.

What is Diversity Studies?

Diversity Studies is an interdisciplinary academic field that is interested in examining social differences defined by culturally constructed categories of race, class, gender, religion, ethnicity, age, diversity, and other markers of identity. Diversity Studies however tends to focus on our own lived experiences, and how our perception of these markers influences personal and cultural interactions – especially our own! It investigates systems of power that organize our schools, workplaces, healthcare systems, criminal justice system, and media, many of them invisible to us. Around the globe those systems of power are organized very differently, sometimes in fundamental ways. Diversity Studies approaches differences intersectionally to expose, critique, and confront historical and contemporary sources of social and cultural conflict. This does not mean “looking past” differences; rather, looking straight at them to find the common ground and empathy that can make us better citizens.

You Might Like This Program If...

- You want to better understand people from different backgrounds.
- You are interested in impacting social problems.
- You want to stretch your own perspectives and actions.

Program Requirements

To earn an undergraduate certificate in Diversity Studies, a minimum of 12 credits is required, three of which must be at the 400-level.

A course grade of C or higher is required.

Code	Title	Credits
Foundation Courses		
<i>Foundation Courses: Require a grade of C or better</i>		
Select 3 credits from the following:		3
AMST 105	American Popular Culture and Folklife	
PSYCH 232	Cross-Cultural Psychology	
SOC 5	Social Problems	
WMNST 1	Introduction to Women's Studies	
WMNST 106N	Representing Women and Gender in Literature, Art and Popular Cultures	

Select 9 credits chosen from Lists II and III; at least 3 credits must be at the 400 level; students must take at least 3 credits from each list:

List II: Courses on Women, Gender, and Sexuality

CRIMJ 453	Women and the Criminal Justice System
ENGL 194	Women Writers
HDFS 405	Gender and Social Development
HIST 117	Women in United States History
NURS 452	Women's Health Issues
PSYCH 231	Introduction to the Psychology of Gender
PSYCH 422	Human Sexuality
SOC 456	Gender, Occupations, and Professions
THEA 207	Gender and Theatre
THEA 407W	Women and Theatre

List III: Courses on Race, Ethnicity, and Religion

CRIMJ 451	Race, Crime, and Justice
ENGL 135	Alternative Voices in American Literature
ENGL 139	African American Literature
HIST 152	African American History
HIST 153Y	The Indian in North America
PHIL 9	Race, Racism, and Diversity
RLST 1	Introduction to World Religions

No Prerequisites Required.

Certificate Learning Objectives

- Increase awareness and content knowledge of diversity issues and challenges related to gender, gender identity, sexuality, race, ethnicity, and/or religion in a complex society.
- Explore the characteristics of and barriers to attaining a socially just society that embraces complex perspectives and promotes equity.
- Recognize and analyze cultural differences, cultural rules, and cultural biases of non-dominant or marginalized groups within the United States.
- Describe the perceptions, viewpoints, or life experiences of people in a society or culture outside the United States or in a marginalized or nondominant group within the United States.
- Relate and explore, through course writing assignments and discussion questions, culturally sensitive strategies and techniques that produce culturally relevant services, policies and practices to advance traditionally underserved communities.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

English, B.A. (University College)

Begin Campus: Any Penn State Campus

End Campus: Brandywine, Scranton, York

Program Description

Majors explore the imaginative and practical uses of English through courses in literature, writing, rhetoric, and language. They develop perspectives on human nature and cultural values through American, British, and other English literatures; they learn how to gather, analyze, synthesize, and communicate information; they gain mastery over their language. These skills help English majors find careers in such fields as publishing, business, industry, government, and teaching. English majors often go on to postgraduate study not only in English but in such areas as law, business, education, or other liberal disciplines.

Majors can emphasize writing, literature, or rhetoric, or a mix of literature, writing, and rhetoric. All provide a liberal education and all develop analytic and writing skills. Qualified students may participate in the career internship and in the English honors program.

Students interested in earning certification in secondary education should contact the College of Education, Department of Curriculum and Instruction. (See also Teacher Education Programs (<https://ed.psu.edu/academics/teacher-testing-certification/>)).

Traditions of Innovation Option

Available at the following campuses: Brandywine, Scranton, University Park

This option allows students to explore the imaginative and practical uses of English language through a variety of courses in literature, writing, and rhetoric across historical periods. The flexibility of the English curriculum allows students to focus in literary and cultural studies, creative writing, professional and media writing, and/or rhetoric, according to individual interests and goals. In the process, students learn to gather, analyze, synthesize, and communicate information as they improve their language skills across diverse creative and critical scenarios. These skills prepare students for careers in a wide range of professional fields.

Writing and Literature in Context Option

Available at the following campuses: Abington, Altoona, Brandywine, Scranton, York

This option focuses on English as a foundation for strong critical thinking and distinctive communication skills, imaginative approaches to problem solving, and collaboration with aligned fields. The flexibility of the major allows students to study literature, creative writing, theatre, media studies, professional writing, and/or other disciplines, according to their individual interests and goals. These foundations prepare English majors for careers in a wide range of professional fields.

What is English?

English refers to a broad field of study related to literature, professional writing, creative writing, and rhetoric. Majors develop critical thinking skills and produce influential academic, creative, professional, and digital texts. They learn to analyze genres, texts, and contexts that involve, for instance, race, class, gender, sexuality, and nationality. They also learn how various texts communicate value, meaning, and social and cultural critique.

You Might Like This Program If...

- You enjoy writing in different genres, styles, and media, e.g. videos, print or web magazine articles, critical essays, reviews, short stories, poems, etc.
- You enjoy addressing social justice issues that give context to texts.
- You want to use communication to help solve problems involving science, technology, medicine, law, business, or society.
- You enjoy making connections between historical eras and current realities.
- You want to a career in law, non-profit work, medicine, education, or writing/editing.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Arts degree in English, a minimum of 123 credits is required:

Requirement	Credits
General Education	45
Electives	18
Bachelor of Arts Degree Requirements	24
Requirements for the Major	36

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and

0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Additional Courses		

Additional Courses: Require a grade of C or better

ENGL 200	Introduction to Critical Reading	3
or ENGL 201	What is Literature	
ENGL 494H	Senior Thesis in English	3
or ENGL 487W	Senior Seminar	

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

In consultation with adviser, select 18 credits in literature, writing, or rhetoric. At least 9 credits must be at the 300/400 level. At least 3 of the 300/400 level credits must fulfill a departmental diversity requirement for a course related to race, gender, sexuality, disability, ethnicity, and/or postcolonial issues.	18

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

- Apply critical, theoretical, and/or disciplinary approaches to the reading and analysis of texts in multiple genres and/or media.
- Analyze the aesthetic and/or cultural significance of the ideas, values, conventions, forms, and genres associated with texts.
- Gather, evaluate, and employ an array of research materials in support of critical studies, and/or creative activity, in ways consistent with standards of academic integrity.
- Demonstrate writing and rhetorical skills appropriate to critical and/or creative tasks in a variety of media and genres.
- Analyze representative literary, theoretical, and cultural texts within significant historical, geographical, and cultural contexts.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of

both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Scranton Campus

Traditions of Innovation Option: English, B.A. at Scranton Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Foundations of Business, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

Introduction to core business concepts. Students develop communication, technical, and analytical skills needed for the contemporary business environment.

What is Foundations of Business?

The Foundations of Business Certificate is offered by the University College. Regardless of your field of study and career goals, you are very likely to utilize foundational business knowledge in your future career. If you are in a non-business major, this certificate will broaden your fundamental business knowledge and help you develop the basic skills that will be useful in your chosen career path.

You can complete this 13-credit certificate program within a year. The certificate provides foundational knowledge in communication, ethics and social responsibility, and contemporary information technology as tools to accomplish professional tasks effectively.

You Might Like This Program If...

- You desire to add business skills to your degree program.
- You want to gain exposure to business concepts to enhance your employment opportunities.
- You want to earn a business certificate as a stepping stone to enrolling in an associate or baccalaureate degree program.

Program Requirements

To earn an undergraduate certificate in Foundations of Business, a minimum of 13 credits is required.

Code	Title	Credits
Required Courses		
BA 243 or BA 241 & BA 242	Social, Legal, and Ethical Environment of Business Legal Environment of Business and Social and Ethical Environment of Business	4
ECON 102 or ECON 104	Introductory Microeconomic Analysis and Policy Introductory Macroeconomic Analysis and Policy	3
ENGL 15 & MIS 204	Rhetoric and Composition and Introduction to Management Information Systems	6

Certificate Learning Objectives

- **Communication:** Graduates will develop basic written and oral communication skills
- **Ethics:** Graduates will develop an understanding of ethical issues, social responsibilities and resolutions to conflicts in a business environment
- **Technology:** Graduates will be able to use contemporary information technology as tools to accomplish professional tasks effectively

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Health Policy and Administration, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Beaver, Hazleton, Lehigh Valley, Mont Alto, Shenango

PROGRAM CURRENTLY ON HOLD AND NOT ACCEPTING NEW STUDENTS AT SCHUYLKILL CAMPUS.

Begin Date of Enrollment Hold: May 5, 2023

PROGRAM AVAILABLE AT ALL OTHER LISTED CAMPUSES.

Program Description

This major helps prepare students for management and policy positions or graduate study in the field of health care. Students in the major develop the skills and knowledge needed to understand the complex societal problem of providing access to quality health care at reasonable cost. All Health Policy and Administration students complete an internship in a health-care-related setting, giving them valuable experience and contacts in the industry. HPA students study a multidisciplinary curriculum that prepares them to work as health services managers or health analysts. Health services managers, also called health care executives or health care administrators, plan, direct, and coordinate medical, health, and/or long-term care services. They might manage an entire facility or specialize in managing a specific clinical area or department, administrate a program or manage a practice for a group of providers. Health analysts are employed throughout the health care industry gathering, compiling, modeling, validating, and analyzing data needed by different organizations of providers, payers, and policy makers. Analysts help these organizations understand the current trends in the health care system and to make well-informed decisions. Both health services managers and analysts must be able to adapt to changes in health care laws, regulations, and technology. HPA students have also used the degree to prepare for graduate study in business, law, medicine or allied health fields, health administration, health services research or policy, and public health.

What is Health Policy and Administration?

Health Policy and Administration (HPA) is a multidisciplinary course of study with courses in the liberal arts, business administration, and health sciences. In general, HPA students are prepared to work in six types of health care organizations including:

1. Health care providers (hospitals, physician practices, nursing facilities, home health agencies, etc.)
2. Health insurers (nonprofit and commercial insurers, health maintenance organizations, etc.)
3. Health care consulting firms

4. Health care supply companies (pharmaceutical companies, medical device manufacturers, etc.)
5. Health services research and policy organizations (health policy research groups, industry trade groups, etc.);
6. Local, state, and federal health agencies and public health organizations (local public health departments, state Department of Health, federal Department of Health and Human Services, etc.).

MORE INFORMATION ABOUT HEALTH POLICY AND ADMINISTRATION (<https://hhd.psu.edu/hpa/>)

You Might Like This Program If...

- You are interested in business administration or management and want to focus primarily in the healthcare industry.
- You are interested in influencing health policy and public health by working in government at the state or federal level or nonprofit organizations
- You are interested in improving access to health care for underserved populations
- You are interested in reducing health care costs or improving health care quality through policy reform or business leadership.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY HEALTH POLICY AND ADMINISTRATION (<https://hhd.psu.edu/hpa/bachelor-science-bs-health-policy-and-administration/>)

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Health Policy and Administration, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	4-6
Requirements for the Major	81-83

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 6 credits of GS courses.

The requirements for the major are outlined below. Students may select courses in the Supporting Courses and Related Areas category to fulfill requirements for a minor, to develop a specialization, or to complete courses required for admission to medical, dental, law, or other graduate schools.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. H P A requires students to complete 24 credits for the major

through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Suggested Academic Plan for this major.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
ECON 102	Introductory Microeconomic Analysis and Policy	3
HPA 101	Introduction to Health Services Organization	3
HPA 210	Health Care Payment	3
HPA 211	Financial Decisions in Health Care Organizations	3
HPA 301	Health Services Policy Issues	3
HPA 310	Health Care and Medical Needs	3
HPA 311	Population Health and Healthcare	3
HPA 332	Health Systems Management	3
HPA 390	Professional Development in Health Policy & Administration	3
HPA 395	Field Experience in Health Policy and Administration	3
HPA 455	Strategic Planning and Marketing for Health Services	3
PLSC 1	American Politics: Principles, Processes and Powers	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
CMPSC 101	Introduction to Programming	3-4
	or CMPSC 203 Introduction to Spreadsheets and Databases	
	or MIS 204 Introduction to Management Information Systems	
STAT 200	Elementary Statistics	3-4
	or STAT 250 Introduction to Biostatistics	
Select 9 credits from the following:		9
HPA 401	Comparative Health Systems	
HPA 410	Principles of Public Health Administration	
HPA 420	Principles of Managed Care	
HPA 430	Health Care Leadership	
HPA 433	Administration of Hospital and Health Service Systems	
HPA 435	Safety Net Health Care	
HPA 438	Culturally Competent Health Services for Diverse Populations	
HPA 440	Principles of Epidemiology	
HPA 442	Long-Term Care Management	
HPA 443	Nursing Home Administration	
HPA 444	Aging Policy in the United States	
HPA 445	Health Economics	
HPA 446	Economics and Health In Low- and Middle-Income Countries	
HPA 447	Financing Health Care	

HPA 450	Healthcare Policies and Politics
HPA 454	Health Care Professional Communication
HPA 460	Human Resource Management in Health Care Organizations
HPA 470	Health Care Information Management
HPA 475	Health Care Quality
HPA 490	Physician Practice Management
HPA 497	Special Topics

Supporting Courses and Related Areas

Select 30 credits from University-wide offerings on department list in 30 consultation with adviser ¹

¹ Must include at least 9 credits at the 400 level.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Know Health Organizations:** HPA graduates will possess in depth understanding of health and health care, including the structures, policies, processes and institutions that make up the U.S. health care system.
- **Organize and Direct Resources:** HPA graduates will possess the knowledge and skills necessary for organizing and directing resources towards the achievement of organizational objectives.
- **Policy Analysis:** HPA graduates will possess the knowledge and skills necessary to analyze, synthesize, and evaluate public policy.
- **Emotional Intelligence:** HPA graduates will possess an awareness of and the ability to manage one's own emotions in a way that enables positive interpersonal interactions and the building of productive relationships.
- **Diversity Adeptness:** HPA graduates will recognize the value of diversity and possess sensitivity to underrepresented and underserved groups in health care.
- **Critical Thinking:** HPA graduates will be able to interpret, analyze, and evaluate information to identify, examine, and solve problems that occur in the health care system.
- **Communication:** HPA graduates will be able to effectively receive, process, and relay information through speaking, writing, and listening.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

¹ The Supporting Course List can be found at: <https://hhd.psu.edu/hpa/undergraduate/supporting-courses> (<https://hhd.psu.edu/hpa/supporting-courses/>).

² HPA 390W is a Writing Across the Curriculum course.

³ Take one based on First Semester enrollment. See Academic Requirements in LionPATH for clarification.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes

Minimum credits required for graduation is 120.

LIMITATIONS ON SOURCE AND TIME FOR CREDIT ACQUISITION: Per Senate policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Most majors in Health and Human Development require students to complete up to 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum.

Within the 30 credits of required General Education Domain courses, students must take 6 credits of **Integrative Studies courses** (Inter-Domain or Linked courses). If you need additional clarification, consult with your academic adviser.

Health Policy and Administration, B.S. at Shenango Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Career Paths

The mission of the Bachelor of Science Program (B.S.) in HPA is to develop graduates with the knowledge, skills, and values appropriate to work in entry-level management or policy-related positions or for the pursuit of graduate education in health administration, health policy, health law, health services research, public health, and other health related fields. HPA students develop the skills and knowledge needed to understand the complex societal problem of providing access to quality health care at reasonable cost.

Careers

The HPA curriculum prepares students to work as health services managers or health policy analysts. Health services managers plan, direct, and coordinate medical, behavioral, and/or long-term care services. These individuals might oversee matters of personnel, budgeting, billing, equipment outlays, information systems, planning and more. Health policy analysts are responsible for analyzing, compiling, and validating information needed by different organizations of providers, payers, and policy makers. Analysts help these organizations understand the current trends in the health care system and to make well-informed business and policy decisions. Employment of health policy and administration graduates is projected to grow 28 percent from 2022 to 2032, much faster than all other occupations.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE HEALTH POLICY AND ADMINISTRATION PROGRAM (<https://hhd.psu.edu/hpa/undergraduate/career-opportunities/career-outlook-health-care-professionals/>)

Opportunities for Graduate Studies

HPA's blend of courses in liberal arts, business administration, and the health sciences, is designed to prepare students for careers or further study in health care. HPA students have used the degree to prepare for graduate study in business, law, medicine or allied health fields, health administration, health services research or policy, and public health.

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (<https://hhd.psu.edu/hpa/undergraduate/integrated-undergraduate/graduate-programs/>)

Professional Resources

- Association of University Programs in Health Administration (<https://www.aupha.org/resourcecenter/futurestudents/>)
- American College of Health Care Administrators (<https://www.achca.org/student-societies/>)
- American College of Healthcare Executives (<https://www.ache.org>)
- National Association of Health Services Executives (NAHSE) (<https://www.nahse.org>), a non-profit association of Black health care executives
- National Association of Latino Healthcare Executives (<https://www.nalhe.org>)
- Academy Health (<https://academyhealth.org>), the professional home and leading national organization for health services researchers, policymakers, and health care practitioners and stakeholders

Accreditation

HPA is a fully certified member of the Association of University Programs in Health Administration (AUPHA). As such it has been recognized for having withstood the rigors of peer review wherein curricula, faculty, and educational outcomes have been critically examined by external peer review. In a process comparable to other specialty program accreditations, programs seeking AUPHA certification must submit an extensive self-study detailing the program's structure, educational processes, and assessment mechanisms in response to national criteria established by AUPHA.

MORE INFORMATION ABOUT ACCREDITATION BY THE ASSOCIATION OF UNIVERSITY PROGRAMS IN HEALTH ADMINISTRATION (<https://www.aupha.org/main-site/certification/certification/>)

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

Healthcare Informatics, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The healthcare industry is moving towards the widespread use of digital records and electronic information transfer. This is resulting in a need for healthcare professionals to be knowledgeable in information technology and for information technology professionals at healthcare facilities to be more knowledgeable of the healthcare industry. Professionals in these two areas both need to understand the complexities of medical information being digitally stored and transferred. This 18 credit certificate program provides students with insight into both professional areas. Students may receive credit for previous coursework (up to 3 courses) upon academic review.

What is Healthcare Informatics?

Healthcare informatics enables healthcare professionals to be knowledgeable in information technology and for information technology professionals at healthcare facilities to be more knowledgeable of the healthcare industry.

You Might Like This Program If...

You have aspirations to work in a healthcare setting You like to learn new technologies.

Program Requirements

To earn an undergraduate certificate in Healthcare Informatics, a minimum of 18 credits is required.

Code	Title	Credits

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of

both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Human Development and Family Studies, A.S. (University College)

Begin Campus: Brandywine, DuBois, Fayette, Mont Alto, Shenango, Scranton, York, Schuylkill

End Campus: Brandywine, DuBois, Fayette, Mont Alto, Schuylkill, Scranton, Shenango, York

Program Description

This major integrates practical and academic experiences to provide the student with entry-level professional competence in the human service field. The objective of the major is to offer a general education background, a knowledge base in life span and family development, and

a core of professional skills that may be applied in program planning and service delivery activities. The major is offered part-time, in the evening, and through independent learning.

Adult Development and Aging Services Option

Available at the following campuses: Altoona, Brandywine, DuBois, Fayette, Mont Alto, Schuylkill, Scranton, Shenango, World Campus, York

This option is designed to prepare students for a wide variety of service roles in mental health facilities, nursing homes and other institutions for the aged, area agencies on aging, public welfare and family service agencies, women's resource centers, human relations programs, employee assistance programs and customer services and consumer relations programs in business and industry. An approved field experience in any of a wide variety of settings that serve adults, the aged, and their families, is required for this option.

Children, Youth, and Family Services Option

Available at the following campuses: Altoona, Brandywine, DuBois, Fayette, Mont Alto, Schuylkill, Scranton, Shenango, World Campus, York

This option is designed to prepare students for service roles in preschools; day care centers; hospitals; institutional and community programs for emotionally disturbed, abused, or neglected children and adolescents; as well as a variety of public welfare and family service agencies. An approved field experience in a children, youth, or family services setting is required for this option.

Early Childhood Care and Education Option

Available at the following campuses: DuBois, Fayette, Shenango, York

This option is designed to increase professional capabilities in child care training in regard to issues of quality, affordability, and accessibility of programming. The primary foci are on language, literacy, and science reasoning. In the coursework, there is a blending of theory and practice that requires experience in a group setting with young children. Courses concentrate on infants and toddlers as well as older preschoolers. Each course has a strong parent/family communications component and stresses observation techniques appropriate for assessing and evaluating the development of young children.

What is Human Development and Family Studies?

Penn State's Human Development and Family Studies (HDFS) program prepares students for careers across a wide range of human service, healthcare, and helping professions. The HDFS degree is grounded in research-based knowledge on the psychological, biological, social, cultural, and economic influences that impact the well-being of individuals, families, and communities across the lifespan. HDFS coursework guides students to develop skills for working with and caring for diverse individuals and groups through emphasizing mindfulness, compassion, diversity, equity, advocacy and inclusion. Students take courses on infancy, childhood, and adolescent development, transitioning and thriving in adulthood, and healthy aging. Classroom experiences are supplemented by a range of engaged learning opportunities, including internships, research participation, and community partnerships through which HDFS students acquire skills preparing them for impactful careers. The program's flexible curriculum allows academic pathways and engagement experiences to be customized to align with students' career goals.

You Might Like This Program If...

- You are passionate about pursuing work focused on improving the lives and wellness of individuals, families, and communities.
- You are interested to learn about individual, family, community, and social factors influencing development as well as evidence-based practices that promote the cognitive, social, physical, and emotional well-being of children, adults, families, organizations, and communities.
- You are enthusiastic to use flexible degree requirements and integrated opportunities to pursue career exploration, experiential and engaged learning, and skill development specialized to your specific career goals.

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Science degree in Human Development and Family Studies, a minimum of 60 credits is required:

Requirement	Credits
General Education	21
Electives	0-3
Requirements for the Major	51-55

15 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GWS courses; 3 credits of GS courses; 3 credits of GN courses; and 3 credits of GQ courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 3 credits
- **Writing and Speaking (GWS):** 3 credits

Knowledge Domains

- **Arts (GA):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Note: Up to six credits of Inter-Domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

- **Any General Education course (including GHW and Inter-Domain):** 3 credits

University Degree Requirements**Cultures Requirement**

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 60 degree credits must be earned for an associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

DuBois Campus

- Understand the complexity of individual and family development across the lifespan.
- Evaluate and apply research and theory to practice and policy.
- Understand the processes, policies and contextual factors that affect the delivery of human services.
- Understand the professional, ethical, and culturally sensitive standards of conduct.
- Demonstrate knowledge and competence in helping, leadership and administrative skills.
- Writing in APA Style.

Fayette and York Campuses

- **Understanding of the complexity of individual and family development across the lifespan in diverse contexts and changing environments:**
 - Summarize and apply theories and concepts related to individual and family development from a multi-disciplinary, life-cycle perspective;
 - Articulate how biology, psychology, and history influence diversity in individual and family structures and functions.
- **Ability to apply theory and research to practice and policy:**
 - Demonstrate an understanding of the contribution of original research in human development;
 - Discuss the findings of empirical research within a theoretical framework to human development; and
 - Demonstrate a beginning understanding of the process of planning and conducting research.
- **Ability to analyze processes and contextual factors that affect the delivery of human services to individuals and families:**
 - Demonstrate knowledge of history and policies for ethical conduct in the delivery of human services;
 - Examine environmental factors shaping individual and family interventions (such as political, social, economic, cultural, and technological);
 - Understand and articulate individual and family needs; and
 - Demonstrate knowledge of HIPAA regulations.
- **Professional ethical and culturally sensitive standards of conduct:**
 - Articulate understanding of theories, skills, and competencies of an effective helper;
 - Demonstrate knowledge of the main ethical, legal, clinical, professional and personal issues and challenges involved in the helping professions;
 - Demonstrate knowledge of informed consent for working with diverse groups of clients;
 - Understand and apply ethical decision making models.
- **Knowledge and competence in helping, leadership, and administrative human service skills:**

- Demonstrate professional written, oral, and technology assisted communication skills;
- Demonstrate clinical, interactional, and practical skills used in human service profession.

Mont Alto Campus

- HDFS student will be able to demonstrate an understanding of the complexity of individual and family development across the life span in diverse contexts and changing environments.
- HDFS student will be able to demonstrate the ability to evaluate and apply theory and research to practice and policy.
- HDFS students will demonstrate the ability to analyze processes, policies, and contextual factors that affect the delivery of human services to individuals and families.
- HDFS students will demonstrate professional ethical and culturally sensitive standards of conduct.
- HDFS students will demonstrate knowledge and competence in helping, leadership, and administrative human service skills.
- HDFS students will demonstrate professional written communication skills through their mastery of APA format.

Schuylkill Campus

- Demonstrate an understanding of the complexity of individual and family development across the life span in diverse contexts and changing environments.
- Demonstrate an ability to evaluate and apply research and theory to practice.
- Demonstrate professional, ethical, and culturally sensitive standards of conduct.

Scranton Campus

- Demonstrate an understanding of the complexity of individual and family development across the life span in diverse contexts and changing environments
- Demonstrate knowledge and competence in helping, leadership, and administrative skills for human services
- Analyze processes, policies, and contextual factors that affect the delivery of human services to individuals and families.

Shenango Campus

- **Application:** Ability to apply theory and research to practice and policy.
 - Demonstrate an understanding of the contribution of original research in human development;
 - Discuss the findings of empirical research within a theoretical framework to human development; and
 - Demonstrate a beginning understanding of the process of planning and conducting research.
- **Contextual Factors:** Ability to analyze processes and contextual factors that affect the delivery of human services to individuals and families.
 - Demonstrate knowledge of history and policies for ethical conduct in the delivery of human services;
 - Examine environmental factors shaping individual and family interventions (such as political, social, economic, cultural, and technological);
 - Understand and articulate individual and family needs; and
 - Demonstrate knowledge of HIPAA regulations.

- **Understanding:** Understanding of the complexity of individual and family development across the lifespan in diverse contexts and changing environments.
 - Summarize and apply theories and concepts related to individual and family development from a multi-disciplinary, life-cycle perspective;
 - Articulate how biology, psychology, and history influence diversity in individual and family structures and functions.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

DuBois Campus

Human Development and Family Studies, A.S. at DuBois Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If**

report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
HDFS 129	3 CAS 100A	3
HDFS 239	3 BISC 4 or BIOL 155	3
ENGL 15	3 EDPSY 101	3
PSYCH 100	3 HDFS 229 or 249N	3
General Education Course- Humanities or Arts	3 Supporting Course	3
	15	15

Second Year

Fall	Credits Spring	Credits
HDFS 311	3 HDFS 301	3
HDFS 315Y	3 HDFS 395	6
Supporting Course	3 Supporting Course	3
Supporting Course	3 Supporting Course	3
General Education Course- Humanities or Arts	3	
	15	15

Total Credits 60

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- If a student wishes to enter the HDFS Baccalaureate Degree program after completing the Associate Degree, any math deficiency should be eliminated before graduating. See your adviser.
- If a student is planning on enrolling into the Baccalaureate Degree program, supporting courses should be chosen carefully, and in consultation with an adviser to maximize efficiency in completing the four year degree.
- Students are required to take one US or IL course. HDFS 315Y will satisfy this requirement for the Associate Degree program.
- Students must earn a grade of C or better in any HDFS course that is used as a supporting course.

Fayette Campus

Children, Youth and Family Services Option: Human Development and Family Studies, A.S. at Fayette Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. Career Paths

The Associate's Degree in HDFS provides students with a valuable foundation of skills and knowledge for pursuing entry level positions in careers focused on helping promote health and wellness across the lifespan. Many graduates of the A.S. in HDFS program also continue to pursue their B.S. in HDFS. Our A.S. degree is designed to allow for a smooth transition into the B.S. degree, after which graduates are positioned for career advancement or to work in additional areas described in the B.S. degree. HDFS Students are encouraged to customize their degree to align with their career interests.

Careers

Students graduating with their A.S. degree in HDFS pursue a range of positions in areas that include:

- Health and Human Services (e.g. youth and family services, child advocacy, health education)
- Early Childhood Development (e.g. early childhood education, early intervention specialist)
- Child and Youth Services
- Foster Care and Adoption
- Services for Older Adults
- Services for Individuals with Disabilities

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE HUMAN DEVELOPMENT AND FAMILY STUDIES PROGRAM (<https://hhd.psu.edu/undergraduate/internships-and-career-opportunities/career-areas-major/careers-human-development-and/>)

Opportunities for Graduate Studies

After completing their associate's degree, many HDFS students go on to complete their Bachelor of Science degree in HDFS. This degree opens up opportunities for students to attend graduate research or professional programs in several fields, including:

- Counseling (e.g., addiction counseling, marriage and family therapy, mental health counseling, counseling psychology, educational and vocational counseling)
- Social Work and Public Health
- Clinical Health Professions (e.g. psychiatry, pediatrics, adolescent medicine, family medicine, obstetrics and gynecology, geriatrics, occupational therapy)
- Program Administration and Management
- Special Education
- Family Law
- Public Policy and Advocacy
- Research (e.g., on lifespan human development, psychology, sociology, prevention)

Human Development and Family Studies, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Brandywine, DuBois, Fayette, Mont Alto, Scranton, Shenango, York

Program Description

This major is a multidisciplinary program that examines the development of individuals and families across the life span. HDFS prepares graduates for professional, managerial, or scientific roles in health and human services professions, in public and nonprofit agencies, and in business and industry, as well as for advanced professional or graduate study. Students obtain a broad background in individual and family development across the life span. Courses emphasize biological, psychological, social/cultural, and economic aspects of development as well as applied skill development. We strive for our curriculum (and the experienced and opportunities we extend to students) to foster cultural humility and highlight diverse characteristics, contexts and considerations that impact individuals, families, and communities.

Two options are available within the major:

1. Human Development and Family Science Option
2. Developmental Science for Health Professions Option

All students pursuing the HDFS B.S. are guided to complete a capstone experience customized to their interests. Capstones may include approved field experiences (internships), guided research experiences/

projects, and advanced coursework selected to align with individual student interests.

Human Development and Family Science Option

Available at the following campuses: Altoona, Brandywine, DuBois, Fayette, Harrisburg, Mont Alto, Scranton, Shenango, University Park, World Campus, York

This option focuses on the acquisition and application of scientific knowledge about development and family functioning across the life span for the purposes of enhancing personal and family development. Courses emphasize:

1. understanding the biological, psychological, and social development across the life span, and the structuring and functioning of families;
2. understanding basic theoretical and methodological issues; and
3. the development of applied skills in intervention and evaluation, prevention, and in the formulation of social policy.

Students in this option often pursue internships in service settings that work with children, youth, and/or adults. Typical employment settings include preschools, daycare centers, hospital programs for children, youth, and families, institutional and community mental health programs for individuals and families, programs for abused or neglected children and adolescents, women's resource centers, human resources programs, employee assistance programs, nursing homes, area agencies on aging and other community settings for older adults, and public welfare and family service agencies. This option also provides preparation for advanced training in careers in developmental or family research, teaching at a college or university, or for professional careers that require graduate training. Typical postgraduate pursuits of students completing this option include graduate study in human development, family studies, psychology, or sociology, or advanced professional training in psychology, law, behavioral health, counseling or social work, or other programs related to services for individuals and families.

Developmental Science for Health Professions Option

Available at the following campuses: Altoona, Brandywine, DuBois, Fayette, Mont Alto, Scranton, Shenango, University Park, York

This option is designed for students interested in focusing on human development/developmental science as a foundation to pursue health-related post graduate studies or work careers. This option guides students to acquire and apply scientific knowledge about human development (and family functioning) across the life span; emphasizing understanding biological, psychological, and social development across the life span. Additional coursework focuses on health across contexts. Students also select science foundation courses to complement their study of development across the lifespan and align with their career/post-graduate study interests. Typical postgraduate pursuits of students completing this option include graduate or professional studies in health-related areas (e.g. pediatrics, adolescent medicine, geriatrics, family medicine, psychiatry).

What is Human Development and Family Studies?

Penn State's Human Development and Family Studies (HDFS) program prepares students for careers across a wide range of human service, healthcare, and helping professions. The HDFS degree is grounded in research-based knowledge on the psychological, biological, social, cultural, and economic influences that impact the well-being of

individuals, families, and communities across the lifespan. HDFS coursework guides students to develop skills for working with and caring for diverse individuals and groups through emphasizing mindfulness, compassion, diversity, equity, advocacy and inclusion. Students take courses on infancy, childhood, and adolescent development, transitioning and thriving in adulthood, and healthy aging. Classroom experiences are supplemented by a range of engaged learning opportunities, including internships, research participation, and community partnerships through which HDFS students acquire skills preparing them for impactful careers. The program's flexible curriculum allows academic pathways and engagement experiences to be customized to align with students' career goals.

You Might Like This Program If...

- You are passionate about pursuing work focused on improving the lives and wellness of individuals, families, and communities.
- You are interested to learn about individual, family, community, and social factors influencing development as well as evidence-based practices that promote the cognitive, social, physical, and emotional well-being of children, adults, families, organizations, and communities.
- You are enthusiastic to use flexible degree requirements and integrated opportunities to pursue career exploration, experiential and engaged learning, and skill development specialized to your specific career goals.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Human Development and Family Studies, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	12-18
Requirements for the Major	60-67

3-4 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3-4 credits of GQ courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified

by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
HDFS 216	Thoughtful Communication for Navigating Human Interactions and Relationships	3
HDFS 301	Values and Ethics in Health and Human Development Professions	3
HDFS 311	Human Development and Family Studies Interventions	3
HDFS 312W	Empirical Inquiry in Human Development	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 3 credits from the following courses in Introduction to Human Development and Family Science: 3		
HDFS 129	Introduction to Human Development and Family Studies	
HDFS 101N	¿Helping People:¿ Introduction to Understanding Social Problems & How to Help	
Select 6 credits from the following courses in Foundations of Lifespan Human Development: 6		
HDFS 229	Infant and Child Development	
HDFS 239	Adolescent Development	
HDFS 249N	Adult Development and Aging	
Select 3 credits from the following courses in Family Foundations: 3		
HDFS 315	Family Development	
HDFS 315Y	Family Development	
SOC 30	Sociology of the Family	
Select at least 3 credits from the following courses in Statistics/Quantitative Skills: 3-4		
EDPSY 101	Analysis and Interpretation of Statistical Data in Education	
HDFS 200	Quantitative Skills for Human Services	
STAT 200	Elementary Statistics	
For the Career Development and Experiential Learning Capstone, select 15 credits from one of the following pathways: 15		
<i>Traditional Capstone Internship</i>		
HDFS 490	Professional Development and Preparation for Internship Experience	
HDFS 495A	Internship: Advanced Experience (9 credits)	
HDFS 495B	Internship: Advanced Project	
<i>Modified Internship (Option only available with department approval)</i>		
HDFS 490	Professional Development and Preparation for Internship Experience	
HDFS 495B	Internship: Advanced Project	
HDFS 495C	Professional Practicum in Human Services (3 credits)	
6 Additional Credits with Department Approval		
<i>Experiential Mix</i>		
HDFS 490	Professional Development and Preparation for Internship Experience	
HDFS 495A	Internship: Advanced Experience (3-6 credits)	

HDFS 495B	Internship: Advanced Project	
3-6 Credits of 300-/400-Level Career-Related Course Work (with Department Approval)		
<i>Research Emphasis</i>		
HDFS 494	Research Project (6 credits)	
	or HDFS 494 Senior Honors Thesis	
	or HDFS 496 Independent Studies	
3 Credits of 400-Level HDFS		
6 Additional Credits of 300-/400-Level Research Credits (e.g. HDFS 300H, HDFS 310M, HDFS 494, HDFS 494H, HDFS 496) or 300-/400-Level Career-Related Course Work (with Department Approval)		
Requirements for the Option		
<i>Requirements for the Option: Require a grade of C or better</i>		
Select an option		18-24

Requirements for the Option

Human Development and Family Science Option (18 credits)

Available at the following campuses: Altoona, Brandywine, DuBois, Fayette, Harrisburg, Mont Alto, Scranton, Shenango, University Park, World Campus, York

Code	Title	Credits
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 3 credits from the following courses in Advanced Development: 3		
HDFS 405	Gender and Social Development	
HDFS 413	Developmental Problems in Adulthood	
HDFS 428	Infant Development	
HDFS 429	Advanced Child Development	
HDFS 432	Developmental Problems in Childhood and Adolescence	
HDFS 433	Developmental Transition to Adulthood	
HDFS 434	Perspectives on Aging	
HDFS 445	Development Throughout Adulthood	
HDFS 447	Issues in Gerontology	
Select 3 credits from the following courses in Advanced Family Topics: 3		
HDFS 412	Adult-Child Relationships	
HDFS 415	Program Development in Family Relationships	
HDFS 416/ SOC 411	Racial and Ethnic Diversity and the American Family	
HDFS 417	Biocultural Studies of Family Organization	
HDFS 418	Family Relationships	
HDFS 424	Family Development in an Economic Context	
HDFS 431	Family Disorganization: Stress Points in the Contemporary Family	
HDFS 469U	Family Change in the Global Economy	
HDFS 477	Analysis of Family Problems	
SOC 430	Family in Cross-Cultural Perspective	
Select 6 credits from the following courses in Professional Skills for HDFS Careers: 6		
HDFS 410	Communities and Families	
HDFS 411	The Helping Relationship	

HDFS 414	Resolving Human Development and Family Problems
HDFS 430	Experience in Preschool Groups
HDFS 440	Family Policy
HDFS 455	Development and Administration of Human Services Programs
HDFS/CMAS 465	Child Maltreatment: Prevention and Treatment

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Diversity and Development: Select 6 credits from HDFS at any level or choose from approved list of University-wide offerings 6

Developmental Science for Health Professions Option (24 credits)

Available at the following campuses: Altoona, Brandywine, DuBois, Fayette, Harrisburg, Mont Alto, Scranton, Shenango, University Park, York

Code	Title	Credits
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 3 credits from the following courses in Health and Society:		3
BBH 407	Global Health Equity	
SOC 451	Health, Disease & Society	
Select 6 credits from the following courses in Advanced Development:		6
HDFS 405	Gender and Social Development	
HDFS 413	Developmental Problems in Adulthood	
HDFS 428	Infant Development	
HDFS 429	Advanced Child Development	
HDFS 432	Developmental Problems in Childhood and Adolescence	
HDFS 433	Developmental Transition to Adulthood	
HDFS 434	Perspectives on Aging	
HDFS 445	Development Throughout Adulthood	
HDFS 447	Issues in Gerontology	

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Diversity and Development: Select 3 credits from HDFS at any level or choose from approved list of University-wide offerings 3

Science and Health Foundations: Select 12 credits from approved list of University-wide offerings 12

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or

within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

Brandywine Campus

- HDFS students will be able to demonstrate an understanding of the complexity of individual and family development across the life span in diverse contexts and changing environments.
 - Summarize, critique, and apply theories and concepts related to individual and family development from a multi-disciplinary, life-cycle perspective.
 - Articulate how biology, psychology, and history influence diversity in individual and family structures and functions in a social/cultural context.
- HDFS students will be able to demonstrate the ability to evaluate and apply theory and research to practice and policy.
 - Demonstrate an understanding of the contribution of original research in human development.
 - Integrate and apply the findings of empirical research within a theoretical framework to human development.
 - Explain the strengths and weaknesses of various research methods in assessing human behavior.
 - Apply research skills in order to better understand in the use of research in agency practice.
 - Explain the process of planning and conducting research, including the role of the IRB.
 - Demonstrate skills to analyze and interpret data.
 - Apply theories to identify and resolve problems.
- HDFS students will demonstrate the ability to analyze processes, policies, and contextual factors that affect the delivery of human services to individuals and families.
 - Demonstrate knowledge of history and policies for ethical conduct in the delivery of human services.
 - Examine environmental factors shaping individual and family interventions (such as political, social, economic, cultural, and technological).
 - Demonstrate an understanding of community-based programs and services.
 - Understand and articulate individual and family needs and roles of human service organizations in fulfilling those needs.
 - Demonstrate knowledge of HIPAA regulations.
 - Develop a working knowledge of and ability to evaluate community-based programs and services.
- HDFS students will demonstrate professional ethical and culturally sensitive standards of conduct.
 - Articulate understanding of theories, skills, and competencies of an effective helper.
 - Demonstrate knowledge of the main ethical, legal, clinical, professional and personal issues and challenges involved in the helping professions.
 - Demonstrate knowledge of informed consent for working with diverse groups of clients.
 - Understand and apply ethical decision making models.
 - Understanding how personal values and experiences influence one's ability to make professional decisions.

- Recognize stereotypical and prejudicial language and attitudes and their impact on the helping relationship.
- HDFS students will demonstrate knowledge and competence in helping, leadership, and administrative human service skills.
 - Demonstrate knowledge of management in human services and how to apply appropriate practices.
 - Demonstrate professional written, oral and technology assisted communication skills.
 - Demonstrate clinical, interactional, and practical skills used in human service professions.
 - Identify the different organizational needs of public, private-for-profits, and private-not-for-profit agencies.

DuBois and York Campuses

- Understand the complexity of individual and family development across the lifespan.
- Evaluate and apply research and theory to practice and policy.
- Understand the processes, policies and contextual factors that affect the delivery of human services.
- Understand the professional, ethical, and culturally sensitive standards of conduct.
- Demonstrate knowledge and competence in helping, leadership and administrative skills.

Fayette Campus

- Understanding of the complexity of individual and family development across the lifespan in diverse contexts and changing environments.
 - Summarize, critique, and apply theories and concepts related to individual and family development from a multi-disciplinary, life-cycle perspective;
 - Articulate how biology, psychology, and history influence diversity in individual and family structures and functions in a social/cultural context.
- Ability to evaluate and apply theory and research to practice and policy.
 - Demonstrate an understanding of the contribution of original research in human development;
 - Integrate and apply the findings of empirical research within a theoretical framework to human development;
 - Explain the strengths and weaknesses of various research methods in assessing human behavior;
 - Apply research skills in order to better understand in the use of research in agency practice;
 - Explain the process of planning and conducting research, including the role of the IRB;
 - Demonstrate skills to analyze and interpret data;
 - Apply theories to identify and resolve problems.
- Ability to analyze processes, policies, and contextual factors that affect the delivery of human services to individuals and families.
 - Demonstrate knowledge of history and policies for ethical conduct in the delivery of human services;
 - Examine environmental factors shaping individual and family interventions (such as political, social, economic, cultural, and technological);
 - Demonstrate an understanding of community-based programs and services;

- Understand and articulate individual and family needs and roles of human service organizations in fulfilling those needs;
- Demonstrate knowledge of HIPAA regulations;
- Develop a working knowledge of and ability to evaluate community-based programs and services.
- Professional ethical and culturally sensitive standards of conduct.
 - Articulate understanding of theories, skills, and competencies of an effective helper;
 - Demonstrate knowledge of the main ethical, legal, clinical, professional and personal issues and challenges involved in the helping professions;
 - Demonstrate knowledge of informed consent for working with diverse groups of clients;
 - Understand and apply ethical decision making models;
 - Understanding how personal values and experiences influence one's ability to make professional decisions;
 - Recognize stereotypical and prejudicial language and attitudes and their impact on the helping relationship.
- Demonstrate a strong work ethic in their courses and in the field.
- Communicate, verbally and in writing, in a professional manner at all times.
- Take responsibility for and accept the consequences for their actions.
- Demonstrate the ability to work collaboratively in teams or groups.

Mont Alto and Scranton Campuses

- Demonstrate an understanding of the complexity of individual and family development across the life span in diverse contexts and changing environments
- Demonstrate an ability to evaluate and apply research and theory to practice and policy.
- Analyze processes, policies, and contextual factors that affect the delivery of human services to individuals and families.
- Demonstrate professional, ethical, and culturally sensitive standards of conduct.
- Demonstrate knowledge and competence in helping, leadership, and administrative skills for human services.

Shenango Campus

- Graduates can apply theories and principles of human services to clinical and /or practice and research.
 - Explain and cite appropriate theories that can be applied to a given scenario.
 - Compare and contrast, and can explain the pros and cons of major theories in human services.
 - Construct appropriate treatment plans and/or make appropriate referrals.
 - Develop a coherent research question and construct an appropriate research design and methodology to investigate the question.
 - Interpret and critique research findings.
 - Apply research/research findings to inform practice.
- Graduates will demonstrate professional and ethical accountability in dealing with clients and coworkers.
 - Interact respectfully with people of diverse populations at all times.
 - Define diversity and the benefits of diversity as it relates to the human services fields.
 - Conduct themselves successfully in interview settings whether as the interviewer or interviewee.
 - Demonstrate knowledge of laws concerning confidentiality, professional boundaries, and sexual harassment within the human services field, especially laws related to HIPAA, licensure regulations, and FERPA.

- Graduates can identify, access and utilize resources to better serve individuals, families, and communities at the micro and macro level.
 - Locate potential opportunities and develop high quality proposals to obtain funding from external sources.
 - Identify, locate, and access regional, national, and global resources for information, referrals, and assistance in performing their professional duties.
 - Locate policies, rules, regulations, and laws that impact their professional duties.
 - Explain the differences among profit, non-profit, and faith-based agencies and evaluate the relative credibility of those agencies.
- Graduates can use technologies necessary to perform professional duties efficiently and effectively.
 - Students will demonstrate a level of proficiency in email, web searches, presentation software, databases, publication software, library databases, statistical software, and word processing.
 - Students will recognize and effectively use appropriate software programs to more efficiently complete projects and assignments.
- Graduates will demonstrate strong verbal and written communication skills.
 - Students will demonstrate active listening skills and can construct effective questions to further explore issues and concerns.
 - Students will be proficient in APA style writing.
 - Students will be able to use proper grammar, sentence structure, accurate spelling, formal language, correct punctuation, coherent paragraphs, ... to write well organized and effective documents and professional communications.
 - Students will make effective presentations.
 - Students will construct effective arguments from multiple perspectives.
- Graduates will demonstrate personal and professional growth that leads to the ability to build and enhance skill sets.
 - Students will participate in professional development activities.
 - Students will demonstrate effective time management by completing all assignments and coursework by the assigned deadlines and attending class regularly.
 - Students will learn to recognize and deal with their personal issues and persist in their education and professional growth.
 - Students will identify their scope of practice based on their clinical limitations.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged

in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Brandywine Campus

Human Development and Family Science Option: Human Development and Family Studies, B.S. at Brandywine Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
HDFS 129*	3 HDFS 229, 239, or 249N*	3
ENGL 15, 30H, or ESL 15 [†]	3 HDFS 315*	3

General Education Course	3 CAS 100, CAS 100A, CAS 100B, or CAS 100C [‡]	0-3
General Education Course	3 General Education Course	3
General Education Course	3 General Education Course	3
	15	12-15

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

¹ Course selection based on semester availability. HDFS 412, 429, 433, 440, 445, Students should work with their adviser.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Note:

- Students should work with their adviser to address any deficiencies in MATH or World Languages in their first year.
- This HDFS program is offering a CFLE Certificate (Certified Family Life Educator). SELECT COURSES REQUIRED for CFLE provisional certification when choosing supporting courses in the HDFS major. Please consult with Dr. Ittig.
- Entrance to Major: Degree seeking students (DUS) must complete **18 credits AND have a 2.0 CGPA** before one can declare this major. Degree seeking students are limited to 36 credits at Penn State in this status, at which point they must seek enrollment in a degree program to continue.

Mont Alto Campus

Program Notes

- Students are encouraged to take HDFS 312W in semester 3, if possible.
- In consultation with an adviser, students will find a faculty member during their 5th or 6th semester to serve as the supervisor for HDFS 494, research project. This is a two-semester senior-year project culminating in semester 8 research paper.

Advising Notes

- **Fourth Year, Spring Semester:**
 - Career Development & Experiential Learning Capstone (15 credits):
 - Choose 15 credits from one of the following options:
 - Traditional Capstone Internship: HDFS 490, HDFS 495A (9 credits), and HDFS 495B (~480 hours)
 - Modified Internship (*only with departmental approval): HDFS 490, HDFS 495C (3 credits FTE), and HDFS 495B (3) (~480 hours), plus 6 additional credits with departmental approval
 - Experiential Mix: HDFS 490, HDFS 495A (3-6 credits), and HDFS 495B (~160–320 hours), plus 3-6 additional credits of career related coursework (with departmental approval)
 - Research Emphasis: 6 credits of HDFS 494, HDFS 494H, or HDFS 496, plus 3 additional credits of HDFS 400-level, plus 6 additional credits of 300/400-level research credits (e.g., HDFS 300H, HDFS 310M, HDFS 494, HDFS 494H, HDFS 496) or career related coursework (with departmental approval)
 - Math 21 is considered the standard 1st semester GQ. Students are encouraged to check with their adviser on the appropriate math sequencing if not placed in MATH 21 first semester.

- It is recommended that General Education Arts (GA) and Humanities (GH) be taken in junior and senior year if student plans to study abroad.
- HDFS 315 satisfies the University Requirement for US cultures.
- IL may be combined with GA, GH, or GS.
- Credit adjustments should be made if free elective credits are needed for a total of 120 credits minimum (which includes semester 8).

Human Development and Family Science Option: Human Development and Family Studies, B.S. at Scranton Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits

Total Credits 120-121

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes

- Students are encouraged to take HDFS 312W in semester 3, if possible.
- International cultures (IL) may be combined with GA, GH, or GS.
- HDFS 315 satisfies the University Requirement for US cultures.

Advising Notes

- **Fourth Year, Spring Semester:**
 - Career Development & Experiential Learning Capstone (15 credits):
 - Choose 15 credits from one of the following options:
 - Traditional Capstone Internship: HDFS 490, HDFS 495A (9 credits), and HDFS 495B (~480 hours)
 - Modified Internship (*only with departmental approval): HDFS 490, HDFS 495C (3 credits FTE), and HDFS 495B (3) (~480 hours), plus 6 additional credits with departmental approval
 - Experiential Mix: HDFS 490, HDFS 495A (3-6 credits), and HDFS 495B (~160-320 hours), plus 3-6 additional credits of career related coursework (with departmental approval)
 - Research Emphasis: 6 credits of HDFS 494, HDFS 494H, or HDFS 496, plus 3 additional credits of HDFS 400-level, plus 6 additional credits of 300/400-level research credits (e.g., HDFS 300H, HDFS 310M, HDFS 494, HDFS 494H, HDFS 496) or career related coursework (with departmental approval)
- MATH 21 is considered the standard 1st semester GQ. Students are encouraged to check with their adviser on the appropriate math sequencing if not placed in MATH 21 first semester.
- Students should consult with their advisers concerning appropriate supporting courses.

- This is a recommended plan and is not meant to substitute for students meeting with their academic advisers. Any deviations from this plan should be discussed with students' academic advisers.

Shenango Campus

Career Paths

Demand for HDFS graduates is strong because the major provides students with a valuable foundation for understanding important social trends and guides students to develop the knowledge and skills to positively impact individuals, families, and communities. HDFS Students can customize their degree to align with career interests. HDFS students specialize through minors, certificates and credit-based hands-on learning opportunities.

HDFS students complete a capstone experience customized to their interests and designed to enhance their qualifications. Capstones include approved internships, guided research experiences, or advanced courses. The HDFS department capstone program provides:

- A capstone preparation class to help students explore interests, identify opportunities, and submit professional applications - and -
- Experienced capstone coordinators to help students get the most out of the capstone experience

Careers

Many HDFS graduates go directly to the workplace based on their understanding of people, their knowledge of group dynamics, and their skills in training and in program development and evaluation. HDFS students pursue positions right out of college in:

- Health and Human Services Professions (e.g. youth and family services, child advocacy, health education)
- Early Childhood Development (e.g. early childhood education, early intervention specialists, applied behavioral analysis)
- Child and Youth Services
- Foster Care and Adoption
- Family Education and Intervention
- Services for Older Adults
- Services for Individuals with Disabilities
- Program Administration and Advocacy (e.g. volunteer coordination, program management and evaluation, human resources)

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE HUMAN DEVELOPMENT AND FAMILY STUDIES PROGRAM (<https://hhd.psu.edu/undergraduate/internships-and-career-opportunities/career-areas-major/careers-human-development-and/>)

Opportunities for Graduate Studies

A degree in HDFS is also a great foundation for individuals who are interested in pursuing advanced professional training/graduate study in:

- Counseling (e.g., addiction counseling, marriage and family therapy, mental health counseling, counseling psychology, educational and vocational counseling)
- Social Work and Public Health
- Clinical Health Professions (e.g. psychiatry, pediatrics, adolescent medicine, family medicine, obstetrics and gynecology, geriatrics, occupational therapy)
- Program Administration and Management
- Special Education
- Family Law
- Public Policy and Advocacy
- Research (e.g., on lifespan human development, psychology, sociology, prevention)

End Campus: Fayette

Program Description

This major helps students appreciate, understand, and interpret relationships among the arts, ideas, media, and values that have shaped Western and world cultures. Students are taught to become active learners who can synthesize, interpret, and communicate knowledge and experience through writing, speaking, and creative expression in a variety of media. The School helps students meet these goals by offering a range of interdisciplinary and discipline-based courses in the arts, art history, communication studies, English, history, literature, music, philosophy, theatre, and writing. The course of study includes interdisciplinary courses which examine topics and time periods from the perspectives of multiple Humanities disciplines. These courses engage students in cross-disciplinary critical thinking and analysis and prepare them for work in an increasingly interdisciplinary world. Students also choose two Humanities subfields to investigate in greater depth, choosing from history and global cultures; the visual and performing arts; philosophy and religious studies; and literature and writing. Students are also encouraged to combine this major with a minor in such fields as business administration, writing, and communications. The Humanities major prepares students for careers in the arts, arts administration, business, corporate communications, government, teaching, museum work, and law, as well as providing a foundation for graduate study in a liberal arts field.

What is Humanities?

Humanities is an area of study that focuses on combined studies and research in the humanities subjects as distinguished from the social and physical sciences, emphasizing languages, literatures, art, music, philosophy, religion, creative and professional writing, theater, history, and global cultures.

You Might Like This Program If...

- You are interested in critical thinking and interdisciplinary analysis.
- You are drawn to literature and the arts.
- You want to prepare for a professional field such as medicine or law.
- You want a career in the arts, teaching, communications, business, government, or museum work.

Entrance to Major

Entry to the Humanities major requires the completion of 27.1 or more credits and a 2.00 or higher cumulative grade-point average.

Degree Requirements

For the Bachelor of Arts degree in Humanities, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	0-15
Bachelor of Arts Degree Requirements	24
Requirements for the Major	51

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Requirements for the Major

At least 36 of the last 60 credits must be earned at Penn State, according to University Policy 83-80.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits

ENGL and CMLIT courses

COMM 230W Writing for Media

COMM 260W News Writing and Reporting

COMM 332 Reporting

COMM 346 Writing for the Screen I

COMM 474 Depth Reporting

Select 12 credits from AMST, ART, ARTH, CAS, CHNS, CMLIT, COMM, ENGL, FR, HIST, HUM, INART, MUSIC, PHIL, RLST, SPAN, or THEA and/or 12 credits that can be used toward a minor in an area of the student's interests

¹ At least 15 credits of supporting courses must be at the 400 level.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits

- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Humanities, B.A. at Fayette Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ Select course in first subfield, (1) for the subfield of history and global cultures, select from HIST, CMLIT, SPAN (all courses with those prefixes), CAS 271, COMM 350, ENGL 486, ENGL 488, INTST 100; for the subfield of performing and visual arts and art history, select from ART, ARTH, INART, MUSIC, THEA (all courses with those prefixes), COMM 215, COMM 241, COMM 242, COMM 250; for the subfield of philosophy and religious studies: select from PHIL, RLST (all courses with those prefixes) for the subfield of literature and writing, select from ENGL, CMLIT (all courses with those prefixes), COMM 230W, COMM 260W, COMM 332, COMM 346, COMM 474.

² Select course in second subfield (2), for the subfield of history and global cultures, select from HIST, CMLIT, SPAN (all courses with those prefixes), CAS 271, COMM 350, ENGL 486, ENGL 488, INTST 100; for the subfield of performing and visual arts and art history, select from ART, ARTH, INART, MUSIC THEA (all courses with those prefixes), COMM 215, COMM 241, COMM 242, COMM 250; for the subfield of philosophy and religious studies: select from PHIL, RLST (all courses with those prefixes) for the subfield of literature and writing, select from ENGL, CMLIT (all courses with those prefixes), COMM 230W, COMM 260W, COMM 332, COMM 346, COMM 474.

³ Select HUM required course (3), select from HUM 150, HUM 311, HUM 410, HUM 430, HUM 453, HUM 460, HUM 461, HUM 491, HUM 494, HUM 495, HUM 496, HUM 497 or HUM 499.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Career Paths

The Humanities major prepares students for careers in the arts, arts administration, business, corporate communications, government, teaching, museum work, and law. Penn State Harrisburg's Career Services office provides numerous resources for students, including: assistance with resumes and interview preparation online resources for finding full or part time, and co-op/intern positions strategies and information on

attending and getting the most out of job/intern fairs information and guidance in preparing for graduate study at Penn State or elsewhere.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE HUMANITIES PROGRAM (<https://harrisburg.psu.edu/humanities/humanities-ba/>)

Opportunities for Graduate Studies

The Humanities major also provides a foundation for graduate study in a liberal arts field, including Penn State's Master of Arts in Humanities program.

Information Sciences and Technology, A.S. (University College)

Begin Campus: DuBois, Greater Allegheny, Hazleton, Mont Alto, Wilkes-Barre, Scranton, York

End Campus: DuBois, Greater Allegheny, Hazleton, Mont Alto, Scranton, Wilkes-Barre, York

Program Description

This associate degree major is structured to prepare graduates for immediate and continuing employment opportunities in the broad disciplines of information science and technology. This includes positions such as application programmers, associate systems designers, network managers, web designers and administrators, or information systems support specialists. Specifically, the major is designed to ensure a thorough knowledge of information systems and includes extensive practice using contemporary technologies in the creation, organization, storage, analysis, evaluation, communication, and transmission of information. The major fosters communications, interpersonal, and group interaction skills through appropriate collaborative and active learning projects and experiences. Technical material covers the structure of database systems, web and multimedia systems, and considerations in the design of information systems. Team projects in most courses, a required internship, and a second-year capstone experience provide additional, focused venues for involving students in the cutting-edge issues and technologies in the field.

The Associate of Science in IST degree will be offered at multiple campuses within the Penn State system of colleges and campuses. Note that not all options will be available at all locations.

Application Development Option

Available at the following campuses: Berks, Greater Allegheny, Hazleton, Mont Alto, Scranton, World Campus, York

The Application Development option prepares students for entry level position in applications development and/or web development. It also prepares students for IST related baccalaureate degrees such as HCDD, IT, ETI, and CYBER. Students take courses such as web development and advanced java programming as well as usability.

Custom Option

Available at the following campuses: Berks, DuBois, Greater Allegheny, Hazleton, Mont Alto, Scranton, Wilkes-Barre, World Campus, York

The Custom option enables students to work closely with an adviser to develop a plan of study that meets the dual objectives of allowing a flexible academic program and a specific theme related to technology. Some examples of themes are web development, psychology, and usability.

Cybersecurity Option

Available at the following campuses: Berks, Greater Allegheny, Mont Alto, World Campus, York

The Cybersecurity option prepares students for an entry level position in the cyber security field. It also prepares students for IST related baccalaureate degrees such as Cybersecurity Analytics and Operations and SRA. Students take introductory courses in CYBER and SRA as well as advanced hand-on courses in these areas.

Generalized Business Option

Available at the following campuses: Berks, DuBois, Greater Allegheny, Mont Alto, Scranton, World Campus, York

The Generalized Business option enables students to specialize in the general business areas of accounting, marketing, and management, and is closely aligned with the requirements of the ETI major.

Networking Option

Available at the following campuses: DuBois, Mont Alto, World Campus

The Networking option prepares graduates for positions as entry-level computer network administrators. Students take courses in personal computer hardware, networking essentials, and network administration.

What is Information Sciences and Technology?

Information Sciences and Technology is a discipline that explores how we can strengthen the power of information and technology, and use it to increase human potential. This includes focusing on creating innovative systems and technological solutions that benefit businesses, organizations, and individuals, and understanding the role of technology in how we live our lives.

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Science degree in Information Sciences and Technology, a minimum of 60 credits is required:

Requirement	Credits
General Education	21
Electives	0-5
Requirements for the Major	43-47

6-9 of the 21 credits for General Education are included in the Requirements for the Major. For all options, this includes: 3 credits of GQ courses; 3 credits of GWS courses; 0-3 credits of GS courses. (3 credits of GQ courses in Additional Courses includes MATH 21, MATH 22, MATH 110, SCM 200 or STAT 200) and 3 credits of GWS courses including ENGL 15 or CAS 100 which are Prescribed Courses. Students may also overlap 3 credits of GS if they select SRA 111 in Additional Courses for the Major or if they select ECON 102/ECON 104 in the Generalized Business Option Additional Courses.)

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
CAS 100	Effective Speech	3
ENGL 15	Rhetoric and Composition	3
IST 140	Introduction to Application Development	3
IST 210	Organization of Data	3
IST 220	Networking and Telecommunications	3
IST 260W	Introduction to Systems Analysis and Design	3
Additional Courses		
ENGL 202C	Effective Writing: Technical Writing	3
or ENGL 202D	Effective Writing: Business Writing	
<i>Additional Courses: Require a grade of C or better</i>		
IST 250	Introduction to Web Design and Development	3
or IST 256	Programming for the Web	
Select 3 credits from the following: ¹		3
CYBER 100	Computer Systems Literacy	
CYBER 100S	Computer Systems Literacy	
HCDD 113	Foundations of Human-Centered Design and Development	
HCDD 113S	Foundations of Human-Centered Design and Development FYS	
IST 110	Information, People and Technology	
SRA 111	Introduction to Security and Risk Analysis	
Select 1 credit from the following:		1

IST 295A	Distributed Team Project	
IST 295B	IST Internship	
IST 495	Internship	
Select 3-4 credits from the following:		3-4
MATH 21	College Algebra with Analytic Geometry with Applications I	
MATH 22	College Algebra With Analytic Geometry and Applications II	
MATH 26	Plane Trigonometry and Applications of Trigonometry	
MATH 110	Techniques of Calculus I	
MATH 140	Calculus With Analytic Geometry I	
SCM 200	Introduction to Statistics for Business	
STAT 200	Elementary Statistics	

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Any first-year seminar course. Students who complete CYBER 100S or HCDD 113S as additional courses do not have to schedule an additional first-year seminar.

Requirements for the Option

Requirements for the Option: Require a grade of C or better

Select an option 12-14

¹ Students planning to complete the Cybersecurity option must select CYBER 100/CYBER 100S. Courses may not double count with option requirements.

Requirements for the Option

Application Development Option (12 credits)

Available at the following campuses: Berks, Greater Allegheny, Hazleton, Mont Alto, Scranton, World Campus, York

Code	Title	Credits
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 12 credits from the following:		12
IST 242	Intermediate & Object-Oriented Application Development	
IST 256	Programming for the Web ¹	
IST 261	Application Development Design Studio I	
IST 311	Object-Oriented Design and Software Applications	
HCDD 264	Design Practice in Human-Centered Design and Development	
or IST 331	Foundations of Human-Centered Design	

¹ IST 256 may count in the major requirements or the option, but may not double count toward both requirements.

Custom Option (12 credits)

Available at the following campuses: Berks, DuBois, Greater Allegheny, Hazleton, Mont Alto, Scranton, Wilkes-Barre, World Campus, York

Code	Title	Credits
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		

Select 12 credits in consultation with an adviser. All courses are C- required. Examples of specific themes include: Web Development, Psychology, Usability. 12

Cybersecurity Option (12 credits)

Available at the following campuses: Berks, Greater Allegheny, Mont Alto, World Campus, York

Code	Title	Credits
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 12 credits from the following: ¹		12
CYBER 262	Cyber-Defense Studio	
IST 242	Intermediate & Object-Oriented Application Development	
SRA 111	Introduction to Security and Risk Analysis	
SRA 211	Threat of Terrorism and Crime	
SRA 221	Overview of Information Security	

¹ Courses may not double count with the major requirements.

Generalized Business Option (12-14 credits)

Available at the following campuses: Berks, DuBois, Greater Allegheny, Mont Alto, Scranton, World Campus, York

Code	Title	Credits
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 12-14 credits from the following:		12-14
ACCTG 211	Financial and Managerial Accounting for Decision Making	
BA 243	Social, Legal, and Ethical Environment of Business	
	or BLAW 243 Legal Environment of Business	
	or BA 241 Legal Environment of Business	
	& BA 242 and Social and Ethical Environment of Business	
BA 301	Finance	
	or FIN 301 Corporation Finance	
BA 302	Supply Chains	
	or SCM 301 Supply Chain Management	
BA 303	Marketing	
	or MKTG 301 Principles of Marketing	
BA 304	Management and Organization	
	or MGMT 301 Basic Management Concepts	
ECON 102	Introductory Microeconomic Analysis and Policy	
	or ECON 104 Introductory Macroeconomic Analysis and Policy	

Networking Option (12 credits)

Available at the following campuses: DuBois, Mont Alto, World Campus

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
IST 225	PC Hardware Basics	3
IST 226	Networking Essentials	3
IST 227	Network Administration	3
IST 228	Advanced Network Administration	3

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 3 credits
- **Writing and Speaking (GWS):** 3 credits

Knowledge Domains

- **Arts (GA):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Note: Up to six credits of Inter-Domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

- **Any General Education course (including GHW and Inter-Domain):** 3 credits

University Degree Requirements

Cultures Requirement

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 60 degree credits must be earned for an associate degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more

information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

DuBois Campus

- **Know the System Development Lifecycle (SDLC):** Demonstrate knowledge of the SDLC by applying its methods to information systems projects and lab exercises.
- **Know Information Systems and Industry Methods:** Demonstrate ability to apply various industry standards in system development, system maintenance, and ISO/IEC/IEEE standards.
- **Use Information Sciences Theory/Practice:** Use management theory and information technology processes in managing information systems, which include best practices for system design, development, and implementation.
- **Manage Information Systems:** Demonstrate knowledge and execution of designing and managing various information systems.
- **Know Security Risk Factors:** Demonstrate knowledge of security risk factors impacting on various system components; understand the impact of those risk factors on the larger information system; and demonstrate the ability to design, develop, and implement secure information systems, using the latest industry standards and best practices, (i.e., securing hardware, software compliance, etc.).
- **Use Communication Skills:** Apply written, oral, and graphic communication effectively in both technical and nontechnical environments, and use appropriate technical literature.
- **Use Team Membership Skills:** Function effectively as a member of a technical team.

Greater Allegheny Campus

- **Design and Manage Network- and Information-based systems:** Demonstrate knowledge and execution of designing and managing various information systems.

Hazleton and York Campuses

- **Knowledge/Application:** Understand and apply the interdisciplinary, theoretical knowledge of the information sciences or security science
 - Define and explain the core concepts, principles, processes, and theories within the academic majors of IST and/or SRA
 - Apply the core concepts of the academic majors of IST and/or SRA to real-world problems
- **Problem-Solving:** Understand, apply and adapt various problem solving strategies, using appropriate technology and methods
 - Identify information problems and/or opportunities in terms of the human, informational and technology dimensions
 - Analyze issues surrounding the problem and/or opportunity in terms of the human, informational, and technology dimensions; and determine the requirements appropriate to understanding the situation
 - Design systems, architectures, processes, components, or programs to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world)
 - Deploy up-to-date and appropriate techniques, methodologies, and/or tools necessary for understanding opportunities and constraints and/or the optimal design, implementation and continuance of an information based solution

- Evaluate the success of systems, architecture, processes, components, or programs intended to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world)
- **Communication (Individual and Team):** Communicate and work effectively (both individually and in teams) with a range of perspectives and audiences through a variety of media
 - Participate effectively on teams in order to accomplish a common goal
 - Communicate effectively with a range of audiences, formally or informally, through writing and the spoken word
 - Seek out, analyze, and incorporate diverse ideas and broader perspectives represented in the diversity of people
 - Make respectful and inclusive choices in interacting with customers, peers, supervisors, and/or subordinates with a diversity of identity characteristics (e.g., age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, gender identify, or veteran status)
- **Professional Responsibilities:** Understand professional responsibilities in terms of the ethical, legal, security and social aspects of any given problem and its solution
 - Demonstrate an understanding of the cognitive, social, legal, ethical, diversity, and security perspectives surrounding a given problem
 - Assess the impact of information, computing and technology on individuals, groups, organizations, society, and the world for the purpose of making informed decisions from a sociological, governmental, legal, and/or security perspective.
- **Lifelong Learning:** Commit to the continuous acquisition of relevant knowledge for professional development by self-teaching and/or on-going education and learning
 - Employ information-seeking strategies and self-directed learning in pursuit of current knowledge
 - Enroll in professional development and tutoring opportunities

Mont Alto Campus

- **Knowledge/Application:** Understand and apply the interdisciplinary, theoretical knowledge of the information sciences or security sciences
 - Define and explain the core concepts, principles, processes, and theories within the academic majors of IST and/or SRA
 - Apply the core concepts of the academic majors of IST and/or SRA to real-world problems
- **Problem-Solving:** Understand, apply and adapt various problem solving strategies, using appropriate technology and methods
 - Identify information problems and/or opportunities in terms of the human, informational and technology dimensions
 - Analyze issues surrounding the problem and/or opportunity in terms of the human, informational, and technology dimensions; and determine the requirements appropriate to understanding the situation
- **Communication (Individual and Team):** Communicate and work effectively (both individually and in teams) with a range of perspectives and audiences through a variety of media
 - Participate effectively on teams in order to accomplish a common goal
 - Communicate effectively with a range of audiences, formally or informally, through writing and the spoken word

- Seek out, analyze, and incorporate diverse ideas and broader perspectives represented in the diversity of people
- Make respectful and inclusive choices in interacting with customers, peers, supervisors, and/or subordinates with a diversity of identity characteristics (e.g., age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, gender identify, or veteran status)
- **Professional Responsibilities:** Understand professional responsibilities in terms of the ethical, legal, security and social aspects of any given problem and its solution
 - Demonstrate an understanding of the cognitive, social, legal, ethical, diversity, and security perspectives surrounding a given problem
 - Assess the impact of information, computing and technology on individuals, groups, organizations, society, and the world for the purpose of making informed decisions from a sociological, governmental, legal, and/or security perspective.
- **Lifelong Learning:** Commit to the continuous acquisition of relevant knowledge for professional development by self-teaching and/or on-going education and learning
 - Employ information-seeking strategies and self-directed learning in pursuit of current knowledge
 - Enroll in professional development and tutoring opportunities

Scranton Campus

- **Communication:** Communicate and work effectively (both individually and in teams) with a range of perspectives and audiences through a variety of media.
- **Knowledge/Application:** Understand and apply the interdisciplinary, theoretical knowledge of the information sciences or security sciences
- **Lifelong Learning:** Commit to the continuous acquisition of relevant knowledge for professional development by self-teaching and/or on-going education and learning.
- **Problem-solving:** Understand, apply and adapt various problem solving strategies, using appropriate technology and methods.
- **Professional Responsibilities:** Understand professional responsibilities in terms of the ethical, legal, security and social aspects of any given problem and its solution.

Wilkes-Barre Campus

- Design systems, architectures, processes, components, or programs to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world).

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

DuBois Campus

Custom Option: Information Sciences and Technology, A.S. at DuBois Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- As long as two Arts (GA) and two Humanities (GH) are taken across the eight semesters, the particular order in which these courses are taken is not relevant. The course series listed above is only one of many possible ways to move through the IST curriculum.

Advising Notes:

- A student's career/graduate school plans should be considered in developing an individual academic plan. Be sure to consult an adviser in this department when scheduling courses.

Generalized Business Option: Information Sciences and Technology, A.S. at DuBois Campus

Information Technology, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Beaver, Brandywine, DuBois, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, Wilkes-Barre, York

Program Description

This degree is a new broad based technical and theoretical degree that will prepare students to implement and use information technology to realize a variety of goals within and between all types of organizations and businesses (e.g., reliability, accessibility, efficiency, cost reduction, and revenue enhancement). The emphasis is on providing the student with the theoretical frameworks needed to use information technology

to solve problems while also providing a set of applied, real-world experiences. Students will acquire a broad set of skills across many areas of information technology, including programming and systems development, networking, databases, project management, and information security. Students will consider how the implementation of information technology in organizations affects social change and the delivery of information to the consumer. Upper-level course selections allow for specific advanced options including but not limited to application development, networking, cybersecurity, and business. Project-oriented, team-based projects that include significant writing and presentation components will be integrated throughout the curriculum.

Application Development Option

Available at the following campuses: *Abington, Altoona, Beaver, Berks, Brandywine, Lehigh Valley, Schuylkill, Scranton, York*

This option prepares students for the design and development of complex object-oriented programming and technical skills to succeed in a fast-paced development and operations environment.

Business Applications Option

Available at the following campuses: *Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, York*

This option prepares students to pursue careers in Information technology solving business organizational problems with an emphasis on the systems processes and business operations integration.

Custom Information Technology Option

Available at the following campuses: *Altoona, Berks, Brandywine, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, Wilkes-Barre, York*

This option provides the opportunity for students to pursue an approved information technology interdisciplinary or exploratory program of study.

Cybersecurity Option

Available at the following campuses: *Altoona, Beaver, Berks, Brandywine, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, York*

This option will provide students with the knowledge and cyber defense skills needed to critically assess and respond to modern information security threats. They will be prepared to protect information infrastructure and data from attacks and unauthorized access.

