A Concurrent Majors Program is one in which students take courses to concurrently meet the requirements of at least two majors, with graduation for all majors in the program occurring during the same semester. A student wishing to pursue simultaneous (concurrent) degrees or multiple majors must submit a request to the appropriate Program Coordinator through their faculty adviser. The student must await approval of the academic plan and the majors before enrolling in the second major. Review the full policy below.

MORE INFORMATION ABOUT CONCURRENT MAJORS (<https://harrisburg.psu.edu/policy/3-obtaining-approval-simultaneous-concurrent-degrees-and-multiple-majors-sample-form/>)

READ SENATE POLICY 60-00: COMPLETING MORE THAN ONE UNDERGRADUATE MAJOR PROGRAM (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/60-00-completing-more-than-one-undergraduate-program/#60-00>)

Academic Warning

A student who fails to earn a 2.00 cumulative grade-point average will be placed on academic warning. A student placed on academic warning will have a hold placed on registration and will be required to meet with an academic adviser in order for this registration hold to be removed. To remove academic warning, the cumulative grade-point average must be 2.00 or higher.

MORE INFORMATION ABOUT ACADEMIC WARNING (<https://harrisburg.psu.edu/registrar/academic-warning/>)

READ SENATE POLICY 54-20: ACADEMIC WARNING (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-20>)

Academic Suspension

A student in academic warning who fails to maintain a semester grade-point average of 2.00 or higher will be academically suspended. A student who has been academically suspended may not schedule courses at the University for two consecutive semesters. (Note: Summer session is equal to one semester.)

MORE INFORMATION ABOUT ACADEMIC SUSPENSION (<https://harrisburg.psu.edu/registrar/academic-warning/>)

READ SENATE POLICY 54-40: ACADEMIC SUSPENSION (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-40>)

Resources

Advising Center

The Lambert Undergraduate Advising Center coordinates academic advising for all lower division students and is home to the Division of Undergraduate Studies, an enrollment unit for students who want to explore the University's academic opportunities before selecting a field of study.

MORE INFORMATION ABOUT THE ADVISING CENTER (<https://harrisburg.psu.edu/advising-center/>)

Athletics (Intercollegiate)

The college offers students exemplary athletic programs that help develop quality standards of academic achievement, athletic performance, leadership, community service, and a high level of sportsmanship.

The college is an NCAA Division III school as well as a member of the Capital Athletic Conference (CAC) and sponsors 17 varsity sports.

MORE INFORMATION ABOUT INTERCOLLEGIATE ATHLETICS (<https://athletics.hbg.psu.edu/landing/index/>)

Career Services

Career Services provides career planning and development services to current students and alumni at no charge.

MORE INFORMATION ABOUT CAREER SERVICES (<https://harrisburg.psu.edu/john-crain-kunkel-career-center/>)

Counseling and Psychological Services

Psychologists, counselors, and a drug and alcohol specialist are available to work with any current student to address personal concerns. This office offers evening hours and operates under strict confidentiality guidelines.

MORE INFORMATION ABOUT COUNSELING AND PSYCHOLOGICAL SERVICES (<https://harrisburg.psu.edu/counseling-psychological-services/>)

Graduate Studies Office

The Graduate Studies Office offers support for graduate students and represents the Graduate School at Penn State Harrisburg. Additionally, the office sponsors travel grants for grad students, implements academic policies for graduate programs, and works with the Graduate and Professional Student Council (GPSC).

MORE INFORMATION ABOUT THE GRADUATE STUDIES OFFICE (<https://harrisburg.psu.edu/graduate-studies/>)

Honors Program

Penn State Harrisburg offers two honors programs for students who are highly motivated to achieve academic excellence and want more out of their college education. The two programs are the Capital College Honors Program and the University's Schreyer Honors College.

MORE INFORMATION ABOUT THE HONORS PROGRAM (<https://harrisburg.psu.edu/honors-program/>)

Housing and Food Services

Housing and Food Services provides student resident services, catering, and operates several dining options on campus.

MORE INFORMATION ABOUT HOUSING AND FOOD SERVICES (<https://liveon.psu.edu/harrisburg/>)

International Programs (Study Abroad)

International Programs provides and facilitates international educational opportunities for faculty and students, including study tours and study abroad.

MORE INFORMATION ABOUT INTERNATIONAL PROGRAMS (<https://harrisburg.psu.edu/international-programs/>)

International Student Support Services

Acts as a liaison between Penn State Harrisburg international students and the Office of Global Programs/DISSA at University Park, assisting with immigration issues, hosting employment information sessions, and providing personal development and growth opportunities for students.

MORE INFORMATION ABOUT INTERNATIONAL STUDENT SUPPORT SERVICES (<https://harrisburg.psu.edu/international-students-office/>)

Learning Center

The Learning Center provides tutoring to undergraduate and graduate students in quantitative courses (mathematics, science, business), writing, speeches and presentations, study skills, American and academic literacy. Our mission is to support students' self-management of academic and professional goals through collaboration, guidance, and practice in an environment of inclusive excellence.

MORE INFORMATION ABOUT THE LEARNING CENTER (<https://harrisburg.psu.edu/learning-center/>)

Library

This technologically advanced, academic research library includes 300,000 volumes and more than 200 print journals. The library also includes computer labs, multimedia production studios, classrooms, and a variety of study spaces.

MORE INFORMATION ABOUT THE LIBRARY (<https://libraries.psu.edu/harrisburg/>)

Recreation and Aquatics

The campus has a modern fitness facility that includes: a 5,000-square-foot cardio/weight room, a full-size gymnasium, racquetball courts, group exercise rooms, and a variety of equipment that can be signed out. The Aquatics Center offers class and recreational swimming options including lap and open swim hours.

MORE INFORMATION ABOUT RECREATION AND AQUATICS (<https://harrisburg.psu.edu/recreation-and-aquatics/>)

Research and Outreach

ORO serves as the primary point of contact for external grant submissions, providing assistance with budget preparation, ensuring grants meet sponsor requirements and submitting grants to sponsors on behalf of the University. Additionally, it develops and maintains

relationships with individuals and entities from the public, organizations and private sectors.

MORE INFORMATION ABOUT RESEARCH AND OUTREACH (<https://harrisburg.psu.edu/research-and-outreach/>)

Residence Life

Residence Life provides resources and activities to enhance the personal, physical, educational, and social development of campus residents.

MORE INFORMATION ABOUT RESIDENCE LIFE (<https://harrisburg.psu.edu/residence-life/>)

Student Disability Resources

The Student Disability Resources office provides students with disability accommodations to minimize the effects of their disabilities.

MORE INFORMATION ABOUT STUDENT DISABILITY RESOURCES (<https://harrisburg.psu.edu/student-disability-resources/>)

Student Engagement

The Office of Student Engagement is the place to #getengaged! It coordinates alternative spring break trips, the Multicultural Academic Excellence Program (MAEP), the Chancellors Leadership Access Student Program (CLASP), as well as making connections to organizations in the Capital Area to get students involved in the local community.

MORE INFORMATION ABOUT STUDENT ENGAGEMENT (<https://harrisburg.psu.edu/student-engagement/>)

Student Health Services

Assesses and treats student illnesses and provides wellness counseling and preventive health services. Clinician services are offered by appointment.

MORE INFORMATION ABOUT STUDENT HEALTH SERVICES (<https://harrisburg.psu.edu/student-health-services/>)

Student Life

More than 100 student clubs and organizations fit any interest, whether you're looking to get involved in service projects, join a fraternity or sorority, participate in decision-making for the college through Student Government, or join a club that will help you with your major or career goals.

MORE INFORMATION ABOUT STUDENT LIFE (<https://harrisburg.psu.edu/student-life/>)

University Police and Public Safety

The Department of University Police and Public Safety is staffed with sworn police officers and civilian personnel charged with the responsibility of providing a safe environment to the campus community. The police officers of the department enforce state laws as well as University rules and regulations.

MORE INFORMATION ABOUT UNIVERSITY POLICE AND PUBLIC SAFETY (<https://harrisburg.psu.edu/safety-police-services/>)

Honors Programs Schreyer Honors College

The Schreyer Honors College, regarded as one of the nation's top programs of its kind, promotes achieving academic excellence with

integrity, building a global perspective, and creating opportunities for leadership and civic engagement. Schreyer Scholars, including those admitted after their first or second year of enrollment, are a diverse and motivated group of approximately 2,000 students at University Park and 20 Commonwealth campuses. The College strives to educate students who will have an important and ethical influence in the world, to improve educational practice, and to continue to be recognized as a leading force in honors education nationwide.