Networking Option

Available at the following campuses: *Abington, DuBois, Mont Alto*

This option prepares students to pursue careers in the design, development, and support of complex networks and networking infrastructure.

Security and Risk Analysis Option

Available at the following campuses: *Altoona, Berks, Brandywine, Lehigh Valley, Schuylkill*

This option prepares students to address the current and emerging security and risk challenges that face individuals, organizations and our nation, over a variety of domains including national/homeland security, emergency and disaster management, law and crime, and enterprise risk management.

What is Information Technology?

Information Technology offers both broad organizational problem-solving skills and in-depth knowledge in current in-demand technical skills. Using technology to leverage organizational resources and address organizational challenges are at the forefront of the B.S. degree in Information Technology. The program includes required and optional courses in cybersecurity, databases, computer programming, project management, security and risk analysis, networking, web design and development, application development, and systems analysis. This broad base of skills is ideally suited for entry-level positions in all the above content areas.

You Might Like This Program If...

- You enjoy technology and working with others to build solutions.
- You want to create high-tech solutions to organizational and societal challenges.
- You are interested in application development and programming.
- You are interested in improving computer systems and enhancing their safety for individuals and corporations.
- You want to leverage current and emerging technologies to improve business processes.

Entrance to Major

To be eligible for entrance to the B.S. in Information Technology major, students must:

- achieve a minimum cumulative grade point average of 2.00
- complete the following entrance-to-major courses with grades of C or better:
 - IST 110 or CYBER 100 or CYBER 100S
 - IST 140 or CMPSC 121 or CMPSC 131
 - IST 210
 - IST 220

Degree Requirements

For the Bachelor of Science degree in Information Technology, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	7-9
Requirements for the Major	87-89

21 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GWS courses; 6 credits of GQ courses; and 6 credits of GS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		

ETI 461	Database Management and Administration	3
IST 210	Organization of Data	3
IST 220	Networking and Telecommunications	3
IST 230	Language, Logic, and Discrete Mathematics	3
IST 242	Intermediate & Object-Oriented Application Development	3
IST 256	Programming for the Web	3
IST 260W	Introduction to Systems Analysis and Design	3
IST 302	IT Project Management	3
IST 331	Foundations of Human-Centered Design	3
IST 440W	Information Sciences and Technology Integration and Problem Solving	3
IST 495	Internship	1
SRA 111	Introduction to Security and Risk Analysis	3
SRA 221	Overview of Information Security	3

Additional Courses

Select one of the following:		3
ECON 102	Introductory Microeconomic Analysis and Policy	
ECON 104	Introductory Macroeconomic Analysis and Policy	
PLSC 1	American Politics: Principles, Processes and Powers	
PLSC 14	International Relations	
PSYCH 100	Introductory Psychology	
SOC 5	Social Problems	

Additional Courses: Require a grade of C or better

ENGL 15	Rhetoric and Composition	3
or ENGL 30H	Honors Rhetoric and Composition	
ENGL 202C	Effective Writing: Technical Writing	3
or ENGL 202D	Effective Writing: Business Writing	
MATH 110	Techniques of Calculus I	4
or MATH 140	Calculus With Analytic Geometry I	
Select one of the following:		3
CAS 100A	Effective Speech	
CAS 100B	Effective Speech	
CAS 100C	Effective Speech	

Select one of the following:		3
CMPSC 121	Introduction to Programming Techniques	
CMPSC 131	Programming and Computation I: Fundamentals	
IST 140	Introduction to Application Development	

Select one of the following:		3
CYBER 100	Computer Systems Literacy	
CYBER 100S	Computer Systems Literacy	
IST 110	Information, People and Technology	

Select one of the following:		4
DS 200	Introduction to Data Sciences	
STAT 200	Elementary Statistics	
SCM 200	Introduction to Statistics for Business	

Select one of the following: ¹		3-4
ACCTG 211	Financial and Managerial Accounting for Decision Making	
BA 100	Introduction to Business	
ECON 102	Introductory Microeconomic Analysis and Policy ²	
ECON 104	Introductory Macroeconomic Analysis and Policy ²	

MGMT 301	Basic Management Concepts	
MKTG 301	Principles of Marketing ²	
Select one of the following: ¹		3
CYBER 262	Cyber-Defense Studio	
IST 226	Networking Essentials	
IST 451	Network Security	
IST 454	Computer and Cyber Forensics	
Requirements for the Option		
Select an option		18-19

¹ These courses may not double count with other additional or option requirements.

² Course does not require a grade of C or better.

Requirements for the Option

Application Development Option (18 credits)

Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, Lehigh Valley, Schuylkill, Scranton, York

Code	Title	Credits
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 12 credits, with at least 3 credits at the 400 level, from the following:		12
IST 261	Application Development Design Studio I	
IST 311	Object-Oriented Design and Software Applications	
IST 361	Application Development Design Studio II	
IST 411	Distributed-Object Computing	
IST 412	The Engineering of Complex Software Systems	
IST 413	Usability Engineering	

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 6 credits at the 300 or 400 level in Advanced IT courses from College approved list. 6

Business Applications Option (19 credits)

Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, York

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
ACCTG 211	Financial and Managerial Accounting for Decision Making	4

Additional Courses

Additional Courses: Require a grade of C or better

Select one of the following: ¹		3
FIN 301	Corporation Finance	
MGMT 301	Basic Management Concepts	
MKTG 301	Principles of Marketing	
SCM 301	Supply Chain Management	

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 6 credits from ACCTG, BA, BLAW, EBF, ECON, ENTR, FIN, FINSV, HPA, IB, LER, MIS, MGMT, MKTG, RM, SCM, or STAT, including 3 credits at the 400-level. 6

Select 3 credits at the 300 or 400 level in Advanced IT Business courses from College-approved list. 3

Select 3 credits at the 300 or 400 level in Advanced IT courses from College-approved list. 3

¹ Option courses may not double count with other requirements.

Custom Information Technology Option (18 credits)

Available at the following campuses: Altoona, Berks, Brandywine, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, Wilkes-Barre, York

Code	Title	Credits
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Select 12 credits, with at least 3 credits at the 400 level, in consultation with an adviser that follow a coherent theme in information technology.		12
Select 6 credits at the 300 or 400 level in Advanced IT courses from College-approved list.		6

Cybersecurity Option (18 credits)

Available at the following campuses: Altoona, Beaver, Berks, Brandywine, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, York

Code	Title	Credits
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 12 credits, with at least 3 credits at the 400 level, from the following:		12
CYBER 262	Cyber-Defense Studio	
IST 451	Network Security	
IST 454	Computer and Cyber Forensics	
IST 456	Information Security Management	
SRA 472	Integration of Privacy and Security	
Any 300 or 400 Level CYBER Course		

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Additional Courses: Require a grade of C or better

Select 12 credits, with at least 3 credits at the 400 level, from the following: 12

IST 432	Legal and Regulatory Environment of Information Science and Technology
IST 452	Legal and Regulatory Environment of Privacy and Security
IST 456	Information Security Management
SRA 211	Threat of Terrorism and Crime
SRA 231	Decision Theory and Analysis
SRA 311	Risk Analysis in a Security Context
SRA 365	Statistics for Security and Risk Analysis

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 6 credits at the 300 or 400 level in Advanced IT courses from College-approved list. 6

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN,** may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Advanced IT Selection – All Options

As noted in each Suggested Academic Plan below, all options of the Information Technology, B.S. major require students to select 300 or 400 level Advanced IT courses from a College-approved list. Students in the Business Application option must select 3 credits of these Advanced IT courses. Students in all other options must select 6 credits of these Advanced IT courses. The list of Advanced IT courses that all students may choose from includes the following:

Code	Title	Credits
IST 402	Emerging Issues and Technologies	3
IST 413	Usability Engineering	3
IST 425	New Venture Creation	3
IST 431	The Information Environment	3
IST 446	An Introduction to Building Computer/Video Games	3
IST 454	Computer and Cyber Forensics	3
IST 456	Information Security Management	3
MIS 390	Foundations of Information Systems	3
MIS 404	Introduction to ERP and Business Processes	3
IST 301	Information and Organizations	3
IST 420	Fundamentals of Systems and Enterprise Integration	3
IST 421	Advanced Enterprise Integration: Technologies and Applications	3
IST 432	Legal and Regulatory Environment of Information Science and Technology	3
IST 452	Legal and Regulatory Environment of Privacy and Security	3

Beaver Campus

Application Development Option: Information Technology, B.S. at Beaver Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit

(accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Total Credits 120

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Business Selection Courses (cannot double count with other Additional or Option requirements):
 - ACCTG 211
 - BA 100
 - ECON 102
 - ECON 104
 - MGMT 301
 - MKTG 301
- Networking Selection Courses (cannot double count with other Additional or Option requirements):
 - CYBER 262
 - IST 226
 - IST 451
 - IST 454
- Option Courses:
 - Application Development:
 - Select 12 credits, with at least 3 credits at the 400 level from: IST 261, IST 311, IST 361, IST 411, IST 412, IST 413
 - Business Applications:
 - ACCTG 211
 - Select 3 credits from: FIN 301, MGMT 301, MKTG 301, SCM 301
 - Select 6 credits, with at least 3 credits at the 400 level from: ACCTG, BA, BLAW, EBF, ECON, ENTR, FIN, FINSV, HPA, IB, LER, MIS, MGMT, MKTG, RM, SCM, or STAT
 - Cybersecurity:
 - Select 12 credits, with at least 3 credits at the 400 level from: CYBER 262, IST 451, IST 454, IST 456, SRA 472, or any 300 or 400 level CYBER course
 - Security and Risk Analysis:
 - Select 12 credits, with at least 3 credits at the 400 level from: SRA 211, SRA 231, SRA 311, SRA 365, IST 432, IST 452, IST 456

Business Applications Option: Information Technology, B.S. at Beaver Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Business Selection Courses (cannot double count with other Additional or Option requirements):
 - ACCTG 211
 - BA 100
 - ECON 102
 - ECON 104
 - MGMT 301
 - MKTG 301
- Networking Selection Courses (cannot double count with other Additional or Option requirements):
 - CYBER 262
 - IST 226
 - IST 451
 - IST 454
- Option Courses:
 - Application Development:
 - Select 12 credits, with at least 3 credits at the 400 level from: IST 261, IST 311, IST 361, IST 411, IST 412, IST 413
 - Business Applications:
 - ACCTG 211
 - Select 3 credits from: FIN 301, MGMT 301, MKTG 301, SCM 301
 - Select 6 credits, with at least 3 credits at the 400 level from: ACCTG, BA, BLAW, EBF, ECON, ENTR, FIN, FINSV, HPA, IB, LER, MIS, MGMT, MKTG, RM, SCM, or STAT
 - Cybersecurity:
 - Select 12 credits, with at least 3 credits at the 400 level from: CYBER 262, IST 451, IST 454, IST 456, SRA 472, or any 300 or 400 level CYBER course
 - Security and Risk Analysis:

- Select 12 credits, with at least 3 credits at the 400 level from:
SRA 211, SRA 231, SRA 311, SRA 365, IST 432, IST 452,
IST 456

Custom Information Technology Option: Information Technology, B.S. at Brandywine Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 121

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Business Selection Courses (cannot double count with other Additional or Option requirements):
 - ACCTG 211
 - BA 100
 - ECON 102
 - ECON 104
 - MGMT 301
 - MKTG 301
- Networking Selection Courses (cannot double count with other Additional or Option requirements):
 - CYBER 262
 - IST 226
 - IST 451
 - IST 454
- Option Courses:
 - Application Development:
 - Select 12 credits, with at least 3 credits at the 400 level from: IST 261, IST 311, IST 361, IST 411, IST 412, IST 413
 - Business Applications:
 - ACCTG 211
 - Select 3 credits from: FIN 301, MGMT 301, MKTG 301, SCM 301
 - Select 6 credits, with at least 3 credits at the 400 level from: ACCTG, BA, BLAW, EBF, ECON, ENTR, FIN, FINSV, HPA, IB, LER, MIS, MGMT, MKTG, RM, SCM, or STAT
 - Cybersecurity:
 - Select 12 credits, with at least 3 credits at the 400 level from: CYBER 262, IST 451, IST 454, IST 456, SRA 472, or any 300 or 400 level CYBER course
 - Security and Risk Analysis:

- Select 12 credits, with at least 3 credits at the 400 level from:
SRA 211, SRA 231, SRA 311, SRA 365, IST 432, IST 452,
IST 456

Custom Information Technology Option: Information Technology, B.S. at Greater Allegheny Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ One internship (IST 495) course is needed for graduation, but others are encouraged and can be taken at different semesters.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Business Selection Courses (cannot double count with other Additional or Option requirements):
 - ACCTG 211
 - BA 100
 - ECON 102
 - ECON 104
 - MGMT 301
 - MKTG 301
- Networking Selection Courses (cannot double count with other Additional or Option requirements):
 - CYBER 262
 - IST 226
 - IST 451
 - IST 454
- Option Courses:
 - Application Development:
 - Select 12 credits, with at least 3 credits at the 400 level from: IST 261, IST 311, IST 361, IST 411, IST 412, IST 413
 - Business Applications:
 - ACCTG 211
 - Select 3 credits from: FIN 301, MGMT 301, MKTG 301, SCM 301
 - Select 6 credits, with at least 3 credits at the 400 level from: ACCTG, BA, BLAW, EBF, ECON, ENTR, FIN, FINSV, HPA, IB, LER, MIS, MGMT, MKTG, RM, SCM, or STAT
 - Cybersecurity:
 - Select 12 credits, with at least 3 credits at the 400 level from: CYBER 262, IST 451, IST 454, IST 456, SRA 472, or any 300 or 400 level CYBER course
 - Security and Risk Analysis:
 - Select 12 credits, with at least 3 credits at the 400 level from: SRA 211, SRA 231, SRA 311, SRA 365, IST 432, IST 452, IST 456

CyberSecurity Option: Information Technology, B.S. at Lehigh Valley Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Business Selection Courses (cannot double count with other Additional or Option requirements):
 - ACCTG 211
 - BA 100
 - ECON 102
 - ECON 104
 - MGMT 301
 - MKTG 301
- Networking Selection Courses (cannot double count with other Additional or Option requirements):

- CYBER 262
- IST 226
- IST 451
- IST 454
- Option Courses:
 - Networking:
 - Select 12 credits, with at least 3 credits at the 400 level
from: CYBER 262, IST 225, IST 226, IST 227, IST 228, IST 451,
IST 454

New Kensington Campus

Business Applications Option: Information Technology, B.S. at New Kensington Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

General Education Course (GHW)	3 General Education Course (GN or GA or GH)	3
Elective	3 Elective	2
	13	14

Total Credits 120

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Business Selection Courses (cannot double count with other Additional or Option requirements):
 - ACCTG 211
 - BA 100
 - ECON 102
 - ECON 104
 - MGMT 301
 - MKTG 301
- Networking Selection Courses (cannot double count with other Additional or Option requirements):
 - CYBER 262
 - IST 226
 - IST 451
 - IST 454
- Option Courses:
 - Application Development:
 - Select 12 credits, with at least 3 credits at the 400 level from: IST 261, IST 311, IST 361, IST 411, IST 412, IST 413
 - Business Applications:
 - ACCTG 211
 - Select 3 credits from: FIN 301, MGMT 301, MKTG 301, SCM 301
 - Select 6 credits, with at least 3 credits at the 400 level from: ACCTG, BA, BLAW, EBF, ECON, ENTR, FIN, FINSV, HPA, IB, LER, MIS, MGMT, MKTG, RM, SCM, or STAT
 - Cybersecurity:
 - Select 12 credits, with at least 3 credits at the 400 level from: CYBER 262, IST 451, IST 454, IST 456, SRA 472, or any 300 or 400 level CYBER course
 - Security and Risk Analysis:
 - Select 12 credits, with at least 3 credits at the 400 level from: SRA 211, SRA 231, SRA 311, SRA 365, IST 432, IST 452, IST 456

CyberSecurity Option: Information Technology, B.S. at Schuylkill Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 120

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Business Selection Courses (cannot double count with other Additional or Option requirements):
 - ACCTG 211
 - BA 100
 - ECON 102
 - ECON 104
 - MGMT 301
 - MKTG 301
- Networking Selection Courses (cannot double count with other Additional or Option requirements):
 - CYBER 262
 - IST 226
 - IST 451
 - IST 454
- Option Courses:
 - Application Development:
 - Select 12 credits, with at least 3 credits at the 400 level from: IST 261, IST 311, IST 361, IST 411, IST 412, IST 413
 - Business Applications:
 - ACCTG 211
 - Select 3 credits from: FIN 301, MGMT 301, MKTG 301, SCM 301
 - Select 6 credits, with at least 3 credits at the 400 level from: ACCTG, BA, BLAW, EBF, ECON, ENTR, FIN, FINSV, HPA, IB, LER, MIS, MGMT, MKTG, RM, SCM, or STAT
 - Cybersecurity:
 - Select 12 credits, with at least 3 credits at the 400 level from: CYBER 262, IST 451, IST 454, IST 456, SRA 472, or any 300 or 400 level CYBER course
 - Security and Risk Analysis:

2950 Information Technology, B.S. (University College)

- Select 12 credits, with at least 3 credits at the 400 level from:
SRA 211, SRA 231, SRA 311, SRA 365, IST 432, IST 452,
IST 456

Wilkes-Barre Campus

Custom Information Technology Option: Information Technology, B.S. at Wilkes-Barre Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

 - Business Applications:
 - ACCTG 211
 - Select 3 credits from: FIN 301, MGMT 301, MKTG 301, SCM 301
 - Select 6 credits, with at least 3 credits at the 400 level from: ACCTG, BA, BLAW, EBF, ECON, ENTR, FIN, FINSV, HPA, IB, LER, MIS, MGMT, MKTG, RM, SCM, or STAT
 - Cybersecurity:
 - Select 12 credits, with at least 3 credits at the 400 level from: CYBER 262, IST 451, IST 454, IST 456, SRA 472, or any 300 or 400 level CYBER course
 - Security and Risk Analysis:
 - Select 12 credits, with at least 3 credits at the 400 level from: SRA 211, SRA 231, SRA 311, SRA 365, IST 432, IST 452, IST 456

Career Paths

With a B.S. degree in Information Technology (IT), students will develop an understanding of core information technologies and prepare for the practical application of IT. The combination of a strong technical foundation, well-developed communication and collaborative skills, business core competencies, and specialization in an area of choice produces graduates who are well-qualified to enter the IT workforce in a position that meets their interests and abilities as well as the needs of employers in industries including consulting, business, government, defense, entertainment, and medicine.

Additional information about IT careers can be found at:

- Computer and Information Technology Occupations: Occupational Outlook Handbook:: U.S. Bureau of Labor Statistics (bls.gov) (<https://www.bls.gov/ooh/computer-and-information-technology/home.htm>)
- IS Job Index – AIS – Temple University Information Systems Job Index (<https://isjobindex.com/>)

Opportunities for Graduate Studies

A baccalaureate degree in Information Technology prepares students to pursue master's degrees in programs such as information systems or information technology and obtain admission to MBA programs and law schools, among other post-graduate opportunities.

Penn State offers graduate programs related to information technology:

- Master of Science in Information Systems at Penn State Harrisburg (<https://harrisburg.psu.edu/business-administration/information-systems-ms/>)
- Graduate Education Opportunities at College of Information Sciences and Technology (<https://ist.psu.edu/prospective/graduate/>)

Integrative Science, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Scranton, York

Program Description

The Integrative Science major is an interdisciplinary degree that aims to provide a broad, general education in science. The Bachelor of Science (B.S.) curriculum is designed specifically for students who have education goals relating to scientific theory and practice across disciplinary areas, and who seek a high degree of flexibility to obtain their educational objectives. After completing foundation courses in biology, calculus, chemistry, physics, and statistics, students select additional science courses from designated areas to customize the curriculum to their own interests. A large number of supporting credits enable students to incorporate significant breadth or specialization into their academic training, such as through courses in business, computer and information science, health science, social science, and other fields.

This major helps prepare students for careers in many different job sectors including agriculture, biotechnology, chemistry, education, government, industry, medicine, pharmaceutical, research & development, sustainability, and more. Graduates of this major pursue diverse career paths and hold a variety of roles such as research scientist, data analyst, technician, program coordinator, project manager, consultant, and laboratory associate. The degree can also be tailored to meet specific requirements of professional programs such as medical, dental, physician assistant, pharmacy, or law school, as well as graduate school.

General Science Option

Available at the following campuses: *Abington, Berks, Harrisburg, Scranton, University Park, York*

The General Science option of the B.S. Integrative Science degree allows for the most flexibility.

Achievement in a more specialized set of goals can be met by selecting one of the other B.S. options offered:

Biological Sciences and Health Professions Option

Available at the following campuses: *University Park*

Legal Studies, Government Service, Public Policy Option

Available at the following campuses: *University Park*

Life Sciences Option

Available at the following campuses: *Abington, Berks, Harrisburg, Scranton, York*

Mathematical Sciences Option

Available at the following campuses: *Abington*

Secondary Education Option

Available at the following campuses: *Harrisburg*

Not all of these options are available at all locations. See the Science program director at your College for details regarding program curriculum at your location.

What is Integrative Science?

The Integrative Science major provides a broad and interdisciplinary foundation in the natural sciences. The Integrative Science BS program uses the principles of chemistry, physics, and life sciences to understand how these integrate over general areas including biological sciences and health professions, public policy, and science research and development.

You Might Like This Program If...

- You like learning by doing hands-on experiments.
- You are curious about the natural world and how science disciplines come together to explore and understand it.
- You are intrigued by science and desire a career in current and emerging interdisciplinary science disciplines, health professions, or melding science with law, policy or business.

Entrance to Major

In order to be eligible for entrance to the Integrative Science major, a student at any location must have:

1. attained at least a 2.00 cumulative grade-point average;
2. completed MATH 140 with a grade of C or better;
3. completed at least two of the following courses, BIOL 110; CHEM 110; PHYS 211 or PHYS 250, with a grade of C or better.

Entrance to the Integrative Science Secondary Education option requires the following additional requirements:

1. completed at least one of the following courses, BIOL 220W or BIOL 230W or BIOL 240W; PHYS 250, with a grade of C or better;
2. attained at least a 3.00 cumulative grade-point average;
3. completed ENGL 15 or ENGL 30H;
4. completed 3 credits of literature from a department-approved list with a grade of C or better;
5. completed 6 credits of college-level mathematics (GQ MATH or STAT prefixes) with a grade of C or better;
6. satisfy any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for the major;
7. submission to the Teacher Education Office of current and clear background checks as required by the Pennsylvania Department of Education;
8. submission of documentation of 20 pre-major fieldwork hours.

Degree Requirements

For the Bachelor of Science degree in Integrative Science with an option in General Science; Biological Sciences and Health Professions; Legal Studies, Government Service, Public Policy; Life Science; and Mathematical Science, a minimum of 120 credits is required, with at least 15 credits at the 400 level. For the Bachelor of Science degree in Integrative Science with an option in Secondary Education, a minimum of 125 credits is required, with at least 15 credits at the 400 level.

Requirement	Credits
General Education	45
Requirements for the Major	90-110

13-30 of the 45 credits for General Education are included in the Requirements for the Major. For the General Science Option; Biological Sciences and Health Professions Option; Legal Studies, Government

Service, Public Policy Option; Life Science Option this includes: 9 credits of GN courses and 4-6 credits of GQ courses. For the Mathematical Science Option this includes: 9 credits of GN courses and 6 credits of GQ courses. For the Secondary Education Option this includes: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses (ENGL 202C); 3 credits of GH courses (literature department list); 6 credits of GS courses (EDPSY 14 and HDFS 239); 3 credits of Integrative Studies courses (EDUC 466N).

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
CHEM 111	Experimental Chemistry I	1
CHEM 112	Chemical Principles II	3
CHEM 113	Experimental Chemistry II	1

Prescribed Courses: Require a grade of C or better

BIOL 110	Biology: Basic Concepts and Biodiversity	4
CHEM 110	Chemical Principles I	3
MATH 140	Calculus With Analytic Geometry I	4

Requirements for the Option

Select an option	74-94
------------------	-------

Requirements for the Option

General Science Option (74 credits)

Available at the following campuses: Abington, Berks, Harrisburg, Scranton, University Park, York

Code	Title	Credits
Additional Courses		
STAT 200 or STAT 250	Elementary Statistics Introduction to Biostatistics	3-4
Select 4 credits from the following:		4

BIOL 161 & BIOL 162	Human Anatomy and Physiology I - Lecture and Human Anatomy and Physiology I - Laboratory	
BIOL 220W	Biology: Populations and Communities	
BIOL 230W	Biology: Molecules and Cells	
BIOL 240W	Biology: Function and Development of Organisms	
Select 8-12 credits from the following:		8-12
PHYS 211 & PHYS 212 & PHYS 213 & PHYS 214	General Physics: Mechanics and General Physics: Electricity and Magnetism and General Physics: Fluids and Thermal Physics and General Physics: Wave Motion and Quantum Physics ¹	
PHYS 250 & PHYS 251	Introductory Physics I and Introductory Physics II ¹	

Supporting Courses and Related Areas

Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser	3
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser	3

Select 3 credits in Integrative and Applied Sciences from department approved course list in consultation with adviser	3
Select 6 credits of 400-level courses	6
Select 21-26 credits from program list ^{2,3}	21-26
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>	
Select 18 credits in life, mathematical, or physical sciences, with at least 9 credits at the 400 level ^{4,5}	18

¹ PHYS 211 and PHYS 250 require a grade of C or better.

² A maximum of 12 credits of Independent Study (296, 496) may be applied toward credits for graduation.

³ Students may apply ROTC credits toward the Program List.

⁴ Only the 9 credits at the 400 level require a grade of C or better.

⁵ Life sciences include BIOL, BIOTC, BMB, FRNSC, MICRB. Mathematical sciences include CMPSC, DS, MATH, STAT. Physical sciences include ASTRO, CHEM, PHYS.

Biological Sciences and Health Professions Option (74 credits)

Available at the following campuses: University Park

Code	Title	Credits
Prescribed Courses		
HPA 101	Introduction to Health Services Organization	3
Additional Courses		
STAT 200 or STAT 250	Elementary Statistics Introduction to Biostatistics	3-4
Select 4 credits from the following:		4
BIOL 161 & BIOL 162	Human Anatomy and Physiology I - Lecture and Human Anatomy and Physiology I - Laboratory	
BIOL 220W	Biology: Populations and Communities	
BIOL 230W	Biology: Molecules and Cells	
BIOL 240W	Biology: Function and Development of Organisms	
Select 3-4 credits from the following:		3-4
BIOL 222	Genetics	
BIOL 230W	Biology: Molecules and Cells	
BIOL 322	Genetic Analysis	
BMB 211	Elementary Biochemistry	
BMB/MICRB 251	Molecular and Cell Biology I	
MICRB 201	Introductory Microbiology	
Select 6-8 credits from the following:		6-8
CHEM 202 & CHEM 203	Fundamentals of Organic Chemistry I and Fundamentals of Organic Chemistry II	
CHEM 210 & CHEM 212 & CHEM 213W	Organic Chemistry I and Organic Chemistry II and Laboratory in Organic Chemistry - Writing Intensive	
Select 8-12 credits from the following:		8-12
PHYS 211 & PHYS 212 & PHYS 213 & PHYS 214	General Physics: Mechanics and General Physics: Electricity and Magnetism and General Physics: Fluids and Thermal Physics and General Physics: Wave Motion and Quantum Physics ¹	
PHYS 250 & PHYS 251	Introductory Physics I and Introductory Physics II ¹	

Supporting Courses and Related Areas

Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser	3
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser	3
Select 15 credits in Healthcare/Medicine/Ethical Competencies from department approved course list in consultation with adviser ²	15
Select 9-17 credits from program list ^{3,4}	9-17
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>	
Select 9 credits of 400-level BMB, BIOL, BIOTC, or MICRB courses	9

¹ PHYS 211 and PHYS 250 require a grade of C or better.

² 6 credits must be at the 400-level.

³ A maximum of 12 credits of Independent Studies (296, 496) may be applied toward credits for graduation.

⁴ Students may apply ROTC credits toward the Program List.

Legal Studies, Government Service, Public Policy Option (74 credits)

Available at the following campuses: University Park

Code	Title	Credits
Additional Courses		
STAT 200 or STAT 250	Elementary Statistics Introduction to Biostatistics	3-4
Select 4 credits from the following:		4
BIOL 161 & BIOL 162	Human Anatomy and Physiology I - Lecture and Human Anatomy and Physiology I - Laboratory	
BIOL 220W	Biology: Populations and Communities	
BIOL 230W	Biology: Molecules and Cells	
BIOL 240W	Biology: Function and Development of Organisms	
Select 8-12 credits from the following:		8-12
PHYS 211 & PHYS 212 & PHYS 213 & PHYS 214	General Physics: Mechanics and General Physics: Electricity and Magnetism and General Physics: Fluids and Thermal Physics and General Physics: Wave Motion and Quantum Physics ¹	
PHYS 250 & PHYS 251	Introductory Physics I and Introductory Physics II ¹	

Supporting Courses and Related Areas

Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser	3
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser	3
Select 18 credits in Legal Studies, Government Service, Public Policy from department approved course list in consultation with adviser ²	18
Select 12-17 credits from program list ^{3,4}	12-17
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>	
Select 18 credits in life, mathematical, or physical sciences, with at least 9 credits at the 400 level ^{5,6}	18

¹ PHYS 211 and PHYS 250 require a grade of C or better.

² 6 credits must be at the 400-level.

³ A maximum of 12 credits of Independent Study (296, 496) may be applied toward credits for graduation.

⁴ Students may apply ROTC credits toward the Program List.

⁵ Only the 9 credits at the 400 level require a grade of C or better.

⁶ Life sciences include BIOL, BIOTC, BMB, FRNSC, MICRB. Mathematical sciences include CMPSC, DS, MATH, STAT. Physical sciences include ASTRO, CHEM, PHYS.

Life Science Option (74 credits)

Available at the following campuses: Abington, Berks, Harrisburg, Scranton, York

Code	Title	Credits
Additional Courses		
STAT 200 or STAT 250	Elementary Statistics Introduction to Biostatistics	3-4
Select 4 credits from the following:		4
BIOL 220W	Biology: Populations and Communities	
BIOL 230W	Biology: Molecules and Cells	
BIOL 240W	Biology: Function and Development of Organisms	
Select 3-4 credits from the following:		3-4
BIOL 222	Genetics	
BIOL 230W	Biology: Molecules and Cells	
BIOL 322	Genetic Analysis	
BMB 211	Elementary Biochemistry	
BMB/MICRB 251	Molecular and Cell Biology I	
MICRB 201	Introductory Microbiology	
Select 6-8 credits from the following:		6-8
CHEM 202 & CHEM 203	Fundamentals of Organic Chemistry I and Fundamentals of Organic Chemistry II	
CHEM 210 & CHEM 212 & CHEM 213	Organic Chemistry I and Organic Chemistry II and Laboratory in Organic Chemistry	
Select 8-12 credits from the following:		8-12
PHYS 211 & PHYS 212 & PHYS 213 & PHYS 214	General Physics: Mechanics and General Physics: Electricity and Magnetism and General Physics: Fluids and Thermal Physics and General Physics: Wave Motion and Quantum Physics ¹	
PHYS 250 & PHYS 251	Introductory Physics I and Introductory Physics II ¹	

Supporting Courses and Related Areas

Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser	3
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser	3
Select 6 credits of 400-level courses	6
Select 21-29 credits from program list ^{2,3}	21-29
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>	
Select 9 credits of 400-level BMB, BIOL, BIOTC, or MICRB courses	9

¹ PHYS 211 and PHYS 250 require a grade of C or better.
² A maximum of 12 credits of Independent Study (296, 496) may be applied toward credits for graduation.
³ Students may apply ROTC credits toward the Program List.

Mathematical Science Option (74 credits)

Available at the following campuses: Abington

Code	Title	Credits
Prescribed Courses		
MATH 220	Matrices	2-3
<i>Prescribed Courses: Require a grade of C or better</i>		
MATH 141	Calculus with Analytic Geometry II	4
Additional Courses		
CMPSC 122 or CMPSC 132	Intermediate Programming Programming and Computation II: Data Structures	3
CMPSC 360 or MATH 311W	Discrete Mathematics for Computer Science Concepts of Discrete Mathematics	3-4
MATH 230 or MATH 251	Calculus and Vector Analysis Ordinary and Partial Differential Equations	4
Select 3 credits from the following:		3
CMPSC 121	Introduction to Programming Techniques	
CMPSC 131	Programming and Computation I: Fundamentals	
CMPSC 201	Programming for Engineers with C++	
Select 3-4 credits from the following:		3-4
STAT 200	Elementary Statistics	
STAT 250	Introduction to Biostatistics	
STAT 318	Elementary Probability	
Select 3-4 credits from the following:		3-4
BIOL 222	Genetics	
BIOL 230W	Biology: Molecules and Cells	
BIOL 322	Genetic Analysis	
BMB 211	Elementary Biochemistry	
BMB/MICRB 251	Molecular and Cell Biology I	
MICRB 201	Introductory Microbiology	
Select 8-12 credits from the following:		8-12
PHYS 211 & PHYS 212 & PHYS 213 & PHYS 214	General Physics: Mechanics and General Physics: Electricity and Magnetism and General Physics: Fluids and Thermal Physics and General Physics: Wave Motion and Quantum Physics ¹	
PHYS 250 & PHYS 251	Introductory Physics I and Introductory Physics II ¹	

Supporting Courses and Related Areas

Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser	3
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser	3
Select 6 credits of 400-level courses	6
Select 13-20 credits from program list ^{2,3}	13-20
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>	
Select 9 credits of 400-level CMPSC, MATH, or STAT courses	9

¹ PHYS 211 and PHYS 250 require a grade of C or better.
² A maximum of 12 credits of Independent Study (296, 496) may be applied toward credits for graduation.
³ Students may apply ROTC credits toward the Program List.

SECONDARY EDUCATION OPTION (94 credits)

Available at the following campuses: Harrisburg

Code	Title	Credits
Prescribed Courses		
STAT 200	Elementary Statistics	4
<i>Prescribed Courses: Require a grade of C or better for teacher certification</i>		
EDUC 313	Secondary Education Field Experience	2
EDUC 314	Learning Theory and Instructional Procedures	3
EDUC 315Y	Social and Cultural Factors in Education	3
EDUC 385	Professional Development in Teaching	3
EDUC 400	Diversity and Cultural Awareness Practices in the K-12 Classroom	3
EDUC 414	Teaching Secondary Science	3
EDUC 458	Behavior Management Strategies for Inclusive Classrooms	3
EDUC 459	Strategies for Effective Teaching in Inclusive Classrooms	3
EDUC 490	Student Teaching	9
<i>Prescribed Courses: Require a Grade of C or Better</i>		
EDPSY 14	Learning and Instruction	3
EDUC 466N	Foundations of Teaching English as a Second Language	3
ENGL 202C	Effective Writing: Technical Writing	3
HDFS 239	Adolescent Development	3
MATH 141	Calculus with Analytic Geometry II	4
PHYS 250	Introductory Physics I	4
PHYS 251	Introductory Physics II	4
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 4 credits from the following:		4
BIOL 220W	Biology: Populations and Communities	
BIOL 230W	Biology: Molecules and Cells	
BIOL 240W	Biology: Function and Development of Organisms	
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a Grade of C or Better</i>		
Select 3 credits of GH literature from department list		3
Select a 3 credit EARTH course		3
Select a 3 credit ASTRO course		3
Select 9 credits of 400-level earth or physical science courses		9
Select 12 credits of science or education elective courses		12

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or

within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Process of Science:** Apply the elements of the process of science such as posing questions, generating novel hypotheses based on the scientific literature; developing appropriate technical skills for research; designing/conducting experiments to test hypotheses in laboratory and/or field settings; summarizing/interpreting data; integrating/evaluating findings in the broader scientific field to construct new knowledge; and/or participating in the peer review/revision process.
- **Quantitative Reasoning and Data Science:** Apply basic quantitative competencies such as algebra, probability, statistics, unit conversions, and fundamental principles; organize, summarize, and interpret quantitative data; use modeling/simulation to approach problems from across various scales; and/or find and analyze large databases using statistical methods and/or other approaches.
- **Interdisciplinary Thinking:** Integrate knowledge among science subfields and between science and other disciplines.
- **Collaboration and Communications:** Engage with diverse communities and leverage the skills in the community to pose and solve scientific questions; demonstrate the ability to work in teams to solve problems; and/or communicate in a variety of formal and informal ways in the discussion of scientific research.
- **Science and Society:** Explore the impacts of scientific research on society and the environment and how society influences/relies on research to inform decision-making; evaluate the ethical implications of scientific research; recognize ethical issues in a variety of settings; and/or describe how different perspectives and the resulting alternative approaches might be evaluated using ethical principles to identify a solution to an issue.
- **Professional Experiences:** Communicate in a professional manner and learn/use professional behaviors in all aspects of college and career building activities, including participation in opportunities such as research, internships, cooperative education, teaching and tutoring, study abroad, and/or volunteer work.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Scranton Campus

General Science Option: Integrative Science, B.S. at Scranton Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If**

report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
ENGL 15 [‡]	3 BIOL 230W or 240W	4
BIOL 110 ^{*#†}	4 CAS 100A [‡]	3
CHEM 110 & CHEM 111 ^{*#†}	4 CHEM 112 & CHEM 113	4
MATH 140 ^{*†#†}	4 General Education Course	3
PSU 8	1 General Education Course (GHW)	1.5
	16	15.5

Second Year

Fall	Credits Spring	Credits
BIOL 220W	4 Global Social and Personal Awareness Course	3
PHYS 250 ^{*#†}	4 Integrative and Applied Sciences Course	3
STAT 200 or 250 ^{††}	3-4 BIOL 230W or 240W	4
General Education Course	3 PHYS 251	4
	General Education Course	3
	14-15	17

Third Year

Fall	Credits Spring	Credits
ENGL 202C [‡]	3 400 Level Selection - Life/ Mathematical/Physical Science [*]	3
400 Level Option - Life/ Mathematical/Physical Science [*]	3 Option Selection - Life/ Mathematical/Physical Science	3
Teamwork, Interpersonal Communication Course	3 Option Selection	3
Option Selection	3 General Education Course	3
General Education Course	3 General Education Course	3
	15	15

Fourth Year

Fall	Credits Spring	Credits
400 Level Selection - Life/ Mathematical/Physical Science [*]	3 400 Level Selection	3
400 Level Selection	3 Option Selection	3
Option Selection	3 Option Selection	3
Option Selection	3 Option Selection	3
General Education Course (GHW)	1.5 Option Selection	3
	13.5	15

Total Credits 121-122

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- Students may take PHYS 211, PHYS 212, PHYS 213, & PHYS 214 in place of PHYS 250 & PHYS 251.

University Requirements and General Education Notes:

Life Science Option: Integrative Science, B.S. at Scranton Campus

Career Paths

Penn State students with a BS in Integrative Science are prepared for a broad range of careers and graduate programs. The solid foundation of science and math prepares students to think critically and scientifically in a range of industries and professions.

Careers

This program often leads to careers in all healthcare professions, including physicians and physician assistants, dentists, optometrists, and podiatrists; laboratory research associates; scientific product representatives and science-based consulting.

Opportunities for Graduate Studies

Many graduates of the Integrative Science B.S. program choose to pursue graduate studies (MS and PhD) in the natural sciences. Most often, students gravitate to medically-related fields and life science sub-disciplines for focused graduate training. Students in the legal studies and public policy options may choose law school or master's in public policy programs.

International Studies, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

Today's students, whatever their career path, will enter a workforce that's increasingly diverse. We need to prepare our students to respect non-American cultures and people so they gain an international outlook. The Certificate in IS is intended to provide students with a broad and deep understanding of this diverse world far beyond the General Education requirements. Students will be better suited to face the challenges and enjoy the opportunities presented by others, both in and outside the United States, who come from a variety of nations and cultures.

What is International Studies?

International Studies is a broad field that engages with various issues related to global history, culture, politics, and arts. It is an interdisciplinary field that allows students to look at specific academic fields from a multinational perspective.

You Might Like This Program If...

You are interested in learning more about a variety of cultures, increasing your cultural literacy, applying your global competencies to your career plans, academic major, or current workplace experiences.

Program Requirements

To earn an undergraduate certificate in International Studies, a minimum of 12 credits is required.

Code	Title	Credits
Required Courses		
Select 3 credits from the following:		3
GLIS 101N	Globalization	
GLIS 102N	Global Pathways	
HIST 11	World History since 1500	
INTST 100	Introduction to International Studies	
Select 6 credits from the following list:		6
AA 100	Introduction to International Arts	
ANTH 8	Aztec, Inca, Maya	
ANTH 45N	Cultural Diversity: A Global Perspective	
APLNG 220N	Multilingual Lives: Stories of Language and Culture Learning	
ARTH 100	Introduction to Art	
BBH 305	Introduction to Global Health Issues	
BIOL 120N		
CMLIT 108	Myths and Mythologies	
CMLIT 184	The Short Story	
ENGL 194	Women Writers	
GEOG 30N	Environment and Society in a Changing World	
HIST 1	Western Civilization I	
HIST 2	Western Civilization II	

HIST 10	World History to 1500
HIST 117	Women in United States History
HIST 121	History of the Holocaust 1933-1945
HIST 144	The World at War: 1939-1945
HIST 173	Vietnam in War and Peace
IB 303	International Business Operations
LING 1	Language, Life and Society
MUSIC 9	Introduction to World Musics
PLSC 3	Comparing Politics around the Globe
PLSC 14	International Relations
PSYCH 232	Cross-Cultural Psychology
RLST 1	Introduction to World Religions
RLST 4	Jewish and Christian Foundations
RLST 101	Comparative Religion
SPAN 131	Ibero-American Civilization
SPAN 131Y	Ibero-American Civilization
Select 3 credits of 400-level courses from the following list: 3	
BBH 407	Global Health Equity
HIST 452	History of U.S. Foreign Relations
HIST 488	American Diplomacy Since 1914
GLIS 497	Special Topics
MGMT 461	International Management
MKTG 445	Global Marketing
NURS 401	Concepts of Health
NURS 464	Dying and Death
THEA 401	Theatre History I: Ancient to 1700

No Prerequisites Required.

Certificate Learning Objectives

- **Awareness:** Increase awareness and content knowledge of global issues.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Introduction to Business Management, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The introduction to business management certificate provides a strong foundation in core business areas (management, accounting, communications and technology).

What is Introduction to Business Management?

Business Management includes the performance or management of business operations and decision making, as well as the efficient organization of people and other resources.

You Might Like This Program If...

- You desire to add business skills to your major program of study.
- You are looking for a well-rounded introduction to basic business concepts.

Program Requirements

To earn an undergraduate certificate in Introduction to Business Management, a minimum of 15 credits is required.

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
ACCTG 211	Financial and Managerial Accounting for Decision Making	3-4
or FIN 100	Introduction to Finance	
CAS 100	Effective Speech	3
ENGL 15	Rhetoric and Composition	3
MGMT 100	Survey of Management	3
MIS 103	Microcomputer Applications in Business	3
or MIS 204	Introduction to Management Information Systems	

No Prerequisites Required.

Certificate Learning Objectives

- Develop Oral Communication skills in Business.
- Develop written communication skills in Business.
- Use contemporary information technology tools to accomplish professional tasks effectively.
- Develop a basic foundation of management theory.
- Develop strong math business principles.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Introduction to Corporate Communication, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The Introduction to Corporate Communication certificate program is designed for those considering a degree in the field. It is also applicable for those currently employed in the field without a formal credential. The certificate includes courses intended to develop understanding of the oral and written communication strategies that result in effective communication in a professional environment.

What is Introduction to Corporate Communication?

Corporate Communication encompasses all aspects of strategic communication in for-profit and not-for-profit organizations, from internal communication between senior leaders and front line professionals to communication with external clients. Corporate communicators are highly skilled professionals in the art of planning, problem solving, and persuading with a sharp understanding of their audience's needs, tastes, and interests.

You Might Like This Program If...

- You are creative.
- You want to enhance your degree program but building strong skills in writing and speaking.

Program Requirements

To earn an undergraduate certificate in Introduction to Corporate Communication, a minimum of 15 credits is required.

Code	Title	Credits
Prescribed Courses		
CAS 100	Effective Speech	3
or CAS 100A	Effective Speech	
or CAS 100B	Effective Speech	
or CAS 100C	Effective Speech	
or CAS 100C	Effective Speech	

CAS 352	Organizational Communication	3
COMM 100		3
ENGL 15	Rhetoric and Composition	3
MIS 204	Introduction to Management Information Systems	3

No Prerequisites Required.

Certificate Learning Objectives

- Students will be able to describe the Corporate Communication field and its central questions
- Students will be able to employ Corporate Communication theories, principles and concepts
- Students will be able to create messages appropriate to audience, purpose and context
- Students will be able to critically analyze messages
- Students will demonstrate the ability to accomplish corporate communication goals
- Students will be able to apply ethical concepts to corporate communication principles and practices

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Management, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

Every organization depends on individuals who can effectively lead the people and processes that help the organization reach its goals. A minor in management offers students of any discipline the tools to lead and motivate people, develop effective organizational structures and processes, apply legal and appropriate human resources principles, and sustain ethical and inclusive goals.

If you see yourself running your own medical practice, landscaping operation, veterinary office, financial advising firm, or any other professional business, this minor can provide you with valuable insights into achieving your organizational goals.

What is Management?

Organizations need managers and leaders: people who can effectively lead organizations and manage the people in them, as well as develop and implement strategies that will lead to success. Management majors gain the knowledge and skills that will enable them to deal with the contemporary challenges facing organizations including leading and motivating people, working effectively in teams, developing effective organizational cultures, thinking ethically, inclusively, strategically, and sustainably, balancing the interests of multiple stakeholders in complex, legal, political, and ethical environments, and leading change.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

 - MATH 21 or higher Math.

Medical Laboratory Technology, A.S.

Begin Campus: Hazleton, Schuylkill

End Campus: Hazleton

Program Description

This two-calendar-year Medical Laboratory Technology major (four semesters, two summer sessions) is designed to provide the necessary general and technical training for hospital personnel between the level of the medical laboratory technician (certificate program) and the medical technologist (baccalaureate program). The course of study includes one year of intensive clinical experience at an affiliated hospital and the theoretical background necessary for the clinical procedures performed by the certified medical laboratory technician (associate degree program). Upon completion of program requirements, the student receives the associate degree and is eligible to sit for examinations leading to certification and registry as a medical laboratory technician.

The Medical Laboratory Technology Program at Penn State Hazleton is fully accredited by the National Accrediting Agency for Clinical Laboratory Sciences

NAACLS,
5600 N. River Rd, Suite 720,
Rosemont, IL 60018-5119,
Phone 773-714-8880
Website: <https://www.naacls.org>

Graduates of this accredited MLT program are eligible to take national certification examinations such as the American Society of Clinical Pathology (ASCP) Board of Certification exam, to become certified as an MLT (ASCP).

What is Medical Laboratory Technology?

A Medical Laboratory Technician (MLT) works with a team of pathologists, technologists, and technicians to analyze patient samples

to provide information to the patient's physician to detect illness, enable treatment, and ensure that the treatment will benefit the patient. The MLT works in all areas of the medical laboratory such as microbiology, chemistry, hematology, and transfusion services. MLTs are qualified to perform routine tests as well as more complex procedures including analyzing blood for chemical components, typing blood to ensure safe transfusion, and identifying bacteria and other microorganisms. MLTs also prepare specimens for examination, count cells, and look for abnormal cells in blood and body fluids. They use microscopes and sophisticated laboratory analyzers to test specimens. After testing and verifying the results, they relay the results to physicians.

MORE INFORMATION ABOUT MEDICAL LABORATORY TECHNOLOGY (<https://hazleton.psu.edu/associate-science-medical-laboratory-technology/>)

You Might Like This Program If...

You might like this major if you are interested in science and enjoy working in a laboratory setting. MLTs are problem solvers and are accurate and reliable. They want to help patients in a medical setting but prefer not to have direct patient contact. They enjoy working with their hands and using technical instruments. Their work is interesting, challenging, and requires a love of life-long learning.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY MEDICAL LABORATORY TECHNOLOGY (<https://www.ascp.org/content/careers/>)

Entrance to Major

Students must request a Dean's review to change to this Associate degree after admission to the University.

Additional Information

Before beginning the clinical experience rotations at hospitals, students must meet the requirements listed at: <https://hazleton.psu.edu/program-clinical-prerequisites> (<https://hazleton.psu.edu/program-clinical-prerequisites/>).

Degree Requirements

For the Associate in Science degree in Medical Laboratory Technology, a minimum of 72 credits is required:

Requirement	Credits
General Education	21
Requirements for the Major	63-65

12 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 6 credits of GN courses; 3 credits of GQ courses.

Scheduling of courses in summer session depends on campus location.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

STAT 250	Introduction to Biostatistics	

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing

intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 3 credits
- **Writing and Speaking (GWS):** 3 credits

Knowledge Domains

- **Arts (GA):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Note: Up to six credits of Inter-Domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

- **Any General Education course (including GHW and Inter-Domain):** 3 credits

University Degree Requirements

Cultures Requirement

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 60 degree credits must be earned for an associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of

both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Medical Laboratory Technology, A.S. at Hazleton Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits Summer	Credits
ENGL 15 or 30H ^{††}	3 MICRB 201	3 CHEM 202 ³	3
CHEM 110 [†]	3 MICRB 202	2 CAS 100 ^{3 †}	3
BIOL 161 ¹	3 BIOL 163 ¹	3 MICRB 150 ^{2, 3}	4
BIOL 162 ¹	1 BIOL 164 ¹	1	
CHEM 108 (optional)	1 CHEM 111	1	
General Education Course (GQ) ^{††}	3-4 MIS 103	3	
PSU 8	1 General Education Course	3	
	15-16	16	10

Second Year

Fall	Credits Spring	Credits Summer	Credits
MICRB 151A ^{2*}	5 MICRB 151C ^{2*}	4 General Education Course ⁴	3
MICRB 151B ^{2*}	5 MICRB 151F ^{2*}	2 General Education Course ⁴	3
MICRB 151D ^{2*}	2 MICRB 151G ^{2*}	2	
MICRB 151E ^{2*}	2 MICRB 151W ^{2*}	5	
	14	13	6

Total Credits 74-75

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ BIOL 110 and BIOL 240 may be taken in place of BIOL 161, BIOL 162, BIOL 163, BIOL 164.

² MICRB 150, MICRB 151 courses include clinical experience at affiliated sites. Must earn C or better for graduation.

³ These courses should be taken in summer session 1.

⁴ These courses should be taken in summer session 2.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

A minimum of 72 credits is required for graduation.

Math (Quantification): If Placement Profile indicates MATH 4 – schedule before first Fall semester (during Summer). Then take MATH 21.

Other qualifying math courses: MATH 22, 26, 40, 81, 110, 111, 140, STAT 200, 250.

CHEM 108 (Problem Solving in Chemistry) is optional, but recommended.

PSU 8 required of all first-year students in the first semester

Career Paths

The two-year MLT program includes a two-semester clinical practicum experience in affiliated hospital laboratories. The MLT learns the most current laboratory techniques in a real laboratory setting.

Careers

You can find a career in a hospital laboratory, food processing industry, veterinary lab, state police or federal forensics lab, public health lab,

cancer clinic, chemical company, pharmaceutical company, and more. You can choose to work in a medical lab or non-medical setting.

MORE INFORMATION ABOUT CAREERS (<https://www.ascp.org/content/careers/learn-about-careers/>)

Opportunities for Graduate Studies

If an MLT graduate chooses to continue his/her education, the first year's courses will transfer to a major in Microbiology, Medical Laboratory Science, Biology or related disciplines. Once an MLT graduate passes a national certification exam and is certified as MLT, earns a BS or BA in any major, and works in a hospital laboratory for at least two years, they can qualify to take a Medical Laboratory Scientist (MLS) certification exam. Bachelor's degrees earned prior to MLT certification count toward the MLS qualification. This opens the door to careers as an educator, laboratory manager and specialist positions.

Mining Technology, A.S.

Begin Campus: Fayette

End Campus: Fayette

Program Note: Only courses in the Maintenance Emphasis are available at Penn State Fayette for the Mining Technology, A.S. degree program.

Program Description

The Associate of Science degree in Mining Technology blends basic sciences, mathematics, principles and practices of management, and applied courses in Mining Technology to prepare students for supervisory roles in the Mining industry. This major helps prepare students for either a production-oriented or a maintenance-oriented position in the mining industry. Graduates of this major, after serving the required apprenticeship, should be qualified to become certified managers in their field. All students complete a common core of classes, but must also choose to enroll in one of two emphases, Maintenance or Production.

Maintenance Emphasis

The maintenance emphasis prepares students to become maintenance supervisors. Initially, graduates may work as apprentice electricians or mechanics to gain experience in repairs and planned maintenance. After certification is obtained, they may become involved with maintenance planning, working as or with the chief mine mechanic or chief mine electrician.

Production Emphasis

The production emphasis helps prepare students to become mine supervisors or engineering aides. Initially, some of the duties are to run transit and act as survey party chief, keep mine maps up to date and make projections, take samples and run analyses, make time studies, and assist with materials handling layouts.

What is Mining Technology?

The Mining Technology program prepares students for either a production-oriented or a maintenance-oriented position in the mining industry. Graduates of the major, after serving the required apprenticeship, can be qualified to become certified managers in their field.

You Might Like This Program If...

- You have a strong interest in science, especially geology.
- You like to study mathematics and solve problems.
- You are hardworking and enjoy collaboration with others.
- Hands-on coursework is of interest to you.
- You are interested in the mining industry.
- You care about the environment.
- You are interested in employee safety and the laws and regulations that impact safety.

Program Note: Only courses in the Maintenance Emphasis are available at Penn State Fayette for the Mining Technology, A.S. degree program.

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Program Note: Only courses in the Maintenance Emphasis are available at Penn State Fayette for the Mining Technology, A.S. degree program.

Degree Requirements

For the Associate of Science degree in Mining Technology, a minimum of 67 credits is required:

Requirement	Credits
General Education	21
Requirements for the Major	58-59

12 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GWS courses; 3 credits of GN courses; 3 credits of GQ courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Multidisciplinary Studies, A.A. (University College)

Begin Campus: Brandywine, DuBois, Fayette, Hazleton, Mont Alto, New Kensington, Shenango, Schuylkill, Wilkes-Barre, Scranton

End Campus: Brandywine, DuBois, Fayette, Hazleton, Mont Alto, New Kensington, Schuylkill, Scranton, Shenango, Wilkes-Barre

Program Description

The objectives of the Multidisciplinary Studies major are to broaden the student's understanding, interests, and skills; to help the student become a more responsible, productive member of the family and community; and to offer a degree program with sufficient electives to permit some specialization according to the student's interests or career plans. Multidisciplinary Studies is a complete two-year degree major. However, graduates who later seek admission to baccalaureate degree majors may apply baccalaureate credits toward the new degree.

In addition to a wide variety of baccalaureate majors offered at University Park campus, graduates of the Multidisciplinary Studies major may qualify for admission to the baccalaureate degree majors in Behavioral Sciences, Elementary Education, Humanities, or Public Policy offered at Penn State Harrisburg. Or they may qualify for any of a large number of baccalaureate degree majors offered by Penn State Erie, The Behrend College, in business, the liberal arts, and sciences.

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Arts degree in Multidisciplinary Studies, a minimum of 60 credits is required:

Requirement	Credits
General Education	21
Electives	15
Requirements for the Major	30

6 of the 21 credits for General Education are included in the Requirements for the Major. This includes 6 credits of General Education GWS courses.

Requirements for the Major

The required credits of General Education and Requirements for the Major must be baccalaureate-level courses. For students intending to seek admission to a baccalaureate program upon graduation, it is recommended that most, if not all, of the courses be at the baccalaureate level. For those students who will seek a bachelor of arts degree upon graduation from Multidisciplinary Studies, it is strongly recommended that a world language be taken since admission to a bachelor of arts

program in the College of the Liberal Arts requires one college-level course, or the equivalent, in a world language.

Courses that will satisfy the arts, humanities, social and behavioral sciences, natural sciences, and quantification requirements are defined on the Multidisciplinary Studies checksheet, which may be obtained from the College of the Liberal Arts associate dean for undergraduate studies at the University Park campus or from any Multidisciplinary Studies representative at other locations.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
CAS 100	Effective Speech	3
ENGL 15	Rhetoric and Composition	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select one of the following:		3
ENGL 202A	Effective Writing: Writing in the Social Sciences	
ENGL 202B	Effective Writing: Writing in the Humanities	
ENGL 202C	Effective Writing: Technical Writing	
ENGL 202D	Effective Writing: Business Writing	
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Select 3 credits in any course designated as arts		3
Select 3 credits in any course designated as humanities		3
Select 3 credits in any course designated as social and behavioral sciences		3
Select 3 credits in any course designated as physical, biological, or earth sciences		3
Select 9 credits in any one of the following areas: arts, humanities, social and behavioral sciences, natural sciences and quantification, and world language skills ¹		9

¹ If world language courses are chosen, it is recommended that these courses be in one world language sequence.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 3 credits
- **Writing and Speaking (GWS):** 3 credits

Knowledge Domains

- **Arts (GA):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Note: Up to six credits of Inter-Domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

- **Any General Education course (including GHW and Inter-Domain):** 3 credits

University Degree Requirements

Cultures Requirement

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 60 degree credits must be earned for an associate degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

Brandywine Campus

- **Communicating Across Perspectives:** Students will be able to communicate and engage meaningfully and respectfully with others who have different perspectives or world views.
- **Knowledge:** Students will demonstrate proficient academic knowledge of key theories and approaches in more than one academic or professional discipline.

DuBois Campus

- Students will be able to communicate clearly and persuasively the integration of their learning of multiple disciplines in a degree program that reflects their theme.

- Students will be able to apply empirical or creative process specific to their fields of specialization.
- Students will be able to synthesize multiple disciplinary perspectives into an intellectual or professional identity.
- Students will be able to engage meaningfully and respectfully with others who have different perspectives or world views.

Fayette, Scranton, Shenango Campuses

- **Liberal Arts:** Students will be able to achieve the basis for a liberal arts education.
- **Communication:** Students will be able to achieve communication skills to pursue study in a variety of disciplines.
- **Career:** Students will be able to identify a variety of courses that will bring familiarity with and facilitate pursuit of their career and educational goals.

Hazleton Campus

- **Liberal Arts Education:** Students will be able to achieve the basis for a liberal arts education.
- **Communication:** Students will be able to achieve communication skills to pursue study in a variety of disciplines.
- **Professional:** Students will be able to identify a variety of courses to help select later career and educational goals.

Mont Alto Campus

- **Liberal Arts:** Students will be able to achieve the basis for a liberal arts education.
- **Communication:** Students will be able to achieve communication skills to pursue study in a variety of disciplines.
- **Career:** Students will be able to identify a variety of courses that will bring familiarity with and facilitate pursuit of their career and educational goals.

New Kensington Campus

- **Communication:** Students will be able to effectively communicate in written, oral, visual and/or multimedia formats.
- **Problem Solving:** Students will be able to apply logical reasoning and critical thinking skills to deliberative problem solving scenarios.
- **Synthesis:** Students will be able to apply a foundation in Liberal Arts education toward to the articulation of an intellectual or professional pathway.

Schuylkill Campuses

- **Critical Thinking:** Students will demonstrate critical thinking skills
- **Ethical:** Students work toward becoming responsible citizens who lead rich, ethical, and self-examined lives
- **Research:** Students will be able to apply research methodologies specific to their fields of specialization
- **Theme:** Students will develop and follow a program focusing on a theme that has personal and/or professional application
- **Written and Oral Communication:** Students will be able to employ clear and persuasive written and oral communication in a course, learning fair, scholarly project, or other academic/professional venue

Wilkes-Barre Campus

- Research proficiency focused on writer's purpose and audience's needs

- Critical thinking, sound reasoning, and astute analysis of written documents, situations, and people, leading to logical conclusions
- Application of theory to create a persuasive point of view
- Communication skills to clearly convey argued points to a target audience
- Technological literacy that enables the effective creation and delivery of documents via various electronic media, with attention to message content, page layout, and graphical elements

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Multidisciplinary Studies, A.A. at Brandywine Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Advising Notes:

- The associate degree in Letters, Arts, and Sciences (2LAUC_AA) is a degree which allows learners to experience a variety of academic disciplines as well as prepare for continued studies in a bachelor degree program.
- Please consult your adviser if you have a particular bachelor degree in mind.

- Your adviser can help build a plan to help you meet any admission or course prerequisite requirements for the bachelor degree.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies (either Inter-domain or Linked Courses)

Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked

courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- As long as one GA, GH, and GS are taken, the order in which they are completed is not important.
- A student's career and graduate school plans should be considered when developing an individual academic plan.

- Be sure to consult an adviser in this department when scheduling courses.

Multidisciplinary Studies, A.A. at Shenango Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Multidisciplinary Studies, B.A. (University College)

Begin Campus: Any Penn State Campus

End Campus: Brandywine, DuBois, Greater Allegheny, Hazleton, Mont Alto, Scranton, Shenango

Program Description

Multidisciplinary Studies is a multi-disciplinary, theme-oriented, and student-designed major leading to a bachelor of arts degree. The major consists of 36 credits, divided into two sections. The core (12 credits) consists of 3 credits each in the following: research methods/projects; communication skills; theory/application; and critical analysis. The additional courses (24 credits) consist of courses directed toward the student's theme, 15 credits of which must be at the 400 level.

Early Admission Program for Professional Schools

If a student is accepted and enrolled as a degree candidate in a professional postgraduate degree program requiring three years or more to complete (such as medical school, dental school, law school, theological seminary, etc.) and if that student completes 94

undergraduate credits at Penn State including General Education, B.A. requirements, and the Multidisciplinary Studies 12-credit core requirements, that student may use up to 30 credits from the professional school to complete the B.A. Multidisciplinary Studies.

It must be emphasized that only top students are accepted into professional school programs on such an early admission basis and that not every professional school has such a policy. Students must have enrolled in Multidisciplinary Studies prior to attending the professional school to request graduation in Multidisciplinary Studies.

What is Multidisciplinary Studies?

You can customize a Bachelor's Degree in Multidisciplinary Studies to fit your area of interest. The 120-credit program allows you to focus on developing your skills in communication and analysis along with your leadership abilities. You will work closely with your adviser to design a program that creates intellectual depth in an area of study that is unique to your interests, but also aligns with the theoretical foundation of a liberal arts degree. The goal of the Bachelor's degree in Multidisciplinary Studies is to provide a broad education that introduces methods of analysis used in the liberal arts disciplines. In addition, it can also prepare you to address the complex social, cultural, ethical, and organizational issues you may face in leadership positions.

You Might Like This Program If...

You have not earned an undergraduate degree, you wish to complete a degree or you wish to customize a degree to fit your career goals.

Entrance To Major

In order to be eligible for entrance to the major, the student must submit a proposal. In consultation with a Multidisciplinary Studies adviser, the student formulates a proposal designing a program that investigates a theme from the viewpoint of at least three different subject areas. Students may not duplicate existing majors from any academic area. An important standard for entrance to the Multidisciplinary Studies major is the student's ability to design a program with academic integrity worthy of a bachelor of arts degree.

Degree Requirements

For the Bachelor of Arts degree in Multidisciplinary Studies, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	15
Bachelor of Arts Degree Requirements	24
Requirements for the Major	36

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

Courses must be selected in consultation with an adviser.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 24 credits from University-wide offerings to include:		24
12 credits at the 400 level representing at least three different subject areas		
3 credit 400-level capstone course		
A minimum 9 credits from the humanities and social sciences		
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Select 3 credits in research methods/projects from courses that involve research methodology or that focus on a research project		3
Select 3 credits in communication skills from courses that focus on expression including those in verbal, symbolic, and written skills		3
Select 3 credits in theory/application from courses that focus on theory, principle, central concepts, or fundamental issues		3
Select 3 credits in critical analysis from courses that focus on evaluation, synthesis, and analysis		3

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses**. This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or

beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

Brandywine Campus

- **Communicating Across Perspectives:** Students will be able to communicate and engage meaningfully and respectfully with others who have different perspectives or world views.
- **Integration:** Students will be able to integrate multiple disciplines of their chosen theme in a major course project, or in the articulation of a coherent multidisciplinary academic program in the Multidisciplinary Studies Proposal.
- **Knowledge:** Students will demonstrate proficient academic knowledge of key theories and approaches in more than one academic or professional discipline.
- **Method or Process:** Students will be able to apply rigorous empirical or creative methods and processes to research specific to their multiple disciplinary specializations.

DuBois, Greater Allegheny, Hazleton, Mont Alto, Scranton, Shenango Campuses

- **Application:** Students will be able to apply empirical or creative processes specific to their fields of specialization.
- **Communication:** Students will be able to communicate clearly and persuasively the integration of their learning of multiple disciplines in a degree program that reflects their theme.
- **Engagement:** Students will be able to engage meaningfully and respectfully with others who have different perspectives or world views.
- **Synthesis:** Students will be able to synthesize multiple disciplinary perspectives into an intellectual or professional identity.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 113-121

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Multidisciplinary Studies, B.A. at DuBois Campus

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Multidisciplinary Studies, B.A. at Greater Allegheny Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

¹ Refer to student's approved LAS proposal

Program Notes:

- As long as two Arts (GA), two Humanities (GH), two Social and Behavioral Sciences (GS), and three Natural Sciences (GN) courses are taken across the eight semesters, the particular order in which these courses are taken is not relevant.
- The courses series listed above is only one of many possible ways to move through the LAS curriculum. A student's career/graduate school plans should be considered in developing an individual academic plan. Be sure to consult an adviser in the LAS department when scheduling courses.
- LAS majors must take 3 credits in each of the following areas: Research Methods/Projects, Communication Skills, Theory/Application, Critical Analysis. See adviser for course recommendations.
- At least three (3) different disciplinary areas must be included in the 24 credit option area. Fifteen (15) credits must be at the 400 level including the 400-level capstone course. In addition, at least 9 credits must be from the humanities and/or social & behavioral sciences. See adviser for course recommendations.
- After completing the 4th semester, students intending to major in LAS must write a proposal outlining the selection of courses they plan to take, demonstrating how those courses work together to prepare them for their intended career choice. This proposal must be approved by LAS Program Coordinator at the Campus.

Total Credits 121

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

- The First-Year Seminar requirement may be met via PSU 8 (1 credit) or with some designated courses.
- World Language (0-12 credits) - Student must attain 12th credit level of proficiency in one world language. Penn State Mont Alto typically offers Spanish. If a student does not need to take the first and/or second semester(s) of a language, these credits will need to be replaced with electives.
- ENGL 202 - Students should consult with their adviser to select any one of ENGL 202A or ENGL 202B or ENGL 202C or ENGL 202D.
- World Cultures - Selected courses meet this "world cultures" requirement. Students also must take one international (IL) and one United States (US) cultures course. Courses with cultures attributes also can count toward general education or BA fields.
- B.A. Fields - Selected courses are designated as meeting the Bachelor of Arts requirement. The student should work with the adviser to make this selection.
- Core: Research - In consultation with adviser, select 3 credits in research methods/projects from courses that involve research methodology or that focus on a research project.
- Core: Theory/Application - In consultation with adviser, select 3 credits in theory/application from courses that focus on theory, principle, central concepts, or fundamental issues.
- Core: Critical Analysis - In consultation with adviser, select 3 credits in critical analysis from courses that focus on evaluation, synthesis, and analysis.
- Core: Communication Skills - In consultation with adviser, select 3 credits in communication skills from courses that focus on expression including those in verbal, symbolic, and written skills.
- Writing Across the Curriculum (W) - Some general edition courses also satisfy the "W" requirement. If a student has completed 3 credits of "W" course previously, this would be an elective. Work with the adviser to select an appropriate "W" course.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Advising Notes:

- ‡ General Education - Foundations: 9 credits GWS, 6 credits GQ; courses require grades of C or better for General Education
- † General Education - Breadth: 3 credits each of GA, GH, GS, GN, GHW single-domain classes; classes may be taken in varied order
- Integrative Studies: 6 credits inter-domain classes (N suffix); may not count toward major, but may count toward minor
- Exploration: 9 credits of additional GA, GH, GN, GS, and inter-domain classes; must include 3 credits of GN which may be Inter-Domain
- Students must work with program coordinator for this major to develop and submit an academic plan for this degree before completing 90 credits. Entrance to this major requires an approved proposal, a cumulative GPA of 2.0 or higher, and a minimum of 27.5 credits. Students who have completed 91 credits may not enter this major. The five 400-level courses required for this major must be in a minimum of three different disciplines. Nine of the credits for the major must be from the humanities and social sciences.
- A student enrolled in an associate degree should contact the program coordinator to develop and submit the academic plan before completing the associate degree. This major can serve as a complement to the associate degree or as bridge from the associate degree to graduate studies (in physical therapy, occupational therapy, physician assistant, and more).
- With careful planning, students can complete a minor (examples: BIOL, BUS, CRIMJ, HDFS, or PSYCH). Minors require 6 credits unique from the courses required by the major, increasing the total degree credits from 120 to 126.
- This major was previously called the BA in Letters, Arts, and Sciences (LASUC_BA). It was renamed effective in summer 2022.

Multidisciplinary Studies, B.A. at Scranton Campus

Natural Resources, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Natural Resources minor can complement majors in the earth sciences and life sciences, and provides an introduction to field techniques and technical writing. Areas of specialized study can include, but are not limited to, environmental assessment, forest and wetland evaluation and management, and wildlife management. Professional opportunities include work in environmental monitoring, such as endangered species and wetland delineation, restoration of disturbed land, and management of forested lands and wildlife areas.

What is Natural Resources?

The Natural Resources minor is designed for students studying Earth Sciences and includes topics related to wildlife and forest technology.

You Might Like This Program If...

- You are interested in forests and wildlife topics.
- You enjoy watching Planet Earth.
- You prefer to be outside.
- You care about the environment and desire to preserve it.
- You prefer to study science and have strong analytical skills.
- You want to complement your program of study with a unique focus.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Code	Title	Credits
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
In consultation with a natural resources adviser:		
	Select 3 credits in 100-level forest technology	3
	Select 3 credits in 100-level wildlife technology	3
	Select 6 credits of 200-level forest technology or wildlife technology	6
	Select 6 credits of 400-level geography or geosciences courses	6

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

The Natural Resources minor, added to your major of Earth Sciences will help to prepare you for a career or graduate study.

Careers

There are a variety of career options available to individuals interested in natural resources, including resource planning, restoration of disturbed lands, management of forested lands and wildlife areas, conservation and education within the field of natural resources.

Opportunities for Graduate Studies

You have many opportunities for graduate study including Natural Resource Management, Environmental Studies, Forest Ecology or Wildlife Science.

Occupational Science, B.S.

Begin Campus: Any Penn State Campus

End Campus: Mont Alto

Program Description

Occupational Science is an interdisciplinary holistic study of how engagement in life and daily occupations define and shape humans' routines, roles, and habits across the lifespan within wide-ranging environments. Occupational science courses provide the foundation of study along with supporting courses in social and behavioral sciences.

The learned outcome of study in occupational science is for the student to have the knowledge and skills to understand how people develop, recover, manage and improve daily living patterns of health and well-being that shape their lives.

Occupational Science prepares occupational therapy assistant (OTA) or physical therapist assistant (PTA) graduates for graduate education at the professional entry-level for occupational therapy. The degree also prepares students for careers in community health and education systems, as well as businesses focused on health and well-being.

Between the junior and senior years, students with good academic standing are eligible to apply for admittance to the Entry-Level Master of Occupational Therapy Program.

You Might Like This Program If...

You are an occupational therapy or physical therapist associate graduate who wants to further explore the science of everyday living. The focus of the major is to engage the student in an active and informed understanding of the therapeutic value of engaging in meaningful occupation. Students will develop occupation-focused critical and justice

informed reasoning related to meeting societal needs of individuals, groups, and communities.

Entrance to Major

To be eligible for admission to the B.S. in Occupational Science, applicants must have completed an associate degree in either Physical Therapist Assistant or Occupational Therapy from an accredited institution. First-time, first-year students are not eligible for admission.

Although the minimum GPA required for admission or reenrollment is a 2.0 (on a 4.0 scale), this does not guarantee admission or reenrollment into the program. The program is competitive; therefore, applicants who submit their application to Penn State or their request for reenrollment by December 31 for fall, by November 1 for spring and by April 1 for summer will be reviewed on a space available basis.

While students can be admitted in the fall, spring or summer semesters, The five Occupational Science courses will be offered in sequence in the fall and spring semesters only.

Associate-level OT and PTA courses from accredited institutions apply toward the "portfolio" section of the degree requirements, for up to 45 credits of OT or PTA coursework.

Applicable transfer credits may be applied to general education or elective credits. The Undergraduate Admissions Office determines whether Penn State credit will be awarded after reviewing official transcripts. Once admitted to the program, students are assigned to an academic or faculty adviser, who will provide an evaluation of remaining requirements.

Regardless of the number of required credits needed, Faculty Senate Policy 83-80 states that all students must complete 36 of their last 60 credits of coursework at Penn State to earn a Penn State bachelor's degree.

Degree Requirements

For the Bachelor of Science degree in Occupational Science, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	9-10
Requirements for the Major	85-86

20 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 8 credits of GN courses; 6 credits of GS courses; 3 credits of GQ courses; 3 credits of GWS courses.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits

Supporting Courses and Related Areas: Require a grade of C or better

Select a 3-credit Anthropology or Sociology course 3

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The

advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

Allows an opportunity for students who hold an associate degree in occupational therapy or physical therapy, to advance their practice-based skills and knowledge at the bachelor's level and/or as a pathway to graduate studies.