MORE INFORMATION ABOUT THE SCHREYER HONORS COLLEGE
(<https://www.shc.psu.edu>)

Honors at Penn State Harrisburg

Penn State Harrisburg offers two honors programs for students who are highly motivated to achieve academic excellence and want more out of their college education. The two programs are the Capital College Honors Program and the University's Schreyer Honors College. Both programs provide students with special honors courses in a wide variety of disciplines, supervised research opportunities, and support for international travel and study abroad. The Honors Programs aim to build a learning community that provides unique learning experience for motivated students.

Accounting, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg, World Campus

Program Description

This major helps students prepare for careers in auditing and public accounting, industrial and managerial accounting, and in governmental and not-for-profit accounting. It also provides a sound background for students who plan to pursue graduate studies in accounting or related fields. Students who complete the prescribed courses and earn a Bachelor of Science degree will satisfy the academic requirements to sit for the Certified Public Accountant (CPA) examination. Graduates may also elect to pursue other professional certifications, including Certified Management Accountant (CMA), Certified Internal Auditor (CIA), Certified Fraud Examiner (CFE), and Certified Government Financial Manager (CGFM).

What is Accounting?

Accountants develop and interpret financial data required for decision-making by managers, investors, regulators, and other stakeholders. To perform their functions, accountants must work with both numerical information and concepts, and they must be able to function effectively as individuals and in teams. Accountants work with people in their own specialized departments, and with users of financial information

throughout their organization. Because of this close association with other parts of the organization, the accountant is in a unique position to develop a broad business perspective.

You Might Like This Program If...

- You are comfortable with numbers and interested in the messages and the information that they provide.
- You are organized and detail-oriented. You want to pursue a career in business or finance.

Entrance to Major

Entry to the Accounting major requires the completion of 8 entry-to-major courses: ACCTG 211¹, ECON 102, ENGL 15¹ or ENGL 30H¹, FIN 301, MATH 110¹ or MATH 140¹, MGMT 301, MKTG 301, SCM 200¹ or STAT 200¹; and a 2.00 or higher cumulative grade-point average.

¹ Course requires a grade of C or better.

Degree Requirements

For the Bachelor of Science degree in Accounting, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives (non-business courses)	8
Requirements for the Major	79

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.

Consistent with Senate policy, at least 24 credits of course work in the major and the capstone course must be completed in the respective College to earn the degree. No more than 60 credits should be from business and business-related courses.

Students wishing to fulfill the 150 credit-hour education option to become a CPA in Pennsylvania (which reduces the experience requirement for certification) are encouraged to enter Capital College's Master of Professional Accounting program, or the Master of Business Administration program, or the Master of Science in Information Systems program subsequent to receiving their undergraduate accounting degree.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Supporting Courses and Related Areas

Select 6 credits from 200 - 400 level business courses from: ACCTG, BA, ECON, FIN, MGMT, MKTG, or SCM in consultation with an academic adviser and in support of the student's interests

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- Arts (GA): 3 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

Integrative Studies

- Inter-Domain Courses (Inter-Domain): 6 credits

Exploration

- GN, may be completed with Inter-Domain courses: 3 credits
- GA, GH, GN, GS, Inter-Domain courses. This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or

within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Accounting and M.B.A. in Business Administration

Available at the following campuses: Harrisburg

Requirements for the Integrated B.S. in Accounting and M.B.A. in Business Administration can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/business-administration-capital/#integratedundergradgradprogramstext>).

Learning Outcomes

Student graduates of our baccalaureate degree programs should be:

1. Effective communicators.
 - a. Present verbally, thoughts and ideas in a way that can be clearly understood by a target audience.
 - b. Convey ideas in a clear, coherent manner in written communication.
2. Ethical and socially responsible.
 - a. Be competent in analyzing social and ethical decision making issues in organizations.
3. Critical thinkers.
 - a. Be able to think and identify multiple dimensions of company issues and performances and make an assessment of company performances in achieving financial and strategic objectives, tracking their achievements, and giving management of companies a more complete and balanced view of how the organization is performing.
4. Competent in all Accounting Disciplines.
 - a. Demonstrate competence in the preparation of financial accounting information.
 - b. Demonstrate competence in Cost Accounting.
 - c. Demonstrate competence in Tax Accounting.
 - d. Demonstrate competence in Auditing.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes

- 30 credits of GA, GH, GN, GHW, GS to include 6 Integrative Studies Credits
- 15 credits of GQ and GWS require a grade of "C" or better

Program Notes

- Courses required for the major must generally be taken within 10 years of entrance to major.
- ACCTG 495 - Internship satisfies a business support requirement. For more information, contact the Accounting Program Coordinator.
- Student must complete a 3-credit course in "United State Cultures (US)" and a 3-credit course in "International Cultures (IL)." BA 364Y International Business and Society (US/IL) may be used to meet either the IL or US requirement but may be used to fulfill only 3 of the 6 credit requirement.

Career Paths

Because the Harrisburg area is the center of industry and economic development for south-central Pennsylvania, Penn State Harrisburg accounting students are provided with many opportunities to experience the world of business.

Careers

An accounting degree helps students prepare for careers in auditing and public accounting, industrial and managerial accounting, and in governmental and not-for-profit accounting. Students who complete the prescribed courses and earn a BS degree will satisfy the academic requirements to sit for the Certified Public Accountant (CPA) examination. Graduates may also elect to pursue other professional certifications, including Certified Management Accountant (CMA), Certified Internal Auditor (CIA), Certified Fraud Examiner (CFE), and Certified Government Financial Manager (CGFM).

Opportunities for Graduate Studies

The Bachelor of Science in Accounting provides a sound background for students who plan to pursue graduate studies in accounting or related fields, including Penn State's Master of Professional Accounting.

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (<https://harrisburg.psu.edu/business-administration/accounting-bs/>)

Accreditation

The B.S. in Accounting offered by the School of Business Administration at Penn State Harrisburg, the Capital College, is accredited by AACSB International – The Association to Advance Collegiate Schools of Business. AACSB's mission is to foster engagement, accelerate innovation, and amplify impact in business education. Synonymous with the highest standards of excellence since 1916, AACSB provides quality assurance, business education intelligence, and professional development services to over 1,600 member organizations and more than 800 accredited business schools worldwide. AACSB International (AACSB) connects educators, students, and business to achieve a common goal: to create the next generation of great leaders.

MORE INFORMATION ABOUT AACSB INTERNATIONAL (<https://www.aacsb.edu/>)

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

American Studies, B.A. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

This interdisciplinary major is designed to provide students with an integrated and critical knowledge of American culture, drawing on courses in American Studies and in the traditional disciplines and culminating in two senior seminars. A number of interests may be pursued within the major, including popular culture, art, technology, business, law, archives, museology, and conservation. The major helps prepare students for careers in business, teaching, government, and a number of other areas, and for enrollment in law and other professional programs.

What is American Studies?

American Studies examines the country's history in a way that emphasizes culture – literature, art & architecture, film, folklore, music, and media. While discovering America's past, students learn to think critically – to analyze and evaluate information; to write and speak clearly and expressively; and to conduct research.

You Might Like This Program If...

- You enjoy pop culture and wonder what social and historical forces helped shape it.
- You like making connections between history, society, economics, literature, film, and art.
- You want to understand the American experience beyond just what is relayed in a history text.
- You want to explore the experiences of women, minorities, and different ethnic and religious groups.
- You want to pursue a career in education, law, government, museums, cultural agencies, archives, public policy, or communications.

Entrance to Major

For entrance into the major, the following must be met:

1. At the end of the sophomore year, any student in good standing may gain entrance into the major without having completed specific courses.
2. Any student seeking entrance during the fifth semester will be granted entrance at the discretion of the American Studies Committee and/or Director following evaluation of the student's record.
3. Any student seeking entrance during or after the sixth semester will be expected to have completed at least 12 credits, which may be counted toward the major in American Studies.

Degree Requirements

For the Bachelor of Arts degree in American Studies, a minimum of 123 credits is required:

Requirement	Credits
General Education	45
Electives	21
Bachelor of Arts Degree Requirements	24
Requirements for the Major	33

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

American literature		
American history		
American art, philosophy, and religion (humanities)		
American social sciences		

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Integrated B.A. in American Studies and M.A. in American Studies

Available at the following campuses: Harrisburg

Requirements for the Integrated B.A. in American Studies and M.A. in American Studies can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/american-studies/#integratedundergradprogramstext>).