Careers

Provides advanced practice recognition for occupational therapy assistants and physical therapist assistants at the bachelor's level, as well as, offering occupational therapy and physical therapist assistant associate degree students a pathway to graduate studies in occupational therapy, physical therapy, health sciences, management, and/or education.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE OCCUPATIONAL SCIENCE PROGRAM (<https://www.aota.org/career/career-center/>)

Opportunities for Graduate Studies

Provides a pathway to graduate studies in occupational therapy, physical therapy, health sciences, management, and/or education. Approximately 90% of students who earn a bachelor's degree in Occupational Science at Penn State choose to pursue graduate work in occupational therapy.

Related graduate studies opportunities are as follows:

- Occupational Therapy
- Anthropology
- Business Administration (MBA)
- Curriculum and Instruction
- Educational Leadership
- Health Administration
- Health Policy and Administration
- Higher Education
- Kinesiology
- Learning, Design, and Technology
- Lifelong Learning and Adult Education
- Management and Organizational Leadership
- Organization Development and Change
- Philosophy
- Political Science
- Project Management
- Psychology
- Psychology of Leadership

- Public Administration
- Public Health
- Public Policy
- Rural Sociology
- Sociology
- Special Education
- Teaching and Curriculum
- Transdisciplinary Research on Environment and Society
- Women's, Gender, and Sexuality Studies

Occupational Therapy, A.S. (University College)

Begin Campus: DuBois, Mont Alto, Shenango

End Campus: DuBois, Mont Alto, Shenango

Program Description

The Associate in Science in Occupational Therapy Assistant Program prepares students to work in numerous practice settings, guided by the supervision of occupational therapists. Across the lifespan, individuals engage in meaningful occupations. Learning, playing, working, resting, and caring for self and others are among the occupations of life. A physical or psychological challenge may hinder an individual, group, and/or community from participating fully in meaningful occupations. Occupational therapy makes it possible for people to maintain or reclaim independence; thereby positively engaging in Living Life to its Fullest™. Upon successful graduation from the program, students must sit for and successfully pass the National Board for Certification in Occupational Therapy (NBCOT) national certification examination to practice. Most states also require licensure as a condition for employment. A felony conviction may affect a graduate's ability to sit for the NBCOT certification examination and obtain licensure. NBCOT may be contacted at:

NBCOT

One Bank Street
Suite 300
Gaithersburg, MD 20878
301-990-7979
www.NBCOT.org (<http://www.NBCOT.org>)

To enter this major, students must have a high school diploma or its equivalent. To be admitted to degree candidacy, the applicant must have completed educational background requirements called Carnegie Units or Secondary School Units. Students are responsible for proof of liability insurance and other requirements specified by the facility providing supervised field experience.

The size of each entering class is limited so that optimal clinical experiences and practical application situations can be maintained. Students are expected to progress through the program in the prescribed manner. Fieldwork affiliations are maintained within a specified geographical area. Students may be required to make special housing and transportation arrangements during the fieldwork phase. Students must complete all Level II fieldwork within eighteen months of successful completion of OTA didactic course work. The 2OTCC and 2OTBL curricula are delivered in five semesters.

What is Occupational Therapy?

Occupational therapy is a practice informed by physical, psychological, and occupational science. It is with these skills and knowledge; occupational therapy assistants employ intervention plans that engage people in maintaining or reclaiming independence. A physical or psychological challenge may hinder an individual, group, and/or community from participating fully in meaningful occupations. When this occurs an occupational therapy assistant works with the client(s) to design a plan to Live Life to its Fullest™. As a certified occupational therapy assistant, you will work in numerous practice settings, guided by the supervision of occupational therapists. Most importantly, by choosing a career in occupational therapy, you will be at the forefront in making a difference in people's lives by way of therapeutic use of self and an intentional relationship.

You Might Like This Program If...

You want to work with individuals and groups across the lifespan. Occupational Therapy Assistants work in rehabilitation and acute care hospitals, skilled nursing facilities, schools, community health centers, mental health facilities, pediatric specialty settings, and higher education, and can also create their own niches in a variety of settings. If you appreciate helping to solve problems and empower people, being an occupational therapy assistant may be the right fit for you!

Entrance to Major

The Occupational Therapy Assistant program admits students to begin in the fall semester.

Incoming first-year and transfer students who meet the program and campus admission requirements are admitted directly into the major. For more information about the admission process for this major, please send a request to the campus undergraduate admission office or to the program contact (listed in the Contact tab of the Bulletin).

First year students include those who have graduated from high school and have attempted fewer than 18 semester hours of college coursework at another college or university after high school graduation.

The minimum high school units required for admission to the Occupational Therapy Assistant program include four secondary units of English, two units of mathematics (including one unit of algebra), two units of science (one unit must be biology), and five units of arts, humanities, social studies, and/or foreign languages.

Although the minimum high school GPA required for admission is a 2.0 (on a 4.0 scale), this does not guarantee admissions into the program. The program is competitive; therefore, applicants who submit their application to Penn State by December 31 will be reviewed on a space available basis.

Transfer Applicants

In addition to a cumulative grade-point average, it is recommended that a transfer applicant should have demonstrated successful completion of at least three (3) credits of natural science with a lab and one (1) social science related course from another institution. These types of courses may include (but are not limited to) mammalian anatomy, physiology, chemistry, psychology, sociology, and other core biological, chemical, and social sciences. The admissions selection committee strives to select students who have demonstrated the potential to succeed in a rigorous, science-oriented program of study.

- * OT does not offer an advanced placement option for coursework for credit for experiential learning in the OTA program.
- * OT does not require prerequisite education or work-related experience for admission to the OTA program.

Change of Major

Requests will be considered for entrance into the OTP Program based on academic performance and space available in the OTA Program.

Students who wish to change their major must have a cumulative collegiate grade-point average of 2.0 on a 4.0 scale as the minimum University requirement for change of major consideration. In general, change of major to the Occupational Therapy Assistant program requires a substantially higher cumulative grade-point average. The number of qualified applicants typically exceeds the number of available program spaces; therefore, satisfaction of the minimum requirements does not guarantee approval for entrance to major.

In addition to a cumulative grade-point average, it is recommended that all change of major applicants should have demonstrated successful completion of at least one (1) laboratory based biological and one (1) social science related course prior to the January review:

Biological and Life Sciences (one lecture and one lab)

- BIOL 161/BIOL 162: Anatomy & Physiology I
- BIOL 163/BIOL 164: Anatomy & Physiology II

Social and Behavioral Sciences (choose at least one)

- PSYCH 100: General Psychology
- HDFS 129: Introduction to Human Development and Family Studies or PSYCH 212

Additional Information

Students are responsible for proof of liability insurance and other requirements, including criminal background checks and health information specified by the facility providing supervised field experience.

A felony conviction on record may impact a student's ability to sit for the certification examination administered by NBCOT after graduation; this can subsequently impact a graduate's ability to attain state licensure. Before applying to the OTA program, students can contact NBCOT for information on their early determination program to assess examination eligibility. Contact NBCOT at <https://www.nbcot.org/> for more information.

Retention Requirements

OTA Student Academic Success

Students in the Associate in Science in Occupational Therapy Program must earn a grade of C or better in: BIOL 161, BIOL 162, BIOL 163, BIOL 164, PSYCH 100, HDFS 129 or PSYCH 212, OT 100, OT 101, OT 103, OT 205, OT 207, OT 209, OT 210W, OT 212, OT 214, and OT 216.

As outlined in the course syllabi and the Associate Degree Programs Bulletin, students must earn passing grades in prerequisite occupational therapy courses to enroll in subsequent occupational therapy courses. Students will take the OT didactic courses offered in each semester, concurrently and in the prescribed sequence, since the curriculum is a progressive learning model. Level II fieldwork is completed only after the OT didactic courses and all general education requirements are successfully completed. Level II fieldwork must be completed within 18 months after completion of didactic coursework.

Ongoing Progression in the OTA Program

As per ACOTE Standard 3.4 Criteria for Successful Completion and A.3.5 Evaluation with Student on a Regular Basis, the faculty and administration will provide students regular feedback about their academic standing. Regarding successful completion of the OTA program there are instances where progression in the program is non-negotiable as follows:

1. A student who earns a D or F in any two OT didactic and/or fieldwork courses will not be allowed to continue in the program. Examples include but are not limited to: Failure of (OT 103 and OT 295E) or (OT 195E and OT 395A) or (OT 101 and OT 210W).
2. A student may be disenrolled from the program for a violation of the Occupational Therapy Code of Ethics and/or Penn State Academic Integrity Policy G-9 .
3. A student may not progress to the 3rd semester of the curriculum until BIOL 161, BIOL 162, BIOL 163, and BIOL 164 have been successfully completed with a C or better. If BIOL courses are not successfully passed by 3rd semester, the student may withdraw from the University or remain active and return to 3rd semester of prescribed OT courses the following year with the approval of Program Director.
4. Students must maintain a minimum grade point of 2.0 to be eligible to engage in Fieldwork Level I & II (OT 195E, OT 295E, OT 395A and OT 395B).

Degree Requirements

For the Associate in Science degree in Occupational Therapy, a minimum of 71 credits is required:

Requirement	Credits
General Education	21
Requirements for the Major	62

12 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 6 credits of GS courses; 3 credits of GN courses.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ PSYCH 100 is a prerequisite for PSYCH 212.

² OT 103 meets the intercultural requirement and is designated US.

³ OT 195E may be taken in semester 2 or 3, depending on availability of fieldwork sites.

⁴ FW Level II is two 8-week full-time placements.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

As per ACOTE Standard A.4.6 (2018) Notice to Applicants related to Criteria for Successful progression, retention, graduation, certification, and credentialing requirements of the Associate in Science in Occupational Therapy Degree.

Successful completion of each segment of the OTA Program requires the following:

- Student must earn a C or better in the OTA major coursework:
 - Each OT Course, BIOL 161, BIOL 162, BIOL 163, BIOL 164, HDFS 129 or PSYCH 212, PSYCH 100
- As per Penn State policy, student must earn C or better in Foundation Courses: ENGL 15(GWS) & MATH (GQ).
- OT course must be taken in the semester designated on this Suggested Academic Plan for OTA.
- Student must pass BIOL 161, BIOL 162, BIOL 163 & BIOL 164 prior to entering 3rd semester.
- Student must pass ENGL 15, PSYCH 100, and HDFS 129 or PSYCH 212 prior to entering the 3rd semester.
- When a student fails an OT course, they may not progress to next semester. Student will need to meet with adviser to discuss options of progression in the program.
- Student must maintain 2.0 GPA, to engage in OT 195E or OT 295E: Level I Fieldwork Experience.
- GQ, GH & GA can be moved around with the curriculum; however, must be completed by end of 3rd semester.
- All didactic degree requirements must be completed with a 2.0 GPA or better prior to enrolling in OT 395A/OT 395B.
- OT 195E, OT 295E, OT 395A, and OT 395B date & site of experience will be scheduled by the Academic Fieldwork Coordinator.

To graduate with an Associate in Science in Occupational Therapy degree:

- Student must maintain a 2.0 GPA per Academic Progress Policy 54-00, "To graduate, a degree candidate must complete the requirements for the candidate's major and earn at least a C (2.00) average for all courses taken at this University as stated in 82-40, subject to the conditions of 51-00."
- Student must complete OT 395A & OT 395B within 18 months of completing the didactic requirements.
- A felony conviction on your record, may affect your ability to sit for the certification examination administered by NBCOT® after you graduate; this can subsequently affect your ability to attain state licensure. Before applying for the OTA program, you can contact NBCOT® for information on their early determination program to assess examination eligibility. Go to NBCOT and read the "Early Review" section for details (<https://www.nbcot.org/exam/edr/>).

Occupational Therapy, A.S. at Mont Alto Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

Certified Occupational Therapy Assistants (COTA's) work in numerous practice settings. Across the lifespan, individuals engage in meaningful occupations. Learning, playing, working, resting, and caring for self and others are among the occupations of life. A physical or psychological challenge may hinder an individual, group, and/or community from participating fully in meaningful occupations. Occupational therapy makes it possible for people to maintain or reclaim independence. Following graduation from the nationally accredited program, students are eligible to take the National Board for Certification in Occupational Therapy (NBCOT) exam.

Careers

A Certified Occupational Therapy Assistant (COTA) supports individuals of all ages develop, recover, improve, or maintain the skills necessary for daily living, leisure, play, and work. COTA's work in public and private schools, early intervention programs, general, psychiatric, and pediatric hospitals, day treatment centers, hospices and home health agencies, rehabilitation hospitals and centers, skilled and intermediate care facilities, community living programs, community wellness centers, and/or hand therapy clinics.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE OCCUPATIONAL THERAPY PROGRAM (<https://www.bls.gov/ooh/healthcare/occupational-therapy-assistants-and-aides.htm>)

Opportunities for Graduate Studies

Once a Certified Occupational Therapy Assistant (COTA) has completed the associate in science in occupational therapy degree, they may decide to further studies by obtaining a baccalaureate degree. Common degrees include biology, psychology, occupational science, biobehavioral health, integrated social sciences, and other health related degrees.

Many COTA's decide to complete a baccalaureate degree secondary to the benefits of advancing their education as applied to occupational therapy and/or as part of positive progression of employment. Additionally, some COTA's complete a baccalaureate degree to prepare for graduate studies at the master's or doctoral degree entry-level to become occupational therapists.

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (<https://www.aota.org/education/find-a-school/>)

Professional Resources

- American Occupational Therapy Association, Inc. (AOTA) (<https://www.aota.org>)
- Accreditation Council for Occupational Therapy Education (ACOTE) (<https://acoteonline.org>)
- National Board for the Certification of Occupational Therapy, Inc. (NBCOT) (<https://www.nbcot.org>)

Accreditation

The Penn State Occupational Therapy Assistant programs are fully accredited by ACOTE, which can be reached at:

Accreditation Council for Occupational Therapy Education (ACOTE)
7501 Wisconsin Avenue
Suite 510E
Bethesda, MD 20814
301-652-6611 ext. 1184
email: accred@aota.org
[www.acoteonline.org](https://acoteonline.org) (<https://acoteonline.org>)

The Accreditation Council for Occupational Therapy Education (ACOTE®) is an Associated Advisory Council of the Executive Board of the American Occupational Therapy Association (AOTA®). ACOTE® is recognized as the accrediting agency for occupational therapy education by both the United States Department of Education (USDE (https://www2.ed.gov/admins/finaid/accred/accreditation_pg7.html#health)) and the Council for Higher Education Accreditation (CHEA (<https://www.chea.org/>)).

Peace and Conflict Studies, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change

from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

This minor may be pursued by students in any major. It is designed to help students take a coherent set of courses organized around the study of the sources of international conflict, peace movements, and peace building. The minor requires 18 credits, of which at least nine must be upper division, including six credits at the 400 level. Students will be required to take two prescribed courses, one introductory and one capstone. They also will take three credits of additional courses with an international focus and nine credits from a list of supporting courses, which includes the study of conflict in race relations, family, community, and the development of personal peace as a precursor to peace building. The full requirements with the lists of additional and supporting courses are available in the Peace and Conflict Studies program office. Substitutions for requirements require the permission of the Peace and Conflict Studies minor adviser at Penn State Brandywine.

See this minor list for Brandywine at [http://www.brandywine.psu.edu/Academics/](http://www.brandywine.psu.edu/Academics) for additional information.

What is Peace and Conflict Studies?

Peace and Conflict Studies examines how human beings get into and out of violent conflicts. The field sizes up the costs of war, examines the processes and challenges of peace, reflects on the characteristics of human conflicts at all levels. The field is interdisciplinary, drawing together elements of political science, international studies, cultural anthropology, psychology, sociology, economics, military history, war game theory, and studies of literature and expressive culture. Topics include diplomacy, nonviolence, failed states, ethnic struggle, gender mainstreaming, economics of war and peace, and cyber warfare.

You Might Like This Program If...

You want to add a background in international conflict, conflict escalation, peace movements, and peace-building to your four-year degrees. The program is a perfect match for students who plan to work in government, technology, international studies, cybersecurity, and other related fields.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Physical Therapist Assistant, A.S.

Begin Campus: Fayette, Hazleton, Mont Alto, Shenango

End Campus: Fayette, Hazleton, Mont Alto, Shenango

Program Description

This major helps prepare individuals to provide physical therapy services under the direction and supervision of a physical therapist in an ethical, safe, and effective manner. Students develop knowledge and skills in data collection and the appropriate use of equipment and exercise associated with various physical therapy treatment modalities. To accomplish these tasks, the major utilizes a combination of basic science and non-science course work coupled with courses specifically designed for the physical therapist assistant student. Students must progress through the program as prescribed by the suggested academic plan for their campus of admission. The program culminates with a full semester of clinical experience.

The size of each entering class is limited so that optimal clinical experiences and practical application situations can be maintained. Clinical affiliations are maintained over a wide geographical area, and students may be required to make special housing and transportation arrangements for the clinical phase. Prior to the beginning of the clinical experiences, PTA students are required to complete clinical requirements that may include, but are not limited to: health examination, immunizations, FBI fingerprint check, child abuse clearance, state background check and drug screening. Students will be responsible for completion and purchase of the necessary checks/clearances through a University approved vendor and providing results to the clinical sites.

In addition to a PTA certification/licensure, many state licensing boards and clinical facilities require a criminal background check, child abuse clearance, and a drug screening. Students with criminal records should contact the physical therapy licensing board in the state they plan to practice prior to applying for admission to the PTA Program to inquire about potential restrictions for licensure.

What is a Physical Therapist Assistant?

Physical Therapist Assistants (PTAs) work as part of a team providing physical therapy services under the direction and supervision of a licensed physical therapist. PTAs implement interventions outlined in the physical therapist's plan of care, collect data related to interventions, and modify selected interventions to progress patients towards their individual goals. These goals are designed to reduce pain, restore

function, improve mobility and prevent disability. An Associate in Science Degree in Physical Therapist Assistant requires 5-semesters of study, including three full-time clinical practicums. The PTA Program prepares graduates to take the national examination for certification/licensure as a PTA.

You Might Like This Program If...

You are interested in working with people of all ages who have health-related conditions that cause pain or limit their ability to move or perform functional activities in their daily lives. PTAs work under the direction and supervision of a licensed physical therapist to provide meaningful interventions, such as exercise, training for walking and other activities, manual therapy and interventions, and the use of physical agents and electrotherapy.

Entrance to Major

Incoming first-year students who meet the program and campus admission requirements are admitted directly into the major. For more information about the admission process for this major, please send a request to the campus undergraduate admissions office or to the program contact (listed in the Contact tab).

Change of Major and Change of Locations requests are submitted via LionPATH Update Academics and require Dean's review. Requests will be considered for entrance into the PTA Program based on academic performance and space available in the PTA Program.

Students who wish to change their major must have a cumulative collegiate grade-point average of 2.0 on a 4.0 scale as the minimum University requirement for change of major consideration. In general, change of major to the Physical Therapy Assistant program requires a substantially higher cumulative grade-point average. The number of qualified applicants typically exceeds the number of available program spaces; therefore, satisfaction of the minimum requirements does not guarantee approval for entrance to major.

Additional Information

In addition to a PTA certification/licensure, many state licensing boards and clinical facilities require a criminal background check, child abuse clearance, and a drug screening. PTA students are required to complete clinical requirements that may include FBI fingerprint check, child abuse clearance, state background check and drug screening prior to the beginning of the clinical practicum. Students will be responsible for completion and purchase of the necessary checks/clearances through a University approved vendor and providing results to the clinical sites. Students with criminal records should contact the physical therapy licensing board in the state they plan to practice prior to applying for admission to the PTA Program to inquire about potential restrictions for licensure.

Retention Requirements

The PTA curriculum is designed to move the student from a fundamental understanding of basic concepts to complex critical thinking and application in clinical settings. Academic progression is designed to support educational success, licensure, and transition to practice.

This policy delineates the academic standards required of students admitted to the Physical Therapist Assistant (PTA) Program.

A course attempted in one PTA program applies to all campus locations. Academic Renewal does not negate previously attempted PTA courses.

In a situation where the student withdraws from the University (Policy 56-30), courses will be counted as one of the two attempts for the PTA program.

Academic Requirements

- Successful completion of required PTA courses, including clinical education courses as defined as a "C" or better.
- Successful completion of BIOL 161, BIOL 162, BIOL 163, and BIOL 164 as defined as "C" or better.
- A student who fails to achieve a "C" or higher in the same required Biology or PTA course, including clinical education courses for a second time will be dismissed from the PTA major. Academic advising relative to other majors/options will be provided.
- A student who fails to achieve a "C" or higher in two different required Biology or PTA courses, including clinical education courses will be dismissed from the PTA major. Academic advising relative to other majors/options will be provided.
- A student failing to achieve a grade of "C" or better in any required PT course, including clinical education courses or Biology courses will be required to repeat the course. A PTA student may repeat only one course, one time. A late drop (LD) or withdraw (W) in any required PTA or Biology course will be considered failing to achieve a "C" grade.
- If a failing grade ("D," "F," "LD," or "W") in a PT course, including clinical education courses was the result of a violation of the Standards of Ethical Conduct for the Physical Therapist Assistant or Pennsylvania State University Policy and Rules, or the student has a "D" or "F" at the time they drop the course, they may be denied the opportunity to retake the course.
- A student who earns a "D," "F," "LD," or "W" in any two required PTA courses, including clinical courses or Biology courses or in the same required core course for a second time will be disenrolled from the PTA major and advised relative to other majors/options.
- Special provisions will not be made by the University in scheduling PTA courses, including clinical or Biology courses for the purpose of re-taking a course. Students re-taking a course may lose up to one year since certain courses are offered only once per academic year. During the interim, the student may withdraw from the University or remain actively enrolled.
- When reinitiating PTA coursework, including clinical education courses the student will re-enter under the current curricular requirements.
- The student is responsible for demonstrating current competency in previously completed courses, including clinical education courses. The measure of competence will be determined by the Program Coordinator and faculty teaching the content area.
- A student who wishes to return to the University after a leave of absence or re-enroll after withdrawing from the University will follow the Re-enrollment/Re-entry policy of the University. See University Policy: Policy 58-00.

Degree Requirements

For the Associate in Science degree in Physical Therapist Assistant, a minimum of 70 credits is required:

Requirement	Credits
General Education	21
Requirements for the Major	61-62

12 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 0-3 credits of GH courses; 3 credits of GN courses; 3-6 credits of GS courses; 3-6 credits of GWS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
BIOL 161	Human Anatomy and Physiology I - Lecture	3
BIOL 162	Human Anatomy and Physiology I - Laboratory	1
BIOL 163	Human Anatomy and Physiology II - Lecture	3
BIOL 164	Human Anatomy and Physiology II - Laboratory	1
ENGL 15	Rhetoric and Composition	3
PSYCH 100	Introductory Psychology	3
PT 120	Human Musculature and Functional Anatomy	2
PT 150	Physical Therapist Assistant Procedures I	2
PT 160	Therapeutic Exercise I	3
PT 250	Physical Therapist Assistant-Procedures II	3
PT 260	Therapeutic Exercise-II	3
PT 285	Clinical Reasoning for the PTA	2
PT 384	Applied Kinesiology	3
PT 395E	Physical Therapist Assistant-Practicum I ¹	3
PT 395G	Physical Therapist Assistant-Practicum III ¹	4
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
PT 100 or PT 100S	Physical Therapist Assistant-Introduction	3
PT 290 or PT 290W	Professional Issues in Clinical Practice	2-3
Select 5 credits from the following:		5
PT 270	Pathophysiology	
PT 270W	Pathophysiology	
PT 271 & PT 272	Pathophysiology I and Pathophysiology II	
PT 271W & PT 272	Pathophysiology I and Pathophysiology II	
Select 5 credits from the following:		5
PT 280	Rehabilitation	
PT 280W	Rehabilitation	
PT 281 & PT 282	Rehabilitation-1 and Rehabilitation-2	
PT 281 & PT 282W	Rehabilitation-1 and Rehabilitation-2W	
Select 4 credits from the following:		4
PT 395F	Physical Therapist Assistant-Practicum II	
PT 395H & PT 395I	Physical Therapist Assistant-Practicum II Part 1 and Physical Therapist Assistant-Practicum II Part 2	

Supporting Courses and Related Areas

Select 3 credits of any GH, GS, or GWS course 3

¹ Courses that include clinical education experiences may require the student to travel long distances or obtain housing near the assigned clinic. Housing and transportation arrangements are the responsibility of the student.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 3 credits
- **Writing and Speaking (GWS):** 3 credits

Knowledge Domains

- **Arts (GA):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Note: Up to six credits of Inter-Domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

- **Any General Education course (including GHW and Inter-Domain):** 3 credits

University Degree Requirements

Cultures Requirement

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 60 degree credits must be earned for an associate's degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- Students will be able to utilize evidence-based clinical problem-solving to provide entry level physical therapy services under the direction and supervision of the physical therapist.
- Students will be able to communicate verbally, nonverbally, and in written form in an effective, respectful, and timely manner in ways that are congruent with situational needs.
- Students will be able to identify, respect, and act with consideration for patients/clients differences, values, preferences, and expressed needs in all work related activities.
- Students will be able to competently demonstrate effective data collection techniques under the direction and supervision of the physical therapist.
- Students will observe ethical and legal standards of practice while performing physical therapy interventions.
- Students will participate in ongoing self-assessment to improve knowledge, skill and behaviors that facilitate career development.
- Students will participate in activities that afford opportunities for growth in social responsibility.
- Students will be able to demonstrate the ability to collaborate with members of the health care team and provide inter-professional and intra-professional care.
- Students will be able to administer safe evidence-based treatment interventions under the direction and supervision of the physical therapist.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Physical Therapist Assistant, A.S. at Fayette Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ This course satisfies the University United States/International Cultures requirement.

² This course satisfies the University Writing Across the Curriculum requirement. The clinical practicum component of this course is a three week full-time experience in a physical therapy practice setting.

³ This is a six week clinical practicum that is a full-time experience in a physical therapy practice setting.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

Students are required to take a total of 3 credits in ARTS and 3 credits in HUM during the first 2 semesters.

KINES 13 is optional, student must be certified in Professional Rescuer, CPR, and First Aid.

Students are allowed to attend graduation ceremonies, but officially do not receive diploma until August, upon successful completion of their summer practicums.

A student's career/graduate school plans should be considered in developing an individual academic plan. Be sure to consult an adviser in this department when scheduling courses.

Physical Therapist Assistant, A.S. at Mont Alto Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Program Notes:

Students must complete a 3-credit course in "United States Cultures (US)" or a 3-credit course in "International Cultures (IL)."

Healthcare Providers CPR is required for clinical rotations.

Career Paths

The Physical Therapist Assistant program prepares its graduates for positions in many traditional and non-traditional career settings and for opportunities to further their educations in a variety of fields.

Careers

Physical Therapist Assistants provide services to patients of all ages and health conditions many settings, including outpatient clinics, hospitals, inpatient rehabilitation facilities, extended care or sub-acute facilities, home, education or research centers, schools, occupational environments, fitness centers and sports training facilities. All states in the US require PTAs to have graduated from a CAPTE-accredited program and have obtained state licensure. Students seeking licensure as a PTA must apply to the licensing authority of the jurisdiction (state) in which the graduate is seeking licensure and then register for the National Physical Therapy Examination for PTAs administered by the Federation of State Boards of Physical Therapy.

MORE INFORMATION ABOUT PT/PTA CAREERS (<https://www.apta.org/your-career/careers-in-physical-therapy/becoming-a-pta/>)

BUREAU OF LABOR STATISTICS OCCUPATIONAL OUTLOOK HANDBOOK IN HEALTHCARE (<https://www.bls.gov/ooh/healthcare/physical-therapist-assistants-and-aides.htm>)

Opportunities for Graduate Studies

Many students choose to continue their education at Penn State after completing their AS degree in PTA by completing and complete bachelor's degrees in a variety of disciplines, including: Rehabilitation and Human Services; Multidisciplinary Studies; Human Development and Family Studies; Health Policy Administration; Psychology; Biobehavioral Health; or other related field of study. Advisers assist interested students in completing bachelor's degrees and meeting prerequisite qualifications to apply for doctoral degrees in physical therapy (DPT) or other field of graduate study.

Professional Resources

- American Physical Therapy Association (<https://www.apta.org>)
- American Physical Therapy Association – Pennsylvania (APTA-PA) (<https://www.aptapa.org>)
- Federation of State Boards of Physical Therapy (<https://www.fsbpt.org>)
- Commission on Accreditation in Physical Therapy Education (<https://www.captionline.org>)

Accreditation

The Associate of Science degree in Physical Therapist Assistant at Penn State is accredited by the:

Commission on Accreditation in Physical Therapy Education (CAPTE)
American Physical Therapy Association
3030 Potomac Ave.,
Suite 100
Alexandria, VA 22305-3085

Telephone: 800-999-2782
Email: accreditation@apta.org
Website: <https://www.capteonline.org> (<https://www.capteonline.org/>)

Graduation from a physical therapist assistant education program accredited by CAPTE is necessary for eligibility to sit for the licensure examination, which is required in all states.

Accreditation by Campus

Penn State Fayette

The Physical Therapist Assistant Program at Penn State Fayette, The Eberly Campus is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, VA 22305-3085, 703-706-3245, accreditation@apta.org.

Penn State Hazleton

The Physical Therapist Assistant Program at Penn State Hazleton is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, VA 22305-3085, 703-706-3245, accreditation@apta.org.

Penn State Mont Alto

The Physical Therapist Assistant Program at the Penn State Mont Alto is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, VA 22305-3085, 703-706-3245, accreditation@apta.org. (accreditation@apta.org)

Penn State Shenango

The Physical Therapist Assistant Program at Penn State Shenango is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, VA 22305-3085, 703-706-3245, accreditation@apta.org.

MORE INFORMATION ABOUT THE COMMISSION ON ACCREDITATION IN PHYSICAL THERAPY EDUCATION (<https://www.capteonline.org/>)

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

Project and Supply Chain Management, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Beaver, Brandywine, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Scranton, York

Program Description

The Project and Supply Chain Management major concentrates on developing knowledge, skills, and abilities in both project and supply chain management, dynamic and important disciplines in modern corporations. Project management skills include the development of new projects, and coordinating procurement and project delivery systems. Supply chain management emphasizes the integration of manufacturing and service operations, logistics, purchasing, and distribution that enable organizations to develop value-creating supply chain networks. The major provides students with an opportunity to develop the quantitative and people skills necessary to design and operate today's complex management systems. Students learn how to manage critical components in organizational supply chains, and apply business analytic methods for organizing and fully integrating supply chain practices throughout the organization.

Graduates are uniquely well-prepared for careers in some of the highest in-demand professions in the modern business and government environments, managing the supply chain and project initiatives in world-class business firms, public sector organizations, construction, IT organizations, third-party logistics providers, and goods and services distribution operations.

What is Project and Supply Chain Management?

It has been estimated that well over half of all activities in modern corporations are project-based. From developing a new product to constructing a new building, the list of efforts that organizations must plan, manage, and deliver (ideally on time and under budget) is nearly endless. At the same time, globalization creates a growing need for professionals who can effectively manage complex supply chains. The study of project and supply chain management emphasizes the integration of manufacturing and service operations, logistics, purchasing, and distribution—the functions that enable organizations to cultivate value-creating supply chain networks.

You Might Like This Program If...

- You're not intimidated by large projects, or ones that have many moving parts.
- You are detail oriented.
- You are looking for a versatile, in-demand business degree.
- You are interested in pursuing a concurrent certificate in Enterprise Resource Planning (ERP) with SAP (available at Erie, the Behrend College and University College campuses, Beaver, Brandywine, Fayette, Greater Allegheny, Lehigh Valley, New Kensington, Schuylkill, Shenango, Wilkes-Barre and Scranton).

Entrance to Major

Entry to the Project and Supply Chain Management major requires the successful completion of 5 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30H, MATH 110 or MATH 140, STAT 200 or SCM 200. Each course requires a C or better grade for successful completion.

Degree Requirements

For the Bachelor of Science degree in Project and Supply Chain Management, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	96

21 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 6 credits of GS courses; 9 credits of GWS courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned.

Requirements for the Major

Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

<i>Additional Courses: Require a grade of C or better</i>		
ENGL 15	Rhetoric and Composition	3
or ENGL 30H	Honors Rhetoric and Composition	
MATH 110	Techniques of Calculus I	4
or MATH 140	Calculus With Analytic Geometry I	
SCM 200	Introduction to Statistics for Business	4
or STAT 200	Elementary Statistics	
MGMT 410	Project Management	3
or BA 421	Project Management	
MGMT 415	Project Portfolio Management and Organizations	3
or SCM 416	Warehousing and Terminal Management	
SCM 320	Transport Systems	3
or SCM 455	Logistics Systems Analysis and Design	
Select 3 credits from the following:		3
BA 364Y	International Business and Society	
ECON 470	International Trade and Finance	
FIN 471	International Finance	
IB 303	International Business Operations	
MGMT 461	International Management	
MKTG 445	Global Marketing	
Other 300- or 400-level international business courses		
Select 6 credits of 300- or 400-level courses such as MIS 404 and MGMT 430		6
Select 3 credits from the following:		3
ECON 481	Business Forecasting Techniques	
MIS 336	Database Management Systems	
MIS 301	Business Analytics	
SCM 340	Introduction to Supply Chain Analytics	
Select 3 credits from:		3
BA 422W	Strategic Business Planning	

BA 462 Business Strategy

MGMT 471W Strategic Management and Business Policy

Supporting Courses and Related Areas

Select 13 credits from any business major field or any non-business major field, except for all KINES (GHW) courses, any ENGL course below ENGL 15, and any MATH course below MATH 110. Exceptions may be petitioned through the applicable department chair. 13

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- Develop business skills and abilities to communicate effectively in both speech and writing.
- Demonstrate strong leadership and teamwork skills necessary for managing modern businesses.
- Demonstrate the ability to think critically and solve problems in the business environment.
- Demonstrate an awareness of ethical issues, social responsibilities, sustainability, and conflict resolution.
- Demonstrate the knowledge and skills necessary for managing modern businesses with the focus of designing and managing modern supply chain networks, including integrated operations, manufacturing, logistics, purchasing and distribution for value-creating, ERP-supported networks.
- Demonstrate the knowledge, skills, and abilities of organizing and managing projects in modern organizations. These project management skills include project portfolio management, scheduling and coordinating resources, planning and controlling projects, and risk and change management.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the

habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Project and Supply Chain Management, B.S. at Beaver Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Total Credits 122

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Project and Supply Chain Management, B.S. at Brandywine Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 120-122

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ ETMs include ACCTG 211, ECON 102, ENGL 15 or ENGL 30H, MATH 110 or MATH 140, STAT 200 or SCM 200, GPA 2.0 or higher

² Students must complete 3 credits of U.S. cultures (US) and 3 credits of international cultures (IL)

³ BA 321 and BA 322 qualify for 6 credits towards the Business Supporting Area for the degree. They are offered regularly and fulfill the prerequisite requirements for BA 421 and BA 422W.

⁴ 13 credits of approved supporting courses include courses in these areas: Management, Accounting, Marketing, and Finance. It's recommended that students include MIS 404 in this category, as this course fulfills the requirements for the ERP certificate with SAP. Any course at the 300-400 level in this category requires a grade of C or higher. The following courses do not meet this supporting courses requirement: KINES, ENGL 1-15, MATH 1-140, ACCTG 151, 152, ECON 14, FIN 100, 108, MGMT 100, MIS 103. Please consult with your adviser to discuss the regularly offered courses which meet this requirement.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes

Suggested Academic Plans do not replace the official university degree audit in LionPATH. A minimum of 120 credits are required for graduation. Consult with your adviser when scheduling courses.

Project and Supply Chain Management, B.S. at Fayette Campus

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- **STAT 200:** Students must not delay taking STAT 200 past semester 4, as it is a prerequisite for FIN 301 and SCM 301. It is also part of the criteria for entrance into the PSCM major.
- BA 321 and BA 322 count as this degree's 6 credits in a business-supporting area. This degree's 12 credits of supporting courses/related areas (sometimes called PSCM electives) reside in MIS 404 (3 credits), BA 495A (6 credits), and one other course (3 credits) of the student's choosing in coordination with adviser.
- A student's career/graduate school plans should be considered in developing an individualized academic plan. Be sure to consult an adviser in this department and your Degree Audit when scheduling courses. The Degree Audit in LionPATH is your official check of graduation requirements.

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

University Requirements and General Education Notes:

Project and Supply Chain Management, B.S. at Mont Alto Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

- ¹ All students are required to fulfill 45 credits of General Education courses. They include 9 credits of Natural Science (GN), 6 credits of Arts (GA), 6 credits of Humanities (GH), 6 credits of Social Science (GS) and 3 credits of Health and Wellness (GHW). Two (2) classes must be Inter-domain (N) or Linked (Z) courses. One (1) course must be designated an United States culture (US) and one (1) course must be designated an International culture (IL).
- ² In order for a course to be eligible for an Approved Elective, the course can not be a lower level ENGL (1-6) or MATH (2-41) OR a GHW designated course. Please see your academic adviser if you have a question on a specific course.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes

Please see your academic adviser for approval before scheduling your course.

Any 3 credits may be substituted for a different designation (GN, GA, GH, GS, or GHW) once 3 credits in each designation area have been successfully completed.

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Academic Advising Notes:

- A minimum of 120 credits is required for graduation. Three PSCM courses (MIS 404, SCM 445, SCM 460) also satisfy requirements to earn the ERP with SAP Certificate.
- STAT 200: Students must not delay taking STAT 200 past semester 4, as it is a prerequisite for FIN 301 and SCM 301. It is also part of the criteria for entrance into the PSCM major.
- BA 321 and BA 322 count as this degree's 6 credits in a business-supporting area. This degree's 12 credits of supporting courses/related areas (sometimes called PSCM electives) reside in MIS 404 (3 credits), BA 495A (6 credits), and one other course (3 credits) of the student's choosing in coordination with adviser.
- A student's career/graduate school plans should be considered in developing an individualized academic plan. Be sure to consult an adviser in this department and your Degree Audit when scheduling courses. The Degree Audit in LionPATH is your official check of graduation requirements.

Career Paths

The B.S. in Project and Supply Chain Management is one of only a handful of undergraduate degree programs in this field. Graduates are uniquely prepared to work in project-intensive industries such as construction, insurance, information services and information technology, manufacturing, utilities, pharmaceuticals, third-party logistics, and goods and services distribution operations.

Careers

Employers of recent B.S. in Project and Supply Chain Management graduates include Logistics Plus, Parker Hannifin, Bechtel Plant Machinery, American Eagle, Frito Lay, FairPoint Communications, Pitney Bowes, Spynce, General Electric, Wabtec Railway Electronics, Business Resource Group, Modern Industries, Eddie Bauer, Ferguson Enterprises, Unisys, Eastman Kodak, Tyco Electronics, and IBM.

Opportunities for Graduate Studies

The B.S. in Project and Supply Chain Management can be a starting point for master's- and doctoral-level study of supply chain management, project management, management science, law, organizational behavior, corporate strategy, enterprise architecture, information technology, or another specialized discipline.

Psychology, B.A. (University College)

Begin Campus: Any Penn State Campus

End Campus: Beaver, Brandywine, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, York

Program Description

The Psychology major will combine the knowledge, skills, and values of psychology with a liberal arts foundation. Students should:

- develop a knowledge base consisting of concepts, theory, empirical findings, and trends within psychology;
- understand and apply basic research methods in psychology;
- use critical thinking and the scientific approach to solve problems related to behavior and mental processes;
- apply psychological principles to personal and social issues;
- and be able to understand the gender, sexual orientation, race, ethnicity, culture, and class issues in psychological theory, research, and practice.

Students should also develop information and computer competence, communication skills, and develop realistic ideas about how to implement their psychology education in occupational pursuits in a variety of settings. The major may lead to either a Bachelor of Arts or a Bachelor of Science degree. The B.A. degree incorporates a broad exposure to the many facets of the field of psychology, in addition to the B.A. requirements. The B.S. degree provides the same exposure to the field of psychology and adds options in Science and Business to prepare students for more specific career directions. Students in both degree programs may also prepare for graduate school; research experience with faculty members is encouraged for such students.

What is Psychology?

Psychology is the scientific study of thought, behavior, and experience. Many people associate psychology with psychological therapy and the practice of clinical psychology. There are also many other important areas of scientific psychology, such as cognitive, developmental, industrial/organizational, and social psychology. What these subfields of psychology have in common is the use of the scientific method to understand human behavior and apply that understanding to the development of theory and practice. Psychologists are increasingly making use of neuroscience methods and theories to understand psychological phenomena. As a profession, psychology is related to fields such as health, education, marketing, human resources, social work, and more. The principles of psychology are relevant to almost all areas of human endeavor, and the career paths of psychology students reflect this wealth of possibilities.

You Might Like This Program If...

You are interested in people and in learning to use science to better understand them. As a major, you'll have opportunities to do research with faculty and to work in career-relevant settings.

MORE INFORMATION ABOUT PSYCHOLOGY (<https://altoona.psu.edu/academics/bachelors-degrees/psychology/>)

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Arts degree in Psychology, a minimum of 124 credits is required:

Requirement	Credits
General Education	45
Electives	14-18
Bachelor of Arts Degree Requirements	24
Requirements for the Major	41

0-4 of the 45 credits for General Education are included in the Requirements for the Major. This includes 0-4 credits of General Education GQ courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Select 12 credits of additional Psychology courses from any offered for a total of 30 credits of Psychology courses beyond PSYCH 100 and PSYCH 301W ¹

¹ At least 15 of these 30 Additional Courses credits must be at the 400-level.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or

beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

Beaver and Scranton Campuses

- **Foundational Knowledge:** Students will demonstrate knowledge of major psychological concepts, theories, and empirical findings.
- **Application:** Students will demonstrate the ability to apply psychological concepts and theories to research and real-life situations.
- **Critical and Creative Thinking:** Students will use critical and creative thinking, skeptical inquiry, and the scientific approach to solve problems related to behavior and mental processes.
- **Scientific Literature:** Students will demonstrate critical thinking in the analysis, evaluation, and interpretation of information in the scientific literature to distinguish the scientific literature from other sources.
- **Communication:** Students will communicate effectively (in writing and/or orally) the results of a project or internship.
- **Research Writing:** Students will demonstrate the ability to effectively extract central points and summarize psychological research literature and to write in the format of psychological research.
- **Research Methods:** Students will differentiate among the research methods used in psychology and apply the designs in evaluation or development of a research study.
- **Analysis:** Students will demonstrate the ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables.
- **Culture Diversity:** Students will show evidence of knowledge and appreciation for cultural diversity and relativity in human experience and for the complexity of human behavior and interactions.
- **Ethics:** Students will demonstrate knowledge, and the application of, basic principles of scientific and professional ethics.
- **Professionalism:** Students will demonstrate sensitivity to ethical concerns and professionalism (including cultural considerations) in settings where applications of psychology and/or psychological research occur.
- **Professional Options:** Students will demonstrate knowledge of professional options and required training for careers in the major subfields of psychology.
- **Career Options:** Students will demonstrate the ability to identify personally-relevant career options to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings.

Brandywine Campus

- **Communication:**
 - Students will demonstrate effective writing for different purposes.
 - Students will exhibit effective presentation skills for different purposes.
 - Students will interact effectively with others.
- **Ethical & Social Responsibility in a Diverse World:**
 - Students will apply ethical standards to evaluate psychological science and practice.

- Students will build and enhance interpersonal relationships.
- Students will adopt values that build community at local, national, and global levels.
- **Knowledge Base:**
 - Students will describe key concepts, principles, and overarching themes in psychology.
 - Students will develop a working knowledge of psychology's content domains.
 - Students will describe applications of psychology.
- **Professional Development:**
 - Students will apply psychological content and skills to career goals.
 - Students will exhibit self-efficacy and self-regulation.
 - Students will refine project-management skills.
 - Students will enhance teamwork capacity.
 - Students will develop meaningful professional direction for life after graduation.
- **Research Skills:**
 - Students will differentiate among the research methods used in psychology and apply the designs in evaluation or development of a research study.
 - Students will demonstrate the ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables.
- **Scientific Inquiry & Critical Thinking:**
 - Students will use scientific reasoning to interpret psychological phenomena.
 - Students will demonstrate psychology information literacy.
 - Students will engage in innovative and integrative thinking and problem solving.
 - Students will interpret, design, and conduct basic psychological research.
 - Students will incorporate sociocultural factors in scientific inquiry.

Fayette Campus

- **Human Behavior:** Students will connect specific human behaviors to the many broad areas of psychology.
- **Professional:** Students will relate applications of psychology to specific professions associated with psychology.
- **Research:** Students will describe and apply the steps of the scientific method.
- **Theory:** Students will summarize the scientific principles of psychology, including its history and major theoretical principles.

Greater Allegheny and Hazleton Campuses

- **Career-Related Skills:**
 - Students will demonstrate knowledge of professional options and required training for careers in the major subfields of psychology
 - Students will demonstrate the ability to identify personally-relevant career options to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings.
- **Communication Skills:**
 - Students will communicate effectively (in writing and/or orally) the results of a project or internship.

- Students will demonstrate the ability to effectively extract central points and summarize psychological research literature and to write in the format of psychological research.

- **Content Knowledge:**
 - Students will demonstrate knowledge of major psychological concepts, theories, and empirical findings.
 - Students will demonstrate the ability to apply psychological concepts and theories to research and real life situations.
- **Diversity and Ethical Considerations:**
 - Students will show evidence of knowledge and appreciation for cultural diversity and relativity in human experience and for the complexity of human behavior and interactions.
 - Students will demonstrate knowledge, and the application of, basic principles of scientific and professional ethics.
 - Students will demonstrate sensitivity to ethical concerns and professionalism (including cultural considerations) in settings where applications of psychology and/or psychological research occur.
- **Research Skills:**
 - Students will differentiate among the research methods used in psychology and apply the designs in evaluation or development of a research study.
 - Students will demonstrate the ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables.
- **Thinking Skills:**
 - Students will use critical and creative thinking, skeptical inquiry, and the scientific approach to solve problems related to behavior and mental processes.
 - Students will demonstrate critical thinking in the analysis, evaluation, and interpretation of information in the scientific literature to distinguish the scientific literature from other sources.

Lehigh Valley Campus

- **Communication:** Communicate effectively in writing using APA style correctly.
- **Critical Thinking:** All students will demonstrate critical thinking in the analysis, evaluation, and interpretation of information in the scientific literature and to distinguish the scientific literature from other sources.
- **Cultural Diversity:** All students will show evidence of knowledge and appreciation for cultural diversity and relativity in human experience and for the complexity of human behavior and interactions.
- **Data Analysis:** All students will demonstrate an ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables in Psych 301W.
- **Knowledge:** All students will demonstrate knowledge of major psychological concepts, theories, and empirical findings.

Mont Alto Campus

- **Empathy Skills:** Psychology majors will demonstrate a sense of empathy, the ability to understand someone else's experience.
- **Interpersonal Relationships:** Psychology majors will build and enhance interpersonal relationships and adopt values that build community at local, national, and global levels by understanding that other sides of an argument.

- **Preparation for Working with Diverse Experiences:** Students will be prepared to work with individuals and families with different experiences from their own.
- **Preparation for Working with Underrepresented Groups:** Student will demonstrate a sense of preparation for working with underrepresented groups.

New Kensington Campus

- **Career-Related Skills:** Preparing students for careers upon graduation.
- **Critical Thinking:** Use critical thinking to solve problems & distinguish scientific from non-scientific.
- **Data Analysis and Problem Solving:** Demonstrate the ability to analyze and interpret quantitative and qualitative data.
- **Effective Communication:** Demonstrate competence in comprehending, reading, writing, and orally communicating research.
- **Ethical Awareness:** Demonstrate knowledge and the application of professional ethics.
- **Experience Other Cultures:** Students immerse themselves into another culture by attending an event (e.g., religious service) outside their own ethnic/religious/sexual orientation/SES group.
- **Knowledge/Application:** Demonstrate knowledge and application of major concepts and theories.
- **Research Competence:** Differentiate among the research methods.

Schuylkill Campus

- **Ability to prepare presentations in APA style:**
 - Ability to prepare papers that review past research on behavioral topics
 - Ability to prepare research reports in APA style
 - Ability to prepare conference presentations
- **Understanding ethics and application in psychology:**
 - Understanding of ethical guidelines for research and applied psychologists
 - Ability to apply psychological theories in community organizations
- **Understanding of basic behavioral research methods:**
 - Understanding basic research methods for psychology and their limitations
 - Ability to design basic research projects to study predictors of behavior
 - Understanding basic statistics to analyze behavioral data
 - Ability to search Library databases for research on behavioral topics
- **Understanding of the variety of behavior problems and treatment options:**
 - Understanding of DSM diagnostic terminology for behavior problems
 - Understanding of variety of treatment approaches for behavior problems
- **Understanding of the variety of theories to explain human behavior:**
 - Understanding of variety of psychological theories to explain behavior
 - Understanding of the impact of diversity on human behavior

York Campus

- **Critical Thinking:** Use critical thinking to solve problems & distinguish scientific from non-scientific.

- **Data Analysis and Problem Solving:** Demonstrate the ability to analyze and interpret quantitative and qualitative data.
- **Effective Communication:** Demonstrate competence in comprehending, reading, writing, and orally communicating research.
- **Ethical Awareness:** Demonstrate knowledge and the application of professional ethics.
- **Knowledge/Application:** Demonstrate knowledge and application of major concepts and theories.
- **Research Competence:** Differentiate among the research methods.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Psychology, B.A. at Beaver Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 114

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Psychology, B.A. at Brandywine Campus

Total Credits 123

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Psychology, B.A. at Hazleton Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

¹ Students must demonstrate or complete the third level of proficiency in one world language. Scheduling of world language course work follows the World Language Placement Policy.

² Students must take 30 credits in PSYCH. Among these, students must take at least 15 credits at the 400-level and at least 3 credits in each of six categories: Learning and Cognition; Social and Personality Psychology; Biological Bases of Behavior; Developmental Psychology; Applied and Clinical Psychology; Capstone Experience.

Consult the Psychology Program Coordinator for specific course options.

³ During the fourth year, students must choose one capstone course from 5 options: PSYCH 490 Senior Seminar in Psychology, PSYCH 493 Senior Thesis, PSYCH 494 Research Projects, PSYCH 495 Internship, or PSYCH 496 Independent Studies. Students must consult the Psychology Program Coordinator about prerequisites and requirements for these courses before registering. PSYCH 495 Internship requires planning one semester in advance of starting the internship.

⁴ PSYCH 301W satisfies the Writing Across the Curriculum requirement

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Integrative Studies (either Inter-domain or Linked Courses)

Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

¹ Students must demonstrate or complete the third level of proficiency in one world language. Scheduling of world language course work follows the World Language Policy: <http://www.psu.edu/dus/handbook/lang.html#policy>

² Students must take 30 credits in PSYCH beyond PSYCH 100 and PSYCH 301W. Among these, students must take at least 15 credits at the 400-level and at least 3 credits in each of six categories: Learning and Cognition; Social and Personality Psychology; Biological Bases of Behavior; Developmental Psychology; Applied and Clinical Psychology; Clapstone Experience. Consult the Psychology Program Coordinator for specific course options.

³ BA students must take 9 credits in "BA requirement courses (Humanities, Social and Behavior Sciences [except psychology], Arts, World Languages, [2nd language or beyond the 12th credit level of proficiency in the first], Natural Sciences, Quantification). See your adviser.

⁴ BA students must take 3 credits in world cultures courses. See your adviser.

⁵ During the fourth year, students must choose one capstone course from 5 options: PSYCH 490 Senior Seminar, PSYCH 493 Senior Thesis, PSYCH 494 Research project, PSYCH 495 Psychology Practicum (internship), or PSYCH 496 Independent Studies. Students must consult the Psychology Program Coordinator about prerequisites and requirements for these courses before registering. PSYCH 495 Psychology Practicum requires planning one semester in advance of starting the internship.

Career Paths

Graduates of our program enter the workforce or pursue additional education in a variety of programs, including both Master's and Ph.D. programs in experimental, counseling, school, and clinical psychology.

Program Description

The Psychology major will combine the knowledge, skills, and values of psychology with a liberal arts foundation. Students should:

- develop a knowledge base consisting of concepts, theory, empirical findings, and trends within psychology;
- understand and apply basic research methods in psychology;
- use critical thinking and the scientific approach to solve problems related to behavior and mental processes;
- apply psychological principles to personal and social issues;
- and be able to understand the gender, sexual orientation, race, ethnicity, culture, and class issues in psychological theory, research, and practice.

Students should also develop information and computer competence, communication skills, and develop realistic ideas about how to implement their psychology education in occupational pursuits in a variety of settings. The major may lead to either a Bachelor of Arts or a Bachelor of Science degree. The B.A. degree incorporates a broad exposure to the many facets of the field of psychology, in addition to the B.A. requirements. The B.S. degree provides the same exposure to the field of psychology and adds options in Science and Business to prepare students for more specific career directions. Students in both degree programs may also prepare for graduate school; research experience with faculty members is encouraged for such students.

What is Psychology?

Psychology is the scientific study of thought, behavior, and experience. Many people associate psychology with psychological therapy and the

practice of clinical psychology. There are also many other important areas of scientific psychology, such as cognitive, developmental, industrial/organizational, and social psychology. What these subfields of psychology have in common is the use of the scientific method to understand human behavior and apply that understanding to the development of theory and practice. Psychologists are increasingly making use of neuroscience methods and theories to understand psychological phenomena. As a profession, psychology is related to fields such as health, education, marketing, human resources, social work, and more. The principles of psychology are relevant to almost all areas of human endeavor, and the career paths of psychology students reflect this wealth of possibilities.

You Might Like This Program If...

You are interested in people and in learning to use science to better understand them. As a major, you'll have opportunities to do research with faculty and to work in career-relevant settings.

MORE INFORMATION ABOUT PSYCHOLOGY (<https://altoona.psu.edu/academics/bachelors-degrees/psychology/>)

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Psychology, a minimum of 124 credits is required:

Requirement	Credits
General Education	45
Electives	14-18
Requirements for the Major	65

0-4 of the 45 credits for General Education are included in the Requirements for the Major. This includes 0-4 credits of General Education GQ courses.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
PSYCH 100	Introductory Psychology	3
PSYCH 301W	Basic Research Methods in Psychology	4
Additional Courses ¹		

Additional Courses: Require a grade of C or better

PSYCH 200	Elementary Statistics in Psychology	4
or STAT 200	Elementary Statistics	

Select 18 credits of the following, with a minimum of 3 credits from each of the following six categories: 18

Learning and Cognition

PSYCH 256	Introduction to Cognitive Psychology
PSYCH 261	Introduction to Psychology of Learning
PSYCH 268	Animal Minds
PSYCH 426	Language and Thought
PSYCH 427	Language Acquisition
PSYCH 452	Learning and Memory
PSYCH 456	Advanced Cognitive Psychology
PSYCH 457	Psychology of Language
PSYCH 458	Visual Cognition
PSYCH 459	
PSYCH 461	Advanced Conditioning and Learning

Social and Personality Psychology

PSYCH 221	Introduction to Social Psychology
PSYCH 231	Introduction to the Psychology of Gender
PSYCH 232	Cross-Cultural Psychology
PSYCH 238	Introduction to Personality Psychology
PSYCH 419	Psychology and a Sustainable World
PSYCH 420	Advanced Social Psychology
PSYCH 421	Self and Social Judgment
PSYCH 423	Social Psychology of Interpersonal/Intergroup Relationships
PSYCH 424	Applied Social Psychology
PSYCH 432	Multicultural Psychology in America
PSYCH 438	Personality Theory
PSYCH 479	The Psychology of Gender

Biological Bases of Behavior

PSYCH 253	Introduction to Psychology of Perception
PSYCH 260	Neurological Bases of Human Behavior
PSYCH 269	Evolutionary Psychology
PSYCH 441	Health Psychology
PSYCH 460	Comparative Psychology
PSYCH 462	Physiological Psychology
PSYCH 464	Behavior Genetics
PSYCH 475	Psychology of Fear and Stress
PSYCH 478	Clinical Neuropsychology

Developmental Psychology

PSYCH 212	Introduction to Developmental Psychology
PSYCH 410	Child Development
PSYCH 412	Adolescence
PSYCH 413	Cognitive Development
PSYCH 414	Social and Personality Development
PSYCH 415	Topics in Developmental Psychology
PSYCH 416/ HDFS 445	Development Throughout Adulthood
PSYCH 474	Psychological Intervention in Childhood

Applied and Clinical Psychology

PSYCH 243	Introduction to Well-being and Positive Psychology
-----------	--

PSYCH 244	Introduction to the Psychology of Human Factors Engineering
PSYCH 270	Introduction to Abnormal Psychology
PSYCH 281	Introduction to Industrial-Organizational Psychology
PSYCH 370	Psychology of the Differently-Abled
PSYCH 404	Principles of Measurement
PSYCH 408	Program Evaluation
PSYCH 443	Treatment and Education in Developmental Disabilities
PSYCH 444	Engineering Psychology
PSYCH 445	Forensic Psychology
PSYCH 470	Abnormal Psychology
PSYCH 471	Psychology of Adjustment and Social Relationships
PSYCH 473	Behavior Modification
PSYCH 476	Child Psychopathology
PSYCH 477	Mental Health Practicum with Children
PSYCH 481	Introduction to Clinical Psychology
PSYCH 482	Selection and Assessment in Organizations
PSYCH 484	Work Attitudes and Motivation
PSYCH 485	Leadership in Work Settings
<i>Capstone Experience</i>	
PSYCH 439	History and Systems of Psychology
PSYCH 490	Senior Seminar in Psychology
PSYCH 493	Senior Thesis
PSYCH 494	Research Projects
PSYCH 495	Internship
PSYCH 496	Independent Studies

Select 12 credits of additional Psychology courses from any offered for a total of 30 credits of Psychology courses beyond PSYCH 100 and PSYCH 301W 12

Requirements for the Option

Requirements for the Option: Require a grade of C or better

Select an option 24

¹ Must select at least 15 credits at the 400-level.

Requirements for the Option**Science Option (24 credits)**

Available at the following campuses: Altoona, Beaver, Berks, Brandywine, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, York

Select 3 credits in social and behavioral sciences from department list 3

¹ MATH 22 or MATH 110 recommended.**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

Beaver and Scranton Campuses

- **Foundational Knowledge:** Students will demonstrate knowledge of major psychological concepts, theories, and empirical findings.
- **Application:** Students will demonstrate the ability to apply psychological concepts and theories to research and real-life situations.
- **Critical and Creative Thinking:** Students will use critical and creative thinking, skeptical inquiry, and the scientific approach to solve problems related to behavior and mental processes.
- **Scientific Literature:** Students will demonstrate critical thinking in the analysis, evaluation, and interpretation of information in the scientific literature to distinguish the scientific literature from other sources.
- **Communication:** Students will communicate effectively (in writing and/or orally) the results of a project or internship.
- **Research Writing:** Students will demonstrate the ability to effectively extract central points and summarize psychological research literature and to write in the format of psychological research.
- **Research Methods:** Students will differentiate among the research methods used in psychology and apply the designs in evaluation or development of a research study.
- **Analysis:** Students will demonstrate the ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables.
- **Culture Diversity:** Students will show evidence of knowledge and appreciation for cultural diversity and relativity in human experience and for the complexity of human behavior and interactions.
- **Ethics:** Students will demonstrate knowledge, and the application of, basic principles of scientific and professional ethics.
- **Professionalism:** Students will demonstrate sensitivity to ethical concerns and professionalism (including cultural considerations) in settings where applications of psychology and/or psychological research occur.
- **Professional Options:** Students will demonstrate knowledge of professional options and required training for careers in the major subfields of psychology.
- **Career Options:** Students will demonstrate the ability to identify personally-relevant career options to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings.

Brandywine Campus

- **Communication:**
 - Students will demonstrate effective writing for different purposes.
 - Students will exhibit effective presentation skills for different purposes.
 - Students will interact effectively with others.
- **Ethical & Social Responsibility in a Diverse World:**
 - Students will apply ethical standards to evaluate psychological science and practice.
 - Students will build and enhance interpersonal relationships.
 - Students will adopt values that build community at local, national, and global levels.
- **Knowledge Base:**
 - Students will describe key concepts, principles, and overarching themes in psychology.

- Students will develop a working knowledge of psychology's content domains.
- Students will describe applications of psychology.
- **Professional Development:**
 - Students will apply psychological content and skills to career goals.
 - Students will exhibit self-efficacy and self-regulation.
 - Students will refine project-management skills.
 - Students will enhance teamwork capacity.
 - Students will develop meaningful professional direction for life after graduation.
- **Research Skills:**
 - Students will differentiate among the research methods used in psychology and apply the designs in evaluation or development of a research study.
 - Students will demonstrate the ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables.
- **Scientific Inquiry & Critical Thinking:**
 - Students will use scientific reasoning to interpret psychological phenomena.
 - Students will demonstrate psychology information literacy.
 - Students will engage in innovative and integrative thinking and problem solving.
 - Students will interpret, design, and conduct basic psychological research.
 - Students will incorporate sociocultural factors in scientific inquiry.

Fayette Campus

- **Human Behavior:** Students will connect specific human behaviors to the many broad areas of psychology.
- **Professional:** Students will relate applications of psychology to specific professions associated with psychology.
- **Research:** Students will describe and apply the steps of the scientific method.
- **Theory:** Students will summarize the scientific principles of psychology, including its history and major theoretical principles.

Greater Allegheny and Hazleton Campuses

- **Career-Related Skills:**
 - Students will demonstrate knowledge of professional options and required training for careers in the major subfields of psychology
 - Students will demonstrate the ability to identify personally-relevant career options to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings.
- **Communication Skills:**
 - Students will communicate effectively (in writing and/or orally) the results of a project or internship.
 - Students will demonstrate the ability to effectively extract central points and summarize psychological research literature and to write in the format of psychological research.
- **Content Knowledge:**
 - Students will demonstrate knowledge of major psychological concepts, theories, and empirical findings.
 - Students will demonstrate the ability to apply psychological concepts and theories to research and real life situations.

- **Diversity and Ethical Considerations:**
 - Students will show evidence of knowledge and appreciation for cultural diversity and relativity in human experience and for the complexity of human behavior and interactions.
 - Students will demonstrate knowledge, and the application of, basic principles of scientific and professional ethics.
 - Students will demonstrate sensitivity to ethical concerns and professionalism (including cultural considerations) in settings where applications of psychology and/or psychological research occur.
- **Research Skills:**
 - Students will differentiate among the research methods used in psychology and apply the designs in evaluation or development of a research study.
 - Students will demonstrate the ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables.
- **Thinking Skills:**
 - Students will use critical and creative thinking, skeptical inquiry, and the scientific approach to solve problems related to behavior and mental processes.
 - Students will demonstrate critical thinking in the analysis, evaluation, and interpretation of information in the scientific literature to distinguish the scientific literature from other sources.

Lehigh Valley Campus

- **Communication:** Communicate effectively in writing using APA style correctly.
- **Critical Thinking:** All students will demonstrate critical thinking in the analysis, evaluation, and interpretation of information in the scientific literature and to distinguish the scientific literature from other sources.
- **Cultural Diversity:** All students will show evidence of knowledge and appreciation for cultural diversity and relativity in human experience and for the complexity of human behavior and interactions.
- **Data Analysis:** All students will demonstrate an ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables in Psych 301W.
- **Knowledge:** All students will demonstrate knowledge of major psychological concepts, theories, and empirical findings.

Mont Alto Campus

- **Empathy Skills:** Psychology majors will demonstrate a sense of empathy, the ability to understand someone else's experience.
- **Interpersonal Relationships:** Psychology majors will build and enhance interpersonal relationships and adopt values that build community at local, national, and global levels by understanding that other sides of an argument.
- **Preparation for Working with Diverse Experiences:** Students will be prepared to work with individuals and families with different experiences from their own.
- **Preparation for Working with Underrepresented Groups:** Student will demonstrate a sense of preparation for working with underrepresented groups.

New Kensington Campus

- **Career-Related Skills:** Preparing students for careers upon graduation.

- **Critical Thinking:** Use critical thinking to solve problems & distinguish scientific from non-scientific.
- **Data Analysis and Problem Solving:** Demonstrate the ability to analyze and interpret quantitative and qualitative data.
- **Effective Communication:** Demonstrate competence in comprehending, reading, writing, and orally communicating research.
- **Ethical Awareness:** Demonstrate knowledge and the application of professional ethics.
- **Experience Other Cultures:** Students immerse themselves into another culture by attending an event (e.g., religious service) outside their own ethnic/religious/sexual orientation/SES group.
- **Knowledge/Application:** Demonstrate knowledge and application of major concepts and theories.
- **Research Competence:** Differentiate among the research methods.

Schuylkill Campus

- **Ability to prepare presentations in APA style:**
 - Ability to prepare papers that review past research on behavioral topics
 - Ability to prepare research reports in APA style
 - Ability to prepare conference presentations
- **Understanding ethics and application in psychology:**
 - Understanding of ethical guidelines for research and applied psychologists
 - Ability to apply psychological theories in community organizations
- **Understanding of basic behavioral research methods:**
 - Understanding basic research methods for psychology and their limitations
 - Ability to design basic research projects to study predictors of behavior
 - Understanding basic statistics to analyze behavioral data
 - Ability to search Library databases for research on behavioral topics
- **Understanding of the variety of behavior problems and treatment options:**
 - Understanding of DSM diagnostic terminology for behavior problems
 - Understanding of variety of treatment approaches for behavior problems
- **Understanding of the variety of theories to explain human behavior:**
 - Understanding of variety of psychological theories to explain behavior
 - Understanding of the impact of diversity on human behavior

York Campus

- **Critical Thinking:** Use critical thinking to solve problems & distinguish scientific from non-scientific.
- **Data Analysis and Problem Solving:** Demonstrate the ability to analyze and interpret quantitative and qualitative data.
- **Effective Communication:** Demonstrate competence in comprehending, reading, writing, and orally communicating research.
- **Ethical Awareness:** Demonstrate knowledge and the application of professional ethics.
- **Knowledge/Application:** Demonstrate knowledge and application of major concepts and theories.
- **Research Competence:** Differentiate among the research methods.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Beaver Campus

Business Option: Psychology, B.S. at Beaver Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
PSYCH 100*	3 PSYCH 200 Level*	3
General Education Course (GHW)	1.5 Business Option Course*	3

Total Credits 116-119

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Science Option: Psychology, B.S. at Beaver Campus

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

¹ Students must take 30 credits in PSYCH. Among these, students must take at least 15 credits at the 400-level and at least 3 credits in each of six categories: Learning and Cognition; Social and Personality Psychology; Biological Bases of Behavior; Developmental Psychology; Applied and Clinical Psychology; Capstone Experience.

Consult the Psychology Program Coordinator for specific course options.

² BS Business Option students must take 24 credits in business option courses. **Consult Psychology Program Coordinator for a list of course selections.**

³ During the fourth year, students must choose one capstone course from 5 options: PSYCH 490 Senior Seminar, PSYCH 493 Senior Thesis, PSYCH 494 Research Project, PSYCH 495 Psychology Practicum (internship), or PSYCH 496 Independent Studies. Students must consult the Psychology Program Coordinator about prerequisites and requirements for these courses before registering. PSYCH 495 Psychology Practicum requires planning one semester in advance of starting the internship.

⁴ PSYCH 301W satisfies the Writing Across the Curriculum requirement

Science Option: Psychology, B.S. at Hazleton Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Integrative Studies (either Inter-domain or Linked Courses)

Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

University Requirements and General Education Notes:

Scranton Campus

Business Option: Psychology, B.S. at Scranton Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Foundations courses (GWS and GQ) require a grade of 'C' or better.

¹ Students must take 30 credits in PSYCH beyond PSYCH 100 and PSYCH 301W. Among these, students must take at least 15 credits at the 400-level and at least 3 credits in each of six categories: Learning and Cognition; Social and Personality Psychology; Biological Bases of Behavior; Developmental Psychology; Applied and Clinical Psychology; Clapstone Experience. Consult the Psychology Program Coordinator for specific course options.

² BS Business Option students must take 24 credits of option-specific courses. Consult Psychology Program Coordinator for a list of course selections.

³ During the fourth year, students must choose one capstone course from 5 options: PSYCH 490 Senior Seminar, PSYCH 493 Senior Thesis, PSYCH 494 Research project, PSYCH 495 Psychology Practicum (internship), or PSYCH 496 Independent Studies. Students must consult the Psychology Program Coordinator about prerequisites and requirements for these courses before registering. PSYCH 495 Psychology Practicum requires planning one semester in advance of starting the internship. During the fourth year, students must choose one capstone course from 5 options: PSYCH 490 Senior Seminar, PSYCH 493 Senior Thesis, PSYCH 494 Research project, PSYCH 495 Psychology Practicum (internship), or PSYCH 496 Independent Studies. Students must consult the Psychology Program Coordinator about prerequisites and requirements for these courses before registering. PSYCH 495 Psychology Practicum requires planning one semester in advance of starting the internship.

Career Paths

Graduates of our program enter the workforce or pursue additional education in a variety of programs, including both Master's and PhD programs in experimental, counseling, school, and clinical psychology.

Radiological Sciences, A.S.

Begin Campus: New Kensington, Schuylkill

End Campus: New Kensington, Schuylkill

Program Description

For students interested in pursuing an education in the paramedical field of radiography (radiologic technology), the radiological sciences major meets the educational and clinical requirements for the graduate to function as an entry-level radiographer. Required course work is divided into three interrelated areas including general education, radiography specific, and clinical education components. During the clinical education component, students perform radiographic exams under the directed supervision of certified radiographers at multiple area clinical education settings. The clinical component emphasizes the concepts of team practice and patient-centered care. Both the radiography-specific course work and the clinical component are structured sequentially over six consecutive semesters, commencing each fall semester. Upon successful completion of the associate degree, the graduate will be eligible to attempt the American Registry of Radiologic Technologists (ARRT) examination for certification.

What is Radiological Sciences?

Radiography is a science combining medical imaging technology with empathetic patient care. Radiologic technologists, often referred to as radiographers, apply their knowledge of physics, human anatomy and physiology to create permanent radiographic images that assist in the examination, diagnosis and treatment of medical conditions in the body. These imaging professionals provide a wide range of services using technology founded on theoretical knowledge and scientific concepts. As a part of the healthcare team, the radiographers provide patient care using safe radiation practices; operate sophisticated technical equipment; exercise independent judgment; and make informed decisions daily. All program graduates are prepared, both academically and clinically, to join a healthcare team.

You Might Like This Program If...

- You have a desire to help people and a passion for patient care.
- You want to pursue a career that includes math and sciences.
- You want to be a part of diagnosis and treatment of patients.
- You want to pursue a rewarding career in healthcare.
- You thrive in a field where technology is ever evolving.
- You have a passion for lifelong learning.

Entrance to Major

Incoming first-year students who meet the program and campus admission requirements are admitted directly into the major. For more information about the admission process for this major, please send

a request to the campus undergraduate admissions office or to the program contact (listed in the Contact tab).

Change of Major and Change of Location requests are submitted via LionPATH Update Academics and require Dean's review. Requests will be considered for entrance into the Radiological Sciences program based on academic performance and space available.

Additional Information

Radiologic Science students are required to submit criminal background records, must have a complete physical, including documentation of required immunizations, Hepatitis B vaccine, current Tuberculosis (TB) screening test, routine drug testing, COVID -19 (FULLY VACCINATED) and other medical tests as required by clinical facilities. Students are required to purchase liability insurance.

Retention Requirements

This policy delineates the academic standards students admitted to the undergraduate Radiological Sciences Program. The following requirements are necessary for progression in the RADSC program.

Overall Criteria:

1. Required RADSC courses may only be repeated once.
2. Successful completion of required RADSC courses is defined as a "C" or better according to the Radiological Sciences grading scale.
3. All RADSC courses are sequential in nature and must be completed with a "C" or better to progress with the program. Students who do not maintain a "C" or better will be on an automatic academic stop-out according to RADSC policy and procedure. Students requesting a stop-out procedure must follow the RADSC policy and procedure.
4. A student who earns a "D" or "F" in the required RADSC course for a second time will be dismissed from the RADSC major and counseling relative to other majors/options will be provided.
5. Late course drop, with the designation of withdraw failing (WF), from a required RADSC course is considered a failure.
6. Students who wish to return to the RADSC program after a stop-out will re-enter under the current curricular requirements. Clinical assignments will depend on availability of clinical space.

Degree Requirements

For the Associate in Science degree in Radiological Sciences, a minimum of 67 credits is required:

Requirement	Credits
General Education	21
Requirements for the Major	61

15 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GH courses; 6 credits of GN courses; 3 credits of GS; 3 credits of GWS courses.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

RADSC 295F	Radiologic Science Clinical Internship VI	

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 3 credits
- **Writing and Speaking (GWS):** 3 credits

Knowledge Domains

- **Arts (GA):** 3 credits
- **Humanities (GH):** 3 credits

- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Note: Up to six credits of Inter-Domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

- **Any General Education course (including GHW and Inter-Domain):** 3 credits

University Degree Requirements**Cultures Requirement**

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 60 degree credits must be earned for an associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives**New Kensington Campus****Practice as Entry Level Technologists**

1. The student will provide proper radiation protection.
2. The student will demonstrate proper positioning skills.
3. The student will evaluate diagnostic images.

Effectively Communicate in the Healthcare Environment

1. The student will demonstrate effective written communication skills.
2. The student will provide effective oral communication skills.
3. The student will treat patients with compassion.

Think Critically and Apply Problem Solving Skills in the Healthcare Environment

1. The student will manipulate technical factors to produce diagnostic images.
2. The student will modify procedures to meet patient needs.

Understand and Promote the Importance of Professional Growth and Development

1. The student will demonstrate professional behavior and participate in professional organizations.
2. The student will develop a career portfolio and plan for compliance within the profession.

Schuylkill Campus

Students will communicate effectively in the clinical setting

1. Students will use effective oral communication skills
2. Students will practice written communication skills

Students will demonstrate clinical competence consistent with an entry level radiographer

1. Students will apply radiographic positioning skills
2. Students will select appropriate technical factors
3. Students will demonstrate radiation protection

Students will gain an awareness of the importance of professional growth and development

1. Students will demonstrate knowledge of professional societies.
2. Students will research and present advancements in medical imaging.