Program Learning Objectives

- To advance the documentation and interpretation of the American experience, past and present, through research with a variety of evidence, including objects, still and moving images, practices and performances, and oral and written texts.
 - To examine multiple forms of evidence including objects, images, events, and texts to identify themes, ideas, patterns, scenes, and sources of American experience in a historical period, geographical and environmental area, or social and cultural group.
- To build on the intellectual legacy of American Studies as an interdisciplinary movement and emerging discipline with its own theories, methods, and applications.
 - To identify major movements and approaches in the study of the American experience and provide major scholarly bibliographic sources for those movements and approaches, and to discuss causes, consequences, contexts, and correlations of American practices and performances using American Studies methodology such as historical and geographical comparison, symbolic and systematic analysis, ethnography, and rhetorical and literary criticism.
- To prepare students for careers in American Studies by developing knowledge, skills, attitudes, and ethics that can be applied to work in schools, archives, museums, galleries, media organizations, and governmental, commercial, and cultural agencies.
 - To effectively communicate American Studies perspectives in scholarly and public writing, exhibition, community programming, oral presentation, and media presentation.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of

both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

American Studies, B.A. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 122-123

- * Course requires a grade of C or better for the major
 ‡ Course requires a grade of C or better for General Education
 # Course is an Entrance to Major requirement
 † Course satisfies General Education and degree requirement

- ¹ ENGL 202B
 ENGL 202B is recommended for American Studies majors.
² AMST 491W
 Should be taken as two separate offerings.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Program Notes

A minimum of 123 credits are required for graduation.

Academic Advising Notes

- AM ST supporting courses are distributed among arts, history, humanities, literature, and social sciences courses containing at least 50% American content. Students take three courses each from two areas and two courses from a third.
- At least 12 of these credits are at the 400 level.
- ENGL 202B is recommended for American Studies majors.
- AM ST 491W is to be taken as two separate offerings.

Career Paths

The American Studies program benefits from Penn State Harrisburg's location in a capital region in close proximity to internationally known heritage sites such as the Gettysburg Battlefield, National Civil War Museum, and U.S. Army Heritage and Education Center. Harrisburg is also home to the Pennsylvania Historical and Museum Commission, the State Archives, and the State Museum.

Careers

American Studies majors at Penn State Harrisburg have opportunities to gain a core set of skills in writing, presentation, exhibition, website development, digital documentation, fieldwork and ethnography, and records and cultural resource management in addition to contextual knowledge of American culture, society, arts, and history that can be applied to a number of occupations, particularly in heritage, communications, education, and government sectors. At Penn State Harrisburg, certificates (heritage and museum practice, folklore and ethnography), internships, assistantships, professional workshops, career services, alumni interaction, social media, and online job postings serve to enhance the marketability of majors at various levels.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE AMERICAN STUDIES PROGRAM (<https://>

harrisburg.psu.edu/humanities/american-studies-ba/career-opportunities/

Opportunities for Graduate Studies

The American Studies major at Penn State Harrisburg prepares students for a variety of professions and to participate in the world as critical thinkers, clear communicators, and global citizens, including Penn State's Master of Arts in American Studies and the Doctor of Philosophy in American Studies programs.

American Studies, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change

from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

This interdisciplinary minor is designed for students who want to complement their major program. American Studies is an interdisciplinary field that explores the patterns of life and thought of the American peoples, past and present. American Studies helps students prepare for further study or careers in education, government, business, science, communication, law, museums, historical and cultural agencies, and archives. Internships are available for qualified students in American Studies. The internship is an extension of the student's academic studies and is an opportunity to gain practical experience.

A student seeking admission to the American Studies Minor must first be admitted to a major at Penn State. Upon admission, a Minor Adviser will be appointed from within the American Studies faculty to guide the student. For the American Studies Minor, a total of 18 credits is required. At least 6 credits must be at the 400 level.

What is American Studies?

American Studies examines the country's history in a way that emphasizes culture – literature, art & architecture, film, folklore, music, and media. While discovering America's past, students learn to think critically – to analyze and evaluate information; to write and speak clearly and expressively; and to conduct research.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
AMST 491W	American Studies Perspectives	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
AMST 100 or AMST 100Y	Introduction to American Studies	3

Select 12 credits from any American Studies offerings (AMST) or from courses related to American Studies chosen from a list provided by the college. At least six of those credits must be at the 400 level. Substitutions must be approved by the American Studies Program head at the appropriate college.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Biobehavioral Health, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

This major provides interdisciplinary training designed to integrate biological, behavioral, and social science approaches to the study of human health and illness. Emphasis is placed on the study of physical health. The goal of this major is to help students gain working familiarity with multiple perspectives, approaches, and methods needed to address and solve problems of human health and illness. Students may select courses in the supporting courses category that will fulfill requirements for admission to graduate and professional programs. This major helps prepare graduates for entry-level jobs in a range of biomedical and health-related areas, including roles as research assistants, laboratory managers, biomedical product representatives, technical support positions in biomedical and health-related fields. This major also will provide excellent preparation for advanced study in natural and social science disciplines and related professional areas such as epidemiology, public health, environmental health and safety, and human services.

What is Biobehavioral Health?

Biobehavioral Health is the integrative scientific study of the many different factors (e.g., biology, psychology, environment) that affect health. The discipline focuses on how these different factors influence health and the development of interventions to improve health outcomes.

You Might Like This Program If...

- You are curious about all aspects of health.
- You want to understand the multiple and layered factors that influence health.
- You like to answer important questions by considering different perspectives, and you like to study information from many disciplines (e.g., biology, psychology, neuroscience, sociology, anthropology).
- You want to pursue a health-related career, whether it be in a laboratory, clinical practice, or consulting capacity.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Biobehavioral Health, a minimum of 121 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	97-99

21-22 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3-4 credits of GQ courses; 9 credits of GN courses; 6 credits of GS courses; 3 credits of GHW courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. BBH requires students to complete 24 credits for the major through courses taken at University Park, Greater Allegheny, New Kensington and through World Campus. For more information, check the Suggested Academic Plan for this major.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

BBH 446	Human Sexuality as a Health Concern
BBH 451	Pharmacological Influences on Health
BBH/WMNST 452	Women's Health Issues
BBH/WMNST 458	Critical Feminist Issues in Reproduction
BBH 468	Neuroanatomical Bases for Disorders of Behavior and Health
BBH/BIOL 469	Neurobiology
BBH/BIOL 470	Functional and Integrative Neuroscience
BBH 490	Introduction to Internship Experience

Supporting Courses and Related Areas

Select 3 credits in health promotion from approved list, in consultation with adviser 3	
Select 12 credits in University-wide offerings from approved list, in consultation with adviser (Students may apply 6 credits of ROTC.) 12	

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate

students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Biobehavioral Health and M.P.H. in Public Health

Requirements for the Integrated B.S. in Biobehavioral Health and M.P.H. in Public Health can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/public-health/#integratedundergradgradprogramstext>).

Program Learning Objectives

- **Health Factors:** Describe and understand the fundamental biological, behavioral, social, cultural and environmental processes that influence health and disease.
- **Disparity Mechanisms:** Explain how the fundamental processes underlying health and disease can interact to produce individual differences in health, and health disparities among groups.
- **Critical Evaluation of Research:** Critically evaluate current empirical research on health and disease, explaining implications and limitations to the lay public.
- **Application of Ethics:** Understand and apply ethical principles in the conduct of research and professional practice and in the analyses in implementations of health-related policies and programs.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Biobehavioral Health, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Total Credits 124-126

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ Health and Developmental Science: CMAS 258, CMAS 466, CSD 100, CSD 146, CSD 218, CSD 230, CSD 269, HPA 57, HPA 101, HPA 310, HPA