Students will demonstrate critical thinking and problem-solving skills

1. Students will adequately provide age appropriate patient care
2. Students will exercise independent judgment and discretion in the technical performance of medical imaging procedures
3. Students will successfully complete trauma and multi-case competencies

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Career Paths

Students graduating from this program may apply their credits earned toward a Bachelor of Science degree in Applied Health Studies at the Pennsylvania College of Technology, which will help further their careers in management or education.

Penn State also offers degree opportunities for students wishing to complete a baccalaureate degree including Health Policy and Administration.

Upon program completion, graduates meeting all eligibility and ethics requirements will be eligible to take the American Registry of Radiologic

Technologists certification examination in radiography. Registered radiologic technologists may pursue various career options or complete advanced training to perform radiography, and advanced modalities including MRI, CT, Mammography, Interventional Radiography, and Cardiac Catheterization.

Careers

Radiologic technologists are needed in a variety of professional settings, including hospitals, healthcare facilities, physician offices, and research centers. Radiologic technologists may also pursue career opportunities in equipment sales and education. Careers in radiography offer flexible work schedules that accommodate various lifestyles and employment needs. Opportunities exist to pursue advanced degrees. Program coordinators often assist students in their quest to identify potential schools and programs to continue their studies and further their professional development.

Opportunities for Graduate Studies

Students graduating from this program may apply their credits earned toward a bachelor's of science degree in Applied Health Studies at the Pennsylvania College of Technology, which will help further their careers in management or education.

Professional Resources

- Pennsylvania Society of Radiologic Technologists (PSRT) (<https://psrtonline.org>)
- American Society of Radiologic Technologists (ASRT) (<https://www.asrt.org/>)
- American Registry of Radiologic Technologists (ARRT) (<https://www.arrt.org>)
- The Joint Review Committee on Education in Radiologic Technology (JRCERT) (<https://www.jrcert.org>)

Accreditation

Penn State recognizes the need for continuous program assessment. The Radiologic Sciences program at both New Kensington and Schuylkill are fully accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The JRCERT provides programmatic accreditation and ensures the Radiological Sciences Program follows established standards. The JRCERT is the only agency recognized by the United States Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA), for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry.

The JRCERT can be contacted at:

The Joint Review Committee on Education in Radiologic Technology
20 N. Wacker Drive, Suite 2850 Chicago, IL 60606-3182, Phone:
312-704-5300, www.jrcert.org (<https://www.jrcert.org/>).

Recreation, Park, and Tourism Management, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Greater Allegheny

Program Description

The program prepares students for supervisory and administrative positions with park systems, environmental centers, commercial recreation and tourism agencies, golf courses, hospitals and assisted living facilities, private voluntary agencies, schools and colleges, and other commercial, nonprofit, and public organizations that provide recreation and leisure services. The program combines a broad educational foundation with specific courses designed to accommodate career interests in recreation, park, and tourism management. The program helps students gain the theoretical, managerial, technical, and experiential skills they need to become the next generation of leaders in the field. Additionally, students obtain real-world experience through our internship experiences.

Four (4) options are offered:

Commercial Recreation and Tourism Management Option

Available at the following campuses: Abington, Greater Allegheny, University Park, World Campus

This option focuses on management in the private/commercial, non-profit, and public sectors of recreation/leisure services. The private/commercial focus will be of interest to students seeking careers in a variety of commercial settings such as resorts; theme parks, convention centers; sports and fitness facilities, including arenas and stadiums; tourism promotion/planning agencies; and employee recreation departments within corporations. This focus will also appeal to students wishing to become entrepreneurs.

Community Recreation Management Option

Available at the following campuses: Abington, Greater Allegheny, University Park, World Campus

For those interested in the community, public, or non-profit sectors for positions within municipal, state, and federal government agencies; recreation divisions of the armed services; YMCA agencies; United Way agencies; scouting organizations; university-affiliated units such as student unions, intramural and alumni services; and other non-profit organizations.

Professional Golf Management Option

Available at the following campuses: University Park

Accredited by the Professional Golfers' Association of America, the Professional Golf Management Option prepares students for careers in the golf industry. Students will be prepared to assess leadership and management principles including customer service, interpersonal skills, business communication, conflict resolution, time management, negotiating, project management, marketing, and community relations. In addition to the core curriculum, the program has a strong business focus and is drawn from several nationally recognized academic disciplines on campus.

Outdoor Recreation Management Option

Available at the following campuses: University Park

This option prepare students for careers in Park Management and Environmental Interpretation (PMEI), Adventure Recreation, or in both fields. The Adventure Recreation pathway emphasizes outdoor experiential leadership, including wilderness experiences and personal development. The PMEI pathway focuses on natural and cultural history environmental interpretation and education and the social science of conservation. The third pathway provides a flexible route for students to combine parts of the Adventure Recreation and PMEI pathways to create a meaningful personalized set of courses that could include study abroad experiences and prepare students for international contexts of recreation management. The Outdoor Recreation Management option is of interest to students seeking employment in a variety of outdoor recreation and park settings (local, state, and national from urban to wilderness) offering outdoor activities and personal development to the public.

What is Recreation, Park and Tourism Management?

Recreation, Park and Tourism Management students learn how to manage and lead in a variety of organizations to help humans derive benefits from leisure activities. Students learn about a disciplinary and interdisciplinary perspectives to better understand the natural, psychological, social, economic, political and cultural systems that influence human behavior in the context of recreation, park and tourism. Core business and management skills are applied to the types of organizations in the recreation, park and tourism sectors. This approach enables students to address issues of human well-being and sustainable development in leading and managing these organizations. Our mission is to transform human health and well-being through engaging people in recreation, park, tourism and leisure activities.

MORE INFORMATION ABOUT RECREATION, PARK, AND TOURISM MANAGEMENT (<https://hhd.psu.edu/rptm/>)

You Might Like This Program If...

- You like working with people in a hands-on learning environment that involves recreation, parks, sustainability and leisure.
- You enjoy business, management or entrepreneurship and a career setting focused on the outdoors, entertainment, sports, fitness, or events.
- You like building community through organizing recreation programs for young people, families, those in the military or older persons.
- You enjoy tourism, visiting new places, meeting new people, and helping others travel and learn about other cultures.

Entrance to Major

Students who have completed 29.1 credits with a 2.00 cumulative grade-point average are eligible for entrance into the major, except for the Professional Golf Management option.

First-year students are admitted directly into the Golf Management option at the University Park campus only. In addition to the University's academic requirements, each student admitted to the Golf Management option must have a playing proficiency represented by a minimum golf handicap of 12 or lower. This must be certified in writing by a Professional Golf Association member or golf coach.

Degree Requirements

For the Bachelor of Science degree in Recreation, Park, and Tourism Management, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	4-14
Requirements for the Major	64-71

3-4 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 0-3 credits of GS courses; 0-4 credits of GQ courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. RPTM requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Suggested Academic Plan for this major.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

Careers in Recreation, Park and Tourism Management (RPTM) include management positions in commercial resorts, event management businesses, golf courses and golf industry businesses, national and local park systems, environmental centers, outdoor adventure businesses and sports, fitness and recreation facilities in communities, universities, workplaces, military settings, and other locations. Graduate programs in RPTM educate students about research, theory and practice related to leisure and recreation of individuals and groups, including societal and cross-cultural dimensions. RPTM students can also use their degree to prepare for additional graduate training in public health, public administration, public policy, health administration, business or law.

Careers

Careers for RPTM graduates typically fit with the options within the degree program, including positions in:

- Commercial Recreation, Event and Tourism Management positions such as resort and cruise recreation director, travel and tourism management, corporate recreation and events planning, and sport and fitness venue management, including our Professional Golf Management option.

- Community and Nonprofit Recreation Management positions, including roles in community recreation centers, military recreation leadership, youth camp or senior center management and related positions.
- Outdoor Adventure and Natural Resource Management positions, such as park ranger, environmental or outdoor educator, wilderness program supervisor and outdoor recreation planner, among others.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE RECREATION, PARK, AND TOURISM MANAGEMENT PROGRAM (<https://hhd.psu.edu/rptm/undergraduate/career-opportunities/>)

Opportunities for Graduate Studies

Whether you are looking for a master's degree or your doctorate in RPTM, our multi-disciplinary graduate program is designed to educate students about research, theory and practice related to recreation, parks, tourism and leisure. Both the master of science (M.S.) and the doctor of philosophy (Ph.D.) programs help you develop an understanding of the social, environmental, psychological and economic aspects of human behavior in relation to the experience and delivery of recreation, park, tourism and leisure activities.

Rehabilitation and Human Services, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Hazleton, Lehigh Valley, Wilkes-Barre

Program Description

This RHS major helps prepare students for entry-level positions in a variety of human service settings, particularly settings that provide services to persons with physical, emotional, and/or mental disabilities. Graduates pursue employment in a variety of settings including rehabilitation hospitals, drug and alcohol programs, geriatric service centers, community mental health programs, programs for people with intellectual disabilities, justice system, and schools. Increasing opportunities are available in private for-profit insurance programs for the industrially injured, and in employee assistance programs within business and industry. Well-planned use of electives and internships allows for specialization. The internship is provided under the supervision of professionals in human service agencies. These intensive "hands-on" experiences are frequently avenues for employment since the internship is completed during the senior year. Students may not go on internship until they have successfully completed all other course work. Students are encouraged to participate in volunteer experiences that provide opportunities to work with people with disabilities. Students are encouraged to declare a minor in a related area and should be discussed with the student's adviser. The major also helps prepare students for graduate study in many human service professional disciplines such

as rehabilitation counseling, school counseling, occupational therapy, physical therapy, and social work.

You Might Like This Program If...

You enjoy learning about human development, diversity, health and disability, treatment interventions, advocating and working directly with people, and solving individual problems using applied interpersonal skills.

Entrance to Major

Baccalaureate degree candidates must have a minimum 2.0 GPA to be admitted to the Rehabilitation and Human Services (RHS) major; thereafter, students must earn a C or better in all RHS required courses.

Degree Requirements

For the Bachelor of Science degree in Rehabilitation and Human Services, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	17
Requirements for the Major	70-72

12-14 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GS courses; 3-4 credits of GQ courses; 3-4 credits of GN courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
PSYCH 100	Introductory Psychology	3
PSYCH 270	Introduction to Abnormal Psychology	3
SOC 119N	Race, Ethnicity and Culture	4
<i>Prescribed Courses: Require a grade of C or better</i>		
RHS 100	Introduction to Disability Culture	3
RHS 300	Introduction to Rehabilitation and Human Services	3
RHS 301	Introduction to Counseling as a Profession	3
RHS 302	Client Assessment in Rehabilitation and Human Services	3
RHS 303	Group Work in Rehabilitation Practice and Human Services	3
RHS 400W	Case Management and Communication Skills	3
RHS 401	Community Mental Health Practice and Services	3
RHS 402	Children and Families in Rehabilitation Settings and Human Services	3
RHS 403	Medical Aspects of Disability	3
RHS 493	Professional Development and Internship Preparation in RHS	3
RHS 495A	Rehabilitation and Human Services Internship	12
Additional Courses		
CI 185 or SOC 1	Principles of Social Justice in Education Introductory Sociology	3

Select one of the following: 3

EDPSY 10	Individual Differences and Education
HDFS 239	Adolescent Development
PSYCH 212	Introduction to Developmental Psychology

Select 3-4 credits from the following: 3-4

ANTH 21	Introductory Biological Anthropology
BIOL 110	Biology: Basic Concepts and Biodiversity
BIOL 133	Genetics and Evolution of the Human Species
BIOL 141	Introduction to Human Physiology
BISC 1	Structure and Function of Organisms
BISC 2	Genetics, Ecology, and Evolution
BISC 3	Environmental Science
BISC 4	Human Body: Form and Function

Additional Courses: Require a grade of C or better

Select one of the following: 3-4

EDPSY 101	Analysis and Interpretation of Statistical Data in Education
STAT 100	Statistical Concepts and Reasoning
STAT 200	Elementary Statistics

Supporting Courses and Related Areas

Select 6 credits from the approved courses in this list: 6

CNED 401	Foundations of Chemical Dependency Counseling
CNED 416	Interpersonal Relationships and Alcohol and Other Drugs (AOD) Dependency
CNED 421	Counseling Strategies for Preventing Chemical Dependency
CNED 422	Foundations of Addictions Counseling
RHS 226	College Student Mental Health and Wellness
RHS 410	Employment Strategies for People with Disabilities
RHS 428	Rehabilitation in the Justice System
RHS 433	Trauma-informed care for school & human service professionals
SPLED 400	Inclusive Special Ed Foundations: Legal, Characteristics, Collaboration, Assessment, and Management
SPLED 461	Introduction to Autism Spectrum Disorders: Issues and Concerns

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN,** may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or

within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Assessment & Empowerment:** Students will appropriately, systematically, and accurately assess clients for a range of strengths and needs and make recommendations for services to address those needs and increase client self-sufficiency and empowerment.
- **Communication & Professionalism:** Students will communicate effectively in a professional manner by producing articulate and well-researched documents and delivering effective presentations.
- **Disability:** Students will demonstrate knowledge of theoretical models of disability, definitions of disability, barriers that exist for people with disabilities (including employment barriers), systemic challenges and economic disadvantages caused by disability.
- **Discrimination & Advocacy:** Students will demonstrate knowledge of discrimination against individuals with disabilities, legislative efforts to curtail such discrimination and advocacy resources.
- **Legal & Ethical Issues:** Students will demonstrate knowledge of ethical codes and professional conduct, and the applicable federal and state regulations.
- **Professional Conduct:** Students will interact productively and professionally with a team of stakeholders as both a leader and a member.
- **Professional Ethics:** Students will practice professional, ethical, and social behaviors, which demonstrate nondiscrimination, empathy, and respect for diversity and knowledge of contemporary professional and societal issues.
- **Relationship Building Skills:** Students will develop a facilitative relationship with clients and their families through individual and group sessions.
- **Services & Resources:** Students will demonstrate working knowledge and locate appropriate resources for individuals and families with a variety of needs (e.g., vocational rehabilitation systems, centers for independent living, transition programs substance abuse and addiction treatment programs and other community-based support programs to address client needs).
- **Treatment Plans/ Integration:** Students will develop and monitor treatment plans by applying principles for community inclusion and integration including, but not limited to, rehabilitation and recovery philosophy, client exploration of resources, and collaboration with agencies and related professionals.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

The RHS major provides excellent preparation specifically for graduate programs leading to professions such as occupational therapy, counseling, social work, and physical therapy. Advising of courses outside the major for electives are provided in order to enhance competitiveness of graduate school applications.

MORE INFORMATION ABOUT RHS SPECIAL INTEREST AREAS (<https://ed.psu.edu/rehabilitation-human-services-bs/>)

Careers

RHS allows students to pursue a variety of employment options as case workers and direct service providers in alcohol and other drug treatment centers, correctional facilities, mental health agencies, private non-profit rehabilitation centers, private-for-profit rehabilitation agencies, human resources, programs for children and youth, programs for older adults, public welfare agencies, rehabilitation hospitals, schools, social service agencies, and vocational rehabilitation programs.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE REHABILITATION AND HUMAN SERVICES PROGRAM (<https://ed.psu.edu/rehabilitation-human-services-bs/>)

Opportunities for Graduate Studies

To prepare students for graduate studies, students can work with faculty on independent studies and can petition to take graduate courses within the department. For qualified students, we also offer the Schreyer Honors Program (<https://www.shc.psu.edu/>).

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (<https://ed.psu.edu/rehabilitation-human-services-bs/>)

Accreditation

The College of Education educator preparation programs are fully accredited at the Initial and Advanced levels by the Council for the Accreditation of Educator Preparation (CAEP). The next CAEP program review will be Fall 2026. CAEP advances excellence in educator preparation through evidence-based accreditation that assures quality and supports continuous improvement to strengthen P-12 student learning.

Social Work, B.S.W.

Begin Campus: Any Penn State Campus

End Campus: Greater Allegheny

Program Description

The Bachelor of Social Work major provides broad-based educational experiences for undergraduate students interested in working in the private and public sector to provide social services for diverse people and communities. Students will learn to critically engage in social problems by understanding the cultural, economic, environmental, and historical conditions individuals and groups face, and they will be prepared to promote individual, family, and community well-being. Students will be engaged in the scholarly study of social issues, and they will have clinical experiences in community-based organizations, foundations, and government offices.

What is Social Work?

The primary mission of the social work profession is to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's dual focus on individual well-being in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living. Social workers promote social justice and social change with and on behalf of clients. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice.

(National Association of Social Workers, 2022)

You Might Like This Program If...

- You have a desire to promote social justice and social change in society
- You enjoy engaging with diverse individuals, families, groups, organizations, and communities
- You are enthusiastic about helping others cope effectively during challenging times
- You are passionate about alleviating poverty and improving living conditions
- You are interested in helping people manage acute medical conditions, chronic stress, and illnesses
- You are fascinated about providing mental health and substance use treatment services

Entrance to Major

Entry to the Social Work major requires:

- the completion of the following four entry-to-major courses with a C or higher grade: SOCW 195, SOCW 205, SOCW 215, SOCW 290
- a cumulative grade point average of 2.0 or higher
- a minimum of 29.1 credits

Degree Requirements

For the Bachelor of Social Work degree in Social Work, a minimum of 122 credits is required:

Requirement	Credits
General Education	45
Electives	7
Requirements for the Major	92

22 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GWS courses; 4 credits of GQ courses; 3 credits of GHW courses; 6 credits of GS courses.

REQUIREMENTS FOR THE MAJOR

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
BBH 143	Drugs, Behavior, and Health	3
HDFS 301	Values and Ethics in Health and Human Development Professions	3
PSU 8	First-Year Seminar University College	1
PSYCH 100	Introductory Psychology	3
PSYCH 270	Introduction to Abnormal Psychology	3
SOC/HDFS/CMAS 258N	Introduction to Child Maltreatment and Advocacy Studies	3
<i>Prescribed Courses: Require a grade of C or better</i>		
CAS 100	Effective Speech	3
ENGL 15	Rhetoric and Composition	3
ENGL 202A	Effective Writing: Writing in the Social Sciences	3
PUBPL 304W	Public Policy Analysis	3
SOCW 195	Introduction to Social Work with Field Hours	3
SOCW 205	Diversity, Equity, Inclusion, and Justice	3
SOCW 215	Introduction to Social Welfare History, Policy, Programs, and Services	3
SOCW 290	Human Behavior and the Social Environment	3
SOCW 300	Social Work Methods - Individuals	3
SOCW 301	Social Work Methods - Groups	3
SOCW 302	Social Work Methods - Families	3
SOCW 303	Methods - Communities & Organizations	3
SOCW 315	Assessment, Documentation, and Effective Interviewing Skills in Social Work	3
SOCW 407	Research Methods in Social Work	3
SOCW 495A	Social Work - Internship	3
SOCW 495B	Social Work - Internship	9
STAT 200	Elementary Statistics	4
Additional Courses		
ECON 102	Introductory Microeconomic Analysis and Policy	3
or ECON 104	Introductory Macroeconomic Analysis and Policy	
RHS 433	Trauma-informed care for school & human service professionals	3
or PSYCH 442	Trauma and Resiliency	
Supporting Courses and Related Areas		
Select 3 credit Sociology Courses (SOC)		3
Select a 3 credit Political Science Course (PLSC)		3

Supporting Courses and Related Areas: Require a grade of C or better

Select 6 credits of Social Work 400-level courses 6

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Demonstrate Ethical and Professional Behavior:** Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the profession's history, its mission, and the roles and responsibilities of the profession. Social Workers also understand the role of other professions when engaged in inter-professional teams. Social workers recognize the importance of life-long learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice.
 - Social workers:
 - make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context;
 - use reflection and self-regulation to manage personal values and maintain professionalism in practice situations;
 - demonstrate professional demeanor in behavior; appearance; and oral, written, and electronic communication;
 - use technology ethically and appropriately to facilitate practice outcomes; and
 - use supervision and consultation to guide professional judgment and behavior.
- **Engage Diversity and Difference in Practice:** Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power.
 - Social workers:
 - apply and communicate understanding of the importance of diversity and difference in shaping life experiences in practice at the micro, mezzo, and macro levels;
 - present themselves as learners and engage clients and constituencies as experts of their own experiences; and
 - apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.
- **Advance Human Rights and Social, Economic, and Environmental Justice:** Social workers understand that every person regardless of position in society has fundamental human rights such as freedom, safety, privacy, an adequate standard of living, health care, and education. Social workers understand the global interconnections of oppression and human rights violations, and are knowledgeable about theories of human need and social justice and strategies to promote social and economic justice and human rights. Social workers understand strategies designed to eliminate oppressive structural barriers to ensure that social goods, rights, and responsibilities are distributed equitably and that civil, political, environmental, economic, social, and cultural human rights are protected.
 - Social workers:
 - apply their understanding of social, economic, and environmental justice to advocate for human rights at the individual and system levels; and
 - engage in practices that advance social, economic, and environmental justice.
- **Engage In Practice-informed Research and Research-informed Practice:** Social workers understand quantitative and qualitative research methods and their respective roles in advancing a science of social work and in evaluating their practice. Social workers know the principles of logic, scientific inquiry, and culturally informed and ethical approaches to building knowledge. Social workers understand that evidence that informs practice derives from multi-disciplinary sources and multiple ways of knowing. They also understand the processes for translating research findings into effective practice.
 - Social workers:
 - use practice experience and theory to inform scientific inquiry and research;
 - apply critical thinking to engage in analysis of quantitative and qualitative research methods and research findings; and
 - use and translate research evidence to inform and improve practice, policy, and service delivery.
- **Engage in Policy Practice:** Social workers understand that human rights and social justice, as well as social welfare and services, are mediated by policy and its implementation at the federal, state, and local levels. Social workers understand the history and current

structures of social policies and services, the role of policy in service delivery, and the role of practice in policy development. Social workers understand their role in policy development and implementation within their practice settings at the micro, mezzo, and macro levels and they actively engage in policy practice to effect change within those settings. Social workers recognize and understand the historical, social, cultural, economic, organizational, environmental, and global influences that affect social policy. They are also knowledgeable about policy formulation, analysis, implementation, and evaluation.

- Social workers:
 - Identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services;
 - assess how social welfare and economic policies impact the delivery of and access to social services;
 - apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.
- **Engage with Individuals, Families, Groups, Organizations, and Communities:** Social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers value the importance of human relationships. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to facilitate engagement with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand strategies to engage diverse clients and constituencies to advance practice effectiveness. Social workers understand how their personal experiences and affective reactions may impact their ability to effectively engage with diverse clients and constituencies. Social workers value principles of relationship-building and inter-professional collaboration to facilitate engagement with clients, constituencies, and other professionals as appropriate.
 - Social workers:
 - apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies; and
 - use empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.
- **Assess Individuals, Families, Groups, Organizations, and Communities:** Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness. Social workers recognize the implications of the larger practice context in the assessment process and value the importance of inter-professional collaboration in this process. Social workers understand how their personal experiences and affective reactions may affect their assessment and decision-making.
 - Social workers:
 - collect and organize data, and apply critical thinking to interpret information from clients and constituencies;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies;
- develop mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies; and
- select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies.
- **Intervene with Individuals, Families, Groups, Organizations, and Communities:** Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers are knowledgeable about evidence-informed interventions to achieve the goals of clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to effectively intervene with clients and constituencies. Social workers understand methods of identifying, analyzing and implementing evidence-informed interventions to achieve client and constituency goals. Social workers value the importance of inter-professional teamwork and communication in interventions, recognizing that beneficial outcomes may require interdisciplinary, inter-professional, and inter-organizational collaboration.
 - Social workers:
 - critically choose and implement interventions to achieve practice goals and enhance capacities of clients and constituencies;
 - apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in interventions with clients and constituencies;
 - use inter-professional collaboration as appropriate to achieve beneficial practice outcomes;
 - negotiate, mediate, and advocate with and on behalf of diverse clients and constituencies; and
 - facilitate effective transitions and endings that advance mutually agreed-on goals.
- **Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities:** Social workers understand that evaluation is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations and communities. Social workers recognize the importance of evaluating processes and outcomes to advance practice, policy, and service delivery effectiveness. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in evaluating outcomes. Social workers understand qualitative and quantitative methods for evaluating outcomes and practice effectiveness.
 - Social workers:
 - select and use appropriate methods for evaluation of outcomes;
 - apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the evaluation of outcomes;

- critically analyze, monitor, and evaluate intervention and program processes and outcomes; and
- apply evaluation findings to improve practice effectiveness at the micro, mezzo, and macro levels.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Social Work, B.S.W. at Greater Allegheny Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
PSU 8	1 SOCW 205 (GS) (US/IL) ^{*#}	3
SOCW 195 (GS) ^{*#}	3 ECON 102 or 104 (GS) [†]	3
ENGL 15 (GWS) ^{††}	3 CAS 100 (GWS) ^{††}	3
General Education Course (Sociology)	3 General Education Course (GN)	3
General Education Course (GA)	3 General Education Course (GA)	3
Elective	3	
	16	15

Second Year

Fall	Credits Spring	Credits
SOCW 215 (GS) (US) ^{*#}	3 SOCW 290 (GS) ^{*#}	3
PSYCH 100 (GS) [†]	3 BBH 143 (GHW) [†]	3
Political Science Course (US)	3 ENGL 202A (GWS) ^{*††}	3
General Education Course (GN)	3 General Education Course (GQ)	3
General Education Course (GH)	3 General Education Course (GN)	3
	15	15

Third Year

Fall	Credits Spring	Credits
SOCW 300 [*]	3 SOCW 302 [*]	3
SOCW 301 [*]	3 SOCW 303 [*]	3
PSYCH 270 (GS)	3 SOCW 315 [*]	3
SOC 258N (GS) (GHW)	3 HDFS 301	3
STAT 200 (GQ) ^{*††}	4 General Education Course (GH)	3
	16	15

Fourth Year

Fall	Credits Spring	Credits
SOCW 495A [*]	3 SOCW 495B [*]	9
SOCW 407 [*]	3 400-Level Social Work Supportive Course	3
RHS 433 or PSYCH 442	3 Elective	3
PUBPL 304W [*]	3	
400-Level Social Work Supportive Course	3	
	15	15

Total Credits 122

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- Students must have a minimum 2.00 cumulative GPA and complete and earn a C or higher grade in SOCW 195, SOCW 205, SOCW 215 and SOCW 290 for Entrance to Major.

Career Paths

Social workers work in a variety of settings, including mental health clinics, schools, child welfare, human service agencies, hospitals, group homes, community development corporations, and private practices. Advocacy is an important aspect of the social work profession. Social workers advocate or raise awareness with and on behalf of their clients and the profession on local, state, and national levels. Overall employment of social workers in the United States is projected to grow 12 percent from 2020 to 2030, faster than the average for all occupations. Nearly 78,300 openings for social workers are projected each year, on average, over the next 10 years.

(U.S. Bureau of Labor Statistics, 2021)

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE SOCIAL WORK PROGRAM (<https://www.bls.gov/ooh/community-and-social-service/social-workers.htm>)

Opportunities for Graduate Studies

Social work students who earn a BSW degree from accredited Council on Social Work Education programs may be eligible for advanced standing in MSW degree programs. With advanced standing, graduate social work students can earn an MSW degree in less than one year in select programs.

Accreditation

The Pennsylvania State University is currently seeking accreditation for the Bachelor of Social Work Program by the Council on Social Work Education (CSWE).

CSWE is a nonprofit national association in the United States representing more than 2,500 individual members, as well as graduate and undergraduate programs of professional social work education. Founded in 1952, this partnership of educational and professional institutions, social welfare agencies, and private citizens is recognized by the Council for Higher Education Accreditation as the sole accrediting agency for social work education in the United States.

Spatial Analysis and Engineering Design Principles, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

This certificate provides innovative instruction about the application of new design methods and processes in a variety of engineering disciplines. The certificate emphasizes how to use computer-aided design (CAD) software to create concise drawings to develop an effective design system to provide solutions for specific products, systems, components, or services. The certificate further investigates the significance of industry standards and the practices of spatial analysis and tolerance requirements in design. Contact Douglas Miller at Penn State DuBois, 814-375-4731 or djm290@psu.edu.

What is Spatial Analysis and Engineering Design Principles?

Spatial analysis and design combines both technical and design skills to aid in the development methods for solving engineering problems. Starting with the basic methods and ethics of engineering design and developing computer-aided design (CAD) skills, this program is intended to help develop drafting, design, and CAD skills.

You Might Like This Program If...

You are good with technology, enjoy investigating the design behind parts and components, have every disassembled machines or appliances to see how they work, or have an interest in computer-aided design (CAD) software.

Employment opportunities upon completion of the certificate program have included employers seeking draftsmen, designers, and assistant entry-level engineering and engineering technology level opportunities.

Program Requirements

To earn an undergraduate certificate in Spatial Analysis and Engineering Design Principles, a minimum of 7 credits is required.

Code	Title	Credits
Prescribed Courses		
EDSGN 100	Cornerstone Engineering Design	3
EDSGN 110	Spatial Analysis in Engineering Design	2
EDSGN 210	Tolerancing and Spatial Models	2

No Prerequisites Required.

Certificate Learning Objectives

- An ability to understand and apply the knowledge, techniques, skills, and modern tools of the engineering design processes.
- An understanding of spatial analysis techniques using advanced computer-aided design (CAD).
- An understanding of measurement techniques and importance of tolerances.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Supply Chain Management, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The certificate program in logistics and supply chain management introduces you to key concepts in the field, such as systems analysis, trade-off analysis, transport systems, procurement, inventory management, and supply chain integration and strategy. The program provides an overview of logistics and supply chain management and addresses the needs of manufacturers, wholesalers, retailers, merchandisers, transportation and warehousing firms, and government agencies. The implications of e-commerce in relation to supply chain management are also explored.

What is Supply Chain Management?

Supply chain management pertains to the flow of goods and services. It includes the movement and storage of raw materials, work-in-process inventory, and finished goods from point of origin to point of consumption.

You Might Like This Program If...

- You enjoy thinking about process and organization within business.
- You want an introduction to supply chain management that you can earn in a short time.
- You want to add supply chain skills to your major program of study.

Program Requirements

To earn an undergraduate certificate in Supply Chain Management, a minimum of 12 credits is required.

Code	Title	Credits
Prescribed Courses		
SCM 301	Supply Chain Management	3
SCM 320	Transport Systems	3
SCM 416	Warehousing and Terminal Management	3
SCM 460	Purchasing and Materials Management	3

Prerequisites Required.

Certificate Learning Objectives

- **Facility Planning and Warehouse Management:** Students will be able to identify and develop a model for an efficient warehouse layout with regards to flow, relationships and space utilization.
- **Inventory Management:** Students will be able to demonstrate knowledge of theories used to maintain a balance between demand and supply for an organization.

- **Logistic Networks:** Students will be able to understand transportation and the transportation environment, as well as, the strategic role transportation systems play in the supply chain.
- **Planning and Control:** Students will be able to demonstrate knowledge of the processes used in demand management, sales and operations planning plus master scheduling to control the actions that a business follows to meet their strategic objectives.
- **Purchasing:** Students study the role procurement has in managing suppliers and can describe the impact that sourcing decisions have on the continued effectiveness of supply chain relationships.
- **Supply Chain Management:** Students will be able to identify concepts, principles and methodologies used in managing supply chain relationships.
- **Technology:** Students will be introduced to applications that support various areas of managing a supply chain and can demonstrate knowledge of how these applications function.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Youth Development and Social Justice, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The 12-credit certificate program was designed to help understand the unique challenges facing adolescents and young adults. Intended for counselors, educators, family therapists, social workers and other professionals dedicated to serving the developmental needs of youth in contemporary society, the program provides an overview of the major issues that impact youth development from a social justice perspective.

What is Youth Development and Social Justice?

The Youth Development and Social Justice (YDSJ) program focuses on the promotion of positive youth development within the context of social justice. The YDSJ framework views young people as assets and active change agents with the capacity to transform their lives and the world toward equity and justice.

The program provides an overview of the interconnectedness between youth development and youth resistance to social injustice. Students in the YDSJ minor will: 1) analyze issues of equity and oppression in relation to youth development, 2) work directly with youth in the community, and 3) apply theory to practice to build on the strengths of communities and youth. The program is experiential in nature and students learn by doing in trainings, workshops, and community settings.

You Might Like This Program If...

- You are interested in youth empowerment and social change.
- You want to study big questions, such as such as: 'what does equitable education look like?' and 'how does youth organizing translate to social policy?'
- You want to make a difference in the lives of youth and communities.
- You want to learn about the impacts of discrimination and oppression on youth development.
- You want to pursue a career in behavioral health, social work, education, advocacy, nonprofit administration, community development, public policy, community organizing, or criminal justice.

Program Requirements

To earn an undergraduate certificate in Youth Development and Social Justice, a minimum of 12 credits is required.

Code	Title	Credits

Youth Development and Social Justice, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The 19-credit minor was designated to help you understand the unique challenges facing adolescents and youth in our rapidly changing world. The Youth Development and Social Justice program offers an interdisciplinary minor open to all PSU BW students. Students enter our program with the desire to support adolescents, youth, and their communities; they graduate with the skills, experience, and knowledge to do so effectively. Students will acquire tools to work with individuals of diverse backgrounds and perspectives, teamwork, and flexibility, as well as greater persistence and communications abilities - valuable assets that employers seek.

The Youth Development and Social Justice minor is offered for students who wish to add sociopolitical analysis skill and practical experience working with diverse youth to their undergraduate major.

The minor is flexible so that students can tailor their course choices to accommodate individual interests and match the resources at each campus. Students should seek the advice of the minor adviser for course selection. The provided supporting course list is a list of possibilities that each campus can adapt to best fit their unique context.

What is Youth Development and Social Justice?

The Youth Development and Social Justice program focuses on the promotion of positive youth development within the context of social justice. The YDSJ framework views young people as assets and active change agents with the capacity to transform their communities for the better.

The program provides an overview of the interconnectedness between youth development and youth resistance to social injustice. Students in the YDSJ minor will: 1) analyze issues of equity and oppression in relation to youth development, 2) work directly with youth in the community, and 3) apply theory to practice to build on the strengths of communities and youth.

The program is experiential in nature and students learn by doing in youth-led workshops and community settings. Students will acquire tools to work with individuals of diverse backgrounds and perspectives, develop creative mindsets, as well as greater persistence and communication skills – valuable assets that employers seek.

You Might Like This Program If...

- You are interested in youth empowerment and social change
- You want to study big questions, such as: 'what does equitable education look like?' and 'how does youth organizing translate to social policy?'
- You want to make a difference in the lives of youth and communities
- You want to learn about the impact of discrimination and oppression on youth development
- You want to pursue a career in behavioral health, social work, education, advocacy, nonprofit administration, community development, public policy, community organizing, or criminal justice.

Program Requirements

Requirement	Credits
Requirements for the Minor	19

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Some prerequisites may be required to meet the requirements for this minor.

General Information

Using this Bulletin

The six General Information sections in the Undergraduate Bulletin are designed to help you understand Penn State academic requirements and policies, as well as how to discover opportunities, as you pursue your academic goals. Information about the University structure and leadership, as well as tuition and financial aid information, will assist you in making informed decisions during your time at Penn State.

Select the topics of interest below or the menu to the right to explore different information areas. In addition, General Information sections can be accessed from any page in the Bulletin from the navigation bar.

Using this Bulletin (p. 3118)

Academic Information (p. 3153)

General Education (p. 3183)

About Penn State (p. 3275)

Admissions (p. 3278)

Tuition and Financial Aid (p. 3282)

Using this Bulletin

Introduction

The Undergraduate Bulletin is Penn State's comprehensive source for undergraduate academic information and program requirements.

Use this section and navigation tools throughout the site to become familiar with general Bulletin information and discover new ways to explore academic opportunities across Pennsylvania and the world.

Students should follow the edition of the Bulletin that is active on their first day of class at the University. Past versions can be found on the Archive (p. 15) page.

New Features

Program Page Layout

- Consistent layout of program information organized within the following tabs:
 - Overview
 - How to Get In
 - Program Requirements (University Degree, Bachelor of Arts Degree, General Education, and Major requirements)
 - Integrated Undergrad-Grad Program
 - Learning Outcomes
 - Academic Advising
 - Suggested Academic Plan
 - Career Paths
 - Contact

Begin and End Campus

At the top each program page, you will find a box that indicates where you can begin and end a program. Programs may have different begin

and end campuses, so it is important to use this information to determine program availability at each campus.

How to Get In

This section describes requirements on how to enter your major. Common examples include, but are not limited to, minimum GPA and/or successful completion of a skills test, coursework, or preparation programs.

Suggested Academic Plan

The course series provided in the Suggested Academic Plan provides only one of many possible ways to move through the curriculum. To create a personalized academic plan, begin by taking the following steps:

- Consult with a Penn State academic adviser on a regular basis to develop and refine your academic plan.
- Use the Suggested Academic Plan in conjunction with your degree audit (accessible in LionPATH as either an *Academic Requirements* or *What If* report).
- Familiarize yourself with information available in this Bulletin to learn about academic opportunities.
- Explore resources available on your college and campus websites.

Please note that the University may make changes in policies, procedures, educational offerings, and requirements.

Changes Page

- Real-time amendments to information in the Bulletin will be tracked on the Changes (p. 3123) page.
- Currently or previously enrolled students should consult the Bulletin Archive (p. 15), their adviser, and degree audit reports for specific requirements.

Course Bubble

When a course link is clicked, a course bubble will appear with important course information including, but not limited to:

- course title, description, and credits;
- prerequisites;
- course attributes and General Education learning objectives;
- if the course is repeatable;
- if the course is cross-listed;
- if the course can be counted towards General Education requirements.

Nondiscrimination Statement

The University is committed to equal access to programs, facilities, admission and employment for all persons. It is the policy of the University to maintain an environment free of harassment and free of discrimination against any person because of age, race, color, ancestry, national origin, religion, creed, service in the uniformed services (as defined in state and federal law), veteran status, sex, sexual orientation, marital or family status, pregnancy, pregnancy-related conditions, physical or mental disability, gender, perceived gender, gender identity, genetic information or political ideas. Discriminatory conduct and harassment, as well as sexual misconduct and relationship violence, violates the dignity of individuals, impedes the realization of the University's educational mission, and will not be tolerated. Direct all inquiries regarding the nondiscrimination policy to the Affirmative Action Office, The Pennsylvania State University, 328 Boucke Building, University Park, PA 16802-5901, Email: aao@psu.edu, Tel (814) 863-0471.

Start Exploring

The Undergraduate Bulletin is Penn State's comprehensive source for undergraduate academic information and program requirements. Using the search features, explore options to design your own, unique academic path at one of the world's leading research institutions. Discover new opportunities as you pursue your academic passion. Search boxes are located on the Undergraduate Bulletin landing page and throughout the website.

Narrow your search by using the following fields:

Degree Type

Choose the degree type to begin your search. Information on the following degrees are included in the Undergraduate Bulletin:

Associate Degree

Two-year majors that, with few exceptions, provide concentrated instruction to prepare graduates for specialized occupational assignments.

Baccalaureate Degree

Baccalaureate programs of study consist of no less than 120 credits and typically take four years to complete.

Minor

An academic program of at least 18 credits that supplements a major. A minor program may consist of course work in a single area or from several disciplines.

Undergraduate Certificate

Undergraduate certificates can reflect emerging academic areas, necessary professional development requirements, or groups of courses that do not constitute a degree program.

Learn more in the Definitions and Abbreviations (p. 3119) section.

Campus

Penn State has over 20 campuses across Pennsylvania. Visit the Campus (p. 15) page to see the full listing and a brief description of each campus.

Interest

Search broad topics to discover programs associated with your interests. From helping people, to science, or business, select an area to help narrow down your academic choices.

College

Academic colleges at Penn State grant degrees and are generally organized around a subject matter. All Penn State majors are divided among academic colleges, which are the units from which students receive their degrees. Visit the College (p. 17) page to see the full listing.

Academic Authority

The University Faculty Senate has responsibility for, and authority over, all academic information contained in the Undergraduate Bulletin.

Each step of the educational process, from admission through graduation, requires continual review and approval by University officials. The University, therefore, reserves the right to change the requirements and regulations contained in this Bulletin and to determine whether a student has satisfactorily met its requirements for admission or graduation, and to reject any applicant for any reason the University

determines to be material to the applicant's qualifications to pursue higher education.

MORE INFORMATION ABOUT ACADEMIC AUTHORITY (<https://undergrad.psu.edu/aappm/P-8-program-descriptions-catalog.html>)

Understanding Course Description Information

The course description data that appears in the University Bulletins is directly imported from LionPATH, the student information system. At several times within an academic year, new or updated course description information is approved by the Faculty Senate and entered into LionPATH. This updated information subsequently appears in the University Bulletins on the date(s) it takes effect.

What course description data is currently showing in the University Bulletins?

There are three course effective dates within an academic year. These effective dates correspond to the first day of the summer, fall, and spring semesters. The University Bulletins shows course description data that is active as of the current semester. On the date a new semester begins, the course description information is updated on the same day to match that course data.

Course Description Update Calendar

May 6, 2024: University Bulletins begins showing course description information that is active for the Summer 2024 semester

August 12, 2024: University Bulletins begins showing course description information that is active for the Fall 2024 semester

December 23, 2024: University Bulletins begins showing course description information that is active for the Spring 2025 semester

Previous Versions of Course Description Information

If a course description is updated after the beginning of an academic year, the previous course description information for that course can be found on the Changes to the UG Bulletin page (p. 3123). Course description information from past years can be found in the appropriate archived Bulletin edition (p. 15).

Definitions and Abbreviations

Described below are definitions referring to degrees, majors, options, minors, concurrent or sequential majors programs, and integrated undergraduate-graduate degree programs:

Associate Degree

Two-year majors that, with few exceptions, provide concentrated instruction to prepare graduates for specialized occupational assignments.

Baccalaureate Degree

Penn State offers more than 160 majors with four-year baccalaureate degrees. A baccalaureate program of study shall consist of no less than 120 credits. Students may elect to take courses beyond the minimum requirements of a degree program. Particular types of baccalaureate degrees identify educational programs having common objectives and requirements. Degree programs may provide academic, pre-professional, or professional experiences and preparation. Majors lead to a baccalaureate degree. Each student must select a major within a baccalaureate degree type. If options are offered within a major, a student selects one. The student may also elect to enroll in a minor to

supplement the major. Alternatively, the student may seek to enroll in multiple majors within the same type of baccalaureate degree or to enroll in a simultaneous degree program.

Undergraduate majors offered at Penn State lead to one or more of the following baccalaureate degrees: Bachelor of Arts, Bachelor of Science, Bachelor of Architectural Engineering (five-year program), Bachelor of Architecture (five-year program), Bachelor of Design, Bachelor of Fine Arts, Bachelor of Humanities, Bachelor of Landscape Architecture (five-year program), Bachelor of Music, Bachelor of Musical Arts, and Bachelor of Philosophy.

Not all degrees are offered at every location. Baccalaureate degrees offered at Penn State include both those that are designed to provide an academic (including pre-professional) experience and those that are specifically designed to provide professional preparation.

To ensure excellence, all professionally oriented degree majors provide a strong academic base. The Bachelor of Arts degree (with a given major) is an academic degree; the Bachelor of Science degree (with a given major) and the bachelor's degree in any subject area (e.g., Bachelor of Architecture) are professional degrees. The Bachelor of Philosophy degree, described in the Intercollege Undergraduate Programs section of this Bulletin, is planned individually and may be designed to serve either academic or professional purposes.

Major

A major is a plan of study in a field of concentration within a type of baccalaureate degree. Colleges and other degree-granting units may have common requirements for all of their majors. Each major may have requirements identified in prescribed, additional, and supporting courses and related areas categories. Elective credits are not considered part of the major.

MORE INFORMATION ABOUT MAJORS (<https://senate.psu.edu/curriculum/guide-to-curricular-procedures/baccalaureate-degree-curriculum/>)

Option

An option is a specialization within a major that should involve at least one-third of the course work credits required for the major, but need not be more than 18 credits. All options within a major must have in common at least one-fourth of the required course work credits in the major. A student can only be enrolled in an option within their own major.

Minor

A minor is defined as an academic program of at least 18 credits that supplements a major. A minor program may consist of course work in a single area or from several disciplines, with at least 6 but ordinarily not more than half of the credits at the 400-course level. Total requirements are to be specified and generally limited to 18 to 21 credits. Entrance to some minors may require the completion of a number of prerequisites, including courses, portfolios, auditions, or other forms of documentation that are not included in the total requirements for the minor. All courses for a minor require a grade of C or above.

Concurrent and Sequential Majors Programs

At the baccalaureate or associate degree level, students may be approved for admission to more than one major under the Concurrent Majors Program. A Concurrent Majors Program is one in which students take courses to concurrently meet the requirements of at least two majors, with graduation for all majors in the program occurring during the

same semester. Concurrent majors must all be at the baccalaureate or associate degree level. Under the Sequential Majors Program, upon graduation from an associate or baccalaureate degree program, a student may apply for re-enrollment in another undergraduate degree program.

Integrated Undergraduate-Graduate (IUG) Degree Program

An Integrated Undergraduate-Graduate (IUG) degree program combines a Penn State baccalaureate degree with a master's degree as a continuous program of study. An IUG program allows qualifying students to:

- create a cohesive plan for baccalaureate and master's degree studies, with advising informed by requirements for both degree programs;
- complete the combined degree program in less time than it would take to complete each program separately;
- become familiar with the expectations of graduate studies in their programs;
- access the resources of the Graduate School;
- learn from current graduate students who share academic interests.

Abbreviations, Acronyms, and Codes

Described below are common codes, abbreviations, acronyms, and other types of academic shorthand used at Penn State, along with a brief explanation of each.

Code	Explanation
A	Special topics (course suffix; indicates different versions of the same course, e.g., CAS 100A, CAS 100B, CAS 100C)

Changes to the Undergraduate Bulletin

Changes to the Undergraduate Bulletin will be tracked in real-time and listed below. At the end of every semester, these updates are incorporated into the Bulletin.

Courses Added: Effective Summer 2024

- AA 113N: Sustainable Arts and Design
- ACCTG 201: Introduction to Financial Accounting
- ACCTG 202: Introduction to Managerial Accounting
- AE 449: Ultra-High Performance Buildings: Passive House Principles & Design
- AE 477: Material Science for Architectural Engineers
- AERSP 403A: Autonomous Aerospace Vehicle Design - Preliminary
- AERSP 403B: Autonomous Aerospace Vehicle Design - Detailed
- AERSP 462: Aerospace Autonomy
- APLNG 290N: Critical Approaches to Applied Linguistics
- APLNG 320N: Language, Ideology, and Propaganda
- APLNG 450: Conducting Research in Applied Linguistics
- ASTRO 416: Data Science Applications to Astronomy
- ASTRO 442: Astrophysical Fluid Dynamics
- CE 403: Energy Use, Climate Change, and Our Engineered Infrastructure
- CE 455: Construction Cost Estimating
- CE 457: Construction Equipment and Methods
- CED 102Q: Wicked Problems Like Inequality, Sustainability & Climate Change: What's the Right Thing to Do?
- CHEM 491: Instructional Practice
- CMLIT 147N: Displacement and Migration
- CNED 393: Peer Support Counseling
- EBF 404W: The Great Energy Transition: Law, Economics, and New Frontiers
- EMSC 125: Plastics in the Environment
- FOR 370: Watershed Ecohydrology
- FOR 431: Conservation Genetics
- FOR 442: Forest Conservation: Principles and Practices
- FOR 445: Wildlife Habitat Management
- FOR 477: Field Methods in Watershed Ecohydrology
- GEOG 413: Cryosphere and Climate Systems
- GEOG 448: Neighborhoods and Health Equity
- GEOSC 401: Geosciences Entrepreneurship: Embrace Change
- HDFS 109: Community, Connection, and Contemplation
- HHUM 495: Internship
- HIST 493: History of Death and Mourning
- HM 322: Introduction to Brewed Alcoholic Beverages (Beer, Cider, and Mead)
- HRM 494: Research Topics in HRM

- IE 304: Introduction to Service Systems Engineering
- IE 427: Human Systems Networks
- IE 432: Introduction to Healthcare Systems Modeling
- IE 435: Pricing and Demand Management
- IE 475: Modeling and Optimization of Stochastic Service Systems
- ITECH 495: Internship
- LDT 495: Internship in Learning, Design, and Technology
- MATSE 449: Fundamentals of Composite Materials Science and Engineering
- MGMT 345: Cultural Intelligence in Leadership and Management
- MUSIC 188: Chamber Music for Mixed Ensemble
- NUTR 291N: Drugs and Nutrition: Social and Scientific Interactions
- NUTR 409: Addressing and intervening on social determinants of nutrition inequity
- NUTR 495B: Advanced Field Experience in Nutrition
- PT 290W: Professional Issues in Clinical Practice
- PUBPL 471: Economic Inequality and Public Policy
- RLST 109H: What is The Self?
- SC 496: Independent Studies
- STRNG 134: Guitar: Performance I
- STS 313: Global Engineering Fellows Seminar
- SUR 373W: Cadastral and Legal Aspects of Surveying
- TURF 495A: Internship
- VBSC 280N: Current Topics in Veterinary Medicine
- VBSC 415: Research Practice in Veterinary and Biomedical Sciences
- WFS 465: Restoration Ecology

Courses Added: Effective Fall 2024

- ASTRO 237W: Astronomy Communications

Courses Dropped: Effective Summer 2024

- CMLIT 197Z: Special Topics - Linked
- DANCE 270Z: Introduction to Bartenieff Fundamentals
- DANCE 370Z: Anatomy and Physiology for Performers
- PHIL 490: Dewey
- SOC 97Z: Special Topics - Linked

Courses Dropped: Effective Fall 2024

- AG 160S: Introduction to Ethics and Issues in Agriculture
- BMB 1Z: The Science of Sickness - Linked
- VBSC 280: Current Issues in Veterinary Medicine

Course Changes: Effective Summer 2024

AGBM 408: Financial Decision Making for Agribusiness (3 Credits) Old Listing Effective Through Spring 2024:

Develop financial management and business analysis skills, integrating previous course work and finance training; principles of financial management, planning, control.

Prerequisite: AGBM 308, FIN 301

Changes Effective Summer 2024:

- Changed Prerequisites

ANSC 488: Biology of germ cells and assisted reproductive technologies (3 Credits)

Old Listing Effective Through Spring 2024:

Germ cells are highly specialized cells that give rise to the next generation. The life history of germ cells from formation of primordial germ cells in the early embryo to formation of mature gametes will be traced in several mammalian species. Gamete maturation, fertilization and early embryo development will be covered in detail to highlight the unique features of these processes and the close relationship between germ cells, early embryonic cells and pluripotent stem cells. Special emphasis will be placed on the processes of meiosis and epigenetic reprogramming that occurs in both germ cells and early embryos. The effect of environmental factors such as diet, stress, endocrine disruptors on germ cell and early embryo reprogramming will be discussed. In the second half of the course, we will discuss how knowledge of germ cell physiology has led to the widespread use of assisted reproductive technologies (ART) which have fundamentally changed the way fertility is managed in animals and humans. ART topics covered include artificial insemination, gamete manipulation, in vitro embryo production, preimplantation genetic testing and control of ovulation. We will discuss how these technologies are used to treat infertility in both men and women. We will also cover the potential benefits and challenges of recent efforts to develop male and female non-hormonal contraceptive methods. Finally, the ethical and societal implications of advanced reproductive technologies will be discussed.

Prerequisites: ANSC 300 or ANSC 431 or BIOL 141 or BIOL 161 or BIOL 177 or BIOL 240M or BIOL 240W or BIOL 431

Changes Effective Summer 2024:

- Changed Prerequisites

ANTH 445W: Ethnographic Film (3 Credits) [WAC]

Old Listing Effective Through Spring 2024:

Comparisons of written and visual ethnography; critical assessment of ethnographic film; cross-cultural variation. ANTH 445W Ethnographic Film (3) Students will be presented with both written and filmed ethnographic material dealing with a number of cultural subsystems (e.g., kinship and family relations, religion, political systems) and with a number of different world cultures. The aim of the course is three-fold: 1) to convey through visual anthropology the complexity and inter-relationships of cultural subsystems, which is often difficult to do in written sources; 2) to develop the skills of critical viewing of ethnographic film; and 3) to provide students with critiques of their written work that will enable them to learn and practice the skills of clear, organized and convincing writing. Towards these ends, students will be expected to read and view weekly assignments for selected topics, to write twelve critical essays that compare the written and filmed sources, and to evaluate the aims, effectiveness, and methods of the films. Essays will be graded for both content and form and will provide a basis for class discussion. Students will also be required to write a term paper focused on a particular ethnographic film of their choice (one not shown in class) supplemented by additional research. As an aid in the writing of the paper, at least one class period will be devoted to learning how to do library research in Anthropology. This course will complement other courses in Anthropology such as ANTH 045 and ANTH 001. The course can be used to fulfill a requirement in both the major and minor in Anthropology, and will fulfill both a Writing Intensive requirement and a Bachelor of Arts social/behavioral science requirement. It will also provide students in other

departments with the opportunity to study aspects of diverse, non-western cultures.

Changes Effective Summer 2024:

- Added Prerequisites
- Changed Course Description

ASM 309: Measurement & Monitoring of Hydrologic Systems (3 Credits)

Old Listing Effective Through Spring 2024:

This course is an introduction to measurement and monitoring equipment/techniques commonly used in analyses and design of hydrologic systems and will provide students the opportunity to learn and apply basic measurement techniques that serve as critical tools in professional practice in water resources. During the first part of the course, the instruments and techniques commonly used in water resources assessment, including rainfall monitoring, flow monitoring, and interest as part of the Sustainability Institute's Sustainable Communities Collaborative. Data generated over the course of the semester are used to develop a report that is shared, along with the data with a community partner. In the second part of the course, mapping development is explored, which serves as a critical aspect of water resources engineering and planning. ArcGIS serves as a primary software tool used in engineering design and water resources planning, and students will learn to develop maps to present and process various watershed - data including land use data, soils data, and hydrography data. Various aspects of the course will coalesce around the concept of the watershed being the basic unit of water resources analyses and design, and students will experience how various measurement techniques and approaches are necessary tools for practicing professionals. This course will be useful to any undergraduates seeking degrees in a major related to water resources planning, engineering, or technology.

Enforced Prerequisite at Enrollment: CHEM 110. Enforced Concurrent at Enrollment: PHYS 211 or PHYS 250

Cross-listed Courses: ERM 309

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM

ASM 309H: Measurement & Monitoring of Hydrologic Systems (3 Credits)

Old Listing Effective Through Spring 2024:

Introduction to measurement and monitoring equipment/techniques commonly used in analyses and design of hydrologic systems.

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM

ASM 310: Power Transmission in Agriculture (3 Credits)

Old Listing Effective Through Spring 2024:

Selection and maintenance of mechanical, hydraulic, and pneumatic power transmission components and systems. Electric motor principles and controls. ASM 310 Power Transmission in Agriculture (3) After successful completion of ASM 310, students will apply the physical principles, of mechanical power transmission system components such as shafts, belts and sheaves, chains and sprockets, gears, torque limiters, clutches, and universal joints by selecting suitable mechanical drives

and specifying proper maintenance procedures. Students will be able to read hydraulic and pneumatic schematics, size fluid power components such as pumps, lines, valves, cylinders, and troubleshoot hydraulic and pneumatic systems. Students will also be able to explain the electrical and physical principles of AC and DC electric motor operation. They will be able to identify torque, speed, voltage, and current operating characteristics and will be able to select controls and circuit protection devices necessary to achieve proper performance. As a required course in the Agricultural Systems Management major, ASM 310 is a prerequisite for other courses.

Enforced Concurrent at Enrollment: BRS 221

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM
- Changed Prerequisites
- Changed Course Description

ASM 320: Combustion Engines for Mobile Equipment (3 Credits)

Old Listing Effective Through Spring 2024:

After successful completion of ASM 320, students will explain and evaluate the theoretical and practical aspects of internal combustion engines. Students will evaluate and compare alternative engine thermodynamic cycles, alternative fuels (gasoline, diesel, biodiesel, compressed natural gas), performance enhancing attachments (turbochargers, intercoolers), and supporting systems (fuel injection, lubrication, starting, cooling, emissions cleansing). Students will be able to properly select engines and related systems for mobile applications. Students will employ important maintenance procedures required for economical useful life and proper operation. Students will be able to troubleshoot engine systems.

Enforced Prerequisite at Enrollment: ASM 310 or BE 306 or ME 360

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM
- Changed Prerequisites
- Changed Course Description

ASM 327: Soil and Water Resource Management (3 Credits)

Old Listing Effective Through Spring 2024:

This course equips students with the ability to understand land measurements, mapping, soils, hydrology, channel flow, erosion control techniques with emphasis on RUSLE2, subsurface drainage techniques, and water impoundments for use in storing water, managing stormwater, and capturing suspended sediment. The class concludes with a 3-week section on irrigation, which teaches water needs and pipe flow. Basic hydrology is presented using both the Soil-Cover-Complex and Rational Methods. Manning's equation is developed and discussed for use in understanding flow in open channels. The various components of the RUSLE2 soil erosion model are presented with emphasis in agricultural erosion. Irrigation is taught from both a supplemental agricultural and environmental perspective.

Enforced Concurrent at Enrollment: PHYS 250 or PHYS 211

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM

ASM 420: Principles of Off-Road Machines (3 Credits)**Old Listing Effective Through Spring 2024:**

ASM 420 covers the technical aspects of off-road power machinery, such as tractors, self-propelled harvesters, and military, logging and construction equipment. Upon successful completion, students will understand the many facets of design and management of such vehicles (such as mechanical power generation, power allocation, power transmission, traction, operator enclosures, and electrical and electronic systems). Laboratory exercises will involve full-scale equipment with instrumentation used to measure performance. While ASM 420 is not a prerequisite for any other course, it complements engineering and technology courses related to machinery. This course is a technical selection in the Biological Engineering and BioRenewable Systems majors and is required for the Off-Road Equipment minor. It complements other courses for anyone interested in the off-road machinery industries. ASM 420 covers several aspects of function and design related to off-road machinery.

Enforced Prerequisite at Enrollment: BE 306 or ASM 310 or ME 360

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM
- Changed Prerequisites
- Changed Course Description

ASM 424: Precision Agriculture Technology (3 Credits)**Old Listing Effective Through Spring 2024:**

Precision agriculture is a data-based approach to optimize crop production and reduce environmental footprint. This course provides an overview of major concepts in precision agriculture (such as GPS, GIS, remote sensing, and spatial variability) and case studies illustrating decisions and management. In this course, computer processing, data analysis and management, robotics, and other related advancements in technologies will be emphasized to provide necessary technical skills in precision agriculture to students. The first part of the course will cover agricultural machinery combined with GPS such as planters, combines, fertilizer application equipment, and sprayer. Students will learn how to manage these tools efficiently. The second part of the course will emphasize how to manage and analyze field variability data including yield data, soil properties with real-time sensors and create prescriptions based on actual data. The last part of the course will emphasize on how precision agriculture technology can benefit a farm's financial sustainability.

Enforced Prerequisite at Enrollment: BE 301 or ME 330 or STAT 240 or STAT 200 or STAT 250

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM
- Changed Course Description

Old Listing Effective Through Spring 2024:**BRS 221: Engineering Principles of Biorenewable Systems (3 Credits)****Old Listing Effective Through Spring 2024:**

This course provides an overview of engineering principles to students in non-engineering majors, but who are likely to encounter challenges that require quantitative solutions. Problem solving skills are extremely

important to technology. At the end of the course, students will be able to: solve problems related to biorenewable systems using a structured, logical method combining concepts from physics and math; recognize and apply unit factoring and dimensional analysis to problem solving; quantify physical relationships and apply engineering principles to evaluate basic engineering technology problems involving electrical systems, structural members, fluid mechanics, heat transfer, and psychrometrics. Hands-on examples are used throughout the course to tie the course material to applications in agricultural and biorenewable industries. Examples include residential wiring; sizing structural members made of wood, steel, and other materials; non-moving and flowing fluids in bioproduct and agricultural processing; heat transfer through wall, windows, and other materials likely to be found in construction and processing facilities; psychrometrics in environmental growth and drying facilities. This course provides the groundwork for topics explored in more detail later in the BioRenewable Systems curriculum.

Enforced Prerequisite at Enrollment: (MATH 110 or MATH 140) and (PHYS 250 or PHYS 211)

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM
- Changed Course Number to 301
- Changed Course Title
- Changed Abbreviated Title
- Changed Course Description

BRS 300: Introduction to Biorenewable Products (3 Credits)**Old Listing Effective Through Spring 2024:**

Overview of bioproducts and their related industry sectors, including forest products, biocomposites, biofuels, bioenergy, bio-based adhesives, biochemicals, and bioplastics. BRS 300 Introduction to Biorenewable Products (3) This course provides an overview of the nature and utilization of bioproducts, which are defined as products created from biologically derived, renewable industrial feedstocks. These materials are renewable and can be sustainably produced; as such, they will be increasingly utilized as society recognizes the opportunity cost of mining and using other non-renewable industrial feedstocks. The class focuses on overviewing the relevant industry sectors.

Enforced Concurrent at Enrollment: CHEM 110

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM
- Changed Course Title
- Changed Abbreviated Title
- Changed Course Description

BRS 350: Introduction to Life Cycle Assessment (3 Credits)**Old Listing Effective Through Spring 2024:**

Life cycle assessment (LCA) is a quantitative approach to assessing the environmental, economic, and/or social impacts associated with the entire supply chain of a product, process, or service. LCA is a systematic and holistic approach that enables designers and planners to identify the most impactful stages of a supply chain so that we might strategically intervene to improve the system. In this course students will learn about the LCA standards developed by the International Organisation for Standardisation (ISO). Students will also develop estimation, data verification skills, how to consider uncertainty in analysis, and learn how

materials and energy flows lead to impacts to ecological and human systems. Over the course of the semester students will build their own LCA project by finding appropriate data, developing a life cycle inventory, entering data into LCA software, completing an impact assessment, and finally analysis and interpretation of the results generated. LCA is a flexible methodology and students will be encouraged to focus their project on a topic relevant to their broader learning and career objectives. Learning to complete an LCA also develops critical thinking skills, or life cycle thinking, which enables people to develop the skillset to pay attention to the larger system in which they are working in order to develop the human, materials and energy transactions that can lead to more renewable and sustainable systems. Class projects will allow the students to apply LCA to biorenewable systems, including agricultural and biological processes and product development.

Enforced Prerequisite at Enrollment: 5th Semester standing and (MATH 110 or MATH 140)

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM
- Changed Course Description

BRS 391: Communication Skills for BE and BRS Students (2 Credits) [GWS]

Old Listing Effective Through Spring 2024:

BE/BRS 391 is one part of a two-semester experience in discipline-specific communication and leadership skills training. A key facet of this training is contextual approach. To meet the needs of BE and BRS students, the course emphasizes communication skills that are critical for their professional development, appreciating the technical content of students' work and the industries within which the students will ultimately work. The primary focus for BE/BRS 391 is communication skills (oral and written) with a secondary focus on leadership and career skills. Students will be evaluated through various methods, such as writing and speaking projects, professional presentations, written homework and worksheets in class and out, creation of portfolios and reports, and in-class group and individual exercises. BE/BRS 391 provides a foundation in General Education, Writing and Speaking (GWS) for students in the Biological Engineering (BE and BioRenewable Systems (BRS) majors.

Enforced Prerequisite at Enrollment: Fifth semester standing or higher

Cross-listed Courses: BE 391

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM
- Changed Course Title
- Changed Course Description

BRS 392: Leadership Skills for BE and BRS Students (2 Credits) [GWS]

Old Listing Effective Through Spring 2024:

BE/BRS 392 is one part of a two-semester experience in discipline-specific communication and leadership skills training. A key facet of this training is the contextual approach. To meet the needs of BE and BRS students, the course emphasizes leadership skills that are critical for their professional development, appreciating the technical content of students' work and of the industries within which the students will ultimately work. The primary focus for BE/BRS 392 is leadership skills,

supported by training in communication, ethical decision-making, and management. Students will be evaluated through various methods, such as writing and speaking projects, professional presentations, written homework and worksheets in class and out, creation of portfolios and reports, and in-class group and individual exercises. BE/BRS 392 provides a foundation in General Education, Writing and Speaking (GWS) for students in the Biological Engineering (BE) and BioRenewable Systems (BRS) majors.

Enforced Prerequisite at Enrollment: Fifth semester standing or higher

Cross-listed Courses: BE 392

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM
- Changed Course Title
- Changed Abbreviated Title
- Changed Course Description

BRS 399: Foreign Studies (1-12 Credits: Maximum of 12 Credits) [IL]

Old Listing Effective Through Spring 2024:

Courses offered in foreign countries by individual or group instruction.

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM

BRS 402: Foundations of Sustainable Business (3 Credits)

Old Listing Effective Through Spring 2024:

Emphasis on understanding business strategies for enhancing sustainable operations, including issues related to the natural environment and corporate social responsibility. ERM 402 / BRS 402 Foundations of Sustainable Business (3) This course will provide students with an understanding of how environmental and sustainability issues are impacting business strategies and ultimately profits. We will also examine the external stakeholders, such as environmental groups, policy-makers, and "green" consumers, that impact business management. Business students will benefit by a better understanding of environmental/sustainability issues that impact their operations and strategies. Non-business students will benefit by understanding how business decisions can impact the natural environment. An emphasis will be on a thorough understanding of making a business case for sustainability. We will also discuss the triple bottom line and its use. Some Specific Issues to Cover: 1. How are organizations shifting business models to work with sustainability trends? 2. How can we make a business case (justification) for being "green"? 3. Can firms differentiate themselves by being responsible/sustainable? Do consumers and other stakeholders care? 4. Thorough understanding of stakeholders and how they impact operations. 5. How can the "business" side of the world work with the "environmental" side? 6. Use of packaging as an example of where parts of the supply chain are working together to be more sustainable. 7. How "waste" in its many forms can be seen as a surrogate for unsustainable practices. 8. Pros and cons of metrics used to measure sustainability. 9. Impacts of business operations on the environment.

Enforced Prerequisite at Enrollment: (AGBM 101 or ECON 102 or ECON 104) and 7th semester standing

Cross-listed Courses: ERM 402

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM
- Changed Course Description

BRS 411: Bioproducts Science and Technology (3 Credits)
Old Listing Effective Through Spring 2024:

This course investigates fundamental aspects of biorenewable polymers (bioproducts) and ties their underlying chemical structure to macroscale properties. These bioproducts are created from biologically derived, renewable industrial feedstocks such as wood, cotton, grasses, and bast fibers (e.g. jute, hemp, kenaf, sisal, etc.). The course begins with an overview of descriptive organic chemistry that is relevant to biorenewable polymers. Students will build on this knowledge to identify, compare, and contrast various industrially relevant plastics. Material science of polymers, including determining molecular weights and measuring mechanical properties of bioproducts is then investigated. These properties are relevant to compare the performance of existing plastics with emerging bioproducts. A survey of the several classes of synthetic and natural polymers, fibers, and composites is the focus of the third unit in the class. Final course subjects include manufacture of soft materials and their decomposition to form recalcitrant waste and microplastics. These will be discussed in the context of 21st-century western culture predicated on the existence of cheap and disposable plastic products, and how design and deployment of new bioproducts could eliminate plastic waste, reduce the environmental impact of plastics, and enhance the economics of industrial biorefining.

Enforced Prerequisite at Enrollment: CHEM 110 and BRS 350

Changes Effective Summer 2024:

- Changed Course Abbreviation to ABSM
- Changed Prerequisites

BRS 417: Processing and Manufacturing Systems for Bioproducts (3 Credits)
Old Listing Effective Through Spring 2024:

Overview of systems and processes used in the manufacture of bioproducts. This course reviews major bioproducts and details how they are manufactured industrially. A fundamental understanding of petrochemical refining, pulp and papermaking, and sawmill operations is the foundation of the beginning of the course, since the majority of existing and emerging bioproducts are manufactured using these processes or new hybrids of these. Next, thermochemical conversion of biomass is covered, including existing technologies such as torrefaction and barrel production, and emerging technologies such as catalytic fast pyrolysis and biomass gasification. Students will then prepare and deliver presentations on traditional and emerging wood and paper products. The final portion of the course will include biomass fractionation technologies that provide cellulose, hemicellulose, and lignin to produce fuels and chemicals in a manner analogous to petrochemical refining.

Enforced Prerequisite at Enrollment: BRS 221 and BRS 300

Changes Effective Summer 2024:

BRS 422: Energy Analysis in Biorenewable Systems (3 Credits)
Old Listing Effective Through Spring 2024:

Energy management, energy conversions, renewable energy alternatives, engineering economic analyses, national and international perspectives on energy resources. BRS 422 Energy Analysis in Biorenewable Systems (3) This course focuses upon first understanding the various forms of energy in common use today and then analyzing the energy equivalents of various forms of energy. Forms of energy to be studied most extensively include electricity, fossil fuels, and renewable energy sources. Principles and applications of engineering economic analyses will be emphasized because these principles are needed to evaluate the feasibility of converting from one energy form to another. Specific application areas of emphasis include buildings, motors, and lights. For each application area, there will be discussion of the alternatives available for using energy in a more efficient and economical manner. The infrastructure systems needed for providing electricity and natural gas to a specific location will be described as well as typical rate structures for the energy provided. Alternatives to the conventional energy systems will be identified and the course will conclude with discussion of energy strategies throughout the 21st century. Local, national, and international perspectives on energy resources will be infused throughout this course.

Enforced Prerequisite at Enrollment: BRS 221

BRS 426: Safety and Health in Agriculture and Biorenewable Industries (3 Credits)
Old Listing Effective Through Spring 2024:

BRS 426 explores management aspects of occupational safety and health specifically as it pertains to both the agricultural and biorenewable systems industry sectors. Employers are increasingly demanding students have training in safety and health. Topics to be covered include principles of safety and health, hazard analysis, hazard prevention and control, human behavior and safety, training and education, safety and health regulations, agricultural emergencies and developing a written safety program.

Enforced Concurrent at Enrollment: 5th Semester standing or higher

Changes Effective Summer 2024:

BRS 428: Electric Power and Instrumentation (3 Credits)**Old Listing Effective Through Spring 2024:**

Principles and application of electric circuits for power distribution, motors, automatic controls, and instrumentation used in agricultural and biorenewable industries. BRS 428 Electric Power and Instrumentation (3) Nearly every facet of our modern society relies on electricity and electronics. Whether engaged in product development, manufacturing, production, testing, or management, graduates of technical programs benefit from a fundamental understanding of electrical/electronic systems. This course prepares students to analyze electrical/electronic systems applicable to agricultural and biorenewable industries. Upon completion of this course, the student will be able to: demonstrate correct use of common electronic measurement tools including multimeters, oscilloscopes and others; demonstrate sound electrical construction techniques including cable preparation, soldering, circuit board construction, and others; demonstrate sound troubleshooting skills for electrical and electronic systems; understand common elements of power distribution systems; understand simple measurement and control circuits represented by schematics or ladder diagrams; understand and apply various sensors to measure temperature, pressure, strain, force, proximity, speed etc.; understand the application of dataloggers, programmable logic controllers, and computer software to collect data and/or control simple processes; understand the function of common circuit components such as resistors, capacitors, inductors, diodes, op-amps, transistors, and transformers in simple circuits; understand basic maintenance and safety requirements for facility electrical systems.

BRS 429W: Biorenewable Systems Analysis and Management (3 Credits) [WAC]**Old Listing Effective Through Spring 2024:**

BRS 429W covers systems analysis and optimization techniques including an introduction to systems theory, qualitative and quantitative analysis, linear programming, waiting line models, PERT/CPM, minimal spanning tree, calculus methods, simulation modeling for decision making, inventory, and energy audits. All topics are presented in the form of case studies that require the students to solve problems in realistic production and processing scenarios. The course also provides a writing-intensive structure. The course targets BRS students in their last semester because it integrates knowledge and experiences acquired in prior BRS, business, and agricultural science courses.

BRS 430W: Biorenewable Systems Capstone 1 (1 Credit) [WAC]**Old Listing Effective Through Spring 2024:**

Students in Biorenewable Systems learn to apply technology, business, and science to sustainable agricultural and biologically-based product systems development and management. The capstone experience is a two semester, senior year sequence required of all BRS students. This course is the Fall component of the sequence and introduces the student to concepts critical for analyzing real-world biorenewable systems. This includes selecting a capstone topic, technical writing review, team building, systems analysis tool application, project proposal development, and proposal presentations. The course also provides iterative writing experiences to enhance the student's ability to create technically sound and grammatically correct reports. At the end of this course, the student will be able to: Write a technically sound biorenewable systems project proposal; be able to function in teams to address a biorenewable systems problem; be able to assess a system and apply appropriate analysis and/or business tools.

BRS 431W: BioRenewable Sys Capstone 2 (2 Credits) [WAC]**Old Listing Effective Through Spring 2024:**

Students in Biorenewable Systems learn to apply technology, business, and science to sustainable agricultural and biologically-based product systems development and management. The capstone experience is a two semester, senior year sequence required of all BRS students. This course is the Spring component of the sequence. The students apply quantitative systems and business tools to analyze real-world biorenewable systems, interpret the results, and provide recommendations for management decision making. The course also provides iterative writing experiences to enhance the student's ability to create technically sound and grammatically correct reports. At the end of this course, the student will be able to: Effectively work as a team to manage the time and resources of a biorenewable systems analysis project; execute a systems analysis of a real-world problem; interpret results to provide a management recommendation; effectively present results and recommendations in a technical report.

ENGL 428: Asian American Literatures (3 Credits: Maximum of 6 Credits) [BA] [US]

Old Listing Effective Through Spring 2024:

A seminar on the literatures and cultures of Asian America, with attention to forms of geographic, historical, and ethnic diversity.