- 410, HDFS 229, HDFS 239, HDFS 249, HDFS 250, HDFS 258, HDFS 302A, HDFS 311, HDFS 315, HDFS 405, HDFS 416, HDFS 418, HDFS 428, HDFS 429, HDFS 431, HDFS 433, HDFS 445, HDFS 468, KINES 100, KINES 101, KINES 141, KINES 180, KINES 203, KINES 233, KINES 321, KINES 356, KINES 358, KINES 426, KINES 428, NURS 203, NURS 251, NURS 225, NUTR 111, NUTR 358, NUTR 360, NUTR 425, NUTR 453, NUTR 456, NUTR 495, PSYCH 212, PSYCH 243, PSYCH 270, RPTM 100.
- ² CHEM 101 will no longer be offered at University Park. Students may take CHEM 130 instead of CHEM 101.
- ³ University-Wide Offerings: AIR 151, 152, 251, 252, 351, ARMY 101, 102, 203, 204, 301, 302, BBH 48, 148S, 390B, 494, 494H, 496, BIOL 162, 164, 400, 411, 496, BISC 2, 3, 4, BMB 211, 401 CHEM 111, 113, 202, 203, 210, 212, 213, CMAS 258, 465, 466, 493, CAS 203, 250, 253, 271, CED 152, 155 ECON 102, ECON 104 HDFS 465, 496, HHD 397, MICRB 107, 201, 202 NAVSC 101, 102, 204, 205, 311 PHYS 211, 212, 250, 251, PSYCH 221, 231, 238, 256, 494, 496 RHS 300, RHS 301, RHS 303, SOC 1, 3, 5, 30, 119, SPAN 1, 2, 3, 100B, (additional courses can be considered in consultation with a BBH adviser).
- ⁴ Basic Science: ANTH 21, ANTH 22, ANTH 216, ANTH 411, BMB 211, BIOL 155, BIOL 129, BIOL 162, BIOL 164, BIOL 220W, BIOL 230W, BIOL 240W, BIOL 422, BIOL 409, BIOL 475N, BIOL 479, CHEM 110, CHEM 111, CHEM 112, CHEM 113, CHEM 202 or CHEM 210, CHEM 203 or CHEM 213, CHEM 212, EARTH 100, EARTH 103N, EGEE 101, EGEE 102, EMSC 101, FDSC 404, FDSC 405, FDSC 406, FDSC 407, FDSC 408, GEOG 110, GEOG 314, GEOSC 10, KINES 202, MICRB 106, MICRB 107, MICRB 201, MICRB 202, PHYS 250, PHYS 251, PSYCH 260, PSYCH 460, PSYCH 461, PSYCH 462, PSYCH 464, PSYCH 470, PSYCH 473, VBSC 211, VBSC 230, VBSC 231.
- ⁵ BBH Elective: BBH 203, BBH 251, BBH 302, BBH 305, BBH 315, BBH 324, BBH 325 (only 3 credits of BBH 324 or 325 can be taken), BBH 368, BBH 390A, BBH 402, BBH 407, BBH 410, BBH 416, BBH 417, BBH 432, BBH 446, BBH 451, BBH 452, BBH 458, BBH 468, BBH 469, BBH 470, BBH 490.
- ⁶ Health Promotion: BBH 416, 417, 495, 497S, CAS 453, HDFS 401, 410, 414, 415, 440, 446, 450, 452, 453, 454, 455, HPA 401, 433, 450, KINES 403, 445, NURS 401, 464, PSYCH 441, 474.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

Advising Notes

LIMITATIONS ON SOURCE AND TIME FOR CREDIT ACQUISITION: Per Senate policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Most majors in Health and Human Development require students to complete up to 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum.

Within the 30 credits of required General Education Domain courses, students must take 6 credits of **Integrative Studies courses** (Inter-domain or Linked courses). If you need additional clarification, consult with your academic adviser.

Career Paths

Students with a B.S. in Biobehavioral Health have been successful in establishing careers in a variety of fields. Four example areas of employment include: clinical professions in health care, biomedical and pharmaceutical research support, health advocacy and consulting, and public health. Advanced career tracks may require a graduate or professional degree. Students are encouraged to engage in practical learning experiences that complement formal classroom learning. These can include training at the University Health Services or a hospital, working in a research laboratory, and/or a health-related internship or travel experience. Several engaged learning experience programs available include: BBH Internship program, Global Health minor, BBH research laboratory assistant, Clinical Volunteer Training, and HealthWorks.

Careers

- Examples of careers that BBH graduates might pursue include:
- Clinic Professions in Health care: physician assistant, physician, pharmacist, nurse, health care support staff
- Biomedical and Pharmaceutical Research Support: laboratory manager, study coordinator, research assistant
- Health Advocacy and Consulting: health education specialist, social worker, genetic counselor
- Public Health: public and community health worker, epidemiologist, substance abuse, behavioral disorder, and mental health counselors

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE BIOBEHAVIORAL HEALTH PROGRAM (<https://hhd.psu.edu/bbh/undergraduate/internships-and-career-opportunities/career-areas-major/career-opportunities/>)

Opportunities for Graduate Studies

Depending on your career goals, BBH students might consider completing a graduate degree in biomedical, pharmaceutical or related health services research (e.g., M.S., Ph.D.), a clinical graduate program (e.g., M.D., D.O., P.A., Pharm. D.) or a professional degree in public health, health administration, social work, public policy or administration or law (e.g., M.P.H., M.H.A., M.S.W., M.P.A., M.P.P., J.D.)

Biology, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

Biology is the scientific study of life: the diversity and organization of organisms, from single-celled bacteria to multi-cellular plants and animals, including humans. These different levels of biological organization range from the molecules and cells that compose an organism, to the interacting organisms that make up an ecosystem. Hands-on experiences, from designing and conducting lab experiments to making field observations, using many different procedures and instruments, play an important role in gaining biological knowledge. Basic research in biology provides many benefits. Faculty in the Department of Biology at Penn State are exploring ways to cure neurological diseases, to conserve coral populations in tropical oceans, to discover more efficient ways to use plants for food and bioenergy, to develop vaccines for infectious diseases, and investigating many other facets of biology, all with the goal of positively impacting humans and the environment.

You Might Like This Program If...

- You are interested in learning about aspects of the biology of organisms that live on Earth.
- You enjoy a dynamic field of study, with new discoveries being made every day.
- You are interested in hands-on experiences, including courses with integrated laboratories and conducting research with faculty.
- You plan to pursue a career in biology research, education or outreach, or attend professional school in areas including medicine and dentistry.

Entrance To Major

In order to be eligible for entrance to the Biology major, a student must have:

1. attained at least a 2.00 cumulative grade point average;
2. completed BIOL 110, CHEM 110, MATH 140, and earned a grade of C or better in each of these courses; and
3. completed at least one of the following courses with a grade of C or better: BIOL 220W, BIOL 230W, or BIOL 240W.

Degree Requirements

For the Bachelor of Science degree in Biology, a minimum of 124 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	94

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GN courses; 6 credits of GQ courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
CHEM 111	Experimental Chemistry I	1
CHEM 113	Experimental Chemistry II	1
MATH 141	Calculus with Analytic Geometry II	4
<i>Prescribed Courses: Require a grade of C or better</i>		
BIOL 110	Biology: Basic Concepts and Biodiversity	4
BIOL 220W	Biology: Populations and Communities	4
BIOL 230W	Biology: Molecules and Cells	4
BIOL 240W	Biology: Function and Development of Organisms	4
CHEM 110	Chemical Principles I	3
CHEM 112	Chemical Principles II	3
MATH 140	Calculus With Analytic Geometry I	4
Additional Courses		
Select one of the following:		8-12
PHYS 211 & PHYS 212 & PHYS 213 & PHYS 214	General Physics: Mechanics and General Physics: Electricity and Magnetism and General Physics: Fluids and Thermal Physics and General Physics: Wave Motion and Quantum Physics	
PHYS 250 & PHYS 251	Introductory Physics I and Introductory Physics II	
Select one of the following:		3-4
STAT 200	Elementary Statistics	
STAT 240	Introduction to Biometry	
STAT 250	Introduction to Biostatistics	

Requirements for the Option

Select an option	46-51
------------------	-------

Requirements for the Option

Ecology Option (46-51 credits)

Available at the following campuses: Altoona, Schuylkill, University Park

Code	Title	Credits
Prescribed Courses		
BIOL 463	General Ecology	3
Additional Courses		
STAT 462 or STAT 464	Applied Regression Analysis Applied Nonparametric Statistics	3
Select one of the following:		6-8
CHEM 202 & CHEM 203	Fundamentals of Organic Chemistry I and Fundamentals of Organic Chemistry II	
CHEM 210 & CHEM 212 & CHEM 213	Organic Chemistry I and Organic Chemistry II and Laboratory in Organic Chemistry	

Groups

Select a minimum of 15 credits of 400-level biology courses, with at least 6 credits from the Ecology group, 3 credits from the Evolution group, and 3 credits from the Practicum group. A maximum of 3 credits of BIOL 400, 494, 495, 496, and SC 295, 395, 495 may be used to fulfill 15 credits minimum in the 400-level biology course requirements.

Ecology Group:		
BIOL 406	Symbiosis	
BIOL 412	Ecology of Infectious Diseases	
BIOL 415	Ecotoxicology	
BIOL 417	Invertebrate Zoology	
BIOL 419	Ecological and Environmental Problem Solving	
BIOL/PPEM 425	Biology of Fungi	
BIOL 429	Animal Behavior	
BIOL 435	Ecology of Lakes and Streams	
BIOL 436	Population Ecology and Global Climate Change	
BIOL 438	Theoretical Population Ecology	
BIOL 444	Field Ecology	
BIOL 446	Physiological Ecology	
BIOL 450W	Experimental Field Biology	
BIOL 464	Sociobiology	
BIOL 474	Astrobiology	
BIOL 482	Coastal Biology	
BIOL 499A	Tropical Field Ecology	
Evolution Group:		
BIOL 405	Molecular Evolution	
BIOL 406	Symbiosis	
BIOL 411	Medical Embryology	
BIOL 414	Taxonomy of Seed Plants	
BIOL 417	Invertebrate Zoology	
BIOL 420	Paleobotany	
BIOL 421	Comparative Anatomy of Vertebrates	
BIOL 422	Advanced Genetics	

BIOL/PPEM 425	Biology of Fungi
BIOL 427	Evolution
BIOL 428	Population Genetics
BIOL 429	Animal Behavior
BIOL 432	Developmental Genetics
BIOL 433	Evolution of Vertebrates
BIOL 434	Pathobiology of Emerging Infectious Disease
BIOL 436	Population Ecology and Global Climate Change
BIOL 438	Theoretical Population Ecology
BIOL 439	Practical Bioinformatics
BIOL 443	Evo-devo: Evolution of Developmental Mechanisms
BIOL 446	Physiological Ecology
BIOL 451	Biology of RNA
BIOL 460	Human Genetics
BIOL 463	General Ecology
BIOL 464	Sociobiology
BIOL 474	Astrobiology
BIOL 478	COMPARATIVE NEUROANATOMY
Practicum Group:	
BIOL 400	Teaching in Biology
BIOL 402W	Biological Experimental Design
BIOL 407	Plant Developmental Anatomy
BIOL 414	Taxonomy of Seed Plants
BIOL 417	Invertebrate Zoology
BIOL 419	Ecological and Environmental Problem Solving
BIOL 421	Comparative Anatomy of Vertebrates
BIOL 422	Advanced Genetics
BIOL/PPEM 425	Biology of Fungi
BIOL 433	Evolution of Vertebrates
BIOL 437	Histology
BIOL 439	Practical Bioinformatics
BIOL 444	Field Ecology
BIOL 450W	Experimental Field Biology
BIOL 461	Contemporary Issues in Science and Medicine
BIOL 473	Laboratory in Mammalian Physiology
BIOL 475N	
BIOL 478	COMPARATIVE NEUROANATOMY
BIOL 482	Coastal Biology
BIOL 494	Research Project
BIOL 495	Internship in Biology
BIOL 496	Independent Studies
BIOL 499A	Tropical Field Ecology

Select 17-24 credits from department list 17-24

General Biology Option (46-51 credits)

Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, Harrisburg, Lehigh Valley, Schuylkill, Scranton, University Park, York

Code	Title	Credits
Additional Courses		
Select one of the following:		6-8
CHEM 202 & CHEM 203	Fundamentals of Organic Chemistry I and Fundamentals of Organic Chemistry II	
CHEM 210 & CHEM 212	Organic Chemistry I and Organic Chemistry II	
CHEM 213	and Laboratory in Organic Chemistry	
Groups		
Select a minimum of 18 credits of 400-level biology courses, with at least 3 credits from each of the following groups (each course may be used to satisfy a requirement in only one group). Moreover, a maximum of 3 credits of BIOL 400, 494, 495, 496 and SC 295, 395, 495 may be used to fulfill the 18 credit minimum in the 400-level biology course requirements.		18
Plant and Fungi Group:		
BIOL 406	Symbiosis	
BIOL 407	Plant Developmental Anatomy	
BIOL 414	Taxonomy of Seed Plants	
BIOL 420	Paleobotany	
BIOL 424	Seeds of Change: The Uses of Plants	
BIOL/PPEM 425	Biology of Fungi	
BIOL 431	Reproductive Biology	
BIOL 441	Plant Physiology	
BIOL 444	Field Ecology	
BIOL 446	Physiological Ecology	
BIOL 448	Ecology of Plant Reproduction	
BIOL 451	Biology of RNA	
BIOL 482	Coastal Biology	
BIOL 499A	Tropical Field Ecology	
PPEM 427	Mycotoxins: Effects of Fungal Toxins on Human and Animal Health	
Evolution Group:		
BIOL 405	Molecular Evolution	
BIOL 406	Symbiosis	
BIOL 411	Medical Embryology	
BIOL 414	Taxonomy of Seed Plants	
BIOL 417	Invertebrate Zoology

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Outcomes

1. Students will be able to describe how heritable changes can lead to differences in populations over time that might result in speciation; trace energy/matter transformation, storage, and mobilization; explain how information is exchanged and stored; recognize how changes in biological structures can have varying effects on function; and/or describe the interactions and interconnections among systems across biological scales and over evolutionary time scales.
2. Students will be able to apply the elements of the process of science such as posing questions, generating novel hypotheses based on the scientific literature; developing appropriate technical skills for research; designing/conducting experiments to test hypotheses in laboratory and/or field settings; summarizing/interpreting data; integrating/evaluating findings in the broader scientific field to construct new knowledge; and/or participating in the peer review/revision process.
3. Students will be able to discriminate among scientific claims presented in a variety of sources based on the strength of evidence; find appropriate published scientific literature; and/or analyze and critically evaluate data/conclusions from the scientific peer-reviewed literature.
4. Students will be able to apply basic quantitative competencies such as algebra, probability, statistics, unit conversions, and fundamental biological equations; organize, summarize, and interpret quantitative data; use modeling/simulation to approach problems from across various scales; and/or find and analyze large databases using statistical methods and/or other approaches.
5. Students will be able to integrate knowledge among biological subfields and between biology and other disciplines.
6. Students will be able to engage with diverse communities and leverage the skills in the community to pose and solve biological questions; demonstrate the ability to work in teams to solve

biological problems; and/or communicate in a variety of formal and informal ways in the discussion of biological research.

- Students will explore the impacts of scientific research on society and the environment and how society influences/relies on research to inform decision-making; evaluate the ethical implications of biological research; recognize ethical issues in a variety of settings; and/or describe how different perspectives and the resulting alternative approaches might be evaluated using ethical principles to identify a solution to an issue.
- Students will be able to communicate in a professional manner and learn/use professional behaviors in all aspects of college and career building activities, including participation in opportunities such as research, internships, cooperative education, teaching and tutoring, study abroad, and/or volunteer work.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

General Biology Option: Biology, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
BIOL 110 ^{*#}	4 BIOL 220W, 230W, or 240W ^{*#}	4
CHEM 110 ^{*#†}	3 CHEM 112 ^{*†}	3
CHEM 111 [†]	1 CHEM 113 [†]	1
ENGL 15, 15S, 30T, or ESL 15 [‡]	3 MATH 141 ^{††}	4
MATH 140 ^{*†#†}	4 General Education Course	3
	15	15

Second Year

Fall	Credits Spring	Credits
BIOL 220W, 230W, or 240W ^{*#}	4 BIOL 220W, 230W, or 240W ^{*#}	4
CHEM 210	3 CHEM 212	3
STAT 200	4 CHEM 213	2
General Education Course	3 CAS 100A or 100S [‡]	3
Supporting course (consult with an academic adviser for options)	3 General Education Course	3
	17	15

Third Year

Fall	Credits Spring	Credits
BIOL 4XX	3 BIOL 4XX	3
Supporting Course	3 PHYS 251 (consult with an academic adviser for options)	4
General Education Course	3 Supporting Course (consult with an academic adviser for options)	3

Supporting course (consult with an academic adviser for options)	3 General Education Course	3
	16	16

Fourth Year

Fall	Credits Spring	Credits
BIOL 4XX	3 BIOL 4XX	3
BIOL 4XX	3 BIOL 4XX	3

ENGL 202A, 202B, 202C, or 202D [‡]	3 General Education Course	3
General Education Course	3 Supporting Course (consult with an academic adviser for options)	3
Supporting Course (consult with an academic adviser for options)	3 Supporting Course (consult with an academic adviser for options)	3
	15	15

Total Credits 124

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

Be aware that most 400 level biology courses are taught only in one semester and over time, the semester offering can change.