Cross-listed Courses: AAS 428

Changes Effective Summer 2024:

- Changed Cross-Listed Course Abbreviation to ASIA
- Changed Course Description

ERM 448: Rural Road Ecology and Maintenance (3 Credits) Old Listing Effective Through Spring 2024:

Roads are ubiquitous throughout the landscape and this course is intended for students who anticipate working in natural resource management fields. This course provides students with the fundamental understanding of the interaction of natural systems with unpaved and low volume paved roads in order to economically maintain roadways with minimum impact on the environment. The major focus area will be the road/stream interface, including the fundamentals of hydrology, geology, soils, and erosion processes as they pertain to roads and streams. It is expected that the student will gain a practical understanding of rural road maintenance in order to provide a foundation for real-world application. Emphasis is placed on Environmentally Sensitive Maintenance (ESM) practices for rural roads that are used throughout Pennsylvania. The goal of ESM practices is to minimize the environmental impact of the existing road network by maintaining proper road drainage in order to keep road materials out of the adjacent streams and surrounding landscape. Upon completion the student will be ESM certified under Pennsylvania's Dirt, Gravel and Low Volume Road Maintenance Program.

Prerequisites: MATH 22 AND MATH 26; OR MATH 41; OR MATH 110 OR MATH 140 Concurrent Courses: ASM 327 OR BE 307 OR CE 335 OR CE 370 OR FOR 308 OR FOR 470

FOR 201: Global Change and Ecosystems (3 Credits) Old Listing Effective Through Spring 2024:

This course will provide students with an understanding of the climate system, ecosystems, and feedbacks between the two. FOR 201 Global Change and Ecosystems (3) (GN) Ecosystems across the planet are facing unprecedented pressures and changes as society seeks to support continued population growth and increasing standards of living. Understanding how ecosystems in Earth's biosphere interact with the climate system and how feedbacks alter the services that ecosystems provide is necessary to meet society's demands. Global

Change and Ecosystems is designed to provide students with a general understanding of the climate system, ecosystems, and feedbacks between the two. The goal of this course is to develop critical thinking skills related to understanding the many relationships between society and natural systems. In this course students are encouraged to think critically about these relationships and the information used to develop assessments. This course broadly covers: 1) global change factors, including climate change, land-use change, and pollution, 2) life on land, where we will explore the diversity of Earth's ecosystems, 3) global change impacts, where we will identify how global change factors are impacting our ecosystems, and 4) ecosystem services, where we will examine the coupling of human and natural systems. Students will complete this class with the ability to: 1) interpret scientific figures, 2) critically evaluate information about global change and ecosystems, 3) define what constitutes an ecosystem and the controlling factors, 4) describe Earth's biomes and major ecosystems, and 5) describe the impacts of global change factors on ecosystems.

PreRequisite: 3 credits of science

FORT 170: Forest Harvesting and Operations (3 Credits)

Old Listing Effective Through Spring 2024:

Forest harvesting and intermediate operations: forest worker safety, hand and power tools, harvest planning, and best management practices. FORT 170 Forest Harvesting and Operations (3 Credits) FORT 170 is a three-credit, applied field-oriented course in the Forest Technology curriculum. The course is offered in the four-week summer intersession following completion of the second semester. Students will be introduced to woods safety and the identification of hazards; the safety and use of hand and power tools used in forest harvesting and intermediate operations; and logging equipment safety, maintenance, and operation. Axes, crosscut saws, chain saws, heavy logging equipment including logging skidder, bulldozer, and woods tractor will be used. Students will work in crews to complete a forest harvest or thinning operation from beginning to end including: forest inventory and stand analysis; the use of best management practices; the development of an erosion and sedimentation plan; harvest planning and layout; forest stand marking; and the harvest of the marked forest stand. Daily performance is evaluated based upon safety, effort, and motivation, skill improvement, cooperation, and attendance. Course grades will be based on quizzes, assignments, and daily performance.

PreRequisite: FORT 110 , FORT 160 , American Red Cross Standard First Aid and CPR

HM 407: The Sustainable Fork: Food Systems Decisions for Away-From-Home Eating (3 Credits)

Old Listing Effective Through Spring 2024:

The course will incorporate economic and managerial dimensions to the discussion of food decisions in foodservice away-from-home eating contexts, particularly emphasizing the behavioral aspect of decisions - how individuals (consumers, providers, managers) make choices in the food system, and what might be the consequences of these choices. The course will use evidence from multiple farm-to-fork perspectives to allow students to analyze food systems problems and solutions. It will also require students to engage directly with the local food service system through course projects and tours. The major topics of discussion will be organized under each of the value chain components of the farm-to-fork continuum: production, distribution, purchasing, preparation, and consumption. Specific topics under each of these value chain components will include: nutrition, food safety, food waste, sustainable practices, social justice, consumer utility, economic profits, ethics, government policy, and decision-making. In particular, the course will be motivated by economic theories such as: agency relationship, information asymmetry, transaction cost economics, and behavioral economics topics such as self-rationing, and time discounting.

Enforced Prerequisite at Enrollment: A grade of C or better in HM 201 or AGBM 170 or AGBM 170Z

Cross-listed Courses: FDSYS 407

IT 20: Intensive Intermediate Italian (6 Credits) [BA]

Old Listing Effective Through Spring 2024:

Continuation of Intensive Elementary Italian, building on grammar and communication skills (reading, writing, listening, and speaking). IT 020 Intensive Intermediate Italian (6)(BA) This course meets the Bachelor of Arts degree requirements. This course is for students who have successfully completed IT 010 Intensive Elementary Italian, and who seek an Intensive learning environment of Italian grammar (all aspects: reading, writing, listening, and speaking). Students learn intermediate Italian in an intensive language-learning environment. Extensive reinforcement of elementary Italian grammar (reading, writing, speaking, listening) and introduction to intermediate Italian grammar, speech, and culture through a variety of written and oral exercises. All work is done in Italian. Homework in the accompanying workbooks is assigned each week. Pronunciation practice in the language lab is also required weekly. There are also supplementary grammatical and cultural activities on the course web page. Equivalent to last half of IT 002 and all of IT 003.

PreRequisite: IT 010

LING 404: Phonology I (3 Credits) [BA]

Old Listing Effective Through Spring 2024:

The analysis of the sound systems of human languages; focus on common phonological processes across languages and on phonetics-phonology interface. LING 404 Phonology I (3)(BA) This course meets

the Bachelor of Arts degree requirements. This course is about sound patterning in language. In particular, we will learn how human speech sounds are produced and how they function together as a system. We will learn the International Phonetic Alphabet applied to English. We will discuss phonological data from many different languages to seek common phonological processes that occur despite the apparent surface diversity of languages. We will do extensive work on phonological problems in order to master basic phonological analysis.

Changes Effective Summer 2024:

- Added Prerequisites
- Changed Course Description

LING 449: Semantics I (3 Credits) [BA]

Old Listing Effective Through Spring 2024:

The study of meaning in human language; methods of analysis; study of sense, reference, compositionality, quantification, presupposition, and sentence-level meaning. LING 449 Semantics I (3)(BA) This course meets the Bachelor of Arts degree requirements. This course examines our best understanding of how humans produce and understand utterances to have particular meanings. This course examines lexical semantics, which is concerned with word meaning, phrasal semantics, which examines phrase meanings and with pragmatics, the study of meaning in contexts. Because meanings cannot always be built up or deduced from the combined meaning of smaller elements, students will attempt to divulge the semantic principles at work in human language through a wide variety of problems and activities.

Changes Effective Summer 2024:

- Added Prerequisites
- Changed Course Description

LING 493: Field Methods (3 Credits) [BA]

Old Listing Effective Through Spring 2024:

Primary linguistic investigation of a language different from English; field work with a native speaker; data gathering; linguistic analysis. LING 493 Field Methods (3)(BA) This course meets the Bachelor of Arts degree requirements. In this course, students work directly (in groups) with a native speaker of a foreign language with which no one in the class has any prior familiarity. The students will work to uncover the set of sounds relevant to the language in question by winnowing down possible sound contrasts made in human languages. They will begin to construct a lexicon (vocabulary) built with a phonetic alphabet to discover how words are formed in the language. They will refine their techniques of questioning their research participant based on principles of linguistic field work. Finally, groups will present their findings for discussion and revision.

- Changed Course Description

PLSC 114Z: Winning Political Support (3 Credits)

Old Listing Effective Through Spring 2024:

The purposes of this course are to introduce students to the comparative study of political systems, some of their parts, and the functioning of

those parts, and to develop a capacity for effective, ethical citizenship. Real-world attempts to convince various audiences will be analyzed with respect to their appeals to the emotions of their respective audiences, often through framing the candidacy or policy under consideration in ways intended to stimulate fear, hope, or anxiety in order to command the attention of audiences. The use of words, other symbols, and non-verbal stimuli with strong emotional and normative content will be highlighted. The class will also evaluate efforts to establish credibility with audiences through references to endorsements, demonstrations or claims of expertise, goodwill, and good sense. Lastly, the logical validity of inferences and deductions made in the attempts to convince will be considered so that flattery, manipulation, bargaining, deception, and intimidation can be distinguished from genuine persuasion. Materials presented in Philosophy 10 (GH), "Critical Thinking," to which PLSC 114 is linked, will provide students with the tools to do this.

So that students might see how characterizations of attempts to convince might be placed into a provisional context, the study is comparative. It will look at attempts in the U.S. as well as some other country. In general, so that the attempts at winning over audiences might be as comparable and as comprehensible as possible, the issue should be as similar as possible and the other country should be Anglophone. Although systems of elections and governance and controversial issues inevitably vary within and between countries, it is possible to find elections and policy controversies with sufficient similarities to make cross-national comparisons of attempts at convincing their respective audiences a fruitful exercise. For example, one might build the course around the televised debates and campaign ads for the mayoral elections in Vancouver and Seattle and the efforts to generate support and opposition to oil pipelines in the two countries. By looking at the different strategies used in attempts to convince elites, the citizenry and parts of the citizenry in the two countries, it is possible to raise questions about the workings of the political systems in the two countries. Specifically, students can examine some of the ways that historical geopolitical, constitutional, economic, and demographic differences between and within the two countries are manifested in the political processes of the two countries. By leading students to consider such questions, this course can induce them to undertake further study that will equip them with the methodological tools to investigate these issues in greater depth. Moreover, by providing students with the basic outlines of well-supported valid inference and challenging them to detect of the most common informal fallacies in efforts to convince and create an outline for their own attempt at political persuasion, PLSC 114 (GS) will help build capabilities that are necessary for responsible and effective and ethical citizenship.

SOC 5: Social Problems (3 Credits) [GS] [BA]
Old Listing Effective Through Spring 2024:

Current social problems such as economic, racial, and gender inequalities; social deviance and crime; population, environmental, energy, and health problems. SOC 5 Social Problems (3) (GS)(BA) This course meets the Bachelor of Arts degree requirements. This course is designed to introduce students to the main societal issues facing humanity at the present time and in the foreseeable future. Although the course examines a number of social issues in the United States (such as crime and poverty), the course generally takes an international and intercultural perspective. The primary social issues that affect individuals and their children today are global, rather than national, in scope. For this reason, globalization is a recurring theme in the course. Discussion and questions are encouraged in all sections. This course meets a General Education requirement in the Social and Behavioral Sciences.

Changes Effective Summer 2024:

- Changed Course Description

SOC 19: Sociology of Popular Culture (3 Credits) [GS] [BA]
Old Listing Effective Through Spring 2024:

In this course students will be introduced to the theories, concepts, and research techniques sociologists use by applying them to study popular culture. Popular culture is pervasive in modern societies and comes in many forms both in and out of the mainstream from pop songs, TV series, and fashion trends to Manga, Burning Man, and Furries. Thanks to social media and the Internet pop culture morphs and spreads rapidly from person to person, across time and space, making it a global culture. As a scientific approach to studying the moving parts that make societies tick, sociology is well suited to helping us make sense of a topic this diverse and complex. To make the topic of pop culture more manageable for a single course, students will explore how popular culture is shaped by the social dividing lines commonly found in modern societies and in turn helps to shape how factors such as race, social class, gender, sexuality, and nationality affect people's lives. The course is organized to meet two instructional goals. First, to demonstrate to students how questions about pop culture stemming from varied sociological perspectives can be answered using different research methods. Second, to help students think sociologically about pop culture by helping them to conduct their own investigations of types and aspects of pop culture that they are curious about. Along the way the class will discuss such issues as creativity and innovation in culture production; the commercialization of popular culture; cultural capital and social distinctions; popular culture as an identity resource; the political uses of pop culture; subcultural deviance; music scenes; cultural colonialism and hybridization; YouTube stars, "binge-watching," and the latest pop culture trends and developments. The hope is that by studying popular culture as part of social processes and human relationships students become more sociologically savvy observers of their cultural environment and gain a richer awareness of the significance of popular culture in their own lives. Practically speaking, the course offers students a foundation for further study in sociology and related social sciences, as well as academic and applied disciplines that focus on popular culture and other types of art and culture.

SOC 409: Racial and Ethnic Inequality in America (3 Credits)
Old Listing Effective Through Spring 2024:

The impact of inequality and discrimination on individual and group identity among various racial and ethnic groups.

SOC 409 / AFAM 409 Racial and Ethnic Inequality in America (3) (US) (BA) This course meets the Bachelor of Arts degree requirements. This course explores the impact of inequality and discrimination on individual and group identity for a wide range of social groups with special focus on racial and ethnic majorities and minorities. Using an extensive list of readings, writing assignments, small group activities, and journals (for personal reflection and scholarly critique) the students join the instructor in exploring the effects of inequality and discrimination. While emphasis is given to the inequality and discrimination experienced by local and national populations, a significant portion of the class will address issues rooted in international structures and institutions. Students are evaluated on quizzes, reaction papers, and analysis journals. AFAM 409 / SOC 409 is not a required course in Sociology; it is, however, an optional 400-level course for all majors and minors that fulfills one of their upper-level course requirements. AFAM 409 / SOC 409 is not required for the major or minor, but it is one of several optional courses from which they can choose to fulfill major and minor requirements.

Changes Effective Summer 2024:

- Changed Course Description

SUR 241: Surveying Measurement Analysis (3 Credits)
Old Listing Effective Through Spring 2024:

Statistical error analysis of surveying measurements; propagation of random errors; confidence intervals and statistical testing. Lab. SUR 241 Surveying Measurement Analysis (3) Surveying Measurement Analysis explores the fundamental concepts of statistical error analysis with applications to surveying measurements. It covers the normal distribution function and theories describing the fundamental procedures in data including measures of central tendency and measures of data variation. It then explores sampling distribution theory and develops statistical confidence intervals and testing using the χ^2 , students t, and F distributions. Fundamental concepts in the propagation of variance are developed and applied to the traditional surveying observations of angles, distances, azimuths, elevation differences. These error propagation techniques are further used to explore the propagation of variance in traditional traverse computations. The accompanying lab exercises help reinforce and validate the theoretical foundations of this class.

SUR 313: Integrated Surveying (3 Credits)

Old Listing Effective Through Spring 2024:

Control, boundary, mapping and construction surveys; survey planning, coordinating; report and record map preparation. SUR 313 Integrated Surveying (3) SUR 313 is intended for SRT and SUR E students in their last year in the programs. Objectives of SUR 313 are directed toward providing instruction and practical experience in activities common in surveying practice, experience requiring the integration of virtually all abilities gained in previous surveying courses. The class is organized as a student surveying company with the instructor as general supervisor. Objective 1 of the student surveying company is to analyze a letter from a client (the instructor) requesting a survey. The letter will request a survey (typically ALTA boundary or construction). The client letter will specify standards (ALTA and other) the survey is to meet, standards commonly required in survey practice. The client letter will specify products to be delivered, typically a report of record of survey maps and analyses showing the degree to which required survey standards have been met. In addressing objective 1, students determine exactly what work needs to be done to satisfy client requirements. Typically these include several sub-surveys: (1) a relatively long-range satellite (GNSS) survey to bring control into the project area, (2) a traditional local control survey to create a control network to control subordinate surveys and the surveys producing what the client has requested, typically boundary retracement and mapping surveys. The result of work on objective 1 is the organization of the class into coordinating groups, one per sub-survey plus two additional groups for report compilation and editing and map production and editing. Objective 2 of the student surveying company is to develop detailed work plans for sub-surveys, report preparation and map production. The result of work on objective 2 is the set of work plans. A written contract (as a letter of understanding) between the student surveying company and the client is prepared. Objective 3 is to perform that record search, field work, data analysis, mapping and preliminary report writing for the sub-surveys necessary to meet client requirements. Objective 4 is to compile the final report of survey.

SUR 341: Adjustment Computations (3 Credits)

Old Listing Effective Through Spring 2024:

Matrix methods in least squares; random error propagation; observation equation model; conditions between parameters; basic post-adjustment statistical analysis. SUR 341 - Adjustment Computations (3) Adjustment computations covers the basic theory and mechanics of a least squares adjustment using the traditional surveying observations of distances, angles, azimuths, and elevation differences. It explores the theory of error

propagation, and uses this theory to determine the precision of indirectly measured quantities. It explores post-adjustment analysis through the use of various statistical tests, and error ellipse computation and analysis. This course primarily focuses on the least squares adjustment and analysis of differential leveling, triangulation, trilateration, traverse and network observations.

SUR 362: Introduction to Geospatial Information Engineering (3 Credits)

Old Listing Effective Through Spring 2024:

Basic concepts in geographic information engineering; spatial reference frame-works; map and text data; digital environments; software and hardware plat-forms. SUR 362 Introduction to Geospatial Information Engineering (3) Land has varied meaning and value to different cultures and generations. There is a need to manage land and its resources in order to sustain life and meet the demands of competing interests. Geospatial information technology provides a means through which data about land can be analyzed to obtain information that may be used to support land management decisions. The geospatial information engineering course is the foundation course in the surveying engineering program that introduces students to the technology. The objective of this course is course is to teach students to collect and process spatial data, analyze and make decisions, and to communicate the results using maps and other information delivery formats. This course begins with the introduction of geospatial technology and its application in decision making, resource allocation and management, a socio-economic development. Students learn the different types of data that are used in geospatial information technology. They learn about graphical data structures as well as descriptive databases and how to build them. Three spatial data models are discussed together with their advantages and drawbacks, as well as descriptive databases. Students capture various datasets from the field, convert them into usable formats, and process them using the models that have been discussed so as to reinforce the knowledge. Spatial reference systems and map projections are discussed. Procedures for performing geospatial analyses and querying databases are discussed and students conduct laboratory exercises using the field data that they captured. Map making techniques are discussed and students learn to communicate the results of analysis through maps.

Enforced Prerequisite at Enrollment: SUR 162 and SUR 272 Enforced Concurrent at Enrollment: (MATH 110 or MATH 140) and SUR 222

Changes Effective Summer 2024:

- Changed Abbreviated Title
- Changed Prerequisites
- Changed Course Description

SUR 381: Stormwater Hydraulics and Hydrology (4 Credits)

Old Listing Effective Through Spring 2024:

Hydraulics: statics, continuity, energy, friction; hydrology: rainfall, abstractions, travel time, runoff; stormwater design: sewers, culverts,

basins, erosion; municipal regulations. SUR 381 Stormwater Hydraulics and Hydrology (4) Stormwater Management Hydraulics and Hydrology is an elementary treatment of common design practices used to create stormwater management plans for small to medium sized land development projects. Erosion and sedimentation design is also addressed within the context of a stormwater management plan. The course is intended for engineering students who are not required to take formal fluid mechanics or hydrology courses, yet have a need to understand or complete the design aspects of stormwater management as it relates to their professional practice. Some state professional registration laws refer to this type of engineering design as "minor engineering" which is engineering design as it relates to land surveys connected to land development activities. Other types of "minor engineering" include street alignment, sanitary sewers, water lines, utilities and site grading. The course contains three segments. The first segment covers the elementary hydraulics necessary to design drainage structures and storm water detention facilities. These topics include fluid statics, continuity, conservation of mass, conservation of energy, friction losses, minor losses, energy grade line, open channel flow, weirs and orifices. The second segment covers elementary hydrology methods used to analyze runoff from land development sites and small to medium watersheds. The hydrology topics include watershed characteristics, rainfall, abstractions, runoff, time of concentration, peak flow methods, hydrograph methods, basic channel routing and detention basin routing. The third segment covers government regulations and common design methods used to design storm sewers, detention basins and erosion control plans. A project includes the design of a multiple-element storm sewer system, a stable open channel, a detention facility with a multiple outlet structure, and some erosion control measures.

Enforced Prerequisite at Enrollment: MATH 141 and Sixth Semester standing

Changes Effective Summer 2024:

- Changed Abbreviated Title
- Changed Course Description

SUR 455: Precise Positioning Systems (3 Credits)
Old Listing Effective Through Spring 2024:

Stellar coordinate systems; geodetic reference coordinate systems; satellite orbital theory; global positioning systems; pseudo-ranging; GPS vector adjustments.

Enforced Prerequisite at Enrollment: SUR 351 Enforced Concurrent at Enrollment: SUR 441

Changes Effective Summer 2024:

- Changed Abbreviated Title
- Changed Prerequisites
- Changed Course Description

SUR 482: Land Development Design (3 Credits)
Old Listing Effective Through Spring 2024:

The land development process; geometric, environmental, aesthetic aspects of development; local regulatory requirements; preparation of final plat and report. SUR 482 Land Development Design (3) Land development design is designed for seniors in Surveying Engineering and covers the basic principles of residential design and development. The objective of the course is to provide students with exposure to elements of the land development process from an engineering perspective. Topics

covered include land development regulations, site analysis of soils, site evaluation in terms of opportunities and constraints, sketch design, site layout, preliminary design, street layout including horizontal and vertical design, grading plan, drainage design, stormwater management, sewer and water, and erosion and sedimentation controls. Students work in teams of two or three on a design project for a local property. Students will utilize AutoCAD Civil 3D (or similar software) and the Virginia Tech/Penn State Urban Hydrology Model (VTPSUHM) (or similar) in the project design. A site visit to the design property is included in the course. At the end of the course, student teams will exchange their project designs and critique each other's work from the view point of a township engineer. Designs are evaluated for adherence to a pre-selected municipal subdivision and land development ordinance (SALDO). Students are required to present their final designs to the class. They must be prepared to explain their work and defend any design elements that are questioned during the presentation. After completion of this course, students will be able to: 1) evaluate a site for land development potential, 2) prepare sketch designs for a proposed land development site, incorporating opportunities and constraints, 3) prepare a preliminary design including street alignment for a residential subdivision, sanitary sewer for a residential subdivision, storm sewer with inlets and inverts and a grading plan; and 4) prepare a mock final plan for public review and presentation.

Enforced Prerequisite at Enrollment: SUR 212 and SUR 372W Enforced Concurrent at Enrollment: SUR 381

Changes Effective Summer 2024:

WILDL 208W: Terrestrial Wildlife Management (3 Credits) [WAC]
Old Listing Effective Through Spring 2024:

This course provides an overview of ecological characteristics of terrestrial habitats and the influence of those characteristics on wildlife populations. Course goals include (1) acquisition of knowledge related to how wildlife (at the individual and population level) interact with and are influenced by changes in their environment, (2) application of management and survey techniques (emphasized in the laboratory component of course), (3 Credits) understanding the application of techniques and principles learned in this class and others to wildlife management scenarios at the local, state, federal, and international level, (4) acquisition of critical thinking, reading, writing, and research skills, and (5) collecting and organizing data and presenting it in a professional format. Writing, editing, and peer review are emphasized.

PreRequisite: FORT 150 , FORT 160 , WILDL101 , WILDL103 , WILDL106 , WILDL204

Changes Effective Summer 2024:

- Changed Prerequisites
- Added Recommended Preparation

WILDL 213: Wetlands and Fisheries Management (4 Credits)
Old Listing Effective Through Spring 2024:

Introduction to basic limnology. Ecology and management of swamp, marsh, pond, and stream habitats and their animal populations.

PREREQUISITES: WILDL 101, WILDL 103, WILDL 106S, WILDL 204

Changes Effective Summer 2024:

- Removed Prerequisites
- Added Recommended Preparation

Course Changes: Effective Fall 2024

AE 483: Comprehensive Architectural Engineering Senior Project II - IUG (1 Credit)

Old Listing Effective Through Summer 2024:

Continuation of A.E. 482. Design of engineering systems of building; comparative analysis of systems. Formal project presentation and critique.

Changes Effective Fall 2024:

- Changed Course Title
- Changed Abbreviated Title
- Changed Credits
- Added Prerequisites
- Added Corequisites

AEE 400: Global Agriculture Education (3 Credits)

Old Listing Effective Through Summer 2024:

Development and implementation of educational programs in agriculture in developing countries. AEE 400 Educational Programs in Agriculture for Developing Countries (3) The purpose of the this course is to develop the global competency of future change agents in agricultural education so that they, in turn, can guide future learners to gain knowledge, develop skills, and acquire dispositions for living in a globally interdependent and culturally diverse world. The course is designed for all learners who wish further their ability to engage in formal and non-formal systems of agricultural education in all settings. As the enduring understandings of this course, students will develop 1) a knowledge of global agricultural education programs, 2) critical and comparative thinking skills, including the ability to think creatively and integrate knowledge, rather than unquestioning acceptance of knowledge, and 3) an ongoing willingness to seek out international or intercultural opportunities. The course is organized around five essential themes: 1) education as innovation, 2) access to education and employment, 3) program planning and evaluation, 4) types of agricultural education and 5) spaces of innovation. Learners in the course will be encouraged to develop their 21st century learning skills of communication collaboration, critical thinking, and creativity through authentic, experiential assessments curated around dynamic world issues in education related to agriculture, food, fiber and natural resources.

PreRequisite: INTAG100 or INTAG481

Changes Effective Fall 2024:

- Changed Prerequisites
- Changed Course Description

ANSC 300: Integrated Animal Biology (3 Credits) [BA]

Old Listing Effective Through Summer 2024:

An integrated study of the biology of domestic animal growth and the underlying cellular, endocrine and immune systems involved.

Enforced Concurrent at Enrollment: (BIOL 11 and BIOL 12) or BIOL 110 or at least third-semester standing

Changes Effective Fall 2024:

- Changed Course Title
- Changed Abbreviated Title
- Changed Course Description
- Removed Bachelor of Arts: Natural Sciences Attribute

ANTH 414: Microbial Anthropology: A microbial lens on the human experience (3 Credits)

Old Listing Effective Through Summer 2024:

The human body contains more microorganisms than it does its own cells, yet these complex communities of microorganisms are largely absent from Anthropology textbooks. This course investigates the interplay between microbiology and anthropology, exploring the roles that microbes play in human evolution, adaptation, health, and culture. We will first review basic concepts in microbiology (what are microbes?) and microbiome science (how is DNA useful?) and apply this understanding to core concepts in anthropology, including those that guide our understanding of living, ancient, and extinct humans. For example, what human activities or practices influenced the origins of disease, both infectious and non-infectious? How are microbes shared or transmitted during human interactions? Can microbes provide information about past human behavior or culture? How do microbes help or hinder human adaptation to new environments? This examination will be done through lectures and in-class discussions based on primary literature from different scientific fields of study. This understanding will be used to apply new interdisciplinary research approaches and see anthropology in a new light.

Recommended Preparation: ANTH 21 and ANTH 461

Changes Effective Fall 2024:

- Changed Course Title
- Changed Abbreviated Title

ART 144Z: Climate Change: Arts, Agency and Activism (3 Credits) [GA]

Old Listing Effective Through Summer 2024:

This course introduces students to contemporary art activism and environmental and humanitarian issues through research presentations, discussions and the production of artwork. It encourages students to imagine the effects of climate change and investigate how art can bring new ways of thinking about and bring a greater awareness to global issues. Media will vary depending on student ideas, it may include drawing, painting, video, sculpture, photography or installation art. Coursework integrates written, oral and visual communication. As an introductory course, assessment will be based equally on class discussion, research presentations, the content of art works produced and student's ability to articulate the synthesis of their work within the theme of climate change. ART 144Z fulfills 3 credits of the GA Domain General Education requirements. ART 144Z may also be used in combination with either BIOL 144Z or PSYCH 144Z as linked courses to fulfill 6-credits of Integrative Studies.

Changes Effective Fall 2024:

- Changed Course Number to 144
- Changed Course Description
- Removed General Education Linked Attribute

BBH 368: Neuroanatomy, Behavior, and Health (3 Credits)

Old Listing Effective Through Summer 2024:

The neuroanatomical bases of behavior, health, and disease. BB H 368 Neuroanatomy, Behavior, and Health (3) BBH 368 will examine, in detail and in depth, the relationships between the multitudinous structures of the human nervous system and their roles in monitoring and controlling all functions of the body, in behavior and in health and disease. Because of the complexity of the anatomy of the nervous system, of necessity there will be an emphasis on each student developing a three-dimensional understanding of the brain's structures and their geographic relationships to each other. For students majoring in BBH, this course provides a foundation and preparation for BBH 469 & 470, the two semester Neurobiology/Integrative Neuroscience course sequence, which assumes that the student has a basic, but detailed knowledge of the nervous system. This course will count toward fulfilling the BBH major requirement, "Take 15 credits in Biobehavioral Health." It will also count toward fulfilling the requirement of 9 credits of additional courses in the Neuroscience Minor. Upon successful completion of the course, the student should be able to: a) Identify on gross specimens and in slides of sections of the human nervous system the important nuclei, tracts and supporting structures. b) Describe the important pathways and circuits between the different components and nuclei of the human nervous system. c) Describe the role of each nucleus, tract, and circuit in controlling functions and behavior. d) Describe the expected deficits in function and behavior resulting from injury or disruption of each nucleus and tract.

Enforced Prerequisite at Enrollment: BBH 101 and (BISC 4 or BIOL 141 or PSYCH 260)

Changes Effective Fall 2024:

- Changed Prerequisites
- Changed Course Description

CE 342: Design of Steel Structures (3 Credits)

Old Listing Effective Through Summer 2024:

Design of steel tension members, beams, columns, beam-columns, and connections; elastic and plastic methods; design applications. C E 342 Design of Steel Structures (3) This is a first course in design of steel structures intended to develop a fundamental ability to evaluate and design steel tension members, beams, columns, beam-columns, composite beams, and connections. Discussion of design requirements focuses on failure mechanisms and behavior, evaluation of existing components, and the process to develop economical steel member designs. All discussions are based on the current American Institute of Steel Construction steel design specifications with an overview of historical requirements as appropriate. Students complete a design project of a multi-story, steel, commercial building that is intended to synthesize the course material and create a realistic context for the course. Weekly assignments are typically derived from the course project. Computer applications are an important component of these assignments.

Enforced Prerequisite at Enrollment: CE 336 and CE 340

Changes Effective Fall 2024:

- Changed Abbreviated Title
- Changed Prerequisites
- Added Concurrents
- Changed Course Description

CE 448W: Structural Design Capstone (3 Credits) [WAC]

Old Listing Effective Through Summer 2024:

Wind, snow, seismic, bridge loads; building design using steel, concrete, and prestressed concrete; advanced steel connections; capstone project; computer applications. C E 448W C E 448W Advanced Structural Design (3) The objectives of the course are to develop an understanding of advanced structural engineering design issues in a capstone context that will merge knowledge gained in prerequisite structural design and analysis courses. Building on concepts introduced in introductory steel building, concrete building, and foundation design, students will gain proficiency in structural conceptualization, environmental and induced load determination, modeling and analysis, detailed design of steel and concrete structures, and graphical communication.

Enforced Prerequisite At Enrollment: CE 341 and CE 342

Changes Effective Fall 2024:

- Changed Abbreviated Title
- Changed Prerequisites
- Added Concurrents
- Changed Course Description

CED 409: Land Use Planning and Procedure (3 Credits)

Old Listing Effective Through Summer 2024:

This course provides students with an understanding of the legal and procedural aspects of land use planning as found in the United States. The emphasis of the course is to explain the sources of land use planning authority, the processes by which it is applied and the potential conflicts that arise in the application of this authority. As a result of taking this course, students will be expected to learn and explain a) the objectives of land use planning systems and a comparative analysis of these systems; b) the bases on which land use planning law and procedure is applied across the U.S.; c) policies, strategies and principles that can be applied to land use planning decisions; d) several land use planning models currently applied in American jurisdictions, including the structure of each land use planning system; e) the procedural steps used to engage the land use planning system by property owners and government officials; f) typical conflicts that arise in creating, changing or enforcing land use planning measures; g) how land use planning conflict is resolved in various systems. Student performance will be measured in two midterm exams and a final exam. The instructor reserves the right to give additional exams to aid in measuring student knowledge and understanding of course material. Each test will primarily be short essays questions that ask for an explanation, discussion, comparison or application of specific concepts and principles. Case studies also will be used to present students with situations to hone their analytical, organizational and problem solving skills on specific problem situations. This will ask students to analyze a given set of facts, assess the issues raised by the facts from the perspectives of individuals who are described in the situation and form and present a response that addresses a specific question posed to the student.

Prerequisite: 6 credits of CED

Changes Effective Fall 2024:

- Changed Prerequisites
- Changed Course Description

**CEDEV 430: Principles of Local Economic Development (3 Credits)
Old Listing Effective Through Summer 2024:**

Concepts, strategies, and techniques of local economic analysis, planning, and development; case studies and decision-making exercises. CEDEV 430 CEDEV (AG EC) 430 Principles of Economic Development Planning (3) This course is designed to introduce the issues giving rise to concern for rural and regional economies, and the theories, concepts and tools of rural and regional economic development. The goal is to integrate theory and practice and apply them to economic development problems. Tools are presented in a "how to" manner. Topics include current issues in rural economies, the economic view of rural development; business retention, expansion and location; entrepreneurship and its role in the economy; understanding the local economic structure and the forces of change; introduction to economic growth theories; export base theory and economic base analysis; the role of labor and capital in development; techniques of market area, central place, shift-share and input-output analysis; policies of local economic development and growth.

PreRequisite: introductory course in economics

Changes Effective Fall 2024:

- Changed Prerequisites
- Changed Course Description

**COMM 118H: Introduction to Media Effects (3 Credits: Maximum of 3 Credits) [GS] [H]
Old Listing Effective Through Summer 2024:**

Examination of individuals' selection, uses and perceptions of media and the effects of media on individuals' attitudes, beliefs, and behaviors.

Changes Effective Fall 2024:

- Changed Course Description

**COMM 292: Introduction to Media & Politics (3 Credits)
Old Listing Effective Through Summer 2024:**

This course explores the intersection of media and politics, introducing students to the critical analysis of mediated political discourse. COMM 292 Introduction to Media & Politics (3) (GH) COMM 292 examines how mass media and political institutions interact to shape public thinking and debates around social goals, priorities, and policies. The course explores how media structures, routines, and practices shape political decision making; how political forces influence mass media institutions; and how public opinion and media audiences are formed. Students will gain an understanding of these issues through in-depth case studies, class discussions, and written assignments, helping students to develop their own informed views and to learn to express them constructively. The course is designed for both Communications majors and other students with an interest in media and politics.

Changes Effective Fall 2024:

- Added General Education: Humanities (GH) Attribute

DS 340W: Applied Data Sciences (3 Credits: Maximum of 3 Credits) [WAC]**Old Listing Effective Through Summer 2024:**

This course builds up the students' understanding of data sciences by discussing the fundamental principles in the context of real-world examples, and then shows specifically how the principles can provide understanding of many of the most common methods and techniques covered in previous data science courses. The course features three individual projects as well as a team project spanning the entire course. After taking this course, the students should be able to cover the entire pipeline of a data science project, from problem formulation to data science solutions. That is, start from a data driven problem, identify pertinent datasets to the problem and collect data, reason about the best techniques that should be used to solve the problem, implement algorithms and models, assess performance, and communicate actionable insights through both written reports and oral presentations. As one example, a fundamental principle of data science is that solutions for extracting useful knowledge from data must carefully consider the problem in the real world scenarios. This may sound obvious at first, but the notion underlies many choices that must be made in the process of data analytics, including problem formulation, method choice, solution evaluation, and general strategy formulation. Another fundamental principle is that predictive modeling can both inform and be informed by relevant knowledge (including theories, models, frameworks) of the relevant domains. This principle manifests itself throughout data science: in the specific design of many particular data sciences applications, and more generally as the basis for all intelligent solutions. In this course, this principle will be highlighted by case studies from multiple domains so that students can be inspired to apply this principle to their term projects. Lastly, as most data science projects are delivered as solutions as opposed to software deliverables, the ability for data scientists to communicate their results through concise and actionable insights plays a critical role in a data science project. This course places a particular focus on developing student writing abilities, through formal project reports and presentations. The individual projects will offer an interactive experience for students through feedbacks on their reports provided by the instructor. The term-long project will also train students in writing in a collaborative environment.

Enforced Prerequisite at Enrollment: DS 300 and (DS 310 or CMPSC 448). Recommended Preparation: DS 330.

Changes Effective Fall 2024:

- Changed Prerequisites

**EMET 326: Mechanical Drives (3 Credits)
Old Listing Effective Through Summer 2024:**

Transmission of force and motion using linkages, cams, gears, belts, and hydraulic and pneumatic drives. EMET 326 Mechanical Drives (3) EMET 326 is designed to provide the students with the knowledge of various mechanical drives used in engineering. The course introduces the concepts displacement, velocity and acceleration analysis of linkages, cams, gears and belts. Instructor may employ purely geometric methods or combine it with vector approaches. Differential and integral calculus for some of the topics and may considering using techniques of optimizations for mechanism synthesis. Static and dynamic force analysis of linkages is studied.

Enforced Prerequisite at Enrollment: EMET 222

Changes Effective Fall 2024:

- Changed Prerequisites

**EMET 403: Electromechanical Design Project Preparation (1 Credit)
Old Listing Effective Through Summer 2024:**

This course involves the planning and preliminary design activities for the capstone electro-mechanical design project. EMET 403 Electromechanical Design Project Preparation (1) EMET 403, Electromechanical Design Project Preparation, involves the planning and development of a design plan for a project to be completed in the capstone electro-mechanical project design course, EMET 440, which is required for all Electro-Mechanical Engineering Technology baccalaureate degree students. Both EMET 403 and EMET 440 require formal report writing, project documentation, and group presentations. In EMET 403, students will present design plans to a faculty panel for review and approval. In this planning and design development process, students will be required to follow a rigorous design methodology. To support the process, EMET 403 will include instruction in the use of project management software, and students will undergo the typical process of periodic design reviews and critiques as their plans evolve. Finally, EMET 403 is a team-based course. All project designs will be prepared by teams of two or more students. Generally, these same teams will be maintained through actual completion of the project in the following project design course, EMET 440. Because of this linkage of EMET 403 and EMET 440, both in design plans and team structure, it is essential that students schedule EMET 403 in the semester immediately prior to the semester in which they will register for EMET 440.

Enforced Prerequisite at Enrollment: Seventh semester standing

Changes Effective Fall 2024:

- Changed Prerequisites
- Added Concurrents

**EMET 440: Electro-Mechanical Project Design (3 Credits)
Old Listing Effective Through Summer 2024:**

Planning, development, and implementation of electro-mechanical design project; includes formal report writing, project documentation, group presentations, project demonstrations. EMET 440 Electro-Mechanical Project Design (3) Electro-Mechanical Project Design is to provide students with theoretical and practical experience associated with the integration of the various disciplines within the field of electromechanical engineering technology. Students working in teams will employ previously developed and approved design plans to construct, demonstrate, and document an integrated, electromechanical system. Plans for designs will come from the results of the project design preparation course, EMET 403, conducted in the immediately preceding semester. Thus students in EMET 440 are expected to have participated in the design development process that occurred in that same offering of EMET 403. Projects will be required to use a variety of electromechanical equipment, including such items as robots, machine vision systems, programmable logic controllers, personal computers, electric motors, CNC equipment, etc. Appropriate project documentation exercises, project presentations, progress reporting, budgeting and scheduling, system performance to specifications, and development of final design reports will be required elements of the course.

Enforced Prerequisites at Enrollment: EMET 325 and EMET 326 and EMET 410 and EMET 403

Changes Effective Fall 2024:

- Changed Prerequisites

**ENGL 282: TV Script Writing 2 (3 Credits)
Old Listing Effective Through Summer 2024:**

This creative writing course will further explore the specialized techniques and requirements of television script writing. Students will complete a first draft of a pilot episode (begun in ENGL281) and then revise the draft, focusing especially on the main character's story arc, plot structure, adding multiple narrative lines, scene and dialogue revision, and developing larger narrative lines for future episodes. Through script readings, discussions, writing exercises, and workshopping, students will come to understand the revision process and develop skills that can be applied to future scriptwriting.

Changes Effective Fall 2024:

- Changed Course Number to 410
- Changed Course Title
- Changed Abbreviated Title
- Added Prerequisites
- Changed Course Description

**ENGL 452: The Victorians (3 Credits) [BA]
Old Listing Effective Through Summer 2024:**

Poets such as Tennyson, Browning, Arnold, and Hopkins; also prose by writers such as Carlyle, Mill, Ruskin, and Arnold.

Enforced Prerequisite at Enrollment: ENGL 15 or ENGL 15A or ENGL 15S or ENGL 15E or ESL 15 or ENGL 30H or ENGL 30T or ENGL 137H or CAS 137H

Changes Effective Fall 2024:

- Changed Course Description

**ERM 450: Wetland Conservation (3 Credits)
Old Listing Effective Through Summer 2024:**

Wetland types, classification, functions and values; hydrology, soils, and plants; introduction to wetland identification and delineation; wetland regulations. E R M (W F S) 450 Wetland Conservation (3) Wetlands are unique ecosystems, differing in many ways from both terrestrial and aquatic environments. They provide recognized values and functions to society, although these values and functions remain difficult to quantify. The study of wetlands is interdisciplinary, requiring background knowledge in science, management and policy disciplines. This course will explore the variety of wetland types and functions, and emphasize the diverse hydrological, biological, chemical, and physical interactions that occur within wetlands. Because wetlands are recognized as valuable assets in the landscape, issues surrounding wetland management and regulation have taken on increased importance; we will address these issues as well. Topics will also include the restoration of degraded wetlands and wetland creation, along with the construction of wetlands for pollution abatement. Students will become familiar with different wetland types and how they are classified, and will develop skills in understanding the interactions between wetland hydrology, hydric soils and hydrophytic vegetation. They will also develop an understanding of important national and state policies and regulations pertaining to wetlands and their protection and delineation. Classroom assessment will be based on three cumulative exams, homework assignments, and

a final project. The course will fulfill 3 credits of electives or technical selections in the Wildlife and Fisheries Science major. Other students university-wide may be interested in the course, and the intention is to develop a course that is accessible to a wide variety of traditional and non-traditional students. For proper instruction, a technology classroom with computer projection equipment will be required. E R M 450 will be offered each fall semester. Enrollment will be limited to 60-80 students.

Enforced Prerequisite at Enrollment: ERM 300 or WFS 209

Cross-listed Courses: WFS 450

HM 304: Institutional Food Service Management (3 Credits)

Old Listing Effective Through Summer 2024:

Institutional food service management systems in the hospitality field. HM 304 Institutional Food Service Management (3) Institutional and contract food service management is in the growth stage of the hospitality industry life cycle. The objective of this course is to provide an overview of the various segments of institutional food service, including health care, life care, education, business, transportation (i.e., airlines, cruise ships), correctional and recreational services. Main topics typically include: historical overview of institutional/non-commercial food service management, exploring key markets where institutional food service management exists, key systems used in the fundamental areas of quantity food production, current and future trends effecting institutional food service management, career opportunities in the institutional food service management sector, and managed services and multi-department management. This course is an elective in the Hospitality Management program.

Enforced Prerequisite at Enrollment: a grade of C or better required in HM 201

Changes Effective Fall 2024:

- Changed Prerequisites

KINES 465: Neurobiology of Sensorimotor Stroke Rehabilitation (3 Credits)

Old Listing Effective Through Summer 2024:

This course is designed to expose students to the recent topics in motor stroke rehabilitation research through literature. KINES 465 Neurobiology of Sensorimotor Stroke Rehabilitation (3) This 3-credit course is designed to expose students to the most recent topics in motor stroke rehabilitation research through reading of current literature. The course addresses the neurobiological foundations of motor deficits in stroke, including contralesional and ipsilesional effects, current research on mechanisms of motor recovery, and the most current research on intervention strategies, such as constraint induced therapy, robot aided rehabilitation, virtual reality therapy, and sensory motor interventions. The purpose of the course is to provide an understanding of the neurophysiological and biomechanical foundations of motor deficits that occur with stroke, and of current treatment approaches. Stroke presents a significant social problem that is emphasized in current statistics reported by the American Heart Association indicating that each year, about 780,000 people in the United States experience a new or recurrent stroke. While stroke can produce deficits in perceptual, cognitive, and motor processes, this course is focused on sensorimotor deficits and associated rehabilitation interventions that tend to be employed by physical and occupational therapists in the rehabilitation environment. Sensory-motor strokes often result in weakness and deficits in voluntary movement of the limbs on the opposite side of the body as the damaged hemisphere (Contralesional). These motor deficits currently receive primary focus in occupational and physical therapy treatment for stroke. However, regardless of improvements in contralesional arm function, most patients also show deficits in coordination of the ipsilesional arm that is on the same side of the body as the damaged hemisphere. For many hemiparetic patients, functional recovery relies heavily on this arm. This class will focus on understanding both ipsilesional and contralesional motor deficits in stroke. Physiological and biomechanical mechanisms of dysfunction will be emphasized. Recovery of function will be addressed through analysis of physiological and biomechanical measures that are used to track changes in neural function. In addition, current research that is focused on developing rehabilitation intervention protocols that systematically address remediation of dysfunction, and facilitation of recovery will be discussed. Students will be guided in reading, critiquing, and presenting primary scientific manuscripts and review articles. Active discussions of presented material are encouraged, and grades are based on presentations, quizzes, and participation in class.

Enforced Prerequisite at Enrollment: KINES 360 and KINES 384

Changes Effective Fall 2024:

- Changed Prerequisites

KINES 495C: Exercise Science Practicum (3-6 Credits: Maximum of 6 Credits)

Old Listing Effective Through Summer 2024:

This course places students in the work place with the expectation that the experience will allow them the opportunity to apply and integrate content from all the courses in the program. They will be placed at professional fitness centers, rehab facilities, senior centers, and wellness centers. They will learn the day-to-day requirements of being "on the job" such as time management, record keeping, client interactions, feedback delivery, fitness program establishment and implementations, business and management practices as well as ethical considerations.

Their field experience will be focused on four in-class days during which students will collectively explore work place issues. Practicum work will be evaluated on an ongoing basis with the student intern, work place supervisor, and faculty member involved in the process. The course will take place off campus as work sites and no special on-campus facilities are required. It will be offered annually as the last course in the major.

Enforced Prerequisite at Enrollment: KINES 100 and KINES 101 and KINES 200 and KINES 202 and fifth semester standing

Changes Effective Fall 2024:

- Changed Credits

LHR 304: Labor and Employment Relations Fundamentals (3 Credits)

Old Listing Effective Through Summer 2024:

The course surveys the main elements of modern labor and employment relations systems in the U.S. and beyond. The course encourages students to use a framework for evaluating workplace outcomes according to three yardsticks: efficiency; equity; and voice. Focusing primarily on employee voice, the course introduces students to a variety of mechanisms that bring democracy, worker engagement, and worker influence to the workplace. Among these mechanisms are U.S.-style collective bargaining, non-union systems of worker involvement, European works councils, and a new variety of "alt-labor" initiatives from around the world. In its single largest unit, the course focuses on U.S. workplaces, beginning with the historical and legal foundations of the modern U.S. labor relation system. This includes units examining union organizing campaigns, collective bargaining, and dispute resolution systems. Concluding weeks of the course look at issues surrounding the push for workplace flexibility, a comparative labor relations look at other country practices (include European works councils), emerging issues in global supply chains, "alt-labor" institutions and practices, the role of gender, race, and diversity initiatives at work, and the impact of automation and artificial intelligence on the future of work.

Prerequisite: LHR 100

Changes Effective Fall 2024:

- Removed Prerequisites
- Added Bachelor of Arts: Social and Behavioral Sciences Attribute
- Added General Education Social & Behavioral Sciences (GS) Attribute

LHR 472: Work-Life Practices and Policies (3 Credits) [BA]

Old Listing Effective Through Summer 2024:

Explore the causes and consequences of conflicts between work, family, and other life commitments, and how these may be resolved. LER 472 Work-Life Practices and Policies (3)(BA) This course meets the Bachelor of Arts degree requirements. The interdisciplinary field of work-family and work-life developed as a result of middle-class women's entry into the labor force, a movement that generated conflict between family and paid work commitments. Overall, the course addresses the reasons the field developed, relevant theoretical perspectives regarding the issues, and related problems as well as proposed solutions at both the public and private sector levels. The overarching objectives of the course are to expand students' understanding of conflicts between work and family commitments, and how these might be resolved through private and public sector initiatives. Specifically, the course concerns how individuals, families, and organizations interact to help hinder the achievement of balance between work and life commitments, and relevant effects on

those involved. The changing demographics of the family, laws and trends around working time, father and mother time with children, the expanded need for elder care, work-life programs such as flextime, concierge services, paid parental leave, part-time careers, paid time-off banks, and the role of unions, corporations and government legislation are covered. The course attempts to link the likely future needs of students to broader trends in society and how balance could be achieved at the level of individuals, families, other stakeholders in the community, and for society as well. Fields of research relevant to the course include labor studies, women's studies, Industrial/Organizational psychology, the sociology of work and of family, and child development. Students will be evaluated on the basis of class participation, through two in-class examinations, and through a final written or oral project providing a chronology and analysis of an adult's work-family history.

Enforced Prerequisite at Enrollment: 3 credits in LER or LHR

Cross-listed Courses: SOC 472, WMNST 472

Changes Effective Fall 2024:

- Changed Prerequisites

LHR 475H: Labor in the Global Economy (3 Credits: Maximum of 3 Credits) [H]

Old Listing Effective Through Summer 2024:

This course focuses on how the nature of work is changing in the global economy, and the implications for economic opportunity and inequality in both . LER 475H Labor in the Global Economy (3) This seminar focuses on how the nature of work is changing in the "new economy" and the implications for economic opportunity and inequality. Sections of the course examine: theoretical approaches to understanding contemporary process of labor restructuring, including globalization, rise of multinational corporations, and growth in global supply chains; case studies of restructuring processes; and innovative labor organizing initiatives at a local, regional and global scale. This course aims to develop a framework for understanding the nature of contemporary processes of economic restructuring and its impact on the world of work. Case studies will provide a deeper understanding of how broad macro-level changes in the nature of contemporary capitalism are mediated by a variety of technological, political, and socio-economic factors in particular industries and geographic contexts. The case studies section of the course will also examine business ethics and corporate social responsibility initiatives. Finally, an in-depth look at workers' responses to these changes at different scales (local, regional, global) will help deepen our understanding of the contested nature of workplace restructuring while exploring promising strategies for improving working conditions. This is a reading-intensive course dealing with the theoretical literature on rapid economic restructuring and how this is shaping work and employment.

Prerequisite: 6.0 credits of LHR and 6th Semester standing

Changes Effective Fall 2024:

- Changed Prerequisites
- Changed Course Description

LHR 480: Current Issues in Human Resources (3 Credits)

Old Listing Effective Through Summer 2024:

Identity and race, gender and heritage, centrality and marginality, self and other, as expressed in literary works from around the world. Students will study current trends that are shaping human resources management.

These trends include information technology, internationalization, new organizational forms, changing demographics, and competitive landscape. Examples of topics include use of social media in human resource management, virtual work, managing an aging workforce and working across international boundaries. The course is case based and as such explores experiences of actual companies. Students will study and discuss the strategies, successes and failures of companies and how these issues and challenges relate to the human resources function. Timely readings that expose students to theoretical structures underlying these changes will be part of this course. In addition, because this is a current issues class, students will be expected to actively follow trending news in the business world through news media and critically examine how it is shaping the human resource management practices. This course will serve as a complement to MGMT 100, 341, 441 and LER 100, 201, 401 and 434.

Prerequisite: LHR 305

Changes Effective Fall 2024:

- Changed Prerequisites

LLED 402: Teaching Children's Literature (3 Credits)

Old Listing Effective Through Summer 2024:

The purpose of LLED 402 is to familiarize teacher candidates with different theories and practices of teaching literature. Candidates are immersed in the study and experiences of literature and strategic models of literature instruction. Understanding that belief systems inadvertently determine the models of literature instruction educators adopt. LLED 402 asks candidates to be mindful of the diverse nature of our communities, and encourages them to strive to create literary communities that respect, value, and encourage multiple modes of expressions. The basic course goals are to help candidates to understand the importance of story in all human lives; to exhibit a wide repertoire of flexible strategies for interpreting literature; to understand socio-cultural influences upon writing and literature; to know and be able to use basic reference tools and selection guides for research; to become familiar with different genres, diverse texts, and styles; to read for sequence and for secrets; to articulate responses to literature across a variety of media; to weave into the exploration of each of these goals a struggle to understand and to accept human difference; and to understand the role that literature plays in the school curriculum. The course presents theories of teaching literature and models of literature instruction that place at the center socio-cultural practices typical of democratic literary communities. This requires knowledge of how literature and texts work in real life and in a variety of social and cultural contexts. Informed by research, standards and current practices, LLED 402 exhibits the power of literature, the complexities of students' learning and experiences with texts, and the problem solving character of teaching.

Prerequisite: 4th Semester Standing

Changes Effective Fall 2024:

- Changed Course Number to 302
- Removed Prerequisites
- Changed Course Description

MUSIC 40: First-Year Seminar in Music Education (1 Credit) [BA] [FYS]

Old Listing Effective Through Summer 2024:

Introduction to the University, the School of Music, the music education degree program, and the music teaching profession. MUSIC 040S First-Year Seminar in Music Education (1)(BA) This course meets the Bachelor of Arts degree requirements. This course is offered to music majors during their first semester who are intending to apply to the Teacher Certification Degree Program in Music Education. It provides prospective music teachers with an opportunity to: - learn about aspects of and opportunities available at the University in general. - learn about aspects of and opportunities available specifically at the PSU School of Music. - learn about the PSU music education curriculum and program. - gain a general understanding of the music teaching profession. - begin and develop a professional relationship with his/her advisor.

Changes Effective Fall 2024:

- Changed Course Title
- Changed Abbreviated Title
- Changed Course Description

MUSIC 458: Electronic Music Composition I (3 Credits) [BA]

Old Listing Effective Through Summer 2024:

An introduction to the art of composition in the electronic audio medium. MUSIC 458 Electronic Music Composition (3)(BA) This course meets the Bachelor of Arts degree requirements. Music 458 will focus on the creative craft of musical composition in the medium of electronic audio. Topics covered will include but not be limited to: recording, MIDI and digital audio techniques, study of literature and the investigation of the creative process in musical composition. Students are expected to enter the class with strong fundamentals in both music theory and MIDI and digital audio. The student will be expected to complete several projects that demonstrate both their creativity and their technical competence in the medium.

Enforced Prerequisite at Enrollment: INART 258A

Changes Effective Fall 2024:

- Changed Prerequisites

SOC 1: Introductory Sociology (3 Credits) [GS] [BA]

Old Listing Effective Through Summer 2024:

The nature and characteristics of human societies and social life. SOC 1 Introductory Sociology (3) (GS)(BA) This course meets the Bachelor of Arts degree requirements. Introductory Sociology provides perspectives and information useful in understanding all societies. The major theories (functionalism, conflict, and symbolic interactionism) and concepts provide the foundation upon which the remaining material rests. Learning how sociologists do research provides the tools for understanding the production of knowledge and for evaluating the validity of sociological assertions. Familiarity with systematic theorizing and conceptual development, along with some comprehension of the nature of the scientific method as it is applied in sociology, enhances critical reasoning. To promote a more complete understanding of human social life, both in its inherent constraints and in the opportunities it provides; the nature and reality of culture and social structure are explored. The study of socialization provides perspectives on how one becomes a member of society. Exploring social interaction adds insight into the formation of the social self and the salience of group identities and norms. Ending this first section with a discussion of social control highlights the forces of stability and change in society. The course then progresses to considerations of social stratification and inequality. The nature of privilege and oppression are discussed and considered in the

specific contexts of race, ethnicity, gender, and age. The focus then shifts to social institutions. The essential work of society is accomplished via its major institutions: family, education, health care, economy and work, religion, and politics. Applying theoretical perspectives to the form and function of these institutions enhances an understanding of how different social structures provide varying constraints and opportunities to their inhabitants. Finally, considering large-scale forces for change provides a platform to comprehend where human societies have been, are now, and might be headed. Throughout the course, the lectures as well as the textbook draw amply on cross-cultural and cross-national material. In addition, the course emphasizes the complexity of human social life and describes the many variables (social structural, cultural, interpersonal, and psychological) that influence behavior. A special component of the course deals with topics pertinent to the social behavior and norms of students of the ages typically taking this course. Depending on the faculty member, these topics could include sexual behavior, alcohol use, and problems in interpersonal relationships. Discussion and questions are encouraged in all sections. Sections of this course may include group research projects, debates, and library or internet-based research. Along with personal contact, students have the opportunity to communicate with teaching assistants and faculty members via e-mail. Writing assignments, along with in-class examinations, are required in all sections. This course meets a general education requirement in the social and behavioral sciences.

SOC 13: Juvenile Delinquency (3 Credits) [GS]
Old Listing Effective Through Summer 2024:

Juvenile conduct, causes of delinquency, current methods of treatment; organization and function of agencies concerned with delinquency.

Cross-listed Courses: CRIMJ 13

Changes Effective Fall 2024:

- Changed Course Description

SOILS 102: Introductory Soil Science Laboratory (1 Credits)
Old Listing Effective Through Summer 2024:

Laboratory exercise and field trips designed to develop student competency in soil description, analysis, and assessment. SOILS 102 Introductory Soil Science Laboratory (1) This laboratory course is designed for students who plan to work directly with soils, make land use and management decisions, or to be involved in projects requiring practical application of soil science principals. By conducting weekly laboratory and field exercises and writing reports on their work, students will deepen their understanding of, and learn to apply, the fundamental soil properties and processes introduced in SOILS 101. This laboratory course, in conjunction with the SOILS 101 lecture course, will provide foundational learning in soil science and prepare students for upper level soil science courses. This laboratory course is also designed to provide students with hands on experience in analytical procedures for soil assessment, testing, and interpretation, as well as field experience in observing, characterizing and describing soils.

Enforced Prerequisite at Enrollment: SOILS 101

Changes Effective Fall 2024:

- Removed Prerequisites
- Added Concurrents

SPAN 215: Introduction to Spanish Linguistics (3 Credits)
Old Listing Effective Through Summer 2024:

Introduction to the fundamental components of linguistics using data from the Spanish language. SPAN 215 Introduction to Spanish Linguistics (3) Spanish 215 will introduce students to the fundamental components

of linguistics (phonology, morphology, syntax, lexicon, and semantics) using data from the Spanish language. The course requires no previous knowledge of linguistics, but presupposes familiarity with Spanish at the 15 credit level or higher. The underlying purpose is to awaken students' interest in Spanish linguistics; to provide them with a foundation in the terminology and concepts necessary for studying higher level courses that are part of Spanish major and minor curricula; and to help them to decide which of the upper level classes they would be most interested in taking. Student performance in the course will be evaluated by (a) exams designed to verify their familiarity and understanding of linguistic terminology and concepts, their skill in doing phonetic transcription, and their ability to solve problems in phonology, morphology, syntax, and semantics, and (b) their preparedness and participation in classroom activities.

PreRequisite: SPAN 100

Changes Effective Fall 2024:

- Changed Number to 215Q
- Changed Course Title
- Changed Abbreviated Title
- Changed Prerequisites
- Changed Course Description
- Added Honors Attribute
- Added Bachelor of Arts: World Language (All), Bachelor of Arts: Humanities, Bachelor of Arts: World Cultures, Bachelor of Arts: Social and Behavioral Sciences Attributes
- Added General Education Inter-Domain, Humanities (GH), and Social & Behavioral Sciences (GS) Attributes

SUR 222: Photogrammetry (3 Credits)

Old Listing Effective Through Summer 2024:

Basic principles of metric photogrammetry with single and stereopair photos; coordinate transformations; map production with stereo imagery; flight planning. Lab. SUR 222 - Photogrammetry (3) Photogrammetry covers the basic principles of aerial photography and the geometry of the optics in relation to aerial cameras. Mathematical theories for refining and processing measurements from single aerial photographs are developed. Such measurements are transformed to obtain real world coordinates of features on the surface of the earth. Two-dimensional conformal, affine, and projective coordinate transformation equations and the three-dimensional conformal coordinate transformation equations are developed and applied to the measurements on the photographs. In addition, the theory underlying the geometry of stereopairs of photographs are developed and used to determine elevations of features on the photograph. Stereographic equipment and software are used to produce accurate topographic maps of the overlap areas between stereopairs. The course also covers procedures and considerations for planning an aerial photography mission which include flight planning, cost analysis, equipment selection, placement of photo controls, and overall project management.

Enforced Concurrent at Enrollment: SUR 162

Changes Effective Fall 2024:

- Added Prerequisites
- Changed Concurrents
- Changed Course Description

SUR 441: Data Analysis and Project Design (3 Credits)

Old Listing Effective Through Summer 2024:

Post least squares adjustment analysis of control networks, statistical testing, blunder detection, network design considerations, and computer optimization techniques.

Enforced Prerequisite at Enrollment: STAT 200 and SUR 341

Changes Effective Fall 2024:

- Changed Abbreviated Title
- Changed Prerequisites
- Changed Course Description

SUST 150N: The Science of Sustainable Development (3 Credits) [GN] [GS]

Old Listing Effective Through Summer 2024:

This course will focus on how human society depends on the environment for its continued existence. It will examine several major topics relating to environmental and social sustainability including ecosystem conservation, sustainability of food systems with special reference to the water-food-energy nexus, and current and future trends in urbanization. Within each of these topics, students will learn fundamental scientific principles and use this information to gain a better understanding of what human behaviors have led to our current resource production and consumption crisis. This class will explore ways people can modify behavior to relieve poverty in developing nations and meeting basic human needs while still affording economic growth, environmental protection, and social equality to all peoples around the world.

Changes Effective Fall 2024:

- Added SC 150N as Cross-Listed Course

Program Changes

Agricultural Science, B.S. (AGSC_BS)

Effective Summer 2024:

- Added C or better requirement to ENGL 15 and CAS 100 in Prescribed Courses for the Major
- Added CHEM 130 to Additional Courses for the Major
- Added C or better requirement to ENGL 202C and ENGL 202D in Additional Courses for the Major

Animal Science, B.S. (ANSC_BS)

Effective Summer 2024:

- Revised Program Description
- Changed total requirements for degree completion from 124 credits to 120 credits
- Changed General Education credits included in Requirements for the Major from 18-24 credits to 9-12 credits
- Changed Electives from 0-13 credits to 0-6 credits
- Changed Prescribed Courses for the Major from 24 credits to 27 credits
- Added ANSC 331 to Prescribed Courses for the Major
- Added C or better requirement to ANSC 100 and ANSC 290 in Prescribed Courses for the Major
- Changed Additional Courses for the Major from 21-25 credits to 18-21 credits

- Added CHEM 101, CHEM 110, CHEM 130, MICRB 106, MICRB 201, MICRB 107, MICRB 202 to Additional Courses for the Major
- Removed MATH 21, MATH 22, MATH 26, MATH 41, MATH 110, MATH 140, CMPSC 101, CMPSC 203, MATH 111, MATH 141, STAT 200, STAT 250
- Changed Supporting Courses and Related Areas for the Major from 3-5 credits to 36 credits
- Removed Business and Management Option
- Removed Science Option

Archaeological Science, B.S. (ARSCI_BS)

Effective Summer 2024:

- Program phased out

Biological Anthropology, B.S. (BANTH_BS)

Effective Summer 2024:

- Program phased out

Biological Engineering, B.S. (BE_BS)

Effective Summer 2024:

- Revised Program Description
- Changed General Education credits included in Requirements for the Major from 27 credits to 24 credits
- Changed Requirements for the Major from 110-111 credits to 107-108 credits
- Changed Common Requirements for the Major from 77 credits to 74 credits
- Added BE 404 to Prescribed Courses for the Major
- Removed BE 304 from Prescribed Courses for the Major
- Removed C or better requirement from PHYS 212 in Prescribed Courses for the Major
- Changed Additional Courses for the Major from 16 credits to 13 credits
- Removed AGBM 101, ECON 102, ECON 104 from Additional Courses for the Major

Biology, B.S. (University College) (BIOUC_BS)

Effective Fall 2024:

- Program added to Lehigh Valley campus

BioRenewable Systems, B.S. (BRS_BS)

Effective Summer 2024:

- Changed name to Agricultural and Biorenewable Systems Management
- Revised Program Description
- Changed Requirements for the Major from 106-109 credits to 106-108 credits
- Changed Prescribed Courses for the Major from 43 credits to 46 credits
- Added ABSM 300 to Prescribed Courses for the Major
- Added Supporting Courses and Related Areas for the Major
- Removed Agricultural Systems Management Option
- Removed Bioproducts Option

Cybersecurity Analytics and Operations, B.S. (CAOUC_BS)

Effective Summer 2024:

- Program phased out at Shenango campus

Electro-Mechanical Engineering Technology, B.S. (Engineering, Altoona, Berks) (EMET_BS, EMTAL_BS, EMTBK_BS)

Effective Summer 2024:

- Revised Program Description
- Changed Requirements for the Major from 110-116 credits to 109-116 credits
- Changed Prescribed Courses for the Major from 73 credits to 69 credits
- Added STS 233/PHIL 233 to Prescribed Courses for the Major
- Removed EMET 440 from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 28-33 credits to 31-37 credits
- Added EMET 350, EMET 351, EMET 403, EMET 440, EMET 441, EMET 442 to Additional Courses for the Major
- Removed ENGR 320Y, STS 200, STS 233Z/PHIL 233Z, STS 245Z from Additional Courses for the Major

Energy Engineering, B.S. (ENENG_BS)

Effective Summer 2024:

- Revised Entrance to Major Requirements
- Added ESL 15, ENGL 137H to Additional Courses for the Major

English, B.A. (Abington) (ENGAB_BA)

Effective Summer 2024:

- Traditions of Innovation Option phased out at Penn State Abington, the Abington College

Entrepreneurship and Innovation, Minor (ENTI_UMNR)

Effective Fall 2024:

- Removed Arts Cluster
- Added AEE 360, ANSC 346, FORT 250, AEE 460, FDSC 450 to the Food and Bio-Innovation Cluster
- Removed AEE 311 from the Food and Bio-Innovation Cluster
- Made HM 484 a Required Course in the Hospitality Management Cluster
- Added HM 382, HM 407, HM 435, HM 485, HM 488 to the Hospitality Management Cluster
- Removed HM 413, HM 432, HM 483, HM 496 from the Hospitality Management Cluster
- Added COMM 384, COMM 462, COMM 483 to the New Media Cluster
- Removed COMM 461, COMM 484A from the New Media Cluster
- Renamed Technology Based Entrepreneurship Cluster to Product Innovation Cluster
- Added EDSGN 367, EDSGN 467, ENGR 408 to the Product Innovation Cluster

Forensic Science, B.S. (FRNSC_BS)

Effective Summer 2024:

- Revised Entrance to Major Requirements

Gerontology, Minor (GERON_UMNR)

Effective Summer 2024:

- Changed name to Longevity, Aging and Generational Studies
- Changed Program Description

- Changed Prescribed Courses from 3 credits to 6 credits
- Added HDFS 445 to Prescribed Courses
- Removed Additional Courses
- Changed Supporting Courses and Related Areas from 9 credits to 12 credits
- Added BBH 368, BBH 416, BBH 417, BBH 420, BBH 468, BBH 469, BIOL 409, CAS 162N, CAS 253, CAS 453, ENGR 310, FIN 330, FIN 450, HDFS 210Z, HDFS 434, HDFS 448, HHD 100H, HHD 245N, HM 413, HM 483, HM 484, HPA 301, HPA 443, HPA 444, KINES 350, KINES 360, KINES 384, MGMT 215, PSYCH 244, PSYCH 260, RM 302, RM 320W, SOC 162N to Supporting Courses and Related Areas
- Removed HPA 101 from Supporting Courses and Related Areas

Human Development and Family Studies, B.S. (Health and Human Development, Altoona, Capital, University College) (HDFS_BS, HFSAL_BS, HFSCA_BS, HFSUC_BS)

Effective Fall 2024:

- Revised Program Description
- Changed Electives from 3-5 credits to 12-18 credits
- Changed Common Requirements for the Major from 30-31 credits to 42-43 credits
- Changed Prescribed Courses for the Major from 18 credits to 12 credits
- Added HDFS 216 to Prescribed Courses for the Major
- Removed HDFS 129, HDFS 315, HDFS 418 from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 12-13 credits to 30-31 credits
- Added HDFS 101N, HDFS 315Y, SOC 30, HDFS 200 to Additional Courses for the Major
- Added 15-credit Career Development and Experiential Learning Capstone requirement to Additional Courses for the Major
- Removed 3 credits of United States Cultures requirement from Additional Courses for the Major
- Renamed Life Span Human Services Option to Human Development and Family Science Option
- Changed Human Development and Family Science Option from 43-45 credits to 18 credits
- Removed Prescribed Courses for the Human Development and Family Science Option
- Changed Additional Courses for the Human Development and Family Science Option from 22-24 credits to 12 credits
- Added HDFS 405, HDFS 413, HDFS 432, HDFS 434, HDFS 447, HDFS 412, HDFS 415, HDFS 416/SOC 411, HDFS 417, HDFS 418, HDFS 424, HDFS 431, HDFS 469U, HDFS 477, SOC 430, HDFS 410, HDFS 430, HDFS 440, HDFS 465/CMAS 465 to Additional Courses for the Human Development and Family Science Option
- Removed HDFS 490, HDFS 495A, HDFS 495B, HDFS 401, HDFS 402, HDFS 495C from Additional Courses for the Human Development and Family Science Option
- Changed Supporting Courses and Related Areas for the Human Development and Family Science Option from 12 credits to 6 credits
- Renamed Life Span Developmental Science Option to Developmental Science for Health Professions Option
- Changed Developmental Science for Health Professions Option from 45 credits to 24 credits

- Removed Prescribed Courses for the Developmental Science for Health Professions Option
- Changed Additional Courses for the Developmental Science for Health Professions Option from 21 credits to 9 credits
- Added BBH 407, SOC 451, HDFS 405, HDFS 413, HDFS 432, HDFS 434, HDFS 447 to Additional Courses for the Developmental Science for Health Professions Option
- Changed Supporting Courses and Related Areas for the Developmental Science for Health Professions Option from 18 credits to 15 credits

Human Resource Management, Minor (HRMGT_UMNR)

Effective Fall 2024:

- Revised Program Description
- Changed Prescribed Courses from 9 credits to 6 credits
- Removed MGMT 440 from Prescribed Courses
- Changed Additional Courses from 2-4 credits to 3-12 credits
- Added MGMT 440, MGMT 441, MGMT 443, MGMT 445 to Additional Courses
- Removed BA 241, BA 243, BLAW 243, BLAW 341, LER 201 from Additional Courses
- Changed Supporting Courses and Related Areas from 9 credits to 0-9 credits
- Added ECON 315, ECON 410, HRM 495, PSYCH 484, MGMT 326, MGMT 331, MGMT 400, CAS 404, MGMT 433, MGMT 461 to Supporting Courses and Related Areas
- Removed LER 424, LER 425, MGMT 400, MGMT 441, MGMT 443, MGMT 445 from Supporting Courses and Related Areas

Kinesiology, Minor (KINES_UMNR)

Effective Summer 2024:

- Changed Requirements for the Minor from 18-19 credits to 18 credits
- Changed Additional Courses from 6-7 credits to 6 credits
- Added KINES 160N, KINES 303 to Supporting Courses and Related Areas
- Removed KINES 405N, KINES 410, KINES 411, KINES 419, KINES 420, KINES 421, KINES 422, KINES 423, KINES 424, KINES 425W, KINES 426, KINES 427, KINES 428, KINES 429, KINES 430W, KINES 431, KINES 439W, KINES 440, KINES 441/AMST 441, KINES 442/CAMS 442, KINES 445, KINES 446, KINES 447W, KINES 449, KINES 452, KINES 453, KINES 454, KINES 455, KINES 456, KINES 457, KINES 458, KINES 459, KINES 460, KINES 463, KINES 465, KINES 467, KINES 470, KINES 471, KINES 481W, KINES 483, KINES 484, KINES 485, KINES 488, KINES 492W, KINES 493, KINES 493W, KINES 495E, KINES 499 from Supporting Courses and Related Areas

Law and Society, B.A. (LAWSC_BA)

Effective Summer 2024:

- Revised Program Description
- Changed total requirements for degree completion from 123 credits to 120 credits
- Changed General Education credits included in Requirements for the Major from 12-15 credits to 9-15 credits
- Changed Electives from 30-36 credits to 24-30 credits
- Changed Prescribed Courses for the Major from 18 credits to 15 credits
- Added LA 201W to Prescribed Courses for the Major

- Removed LA 100, PLSC 110 from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 3-6 credits to 6 credits
- Added CAS 215, CAS 390, PLSC 10, PLSC 309, SOC 207, Courses from department list to Additional Courses for the Major
- Changed Supporting Courses and Related Areas for the Major from 12-15 credits to 15 credits
- Added CAS 252, CAS 426W, CAS 475, CRIM 12/CRIMJ 12, CRIMJ 100, CRIMJ 200, CRIMJ 420, LA 402, LA 404, LHR 458Y, PHIL 102, PHIL 119, PLSC 210N, PLSC 473, Courses from department list to Supporting Courses and Related Areas for the Major

Management, B.S. (Capital) (MNGMT_BS)

Effective Summer 2024:

- Revised Program Description
- Revised Entrance to Major Requirements
- Changed General Education credits included in Requirements for the Major from 12 credits to 18 credits
- Changed Electives from 8 credits to 5 credits
- Changed Requirements for the Major from 79 credits to 85 credits
- Changed Prescribed Courses for the Major from 46 credits to 43 credits
- Added MGMT 400 to Prescribed Courses for the Major
- Removed MIS 204, MGMT 341 from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 21 credits to 30 credits
- Added MIS 204, MIS 250 CAS 100A, CAS 100B, CAS 100C, CAS 100S, ENGL 15, ENGL 30T, ENGL 30H, ESL 15, MGMT 326, MGMT 341, MGMT 355, MGMT 365, MGMT 431, MGMT 445, MGMT 453, MGMT 461, MGMT 466 to Additional Courses for the Major
- Removed all concentrations from Additional Courses for the Major

Management, Minor (MGMT_UMNR)

Effective Summer 2024:

- New minor added

Mathematical Sciences, B.S. (MASC_BS)

Effective Summer 2024:

- Revised Program Description
- Changed Requirements for the Major from 84-99 credits to 84-97 credits
- Added EDUC 385 to Prescribed Courses for the Secondary Education in Mathematical Sciences Option
- Changed required credits of EDUC 490 from 12 credits to 9 credits in Prescribed Courses for the Secondary Education in Mathematical Sciences Option

Mathematics, B.A. (MTHBA_BA)

Effective Summer 2024:

- Changed Electives from 0-1 credits to 0-4 credits
- Changed Common Requirements for the Major from 56 credits to 53-59 credits
- Added C or better requirement to STAT 200 in Prescribed Courses for the Major
- Added CMPSC 131 to Additional Courses

- Added C or better requirement to CMPSC 101, CMPSC 121, CMPSC 201 in Additional Courses for the Major

Mathematics, B.S. (Science) (MTHBS_BS)

Effective Summer 2024:

- Changed Requirements for the Major from 80-83 credits to 80-84 credits
- Changed Common Requirements for the Major from 30-32 credits to 30-33 credits
- Changed Prescribed Courses for the Major from 24-25 credits to 24-26 credits
- Changed MATH 220 from 2 credits to 2-3 credits in Prescribed Courses for the Major
- Added CMPSC 131, CMPSC 200 to Additional Courses for the Major
- Added RM 421 to Prescribed Courses for the Actuarial Mathematics Option
- Added RM 422, STAT 380 to Additional Courses for the Actuarial Mathematics Option
- Removed MATH 461 from Additional Courses for the Applied and Industrial Mathematics Option
- Added C or better requirement to CMPSC 465 in Prescribed Courses for the Computational Mathematics Option
- Removed CMPSC 122, MATH 467, MATH 484 from Prescribed Courses for the Computational Mathematics Option
- Added CMPSC 132, MATH 467, MATH 465, CMPSC 442, MATH 452, MATH 457, MATH 484 to Additional Courses for the Computational Mathematics Option
- Added MATH 412, MATH 448 to Additional Courses for the Systems Analysis Option

Medical Laboratory Technology, A.S. (2MLT_AS)

Effective Summer 2024:

- Changed Prescribed Courses for the Major from 49 credits to 52 credits
- Added KINES 203 to Prescribed Courses for the Major
- Changed Additional Courses for the Major from 14-16 credits to 11-13 credits
- Removed CMPSC 100 and MIS 103 from Additional Courses for the Major

Materials Science and Engineering, B.S. (MATSE_BS)

Effective Summer 2024:

- Revised Entrance to Major Requirements
- Changed Prescribed Courses for the Major from 79 credits to 76 credits
- Changed Additional Courses for the Major from 19 credits to 22 credits
- Added MATSE 471, MATSE 474, MATSE 112, CHEM 112 to Additional Courses for the Major
- Removed MATSE 444, MATSE 448, MATSE 472, MATSE 474 from Additional Courses for the Major

Mechanical Engineering, B.S. (Behrend, Berks, Capital) (MEBC_BS, MEBK_BS, MECA_BS)

Effective Fall 2024:

- Added new Integrated B.S. in Mechanical Engineering and M.S. in Mechanical Engineering at Harrisburg campus

Microbiology, B.S. (MICRB_BS)

Effective Summer 2024:

- Revised Program Description
- Changed total requirements for degree completion from 125 credits to 121 credits
- Changed General Education credits included in Requirements for the Major from 15 credits to 15-18 credits
- Changed Requirements for the Major from 95 credits to 94-98 credits
- Changed Common Requirements for the Major from 95 credits to 76-77 credits
- Changed Prescribed Courses for the Major from 64 credits to 46 credits
- Added MICRB 401, MICRB 450, PPEM 456 to Prescribed Courses for the Major
- Removed BIOL 322, BMB 428, MATH 141, MICRB 202, MICRB 251, MICRB 252, PHYS 250, PHYS 251 from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 21-23 credits to 13-14 credits
- Added MICRB 203, PHYS 250, PHYS 211, PHYS 251, PHYS 212, MATH 141, STAT 200, STAT 240, STAT 250 to Additional Courses for the Major
- Removed MICRB 401, MICRB 410, MICRB 412, MICRB 415, MICRB 450, BMB 445W, BMB 448, MICRB 422, MICRB 447, BMB 408, BMB 488, BMB 496, FDSC 408, Any other MICRB 400-level course from Additional Courses for the Major
- Changed Supporting Courses and Related Areas for the Major from 8-10 credits to 17 credits
- Added General Microbiology Option
- Added Medical Microbiology Option

Music, B.M. (MUSBM_BM)

Effective Summer 2024:

- Changed total requirements for degree completion of the Composition Option from 134 credits to 133 credits
- Removed General Education credits included in Requirements for the Major
- Changed Requirements for the Major from 81-91 credits to 80-90 credits
- Added MUSIC 40, MUSIC 270 to Prescribed Courses for the Major
- Removed MUSIC 331 from Prescribed Courses for the Major
- Changed Composition Option from 55-57 credits to 54-56 credits
- Changed Prescribed Courses for the Composition Option from 42-44 credits to 41-43 credits
- Removed MUSIC 120 from Prescribed Courses for the Composition Option
- Changed Keyboard Instruments Option from 48-53 credits to 47-50 credits
- Changed Prescribed Courses for the Keyboard Instruments Option from 6 credits to 3 credits
- Removed MUSIC 129S from Prescribed Courses for the Keyboard Instruments Option

- Changed Additional Courses for the Keyboard Instruments Option from 3-6 credits to 2-3 credits
- Removed INART 258A, INART 258B from Additional Courses for the Keyboard Instruments Option
- Changed Supporting Courses and Related Areas for the Keyboard Instruments Option from 39-43 credits to 42-46 credits
- Changed Strings, Winds, Brass and Percussion Instruments Option from 47-52 credits to 46-49 credits
- Removed Prescribed Courses from the Strings, Winds, Brass and Percussion Instruments Option
- Changed Additional Courses for the Strings, Winds, Brass and Percussion Instruments Option from 9-12 credits to 8-9 credits
- Removed INART 258A, INART 258B from Additional Courses for the Strings, Winds, Brass and Percussion Instruments Option
- Changed Supporting Courses and Related Areas for the Strings, Winds, Brass and Percussion Instruments Option from 35-37 credits to 38-40 credits
- Changed Voice Option from 53-56 credits to 52-53 credits
- Changed Prescribed Courses for the Voice Option from 8 credits to 5 credits
- Removed MUSIC 129S from Prescribed Courses for the Voice Option
- Changed Additional Courses for the Voice Option from 3-6 credits to 2-3 credits
- Removed INART 258A, INART 258B from Additional Courses for the Voice Option
- Changed Supporting Courses and Related Areas for the Voice Option from 42 credits to 45 credits

Music Studies, Minor (MUSST_UMNR)

Effective Summer 2024:

- Revised Program Description
- Added MUSIC 332, MUSIC 4 to Additional Courses
- Removed MUSIC 332 from Additional Courses

Musical Arts, B.M.A. (MUBMA_BMA)

Effective Summer 2024:

- Revised Entrance to Major Requirements
- Changed General Education credits included in Requirements for the Major from 1-15 credits to 0-12 credits
- Changed Requirements for the Major from 88-90 credits to 87 credits
- Changed Prescribed Courses for the Major from 27 credits to 24 credits
- Added MUSIC 40, MUSIC 270 to Prescribed Courses for the Major
- Removed MUSIC 129S, MUSIC 331 from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 4-6 credits to 3 credits
- Removed INART 258A, INART 258B from Additional Courses for the Major
- Changed Supporting Courses and Related Courses for the Major from 57 credits to 60 credits
- Changed Applied Music Requirement in Supporting Courses and Related Courses for the Major from 21 credits to 24 credits

Music Technology, Minor (MUTEC_UMNR)

Effective Summer 2024:

- Revised Program Description
- Revised Entrance to Minor Requirements
- Changed total requirements for minor completion from 21 credits to 18 credits
- Changed Prescribed Courses from 15 credits to 12 credits
- Removed MUSIC 8 from Prescribed Courses

Nursing, B.S.N. (NURS_BSN)

Effective Fall 2024:

- RN to BSN Option phased out at Schuylkill campus

Occupational Science, B.S. (OCCSC_BS)

Effective Fall 2024:

- New program added

Organizational Leadership, B.A. (OLBA_BA)

Effective Summer 2024:

- Added program to University Park campus
- Changed total requirements for degree completion from 123 credits to 120 credits
- Changed Electives from 23-30 credits to 24-30 credits
- Changed Requirements for the Major from 36-37 credits to 33 credits
- Removed Supporting Courses and Related Areas section

Organizational Leadership, B.S. (OLBS_BS)

Effective Summer 2024:

- Added program to University Park campus
- Changed total requirements for degree completion from 123 credits to 120 credits
- Changed Requirements for the Major from 61-62 credits to 58-59 credits
- Changed Supporting Courses and Related Areas from 18-19 credits to 15-16 credits

Petroleum and Natural Gas Engineering, B.S. (PNGE_BS)

Effective Summer 2024:

- Revised Entrance to Major Requirements
- Changed Prescribed Courses for the Major from 99 credits to 102 credits
- Added CMPSC 201 to Prescribed Courses for the Major
- Changed required credits of PNG 490 from 1 credit to 3 credits in Prescribed Courses for the Major
- Added C or better requirement to EMSC 100S in Prescribed Courses for the Major
- Removed PNG 491, PNG 492 from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 9 credits to 6 credits
- Added ESL 15 to Additional Courses for the Major
- Removed CMPSC 201, CMPSC 202 from Additional Courses for the Major

Physical Therapist Assistant, A.S. (2PTA_AS)

Effective Summer 2024:

- Revised Retention Requirements
- Changed General Education credits included in Requirements for the Major from 9-12 credits to 12 credits

- Changed Requirements for the Major from 61 credits to 61-62 credits
- Changed Prescribed Courses for the Major from 41 credits to 39 credits
- Added C or better requirement to PSYCH 100 in Prescribed Courses for the Major
- Removed PT 290 from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 20 credits to 19-20 credits
- Added PT 290, PT 290W to Additional Courses for the Major
- Removed CAS 203, ENGL 202C, HDFS 129, HDFS 229, PSYCH 212, PSYCH 270 from Additional Courses for the Major
- Added Supporting Courses and Related Areas for the Major section

Physics, B.S. (Science) (PHYS_BS)

Effective Summer 2024:

- Changed General Education credits included in Requirements for the Major from 18-19 credits to 16-18 credits
- Changed Electives from 0 credits to 0-3 credits
- Changed Requirements for the Major from 93-96 credits to 90-97 credits
- Changed Common Requirements for the Major from 69 credits to 66-70 credits
- Changed Prescribed Courses for the Major from 59 credits to 52-56 credits
- Removed CHEM 113, MATH 251 from Prescribed Courses for the Major
- Changed MATH 220 from 2 credits to 2-3 credits in Prescribed Courses for the Major
- Changed PHYS 237 from 3 credits to 3-4 credits
- Changed PHYS 400 from 4 credits to 3-4 credits
- Changed PHYS 410 from 4 credits to 3-4 credits
- Changed Additional Courses for the Major from 7 credits to 11 credits
- Added CMPSC 204, MATH 251, MATH 250, MATH 252 to Additional Courses for the Major
- Changed Supporting Courses and Related Areas for the Computation Option
- Changed Supporting Courses and Related Areas for the Electronics Option
- Added PHYS 337, PHYS 437, PHYS 465 to Additional Courses for the General Physics Option
- Removed PHYS 413, PHYS 461 from Additional Courses for the General Physics Option
- Changed Supporting Courses and Related Areas for the General Physics Option
- Changed Medical Physics Option from 24-25 credits to 24-26 credits
- Changed Additional Courses for the Medical Physics Option from 15-16 credits to 15-17 credits
- Added CHEM 113 to Additional Courses for the Medical Physics Option
- Changed Supporting Courses and Related Areas for the Nanotechnology/Material Science Option

Premedical-Medical, B.S. (PMM_BS)

Effective Summer 2024:

- Added Retention Requirements
- Changed Electives from 0-1 credits to 0 credits

- Changed Requirements for the Major from 64-66 credits to 66 credits
- Added C or better requirement to CHEM 210, CHEM 212, CHEM 213, PHYS 211, PHYS 212, PHYS 213, PHYS 214 in Prescribed Courses for the Major
- Added Additional Courses for the Major section
- Changed Supporting Courses and Related Areas for the Major from 18-20 credits to 7-9 credits
- Changed program list requirement from 3-11 credits to 3-6 credits in Supporting Courses and Related Areas for the Major
- Removed life science with lab requirement and foreign language requirement from Supporting Courses and Related Areas for the Major

Premedicine, B.S. (PM_BS)

Effective Summer 2024:

- Changed total requirements for degree completion from 126 credits to 120 credits
- Revised Entrance to Major Requirements
- Changed Requirements for the Major from 105 credits to 99 credits
- Changed Prescribed Courses for the Major from 59 credits to 44 credits
- Removed PHIL 432, PHYS 211, PHYS 212, PHYS 213, PHYS 214 from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 16-20 credits to 28-36 credits
- Added SC 294, SC 494, CAS 453, NURS 464, PHYS 211, PHYS 212, PHYS 213, PHYS 214, PHYS 250, PHYS 251 to Additional Courses for the Major
- Changed Supporting Courses and Related Areas for the Major from 26-30 credits to 19-27 credits
- Added Area of Concentration requirement to Supporting Courses and Related Areas for the Major
- Removed foreign language requirement from Supporting Courses and Related Areas for the Major

Project and Supply Chain Management, B.S. (University College) (PSMUC_BS)

Effective Summer 2024:

- Program phased out at Schuylkill, Shenango, and Wilkes-Barre campuses

Psychology, B.A. (Behrend) (PSHBA_BA)

Effective Summer 2024:

- Revised Program Description
- Changed General Education credits included in Requirements for the Major from 0-4 credits to 13 credits
- Changed Requirements for the Major from 43 credits to 52 credits
- Changed Additional Courses for the Major from 19 credits to 25 credits
- Added ENGL 15, ENGL 30H, CAS 100A, CAS 100B, CAS 100C, ENGL 202A, ENGL 202B, ENGL 202C, ENGL 202D to Additional Courses for the Major
- Removed PSYCH 261, PSYCH 425, PSYCH 439, PSYCH 441, PSYCH 460, PSYCH 461, PSYCH 462, PSYCH 464, PSYCH 475, PSYCH 478 from Biological Bases of Behavior category in Additional Courses for the Major

- Added HDFS 129, HDFS 229 to Social/Developmental category in Additional Courses for the Major
- Removed PSYCH 412, PSYCH 413, PSYCH 414, PSYCH 415, PSYCH 416, PSYCH 420, PSYCH 421, PSYCH 423, PSYCH 424 from Social/Developmental category in Additional Courses for the Major
- Added PSYCH 263N to Cognitive/Learning category in Additional Courses for the Major
- Removed PSYCH 253, PSYCH 413, PSYCH 426, PSYCH 427, PSYCH 439, PSYCH 452, PSYCH 456, PSYCH 461 from Cognitive/Learning category in Additional Courses for the Major
- Added PSYCH 217N to Clinical/Applied category in Additional Courses for the Major
- Removed HDFS 311, HDFS 315, PSYCH 370, PSYCH 404, PSYCH 408, PSYCH 414, PSYCH 419, PSYCH 438, PSYCH 444, PSYCH 445, PSYCH 452, PSYCH 456, PSYCH 470, PSYCH 471, PSYCH 473, PSYCH 474, PSYCH 476, PSYCH 477, PSYCH 481, PSYCH 482, PSYCH 484, PSYCH 485 from Clinical/Applied category in Additional Courses for the Major
- Removed PSYCH 422, PSYCH 432, PSYCH 479/WMNST 471 from Diversity category in Additional Courses for the Major
- Changed Supporting Courses and Related Areas for the Major from 12 credits to 15 credits
- Added requirement for 3 additional PSYCH credits at the 200-300- or 400-level to Supporting Courses and Related Areas for the Major

Psychology, B.S. (Behrend) (PSHBS_BS)

Effective Summer 2024:

- Revised Program Description
- Changed General Education credits included in Requirements for the Major from 4 credits to 13 credits
- Changed Requirements for the Major from 64 credits to 73 credits
- Changed Common Requirements for the Major from 46 credits to 55 credits
- Changed Additional Courses for the Major from 19 credits to 25 credits
- Added ENGL 15, ENGL 30H, CAS 100A, CAS 100B, CAS 100C, ENGL 202A, ENGL 202B, ENGL 202C, ENGL 202D to Additional Courses for the Major
- Removed PSYCH 425, PSYCH 439, PSYCH 441, PSYCH 460, PSYCH 461, PSYCH 462, PSYCH 464, PSYCH 475, PSYCH 478 from Biological Bases of Behavior category in Additional Courses for the Major
- Added HDFS 129, HDFS 229 to Social/Developmental category in Additional Courses for the Major
- Removed PSYCH 412, PSYCH 413, PSYCH 414, PSYCH 415, PSYCH 416, PSYCH 420, PSYCH 421, PSYCH 423, PSYCH 424 from Social/Developmental category in Additional Courses for the Major
- Removed PSYCH 253, PSYCH 413, PSYCH 426, PSYCH 427, PSYCH 439, PSYCH 452, PSYCH 456, PSYCH 461 from Cognitive/Learning category in Additional Courses for the Major
- Added PSYCH 217N to Clinical/Applied category in Additional Courses for the Major
- Removed HDFS 311, HDFS 315, PSYCH 370, PSYCH 404, PSYCH 408, PSYCH 414, PSYCH 419, PSYCH 438, PSYCH 443, PSYCH 444, PSYCH 445, PSYCH 452, PSYCH 456, PSYCH 470, PSYCH 471, PSYCH 473, PSYCH 474, PSYCH 476, PSYCH 477, PSYCH 481, PSYCH 482, PSYCH 484, PSYCH 485 from Clinical/Applied category in Additional Courses for the Major

- Removed PSYCH 422, PSYCH 432, PSYCH 479/WMNST 471 from Diversity category in Additional Courses for the Major
- Changed Supporting Courses and Related Areas for the Major from 15 credits to 18 credits
- Added requirement for 3 additional PSYCH credits at the 200- 300- or 400-level to Supporting Courses and Related Areas for the Major
- Added new Data Analytics Option
- Added PSYCH 260A to Additional Courses for the Human Factors and Design Option
- Added Additional Courses section to Psychology in the Workplace Option
- Changed Supporting Courses and Related Areas for the Psychology in the Workplace Option from 15 credits to 12 credits
- Added PSYCH 256 to Additional Courses for the Science Option

Psychology, B.S. (Capital) (PSYC_BS)

Effective Summer 2024:

- Changed Supporting Courses and Related Areas to one 18-credit requirement from department approved list

Public Policy and Leadership Across Sectors, Minor (PBPLD_UMNR)

Effective Summer 2024:

- New minor added

Sales, Minor (SALES_UMNR)

Effective Fall 2024:

- Changed Prescribed Courses from 9 credits to 12 credits
- Added MKTG 476 to Prescribed Courses
- Changed Supporting Courses and Related Areas from 9 credits to 6 credits
- Removed MKTG 476 from Supporting Courses and Related Areas
- Added MKTG 422, MKTG 443 to Supporting Courses and Related Areas

Science, B.S. (Science, Abington, Berks, Capital, University College) (SCBS_BS, SCIAB_BS, SCIBK_BS, SCICA_BS, SCIUC_BS)

Effective Summer 2024:

- Changed name to Integrative Science
- Revised Program Description
- Revised Entrance to Major Requirements
- Changed total requirements for degree completion for the options in General Science; Biological Sciences and Health Professions; Legal Studies, Government Service, Public Policy; Life Science; and Mathematical Science from 124 credits to 120 credits
- Changed General Education credits included in Requirements for the Major from 15 credits to 13-30 credits
- Changed Requirements for the Major from 94 credits to 90-110 credits
- Changed Common Requirements for the Major from 20 credits to 16 credits
- Changed Prescribed Courses for the Major from 20 credits to 16 credits
- Removed MATH 141 from Prescribed Courses for the Major
- Added BIOL 161, BIOL 162 to Additional Courses for the General Science Option

- Removed BIOL 129, BIOL 141, BIOL 142, STAT 301, STAT 401 from Additional Courses for the General Science Option
- Changed Supporting Courses and Related Areas for the General Science Option
- Changed Additional Courses for the Biological Sciences and Health Professions Option from 24-31 credits to 24-32 credits
- Added BIOL 161, BIOL 162 to Additional Courses for the Biological Sciences and Health Professions Option
- Changed CHEM 213 to CHEM 213W in Additional Courses for the Biological Sciences and Health Professions Option
- Removed BIOL 129, BIOL 141, BIOL 142, STAT 250, STAT 301, STAT 401 from Additional Courses for the Biological Sciences and Health Professions Option
- Changed Supporting Courses and Related Areas for the Biological Sciences and Health Professions Option from 40-47 credits to 39-47 credits
- Changed Supporting Courses and Related Areas for the Biological Sciences and Health Professions Option
- Added BIOL 161, BIOL 162 to Additional Courses for the Legal Studies, Government Service, Public Policy Option
- Removed BIOL 129, BIOL 141, BIOL 142, STAT 250, STAT 301, STAT 401 from Additional Courses for the Legal Studies, Government Service, Public Policy Option
- Changed Supporting Courses and Related Areas for the Legal Studies, Government Service, Public Policy Option
- Changed Additional Courses for the Life Science Option from 24-30 credits to 24-32 credits
- Added BIOL 222, BIOL 322, STAT 200 to Additional Courses for the Life Science Option
- Removed CMPSC 101, MATH 250 from Additional Courses for the Life Science Option
- Changed Supporting Courses and Related Areas for the Life Science Option from 44-50 credits to 42-50 credits
- Changed Supporting Courses and Related Areas for the Life Science Option
- Changed Prescribed Courses for the Mathematical Science Option from 5-6 credits to 6-7 credits
- Added MATH 141 to Prescribed Courses for the Mathematical Science Option
- Removed CMPSC 122 from Prescribed Courses for the Mathematical Science Option
- Changed Additional Courses for the Mathematical Science Option from 24-29 credits to 27-34 credits
- Added CMPSC 122, CMPSC 132, CMPSC 131, STAT 200, STAT 250, STAT 318, BIOL 222, BIOL 230W, BIOL 322 to Additional Courses for the Mathematical Science Option
- Removed STAT 301, CMPSC 202 from Additional Courses for the Mathematical Science Option
- Changed Supporting Courses and Related Areas for the Mathematical Science Option from 39-45 credits to 34-41 credits
- Changed Supporting Courses and Related Areas for the Mathematical Science Option
- Added Secondary Education Option
- Removed Physical Science Option

Sociology, B.S. (Liberal Arts) (SOCBS_BS)

Effective Summer 2024:

- Revised Program Description
- Changed total requirements for degree completion from 123 credits to 120 credits
- Changed General Education credits included in Requirements for the Major from 6 credits to 6-9 credits
- Changed Electives from 21-23 credits to 22-25 credits
- Changed Requirements for the Major from 61-63 credits to 59 credits
- Changed Prescribed Courses for the Major from 17 credits to 22 credits
- Added SOC 470, STAT 184 to Prescribed Courses for the Major
- Removed STAT 480 from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 5-7 credits to 22 credits
- Added CMPSC 101, CMPSC 121, CAMPS 131, MATH 110, MATH 140, 15 credits in sociology to Additional Courses for the Major
- Removed CAS 283, MATH 441, 2-4 credits of GQ courses excluding STAT 301 from Additional Courses for the Major
- Changed Supporting Courses and Related Areas for the Major from 39 credits to 15 credits
- Replaced 18 credits in sociology and 18 credits in social sciences with Pathways in Supporting Courses and Related Areas for the Major

Sports Administration, Certificate (SPTADM_UCT)

Effective Summer 2024:

- Added MGMT 495 to requirements
- Removed Lists A, B, C from requirements
- Added tracks in Sports Business and Data Analytics, Sports Event Planning and Promotion, Sports Marketing, Sports Health and Wellness Management

Surveying Engineering, B.S. (SURE_BS)

Effective Summer 2024:

- Revised Program Description
- Changed total requirements for degree completion from 132 credits to 127-128 credits
- Changed Electives from 3-4 credits to 0-1 credits
- Changed Requirements for the Major from 110-111 credits to 108-110 credits
- Changed Prescribed Courses for the Major from 89-90 credits to 81-82 credits
- Added SUR 132, SUR 213, SUR 352, SUR 361, SUR 421, SUR 121, SUR 122, SUR 221, SUR 373W to Prescribed Courses for the Major
- Removed SUR 212, SUR 262, SUR 351, SUR 362, SUR 462, SUR 490, STAT 200, SUR 111, SUR 162, SUR 272, SUR 372W from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 15 credits to 21-22 credits
- Added CMPSC 200, STAT 401, STAT 200 to Additional Courses for the Major
- Added IE 302, SUR 362, SUR 424, SUR 432 to Supporting Courses and Related Areas for the Major
- Removed SUR 422 from Supporting Courses and Related Areas for the Major

Veterinary and Biomedical Sciences, B.S. (VBSC_BS)

Effective Summer 2024:

- Revised Program Description
- Changed total requirements for degree completion from 124 credits to 123 credits
- Changed Electives from 7-10 credits to 6-10 credits
- Changed Requirements for the Major from 87-90 credits to 86-90 credits
- Changed Prescribed Courses for the Major from 53 credits to 32 credits
- Removed MATH 140, MATH 141, MICRB 201, BIOL 110, BIOL 222, VBSC 403 from Prescribed Courses for the Major
- Changed Additional Courses for the Major from 25-28 credits to 45-49 credits
- Added MICRB 201, MICRB 201H, BA 100, ECON 14, BIOL 110, BIOL 110H, BIOL 222, BIOL 322, MATH 140, MATH 140B, MATH 141, MATH 141B, VBSC 403, VBSC 403H to Additional Courses for the Major

FAQs

1. Where can I find a list of General Education courses and information about requirements?
 - For information about General Education requirements, please see the General Education (p. 3183) section in this Bulletin.
2. The General Education requirements have changed. Do the new requirements apply to me?
 - The new General Education requirements apply to students who start at Penn State in Summer 2018 and later. Requirements have not changed for students who began at Penn State before this semester. The older set of requirements can be found in the Archives page. Additional information is available on the Office of General Education website (<https://gened.psu.edu>).
3. What does the blue keystone symbol mean?
 - The keystone indicates that the course is designated as a General Education course. See the degree requirements for your program to identify the General Education courses that are required. Not all courses marked with the keystone count as meeting General Education requirements when required within your program. See the program requirements and speak to an adviser regarding General Education courses that count or do not count toward the General Education requirements.
4. Where can I find bachelor of arts degree requirements?
 - Bachelor of arts degree requirements are included in the program requirements section for B.A. programs. You may also see the B.A. requirements in the Academic Information (p. 3153) section.
5. Where can I find a list of courses and course descriptions?
 - You may find courses and descriptions several different ways within the Bulletin. You may navigate to the full listing of courses and descriptions from the Courses (p. 3293) link in the top navigation menu. You may also scroll over any course number within the Bulletin to see the course description in a course bubble. Search for specific courses through the search option on the homepage or in the search functions throughout the Bulletin.
6. Which Undergraduate Bulletin should I use?
 - Your official record of general education requirements, University degree requirements, and program requirements is found in the Bulletin that matches the semester in which you enrolled at Penn State. See the Archive (p. 15) page to find past Bulletins.
7. Where can I find past Bulletins?
 - Past Bulletins can be found on the Archive (p. 15) page, which can be accessed from any page in the Bulletin's top navigation menu.

8. When will the Undergraduate Bulletin be updated?
 - The Bulletin will be updated at the beginning of each semester (fall, spring, and summer). Changes that occur between updates are identified on the Changes (p. 3123) page.
9. What course description information is currently showing in the Bulletin?
 - The University Bulletins shows course description data that is active as of the most recently released Schedule of Courses. When an upcoming semester's Schedule of Courses is released, the course description information is updated on the same day to match that course data. Please visit the Understanding Course Description Information (p. 3119) page to view the course description update calendar.
10. Why are there are some courses listed in the Bulletin that I can't schedule?
 - The Bulletin Course Description section displays all courses that are currently active at Penn State. Not all of these courses are taught every academic semester or year. To view courses that are available for enrollment by semester, please view the LionPATH Class Search (https://www.lionpath.psu.edu/psc/CSPRD/EMPLOYEE/HRMS/c/SA_LEARNER_SERVICES.CLASS_SEARCH.GBL?Page=SSR_CLSRCH_ENTRY&Action=U).
11. How can I do a wild card search in the search box?
 - Use an asterisk (*) in the search box as a wild card. For example, MATH* will find everything that starts with "MATH", *MATH everything that ends with "MATH", and *MATH* everything that contains "MATH".
12. Where can I find the Graduate Bulletin?
 - The Graduate Bulletin is located at: <https://bulletins.psu.edu/graduate/> (<https://bulletins.psu.edu/graduate/>).

Have a question we didn't include? Please let us know by emailing bulletins@psu.edu.

Academic Information

Administrative Enrollment Controls

Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Learn which majors currently have administrative enrollment controls (p. 3153).

Direct Admit Majors

For a limited number of majors at Penn State, incoming first-year students who meet program admission requirements are admitted directly into the major. Learn which majors currently allow direct admission by first-year students (p. 3159).

Undergraduate Degrees and Requirements

The undergraduate degree programs of the University provide students with opportunities to increase their knowledge and understanding of the world and to grow in their individual skills and capabilities for learning, analyzing, creating, communicating, and forming good judgments. Learn more about undergraduate degrees at Penn State, including policies related to academic progress, classification of undergraduate students,

degree and program types, degree requirements, entrance-to-major, graduation, and special academic programs (p. 3160).

Registration and Academic Records

Academic policies and procedures related to registration and academic records are developed by the University Faculty Senate to uphold the educational standards of the University for all students. These academic policies and procedures apply to all undergraduate students enrolled in or seeking admission to credit courses. Learn more about registration and academic records at Penn State, including policies and procedures related to courses and credits, distinction and honors, exams, grading, prior learning assessment, re-enrollment, transcripts, and withdrawals. (p. 3167)

Advising and Planning a Degree Program

To plan a program of study that will best meet individual goals and interests, students must know the requirements and restrictions of the department, college or other degree-granting unit, and the University; know the sources of academic information, especially the Undergraduate Bulletin; and work consistently with an academic adviser in examining programs and course requirements and alternatives. Learn more about available resources for planning a degree program (p. 3177).

Student Rights and Responsibilities

All students are expected to be knowledgeable of and adhere to all University academic policies and procedures. Students also are expected to both maintain Academic Integrity and follow the Student Code of Conduct. As a student at Penn State, you will develop an official educational record, which will be maintained by the University under the guidelines of the Federal Family Educational Rights and Privacy Act. Learn more about academic integrity, the Student Code of Conduct, and confidentiality of student records (p. 3181).

Administrative Enrollment Controls

Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

Below are the Administrative Enrollment Controls for first-year students entering Summer 2024, Fall 2024, and Spring 2025. Students who entered the University from Summer 2018 through Spring 2024 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (<https://bulletins.psu.edu/undergraduate/archive/>). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

In addition to satisfying the requirements listed below, a degree candidate must be enrolled in either the college housing the major or the Division of Undergraduate Studies for entrance to a major with administrative enrollment controls.

Smeal College of Business

Major	Minimum Cumulative GPA	Credit Window	Courses
Accounting, B.S. (ACCTG_BS)	3.20	36-59 graded Penn State credits (excludes transfer and AP credits)	<p>Courses required with a grade of C or better:</p> <p>English - ENGL 15 or ENGL 30H or ESL 15 or ENGL 137H or CAS 137H</p> <p>Mathematics - MATH 110 or MATH 140 or MATH 140B</p> <p>Statistics - SCM 200 or SCM 200H or STAT 200</p> <p>Accounting* - ACCTG 211 or ACCTG 211H</p> <p>Management* - MGMT 301 or MGMT 301H or MGMT 301M or MGMT 301W</p> <p>Marketing* - MKTG 301 or MKTG 301H or MKTG 301W</p> <p>Finance* - FIN 301 or FIN 301H</p> <p>Courses required, not 'C' or better:</p> <p>Economics - ECON 102 or ECON 102H</p>

Direct Admit Majors

For a limited number of majors at Penn State, incoming first-year students who meet program admission requirements are admitted directly into the major. These majors do not follow the usual entrance-to-major process that sees first-year students admitted to a Penn State college or Division of Undergraduate Studies in pre-major status before matriculating to enrollment in a major once additional program entrance requirements are completed. Instead, first-year students are admitted directly into the major at the time of admission to Penn State, provided all program requirements are met. For this reason, admission restrictions may apply for transfer and/or change-of-major students.

The list of Direct Admission majors can be found below. For more information about the admission process for a specific major, please send a request to the appropriate college, campus, or program contact (listed in the Contact tab on the program page in the Undergraduate Bulletin).

Direct Admit Majors

- Acting, B.F.A. (p. 184)
- Agribusiness Management, B.S. (p. 20) (World Campus only)
- Architecture, B.Arch. (p. 190)
- Criminal Justice, B.S. (p. 2342) (World Campus only)
- Digital Journalism and Media, B.A. (p. 309)
- Digital Multimedia Design, B.Des. (p. 222)
- Electrical Engineering Technology, B.S. (p. 854) (Engineering)
- Electro-Mechanical Engineering Technology, B.S. (p. 1756) (Altoona)
- Electro-Mechanical Engineering Technology, B.S. (p. 1913) (Berks)
- Electro-Mechanical Engineering Technology, B.S. (p. 863) (Fayette, New Kensington, York)
- Graphic Design, B.Des. (p. 226)
- History, B.A. (p. 1293) (World Campus only)
- Integrated Social Sciences, B.S. (p. 1301)
- International Politics, B.A. (p. 1304) (World Campus only)
- Labor and Human Resources, B.A. (p. 1340) (World Campus only)
- Labor and Human Resources, B.S. (p. 1346) (World Campus only)
- Landscape Architecture, B.L.A. (p. 236)
- Law and Society, B.A. (p. 1363)
- Multidisciplinary Studies, B.A. (p. 1388) (World Campus only)
- Musical Theatre, B.F.A. (p. 272)
- Nursing, B.S.N. (p. 1518)
- Organizational and Professional Communication, B.A. (p. 1394)
- Organizational and Professional Communication, B.S. (p. 1397)
- Organizational Leadership, B.A. (p. 1401)
- Organizational Leadership, B.S. (p. 1404)
- Political Science, B.A. (p. 1423) (World Campus only)
- Premedical-Medical, B.S. (p. 648)

- Recreation, Park, and Tourism Management, B.S. (p. 1020) – Professional Golf Management Option
- Surveying Engineering, B.S. (p. 929)
- Strategic Communications, B.A. (p. 339)
- Theatre, B.F.A. (p. 286) – Design and Technology Option
- Theatre, B.A. (p. 280) - Theatre Studies Option
- Turfgrass Science and Management, A.S. (p. 155)
- Turfgrass Science, B.S. (p. 157) (World Campus only)
- Workforce Education and Development, B.S. (p. 749)

Undergraduate Degrees and Requirements

The undergraduate degree programs of the University provide students with opportunities to increase their knowledge and understanding of the world and to grow in their individual skills and capabilities for learning, analyzing, creating, communicating, and forming good judgments. All undergraduate degree programs and courses offered by the colleges and other degree-granting units of the University are under the academic sponsorship of a faculty committed to scholarship and are implemented under the academic policies and student rules established by the University Faculty Senate. They are intended to be flexible in accommodating students interested in learning, whether through traditional or nontraditional offerings, while enrolled on either a part-time or a full-time basis. The degree programs and courses of the colleges and other degree-granting units are offered through resident or distance education. Credit courses are available to degree candidates on University campuses as well as through off-campus credit-granting activities such as internships, practicums, field trips, and foreign studies, as well as via continuing and distance education mechanisms, such as the World Campus. Students not formally admitted to degree candidacy (including nondegree students) may participate in resident offerings as time and space permit, as well as in continuing and distance education.

Degree and Program Types

Baccalaureate Degrees

An award signifying a rank or level of educational attainment. Particular types of baccalaureate degrees identify educational programs having common objectives and requirements. Degree programs may provide academic, preprofessional, or professional experiences and preparation. Majors lead to a baccalaureate degree. Each student must select a major within a baccalaureate degree type. If options are offered within a major, a student selects one. The student may also elect to enroll in a minor to supplement the major. Alternatively, the student may seek to enroll in multiple majors within the same type of baccalaureate degree or to enroll in a simultaneous degree program. A baccalaureate program of

study shall consist of no less than 120 credits. Students may elect to take courses beyond the minimum requirements of a degree program.

Major

A plan of study in a field of concentration within a type of baccalaureate degree. Colleges and other degree-granting units may have common requirements for all of their majors. Each major may have requirements identified in Prescribed, Additional, and Supporting Courses and Related Areas categories. Elective credits are not considered part of the major.

Option

A specialization within a major that should involve at least one-third of the course work credits required for the major, but need not be more than 18 credits. All options within a major must have in common at least one-fourth of the required course work credits in the major. A student can only be enrolled in an option within his/her own major.

Minor

A minor is defined as an academic program of at least 18 credits that supplements a major. A minor program may consist of course work in a single area or from several disciplines, with at least 6 but ordinarily not more than half of the credits at the 400 course level. Total requirements are to be specified and generally limited to 18 to 21 credits. Entrance to some minors may require the completion of a number of prerequisites, including courses, portfolios, auditions, or other forms of documentation that are not included in the total requirements for the minor. All courses for a minor require a grade of C or above.

When a student graduates, completion of a minor is recorded on his/her transcript by the Registrar, and the student receives an official certificate certifying completion of the minor. (The certificate is given with the diploma.)

Concurrent Majors/Sequential Majors

At the baccalaureate or associate degree level, students may be approved for admission to more than one major under the Concurrent Majors program. A Concurrent Majors program is one in which students take courses to concurrently meet the requirements of at least two majors, with graduation for all majors in the program occurring during the same semester. Concurrent majors must all be at the baccalaureate or associate degree level. Under the Sequential Majors program, upon graduation from an associate or baccalaureate degree program, a student may apply for re-enrollment in another undergraduate degree program.

Any student requesting more than one major program shall, for each major, meet the same acceptance standards and graduation requirements as met by all other students. Colleges and departments may identify and should publish any combinations of majors that would not be approved for more than one major program. In general, an undergraduate student may not combine a general major with a departmental major within the same college.

READ SENATE POLICY 60-00: Completing More Than One Undergraduate Major Program (Concurrent Majors and Sequential Majors) (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/60-00-completing-more-than-one-undergraduate-program/#60-00>)

READ SENATE POLICY 60-10: Concurrent Majors Program (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/60-00-completing-more-than-one-undergraduate-program/#60-10>)

READ SENATE POLICY 60-20: Sequential Majors Program (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/60-00-completing-more-than-one-undergraduate-program/#60-20>)

Associate Degrees

Majors that lead to two-year associate degrees are available at most of Penn State's undergraduate locations. These majors provide concentrated instruction to prepare graduates for specialized occupational assignments, except for the Letters, Arts, and Sciences major, which provides graduates with a general education and some specialization in their fields of interest.

More than twenty associate degree majors lead to either the Associate in Arts degree, the Associate in Engineering Technology degree, or the Associate in Science degree. Credits received for Penn State associate degree program courses may be applicable to a particular baccalaureate degree program at the discretion of the appropriate college and department. World Campus also offers two-year degrees.

Certificates

Undergraduate certificates, formal awards showing the satisfactory completion of a postsecondary educational curriculum, are designed primarily for students who are beyond the compulsory age for high school. Penn State offers credit or noncredit certificates, which are awarded in academic, vocational, and continuing professional education. Certificates often reflect emerging academic areas, necessary professional development requirements, or requirements that do not constitute degree programs. They may be supplements or enhancements to existing degree programs or may be stand-alone. For-credit certificates often provide "step-up" opportunities to degree programs allowing for milestones of progress. Certificates are not certifications, which are awarded by governmental and professional agencies.

A certificate consists of a group of courses, typically 9-15 credits, developed, supervised, and evaluated by the offering academic unit(s). Students must earn at least two-thirds (2/3) of the credits used to complete a certificate at Penn State. All credit courses for a certificate require a grade of 'C' or higher. For students enrolled in degree programs, at least six (6) credits of the certificate must be unique from the Prescribed Courses required in the major. Noncredit courses require satisfactory completion as defined by the unit offering the certificate. Requirements for a certificate may be completed at any campus location offering the specified courses for the certificate.

All students enrolling in certificates must be defined as Penn State students. New students enrolling in undergraduate credit certificates must enroll as non-degree regular students.

For certificates earned in conjunction with a major, students must declare the intent to earn the certificate prior to being awarded their associate or baccalaureate degrees. Students completing independent certificates should declare their intent to earn the certificate during the final semester of course work. Certificates cannot be awarded retroactively.

READ POLICY M-12: GUIDELINES FOR UNDERGRADUATE CREDIT CERTIFICATES (<https://undergrad.psu.edu/aappm/M-12-guidelines-undergraduate-credit-certificates.html>)

Entrance to Major

When first-semester baccalaureate degree students are admitted to the University, most are enrolled in either a specific college that offers majors

of interest or in the Division of Undergraduate Studies. Typically, students do not enter a specific major within the college until sometime between their third and fifth semesters.

Minimum Academic Requirements

All Penn State majors have entrance requirements. Students are eligible to enter a major once they have satisfied the following minimum academic requirements:

1. Meet the admissions entrance requirements of the college the student wishes to enter.
2. Demonstrate at least a C (2.00) cumulative average for all courses taken at the University subject to the conditions of Senate Policy 51-50 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/51-00-grade-point-average/#51-50>).
3. Have third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).
4. Satisfy any additional academic requirements that have been proposed by the college or the major and approved by the dean of the college and the University Faculty Senate Committee on Undergraduate Education and/or the Central Enrollment Management Group.
5. Apply no more than 91 credits of previous work toward a degree in the new college.

Please note, some majors have more restrictive academic requirements and/or administrative enrollment controls (p.). The criteria students must meet for entry to all majors are available on the "How to Get In" tab of each program in the Undergraduate Bulletin.

Students who meet the entry-to-major criteria for their choice of major can apply for entrance to that major by using LionPATH (<https://lionpath.psu.edu/>) "Update Academics."

MORE INFORMATION ABOUT ENTRANCE TO MAJOR (<https://www.registrar.psu.edu/degree-planning/entrance-major.cfm>)

Criteria

Entrance-to-Major Criteria are determined for every entering class within an academic year (summer, fall, and spring). Students who meet a major's entry criteria are guaranteed entry to the major. The criteria students must meet for entry to all majors are available at Entrance to Major Requirements on each program page. When deemed academically appropriate, the dean of the college may approve exceptions for individual students. For additional information, contact the appropriate advising center (<https://dus.psu.edu/advising-centers/>).

Procedures

Students who meet entry-to-major criteria may apply using LionPATH's "Update Academics" function. A student who wishes to enter a major with Administrative Enrollment Controls (p.) will use LionPATH's "Update Academics" to request entrance to the major. To participate in this process, students will actively request entrance to administratively controlled majors when they are within an established credit window, have completed specified courses, and have earned the stated grade-point average.

Students with questions about entering a major should contact the appropriate advising center (<https://dus.psu.edu/advising-centers/>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/#37-30>)

READ SENATE POLICY 54-56: DROPS BY COLLEGE (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-56>)

Administrative Enrollment Controls

Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Due to changing resources and demands, administrative enrollment controls (p.) are approved annually by the Office of Undergraduate Education. Examples include Accounting and Advertising/Public Relations. Entrance-to-Major Criteria must be met and Entrance-to-Major Procedures must be followed, as described in the following two paragraphs.

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/#37-30>)

Entrance to Majors with Administrative Controls Course Work

Certain courses may be required for entry to a major with administrative controls. A specific grade-point average may be required in some or all of these courses. Generally, students must complete specified courses by the end of their fourth semester of enrollment.

Performance

Applicants are considered for entrance to a controlled major on the basis of their cumulative Penn State grade-point average (GPA) at the end of the fall semester prior to their pool semester (typically the spring semester of their sophomore year). Generally, students who have a cumulative grade-point average of 3.00 or higher cannot be denied entry to the major provided that all of the other requirements for entrance have been met. However, certain controlled majors have approval for higher GPA guarantees. After all of these students have been accommodated, if there is still space, selections are made from the remaining students in the pool of applicants, starting with the highest GPA, until the approved maximum number of students to enter the major is reached. No student with less than a 2.00 cumulative GPA is accepted.

College of Enrollment

Students who apply for entrance to a controlled major must be enrolled in the college offering that major or in the Division of Undergraduate Studies (DUS). Students who want to be considered for controlled majors in more than one college should enroll in DUS to be eligible for consideration.

Exceptions

Exceptions may be considered based on the individual student's situation. Students who have concerns about entry to a major should speak to an adviser in the appropriate college or campus academic advising and information center.

Enrollment Process

If accepted for a major, the student is enrolled in that major; no additional processing is required. If rejected from all the choices that were listed on the application to major form, the student must explore other alternatives. For assistance in this process, the student may confer with advisers in appropriate academic advising centers (<https://dus.psu.edu/>

[advising-centers/](https://dus.psu.edu/)) or the Division of Undergraduate Studies. (<https://dus.psu.edu/>)

Degree Requirements

All programs have specific requirements described on the program page. Some common requirements that apply broadly across the university are described here.

General Education

General Education is the heart of the undergraduate experience. From the sciences to the arts and humanities, General Education at Penn State prepares students to thrive personally and professionally in our diverse global society. Through General Education, students acquire skills, knowledge, and experiences for living in interconnected contexts, making life better for themselves, others, and the larger world. As professions become more dynamic and career paths less predictable, the ability to place information into context through critical thinking and the ability to develop solutions to complex problems and make ethical decisions become essential skills for a resilient workforce. Creative and analytical practice prepares students of all disciplines to be resourceful in the application of their knowledge towards complex problem solving, and to communicate that knowledge in a variety of forms.

MORE INFORMATION ABOUT GENERAL EDUCATION (p. 3183)

Bachelor of Arts Degree Requirements (9-24 credits)

Courses with a Bachelor of Arts attribute satisfy these requirements.

World Language (0-12 credits)

Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits)

Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits)

Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Other University Requirements

The First Year Engagement, Cultural Diversity and Writing Across the Curriculum requirements can be found on the Other University Requirements page.

MORE INFORMATION ABOUT OTHER UNIVERSITY REQUIREMENTS (p. 3188)

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

READ SENATE POLICY 82-20: GENERAL REQUIREMENTS (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-20>)

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

READ SENATE POLICY 82-40: CUMULATIVE GRADE-POINT AVERAGE REQUIREMENTS (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-40>)

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints. For more information, check the Suggested Academic Plan for your intended program.

READ SENATE POLICY 83-80: LIMITATIONS ON SOURCE AND TIME FOR CREDIT ACQUISITION (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80a>)

Bachelor of Humanities

Bachelor of Humanities degree majors are required to take 18 credits (referenced below). In addition, students are expected to complete credits required by their college and major.

Code	Title	Credits
Prescribed Courses		
HUM 300N	Interpretations in the Humanities	3
HUM 400N	Expressions in the Humanities	3
Supporting Courses and Related Areas		
Select 1 course each from four different major/program offerings:		12
AA, AMST, ART, ARTH, CAMS, COMM, CMLIT, ENGL, HIST, INART, MUSIC, PHIL, RLST, THEA, or courses from the School of Humanities (Penn State Harrisburg, the Capital College) approved list		
<i>Total Credits</i>		18

Bachelor of Philosophy

The Bachelor of Philosophy degree is the only one not offered through any college or school but rather on a University-wide basis. This degree allows students to plan their own programs, in conjunction with a faculty preceptor, within the framework of the academic program of the University. A description of this degree is found in the Intercollege-Undergraduate Programs section of this bulletin.

Academic Progress

To graduate, a degree candidate must complete the requirements for the candidate's major and earn at least a C (2.00) average for all courses taken at this University as stated in 82-40 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-40>), subject to the conditions of 51-00 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/51-00-grade-point-average/>). When a student fails to make adequate progress towards meeting and maintaining this 2.00 grade-point average, various academic progress statuses are used to serve as notification of such failure and to assist the student in correcting his/her academic difficulties. These statuses include academic warning (54-20 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-20>)) and academic suspension (54-40 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-40>)).

READ SENATE POLICY 54-00: ACADEMIC PROGRESS (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/>)

Good Standing

A student must have a cumulative grade-point average of 2.00 or higher to be considered in good standing to declare a major and to graduate from the University. A student will receive notification at the end of each semester when his/her semester grade-point average drops below a 2.00.

READ SENATE POLICY 54-10: GOOD STANDING (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-10>)

Academic Warning

Academic warning serves as official notification that the student has failed to earn a 2.00 cumulative grade-point average. A student placed on academic warning will have a hold placed on registration and will be required to meet with an academic adviser in order for this registration hold to be removed.

A student in academic warning status may continue to enroll for classes as long as the semester grade-point average continues at a 2.00 or higher. To remove academic warning, the cumulative grade-point average must be 2.00 or higher. A student in academic warning who fails to maintain a semester grade-point average of 2.00 or higher will be academically suspended (54-40).

READ SENATE POLICY 54-20: ACADEMIC WARNING (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-20>)

Academic Suspension

Academic suspension is an official notification that a student has earned a semester grade-point average of less than 2.00 while on academic warning. A student who has been academically suspended may not enroll at the University or attend classes for two consecutive semesters (Note: Summer session is equal to one semester and includes all courses offered after Spring semester and before Fall semester).

Students with 15 or fewer recovery points may petition the Faculty Senate for a reduction in or stay of the suspension. Petitions will not be granted automatically.

A student returning from academic suspension must apply for re-enrollment as defined in policy 58-00 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/58-00-re-enrollment-as-a-degree-candidate/>) and returns to the University in warning status, with the former cumulative grade-point average, and with a hold placed on the registration. The student must follow the requirements and procedures of the college for which re-enrollment as a degree candidate is sought.

READ SENATE POLICY 54-40: ACADEMIC SUSPENSION (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-40>)

Academic Dismissal

A student who has been placed on academic suspension and fails to achieve at least a 2.00 semester GPA is subject to academic dismissal and is no longer permitted to take courses at the University. After a period of four calendar years, a student who has been academically dismissed from the University may seek re-enrollment to the University by requesting academic renewal (54-90).

READ SENATE POLICY 54-50: ACADEMIC DISMISSAL (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-50>)

Drops by Colleges

1. The dean of the college, subject to the review of the faculty of the college, may require that a candidate be disenrolled from a major in the college or from the college for failure to meet academic retention standards of the major or the college. Academic retention standards applicable to any student shall be those in effect at the time of the student's most recent admission to the major or college. A student required to disenroll from a major may transfer directly to another major subject to Section 37-00 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>) or may be admitted to the Division of Undergraduate Studies subject to Section 39-00 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/39-00-division-of-undergraduate-studies/>), expecting transfer to another major later. If not accepted for enrollment in another major or in the Division of Undergraduate Studies, the candidate will be dropped from degree status. A candidate who is disenrolled from a major and who previously has completed the allowed enrollment time limit of the Division of Undergraduate Studies, as specified in Section 39-50 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/39-00-division-of-undergraduate-studies/#39-50>), may be allowed one additional semester of enrollment in that division. Failure to relocate into another major in the specified time will cause the candidate to be dropped from degree candidacy under Section 39-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/39-00-division-of-undergraduate-studies/#39-80>) unless Section 54-52 applies.
2. The dean of the college, subject to the review of the faculty of the college, may at any time recommend to the President that a candidate enrolled in that college be dropped as a degree candidate at the University if the candidate is, in the opinion of the faculty, not adaptive to the work of the college.

READ SENATE POLICY 54-56: DROPS BY COLLEGE (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-56>)

Academic Renewal

Students, including those who have been academically warned, suspended, or dismissed, may request approval for Academic Renewal and Re-enrollment if:

- They have a cumulative grade-point average less than 2.00 and
- They have been absent from Penn State for at least four calendar years during which they have not been enrolled in any Penn State credit courses. Students may petition the Faculty Senate for early consideration of academic renewal.

If Academic Renewal is granted:

- The student's cumulative average will start over at 0.00 in academic good standing.
- All prior courses and grades remain unchanged on the student's academic record.
- The notation of Academic Renewal will be recorded on the student's transcript.
- Courses passed with a grade of "C" or better during the earlier enrollment and approved by the dean of the college may be used to fulfill graduation requirements.
- Courses taken prior to Academic Renewal will not count towards the repeated courses limit as specified in Policy 47-80.

READ SENATE POLICY 54-90: ACADEMIC RENEWAL (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-90>)

Graduation

Declare Intent to Graduate

To graduate, you must satisfy all the University, college, and major requirements that were in effect at the time of your most recent admission, or re-enrollment, as a degree candidate to the University.

Process

1. It is your responsibility to notify the University of your intent to graduate.
2. Confirm the activation period on the Academic Calendar (<https://www.registrar.psu.edu/academic-calendars/>) for the dates when you can activate your intent to graduate.
3. Using the "Apply for Graduation" link within the My Academics page in the LionPATH Student Center (<https://lionpath.psu.edu/>), you can set your intent to graduate.
 - a. View LionPATH Video Tutorial on How to Apply for Graduation (https://tutorials.lionpath.psu.edu/public/S_ApplyGrad/).
 - b. Download LionPATH Tutorial in Microsoft Word on How to Apply for Graduation (https://tutorials.lionpath.psu.edu/public/Docs/S_ApplyGraduation.docx).
4. After the activation period expires you must contact the appropriate college office to activate or remove your intent to graduate.

Unofficial programs are distributed at the commencement ceremony. If your intent to graduate is activated after the student information has been sent to the publisher, your name will not appear in the program. For fall and spring ceremonies the data is sent during the tenth week of the semester. For the summer ceremony the data is sent during the fifth week.

READ SENATE POLICY 86-00: CANDIDATE RESPONSIBILITIES AND OPTIONS (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/86-00-candidate-responsibilities-and-options/>)

Graduation Requirements

At the start of the semester in which a student expects to complete the degree requirements listed below, they should follow graduation procedures.

1. A student must satisfy all University degree requirements (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/>) that were in effect when the student first scheduled a class after their admission or most recent re-entry as a degree candidate. Both University degree requirements (including General Education) and requirements for a program (such as major, minor, option, honors) are those in effect at the time of a student's first scheduled class meeting following the most recent admission as a degree candidate. The degree audit provides students with a summary of progress toward meeting the requirements of their degree program. The audit indicates the graduation requirements that have been completed as well as those requirements that still must be satisfied.
2. Every candidate for a degree must earn a specified number of credits as a degree candidate in courses offered by the University or in approved cooperative programs established by the University Faculty Senate. For a baccalaureate degree, the minimum is 36 of a student's last 60 credits; for an associate degree, the minimum is 18 of a student's last 30 credits.
3. The last 60 credits required for a candidate's first baccalaureate degree must be earned within five calendar years. An extension of time is granted for intervening military service.
4. If a student takes course(s) at another institution prior to graduating, an official transcript listing the grades and credits earned must be received by Undergraduate Admissions, 201 Shields Building, University Park, PA 16802-1294, before commencement.
5. Cumulative grade-point average must be at least a C (2.00) or better.
6. Students must complete their courses; students with Deferred Grades (DF) or No Grades (NG) will not be allowed to graduate.
7. A student must earn at least a C grade in each course designated as a C-required course in their major.

READ SENATE POLICY 82-00 AND 83-00: DEGREE REQUIREMENTS (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/>)

Course Substitution

A student is expected to satisfy all University degree requirements (such as General Education (p. 3183), First-Year Seminar and Engagement (p. 3188), United States Cultures and International Cultures (p. 3188), Writing Across the Curriculum (p. 3188)) that were in effect when the student first scheduled a class after their admission or most recent re-enrollment as a degree candidate. Requirements for a program (such as major, minor, option, honors) are those in effect at the time of the student's admission or most recent re-enrollment into that program.

A student wishing permission to deviate in any way from program requirements must have permission from the appropriate college dean.

Guidelines for Considering Course Substitution Requests

1. The course to be substituted should be in the same area as the required course or in a closely related area.
2. Substitution of a course for a previously failed required course is seldom granted.
3. Failure to schedule a required course is not sufficient reason for granting permission for a course substitution.

Student Action

1. When working on your academic plans, discuss the possibility of a substitution with an adviser. Ideally, permission for a substitution should be obtained before you enroll in the course you wish to substitute.
2. Schedule the course to be substituted. After scheduling it, obtain pertinent forms and directions in the appropriate college dean's office to request the substitution. A course must be scheduled or completed before the substitution can be officially approved and entered on your degree audit.
3. When a substitution is approved, check your audit to verify that the substitution has been made.

Classification of Undergraduate Students

Degree Students

A degree candidate must hold a high school diploma or its equivalent. A degree candidate may be admitted as either a baccalaureate degree candidate or an associate degree candidate if the requirements specified in Senate Policies 05-00 and 06-00: Degree Candidates (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/05-00-and-06-00-degree-candidates/>) are met.

Nondegree Students

A person enrolled in a course who is not a degree candidate or degree-seeking student conditionally enrolled in DUS is classified as a nondegree student. A nondegree student must either hold a high school diploma or its equivalent to take undergraduate courses. Exceptions may be made by the Undergraduate Admissions Office for students currently enrolled in high school (dual-enrollment students).

A nondegree student who has not been academically suspended or dismissed may enroll in any number of credits, not to exceed the typical semester credit load of a full-time student if criteria 1, 2, and 3 are met. Nondegree students who change from degree candidates to nondegree or who intend to become degree candidates must also meet criterion 4.

1. The student has completed the prerequisites for the courses to be scheduled or has obtained permission from the instructor to schedule the course.
2. Space is available after degree candidates have been accommodated.
3. The student has not been dismissed or suspended for nonacademic reasons from any college or university. An applicant not in good standing at another accredited college or university for disciplinary reasons must consult with the director of the Office of Student Conduct for admissions clearance.

4. The student has obtained academic advising/counseling from an adviser/counselor designated by the academic unit to which admission, or reinstatement and re-enrollment, is desired.

Note: A student must be admitted, or reinstated and re-enrolled, as a degree candidate to apply the credits earned as a nondegree student toward fulfilling the requirements for a degree. The dean of the college of enrollment shall decide which credits may be used to fulfill the degree requirements.

Limitations to Enrollment as a Nondegree Student

A student in nondegree status may remain in that status for a maximum of 30 credits, at which time the student must be accepted into a degree program to continue taking credit courses at Penn State. If a student in nondegree status is not eligible for a degree program after completing 30 credits in that status, s/he may continue to take credit courses at Penn State only as long as a semester grade point average of more than 2.00 continues to be earned and the student has the written support of the major s/he intends to enter or re-enter. In this situation, the student must enter a degree program immediately upon reaching eligibility. Nondegree students whose cumulative grade point average is below 2.00, who have reached the 30-credit limit, are not eligible for a degree program and will be dismissed from the University at the end of the semester and may only re-enter the University through academic renewal (as defined by Senate Policy 54-90: Academic Renewal (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-90>)). Nondegree students who have reached the 30-credit limit, are in good academic standing (defined as at least a 2.00 cumulative grade point average), and do not intend to earn a degree may self-identify and continue taking credit courses at Penn State as an "enrichment course taker" for as long as a cumulative grade point average of at least 2.00 is maintained.

Obtaining an Application

A nondegree application can be obtained from the Office of the University Registrar (<https://www.registrar.psu.edu/>) or by contacting the Registrar's office at any University location.

Admission of Nondegree Student as a Degree Candidate

A nondegree student may apply for admission as a baccalaureate degree candidate with advanced standing to a college or school of the University, or to the Division of Undergraduate Studies, upon completion of at least 18 credits earned at this University with at least a 2.00 cumulative grade-point average. An applicant who has completed at least the equivalent of two years of baccalaureate degree work before applying for admission as a baccalaureate degree candidate must have the approval of either the dean of the college or school in which enrollment is desired or of the director of the Division of Undergraduate Studies if the student wants to enroll in that division. To be eligible for degree admission, the nondegree student must meet the academic requirements of the University and the college or school in effect at the time of application.

Degree-Seeking Student Conditionally Enrolled in Division of Undergraduate Studies

An applicant seeking to pursue a degree program and holding a high school diploma or its equivalent may be admitted to enroll in credit courses at the University as a degree-seeking student conditionally enrolled in the Division of Undergraduate Studies (DUS). A degree-seeking student in DUS with conditions is considered a regular student for

registration and academic advising and is entitled to all services provided to all students of the University. A degree-seeking student conditionally enrolled in DUS who is admissible to the University may enroll in credit courses if the following criteria are met:

1. The applicant provides evidence of academic success based on credentials submitted with the application; however, does not meet all criteria specified in Senate Policies 05-00 and 06-00: Degree Candidates (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/05-00-and-06-00-degree-candidates/>).
2. The applicant has not been dismissed for unsatisfactory scholarship from any other college or university previously attended.
3. The applicant has not been dismissed or suspended for nonacademic reasons from any college or university.
 - a. An applicant who has any criminal or disciplinary issues and is not in good standing at another accredited college or university must have received clearance from the Office of Student Conduct.

Special Academic Programs Environmental Emphasis Programs

The University offers a wide range of opportunities in undergraduate programs with an environmental emphasis. Programs with an emphasis on the natural world include:

- Agriculture (various fields)
- Biology (various fields)
- Earth Sciences
- Environmental Engineering
- Environmental Systems Engineering
- Geography
- Geosciences
- Meteorology

Programs stressing human use of and impact on the natural world are offered individually or jointly by various colleges. Descriptions of individual programs and related courses emphasizing study in environmental areas can be found under these listings:

College of Agricultural Sciences

- Agricultural and Extension Education, Environmental Science option
- Agroecosystems Science
- Environmental and Renewable Resource Economics
- Environmental Resource Management
- Environmental Soil Science
- Forest Science
- Landscape Contracting
- Wildlife and Fisheries Science

Penn State Altoona

- Environmental Studies

College of Arts and Architecture

School of Architecture and Landscape Architecture:

- Architecture
- Landscape Architecture

College of Earth and Mineral Sciences

- Climatology
- Earth Sciences
- Earth Systems
- Energy, Environmental, and Mineral Economics
- Environmental Systems Engineering
- Geography
- Geosciences
- Industrial Health and Safety
- Materials Science and Engineering
- Mining Engineering
- Petroleum and Natural Gas Engineering
- Watersheds and Water Resources

College of Education

- Environmental Education Teacher Certificate (contact 228 Chambers Building, University Park campus)

College of Engineering

- Aerospace Engineering
- Agricultural and Biological Engineering
- Architectural Engineering—Environmental Option
- Chemical Engineering
- Civil and Environmental Engineering
- Electrical Engineering
- Engineering Science
- Industrial and Manufacturing Engineering
- Mechanical and Nuclear Engineering
- Science, Technology, and Society

College of Health and Human Development

- Recreation and Park Management

Intercollege Undergraduate Programs

- Environmental Inquiry
- Marine Sciences

International Programs

Washington Program

More information at Donald P. Bellisario College of Communications (<https://www.bellisario.psu.edu/current/washington-program/>).

Reserve Officers' Training Corps (ROTC)

The ROTC Programs were established to develop cadets and midshipmen mentally, morally, and physically and to imbue them with the highest ideals of duty and loyalty, in order to commission college graduates as officers of character who possess a basic professional background and are motivated toward careers in military service.

MORE INFORMATION ABOUT ROTC (p. 3284)

READ SENATE POLICY 82-40: ROTC CREDIT (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-40>)

Registration and Academic Records

Academic policies and procedures related to registration and academic records are developed by the University Faculty Senate to uphold the educational standards of the University for all students. These academic policies and procedures apply to all undergraduate students enrolled in or seeking admission to credit courses.

Select the topics of interest below or the menu to the right to explore different information areas.

Classification of Students by Semester (p. 3167)

Registration Process (p. 3168)

Courses (p. 3169)

Credits (p. 3171)

Grading System (p. 3171)

Distinction and Honors (p. 3173)

Examinations (p. 3173)

Prior Learning Assessment, Opportunities for Earning Penn State Credit (p. 3173)

Re-Enrollment (p. 3175)

Withdrawal (p. 3176)

Transcripts (p. 3177)

Classification of Students by Semester

Semester classification (i.e., semester standing) is determined by a student's total credits earned. It is used by the University to establish how early a student may register, assign classes with a prerequisite semester classification, determine eligibility for change of campus, calculate tuition, and eligibility for parking on campus.

A degree candidate's semester classification is based upon the following table of total credits earned:

Total Credits Earned	Semester Classification	Status
14.0 or fewer	1	First-Year Student
14.1 to 29	2	
29.1 to 44	3	Sophomore
44.1 to 59	4	
59.1 to 74	5	Junior
74.1 to 89	6	
89.1 to 104	7	Senior
104.1 to 119	8	
119.1 to 134	9	
134.1 to 149	10	
149.1 or more	11	

READ SENATE POLICY 37-70: ENTRANCE TO AND CHANGES IN MAJOR PROGRAM OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/#37-70>)

Cumulative Credits/Total Credits

Total credits earned are used to determine a student's semester classification. Cumulative credits are used to calculate a student's grade points when grade-point average is determined. Total credits and cumulative credits are calculated every semester and reported on the student's grade report and transcript. Academic renewal requires a student's total credits and cumulative credits to be recalculated.

Total Credits

Total credits earned include Penn State credits successfully completed and indicated on the student's record by letter grades A, A-, B+, B, B-, C+, C, or D; as well as courses satisfactorily completed under the satisfactory/unsatisfactory grading system, credits earned by examination, and research credits. Total credits also include credits accepted at Penn State that have been earned in other ways, for example, credits transferred to Penn State from another institution and credits earned through the Advanced Placement Program of the College Board.

Total credits exclude courses in which a grade of F was earned and audited courses.

Cumulative Credits

Cumulative credits include the number of credits taken at Penn State and retained on the student's schedule for a letter grade, even if a grade of F was earned.

Cumulative credits exclude credits earned by other means, for example, courses that were scheduled for satisfactory/unsatisfactory grading, credits earned by examination, credits earned with a research grade, credits earned at any other institution and transferred to Penn State, credits earned through the Advanced Placement Program of the College Board, and audited courses.

READ SENATE POLICY 37-70: ACADEMIC CLASSIFICATION OF STUDENTS BY SEMESTER (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/#37-70>)

READ SENATE POLICY 51-00: GRADE-POINT AVERAGE (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/51-00-grade-point-average/>)

Registration Process

Registration Timetable

The Registration Timetable provides a schedule of when students can begin registering for classes for a specific semester. The timetable provides a chart with the minimum credits and the corresponding first date to register for each student level (e.g., undergraduate, graduate, law, nondegree). Students can determine their "minimum credits to register" by adding their total credits earned to the number of credits for which they are currently enrolled. Enrollment appointments are set in LionPATH when shopping carts open for a given semester and are not adjusted after that date.

MORE INFORMATION ABOUT THE REGISTRATION TIMETABLE (<https://www.registrar.psu.edu/registration/registration-timetable.cfm>)

Academic Registration Holds

When other means of communication with a student have failed, an academic registration hold may be activated to ensure the student is in communication with the appropriate person/office regarding his/her academic decisions. A hold can be placed when a student is violating a University or college policy or if the student's academic decisions appear to be counterproductive to his/her academic success. In addition, a hold can be used to support the operation and well-being of the academic community as a whole.

Along with not allowing students to use the registration system, an academic hold also prevents any requests for an official transcript to be processed by the Office of the University Registrar.

Types of Holds

- **Academic** (College, enrollment unit, or campus designate) to help students fully understand the implications of their academic decisions and help them resolve outstanding academic issues. (Academic registration holds are activated as soon as a student is in academic warning or suspension.)
- **Conduct** (Office of Student Conduct) as a consequence of a disciplinary proceeding and failure on the student's part to follow through with required actions for resolving an incident.
- **Financial** (Office of the Bursar, Housing) as a result of outstanding financial obligations with the university.
- **Global Programs** (International Students and Study Abroad) for an international student to ensure that proper immigration documents are completed and filed with the office as required by Department of Homeland Security regulations.
- **Medical** (University Health Services) due to health-related issues including insurance.

READ SENATE POLICY 34-30: ACADEMIC REGISTRATION HOLD (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/34-00-course-scheduling/#34-30>)

Schedule of Courses

Registration is a continuous process at Penn State, beginning with the student's first day to register and continuing until the first day of classes for the semester. Prior to the beginning of a new registration period, the University will release the Schedule of Courses for the upcoming semester. Students can view course offerings using the LionPATH Class Search. (https://public.lionpath.psu.edu/psp/CSPRD/EMPLOYEE/SA/h/?tab=PE_PT_NVT_PUBLIC_HOME)

MORE INFORMATION ABOUT THE SCHEDULE OF COURSES (<https://www.registrar.psu.edu/registration/>)

Registering for Courses

Prior to the beginning of each semester's registration period, students are required to complete the Pre-Registration Activity Guide in the LionPATH Student Center in order to be able to register for courses. The Activity Guide includes verification of emergency contact information as well as the Financial Responsibility Agreement (FRA), which confirms the student's commitment and understanding to pay all tuition charges and fees associated with registering for courses. An FRA hold will remain on a student's account and prevent him/her from registering for classes until he/she completes the Pre-Registration Activity Guide.

Once the Schedule of Courses for the upcoming semester is released, students can begin viewing the available courses using the LionPATH Class Search (https://public.lionpath.psu.edu/psp/CSPRD/EMPLOYEE/SA/h/?tab=PE_PT_NVT_PUBLIC_HOME). Students can find their first day to register for a given semester by using the Registration Timetable (<https://www.registrar.psu.edu/registration/registration-timetable.cfm>) or viewing their Enrollment Appointment Date in the LionPATH Student Center. Before registering for courses in LionPATH, students are encouraged to meet with their academic adviser to review their plan of study and progress toward fulfilling all graduation requirements.

Courses

Course-Numbering System

These course descriptions are arranged alphabetically. If any course cannot be located readily, refer to the index. Courses are numbered as follows:

Undergraduate Courses (1 to 399): General courses accepted in fulfillment of requirements for the bachelor's degrees. These courses are described in the Undergraduate Courses section (p. 3297).

Advanced Undergraduate Courses (400 to 499): Courses open to graduate students and to juniors and seniors and, with the special written permission of the head of the department or the chair of the program sponsoring the course, to qualified students in earlier semesters. These courses are described in the Undergraduate Courses section (p. 3297).

Graduate Courses (500 to 699; 800 to 899): Courses restricted to students registered in the Graduate School, seniors with an average of at least 3.50 (500- and 800-level only; excludes 600-level), and other students who have been granted permission to enroll by the dean of the Graduate School. These courses are described in the Graduate Courses section (<https://bulletins.psu.edu/university-course-descriptions/graduate/>). Undergraduate students who wish to enroll in 500- or 800-level courses should review the policy and follow the necessary procedures outlined in GCAC-507 Undergraduate Students Taking Graduate Courses (<https://gradschool.psu.edu/graduate-education-policies/gcac/gcac-500/gcac-507-undergraduate-students-taking-graduate-courses/>).

Medical Courses (700-799): Courses restricted to students registered in the College of Medicine. These courses are described in the College of Medicine Courses section (<https://bulletins.psu.edu/university-course-descriptions/medicine/>).

Law Courses (900-999): Courses restricted to students registered in Penn State Law and Dickinson Law. These courses are described in the Penn State Law Courses section (<https://bulletins.psu.edu/university-course-descriptions/pennstatelaw/>) and Dickinson Law Courses section (<https://bulletins.psu.edu/university-course-descriptions/dickinsonlaw/>).

Common Course Numbers

The following course numbers for which students may register have been set up for common use by major programs, with University Senate approval, to encourage innovation and provide flexibility in designing programs, but in no case may a course be scheduled for 0 credits.

First-Year Seminar 187. Listed under some liberal art-related academic headings, this course has prerequisites of first-semester standing and enrollment in the College of the Liberal Arts.

Research Project Courses 294, 494. 1-12 credits. Supervised student activities on research projects identified on an individual or small-group basis. A specific title may be used in each instance and will be entered on the student's transcript.

Internship 295, 395, 495. 1-18 credits. Supervised off-campus, non-group instruction including field experiences, practica, or internships. Written and oral critique of activity required. A specific title may be used in each instance and will be entered on the student's transcript.

Independent Studies 296, 496. 1-18 credits. Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. A specific title may be used in each instance and will be entered on the student's transcript.

Special Topics 97, 197, 297, 397, 497; 98, 198, 298, 398, 498. 1-9 credits. Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Several different topics may be taught in one year or semester. A specific title may be used in each instance and will be entered on the student's transcript.

Foreign Studies 99, 199, 299, 399, 499. 1-12 credits. Courses offered in foreign countries by individual or group instruction. A specific title may be used in each instance and will be entered on the student's transcript. These courses typically carry the International Cultures (IL) attribute.

Course Attributes and Suffixes

Attributes and attribute values are course designations that are used to define specific characteristics for courses. The search for specific types of courses uses attributes and attributes are the most important notation for a course to satisfy a given requirement.