Genetics and Developmental Biology Option: Biology, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Additional Notes:

Scheduling patterns for courses not taught each semester:

- Fall only: MICRB 201, BIOL 430, BMB 401.
- Spring only: BIOL 322, BMB 402, CHEM 212, CHEM 213.

Program Notes:

Be aware that most 400 level Biology courses are taught only in one semester and over time, the semester offering can change.

Career Paths

A Biology BS degree provides an excellent foundation and the skills required for a wide range of technical careers. While many majors use a Biology degree to prepare for entrance into health professional schools, others follow career paths in research, education, and business. Students also pursue graduate study at universities both across the U.S. and internationally.

Business Administration, A.S. (Capital)

Begin Campus: Harrisburg

End Campus: Harrisburg

Program Description

The associate degree program in Business Administration provides an introductory foundation to core aspects of the business environment that prepares graduates for future baccalaureate study in business or for direct entry into the work place. The primary objective of this major is to provide a business-oriented program with sufficient communicative and mathematical skills, socially relevant course work, and specific business specialties to develop a well-rounded and knowledgeable graduate.

Students should work closely with academic advisers to schedule coursework required to transition to baccalaureate business programs.

What is Business Administration?

To be successful in today's increasingly complex business world, you need to have a broad understanding of how business works. The Penn State Associate degree in Business Administration prepares students for a professional career in today's business environment. The degree offers students a managerially-oriented program emphasizing communication and mathematical skills, socially relevant course work, and advanced courses in business. While Penn State's Associate in Science in Business Administration is an excellent stand-alone credential, it can be used to

seamlessly transition to a bachelor's degree such as the Bachelor of Science in Business or other business-related programs at the University.

You Might Like This Program If...

- You want to learn to use the latest technical business tools to perform your job duties effectively.
- You analyze and react to issues facing companies today.
- You collect and analyze data to make inferences and solve business problems.
- You need to execute effective communication strategies.

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Science degree in Business Administration, a minimum of 60 credits is required:

Requirement	Credits
General Education	21
Requirements for the Major	48-50

9 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GQ General Education courses and 6 credits of GWS General Education courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
CAS 100	Effective Speech	3
MIS 204	Introduction to Management Information Systems	3
<i>Prescribed Courses: Require a grade of C or better</i>		
ENGL 202D	Effective Writing: Business Writing	3
Additional Courses		
BA 241 & BA 242 or BA 243	Legal Environment of Business and Social and Ethical Environment of Business Social, Legal, and Ethical Environment of Business	4
ECON 102 or ECON 104	Introductory Microeconomic Analysis and Policy Introductory Macroeconomic Analysis and Policy	3
SCM 200 or STAT 200	Introduction to Statistics for Business Elementary Statistics	4
Select one of the following:		3-4
MATH 21	College Algebra with Analytic Geometry with Applications I	
MATH 22	College Algebra With Analytic Geometry and Applications II	
MATH 110	Techniques of Calculus I	

Additional Courses: Require a grade of C or better

ENGL 15 or ENGL 30H	Rhetoric and Composition Honors Rhetoric and Composition	3
MGMT 301 or MGMT 301W	Basic Management Concepts Basic Management Concepts	3
MKTG 301 or MKTG 301W	Principles of Marketing Principles of Marketing	3

Supporting Courses and Related Areas

Select 12-13 credits of the following:		12-13
BA 100	Introduction to Business	
BA 250	Small Business Management	
BA 364Y	International Business and Society	
CAS 250 or CAS 252	Small Group Communication Business and Professional Communication	
CAS 352	Organizational Communication	
IB 303	International Business Operations	
MATH 22	College Algebra With Analytic Geometry and Applications II	
MATH 110	Techniques of Calculus I	
ACCTG 300 to ACCTG 399		
ECON 100 to ECON 399		
ENTR 100 to ENTR 399		
FIN 100 to FIN 399		
HPA 100 to HPA 399		
LER 100 to LER 399		
MGMT 100 to MGMT 399		
MKTG 100 to MKTG 399		
MIS 100 to MIS 399		
RM 100 to RM 399		
SCM 200 to SCM 399		

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 3 credits
- **Writing and Speaking (GWS):** 3 credits

Knowledge Domains

- **Arts (GA):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Note: Up to six credits of Inter-Domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

- **Any General Education course (including GHW and Inter-Domain):** 3 credits

University Degree Requirements

Cultures Requirement

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Supporting Course	3 Supporting Course	3
15		15

Total Credits 60-61

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

ADVISING Notes

- Courses required for the major must generally be taken within 10 years of entrance to the major.
- Students planning to re-enroll into a baccalaureate degree in Business should consider courses such as ECON 102/104 and MATH 110.
- Students are advised to schedule BA 364Y to satisfy the "W" and "United States Cultures (US)" or "International Cultures (IL)."

Supporting courses

- Select 12-13 credits from: BA100(3); BA 250(3); BA 364Y(3); CAS 250(3) or CAS 252(3); CAS 352(3); MATH 22 GQ(3); MATH 110 GQ(4); ACCTG 300 to 399 (3); ECON 100 to ECON 399(3); ENTR 100 to 399(3); FIN 100 to 399(3); HPA 100 to 399(3); IB 303IL(3); LER 100 to 399(3); MGMT 100 to 399(3); MKTG 100 to 399(3); MIS 100 to 399(3); RM 100 to 399(3); or SCM 200 to 399(3)

Career Paths

Business impacts our society in many ways. Every business, from small companies to large corporations provide employment options. The associate in business degree can help prepare you for a wide variety of entry-level careers in this sector or for continued study in business. You will have the opportunity to participate in an elective business internship as part of your curriculum. Internships provide valuable experience before graduation and an important first step toward starting your career.

Careers

Because the Associate in Science in Business Administration can give you a foundation of business concepts and best practices relevant to any industry, as a graduate of the program you can prepare for positions in accounting departments, management trainee opportunities, retail, insurance industry, industrial management opportunities, office manager, or business service manager. Some examples of jobs include:

- Accounting Specialist
- Accounts Examiner
- Appraisers and assessors of real estate
- Assistant Marketing Director
- Assistant Store Manager
- Billing Clerk
- Business services manager
- Computing business coordinator
- Compliance officers
- Insurance sales agent
- Industrial Salesperson
- Management Trainee
- Office Manager
- Payroll Assistant
- Sales Coordinator

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE BUSINESS ADMINISTRATION PROGRAM (<https://www.bls.gov/careeroutlook/2002/winter/art01.pdf>)

Opportunities for Graduate Studies

Upon completion of the associate degree in business, you may also choose to proceed seamlessly to the bachelor of science in business or selected other business-related majors at Penn State.

Business Administration, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

This interdisciplinary minor provides students in all majors with a business-oriented supplement to their major fields of study. It is intended to provide a set of basic skills that complement the unique competencies gained in their non-business disciplines. It is strongly recommended that students taking this minor elect at least one course in mathematics through college calculus, and a second course in descriptive and inferential statistics, as part of their General Education requirements or electives for the major. Students taking this minor may not have more than 25 percent of their total credits for graduation in business courses, and must receive a grade of C or better in all courses required for the minor. Students pursuing the Business Administration minor should apply to the School of Business Administration and select business courses in consultation with a business adviser.

Program Requirements

Requirement	Credits
Requirements for the Minor	22

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
MGMT 301	Basic Management Concepts	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
ECON 102 or ECON 104	Introductory Microeconomic Analysis and Policy	3
Select 6 credits of the following: ¹		6
BA 100	Introduction to Business	
BA 243 or BLAW 243	Social, Legal, and Ethical Environment of Business Legal Environment of Business	
BA 364Y	International Business and Society	
ECON 342	Industrial Organization	
ECON 351	Money and Banking	
FIN 100 or FIN 301	Introduction to Finance Corporation Finance	
MGMT 321	Leadership and Motivation	
MIS 390	Information Systems Management and Applications	
MKTG 221		

SCM 320	Transport Systems
Supporting Courses and Related Areas	
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>	
Select 6 credits at the 400 level of the following: ¹	
6	
ACCTG, BA, ECON, FIN, HCM, MIS, IST, MGMT, MKTG	
BESC 408	
COMM 414	Media Management
PSYCH 473	Behavior Modification
Other School-approved courses	

¹ Course prerequisites must be met.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Civil Engineering, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The program in Civil and Environmental Engineering is designed to provide the basic undergraduate education required for private practice and public service in civil engineering and/or continue formal education. Emphasis is placed on the fundamentals of civil engineering principles and design techniques. Students utilize basic engineering science concepts in several of the different specialty areas (e.g., construction/management, environmental, materials/pavement design/geotechnical, structures, transportation, and water resources). Finally the students are able to choose an area of specialization for professional practice or graduate studies.