Suffixes are letters that follow a course number and allow for easier identification of a course's characteristics. Not all attributes and characteristics are captured in available suffixes and suffixes are not the feature used to determine if a course satisfies a requirement. The degree audit and what-if reports use attributes, not suffixes, to determine applicability of a course to a requirement.

Bachelor of Arts

Attributes

- BA: Arts
- BA: Humanities
- BA: Natural Science
- BA: Quantification
- BA: Social and Behavioral Sci
- BA: World Cultures
- World Lang (12th unit)
- World Language (all)
- Exceeds 12th Unit

Cultural Diversity

Attributes

- International Cultures (IL)
- United States Cultures (US)

Suffixes

- U: United States Cultures and/or International Cultures and Honors
- Y: United States Cultures and/or International Cultures and Writing Across the Curriculum

General Education

Attributes

- GenEd: Writing/Speaking (GWS)
- GenEd: Quantification (GQ)
- GenEd: Arts (GA)
- GenEd: Health Wellness (GHW)
- GenEd: Humanities (GH)
- GenEd: Natural Sciences (GN)
- GenEd: Social & Beh Sci (GS)
- GenEd Integrative: Interdomain

Suffixes

- N: Inter-Domain
- Q: Inter-Domain and Honors

First-Year Engagement Program

Attribute

- First Year Seminar

Course Subject

- PSU: First-Year Seminar

Suffixes

- S: First-Year Seminar
- T: First-Year Seminar and Honors
- X: First-Year Seminar and Writing Across the Curriculum

Writing Across the Curriculum

Attribute

- Writing Across the Curriculum

Suffixes

- M: Writing Across the Curriculum and Honors
- W: Writing Across the Curriculum
- X: Writing Across the Curriculum and First-Year Seminar
- Y: Writing Across the Curriculum and United States Cultures and/or International Cultures

Honors Courses

Attribute

- Honors

Suffixes

- H: Honors
- M: Writing Across the Curriculum and Honors
- Q: Inter-Domain and Honors
- T: First-Year Seminar and Honors
- U: United States Cultures and/or International Cultures and Honors

Repeatable and Variable Credit Courses

If a course may be repeated, the words "per semester" follow the number of credits—for example (3 credits per semester). These courses may be repeated indefinitely unless the credits are followed by the maximum number of credits allowed, such as (3 per semester, maximum of 12).

Courses may have variable credits, such as (1-3), (2-6), or (3-10). Here, the larger number signifies the total credits that can be accumulated for the course over an indefinite number of semesters, unless otherwise specified. For example, a course listed with (1-6) could be taken six

semesters for 1 credit each semester, or two semesters for 3 credits each semester, or once for 6 credits, etc.

In some courses with variable credits, students may be permitted to accumulate more than the larger number shown. Such courses will be listed as, for example, (1-3 per semester, maximum of 12).

Prerequisites, Concurrent Courses, Co-Requisite Courses, and Recommended Preparation

Prerequisites, concurrent courses, and co-requisite courses approximate the necessary specific coursework or general academic knowledge, background, or semester classification required to succeed academically in a given course.

- Prerequisites are courses or other requirements that must be completed prior to the start of a given course.
- Concurrent Courses are similar to prerequisites except that they may be taken prior to, or in the same semester as, the given course.
- Co-requisite Courses are pairs of courses required to be taken together in the same semester.

Registration in a given course is limited to students who have satisfied the stated prerequisite, concurrent, or co-requisite requirements. The course instructor has the right to permit students to take the course without having the stated prerequisite, concurrent, or co-requisite requirements if the student demonstrates mastery of the material through some other means.

Recommended Preparation relates to preparatory skills or companion courses deemed useful, but not necessary, for successful completion of a course. Recommended preparation has no bearing on registration in a given course.

READ SENATE POLICY 34-60: PREREQUISITES, CONCURRENT COURSES, CO-REQUISITE COURSES, AND RECOMMENDED PREPARATION (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/34-00-course-scheduling/#34-60>)

Combined Section Classes

Multiple departments sometimes offer the same course; in LionPATH this is called a combined section class. These classes appear with the following note in the LionPATH Class Search: "This is a combined section class" and are listed with all of the departments offering the class. When a student is fulfilling the requirements of a major or a minor, a course that is cross-listed with a course required for the academic program will satisfy the requirement. A student majoring in an area of Natural Sciences, Arts, Humanities, or Social and Behavioral Sciences may not use a course in these areas that is combined with a course offered by his/her major department to satisfy a General Education requirement. A student earning a Bachelor of Arts degree may not use a course that is combined with a course offered by the department of his/her major to satisfy a B.A. requirement.

Auditing and Visiting Courses

Auditing

If a student wishes to audit a course officially and to have this fact appear on the academic record, that course must be entered on the student's schedule with the symbol AU shown under "credits." When a student audits a course, the credits become part of that semester's credit

load but are not used in the determination of full-time status (section 34-52). In addition, tuition must be paid for the audit. Audits are not considered in the determination of the credit standard for financial aid. No course may be added for audit if dropped for credit, or vice versa, after the add period. A student enrolled for official audit may be required to participate in class discussion, do practicum work, submit written work, and take examinations. See also Section 48-80, symbols for Course Audit.

MORE INFORMATION ABOUT AUDITING COURSES (<https://www.registrar.psu.edu/registration/adding-dropping-auditing-courses.cfm>)

Visiting

Students who wish to visit a course may do so, even though they are not officially enrolled for credit or for audit in that course. To visit a course, currently registered full-time students must obtain permission in advance from the course instructor. No tuition is paid for a visit. Course credits do not become part of the semester's credit load and are not entered on the student's academic record. Paragraph 1 relating to official audit is not applicable to the student who visits a course.

READ SENATE POLICY 34-68: AUDITING AND VISITING COURSES (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/34-00-course-scheduling/#34-68>)

Credits

For the typical student, a total of forty-five (45) hours of work is required to earn one credit. Course credits are earned in a variety of educational experiences. Course credit by instruction may be achieved by a variety of educational experiences that allow the student to work toward mastery of the course objectives. The Federal definition of a credit hour (used for awarding Federal student aid) provides minimum requirements that should be consistent for all credit earned by instruction regardless of delivery method. More than the minimum may be required for mastery of course objectives.

The distribution of time between class activities and outside preparation varies from course to course regardless of the type of instruction (in person, electronic, pre-recorded content delivered through resident, online, or hybrid).

READ SENATE POLICY 42-23: CREDIT REQUIREMENTS BY TYPES OF INSTRUCTION (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/42-00-acquisition-of-credit/#42-23>)

Credit Load

Enrollment Status (Semester Credit Load)

A student's credit load is one factor that determines his/her tuition costs. The Tuition and College Cost Estimator (<https://cce.ais.psu.edu/tuition-calculator-ui/#/>) can be used to determine tuition based on a student's credit load (as well as other factors: residency, semester/session, campus, college, major, and credits achieved).

Definition of Full-Time Credit Load

The University considers a student full-time if he/she schedules a total of 12 or more credits, excluding course audits (<https://www.registrar.psu.edu/registration/adding-dropping-auditing-courses.cfm>), from any combination of credit courses through resident instruction, Continuing Education, or World Campus. However, different programs and agencies may have different definitions of full-time status.

Students should check with the appropriate office(s) for information on their policies.

Definition and Implications of a Part-Time Credit Load

A student is considered part-time if he/she schedules less than 12 credits per semester. When considering part-time enrollment, students should be aware that a full-time credit load may be required by certain programs and agencies. Before scheduling less than 12 credits, students should check with the appropriate office(s) (e.g., Student Aid, Intercollegiate Athletics, International Students, Schreyer Honors College, etc.), for information on their policies.

Maintaining a Certain Credit Load (Courses with Alternative Time Frames)

Part-Semester Courses: Scheduling a part-semester course that begins after the start of the semester may allow a student to maintain full-time status.

Individualized Experiences for Credit: A student may arrange an experience such as an independent study, internship, or research project. To discuss this alternative, the student should contact a faculty member with whom he/she would like to work.

Credit Overload, more than 19 Credits

To schedule more than 19 credits, a student must add the overload (<https://www.registrar.psu.edu/registration/adding-dropping-auditing-courses.cfm>) credits during the drop/add period (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/34-00-course-scheduling/#34-89>). A tuition surcharge will be applied for each credit above 19. When determining an overload, the Office of the University Registrar counts audit credits (<https://www.registrar.psu.edu/registration/adding-dropping-auditing-courses.cfm>) as part of a semester credit load.

Grading System

Grades for undergraduate and graduate students are reported by the following letters: A, A-, B+, B, B-, C+, C, D, or F. In addition, the symbols of SA (Satisfactory) and UN (Unsatisfactory) may be recorded on a student's transcript in accordance with Senate Policy 49-60 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/#47-60>). Courses that do not carry credit shall be graded NCP if passed and NCF if failed. The symbols of W, LD (Late Drop), R (Research) (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/#49-40>), DF (Deferred Grade) (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/#48-40>), AUS (Audited, Regular/Satisfactory Attendance) (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/#48-80>), AUU (Audited, Unsatisfactory Attendance) (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/#48-80>), and CRX (Credit by Examination) (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/42-00-acquisition-of-credit/#42-50>) also may be recorded in place of grades. Note that CRX does not apply to graduate students.

READ SENATE POLICY 47-40: GRADING SYSTEM (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/#47-40>)

Grades and Grade Points

Grades are assigned to individual students on the basis of the instructor's professional judgment of the student's scholastic achievement.

Instructors should provide written (paper or electronic form) notification of the basis for grades to students on or before the first class meeting.

Grade	Grade-Point Equivalent
A	4.00
A-	3.67
B+	3.33
B	3.00
B-	2.67
C+	2.33
C	2.00
D	1.00
F	0

MORE INFORMATION ABOUT GRADES (<https://www.registrar.psu.edu/grades/grading-system.cfm>)

READ SENATE POLICIES 47-00, 48-00, AND 49-00: GRADES (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/>)

GPA

The number of grade points obtained by a student in any course is computed by multiplying the number of credits in the course by the grade-point equivalent of the grade received in the course. Courses taken under the satisfactory/unsatisfactory grading system are not used in computing grade points.

READ SENATE POLICY 51-30: METHOD OF CALCULATION OF GRADE POINTS (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/51-00-grade-point-average/#51-30>)

Semester GPA

Semester GPA applies to courses completed in a specific semester.

Cumulative GPA

A student's cumulative grade-point average is the weighted mean value of all grade points earned either by enrollment or examinations in courses at the University. The cumulative GPA for a student who is completing more than one undergraduate major program, either a sequential or concurrent degree, will be computed using the grades earned in all courses taken at the University, except for the following: (Note: the words student and undergraduate student are used to designate a baccalaureate or associate degree candidate, or a nondegree student.)

1. a student who has been approved for academic renewal—cumulative grade-point average will be computed in accordance with Senate Policy 54-90 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-90>).
2. A student repeating a course, in accordance with Senate Policy 47-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#47-80>).

READ SENATE POLICY 51-50: CUMULATIVE GRADE-POINT AVERAGE (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/51-00-grade-point-average/#51-50>)

Deferred Grades

If, for reasons beyond the the student's control, a student is prevented from completing a course within the prescribed amount of time, it is possible to have the grade for that course deferred for completion at a later date. In order to receive a deferred grade: 1) permission must be requested by the student and granted by the instructor before the beginning of the final exam period of the semester in which the course is taken; and 2) approval must be given by the instructor of the course. In an emergency situation in which the instructor is not available, a student may obtain authorization for a deferred grade from the dean of the college in which the student is enrolled.

If permission for a deferred grade is granted, the symbol DF will appear on the student's transcript until the course has been completed. Courses with a deferred grade will not be included in the grade-point average calculations.

MORE INFORMATION ABOUT DEFERRED GRADES (<https://www.registrar.psu.edu/grades/deferred-grades.cfm>)

No Grade

If an instructor does not submit a grade for a student by the grade-reporting deadline and a deferred grade was not requested and approved, the symbol NG (no grade) appears on the student's transcript until a grade is submitted. If a student receives an "NG" in place of a permanent grade, the grade-point average is calculated and appears with the letter "I" (incomplete) printed next to the course on the grade report and transcript. Students should contact their instructor (or the department offering the course) as soon as possible to determine what needs to be done so that a grade can be assigned.

The NG must be reconciled within five weeks following the grade reporting deadline. If a grade is not forthcoming by that deadline, the Office of the University Registrar will automatically change the NG to an F.

A NG grade that is automatically converted to an F can later be corrected in accordance with Senate Policy 48-30 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/#48-30>). Students with NG on their transcripts will not be allowed to graduate.

MORE INFORMATION ABOUT NO GRADE REPORTED (<https://www.registrar.psu.edu/grades/no-grade-reported.cfm>)

READ SENATE POLICY 48-50: NO GRADE (NG) (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/#48-50>)

Satisfactory/Unsatisfactory Grades

Students who do not want to receive a letter grade for a credit course may choose the satisfactory/unsatisfactory "SA/UN" grading system subject to the regulations of the University (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/#49-60>) and the students' degree programs. Baccalaureate degree candidates are allowed a total of twelve "SA/UN" credits per college career. Associate degree candidates are allowed a total of six "SA/UN" credits per college career. Students cannot enroll for more than two satisfactory/unsatisfactory grade option courses per semester. Students should consult with their adviser prior to processing since some

colleges have restrictions on this grading option. It is important to note that General Education courses cannot be taken under this option.

Courses taken through the satisfactory/unsatisfactory grading option are considered part of a student's credit load when qualifying for financial aid. Satisfactory/unsatisfactory courses are not used in computing grade-point average.

MORE INFORMATION ABOUT SATISFACTORY/UNSATISFACTORY GRADES (<https://www.registrar.psu.edu/grades/satisfactory-unsatisfactory-grades.cfm>)

READ SENATE POLICY 49-60: SATISFACTORY/UNSATISFACTORY–BACCALAUREATE AND ASSOCIATE DEGREE CANDIDATES (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/#49-60>)

Distinction and Honors

Distinction at graduation is awarded to baccalaureate degree candidates who are in the top 12 percent of their college's graduating class, have achieved a minimum cumulative grade-point average of 3.50, and have earned at least 60 credits at the University.

Distinction at graduation is awarded to associate degree candidates who are in the top 12 percent of their college's graduating class, have achieved a minimum cumulative grade-point average of 3.50, and have earned at least 30 credits at the University.

The 12 percent should be divided into 2 percent Summa cum Laude, 4 percent Magna cum Laude, and 6 percent Cum Laude.

The distinction table is created each September for the coming fall/spring semesters and summer session, based on the grade-point average information of previous graduates.

VIEW THE CURRENT DISTINCTION TABLE (<https://www.registrar.psu.edu/graduation/distinction.cfm>)

READ SENATE POLICY 88-00: DISTINCTION AND HONORS (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/88-00-distinction-and-honors/>)

Examinations

General Examination Policy

Periodic examination of student accomplishments is essential for both teaching/learning and evaluation purposes. Examinations may include traditional written examinations, whether in-class or take-home; oral examinations; term papers; laboratory or project reports; or studio projects. The faculty teaching and coordinating a course are responsible for both the method and substance of examinations used in each course, including the final examination or other integrating evaluative instrument.

READ SENATE POLICY 44-00: EXAMINATIONS (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/44-00-examinations/>)

Final Examination Policy

Final examinations fulfill two important academic objectives; student integration of instructional material and end-of-semester evaluation of student achievement. However, valid means other than the final examination exist for accomplishing these objectives (e.g., term paper, final project report, take-home examinations, etc.). Course instructors

determine which of these methods is most appropriate and effective in each undergraduate credit course taught.

MORE INFORMATION ABOUT THE FINAL EXAMINATION POLICY (<https://www.registrar.psu.edu/exams/final-exams.cfm>)

Prior Learning Assessment, Opportunities for Earning Penn State Credit

In addition to taking Penn State course work, students with prior college-level learning—at another college or university, in the military, in the workplace, through self-study, or in high school—may earn credits that may be applicable to their degree requirements.

Credits are awarded on the semester-hour basis. The distribution of time between class activities and outside preparation varies from course to course; for the average student, however, at least 45 hours of work per semester planned and arranged by the University faculty are required to gain 1 credit.

The Faculty Senate's Policies and Rules for Undergraduate Students (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/>) explains the various ways students may earn course credits. Those methods are as follows:

- Instruction, as defined in Policy 42-23 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/42-00-acquisition-of-credit/#42-23>)
- Examination, as defined in Policy 42-50 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/42-00-acquisition-of-credit/#42-50>) and discussed below
- Portfolio Assessment, as defined in Policy 42-97 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/42-00-acquisition-of-credit/#42-97>) and discussed below
- Transfer from other regionally accredited colleges and universities as defined in Policy 42-82 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/42-00-acquisition-of-credit/#42-82>) and as discussed under the heading Admission with Advanced Standing
- Transfer from colleges and universities outside the United States as defined in Policy 42-84 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/42-00-acquisition-of-credit/#42-84>)
- Validation from colleges and universities that are not regionally accredited but award associate degrees or higher as defined in Policy 42-86 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/42-00-acquisition-of-credit/#42-86>)
- Educational experiences in the Armed Services as defined in Policy 42-98 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/42-00-acquisition-of-credit/#42-98>)
- Educational credit for Training Programs in Non-collegiate Organizations as defined in Policy 42-99 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/42-00-acquisition-of-credit/#42-99>)

Additional information about earning credit can be obtained at Undergraduate Admissions Office (<https://admissions.psu.edu/>) or Prior Learning Assessment (<https://priorlearning.psu.edu/>).

Credit by Examination

If students have acquired substantial knowledge in a specific subject area, in some circumstances credits may be earned through successful completion of comprehensive examinations made available by the Penn State academic units that offer particular courses.

When such an examination serves as a substitute for completing all the usual requirements of a Penn State course, the credits received are described as "Credit by Examination" and are accepted as fulfilling degree requirements. Students may initiate a request for Credit by Examination for a course, although the academic department or program offering the course determines whether it will make Credit by Examination available. A grade of "C" or higher must be earned in the examination for such credit to be awarded and to appear on the student's transcript. Credit by Examination does not result in a quality grade (A, A-, etc.) and is not included in the calculation of the student's grade point average. Any credits earned in this manner will appear on the student transcript with the notation CRX and without a reported grade. A fee may be assessed to cover the costs of the procedure.

Current information about credit by examination credit awarded by Penn State can be obtained at earning test credit (<https://priorlearning.psu.edu/earn-credit/testing/>).

Credit by Portfolio Assessment

A currently enrolled student who can document college-level learning acquired in a non-collegiate setting may be able to petition for undergraduate credit through portfolio assessment. Not all academic units offer portfolio assessment for credit. Students interested in determining whether to pursue credit by portfolio assessment opportunities should contact the academic department responsible for the relevant course.

Criteria for earning credit via portfolio include the following:

1. Credit is granted for the demonstration of college-level learning obtained during work or other experience, but not for the experience itself. Learning must be documented and must represent college-level achievement. Advisers will provide guidance on the steps necessary to construct a portfolio providing evidence of prior learning that meets academic quality expectations.
2. Credit by portfolio assessment does not carry a grade.
3. Credit by portfolio assessment may be awarded to enrolled students at the undergraduate level only.
4. Credit may not duplicate other course work that the student has already completed. A student may not enroll in and earn credit for a course for which credit already has been granted via portfolio assessment.
5. Credit may be awarded following an evaluation of the portfolio by an individual faculty member or committee who represent the academic unit in which the subject matter is to be evaluated.
6. Credit earned via portfolio is designated on the transcript in the same manner as transfer credit.
7. Credit(s) will be posted to the student's record but will not appear on the student's official transcript until the student has completed a credit-bearing course at Penn State.
8. A fee is assessed to recover portfolio evaluation costs.
9. A maximum of 6 credits may be earned for a single portfolio (course). Associate degree candidates may be awarded a maximum of 16

credits. Baccalaureate degree candidates are limited to a maximum of 30 credits earned by portfolio assessment.

Current information about credit by examination credit awarded by Penn State can be obtained at earning portfolio credit (<https://priorlearning.psu.edu/earn-credit/portfolio/>).

READ SENATE POLICY 42-00: ACQUISITION OF CREDIT (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/42-00-acquisition-of-credit/>)

Advanced Placement Program of the College Entrance Examination Board

A student who does advanced work in a secondary school may take Advanced Placement Examinations, which are based on college-level studies. Penn State cooperates with the College Board in this program.

Credit may be awarded for Advanced Placement Examinations depending upon the grades earned on the examination. For some examinations, the amount of credit awarded varies with an earned grade of three, four, or five. The schedule of credit awarded for Advanced Placement Examinations may be revised annually upon review by the faculty.

Limitations on credits earned through the Advanced Placement Examinations are as follows:

1. The Student's academic program determines how credits earned apply to degree requirements.
2. A student who has earned credit for a particular course through AP examinations may elect to take the same course at Penn State (unless restricted by placement policies of the unit offering the course), but the duplicate credit cannot be used to meet any additional degree requirements. However, the grade earned in the Penn State course will count towards the student's grade point average.

General credits may be awarded for an AP Exam that covers material that is not the substantial equivalent of material covered in a specific University course. General credits may be used to fulfill degree requirements in any area; such use is not necessarily limited to General Education or elective requirements. General credits are applied to a student's program of study in accordance with the procedures established by the college of enrollment. Information on the use of general credits or specific course credits earned by AP Exams in individual programs of study may be obtained from a student's academic adviser or from the office of the dean of a student's college.

Undergraduate students interested in receiving credit for AP Exams should arrange for their official grade reports to be sent directly from the College Board (<https://apstudents.collegeboard.org/sending-scores/>) to the Undergraduate Admissions office. If credit is awarded, a student's University record will carry notation of credit, but no grade will be recorded. Credit awarded will not affect a student's grade-point average at Penn State.

The evaluation of the credits awarded for Advanced Placement Exams is subject to change and may be reviewed and revised periodically by Penn State faculty.

Current information about AP credit awarded by Penn State can be obtained from the Undergraduate Admissions office (<https://admissions.psu.edu/>), advanced placement opportunities (<https://>

admissions.psu.edu/academics/credit/ap/), and test credit for prior learning (<https://priorlearning.psu.edu/first-year-students/>).

The College-Level Examination Program of the College Board

A student, before or after admission to degree candidacy, may participate in the College-Level Examination Program (CLEP). Penn State cooperates with the College Board in this program.

Credit may be awarded for the CLEP Examinations depending upon the score earned on the examination. A student who has earned a score equivalent to the fiftieth percentile or higher for performance on the CLEP Examination may receive credit as indicated in the schedule of credits. The schedule of credit awarded for CLEP Examinations may be revised annually upon review by the faculty.

Limitations on credits earned through the CLEP Examinations are as follows:

1. The student's academic program determines how credits earned apply to degree requirements.
2. A student who has earned credit for a particular course through CLEP examinations may elect to take the same course at Penn State (unless restricted by placement policies of the unit offering the course), but the duplicate credit cannot be used to meet any additional degree requirements. However, the grade earned in the Penn State course will count towards the student's grade point average.
3. Students must meet residency requirements as outlined in Senate Policy 83-80.

General credits may be awarded for a CLEP exam that covers material that is not the substantial equivalent of material covered in a specific University course. General credits may be used to fulfill degree requirements in any area; such use is not necessarily limited to General Education or elective requirements. General credits are applied to a student's program of study in accordance with the procedures established by the college of enrollment. Information on the use of general credits or specific course credits earned by CLEP exams in individual programs of study may be obtained from a student's academic adviser or from the office of the dean of a student's college.

Undergraduate students interested in receiving credit for CLEP exams should arrange to have their official grade reports sent to Undergraduate Admissions office directly from CLEP (<https://clep.collegeboard.org/for-colleges/clep-scores/>). If credit is awarded, a student's University record will carry notation of credit, but no grade will be recorded. Credit awarded will not affect a student's grade-point average at Penn State.

The evaluation of the credits awarded for College-Level Examination Program examinations is subject to change and may be reviewed and revised periodically by Penn State faculty.

Current information about CLEP credit awarded by Penn State can be obtained from the Undergraduate Admissions Office (<https://admissions.psu.edu/>). The schedule of credit awarded for CLEP examinations also can be obtained from College-Level Examination Placement (<https://admissions.psu.edu/academics/credit/clep/>) and test credit for prior learning (<https://priorlearning.psu.edu/earn-credit/testing/>).

International Secondary Schooling and International Baccalaureate Program

A student who has enrolled in foreign secondary schools or in the International Baccalaureate Program and who has taken course work that is equivalent to college-level studies may receive credit for such work if they meet the following criteria:

1. **Foreign Secondary Schooling.** A person who does advanced work in a secondary school in another country may receive consideration for transfer credit when the examinations taken are based on college-level studies. Credit may be awarded for advanced work in foreign secondary schools. The number of credits awarded will reflect the introductory sequence in that subject at Penn State. The schedule of credit awarded for examinations may be revised annually upon review by the faculty.
2. **International Baccalaureate.** A person who does work based on college-level studies in an International Baccalaureate (IB) program in a secondary school may take the higher level examinations. Credit may be awarded for higher level examinations of the international baccalaureate depending upon the grades earned on the examination. Subjects examined at the higher level with an earned grade of 5 or higher will be considered for transfer credit. The number of credits awarded will reflect the introductory sequence in that subject at Penn State. The schedule of credit awarded for IB Examinations may be revised annually upon review by the faculty.

Limitations on credits earned through advanced-level foreign secondary schooling and the International Baccalaureate examinations are as follows:

1. The student's academic program determines how credits earned apply to degree requirements.
2. A student who has earned credit for a particular course through IB examinations or advanced-level foreign secondary schooling may elect to take the same course at Penn State (unless restricted by placement policies of the unit offering the course), but the duplicate credit cannot be used to meet any additional degree requirements. However, the grade earned in the Penn State course will count towards the student's grade point average.

A student interested in receiving credit for the Higher Level examinations of the International Baccalaureate program should arrange for an official grade report to be sent directly from the secondary school to the Undergraduate Admissions office. The Undergraduate Admissions office is responsible for evaluating such reports and awarding credit.

Current information about Advanced-Level exam credit or International Baccalaureate credit awarded by Penn State can be obtained from the Undergraduate Admissions Office (<https://admissions.psu.edu/>), credit awarded by A-Level exam (<https://admissions.psu.edu/academics/credit/a-levels/>), credit awarded by IB exam (<https://admissions.psu.edu/academics/credit/ib/>), and test credit for prior learning (<https://priorlearning.psu.edu/first-year-students/>).

Re-Enrollment

The University recognizes that a student's progress toward an undergraduate degree may be interrupted for a variety of reasons. Re-enrollment allows a former degree candidate (policy 58-00 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/58-00-re-enrollment-as-a-degree-candidate/>)) to resume a degree program.

Re-enrollment is appropriate for students who:

- Withdrew from the University
- Interrupted continuous degree enrollment during fall/spring semester
- Were dismissed or suspended for nonacademic reasons
- Invalidated a leave of absence
- Plan to return for a second associate or baccalaureate degree
- Plan to return for graduation
- Voluntarily changed your enrollment status to nondegree

Re-Enrollment Application Deadline

Student should submit a completed application (<https://www.registrar.psu.edu/enrollment/returning/reenrollment/>) as early as possible, and no later than two weeks prior to the start of classes in which the student wants to enroll. Some units may require longer lead times. Students should check with their enrollment unit/campus to make sure they can meet all requirements. Exceptions after this deadline are at the discretion of the unit of enrollment. The deadline to submit a re-enrollment application is 5:00 p.m. on the Friday before the first day of classes of that semester.

To apply for re-enrollment, students should visit the Office of the University Registrar website to complete and submit the Undergraduate Re-Enrollment Form (<https://www.registrar.psu.edu/enrollment/returning/reenrollment/>).

MORE INFORMATION ABOUT RE-ENROLLMENT (<https://www.registrar.psu.edu/enrollment/returning/reenrollment/>)

Re-enrollment from Good Standing

Students who left the University in good standing, with a cumulative grade point average of 2.0 or higher, may request re-enrollment to the University. Students who left in good standing and who are re-enrolling in their previous major (providing the major is not controlled) will be approved to re-enroll. Every re-enrollment request will be reviewed and a decision letter will be sent to the student. If a student is not approved to re-enroll into the requested program, the student may apply for re-enrollment into a different program.

READ SENATE POLICY 58-00: RE-ENROLLMENT FROM GOOD STANDING (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/58-00-re-enrollment-as-a-degree-candidate/#58-50>)

Re-enrollment from Warning, Suspension, and Dismissal

Students who withdrew or left the University who were not in good standing, as a result of either academic or nonacademic warning, suspension, or dismissal, may request re-enrollment to the University. Action for approval or denial of a request for re-enrollment is covered under one of the following cases:

1. If the student is requesting re-enrollment when last enrolled the student's cumulative grade point average was less than 2.00 or higher, depending on program requirements*, then to be considered for re-enrollment, students must submit an academic recovery plan and a statement from an academic adviser.
 - a. If re-enrollment is approved, the student will remain in academic warning status. Colleges may request the Registrar's Office to place a registration hold after the re-enrollment request has been approved to ensure that proper advising occurs. A registration

hold will prevent the student from registering for courses but will not impede the re-enrollment process.

- b. If a student is not approved to re-enroll into the requested program, the student may apply for re-enrollment into a different program.
2. If the student is requesting re-enrollment following dismissal or suspension from the University for nonacademic reasons, the student must cleared for re-enrollment by the director of the Office of Student Conduct.

READ SENATE POLICY 58-80:RE-ENROLLMENT FROM WARNING, SUSPENSION, AND DISMISSAL (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/58-00-re-enrollment-as-a-degree-candidate/#58-80>)

Withdrawal

A student who is unable to complete a schedule of courses for a given semester may withdraw from enrollment in all courses at the University. Students may withdraw any time up to and including the last day of classes, before the final examination period begins. Withdrawal will terminate enrollment in credit courses for current and future semesters except in the use of summer-only withdrawal. Withdrawal results in the symbol W being recorded as the course grade on a student's official transcript.

If a student is a degree candidate, then at the time of withdrawal from enrollment in courses the student also withdraws from the university as a degree candidate. Thus, to enroll in courses at a later time as a degree candidate, a request for re-enrollment as a degree candidate must be made in accordance with the policies and procedures for re-enrollment (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/58-00-re-enrollment-as-a-degree-candidate/>). If the person is a nondegree student who wishes to enroll in courses at a later time, the policies and procedures given in Senate Policy 14-00 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/14-00-non-degree-students/>) must be followed. It is important to note that withdrawals will delay normal degree progress and may have financial implications. Students are encouraged to contact their academic adviser to discuss alternatives.

To initiate a withdrawal, students should visit the Office of the University Registrar website, and complete and submit the Withdrawal Form (<https://www.registrar.psu.edu/enrollment/leaving/withdrawal.cfm>).

READ SENATE POLICY 56-30: WITHDRAWAL (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/56-00-withdrawal-and-leave-of-absence/#56-30>)

Summer-Only Withdrawal

If a student wants to withdraw from summer classes but retain his/her fall class schedule, then the student should enter "Summer Only" as the effective semester on the Withdrawal Form. Re-enrollment is not required following a summer-only withdrawal. Please note, a summer-only withdrawal is not available for newly admitted undergraduate students during their summer of admission. New summer admits must process a regular withdrawal as outlined above.

MORE INFORMATION ABOUT SUMMER-ONLY WITHDRAWAL (<https://www.registrar.psu.edu/enrollment/leaving/withdrawal.cfm>)

Military Withdrawal

Military withdrawal only is available to students who:

1. are actively serving members (Active Duty and Reserve Duty Components) of the U.S. armed services (not a contractor or civilian working for the military), and
2. are ordered to relocate and, as a result, are unable to meet class attendance and other participation requirements, including web-based activities.

Students called to active duty during a semester or session should initiate a military withdrawal. Students should contact the campus Registrar and present a copy of the military orders with formal correspondence on unit letterhead signed by the commander requesting military withdrawal from Penn State due to orders. The formal correspondence must include the Unit commander contact information and verification of the duration and location of the pending assignment.

Students who process a military withdrawal:

- will not be charged tuition for the semester of withdrawal.
- will be charged a housing assessment to cover expenses already incurred in university housing.
- will have unused meal plan points refunded.
- are eligible for "military re-enrollment" to the University, assuring the student access to the same major and location as was assigned at the time of withdrawal.
- will have the re-enrollment fee waived if they are an undergraduate student. There is no re-enrollment fee for graduate students.
- will have a notation placed in the Special Actions and Notes section of their transcript indicating a "military" withdrawal.

MORE INFORMATION ABOUT MILITARY WITHDRAWAL (<https://www.registrar.psu.edu/enrollment/leaving/withdrawal.cfm>)

Transcripts

Official Transcripts

Issued by the Office of the University Registrar, an official transcript is the University's certified statement of a student's academic record. The official paper transcript is printed on security sensitive paper and contains the University seal and signature of the University Registrar. The official electronic transcript is a PDF secured by a digital certificate which is displayed at the top of the transcript along with a blue ribbon. The University Registrar will not release an official transcript without the student's signature.

Transcripts can be ordered online through LionPATH or in-person at 112 Shields Building on the University Park campus.

MORE INFORMATION ABOUT OFFICIAL TRANSCRIPTS (<https://www.registrar.psu.edu/transcripts/official-transcripts.cfm>)

Academic Advising Transcripts

Currently enrolled students may print academic advising transcripts directly from LionPATH for the purpose of on-campus academic advising. Academic advising transcripts are not certified by the University Registrar as a complete and accurate record of the University and will not be mailed by the Office of the University Registrar to any third party regardless of permission from a student.

MORE INFORMATION ABOUT ACADEMIC ADVISING TRANSCRIPTS (<https://www.registrar.psu.edu/transcripts/academic-advising-transcripts.cfm>)

Advising and Planning a Degree Program

Though Penn State has a vested interest in student success and takes active steps to build a positive learning environment, the primary responsibility for successful completion of a degree program lies with the student. The key to meeting this responsibility is personal involvement in academic planning. To plan a program of study that will best meet individual goals and interests, students must know the requirements and restrictions of the department, college or other degree-granting unit, and the University; know the sources of academic information, especially the Undergraduate Bulletin; and work consistently with an academic adviser in examining programs and course requirements and alternatives.

For most degree programs at Penn State, a student may begin their studies at any campus. More than 160 baccalaureate majors, more than 25 associate degree majors, and more than 7,000 undergraduate courses are offered by the University. Though each campus cannot offer every academic program or every course, academic advisers can help students to understand their options for completing degree programs across the University. In some instances, admission to some academic programs is restricted, and students must meet specific requirements once at Penn State to gain entrance. In other cases, admission to certain academic programs must be approved when a first-year student first enters the University; transfer into these programs at a later point in a student's career is not possible. For these reasons, it is imperative that a student understands both program and course limitations at the campus of enrollment.

Though many programs at Penn State allow varying degrees of flexibility, it is important for students to engage academic advising on a regular basis to discuss their academic plan. An early decision to pursue a highly structured program enables the student to complete the program in the optimum length of time by taking the required courses in a sequence that allows the smoothest progression from one level to the next. Even the most regulated programs, however, allow choices within given boundaries. Other programs allow a considerable range of choices in the completion of the requirements. Students should be aware of possible difficulties in transferring from a flexible program to a more highly structured program. Whether a program is highly structured or quite flexible, it is extremely important that the student understand program requirements when enrolling in the University.

Academic Advising (p. 3177)

Course Placements (p. 3178)

Degree Audit (p. 3178)

First-Year Seminars and Engagement Plans (p. 3180)

New Student Orientation (p. 3181)

Academic Advising

An integral part of student success, academic advising is provided to all undergraduate students. The intention of academic advising is to engage students in meaningful conversations about learning,

academic opportunities, and the ways that all aspects of the University curriculum serve to shape a meaningful education for students at Penn State. Academic advisers also are uniquely positioned to help students understand the policies and procedures that govern undergraduate degree completion and to refer students to other appropriate resources across Penn State that are intended to promote student learning and success. While academic advisers are available to help a student schedule each semester's courses, their primary role is to discuss with the student the broad meaning of their University education and to collaboratively plan for reaching the student's academic goals. Each student is assigned a primary academic adviser in their college, school, or the Division of Undergraduate Studies. Students can find their adviser's name and contact information using Starfish (<https://sites.psu.edu/starfishinfo/>).

Degree Audit

A degree audit is an analysis that enables the student and their adviser to assess the student's academic progress and unfulfilled baccalaureate, associate degree, or minor requirements. The audit is a valuable tool for academic planning and course selection because it matches the courses that the student has taken with the requirements of their degree program or anticipated program.

Course Placements

During New Student Orientation (NSO), academic advisers assist new students in evaluating their educational plans by providing them, prior to initial registration, with a review of placement test results along with individualized educational planning and academic advising. The testing component of NSO, if required, is used for educational planning and academic advising purposes to determine a student's appropriate starting levels in mathematics and chemistry course sequences. English composition course placement is based on prior experience in English courses and the appropriate SAT or ACT score if available. Course selections are guided by a student's academic goals, their prior academic experiences, SAT/ACT scores (if available) and highest ALEKS Math Assessment score (for students who did not successfully complete high school calculus).

In addition, World Language course placement is determined by the level of previous study and/or time that has elapsed between a student's previous world language study and admission to Penn State. Placement also may be determined by non-course work knowledge of world languages.

Select the appropriate placement policy below or the menu to the right to explore different information areas.

Chemistry Placement (p. 3178)

English Placement (p. 3178)

Mathematics Placement (p. 3179)

Placement Policy for World Language Courses (p. 3180)

Chemistry Placement

Placement into introductory or general chemistry courses is based on a student's prior background in chemistry, their intended major, and the results of the mathematics placement test, as indicated by their ALEKS score.

Most science and engineering programs require CHEM 110 and/or CHEM 112. CHEM 110 is the first semester of a two-semester, comprehensive general chemistry sequence. It builds on student's prior background in chemistry and involves significant mathematical manipulation and requires algebra proficiency. Students who feel their chemistry preparation is weak should consider scheduling CHEM 110 and CHEM 108 concurrently. The enforced prerequisite for CHEM 110 is completion of, or placement beyond MATH 22.

Some programs in the Colleges of Nursing, Health and Human Development, and Agriculture Sciences require CHEM 130, a one-semester college-level introductory chemistry course covering the fundamentals of general, organic, and biochemistry. CHEM 130 emphasizes chemistry concepts in environmental and health-related contexts, and it requires less mathematical preparation than CHEM 110. The enforced prerequisite for CHEM 130 is completion of, or placement beyond MATH 21.

Students may only receive credit for either CHEM 110 or CHEM 130. Please consult the academic plan for your intended major carefully before scheduling one of these courses. Additional evaluation may be done during the beginning of the semester.

What Courses Might You Take?

ALEKS score	No high school chemistry, or chemistry more than two years ago	Chemistry in 11th or 12th grade, or honors or AP chemistry
45% or less	MATH 21 then CHEM 130 or MATH 21, then MATH 22 (or MATH 26), then CHEM 110 + CHEM 108	MATH 21 then CHEM 130 or MATH 21, then MATH 22 (or MATH 26), then CHEM 110 + CHEM 108
46% to 60%	CHEM 130, or MATH 22, then CHEM 110 + CHEM 108	CHEM 130, or MATH 22, then CHEM 110
61% or more*	CHEM 130 or CHEM 110 + CHEM 108	CHEM 130 or CHEM 110

* or successful completion of a high school calculus course.

English Placement

All majors require Writing and Speaking (GWS) courses. Most typically ENGL 15 (Rhetoric and Composition), ESL 15 (Composition for American Academic Communication II), ENGL 30H (Honors Rhetoric and Composition), or ENGL 137H/CAS 137H (Rhetoric and Civic Life I) are taken in the first year to meet part of this requirement.

Initial English composition placement is based on past writing experiences by the student. While some students have SAT or ACT scores to assist in the placement process, many will not. The self-guided assessment in the chart below will be the primary tool for placement in most cases. Final placement may be adjusted after a conversation with

an academic adviser. Most students will take ENGL 15. Students with strong writing preparation may choose an honors composition course (ENGL 15 or ENGL 137H/CAS 137H). Students whose experiences and previous course work suggest gaps may need some extra support to be successful in ENGL 15.

Guide to Course Selection to help students choose the most appropriate English composition course

Questions for Students	ENGL 4, ENGL 15E, or Campus-Specific Options	ENGL 15	ENGL 30H
	Credits and approaches vary by campus. Some carry *credit toward graduation and others do not—Speak with an adviser	(GWS) Rhetoric and Composition (3 credits)	(GWS) Honors Composition (3 credits)
1. What English courses did you take in your junior and senior years of high school?	Fewer than two years of AP or college preparatory English	Two years of AP or college preparatory English	Two years of advanced or AP English
2. What type of writing did you do in your high school English classes?	Infrequently wrote essays of more than one paragraph with little feedback from the teacher	Frequently wrote essays of more than one paragraph in length with feedback from the teacher	Frequently wrote essays that required substantial amounts of writing with feedback from the teacher
3. What were your grades in English in your junior and senior years of high school?	Mostly C or lower	Mostly between C+ and B-	Mostly B or higher
4. To what extent are you familiar with basic writing tasks such as planning, editing, composing, and revising?	I am unfamiliar or not confident with these tasks	I can perform these tasks with a fair degree of competence	I possess the skills needed to perform these tasks with competence
5. If you had a job that required writing, how successful were your writing efforts?	Need substantial improvements	Moderately successful to successful	Highly successful
6. Do you consider yourself a confident and competent writer?	No	Yes	Very much so

* ENGL 15E meets the composition requirement and carries credit toward graduation. Supplementary courses or preparatory courses may not carry credit toward graduation.

Placement Recommendations

New SAT-READ Score (2016 or later)	SAT-WR Score (2015 or earlier)	ACT Score	Placement Recommendations
680-800	620-800*	26 or more	Schedule ENGL 15 or ENGL 30H. Use the guide above and consult with an adviser.
520-679	460-619*	18-25	Schedule ENGL 15.
420-519	380-459*	14-17	Schedule ENGL 15, ENGL 15E, or ENGL 4 **. Use the guide above and consult with an adviser.
200-419	200-379*	13 and fewer	Schedule ENGL 4 ** or schedule ENGL 15E before scheduling ENGL 15.
None	None	None	Use the guide above and consult with an adviser.

**ENGL 4 is not available at all campuses. In place of ENGL 4, University Park students should schedule ENGL 15E (with a mandatory ENGL 5 requirement) or may consider scheduling ENGL 15 and ENGL 5. Students at other campuses should consult with advisers regarding writing options at their campus.

Mathematics Placement

As part of General Education, all Penn State baccalaureate degree programs require a minimum of six credits in quantification; associate degree programs require a minimum of three credits. General Education quantification courses have the suffix "GQ." GQ courses are available in mathematics, statistics, computer science, and philosophy.

When choosing GQ courses, students should consider their interests, background in mathematics, the focus of majors being considered, and the results of mathematics assessment. Most science/engineering programs require MATH 140, while some liberal arts/professional programs (particularly business-focused programs) require MATH 110.

All new first-year students who have not successfully completed a high school calculus course are required to take a web-based mathematics assessment called ALEKS as part of their preparation for NSO. If a student has not yet earned college credit for the prerequisite course, the ALEKS score is used to determine placement in mathematics courses. Students who wish to improve their placement can use ALEKS prior to

the start of their first semester to complete online learning modules and re-test. Students are not permitted to take a course that is above their demonstrated readiness level.

Students who have successfully completed a high school calculus course will automatically be eligible to enroll in MATH 110 or MATH 140 (placement determined by "76-100 Score" column in table below). However, students concerned that they may not be prepared for success in the more advanced courses or who have not taken a math course recently are encouraged to take the ALEKS placement and discuss the results with their academic adviser as part of their NSO process.

The chart below shows the required ALEKS placement for GQ courses. Decisions about appropriate quantification (GQ) courses should be discussed with an academic adviser.

Required GQ Course for Your Intended Major	0-13 Score	14-29 Score	30-45 Score	46-60 Score	61-75 Score	76-100 Score
STAT 200	MATH 3* #	MATH 4 #	STAT 200			
MATH 22	MATH 3* #	MATH 4 #	MATH 21 #	MATH 22		
MATH 26	MATH 3* #	MATH 4 #	MATH 21 #	MATH 26		
MATH 110	MATH 3* #	MATH 4 #	MATH 21 #	MATH 22 #	MATH 110	
MATH 140 (ALEKS 0-60)	MATH 3* #	MATH 4 #	MATH 21 #	MATH 22 # & MATH 26 #		MATH 140
MATH 140 (ALEKS > 60)	MATH 3* #	MATH 4 #	MATH 21 #	#	MATH 26 or MATH 40* or MATH 41 #	MATH 140

* Course not offered at all Penn State campuses.

For courses not listed above, choose any appropriate GQ course for your intended major and for which you have met the prerequisite.

Placement Policy for World Language Courses

Placement Policy

Students who have studied a world language within four years immediately before admission to Penn State may enroll in that language for credit based on the number of Carnegie units prior to admission. (A Carnegie "unit" refers to one course level of a world language — French 1, French 2, French 3, etc. — equivalent to one year of study and accredited as such by the school.) If a period of four or more years has elapsed between a student's graduation from high school and admission to college, he/she may be eligible to enroll in level 1 of the language studied in high school. Students who have studied American Sign Language

should refer to the information that can be found on the College of Health and Human Development website. (<https://hhd.psu.edu/csd/asl/>)

Penn State	Units of Study Prior to Admission to Register in Penn State Language Level
Fewer than two	Course Level 001 (4 cr.) ¹
Two or three	Course Level 002 (4 cr.) ²
Four or more	Course Level 003 (4 cr.) ³

¹ Course Level 101 for Latin placement

² Course Level 101 or 102 for Latin placement

³ Course Level 102 or 203 for Latin placement

Students may choose to take a lower-level course for credit with the approval of the appropriate language program at the student's campus of enrollment. Students who feel they are qualified for a more advanced course, or students seeking proficiency certification or credit by examination, if available, should contact the appropriate language department for details. For more information, see College of the Liberal Arts policies (<https://sgllc.la.psu.edu/language-portal/>).

Non-Course Work Knowledge of World Languages

Students who have acquired a knowledge of a world language by means other than course work (e.g., family background, travel or study in a foreign country, participation in noncredit summer language programs, etc.) may enroll in elementary and intermediate courses in that language only with permission of the course coordinator or department head. Once students have been placed in a skills course, they may not receive credit for a lower-level skills course.

Students whose native language is not English may not receive credit (through course work or examination) for elementary and intermediate courses in their native language. Enrollment in skills courses beyond intermediate level (e.g., conversation, composition) must be approved by the department head.

Accelerated and Intensive Courses

Students may choose to enroll in accelerated courses such as French 111 and 112, German 11 and 12, or in Penn State's Summer Intensive Language Institute courses. Because the objectives of these courses are somewhat different, students may schedule them for full credit even if they have studied the language previously.

Credit by examination (fee charged), when available, is offered to the extent allowed by the placement policy. For example, a student who has two units of secondary school world language and chooses to begin study of that language at the third level instead of the second (Course Level 003, 4 cr.), may receive credits for the second level (Course Level 002, 4 cr.), but not for the first level (Course Level 001, 4 cr.). See the appropriate department for details.

Questions

Questions should be addressed to the course coordinator or department head of the particular language department concerned.

First-Year Seminars and Engagement Plans

A student's campus of enrollment determines whether or not he/she is required to complete a first-year seminar (FYS). Campuses that do not

require an FYS provide students with a first-year engagement experience. If a student changes their campus location, the student's degree audit will be changed to indicate whether the student needs to fulfill this requirement based on established criteria.

Selecting a First-Year Seminar (FYS)

Students generally select an FYS in their college or major. An FYS is portable, meaning the requirement is satisfied by completing any first-year seminar. However, students should be cautious when selecting a seminar, because for some majors, a seminar has been incorporated into a required course. Depending on a student's college, participation in LEAP (<https://summersession.psu.edu/first-year-students/leap-program-university-park/>) may satisfy the FYS requirement.

Completing a first-year seminar may also fulfill other requirements in the student's program, such as General Education, major, minor, or elective. For example, if a student completed PHIL 83 (GH), it would satisfy 3 credits of the General Education humanities requirement and the first-year seminar requirement.

First-year seminar content varies. Course numbers and, in some cases, section numbers indicate different content. To select an appropriate seminar, read the course description by selecting the Class or Section link in the class search results. For additional information about a college's first-year seminar offerings contact the advising center (<https://dus.psu.edu/advising-centers/>).

Identifying an FYS

In LionPATH (<https://www.lionpath.psu.edu/>), use the Search for Classes (tutorial: [Searching for Classes \(https://tutorials.lionpath.psu.edu/public/Docs/S_SearchClasses.docx\)](https://tutorials.lionpath.psu.edu/public/Docs/S_SearchClasses.docx)) to find seminars offered in a semester or session at a specified campus and location. Select Additional Search Criteria, then choose First-Year Engagement Program as the Course Attribute.

In Schedule Builder, advisers and students can find an FYS by choosing Add Course, selecting Search by Course Attribute, choosing First-Year Seminar as the Search Attribute, and then selecting the Subject and Course of interest. It is possible to find a FYS that meets other requirements by selecting additional Attributes.

Enrolling in an FYS

Some first-year seminars have departmental controls. If a student seeks enrollment in one of these courses, the appropriate college advising center (<https://dus.psu.edu/advising-centers/>) or the appropriate department (<https://www.registrar.psu.edu/registration/department-contacts-course-controls.cfm>) should be contacted for enrollment information. A student in the Division of Undergraduate Studies (<https://dus.psu.edu>) (DUS) can take a first-year seminar in any college.

Tracking Completion of the Requirement

A student's degree audit tracks the completion of the FYS requirement.

VIEW APPROVED FIRST-YEAR AND CAMPUS ENGAGEMENT PLANS (<https://senate.psu.edu/faculty/approved-first-year-engagement-plans/>)

New Student Orientation

Penn State provides all new students the opportunity to attend a comprehensive orientation program, which is organized by the Office for Student Orientation and Transition Programs (SOTP). SOTP partners

with the Division of Undergraduate Studies and other units to offer new students a thorough introduction to life on campus, an overview of General Education requirements, and the opportunity to actively discuss individual academic plans with an academic adviser. In addition to providing students an opportunity to register for appropriate classes, the overall objective of New Student Orientation (<https://orientation.psu.edu/>) is to establish the academic expectations and community standards that shape and inform the learning environment at Penn State.

Information for New Students

The Office for Student Orientation and Transition Programs provides first-year students, advanced standing, and change-of-campus students at the University Park campus with comprehensive information regarding the essential academic and student development opportunities of the campus and the University in general beginning with a new student's acceptance to a campus and continuing through completion of their first semester.

Through programs offered in cooperation with the colleges' academic units and various student service operations, new students are introduced to the intellectual and scholarly expectations of the University, to the skills needed for advanced study and lifelong learning, and to the student development opportunities with academic merit. In addition, this office helps inform students of the required procedures for matriculation and offers a perspective on college life, including practical information about important dates, times, and locations (e.g., arrival day, first day of classes, course drop/add).

During Welcome Week each semester, new students receive instruction and advice about their courses of study, including help with registration and class schedule adjustments, and they participate in special activities.

Student Rights and Responsibilities

All students are expected to be knowledgeable of and adhere to all University academic policies and procedures. Students also are expected to both maintain Academic Integrity and follow the Student Code of Conduct. As a student at Penn State, you will develop an official educational record, which will be maintained by the University under the guidelines of the Federal Family Educational Rights and Privacy Act.

Select the topics of interest below or the menu to the right to explore different information areas.

Confidentiality of Student Records (p. 3181)

Academic Integrity (p. 3182)

Code of Conduct (p. 3183)

Confidentiality of Student Records

The Federal Family Educational Rights and Privacy Act (FERPA (<https://www2.ed.gov/policy/gen/guid/fpco/ferpa/>)) is a federal regulation enacted in 1974 that protects the privacy and confidentiality of student education records. Under FERPA, institutions may not release a student's education record without prior consent of the student, except in limited circumstances. FERPA applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

At Penn State, educational records are kept by University offices to facilitate the educational development of students. Faculty and staff

members may also keep informal records relating to their functional responsibilities with individual students.

Student Rights under FERPA

FERPA (<https://www2.ed.gov/policy/gen/guid/fpco/ferpa/>) affords students certain rights with respect to their educational records (<https://policy.psu.edu/policies/AD11/#C>). These rights include:

- The right to inspect and review the student's educational records. A student should submit to the University Registrar a written request that identifies the record(s) the student wishes to inspect. The University Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected.

If the records are not maintained by the University Registrar, the University Registrar will advise the student of the correct official to whom the request should be addressed.

- The right to request the amendment of the student's educational records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

A student who wishes to ask the University to amend a record should write the University official responsible for the record, clearly identify the part of the record the student wants to be changed, and specify why it should be changed.

If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

- The right to provide written consent before the University discloses personally identifiable information from the student's educational records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent, is the disclosure to University officials with legitimate educational interests. University officials (<https://policy.psu.edu/policies/AD11/#B>) are University employees with general or specific responsibility for promoting the educational objectives of the University or third parties under contract with the University to provide professional, business and similar administrative services related to the University's educational mission. Legitimate educational interests (<https://policy.psu.edu/policies/AD11/#B>) are defined as interests that are essential to the general process of higher education prescribed by the body of policy adopted by the governing board.

OTHER EXCEPTIONS (<https://www.registrar.psu.edu/confidentiality/other-exceptions-prior-written-consent.cfm>)

The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW

Washington, DC 20202-5901

Parents Rights Relating to Educational Records

When a student reaches the age of 18 or begins attending a postsecondary institution, regardless of age, FERPA (<https://www2.ed.gov/policy/gen/guid/fpco/ferpa/>) rights transfer from the parent to the student. This means that parents may not obtain any of their student's education records without the written consent of the student.

Since student grades are part of the education record, they are protected under FERPA (<https://www2.ed.gov/policy/gen/guid/fpco/ferpa/>) and, therefore, may not be released to parents. Students may provide consent for their parent to view grades and other portions of their education record by setting up LionPATH Delegated Access (<https://www.registrar.psu.edu/confidentiality/parent-rights.cfm>).

It is important to note that Penn State does not have a means for students to unilaterally waive their FERPA rights. Penn State's procedure requires each release of any portion of the student's education record to a person or entity outside of the University to be individually approved by the student by working with the releasing department.

MORE INFORMATION ABOUT CONFIDENTIALITY FROM THE OFFICE OF THE UNIVERSITY REGISTRAR (<https://www.registrar.psu.edu/confidentiality/>)

READ POLICY AD 11: UNIVERSITY POLICY ON CONFIDENTIALITY OF STUDENT RECORDS (<https://policy.psu.edu/policies/ad11/>)

Academic Integrity

Academic integrity is the pursuit of scholarly activity in an open, honest and responsible manner. Academic integrity is a basic guiding principle for all academic activity at The Pennsylvania State University, and all members of the University community are expected to act in accordance with this principle. Consistent with this expectation, the University's Code of Conduct states that all students should act with personal integrity, respect other students' dignity, rights and property, and help create and maintain an environment in which all can succeed through the fruits of their efforts.

Academic integrity includes a commitment by all members of the University community not to engage in or tolerate acts of falsification, misrepresentation or deception. Such acts of dishonesty violate the fundamental ethical principles of the University community and compromise the worth of work completed by others.

To protect the rights and maintain the trust of honest students and support appropriate behavior, faculty and administrators should regularly communicate high standards of integrity and reinforce them by taking reasonable steps to anticipate and deter acts of dishonesty in all assignments. At the beginning of each course, it is the responsibility of the instructor to provide students with a statement clarifying the application of University and College academic integrity policies to that course.

READ SENATE POLICY 49-20: ACADEMIC INTEGRITY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/47-00-48-00-and-49-00-grades/#49-20>)

Code of Conduct

The Code of Conduct outlines the standard procedures and practices of the University conduct process. To be fully aware of their individual and organizational rights and responsibilities in this process, individuals and student organizations are encouraged to review the Student Code of Conduct (<https://studentaffairs.psu.edu/student-accountability/code-procedures/student-code-conduct/>).

General Education

General Education is the heart of the undergraduate experience. From the sciences to the arts and humanities, General Education at Penn State prepares students to thrive personally and professionally in our diverse global society. Through General Education, students acquire skills, knowledge, and experiences for living in interconnected contexts, making life better for themselves, others, and the world. As professions become more dynamic and career paths less predictable, the ability to place information into context through critical thinking, develop solutions to complex problems, and make ethical decisions become essential skills for a resilient workforce. Creative and analytical practice prepares students of all disciplines to be resourceful in the application of their knowledge towards complex problem solving and to communicate that knowledge in a variety of forms.

MORE INFORMATION ABOUT GENERAL EDUCATION (<https://gened.psu.edu>)

We invite students to challenge themselves in General Education and encourage them to make intentional course decisions that create:

Strong Foundations

Build a basis of effective communication and quantitative literacy.

Transformative Exploration

Follow intellectual curiosity to deepen or widen your learning.

Integrative Learning

Practice synthesizing knowledge from different perspectives.

General Education Learning Objectives

The General Education curriculum will enable students to acquire skills, knowledge, and experiences for living in interconnected contexts, so they can contribute to making life better for others, themselves, and the world. General Education encompasses the breadth of knowledge involving the major intellectual and aesthetic skills and achievements of humanity. This must include understanding and appreciation of the pluralistic nature of knowledge epitomized by the natural sciences, quantitative skills, social and behavioral sciences, humanities, and arts. To achieve and share such an understanding and appreciation, skills in self-expression, quantitative analysis, information literacy, and collaborative interaction are necessary. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. General Education, in essence, aims to cultivate a knowledgeable, informed, literate human being.

An effective General Education curriculum shall facilitate teaching and learning through seven key objectives:

Effective Communication

The ability to exchange information and ideas in oral, written, and visual form in ways that allow for informed and persuasive discourse that builds trust and respect among those engaged in that exchange, and helps create environments where creative ideas and problem-solving flourish.

Key Literacies

The ability to identify, interpret, create, communicate, and compute using materials in a variety of media and contexts. Literacy acquired in multiple areas, such as textual, quantitative, information/technology, health, intercultural, historical, aesthetic, linguistic (world languages), and scientific, enables individuals to achieve their goals, to develop their knowledge and potential, to lead healthy and productive lives, and to participate fully in their community and wider society.

Critical and Analytical Thinking

The habit of mind characterized by comprehensive exploration of issues, ideas, artifacts, and events before accepting or formulating a conclusion. It is the intellectually disciplined process of conceptualizing, applying, analyzing, synthesizing, and/or evaluating information gathered from, or generated by, observation, experience, reflection, reasoning, or communication, as a guide to belief and action.

Integrative Thinking

The ability to synthesize knowledge across multiple domains, modes of inquiry, historical periods, and perspectives, as well as the ability to identify linkages between existing knowledge and new information. Individuals who engage in integrative thinking are able to transfer knowledge within and beyond their current contexts.

Creative Thinking

The capacity to synthesize existing ideas, images, or expertise in original ways and the experience of performing, making, thinking, or acting in an imaginative way that may be characterized by innovation, divergent thinking, and intellectual risk taking.

Global Learning

The intellectually disciplined abilities to analyze similarities and differences among cultures; evaluate natural, physical, social, cultural, historical, and economic legacies and hierarchies; and engage as community members and leaders who will continue to deal with the intricacies of an ever-changing world. Individuals should acquire the ability to analyze power; identify and critique interdependent global, regional, and local cultures and systems; and evaluate the implications for people's lives.

Social Responsibility and Ethical Reasoning

The ability to assess one's own values within the social context of problems, recognize ethical issues in a variety of settings, describe how different perspectives might be applied to ethical dilemmas, and consider the ramifications of alternative actions. Individuals should acquire the self-knowledge and leadership skills needed to play a role in creating and maintaining healthy, civil, safe, and thriving communities.

Associate Degree General Education Requirements

The associate degree General Education program consists of 21 credits that are distributed among three General Education components:

- Foundations courses in writing, speaking, and quantification (6 credits).
- Knowledge Domains in the Arts, Humanities, Natural Sciences, and Social and Behavioral Sciences (12 credits).
- Exploration within General Education (3 credits).

A summary of the applicable attributes to determine if a course satisfies a requirement is available on the University Course Description (p. 3293) page. The keystone symbol appears by the title of any course that is designated as a General Education course. Program requirements that may also satisfy General Education requirements vary for each program and are detailed on each degree requirements page.

In order to ensure that students participate in the full breadth of General Education, students may not select a course in their academic major to satisfy one of the Knowledge Domains area requirements. For example, a CRIMJ major may not use a CRIMJ course (or cross-listed course) to fulfill a General Education requirement.

The General Education requirements for students who enrolled at Penn State prior to Summer 2023 can be found in the Archive (p. 15).

MORE INFORMATION ABOUT ASSOCIATE DEGREE GENERAL EDUCATION REQUIREMENTS (<https://gened.psu.edu>)

Associate Degree Requirements

Foundations

Total 6 credits

Requirement	Credits
Writing/Speaking (GWS) *	3
Quantification (GQ) *	3

* Requires a grade of C or better

Knowledge Domains

Total 12 credits

Requirement	Credits
Natural Sciences (GN)	3
Arts (GA)	3
Humanities (GH)	3
Social and Behavioral Sciences (GS)	3

Note: Up to six credits of Inter-domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

Total 3 credits

Requirement	Credits
Any General Education course (including GHW and Inter-Domain courses)	3

Flexibility of the Associate Degree Requirements

The General Education program extends the concept of flexibility to all aspects of the degree program. Penn State wants students to use General Education as an opportunity to experiment and explore, to take academic risks, to discover things they did not know before, and to learn to do things they have not done before.

To these ends, students may, with the permission of their adviser and dean's representative, substitute a 200- to 499-level course for an Arts, Humanities, Natural Sciences, or Social and Behavioral Sciences course found on the General Education list. For example, a student may take a 400-level course in history and use it to meet the General Education requirement satisfied by a comparable lower-level history course.

Additional University Requirements

These requirements may be completed by designated courses that also complete other degree or General Education requirements.

Total 6 credits

Requirement	Credits
United States Cultures (US) or International Cultures (IL) or combined designation (US;IL) ‡	3
Writing Across the Curriculum	3

‡ Students may, with the permission of their adviser and dean's representative, meet the United States Cultures (US) and International Cultures (IL) requirement through completion of an experiential learning program or practicum (one-semester or year long) approved by their college dean's office. Approved Penn State Education Abroad Programs may be used to satisfy the International Cultures (IL) requirement.

Baccalaureate Degree General Education Requirements

The baccalaureate degree General Education program consists of 45 credits that are distributed among four General Education components:

- Foundations courses in writing, speaking and quantification (15 credits)
- Knowledge Domain breadth in the Arts, Humanities, Natural Sciences, Social and Behavioral Sciences, and Health and Wellness (15 credits)
- Integrative Studies bridging commonality and intersections in learning (6 credits)
- Exploration within General Education (9 credits)

A summary of the applicable attributes to determine if a course satisfies a requirement is available on the University Course Description (p. 3293) page. The keystone symbol appears by the title of any course that is designated as a General Education course. Program requirements that may also satisfy General Education requirements vary for each program and is detailed on each degree requirements page.

All General Education courses are to help students explore and integrate information beyond the special focuses of their majors. Students may not meet the General Education Breadth in Knowledge Domains and Exploration components by taking courses in the department or program identical to that of the academic major. For example, an Economics major may not use an ECON course or a course cross-listed with ECON to fulfill a General Education requirement. The Integrative Studies requirement is not subject to this policy.

The General Education requirements for students who enrolled at Penn State prior to Summer 2023 can be found in the Archive (p. 15).

Requirement	Credits
Natural Sciences (GN) (may be Inter-Domain)	3

GA, GH, GN, GS, and Inter-Domain courses. May include 3 credits of World Language course work beyond the requirements of the student's degree program or at the 12th credit level, whichever is higher.

Flexibility of the Baccalaureate Degree Requirements

The General Education program extends the concept of flexibility to all aspects of the degree program. Penn State wants students to use General Education as an opportunity to experiment and explore, to take academic risks, to discover, and to learn. A student may:

1. Substitute a 200- to 499-level course in an area of General Education for a course found on the General Education list. For example, course in history and use it to meet the General Education requirement satisfied by a comparable lower-level history course.
2. Substitute 3 units of a World Language course at the 12th credit level of proficiency or higher that exceed the student's minimum degree requirements in either of the Foundation areas (GWS or GQ) of General Education.

Additional University Requirements

These requirements may be completed by designated courses that also complete other degree or General Education requirements.

Total 9-12 credits

Requirement	Credits
First-Year Engagement Program †	0-3
United States Cultures ‡	3
International Cultures ‡	3
Writing Across the Curriculum	3

± May include a First-Year Seminar; a student's campus of enrollment determines whether or not a First-Year Seminar is required. Students at the University Park campus are required to complete at least 1 credit of first-year seminar and meet any other first-year requirements specified by their home college. Students at the Commonwealth campuses are required to complete the first-year experiences specified by their campus. First-year baccalaureate students entering Penn State should consult their enrollment home for these requirements.

‡ Students may, with the permission of their adviser and dean's representative, meet the United States Cultures (US) and International Cultures (IL) requirement through completion of an experiential learning program or practicum (one-semester or year long) approved by their College Dean's Office. Approved Penn State Education Abroad Programs may be used to satisfy the International Cultures (IL) requirement.

Foundations and Knowledge Domains

Descriptions and learning criteria for each of the Foundation and Knowledge Domain areas within General Education are listed here.

Foundations

Writing and Speaking (GWS)

In Writing and Speaking (GWS) courses, students do more than improve their abilities to communicate information clearly. They learn to set forth arguments persuasively and well, both orally and in writing. Students should emerge from their GWS courses as more accomplished writers and speakers, competent in a wide variety of settings.

To help students achieve GWS goals, the University provides GWS courses and an appropriate learning environment that will:

- provide opportunities for students to become increasingly effective communicators as they enter new contexts and address new audiences;
- provide opportunities for students to become increasingly accomplished in written, oral, digital, and visual communication.

GWS Student Learning Criteria

Upon successful completion of the General Education Writing and Speaking requirements, students will have increased their abilities to:

- demonstrate rhetorical and analytical skills as they explore, compose, interpret, and present a variety of texts;
- communicate effectively and persuasively to a range of audiences;
- demonstrate capacities for critical thinking, listening, and generating ideas;
- demonstrate proficiency in composing processes;
- employ the conventions of both spoken and written communication with sensitivity to context and venue.

Quantification (GQ)

In Quantification (GQ) fields, students practice and master basic mathematical and statistical skills of lifelong value in solving real-world problems. Students should learn to apply mathematical skills appropriate to solve such problems.

To help students achieve GQ goals and master foundational quantification skills, the university provides GQ coursework and an appropriate learning environment that will:

- provide experience in assessing and interpreting quantitative data and information;
- guide students to recognize patterns, establish relations, exercise conceptual thinking, develop problem-solving skills, and think logically and critically;
- support students in their efforts to draw accurate and useful conclusions; make informed decisions based on quantitative analysis; and use basic mathematical and statistical skills to solve conceptual problems.

GQ Student Learning Criteria

Upon successful completion of the General Education Quantification (GQ) requirement, students should have increased their abilities to:

- use mathematical, statistical, or computational models, principles, and processes to integrate, synthesize, generalize, or make judgments about real-world problems;
- recognize patterns, establish mathematical relations, apply problem-solving skills, and think logically and critically;
- develop, explore, analyze, and reason about multi-variable relationships using quantitative tools;

- use probability to reason and make judgments based on data that exhibit variability;
- communicate and explain mathematical and statistical ideas.

Knowledge Domains

Arts (GA)

In Arts fields (GA), students focus on exploring or creating works of art. Students should become familiar with the importance of significant creative works, the traditions and history associated with those works, and the important role that the arts play as expressions of the cultural values of society and the human condition.

To help students achieve GA goals, the University provides GA courses and an appropriate learning environment with purposeful engagement with the arts and creative works for students to:

- encounter and become conversant with the terminologies, techniques, practices, knowledge, and skills employed by the arts;
- gain a comprehension of the role that the arts play as expressions of the cultural values of society and the human condition;
- expand their knowledge of the variety of expressions and experiences that are provided through the arts;
- develop competencies in interpreting and critically evaluating diverse expressions in the arts.

GA Student Learning Criteria

Upon successful completion of the General Education Arts (GA) requirement, students should be able to:

- explain the methods of inquiry in arts fields and describe how the contributions of these fields complement inquiry in other areas;
- demonstrate expanded knowledge and comprehension of the role that the arts play in various aspects of human endeavor;
- demonstrate competence in the creation of works of art and design;
- demonstrate competence in analysis, critical thinking and interpretive reasoning through the exploration of creative works;
- identify and explain the aesthetic, historical, social, and cultural significance of important works of art and critically assess creative works, their own or others', through evaluative processes of analysis and interpretation.

Humanities (GH)

In Humanities (GH) fields, students focus on exploring important works of literature, history, religion, philosophy, and other closely related forms of cultural expression, thereby broadening their understanding of diverse ways of seeing, thinking about, and experiencing the self and society. Students will enlarge their intellectual horizons and knowledge of the world through encountering humanistic representations of both lived experiences and imaginative or speculative constructions, past or present. Students thus become increasingly prepared to live as thoughtfully engaged members of multiple communities, whether local, regional, or global.

To help students achieve GH goals, the University provides GH courses and an appropriate learning environment for students to:

- engage in the qualitative study of the humanities;
- expand their knowledge of the variety of human experiences;
- gain access to various intellectual traditions and their changes through time;

- probe the foundations of communication and thought and become aware of the scope and limitations of human communication;
- encounter concepts and traditions that attempt to bring sense to human existence;
- develop their competency in interpreting and critically evaluating diverse ways of life, traditions, and shared or individual values, including their own.

GH Student Learning Criteria

Upon successful completion of the General Education Humanities (GH) requirement, students should have increased their abilities to:

- explain the methods of inquiry in humanities fields and describe how the contributions of these fields complement inquiry in other areas;
- demonstrate competence in critical thinking about topics and texts in the humanities through clear and well-reasoned responses;
- critically evaluate texts in the humanities – whether verbal, visual, or digital – and identify and explain moral or ethical dimensions within the disciplines of the humanities;
- demonstrate knowledge of major cultural currents, issues, and developments through time, including evidence of exposure to unfamiliar material that challenges their curiosity and stretches their intellectual range;
- become familiar with groups, individuals, ideas, or events that have influenced the experiences and values of different communities.

Health and Wellness (GHW)

In Health and Wellness (GHW) fields, students focus on the physical and psychosocial well-being of individuals and communities. They expand their theoretical and practical knowledge about health and wellness – concepts that are multidimensional and culturally defined. The University provides opportunities for students to study such diverse topics as nutrition, physical activity, stress, sleep, healthy leisure, alcohol, tobacco, and other substance use, sexual health, and safety – all useful in maintaining lifelong health and wellness and in creating healthy work and community environments.

To help students achieve GHW goals, the University provides GHW courses and an appropriate learning environment for students to:

- Identify and practice skills, attitudes, and behaviors that should enable them to better maintain health and wellness across their lifespans
- Identify wellness as a positive state of well-being, not merely the absence of disease or illness
- Recognize the importance of social, emotional, and physical health and wellness for communities as well as for individuals.

GHW Student Learning Criteria

Upon successful completion of the General Education Health and Wellness (GHW) requirement, students should have increased their abilities to:

- explain the methods of inquiry in Health and Wellness fields and describe how the contributions of these fields complement inquiry in other areas;
- describe multiple perceptions and dimensions of health and wellness (emotional, spiritual, environmental, physical, social, intellectual, and occupational);
- identify and explain ways individuals and/or communities can achieve and maintain health and wellness;

- describe health-related risk factors and explain changes in knowledge, attitudes, behaviors, activities or skills that have the potential of improving health and wellness;
- disseminate knowledge about health and wellness and demonstrate behavioral practices needed to engage in healthy living across the lifespan.

Natural Sciences (GN)

In Natural Science (GN) fields, students develop the skills necessary to make informed judgments about scientific information and arguments. Along with building knowledge of foundational scientific principles, students expand their understanding of how and why science works, why it is an effective tool for knowledge generation, and how it can address contemporary questions and challenges.

To help students achieve GN goals and develop this scientific literacy, the University provides GN courses and an appropriate learning environment for students to:

- encounter the order, diversity, and beauty of nature;
- sample some of the ways which science offers additional lens through which to view the human condition;
- engage with scientific material through discussion, exploration, data analysis, and experimentation;
- gain practice in recognizing the nature of scientific process and discovery, in identifying what science can and cannot achieve, and analyzing why scientific arguments may lead to different conclusions than other forms of intellectual discourse.

GN Student Learning Criteria

Upon successful completion of the General Education (GN) requirement, students should have increased their abilities to:

- explain the methods of inquiry in the natural science fields and describe how the contributions of these fields complement inquiry in other areas;
- construct evidence-based explanations of natural phenomena;
- demonstrate informed understandings of scientific claims and their applications;
- evaluate the quality of the data, methods, and inferences used to generate scientific knowledge;
- identify societal or philosophical implications of discoveries in the natural sciences, as well as their potential to address contemporary problems.

Social and Behavioral Sciences (GS)

In Social and Behavioral Science (GS) fields, students focus on analyzing the forces that influence behaviors, values, habits, attitudes, and institutions. GS courses allow students to explore the multiple perspectives and methodologies useful in analyzing and addressing complex social issues.

To help students achieve GS goals, the university provides GS courses and an appropriate learning environment for students to:

- explore the interrelationships of the many factors that shape behavior;
- be introduced to methodological analyses of the forms, practices, and theories of politics, economics, and social institutions;
- develop comprehensive, integrated, reasoned, and theoretical views of their contemporary and emerging social worlds;

- expand their understanding of how social, political, and economic influences and trends affect individual, group, organizational, local, national, and global contexts.