The program is broadened by courses in communication, arts, humanities, social and behavioral sciences, as well as other engineering disciplines. Students gain experience in working as members of a team and using interdisciplinary approaches to solve problems. These experiences, as well as those related to engineering principles and design, are provided through exercises in the classroom, laboratory, and field. The program culmination is a capstone design course wherein the students' knowledge and skills are applied to actual engineering problems.

What is Civil Engineering?

Civil engineering is one of the oldest and most socially-relevant engineering disciplines. Grounded in mathematics and science, civil engineers make a lasting impact as they plan, design, construct, operate, and maintain the everyday, yet critical, infrastructure systems needed in our daily lives. In this challenging and diverse field, civil engineers also find solutions for critical environmental issues, including slowing the progress and mitigating the effects of climate change, eliminating the causes and treating the effects of environmental pollutants, and providing access to clean water. In recent years, the rapid application of new technologies has fostered the development of autonomous vehicles, 3D printing, smart structures, advanced materials, and new forms of renewable energy.

You Might Like This Program If...

- You want to design and build large-scale projects that last a long time.
- You care about the quality of the water that comes out of the faucet.
- You are interested in the operations and safety of future transportation systems.
- You try to find sustainable solutions for every challenge, big or small.
- You would like to use your technical skills in an exciting, people-serving profession.

Entrance to Major

In order to be eligible for entrance to this major, students must satisfy the following requirements by the end of the semester during which the admission to major process is carried out.

- Completed 29-55 cumulative credits (credits completed at Penn State for which a quality letter grade was earned)
- Completed with a C or better the following courses: EDSGN 100, CHEM 110, MATH 140, MATH 141, and PHYS 211
- Attained at least a 2.6 cumulative grade point average

* In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

Degree Requirements

For the Bachelor of Science degree in Civil Engineering, a minimum of 127 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	109

27 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
CHEM 111	Experimental Chemistry I	1
GEOSC 1	Physical Geology	3
MATH 220	Matrices	2
STAT 401	Experimental Methods	3
<i>Prescribed Courses: Require a grade of C or better</i>		
CE 310	Surveying	3
CE 321	Highway Engineering	3
CE 332	Professionalism, Economics & Construction Project Delivery	3
CE 335	Engineering Mechanics of Soils	3
CE 336	Materials Science for Civil Engineers	3
CE 340	Structural Analysis	3
CE 360	Fluid Mechanics	3
CE 370	Introduction to Environmental Engineering	3
CHEM 110	Chemical Principles I	3
EDSGN 100	Cornerstone Engineering Design	3
EMCH 211	Statics	3
EMCH 212	Dynamics	3
EMCH 213	Strength of Materials	3

ENGL 202C	Effective Writing: Technical Writing	3
MATH 140	Calculus With Analytic Geometry I	4
MATH 141	Calculus with Analytic Geometry II	4
MATH 251	Ordinary and Partial Differential Equations	4
PHYS 211	General Physics: Mechanics	4
PHYS 212	General Physics: Electricity and Magnetism	4
Additional Courses		
CE 337	Civil Engineering Materials Laboratory ¹	1
or CE 475	Water Quality Chemistry	
CHE 220	Introduction to Chemical Engineering Thermodynamics ²	3
or ME 201	Introduction to Thermal Science	
CMPSC 200	Programming for Engineers with MATLAB	3
or CMPSC 201	Programming for Engineers with C++	
Select one of the following:		1
CE 100S	Topics and Contemporary Issues in Civil and Environmental Engineering: First-Year Seminar	
1 credit of First-Year Seminar or Elective		
Select one of the following:		3
ECON 14	Principles of Economics	
ECON 102	Introductory Microeconomic Analysis and Policy	
ECON 104	Introductory Macroeconomic Analysis and Policy	
Select 6 credits of the following: ³		6
CE 341	Design of Concrete Structures	
CE 342	Design of Steel Structures	
CE 371	Water and Wastewater Treatment	
CE 441	Structural Design of Foundations	
CE 447	Structural Analysis by Matrix Methods	
CE 461	Water-resource Engineering	
CE 462	Open Channel Hydraulics	
CE 475	Water Quality Chemistry	
CE 476	Solid and Hazardous Wastes	
CE 479	Environmental Microbiology for Engineers	
Select 3 credits of CE 400 level "W" courses		3
<i>Additional Courses: Require a grade of C or better</i>		
CAS 100A	Effective Speech	3
or CAS 100B	Effective Speech	
ENGL 15	Rhetoric and Composition	3
or ENGL 30H	Honors Rhetoric and Composition	
Supporting Courses and Related Areas		
Select 12 credits of technical elective from CE 300-level courses, CE 400-level courses, or department list		12

¹ If CE 475 is taken, one credit goes toward lab requirement and remaining three go towards CE or general technical electives.

² Students may substitute 6 credits of ROTC for 3 credits of GHW courses and 3 credits of ME.

³ Two of those courses must be selected from at least 2 of the 3 remaining technical areas in the Civil Engineering program-- structures (x40), hydrosystems (x60), and environmental (x70).

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills

necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits.

Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Civil Engineering and M.S. in Civil Engineering

Available at the following campuses: Harrisburg

Requirements for the Integrated B.S. in Civil Engineering and M.S. in Civil Engineering can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/civil-engineering-capital/#integratedundergradgradprogramstext>).

Program Educational Objectives

The Program Educational Objectives are designed so that the graduates from the Civil Engineering program at Penn State Harrisburg will:

- Have skills needed to be engaged with industries or government agencies that design, construct, and maintain civil engineering infrastructures.
- Effectively work in and/or lead interdisciplinary teams in addressing multiple facets of sustainable and resilient civil engineering, and
- Have the ability to advance knowledge through professional development and educational opportunities as well as obtain and maintain professional licensing.

Program Outcomes (Student Outcomes)

The students from the Civil Engineering Program at Penn State Harrisburg will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Civil Engineering, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If**

report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits

Total Credits 127

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes

- Graduation in this major requires a minimum of 127 total credits.
- **Civil Engineering Elective:** CE Electives must be selected from two of these specific technical areas in the program: Structures; Water Resources Engineering; Environmental Engineering.
- **Health and Physical Activity Elective:** Students who complete the ROTC Program may substitute 3 ROTC credits for the GHW requirement and 3 ROTC credits for ME 201.
- **Technical Elective:** Select from department list. Students who complete the Cooperative Education Program may substitute the 3-credit sequence of ENGR 295, ENGR 395, and ENGR 495 for a Technical Elective.
- ** If a student is pursuing the Structural sub-discipline in Civil Engineering, if CE 340 is not taken in the 5th semester, it may delay graduation.
- *** Environmental and water resources students may substitute 1 credit of CE 475 for CE 337.

Career Paths

Civil engineers are responsible for designing, building, and maintaining the critical systems that support society and protect the environment. Graduates of the civil engineering program are prepared to be innovative leaders in a diverse range of industries. Students are routinely recruited for positions in the public sector with government agencies or in the private sector at consulting firms or construction companies. Students may also choose to continue their formal education by pursuing advanced degrees, and many remain in academia upon graduation.

Careers

Our graduates work in a variety of fields to develop solutions for challenges in design, construction, research, and education. Civil engineering graduates work in the public sector for government agencies or in the private sector at consulting or construction firms. Some civil engineers hold supervisory or administrative positions, while others pursue careers in design, construction, or education.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE CIVIL ENGINEERING PROGRAM (<https://www.asce.org/career-growth/>)

CAREER RESOURCES FOR CIVIL ENGINEERING STUDENTS (<https://www.cee.psu.edu/academics/resources/career-resources.aspx>)

Opportunities for Graduate Studies

In our graduate programs, students learn in the classroom and the laboratory, finding a broad network of mentors and collaborators. After graduation, many career options await.

- The one-year Master of Engineering (M.Eng.) (<https://www.cee.psu.edu/academics/graduate/degrees-and->

requirements.aspx#MEng) program gives you a strong foundation and leads to advanced professional practice.