GS Student Learning Criteria

Upon successful completion of the General Education Social and Behavioral Sciences (GS) requirement, students should have increased their abilities to:

- explain the various methods of inquiry used in the social and behavioral sciences and describe how the contributions of these fields complement inquiry in other areas;
- identify and explain major foundational theories and bodies of work in a particular area of social and behavioral sciences;
- describe the ways in which many different factors may interact to influence behaviors and/or institutions in historical or contemporary settings;
- explain how social and behavioral science researchers use concepts, theoretical models, and data to better understand and address world problems;
- recognize social, cultural, political and/or ethical implications of work in the social and behavioral sciences.

Integrative Studies

Integrative Studies courses have a distinctive intellectual dimension; these courses ask the student to consider a topic from the perspective of two different General Education areas. These courses aim to advance the student's ability to comprehend things from multiple perspectives, to see connections, and to grasp the concept that one must employ different modes of thinking, different epistemologies to understand more adequately the nature of things; one domain is not fully equal to the task of understanding the world around us.

Inter-Domain Courses

Inter-Domain courses each demonstrate how two ways of understanding the world speak to one another and how knowledge in one area relates to knowledge in another. Inter-Domain courses are each approved for two General Education areas and demonstrate consistently how knowledge is integrated across these two areas.

Students must complete 6 credits of Inter-Domain coursework to fulfill the Integrative Studies requirement.

Other University Requirements

There are several university-level requirements that are designed to help students succeed both academically and professionally. These requirements may be completed by designated courses that also complete other degree or General Education requirements (e.g. a single course may satisfy a cultural diversity requirement as well as a General Education requirement).

First-Year Engagement Program

The First-Year Engagement Programs are designed to actively involve students in learning, acquaint them with the learning tools and resources available at Penn State and orient them to the scholarly community from the outset of their undergraduate studies in a way that will bridge to later experiences in their chosen majors. In addition, the First-Year Engagement Programs facilitate students' adjustment to the high expectations, demanding workload, increased academic liberties, and

other aspects of the transition to college life and introduce them to their responsibilities as members of the University community.

All incoming first-year baccalaureate students are required to complete a First-Year Engagement Program, with a student's campus of enrollment determining whether or not this includes a First-Year Seminar (FYS). All students enrolled in a University Park college, the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan. Other campuses may require the First-Year Seminar; campuses that no longer require a First-Year Seminar provide students with a first-year engagement experience. First-year baccalaureate students entering Penn State should consult their enrollment home for these requirements.

Courses that have the First Year Seminar attribute satisfy this requirement. Some courses may also have an identifying suffix (S or T) after the course number. The degree audit and what-if reports in LionPATH use attributes, not suffixes, to determine the applicability of a course to a requirement.

Cultural Diversity

Baccalaureate students are required to complete 3 credits each in United States and International Cultures.

Associate degree students are required to complete 3 credits in United States or International Cultures

United States Cultures

A course that fulfills the United States Cultures requirement must strive to increase students' understanding of contemporary United States society. Such a course need not focus exclusively on the present and may concern a historical subject.

Courses with the United States Cultures designation will include two or more of the following components and will include those components in the graded evaluation of student performance:

1. cultivate student knowledge of issues of social identity such as ethnicity, race, class, religion, gender, physical/mental disability, age, or sexual orientation;
2. convey to students knowledge of different United States values, traditions, beliefs, and customs;
3. increase student knowledge of the range of United States cultural achievements and human conditions through time;
4. increase student knowledge of United States social identities not in isolation, but in relation to one another (for example, the interaction of race or gender with socioeconomic status);
5. introduce students to interpersonal communication and interaction issues among United States cultures;
6. increase student understanding of the nature of societal justice, and equity in the United States at the societal, institutional, and individual levels.

Courses with the United States Cultures attribute satisfy this requirement. It is also common to abbreviate this course designation as U.S.

International Cultures

A course that fulfills the International Cultures requirement must strive to increase student knowledge of the variety of international societies and

may deal to some extent with U.S. culture in its international connections. It need not focus exclusively on the present and may, indeed, be a historical subject. Courses with the International Cultures designation will do two or more of the following:

1. cultivate student knowledge of the similarities and differences among international cultures;
2. convey to students knowledge of other nations' cultural values, traditions, beliefs, and customs;
3. increase students' knowledge of the range of international cultural achievements and human conditions through time;
4. increase students' knowledge of nations and cultures not in isolation, but in relation to one another;
5. introduce students to interpersonal communication and interaction issues among international cultures.
6. increase student understanding of the nature of societal justice, and equity in international nations at the societal, institutional, and individual levels.

Courses with the International Cultures attribute satisfy this requirement. It is also common to abbreviate this course designation as IL.

Writing Across the Curriculum

Developing the skill to communicate by means of the written word is extremely important. Courses other than General Education English Composition courses emphasize the ability of students to write. Colleges and/or departments have established Writing Across the Curriculum courses in specific programs. Students are required to complete at least 3 credits of writing-intensive courses offered within their major or college of enrollment.

Typically, Writing Across the Curriculum courses include writing assignments that relate clearly to the course objectives and serve as effective instruments for learning the subject matter of the course. In writing-intensive courses, assignments are designed to help students investigate the course subject matter, gain experience in interpreting data or the results of research, shape writing for a particular audience, or practice the type of writing associated with a given profession or discipline.

Opportunities for students to receive written feedback from the instructor and to apply the instructor's feedback to their future writing are built into the writing courses. A writing-intensive course may also include peer review of written work, tutorial assistance, instructor conferences, group writing projects, the use of writing or learning centers, teaching assistant feedback, and classroom discussions of assigned readings about writing.

Courses with the Writing Across the Curriculum attribute satisfy this requirement. Some courses may also have an identifying suffix (W, M, X, or Y) after the course number. The degree audit and what-if reports in LionPATH use attributes, not suffixes, to determine the applicability of a course to a requirement. Both baccalaureate and associate degree students complete 3 credits in this area.

Course Lists

General Education

Foundations and Knowledge Domains

- Arts Courses (p. 3189)
- Health and Wellness Courses (p. 3227)

- Humanities Courses (p. 3228)
- Natural Sciences Courses (p. 3256)
- Quantification Courses (p. 3258)
- Social and Behavioral Sciences Courses (p. 3259)
- Writing and Speaking Courses (p. 3274)

Integrative Studies

- Inter-Domain Courses (p. 3237)

Bachelor of Arts

- Arts Courses (p. 3193)
- Humanities Courses (p. 3199)
- Natural Sciences Courses (p. 3211)
- Quantification Courses (p. 3212)
- World Cultures Courses (p. 3220)
- Social and Behavioral Sciences Courses (p. 3214)
- World Language (12th Unit) Courses (p. 3223)
- World Language (All) Courses (p. 3224)
- Exceeds 12th Unit of World Language Courses (p. 3198)

Other University Requirements

- First-Year Seminar (p. 3226)
- International Cultures (IL) (p. 3241)
- United States Cultures (US) (p. 3264)
- Writing Across the Curriculum (p. 3270)

Arts Courses

These courses have been approved as General Education Arts courses. This course list is updated periodically. Descriptions and learning criteria for General Education Arts courses can be found in the Foundation and Knowledge Domains section (p. 3185).

Code	Title	Credits
AA 100	Introduction to International Arts	3
AA 103	Introduction to Interior Design	3
AA 113N	Sustainable Arts and Design	3
AA 120N	Introduction to Art Therapy	3
AA 121	Design Thinking and Creativity	3
AA 122	Introduction to Graphic Storytelling	3
AA 130N	Creative Arts Therapy Applications	3
AA 160N	The Virtual Transformational Leadership Development Experience	3
AA 193N	The Craft of Comics	3
AA 230N	Arts & Wellness in Communities	3
AED 62	Contemporary African and African American Arts and Culture	3
AED 211W	Interpreting Art Experience: Social-cultural Perspectives	3
AED 225	Diversity, Pedagogy, and Visual Culture	3
AED 233N	Learning in Maker Cultures	1-3
AED 355Q	Show Me Where it Hurts: Healthcare and Creative Inquiry	3
AFAM 126N	The Popular Arts in America: The History of Hip-Hop	3

AFAM 141N	African American Read-In Engaged Learning Experience	1-3	ARTH 207	The Eternal City: Rome from Antiquity to the Present	3
AFAM 207N	Jazz and the African American Experience	3	ARTH 215	Architecture and Art of South and Southeast Asia	3
AFAM 226N	Critical Approaches to Hip-Hop	3	ARTH 220	Chinese Art	3
AFR 335	African Art	3	ARTH 222N	Intersections between Art History and the History of Psychology	3

B.A. Degree Requirements: Arts Courses

These courses have been approved as Bachelor of Arts Degree Requirements courses. This course list is updated periodically. More information about the Bachelor of Arts Degree Requirements can be found in the Academic Information section.

Code	Title	Credits
AA 100	Introduction to International Arts	3
AA 121	Design Thinking and Creativity	3
AA 122	Introduction to Graphic Storytelling	3
AA 160N	The Virtual Transformational Leadership Development Experience	3
AA 322	Arts Marketing	3
AA 401	International Arts Minor Final Project	1-3
AED 62	Contemporary African and African American Arts and Culture	3
AED 211W	Interpreting Art Experience: Social-cultural Perspectives	3
AED 225	Diversity, Pedagogy, and Visual Culture	3
AFAM 207N	Jazz and the African American Experience	3
AFAM 208	Workshop: Theatre in Diverse Cultures	3
AFAM 412	African American Theatre	3
AFR 335	African Art	3
AFR 446	Topics in African Art	3
AFR 447	Topics in the Art of the African Diaspora	3
AMST 307N	American Art and Society	3
AMST 308N	American Architecture	3
AMST 309N	American Material Culture	3
APLNG 402	Language, Culture and Cognition in East Asian Context	3
ARAB 401	Advanced Language & Cultures I	3
ARAB 402	Advanced Language & Cultures II	3
ARCH 170N	Introduction to Sustainable Architecture	3
ARCH 210	Ideas Across Time in Architecture and Urbanism	3
ARCH 316	Analysis of Human Settlements: Cities	3
ART 1	Introduction to the Visual Arts	3
ART 2	Interactive Learning and Web-Design	3
ART 3	Visual Images on the Web	3
ART 10	Introduction to Visual Studies	3
ART 17	Introduction to Metal Arts	3
ART 20	Introduction to Drawing	3
ART 30	Introduction to Sculpture	3
ART 40	Introduction to Printmaking	3
ART 50	Introduction to Painting	3
ART 80	Introduction to Ceramics	3
ART 98	Special Topics	1-9
ART 100	Concepts and Creation in the Visual Arts	3
ART 101	Introduction to Web Design	3
ART 111	Ideas as Objects	3

ART 122Y	Commentary on Art	3
ART 165	Artistic Concepts of Space	3
ART 166	Artistic Concepts of Form	3
ART 168	The Digital Medium	3
ART 198	Special Topics	1-9
ART 199	Foreign Studies--Art	1-12
ART 207N	LGBTQ+ Identity, Culture and The Arts	3
ART 211	Introduction to Digital Art and Design Criticism	3
ART 211Y	Introduction to Digital Art and Design Criticism	3
ART 220	Figure Drawing	3
ART 223	Drawing: Techniques, Materials, and Tools	3
ART 230	Beginning Sculpture	3
ART 240	Beginning Printmaking	3
ART 250	Beginning Oil Painting	3
ART 280	Beginning Ceramics	3
ART 290	Beginning Photography	3
ART 296	Independent Studies	1-18
ART 297	Special Topics	1-9
ART 299	Foreign Study--Art	1-12
ART 320	Advanced Drawing	4
ART 330	Intermediate Sculpture: Metal Fabrication and Mixed-media	4
ART 331	Intermediate Sculpture: Metal Casting and Mold-Making	4
ART 340	Printmaking	4
ART 341	Intermediate Printmaking: Intaglio/Relief	4
ART 342	Intermediate Printmaking: Lithography/Serigraphy	4
ART 343	New Media Printmaking	4
ART 350	Intermediate Painting	4
ART 380	Intermediate Throwing	4
ART 381	Intermediate Handbuilding	4
ART 390	Introduction to Photochemical Photography	4
ART 397	Special Topics	1-9
ART 399	Foreign Study--Art	1-12
ART 409	Museum Studies	3
ART 411	Seminar in Contemporary Art	3
ART 413	Performance Art	3
ART 421	Drawing	4
ART 422	Advanced Figure Drawing	4
ART 430	Advanced Sculpture	4
ART 431	Installation Art	4
ART 438	The Body: Issues and Objects	4
ART 440	Advanced Printmaking	4
ART 446	Artists Books	4
ART 450	Advanced Painting	4
ART 455	Advanced Painting Critique	4
ART 466W	Individual Approaches II	3
ART 476	History and Theory of Digital Art	3
ART 480	Advanced Ceramic Arts	4
ART 490	View Camera Photography	4
ART 495	Internship	1-18
ART 496	Independent Studies	1-18

ART 496H	Independent Studies	1-18	ARTH 410	Taste and Criticism in Art	3
ART 497	Special Topics	1-9	ARTH 411	Roman Art	3

Natural Sciences Courses

These courses have been approved as General Education Natural Sciences courses. This course list is updated periodically. Descriptions and learning criteria for General Education Natural Sciences courses can be found in the Foundation and Knowledge Domains section (p. 3185).

Code	Title	Credits
AEE 204N	Science Literacy and Policy in the 21st Century	3
AFR 105	African Biodiversity and Conservation	3
AG 180N	Contemporary Issues in Food, Ag, Natural Resources, and Human Sciences	3
AGBM 170N	Investigating the U.S. Food System: How food moves from field to table	3
AGECO 121	Plant Stress: It's Not Easy Being Green	3
AGECO 122	Atmospheric Environment: Growing in the Wind	3
AGECO 134N	Sustainable Agriculture Science and Policy	3
AGECO 144	Principles and Practices of Organic Agriculture	3
ANSC 100	Introduction to Animal Industries	3
ANSC 107	Introduction to Equine Science and the Equine Industry	3
ANSC 332N	Science and policy of global greenhouse gas emissions and management	3
ANSC 447	Equine Exercise Physiology	3
ANTH 21	Introductory Biological Anthropology	3
ANTH 22	Humans as Primates	3
ANTH 40Q	Biocultural Evolution	3
ANTH 100N	Anthropology of Race and Racism	3
ANTH 129N	Chocolate Worlds	3
ANTH 150N	Human Nature: The Science of Extreme Altruism and Violence	3
ANTH 150Q	Human Nature: The Science of Extreme Altruism and Violence	3
ANTH 210N	Anthropology, Ancestry, and You	3
ANTH 216N	Sex and Evolution	3
ANTH 219N	Spillover: The Anthropology of Emerging Infectious Diseases	3
ANTH 240N	Livelihoods and Ecosystems: Anthropological Approaches to Human-Environment Interaction	3
ANTH 375Q	Anthropology of Food Honors	3
ARCH 170N	Introduction to Sustainable Architecture	3

ART 51N	Meteorology and Visual Arts: To Know is to See	3
ART 160N	STEAM: Connecting Art to Science, Technology, Engineering and Mathematics	3
ART 170N	Plant and Microbial Art	3
ARTH 107N	Rocks, Minerals, and the History of Art	3
ASTRO 1	Astronomical Universe	3
ASTRO 5	The Sky and Planets	3
ASTRO 6	Stars, Galaxies, and the Universe	3
ASTRO 7N	The Artistic Universe	3
ASTRO 10	Elementary Astronomy	2
ASTRO 11	Elementary Astronomy Laboratory	1
ASTRO 19N	Being in the Universe	3
ASTRO 120	The Big Bang Universe	3
ASTRO 130	Black Holes in the Universe	3
ASTRO 140	Life in the Universe	3
ASTRO 141N	Film and Extraterrestrial Life: Science Fact or Fiction?	3
ASTRO 291	Astronomical Methods and the Solar System	3
ASTRO 320	Observational Astronomy Laboratory	3
BIOL 11	Introductory Biology I	3
BIOL 12	Introductory Biology II	1
BIOL 110	Biology: Basic Concepts and Biodiversity	4
BIOL 110H	Honors Biology: Basic Concepts and Biodiversity	4
BIOL 127	Introduction to Plant Biology	3
BIOL 133	Genetics and Evolution of the Human Species	3
BIOL 141	Introduction to Human Physiology	3
BIOL 144	Climate Change: Biological Impacts	3
BIOL 155	Introduction to the Biology of Aging	3
BIOL 160N	Fitness with Exercise Physiology	3
BIOL 161	Human Anatomy and Physiology I - Lecture	3
BIOL 162	Human Anatomy and Physiology I - Laboratory	1
BIOL 163	Human Anatomy and Physiology II - Lecture	3
BIOL 164	Human Anatomy and Physiology II - Laboratory	1
BIOL 169N	What it means to be human	3
BIOL 177	Biology of Sex	3
BISC 2	Genetics, Ecology, and Evolution	3
BISC 3	Environmental Science	3
BISC 4	Human Body: Form and Function	3
BMB 1	The Science of Sickness	3
BMB 1Z	The Science of Sickness - Linked	3
CHEM 1	Molecular Science	3
CHEM 3	Molecular Science With Laboratory	3
CHEM 5	Kitchen Chemistry	3
CHEM 101	Introductory Chemistry	2-3
CHEM 106	Introductory and General Chemistry	5
CHEM 110	Chemical Principles I	3
CHEM 110H	Chemical Principles I - Honors	3
CHEM 111	Experimental Chemistry I	1
CHEM 112	Chemical Principles II	3
CHEM 112H	Chemical Principles II - Honors	3
CHEM 113	Experimental Chemistry II	1
CHEM 113B	Experimental Chemistry II-Bioscience	1

CHEM 130	Introduction to General, Organic, and Biochemistry	3	GEOG 115	Landforms of the World	3
CHEM 233N	Chemistry and Literature	3	GEOG 210	Geographic Perspectives on Environmental Systems Science	3
CMLIT 19N	Being in the Universe	3	GEOG 315	Landforms and Geomorphic Systems in the Anthropocene	3
CMLIT 183Q	From Beast Books to Resurrecting Dinosaurs	3	GEOG 330N	Political Ecology	3
COMM 151N	Film and Extraterrestrial Life: Science Fact or Fiction?	3	GEOG 332N	Science and policy of global greenhouse gas emissions and management	3
DANCE 370	Anatomy and Physiology for Performers	3	GEOSC 10	Geology of the National Parks	3
EARTH 2	The Earth System and Global Change	3	GEOSC 20	Planet Earth	3
EARTH 10	Energy and Earth's Climate	1	GEOSC 30	Volcanoes	3
EARTH 100	Environment Earth	3	GEOSC 40	The Sea Around Us	3
EARTH 101	Natural Disasters: Hollywood vs. Reality	3	GEOSC 50	Planetary Geology	3
EARTH 103N	Earth in the Future: Predicting Climate Change and Its Impacts Over the Next Century	3	GEOSC 107N	Rocks, Minerals, and the History of Art	3
EARTH 104N	Climate, Energy and Our Future	3	GEOSC 110H	The Science of Gemstones	3
EARTH 105N	Environments of Africa: Geology and Climate Change	3	GEOSC 212N	Earthquakes and Human History	3
EARTH 107N	Coastal Processes, Hazards and Society	3	GER 115N	Science, Humanity and Catastrophe: Scientific Discovery in Germany	3
EARTH 109	The Fundamentals of Shale Energy Development	3	GER 197E	Special Topics GN/GH	3
EARTH 111N	Water: Science and Society	3	HHD 200N	Addiction Science to Society	3
EARTH 150	Dinosaur Extinctions and Other Controversies	3	HIST 6N	History and Weather: How Weather Played an Instrumental Role in Great World Events	3
EARTH 155N	Scientific Controversies and Public Debate	3	HIST 125N	History of Infectious Disease and Epidemiology	3
EARTH 200N	Earth Systems Through a Soc & Envir Justice Lens	3	HIST 128N	Cultural Perspectives on Mathematics	3
EGEE 101	Energy and the Environment	3	HIST 129N	Chocolate Worlds	3
EGEE 101H	Energy and the Environment	3	HIST 212N	Earthquakes and Human History	3
EGEE 102	Energy Conservation for Environmental Protection	3	HORT 101	Horticultural Science	3
EGEE 110N	Environmental Health and Safety Science	3	HORT 150N	Plants in the Human Context	3
EMSC 125	Plastics in the Environment	3	HORT 169N	Fundamentals of Home Landscaping: An Introduction to Design, Construction, and Maintenance	3
EMSC 240N	Energy and Sustainability in Contemporary Culture	3	INART 50	The Science of Music	3
ENGL 142N	Science in Literature	3	INTAG 100N	Everyone Eats: Hunger, Food Security & Global Agriculture	3
ENGL 163N	Defining the Animal	3	KINES 160N	Fitness with Exercise Physiology	3
ENGL 233N	Chemistry and Literature	3	MATSE 81	Materials in Today's World	3
ENGR 115N	Science, Humanity and Catastrophe: Scientific Discovery in Germany	3	MATSE 101	Energy and the Environment	3
ENGR 120N	Design Thinking and 3D Printing in Engineering and Healthcare	3	MATSE 112	Applied Materials Chemistry for Engineers	3
ENT 202N	Insect Connections: Insects, Globalization and Sustainability	3	METEO 3	Weather Revealed: Introductory Meteorology	3
ENT 216N	Plagues Through the Ages	3	METEO 4	Weather and Risk	3
ENT 222N	Honey Bees and Humans	3	METEO 5	Severe and Unusual Weather	3
ENVST 100N	Visions of Nature	3	METEO 6N	History and Weather: How Weather Played an Instrumental Role in Great World Events	3
FDSC 223	Understanding Science Through Wine Beer and Bread	3	METEO 7	An Introduction to Climate Sciences: Climate change, Variability, and Society	3
FOR 201N	Global Change and Ecosystems	3	METEO 51N	Meteorology and Visual Arts: To Know is to See	3
FRNSC 100	Introduction to Forensic Science	3	METEO 122	Atmospheric Environment: Growing in the Wind	3

LTNST 426	Chicana and Chicano Cultural Production: Literature, Film, Music	3	RHS 420	Culture & Disability: Study Abroad in Ireland	6
LTNST 467	Latin America and the United States	3	RLST 1	Introduction to World Religions	3
LTNST 479	U.S. Latina/o Culture en Espanol	3	RLST 4	Jewish and Christian Foundations	3
MATH 475Y	History of Mathematics	3	RLST 104	Introduction to Buddhism	3
METEO 6N	History and Weather: How Weather Played an Instrumental Role in Great World Events	3	RLST 105N	Buddhism and US Society	3
MGMT 445	Managing a Diverse Workforce	3	RLST 107	Introduction to Islam	3
MUSIC 7	Evolution of Jazz	3	RLST 114	Modern Judaism	3
MUSIC 93	Essence of Joy	1	RLST 115	The American Jewish Experience	3
MUSIC 207N	Jazz and the African American Experience	3	RLST 116	Muslims in America	3

RLST 137	Gender, Sexuality, and Religion	3	STS 416	Race, Gender and Science	3
RLST 140Y	Religion in American Life and Thought	3	THEA 100	The Art of the Theatre	3
RLST 145	African Diaspora Religions and Spiritualities	3	THEA 106	Theatre Foundations	3
RLST 146	The Life and Thought of Martin Luther King, Jr.	3	THEA 207	Gender and Theatre	3
RLST 147	The Life and Thought of Malcolm X	3	THEA 208	Workshop: Theatre in Diverse Cultures	3
RLST 235	The Church and the Jews	3	THEA 405W	Theatre History: American Theatre	3
RLST 410	Jews in the Medieval World	3	THEA 407W	Women and Theatre	3
RLST 411	Jewish Studies	3	THEA 408W	History of American Musical Theatre	3
RLST 440Y	The Orthodox Christian Tradition	3	THEA 412	African American Theatre	3
RLST 461	Sociology of Religion	3	WFED 450	Cultural Diversity in the Workplace	3
RPTM 120	Leisure and Human Behavior	3	WMNST 1	Introduction to Women's Studies	3
RPTM 120S	Leisure and Human Behavior	3	WMNST 83N	First-Year Seminar in Women's Studies	3
RPTM 220	Sustainability, Society, and Well-being	3	WMNST 100	Introduction to Women's and Gender Studies	3
RPTM 277	Inclusive Leisure Services	3	WMNST 100U	Introduction to Women's and Gender Studies	3
RSOC 11	Intro Rural Sociology	3	WMNST 101N	African American Women	3
RSOC 400N	Exploring Indigenous Ways of Knowing in Great Lakes Region: Lecture	3	WMNST 103	Racism and Sexism	3
SC 120N	Plants, Places, and People	3	WMNST 104	Women and the American Experience	3
SOC 103	Racism and Sexism	3	WMNST 105N	Living in a Diverse World	3
SOC 110	Sociology of Gender	3	WMNST 106N	Representing Women and Gender in Literature, Art and Popular Cultures	3
SOC 119N	Race, Ethnicity and Culture	3-4	WMNST 106Q	Representing Women and Gender in Literature, Art and Popular Cultures	3
SOC 130N	Buddhism and US Society	3	WMNST 110	Sociology of Gender	3
SOC 269	Intercultural Dialogue Concepts and Practice	1-4	WMNST 116N	Family and Gender Roles in Modern History	3
SOC 369	Foundational Theory and Practice in Small Group Facilitation	3-4	WMNST 117	Women in United States History	3
SOC 409	Racial and Ethnic Inequality in America	3	WMNST 120	Sex, Gender, and the Body	3
SOC 411	Racial and Ethnic Diversity and the American Family	3	WMNST 136	Race, Gender, and Employment	3
SOC 416	Sociology of Education	3	WMNST 136Y	Race, Gender, and Employment	3
SOC 419	Race and Public Policy	3	WMNST 137	Gender, Sexuality, and Religion	3
SOC 447	Ethnic Minorities and Schools in the United States	3	WMNST 166	History of Sexuality	3
SOC 454	The City in Postindustrial Society	3	WMNST 194	Women Writers	3
SOC 457	Jewish Communities: Identity, Survival, and Transformation in Unexpected Places	3	WMNST 205	Gender, Diversity and the Media	3
SOC 461	Sociology of Religion	3	WMNST 207N	LGBTQ+ Identity, Culture and The Arts	3
SOC 469	Advanced Theory and Practice in Small Group Facilitation	3-4	WMNST 213Y	African American Women's History	3
SOCW 205	Diversity, Equity, Inclusion, and Justice	3	WMNST 220	Beyond Birth Control: Feminist Perspectives on Women's Sexualities	3
SOCW 215	Introduction to Social Welfare History, Policy, Programs, and Services	3	WMNST 227	Introduction to Queer Theory	3
SPAN 131	Ibero-American Civilization	3	WMNST 235	Gender and the Global Information Technology Sector	3
SPAN 131Y	Ibero-American Civilization	3	WMNST 245	Introduction to LGBTQ Studies	3
SPAN 210N	Multilingual and Intercultural Communication	3	WMNST 250	Sexual Identity over the Life Span	3
SPAN 315N	Spanish and Spanish-speakers in the U.S.	3	WMNST 266Y	Sexuality and Violence in Nineteenth-Century America	3
SPAN 326	Reading the BorderLands: Geography and Identity Along the U.S.-Mexico Border	3	WMNST 300	Latinx Gender and Sexuality Studies	3
SPAN 425	The Spanish Your Teachers Never Taught You	3	WMNST 301N	Sexualities, Gender and Power: Feminist Thought and Politics	3
SPAN 479	U.S. Latina/o Culture en Espanol	3	WMNST 350	Gender, War, and Militarism	3
SPLD 420	Culture & Disability: Study Abroad in Ireland	6	WMNST 364N	Black & White Sexuality	3
SSED 100N	Foundations of History and Social Studies Concepts for K-8 Teachers	3	WMNST 400N	Debates in Contemporary Feminism	3
SSED 200	American Heritage	3	WMNST 407W	Women and Theatre	3
STS 151N	Technology and Society in American History	3	WMNST 423	Sexual and Domestic Violence	3
			WMNST 424	Women and Sport	3
			WMNST 426W	Gendered Worlds	3

WMNST 428	Gender and Politics	3	ANTH 445W	Ethnographic Film	3
WMNST 430	Women in American Society	3	ANTH 476W	Anthropology of Gender	3
WMNST 430	Women in American Society	3	APLNG 482Y	Introduction to Applied Linguistics	3
WMNST 453	Women and the Criminal Justice System	3	ARCH 311W	Architectural and Planning Theories	3
WMNST 455	Gender Roles in Communication	3	ART 122Y	Commentary on Art	3
WMNST 462	Reading Black, Reading Feminist	3	ART 211Y	Introduction to Digital Art and Design Criticism	3
WMNST 464	Feminine/Masculine	3	ART 466W	Individual Approaches II	3
WMNST 466	Lesbian and Gay History	3	ARTH 350W	Undergraduate Seminar in the History of Art	3
WMNST 471	The Psychology of Gender	3	ARTSA 402W	Strategic Management and Planning for the Arts	3
WMNST 490	Women Writers and Their Worlds	3	ASIA 120Y	South Asia: A Literary History	3

Writing Across the Curriculum Courses

These courses have been approved to fulfill University Degree Requirements. This course list is updated periodically. More information about the University Degree Requirements can be found in the Academic Information section.

Code	Title	Credits			
ABSM 430W	Agricultural and Biorenewable Systems Management Capstone 1	1	ASTRO 237W	Astronomy Communications	3
ABSM 431W	Agricultural and Biorenewable Systems Management Capstone 2	2	ASTRO 402W	Astronomical Telescopes, Techniques, and Data Analysis	3
ACCTG 403W	Auditing	3	ASTRO 420W	Planets and Planetary System Formation	3
AE 481W	Comprehensive Architectural Engineering Senior Project I	4	ASTRO 475W	Stars and Galaxies	3
AE 494M	Senior Honors Thesis	4	ATHTR 438W	Administrative and Professional Aspects of Sports Health Care	3
AED 201W	History and Philosophy of Art Education in Schools and Cultural Institutions	3	BA 364Y	International Business and Society	3
AED 211W	Interpreting Art Experience: Social-cultural Perspectives	3	BA 422W	Strategic Business Planning	3
AEE 330W	Communication in Agricultural and Natural Resource Careers	3	BBH 301W	Values and Ethics in Biobehavioral Health Research and Practice	3
AERSP 305W	Aerospace Technology Laboratory	3	BBH 411W	Research and Applications in Biobehavioral Health	3
AFAM 136Y	Race, Gender, and Employment	3	BE 460W	Biological Engineering Design I	2
AFAM 207W	Methods in African American Studies	3	BE 466W	Biological Engineering Design II	2
AFAM 213Y	African American Women's History	3	BE_T 204W	Medical Equipment and Systems II	5
AFAM 445Y	Politics of Affirmative Action	3	BIOL 220M	Honors Biology: Populations and Communities	4
AGBM 308W	Strategic Decision Making in Agribusiness	3	BIOL 220W	Biology: Populations and Communities	4
AGCOM 462W	Advanced Agricultural Writing	3	BIOL 230M	Honors Biology: Molecules and Cells	4
AGRO 410W	Physiology of Agricultural Crops	4	BIOL 230W	Biology: Molecules and Cells	4
AMST 100Y	Introduction to American Studies	3	BIOL 240M	Honors Biology: Function and Development of Organisms	4
AMST 140Y	Religion in American Life and Thought	3	BIOL 240W	Biology: Function and Development of Organisms	4
AMST 491W	American Studies Perspectives	3-6	BIOL 402W	Biological Experimental Design	3
ANSC 202W	Contemporary Issues in Animal Agriculture	3	BIOL 450W	Experimental Field Biology	3-5
ANSC 419W	Applied Animal Welfare	3	BMB 443W	Laboratory in Protein Purification and Enzymology	3
ANSC 422W	Dairy Cattle Evaluation and Selection	3	BMB 445W	Laboratory in Molecular Genetics I	2
ANSC 467W	Equine Nutrition and Feeding	3	BME 450W	Biomedical Senior Design	3
ANTH 321W	Intellectual Background of Archaeology	3	CAMS 109Y	Writing Systems of the World	3
ANTH 426W	Archaeological Laboratory Analysis	3	CAMS 400W	Comparative Study of the Ancient Mediterranean World	3
ANTH 427W	Forensic Archaeology	3	CAMS 411W	Classical Drama	3
ANTH 439W	Studies in Classical and Ancient Mediterranean Archaeology	3-6	CAMS 425W	Books of the Bible: Readings and Interpretation	3
			CAMS 432W	Gender and Sexuality in the Bible	3
			CAMS 440W	Studies in Classical and Ancient Mediterranean Archaeology	3-6
			CAMS 450Y	Gender and Sexuality in Ancient Greece and Rome	3
			CAS 214W	Speech Writing	3

CAS 280W	Storytelling and Speaking	3	CRIMJ 424W	Drugs and Crime	3
CAS 426W	Communication Ethics	3	CRIMJ 441W	The Juvenile Justice System	3
CAS 450W	Group Communication Theory and Research	3	CRIMJ 450W	Senior Seminar	3
CAS 452W	Organizational Communication Theory and Research	3	CRIMJ 489W	Victimology: Predatory Crime	3
CC 490W	Seminar in Corporate Communication	3	CSD 459W	Principles of Clinical Management in Communication Disorders	3
CE 333W	Construction Management I	3	CYBER 342W	Cyber Incident Handling and Response	3
CE 421W	Transportation Design	3	DA 201W	Descriptive Analytics	4
CE 438W	Construction Engineering Capstone Design	3	DA 302W	Predictive Analytics	4
CE 439W	Geotechnical and Materials Engineering Design Capstone	3	DA 401W	Prescriptive Analytics	4
CE 448W	Structural Design Capstone	3	DS 340W	Applied Data Sciences	3
CE 465W	Water Resources Capstone Course	3	DS 440W	Data Science Capstone	3
CE 472W	Environmental Engineering Capstone Design	3	EBF 304W	Global Management for the Earth, Energy, and Materials Industries	3
CED 420W	Gender and International Development	3	EBF 404W	The Great Energy Transition: Law, Economics, and New Frontiers	3
CED 430W	Principles of Community Economic Development	3	ECON 400M	Honors Seminar in Economics	3-12
CED 431W	Economic Analysis of Environmental and Resource Policies	3	ECON 489M	Honors Thesis	1-6
CED 460W	Policy, Politics and Perspectives on Social & Environmental Responsibility	3	EDSGN 460W	Multidisciplinary Capstone Design Project	3
CHE 480M	Chemical Engineering Laboratory (Honors)	3	EDUC 315Y	Social and Cultural Factors in Education	3
CHE 480W	Chemical Engineering Laboratory	3	EDUC 470W	Higher-Order Thinking for Educators	3
CHEM 213M	Laboratory in Organic Chemistry - Honors, Writing Intensive	2	EE 300W	Design Process	3
CHEM 213W	Laboratory in Organic Chemistry - Writing Intensive	2	EE 313W	Electronic Circuit Design II	4
CHEM 423W	Chemical Spectroscopy	4	EE 403W	Capstone Design	3
CHEM 425W	Chromatography and Electrochemistry	4	EE 406W	Electrical Engineering Capstone Design	3
CHEM 431W	Organic and Inorganic Preparations	4	EET 212W	Op Amp and Integrated Circuit Electronics	4
CHEM 459W	Advanced Experimental Physical Chemistry	4	EET 213W	Fundamentals of Electrical Machines Using Writing Skills	5
CHNS 403M	Level Four Chinese A	4	EET 420W	Electrical Design Project	3
CHNS 403W	Level Four Chinese A	4	EET 490W	Electrical/Computer Senior Design Project	3
CMLIT 400Y	Senior Seminar in Literary Criticism and Theory	3	EGEE 411W	Energy Science and Engineering Lab	3
CMLIT 404Y	Topics in Asian Literature	3	EGEE 464W	Energy Design Project	3
CMPEN 352W	Embedded Systems Design	3	ELEDM 395W	**SPECIAL TOPICS**	2
CMPEN 482W	Computer Engineering Project Design	3	EMSC 470W	Undergraduate Collaborative Research in Earth and Materials Sciences	1-6
CMPSC 431W	Database Management Systems	3	ENGL 200W	Introduction to Critical Reading	3
CMPSC 483W	Software Design Methods	3	ENGL 211W	Introduction to Writing Studies	3
CMPSC 485W	Computer Science Senior Project II	3	ENGL 221W	British Literature to 1798	3
CMPSC 487W	Software Engineering and Design	3	ENGL 222W	British Literature from 1798	3
COMM 230W	Writing for Media	3	ENGL 231Y	American Literature to 1865	3
COMM 260W	News Writing and Reporting	3	ENGL 232Y	American Literature from 1865	3
COMM 342W	Idea Development and Media Writing	3	ENGL 237N	Reading and Writing Documentary Poetry	3
COMM 413W	The Mass Media and the Public	3	ENGL 401W	Creative Writing Theory	3
COMM 421W	Advertising Creative Strategies	3	ENGL 406M	Honors Course in English: General Topic in Recent Literature	3-12
COMM 460W	Reporting Methods	3	ENGL 408M	Honors Seminar in English: General Topic in Post-1800 Literature	3-12
COMM 464W	Editorial, Opinion and Commentary Writing	3	ENGL 411M	Honors Seminar in English: Creative Writing	3-12
COMM 486W	Telecommunications Ethics	3	ENGL 449M	Honors Seminar in English: Pre-1800s literature	3-12
COMM 487W	Advanced Telecommunications Management and Leadership	3	ENGL 464M	Honors Seminar in English: Multicultural	3-12
COMM 489W	Advanced Telecommunications Topics	3	ENGL 482W	Contemporary Literary and Cultural Theory	3
CRIM 250W	Research Methods in Criminology	3	ENGL 487W	Senior Seminar	3
CRIMJ 240W	Field Research in the Criminal Justice	4	ENGR 320Y	Design for Global Society	3
CRIMJ 250W	Research Methods in Criminal Justice	3			

ENGR 490W	Senior Design I	1	GER 308Y	German Business Communication	3
ENGR 491W	Senior Design II	3	GER 401Y	Advanced Composition	3
ENT 402W	Biology of Animal Parasites	3	GLIS 400Y	Seminar in Global and International Studies	3
ENT 419W	Pesticide Science	3	HCDD 364W	Methods for Studying Users	3
ENVSC 400W	Case Studies in Environmental Analysis and Problem-Solving	3	HDFS 287Y	Intercultural Community-Building	3
ENVSE 404W	Surface and Interfacial Phenomena in Environmental Systems	3	HDFS 310M	Seminar in Honors--Research Methods	4
ENVST 400W	Senior Seminar in Environmental Studies	3	HDFS 312W	Empirical Inquiry in Human Development	3
ENVST 425	Environmental Communication	3	HDFS 315Y	Family Development	3
ERM 413W	Case Studies in Ecosystem Management	3	HIST 20Y	American Civ to 1877Y	3
ESC 261M	Computational Methods in Engineering	3	HIST 153Y	The Indian in North America	3
ESC 414M	Elements of Material Engineering	3	HIST 213Y	African American Women's History	3
ESC 460M	Multidisciplinary Design Project	3	HIST 266Y	Sexuality and Violence in Nineteenth-Century America	3
ESC 460W	Multidisciplinary Design Project	3	HIST 301W	Scope and Methods of History	3
ETI 300W	Development and Documentation of Enterprise Web	3	HIST 302M	Undergraduate Seminar	3
FDSC 406W	Physiology of Nutrition	3	HIST 302W	Undergraduate Seminar	3
FIN 305M	Financial Management of the Business Enterprise (Honors)	3	HIST 305Y	Middle East Studies Research Workshop	3
FIN 305W	Financial Management of the Business Enterprise	3	HIST 320W	Contemporary World History and Issues	3
FIN 306W	Investment Valuation	3	HIST 405Y	The Roman Empire	3
FOR 450W	Human Dimensions of Natural Resources	3	HIST 406W	Research in Medieval Sources	3
FOR 466W	Forest Management and Planning	3	HIST 409Y	Antisemitisms	3
FOR 488Y	Global Forest Conservation	3	HIST 444W	The United States in Civil War and Reconstruction--1850-1877	3
FR 402Y	Advanced Grammar and Writing	3	HIST 458Y	History of Work in America	3
FR 445Y	Self and Society in Eighteenth-Century France	3	HIST 459Y	Social and Cultural History of the United States Since 1783	3
FR 452Y	Nineteenth-Century French Literature	3	HIST 471Y	Classical Islamic Civilization, 600-1258	3
FR 453Y	La Belle Epoque: Politics, Society, and Culture in France, 1880-1914	3	HIST 475Y	The Making and Emergence of Modern India	3
FRNSC 415W	Laboratory in Crime Scene Investigation	2	HIST 484Y	History of Chinese Thought	3
FRNSC 421W	Forensic Molecular Biology	4	HIST 485Y	China's Last Empire: The Qing Dynasty, 1644-1911	3
FRNSC 427W	Forensic Chemistry	4	HM 265W	Teams and Leadership in the Hospitality Industry	3
FRNSC 485W	Coalescence of Forensic Science Concepts.	4	HM 290W	Hospitality Managerial Communication	3
GD 202W	The History of Graphic Design	3	HM 490W	Strategic Hospitality Management	3
GEOG 310W	Introduction to Global Climatic Systems	3	HONOR 494M	**SPECIAL TOPICS**	1-2
GEOG 411W	Forest Geography	3	HORT 402W	Plant Nutrition	3
GEOG 412W	Climatic Change and Variability	3	HORT 410W	Issues in Landscape Contracting	3
GEOG 420Y	Comparative Urbanism	3	HORT 412W	Post-Harvest Physiology	3
GEOG 422W	Globalization, Migration, and Displacement	3	HPA 301W	Health Services Policy Issues	3
GEOG 424W	Geography of the Global Economy	3	HPA 390W	Professional Development in Health Policy & Administration	3
GEOG 426W	Gendered Worlds	3	HUM 300N	Interpretations in the Humanities	3
GEOG 428W	Political Geography	3	IE 480W	Capstone Design Project	3
GEOG 437W	Energy Geographies and Policy	3	INART 100W	Seminar in Integrative Arts	3
GEOG 438W	Human Dimensions of Global Warming	3	INART 420W	Portfolio Matters: Integrative Arts Capstone	3
GEOG 461W	Dynamic Cartographic Representation	3	ISB 475W	Strategic Integration of Science & Business	3
GEOSC 402Y	Natural Disasters	3	IST 260W	Introduction to Systems Analysis and Design	3
GEOSC 409W	Geomicrobiology	3	IST 260W	Introduction to Systems Analysis and Design	3
GEOSC 413W	Techniques in Environmental Geochemistry	3	IST 440W	Information Sciences and Technology Integration and Problem Solving	3
GEOSC 470W	Introduction to Field Geology	3	IT 330W	Greatest Books of Italian Literature	3
GEOSC 494M	Thesis Research	1-6	JAPNS 120W	Japanese Literature in its Cultural Context	3
GEOSC 494W	Senior Thesis	1-4	JAPNS 403Y	Level Four Japanese A	4
GER 302W	Intermediate Composition and Grammar	3	JST 305Y	Middle East Studies Research Workshop	3

JST 409Y	Antisemitisms	3	MICRB 151W	Clinical Microbiology and Body Fluid Analysis for Medical Laboratory Technicians	5
JST 425W	Books of the Bible: Readings and Interpretation	3	MICRB 421M	Laboratory of General and Applied Microbiology	3
JST 432W	Gender and Sexuality in the Bible	3	MICRB 421W	Laboratory of General and Applied Microbiology	3
KINES 413W	Movement Science and Pseudoscience	3	MIS 479W	Enterprise Information Systems	3
KINES 425W	Physical Activity in Diverse Populations	3	MKTG 221W	Contemporary American Marketing	3
KINES 430W	Groups in Physical Activity	3	MKTG 301W	Principles of Marketing	3
KINES 447W	Representing Sport in Popular Film	3	MKTG 450W	Marketing Strategy	3
KINES 461W	Preparation for Research Project	2	MNG 451W	Mining Engineering Project	1-5
KINES 462W	Research Project	2	MNGT 205W	Mining Systems Technology	3
KINES 468W	Health Instruction in the School--Content and Method	3	MTHED 412W	Teaching Secondary Mathematics II	3
KINES 481W	Scientific Basis of Exercise for Older Adults	3	MUSIC 441W	Emphasis in Elementary General Music	3
KINES 491W	Research Proposal	3	MUSIC 442W	Emphasis in Secondary General Music	3
KINES 492W	Programming for Business and Agencies	3	MUSIC 443W	Choral Emphasis in Secondary Music Education	3
KINES 493W	Principles and Ethics of Coaching	3	MUSIC 444W	Emphasis in Elementary and Intermediate Band	3
KOR 403Y	Level 4 Korean A	4	MUSIC 445W	Emphasis in High School Band	3
LA 201W	Experiential Learning Portfolio	3	MUSIC 446W	Emphasis in Strings and Orchestra	3
LARCH 365W	Contemporary Trends in Landscape Architecture	3	MUSIC 461W	Studies in Music History: Antiquity to 1600	3
LATIN 450W	History of Latin	3	MUSIC 462W	Studies in Music History: 1550-1750	3
LER 445Y	Politics of Affirmative Action	3	MUSIC 463W	Studies in Music History: 1700-1900	3
LHR 136Y	Race, Gender, and Employment	3	MUSIC 464W	Studies in Music History: 1850-Present	3
LHR 458Y	History of Work in America	3	MUSIC 476W	B.A. Senior Project	3
LLED 412W	Teaching Language Arts in Secondary Schools II	3	NUCE 310W	Issues in Nuclear Engineering	2
MATH 311M	Honors Concepts of Discrete Mathematics	3	NUCE 431W	Nuclear Reactor Core Design Synthesis	4
MATH 311W	Concepts of Discrete Mathematics	3-4	NURS 200M	Principles of Nursing Research and Evidence-Based Practice-Honors	3
MATH 475Y	History of Mathematics	3	NURS 200W	Principles of Nursing Research and Evidence-Based Practice	3
MATSE 492W	Materials Engineering Methodology and Design	3	NUTR 490W	Nutrition Seminar	3
MATSE 493W	Materials Science and Engineering Multidisciplinary Capstone Design Project	3	OT 210W	Clinical Reasoning and Documentation in Occupational Therapy	3
MATSE 494M	Research and Design Senior Project	1-3	PES 446W	Senior Project 1	1
MATSE 494W	Research and Design Senior Project	1-3	PES 447W	Senior Project 2	1
ME 345W	Instrumentation, Measurements, and Statistics	4	PES 448W	Senior Project 3	1
ME 440W	Mechanical Systems Design Project	3	PHIL 103W	Ethics	3
ME 441W	Thermal Systems Design Project	3	PHIL 108W	Social and Political Philosophy	3
ME 442W	Advanced Vehicle Design I	2	PHIL 125W	Theories of Knowledge	3
ME 443W	Advanced Vehicle Design II	1	PHIL 126W	Metaphysics	3
MET 210W	Machine Design	3	PHIL 408W	Seminar in Social and Political Philosophy	3
MET 331W	Heat Transfer	4	PHIL 418W	Seminar in Ethical Theory	3
METEO 440W	Principles of Atmospheric Measurements	3	PHIL 425W	Seminar in Epistemology	3
METEO 471W	Atmospheric Optics	3	PHIL 426W	Seminar in Metaphysics	3
METEO 480M	Undergraduate Research	3	PHYS 421W	Research Methods in Physics	3
METEO 480W	Undergraduate Research	3	PHYS 457W	Experimental Physics	3
METEO 494M	Thesis Research	3	PLET 206M	Plastic Materials and Properties	3
MGMT 100W	Survey of Management	3	PLET 206W	Plastic Materials and Properties	3
MGMT 301M	Basic Management Concepts	3	PLSC 17W	Introduction to Political Theory	3
MGMT 301W	Basic Management Concepts	3	PLSC 418W	International Relations Theory	3
MGMT 427W	Managing an Entrepreneurial Start-up	3	PLSC 430W	Selected Works in the History of Political Theory	3
MGMT 451W	Business, Ethics, and Society	3	PLSC 445Y	Politics of Affirmative Action	3
MGMT 457W	Strategic Management of Innovation and Technologies	3	PLSC 465Y	Democratization in Asia	3
MGMT 471W	Strategic Management and Business Policy	3	PLSC 480W	Congress and the Presidency	3
MGMT 475W	Strategic Product Development	3	PLSC 484W	The Foreign Policy of Soviet Successor States	3

PNG 440W	Formation Evaluation	3	THEA 408W	History of American Musical Theatre	3
PPEM 417W	Mechanisms of Bacterial Pathogenesis in Plants	3	TURF 436W	Case Studies in Turfgrass Management	3
PSYCH 301M	Honors Research Methods in Psychology	4	VBSC 280N	Current Topics in Veterinary Medicine	3
PSYCH 301W	Basic Research Methods in Psychology	4	VBSC 402W	Biology of Animal Parasites	3
PSYCH 406W	Advanced Research Projects in Psychology	4	VBSC 423W	Pathology of Nutritional and Metabolic Diseases	3
PT 270W	Pathophysiology	5	VBSC 448W	Current Topics in Immunology	3
PT 271W	Pathophysiology I	3	WFED 207W	Assessment Techniques	3
PT 280W	Rehabilitation	5	WFS 447M	Wildlife Management	3
PT 282W	Rehabilitation-2W	3	WFS 447W	Wildlife Management	3

About Penn State

This is Penn State

Penn State is in the top 1 percent of universities worldwide and has the largest alumni network in the nation. Founded in 1855, the University combines academic rigor with a vibrant campus life as it carries out its mission of teaching, research, and service with pride and focuses on the future throughout Pennsylvania and the world. Granted the highest rating for research universities by the Carnegie Foundation, Penn State teaches students to be leaders with a global perspective.

Our leadership in administration, faculty, and staff make our mission come alive every day. The Board of Trustees reviews and approves the budget of the University and guides general goals, policies, and procedures from a big-picture perspective. The President's office ensures that all aspects of the University are running smoothly and promotes overall principles that students, faculty, and staff abide by for the long term. The University Faculty Senate represents the Penn State faculty with legislative authority on all matters regarding the University's educational interests.

Penn State strives to celebrate diversity in all aspects of its educational and operational activities and the University's strategic plans are designed to result in ongoing improvements that help prepare future generations of leaders.

Board of Trustees

The Board of Trustees of The Pennsylvania State University is the corporate body established by the charter with complete responsibility for the government and welfare of the University and all the interests pertaining thereto including students, faculty, staff, and alumni.

In the exercise of this responsibility, the Board is guided by the following policies:

1. The authority for day-to-day management and control of the University, and the establishment of policies and procedures for the educational program and other operations of the University, shall be

delegated to the President, and by him/her, either by delegation to or consultation with the faculty and the student body in accordance with a general directive of the Board.

This delegation of authority requires that the Board rely on the judgment and decisions of those who operate under its authority. However, this reliance of the Board must be based upon its continuing awareness of the operations of the University. Therefore, the Board shall receive and consider thorough and forthright reports on the affairs of the University by the President or those designated by the President. It has a continuing obligation to require information or answers on any University matter with which it is concerned.

Finally, upon request, the Board shall advise the President on any University matter of concern to him/her.

2. The Board of Trustees shall carry out certain responsibilities as a Board, without delegation. These responsibilities are:
 - a. The selection of the President of the University
 - b. The determination of the major goals of the University and the approval of the policies and procedures for implementation of such goals.
 - c. The review and approval of the operating and capital budget of the University.
 - d. Such other responsibilities as law, governmental directives, or custom require the Board to act upon.
3. The Board of Trustees shall inform the citizens of the Commonwealth of Pennsylvania of the University's performance of its role in the education of the youth of Pennsylvania.
4. The Board of Trustees shall assist the President in the development of effective relationships between the University and the various agencies of the Commonwealth of Pennsylvania and the United States of America which provide to the University assistance and direction.

MORE INFORMATION ABOUT UNIVERSITY LEADERSHIP (<https://www.psu.edu/this-is-penn-state/leadership/>)

Mission

The Pennsylvania State University is a multi-campus, land-grant, public research University that educates students from around the world, and supports individuals and communities through integrated programs of teaching, research, and service.

Our instructional mission includes undergraduate, graduate, professional, continuing, and extension education, offered through both resident instruction and distance learning. Our educational programs are enriched by the talent, knowledge, diversity, creativity, and teaching and research acumen of our faculty, students, and staff.

Our discovery-oriented, collaborative, and interdisciplinary research and scholarship promote human and economic development, global understanding, and advancement in professional practice through the expansion of knowledge and its applications in the natural and applied sciences, social and behavioral sciences, engineering, technology, arts and humanities, and myriad professions.

As Pennsylvania's land-grant university, we provide unparalleled access to education and public service to support the citizens of the Commonwealth and beyond. We engage in collaborative activities with private sector, educational, and governmental partners worldwide to generate, integrate, apply, and disseminate knowledge that is valuable to society.

History

As Pennsylvania's only land-grant university, Penn State has a broad mission of teaching, research, and public service. But that mission was not so grandly conceived in 1855, when the Commonwealth chartered it as one of the nation's first colleges of agricultural science, with a goal to apply scientific principles to farming.

Centre County became the site of the new college in response to a gift of 200 acres from gentleman farmer and ironmaster James Irvin of Bellefonte. Founding President Evan Pugh drew on the scientific education he had received in Europe to plan a curriculum that combined theoretical studies with practical applications.

Pugh and similar visionaries in other states championed Congressional passage of the Morrill Land-Grant Act in 1862. The act enabled states to sell federal land, invest the proceeds, and use the income to support colleges "where the leading object shall be, without excluding scientific and classical studies ... to teach agriculture and the mechanic arts [engineering] ... in order to promote the liberal and practical education of the industrial classes in all the pursuits and professions of life." The state legislature designated Penn State the land-grant institution of Pennsylvania.

But not until the 1880s, under the leadership of President George W. Atherton, did the college expand its curriculum to match the Land-Grant Act's broad mandate. From that time onward, curricula in engineering, the sciences, the liberal arts, and more began to flourish. In the early 1900s, Penn State introduced cooperative extension and additional outreach programming, extending the reach of its academic mission.

An even greater segment of the Commonwealth's population had opportunities for engagement in the 1930s when Penn State established a series of undergraduate branch campuses, primarily to meet the needs of students who were location-bound during the Great Depression. Those campuses were predecessors of today's system of 24 Penn State campuses located throughout the Commonwealth.

Penn State began offering systematic advanced-degree work in 1922 with the formation of the Graduate School. Graduate education and research evolved hand in hand. By 1950 the University had won international distinction for investigations in dairy science, building insulation, diesel engines, and acoustics, and other specialized fields.

A college of medicine and teaching hospital were established in 1967 with a \$50 million gift from the charitable trusts of renowned chocolate magnate Milton S. Hershey. In 1989 the Pennsylvania College of Technology in Williamsport became an affiliate of the University. Penn State's online World Campus graduated its first students in 2000 and now enrolls more than 12,000. Also in 2000, Penn State and the Dickinson School of Law merged. In 2015, two Penn State law schools, Dickinson Law (in Carlisle, Pennsylvania) and Penn State Law (on University Park campus) were established.

MORE INFORMATION ABOUT UNIVERSITY HISTORY (<https://www.psu.edu/this-is-penn-state/history/>)

Accreditation Notice

The Pennsylvania State University is accredited by the Middle States Commission on Higher Education (<https://www.msche.org>), 3624 Market Street, Philadelphia, PA 19104 (267-284-5000). The Middle States Commission on Higher Education (MSCHE) is an institutional accrediting

agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation.

The Pennsylvania State University was first accredited in 1921 and accreditation was reaffirmed in June 2015.

Annual Institutional Updates are submitted each spring-summer. The last Midpoint Peer Review occurs every four years and last occurred in 2020. The next Self-Study evaluation is scheduled for 2023-2024.

According to MSCHE's policy statement, Accreditation Review Cycle and Monitoring, "The Commission's eight-year cycle of review of accredited institutions begins with an in-depth institutional self-study that is reviewed by peer evaluators during an on-site evaluation visit. The self-study and on-site review are used to assess the institution's compliance with Commission standards and requirements of affiliation, verify compliance with accreditation-relevant federal regulations, and identify areas needing improvement. The review process results in an accreditation decision in accordance with the Commission Policy Accreditation actions. Institutions submit annually an update of institutional data and other information requested by the Commission. In the fourth year following the self-study visit, the Commission conducts an off-site mid-point peer review based on the cumulative information provided by the institution. Institutions are provided a report on the institution's performance with respect to student achievement and financial sustainability."

MORE INFORMATION ABOUT THE ACCREDITATION REVIEW CYCLE (<https://msche.my.salesforce.com/sfc/p/>)

MORE INFORMATION ABOUT ACCREDITATION BY THE MIDDLE STATES COMMISSION ON HIGHER EDUCATION (<https://opair.psu.edu/accreditation/>)

Research

The Office of the Vice President for Research is responsible for facilitating the \$863-million-per-year research enterprise at Penn State by working with a broad range of units across the University.

The mission of the Office of the Vice President for Research is to support a rigorous program of faculty and student research and creative accomplishment by enhancing the environment for scholarly and artistic endeavors, encouraging the highest standards of quality, and fostering ethical conduct in research.

The office is responsible for:

- the effective administration of sponsored programs which provide the financial support for a substantial share of the research activity at the University;
- serving as the University's advocate and spokesperson on research issues, and as a representative in activities that may produce major new programs and facilities for research;
- facilitating strong programs for interdisciplinary research.

MORE INFORMATION ABOUT RESEARCH AT PENN STATE (<https://www.research.psu.edu/>)

University Structure

Undergraduate Campuses

Penn State has more than twenty campuses across Pennsylvania that serve undergraduate students and communities through teaching,

research, and service. Through its network of undergraduate campuses and World Campus, Penn State provides students the opportunity to begin and complete a Penn State degree at one campus, transition to complete a degree at another campus or complete a program completely online—this is the hallmark of Penn State's unique one University concept.

The University Park campus, the administrative and research hub of the University is the largest of Penn State's campuses. Across Pennsylvania, Penn State campuses play a critical role in the land-grant mission of the University, by providing access and opportunity—a commitment that remains at the core of each campus's mission. In addition to providing the first two years of more than 160 Penn State majors, campuses confer nearly 5,000 Penn State degrees annually to students who complete their academic programs at a Penn State campus.

MORE INFORMATION ABOUT UNDERGRADUATE CAMPUSES (p. 15)

Graduate and Professional Campuses

Penn State's wide range of graduate programs includes traditional residential Ph.D. research programs through part-time degree programs aimed at working professionals. Penn State offers graduate programs at six campuses: Penn State Erie, Penn State Great Valley, Penn State Harrisburg, Penn State College of Medicine, Penn State University Park, and Penn State World Campus. Penn State College of Medicine in Hershey, PA offers a complete medical education program leading to the Doctor of Medicine (M.D.) degree. Penn State has two separately accredited Law Schools: Dickinson Law in Carlisle, PA and Penn State Law at University Park.

MORE INFORMATION ABOUT GRADUATE AND PROFESSIONAL CAMPUSES (<https://bulletins.psu.edu/graduate/campuses/>)

Colleges

Penn State's undergraduate majors are divided among academic colleges, which are the units from which students receive their degrees. Examples of colleges are Arts and Architecture, Eberly College of Science, and Education, among others. Academic colleges offer graduate programs as well; however, graduate degrees are awarded by the Graduate School. In addition to the 12 academic colleges at the University Park campus, Penn State has six academic colleges across Pennsylvania that allow students to finish their undergraduate degrees at a campus other than University Park.

With the exception of a few specialized programs, undergraduate students interested in majors offered by the above academic colleges can start their education at any Penn State campus and then transition to University Park following their second year to complete their degree as part of the 2+2 Plan.

In addition, the Pennsylvania College of Technology in Williamsport offers undergraduate enrollments in selected degree programs.

For a list of academic colleges, enrollment units, and special academic programs visit the Undergraduate Bulletin Colleges (p. 17) page.

Academic Colleges at Campuses

Six Penn State colleges, located throughout the state, offer undergraduate majors that are typically completed at campuses other than University Park. These colleges are:

- Abington College, at the Penn State Abington campus
- Altoona College, at the Penn State Altoona campus

- Behrend College, at the Penn State Erie campus
- Berks College, at the Penn State Berks campus
- Capital College, at the Penn State Harrisburg campus
- University College, is comprised of the following 14 campuses:
 - Penn State Beaver
 - Penn State Brandywine
 - Penn State DuBois
 - Penn State Fayette, The Eberly Campus
 - Penn State Greater Allegheny
 - Penn State Hazleton
 - Penn State Lehigh Valley
 - Penn State Mont Alto
 - Penn State New Kensington
 - Penn State Schuylkill
 - Penn State Shenango
 - Penn State Wilkes-Barre
 - Penn State Scranton
 - Penn State York

Students interested in undergraduate majors offered by these colleges can typically start at one campus and finish at another through the 2+2 plan, or they can choose to stay at one campus for all four years if their campus of choice offers the major they want. To see the specific undergraduate majors available at each campus, search majors by campus in the Undergraduate Bulletin (p. 15).

Student Services and Programs

Penn State offers thousands of resources to support students, faculty, staff, and alumni both locally and around the world. This partial list of centers, offices, and programs was developed based on past inquiries from Bulletins users.

To discover additional services explore Penn State's home page (<https://www.psu.edu/>), the Office of Student Affairs (<https://studentaffairs.psu.edu/>), and the Office of Undergraduate Education (<https://undergrad.psu.edu/>), and The Graduate School (<https://gradschool.psu.edu/>).

Admissions

Admission to Penn State

Penn State's tradition of academic excellence, investment in student success, and commitment to providing unrivaled opportunities make the University a great place to study, but it is the dedication of our students, faculty, and staff that make it truly exceptional.

We are looking for students that want to share in the passions and talents of our Penn State community. Discover how your Penn State years will not only shape your academic and career pursuits, but will broaden your perspective, establish life-long connections, and set the stage for your future.

Find your place at Penn State.

Steps to Apply

Learn the first steps to apply to Penn State and more about the University on the Undergraduate Admissions website (<https://admissions.psu.edu/>).

Statement of Basic Academic Admission Policies

Admission to credit courses or degree candidacy at Penn State is governed by policies established by the University Faculty Senate. Although specific applications of these policies may vary from year to year, from location to location, and from program to program, all University admissions are governed by the following general policies:

1. As an institution of higher education, Penn State is committed to making post-high school education available to all who possess a high school diploma or its equivalent without regard to personal characteristics not related to ability, performance, or qualifications. Penn State does not discriminate against any person because of age, ancestry, color, disability, national origin, race, religious creed, sex, sexual orientation, or veteran status.
2. The primary responsibility of the University is to residents of the Commonwealth of Pennsylvania. Consequently, within limits expressed from time to time by the Board of Trustees of the University, preference shall be given to Pennsylvania residents in the various admissions processes.
3. In order to meet the variety of goals and objectives of the population, the spectrum of offerings is designed to enable persons with a variety of objectives—both degree and non-degree—to receive a higher education. Although access to educational opportunities of the University is open to all, courses offered for credit are available to those holding a high school diploma or its equivalent. Policies governing admission to degree candidacy are established by the University Faculty Senate (with a delegation of policies governing admissions to graduate programs to the Graduate Faculty of the University) under a general policy of offering admission to those whose past academic performance indicates a reasonable probability of success.
4. Undergraduate students are admitted to either baccalaureate degree candidacy or associate degree candidacy. To be admitted to degree candidacy, the individual must present an academic performance record that indicates a reasonable probability of their success in their chosen program. In the case of first-year student admission to undergraduate degree candidacy, performance is measured through a holistic assessment. In the case of advanced standing admission, performance is measured either through success in non-degree programs and courses of the University or by success at some other institution of higher education.
5. Within the space available in particular programs and at particular locations, admission shall be offered preferentially to those whose performance record indicates the highest probability of success in the chosen program—with this process continuing until all available spaces are filled. Although exceptions to this policy may be made from time to time (for example, recipients of scholarships with restricting qualifications), these exceptions may be made only for applicants who meet at least the minimum admission and entrance requirements.
6. If a college or school requires restrictions on its baccalaureate admissions, the priorities or targets established must include provisions to consider qualified students in each of these groups:
 - Admissions Group I - **First-year Admissions:** Applicants who hold a high school diploma or equivalent, who present fewer than 18-semester credits of baccalaureate work (from Penn State or another regionally accredited institution), who meet minimum college or school entrance requirements, and who meet minimum college or school admission standards.
 - Admissions Group II - **Penn State Advanced Standing Admissions:** Applicants who (1) request baccalaureate degree re-enrollment, presenting 18 or more semester credits; (2) request a change from Penn State associate degree to baccalaureate degree status, presenting 18 or more applicable semester credits; (3) request a change from Penn State provisional degree to baccalaureate degree status, presenting 18 or more applicable semester credits; or (4) request a change from Penn State non-degree to baccalaureate degree status, presenting 18 or more applicable semester credits. In all advanced standing admissions at Penn State, the student must have a grade-point average of at least 2.00 and must meet the minimum entrance and advanced standing requirements of the college or school. However, a Penn State student who has had an interruption in enrollment of no fewer than four calendar years and whose cumulative grade-point average is less than 2.00 may petition for re-enrollment with academic renewal in accordance with Senate Policy 57-00.
- Admissions Group III - **Other Advanced Standing Admissions:** Applicants who have not been students at Penn State and request baccalaureate degree status at Penn State, presenting 18 or more applicable semester credits from a regionally accredited institution. In all advanced standing admissions, it is understood that the applicant must have a cumulative grade-point average of 2.00 as computed at Penn State and meet the minimum entrance and advanced standing requirements of the college or school. However, a student who has not met the entrance requirements or achieved a cumulative grade-point average of 2.00 (on a 4.00 scale) for all graded courses taken at all institutions previously attended, and who has had a four-calendar-year absence from the institution(s), may apply to enroll in credit courses as a provisional student in accordance with Senate Policy 10-00. An applicant who has had an absence from the institution(s) of fewer than four calendar years, and who has not met the entrance requirements or has achieved a cumulative grade-point average of less than 2.00, may apply to enroll in credit courses as a non-degree student in accordance with Senate Policy 14-00.
- Within these three groups, no special consideration will be given to any group; applicants will be admitted to the college or school on the basis of academic competition (e.g., SAT I scores, grade-point averages, grades in required courses in the college or other degree-granting units, and other evidence predictive of baccalaureate degree performance where available, valid, and reliable).
7. To ensure a proper educational mix of students and to further broaden the educational opportunities offered by the University, the University Faculty Senate and the University administration from time to time may authorize various specialized programs. These programs may permit applicants who do not meet the basic qualifications for admission to degree candidacy to be admitted to such candidacy. These programs may also permit, in selected situations, exceptional students who have not earned a high school diploma or its equivalent to enroll in University credit courses. Such specialized programs may include up to 10 percent of the total admissions group for the University in any one year and up to the maximum of 15 percent of the admissions to any geographic location of the University.
8. Within this general policy, the colleges and school of the University, with the concurrence of the University Faculty Senate, may impose certain educational background requirements (Carnegie Units) that must be completed by an individual before being admitted to degree candidacy.

Admission Requirements

Minimum Requirements for Admission to Degree Candidacy

To be eligible for admission consideration to the University as a degree candidate, either as a beginning student or as a student with advanced standing, an applicant must meet the following minimum requirements:

1. Graduation from an accredited secondary school. Penn State requires proof of graduation or a GED for admission to four-year degree programs.
2. Completion of the required units of preparatory work as indicated under the heading Minimum Carnegie Units.

A secondary school diploma issued by the Pennsylvania Department of Education, or appropriate authority in another state, may be accepted as equivalent to graduation from an accredited secondary school and as equivalent to the minimum secondary school units required for admission, as indicated under the Minimum Carnegie Units heading, with the exception of math and world language.

The University accepts the definition of a secondary school unit as established by the Carnegie Foundation. A unit represents a year of work in a subject in a preparatory school or secondary school, provided that the work done in that subject is approximately one-fourth of the total amount of work regularly required in a year in the school.

The University reserves the right to deny admission to any applicant for admission for any reason the University determines to be material to the applicant's qualifications to pursue higher education.

Admission to degree candidacy is specified in terms of enrollment in a college or school of the University or in the Division of Undergraduate Studies. Entrance to a baccalaureate major is a subsequent step that normally occurs near the end of the second year of study. Both for admission to a college or school and for entrance to a major, a student must satisfy the requirements of the University, of the particular college or school, and of the major area. In special circumstances, the University may need to further restrict admissions to a college or school and entrance to majors because of space limitations.

Baccalaureate and Associate Degree Programs

Review the basic requirements for two-year and four-year degrees, as well as the additional requirements for special programs.

See the minimum number of secondary school units required for admission consideration to a baccalaureate degree program on the Admission Requirements page (<https://admissions.psu.edu/apply/requirements/4year/>).

See the minimum number of secondary school units required for admission consideration to an associate degree program on the Admission Requirements page (<https://admissions.psu.edu/apply/requirements/2year/>).

First-Year Admission

An applicant for admission as a beginning student in the first-year class must meet the minimum requirements for admission to degree candidacy prior to the time of matriculation. All offers of admission are conditional until these requirements have been met.

Each applicant is evaluated on the basis of a holistic assessment. Admission decisions are made on the basis of this holistic assessment in relation to the requested area of enrollment (academic program), space availability, the quality of the credentials presented by other applicants, and such other academically relevant information deemed appropriate by the Undergraduate Admissions Office and approved by the Senate Committee on Admission, Records, Scheduling, and Student Aid.

When openings at the requested location or in the requested program of the University are filled, qualified applicants will be offered admission

to their alternate choice of program or location or notified of campuses where openings still exist.

College Entrance Tests

Applicants for first-year admission to the University are required to submit scores of the Scholastic Assessment Test (SAT) of the College Entrance Examination Board or the American College Test (ACT). SAT or ACT results of the junior-year testing periods are recommended. Exceptions to the requirement for scholastic assessment test scores will be granted to adult learners who have been out of high school for five or more years or are veterans with four or more years of service. Exceptions to the required courses completed also may be granted. Adults may be requested to submit a statement of personal goals or to participate in an interview.

Selection of the Area of Enrollment

It is necessary for an applicant to indicate one of the academic units of the University in which they want to study. If an applicant is undecided about the choice of an academic unit, they may seek enrollment in the Division of Undergraduate Studies.

Changing the Area of Enrollment

An applicant who has been admitted to an academic college or unit of the University may not change to another without satisfying entrance requirements of the college or other academic unit of the University.

Previous Attendance at Another College

An applicant must state on their application whether they have ever attended any other college or university. Failure to indicate, at the time of application, previous registration at another college or university may result in refusal or cancellation of admission. An applicant who has attempted fewer than 18 semester credits at another regionally accredited college or university will be considered as a first-year applicant. An applicant who has attempted 18 or more semester credits at another regionally accredited college or university subsequent to high school graduation will be evaluated as an advanced standing applicant.

MORE INFORMATION ABOUT APPLYING FOR ADMISSION TO PENN STATE (<https://admissions.psu.edu/apply/>)

Advanced Standing (Transfer) Admission

An applicant who has attended any regionally accredited college or institution on the college level and attempted 18 or more semester credits subsequent to high school graduation may be considered for admission with advanced standing. Attendance at any and all other institutions must be reported at the time of application. Failure to indicate, at the time of application, previous registration at another college or university can result in refusal or cancellation of admission.

An applicant for admission with advanced standing must meet the minimum secondary school requirements for admission to degree candidacy prior to the time of matriculation. Advanced standing applicants are considered for admission on the basis of the applicant's requested academic program, space availability, and the academic quality of their work at the previously attended institution(s). A minimum cumulative grade-point average of at least 2.00 (C) out of 4.00, as computed for Penn State students, is required, although certain areas of study may have additional requirements. In addition, an applicant must be in good academic and nonacademic standing. An applicant whose overall grade-point average is less than 2.00 (on a 4.00 scale) but has a grade-point average of at least 2.00 (on a 4.00 scale) at all

institutions attended in the four years prior to the requested enrollment semester may apply for admission as an advanced standing student with forgiveness. An applicant who has not attempted any collegiate level course work four years prior to the requested enrollment semester may also apply for advanced standing with forgiveness. An applicant who does not meet the minimum requirement of a grade-point average of at least 2.00 and does not meet the criteria for advanced standing with forgiveness may enroll in credit courses as a non-degree student in accordance with applicable policies and procedures.

Advanced standing credits may be awarded for college-level work taken at regionally accredited institutions provided Penn State offers a similar class and the course grade earned is equivalent to a grade of A, B, or C at this University. The credits also must be useful to the student's program of study. An academic adviser determines which of the transferable credits are applicable to the program of study at Penn State. Credits are transferred, but grades and grade-point average are not. Advanced standing students enter the University without an average and their average begins with the completion of their first semester of study at Penn State.

Under certain circumstances, the University may need to restrict advanced standing admissions to a particular college or school because of space limitations.

Entrance to a major is an additional step beyond admission to a college or school. It involves additional academic requirements and may be subject to additional restrictions because of space limitations.

Application Procedure

In all cases where work has been taken at other institutions, an official transcript from each place of attendance must be submitted directly to the Undergraduate Admissions Office by the registrar of the institution attended. An applicant currently attending another institution also must provide a schedule of courses in progress or to be completed before enrollment at Penn State, including course name, number, description, and number of credits. The applicant's secondary school record must be submitted directly to the Undergraduate Admissions Office by the secondary school. The Undergraduate Admissions Office may require the applicant to send a description of the courses that they have taken at the college previously attended. All credentials become part of the permanent records of the University.

Entrance to a Major

An advanced standing degree candidate may be admitted to a college or school of the University. To be eligible for entrance to a major, a student must meet the entrance-to-major requirements of the University, of the college or school, and of the program area. Under certain circumstances, further restrictions or exceptions on entrance to majors may be required because of space limitations. Students are expected to work with advisers and to utilize current information about entrance requirements and restrictions when exploring academic program alternatives and making program and course selections.

Changing the Area of Enrollment

An applicant who has been admitted to an academic college, school, or major of the University may not change to another without satisfying entrance requirements of the college/school and major to which they want to transfer.