- The Master of Science (M.S.) (<https://www.cee.psu.edu/academics/graduate/degrees-and-requirements.aspx#MS>) program blends advanced coursework and research, producing highly sought-after graduates.
- The Doctor of Philosophy (Ph.D.) (<https://www.cee.psu.edu/academics/graduate/degrees-and-requirements.aspx#PhD>) program provides a comprehensive educational and research opportunity, challenging students to be leaders of their fields.

What could you achieve with an advanced degree from the Department of Civil and Environmental Engineering at Penn State?

Accreditation

The Bachelor of Science in Civil Engineering at Penn State Harrisburg is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Civil and Similarly Named Engineering Programs.

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

Communication Sciences and Disorders, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

This major offers a comprehensive program of study for preparing students who want to become speech-language pathologists or audiologists. The curriculum is specifically designed for the sole purpose of preparing undergraduate students for graduate study in communication sciences and disorders or related areas. This occurs because state licensure laws and professional certifications require that a speech-language pathologist or audiologist must have a master's degree, pass a national test, and complete a clinical fellowship year.

Overall, the curriculum enables students to develop fundamental knowledge based on scientific principles, skills, and attitudes required for habilitating and rehabilitating persons of all ages with a wide range of speech, language, and hearing problems. Further, the curriculum allows students an opportunity to explore all aspects of communication sciences and disorders as well as elect courses of special interest.

The first two years of study emphasize general education and background study. The last two years of study emphasize normal and disordered aspects of speech, language, and hearing as well as professional management, concerns, and obligations. Clinical observation and diversity focused coursework are included in the curriculum.

What is Communication Sciences and Disorders?

Communication Sciences and Disorders (CSD) is the study of human communication disorders. Undergraduate students acquire a strong foundation in the basic sciences and processes related to typical, delayed and disordered speech, language, cognition, swallowing, and hearing. Students gain critical-thinking abilities necessary to apply foundational knowledge and skills to the identification, assessment, and treatment of communication disorders. Graduates proceed to advanced degrees in speech-language pathology or audiology to habilitate and rehabilitate children and adults with a variety of disorders and delays through service and research. Speech-language pathologists and audiologists are employed in environments such as schools, hospitals, rehabilitation centers, community clinics and nursing homes.

You Might Like This Program If...

- You know you will find fulfillment in working closely with others.
- You want to pursue a career in a helping profession.
- You envision yourself teaching people skills to improve their quality of life.
- You want to develop new interventions for those with communications disorders.

MORE INFORMATION ABOUT COMMUNICATION SCIENCES AND DISORDERS (<https://hhd.psu.edu/csd/communication-sciences-and-disorders-undergraduate-program/>)

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Communication Sciences and Disorders, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	30
Requirements for the Major	54-55

9-10 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GS courses; 3-4 credits of GQ courses.

To satisfy graduation requirements, students must have completed 6 credits from courses offered in the college and outside the department in which the major is offered.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. CSD requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Suggested Academic Plan for this major.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
PSYCH 100	Introductory Psychology	3
<i>Prescribed Courses: Require a grade of C or better</i>		
CSD 146	Introduction to Communication Sciences and Disorders	3
CSD 230	Introduction to Audiology	3
CSD 269	Deaf Culture	3
CSD 300	Developmental Considerations in the Assessment and Treatment of Language Disorders	3
CSD 311	Clinical Phonetics	3
CSD 331	Anatomy and Physiology for Speech and Hearing	3
CSD 341	Acoustic Principles in Communication Sciences and Disorders	3
CSD 433	Aural Rehabilitation	3

CSD 442	Introduction to Disorders of Articulation and Phonology	3
CSD 444	Introduction to Organic Disorders of Speech and Language	3
CSD 451	An Introduction to Augmentative and Alternative Communication	3
CSD 459W	Principles of Clinical Management in Communication Disorders	3
CSD 462	Clinical Bases of Language Disorders	3
Additional Courses		
EDPSY 14 or PSYCH 261	Learning and Instruction Introduction to Psychology of Learning	3
HDFS 129 or PSYCH 212	Introduction to Human Development and Family Studies Introduction to Developmental Psychology	3
Select 3-4 credits of the following:		3-4
EDPSY 101	Analysis and Interpretation of Statistical Data in Education	
PSYCH 200	Elementary Statistics in Psychology	
STAT 200	Elementary Statistics	
Select one of the following:		3
HDFS 229	Infant and Child Development	
HDFS 249N	Adult Development and Aging	
HDFS 315	Family Development	
HDFS 411	The Helping Relationship	
HDFS 418	Family Relationships	
HDFS 432	Developmental Problems in Childhood and Adolescence	
PSYCH 270	Introduction to Abnormal Psychology	
PSYCH 471	Psychology of Adjustment and Social Relationships	

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits

- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of

both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 121-122

- * Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

¹ Course is required for the major.

² Students must complete three credits of S courses to satisfy the Penn State Harrisburg First-Year Seminar Credit. Other S courses may be available but are not recommended.

³ CSD strongly recommends the following electives (in this order of preference). Check for prerequisites.
LING 1 (GS), CI 280 (GH), CSD 431, LING 100 (GS), MATH 21 (GQ), SOC 1, SPLED 404, CSD 218, CSD 318, CSD 100, EDUC 458, EDUC 459,

ENGL 228 (GH), CAS 101N (GH/GS), LTNST 127 (GH), SOC 119N (GH/GS), CAS 162N (GH/GS), Any LING/APLNG, Any HDFS, Any PSYCH, Any SOC

⁴ MATH 21 provides preparation to take the Graduate Record Examination (GRE) which may be required by graduate school SLP/AUD programs.

⁵ Although an elective, content in course is/may be required for graduate school admission.

⁶ Course requires a grade of C or higher.

⁷ Meets ASHA prerequisite course content required for SLP/Audiology certification.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
- **Common Course Substitutions** (Each may be completed once)
 - **Move 3:** An extra GN, GA, GH, GS, or GHW can substitute for a course in one of the other areas (e.g., LING 100 [GS] in place of a GH course)
 - **World Language:** Any language course at the 3 level or higher can substitute for one GN, GS, GH, or GA course (e.g., SPAN 3 in place of a GN course)

Communication Sciences and Disorders, B.S. at Harrisburg Campus (Transfer Students)

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

Students who complete an advanced degree in speech-language pathology evaluate, diagnose and provide treatment for people of all ages who have communication disabilities and differences. Speech-language pathologists with master's degrees work in hospital and rehabilitation centers, schools, community clinics, nursing homes, and private practice. Audiology students who complete a clinical doctorate of audiology degree (Au.D.) evaluate, diagnose and treat people of all ages with hearing loss. Speech-language pathologists and audiologists who earn doctorate (Ph.D.) degrees typically teach and conduct research in a university setting.

Communications, B.A. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

Communications is an interdisciplinary program that combines practical, professional instruction with critical and cultural examinations of mass media. Our interdisciplinary and theoretical approach enables our students to understand the contextual relationships between contemporary media and ethics, history, drama, and art, as well as the mechanics of emerging information technologies. We feature small classes, a multidisciplinary faculty with real-world professional experience, high-technology laboratories, and an excellent location for media internships. This major prepares students for careers in areas such as public relations, journalism, graphic design, photography, new media, advertising, media production, and telecommunications. Because of our analytical approach, students can use the major to prepare for postgraduate studies.

What is Communications?

Communications is an academic discipline that deals with the creation and distribution of mass communication messages through media such as books, newspapers, television, radio, film, video games, and the Internet. Mass communications use writing, speech, photographs, video, and interactive content to give information or influence the audience. Communications also concerns the study of how we communicate in different ways with diverse audiences through marketing, advertising, public relations, corporate communications, digital journalism, film and other media.

You Might Like This Program If...

- You enjoy writing, design, photography, or film/video production.
- You enjoy solving problems or influencing others with your ability to create messages.
- You are interested in a career in public relations, journalism, graphic design, advertising, multimedia production.

Entrance to Major

Entry to the Communications major requires a 2.00 or higher cumulative grade-point average and successful completion (earning a grade of C or better) of COMM 100N.

Degree Requirements

For the Bachelor of Arts degree in Communications, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	12
Bachelor of Arts Degree Requirements	24
Requirements for the Major	39

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Requirements for the Major

At least 12 credits of Communications courses must be taken at the 400 level.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

COMM 418	Media Effects: Theory and Research	

COMM 420	Research Methods in Advertising and Public Relations
COMM 421W	Advertising Creative Strategies
COMM 424	Advertising Campaigns
COMM 428E	Social Media Strategies
COMM 430	Mass Media and Politics
COMM 436	Advanced Audio Production
COMM 457	Media Audiences and Contexts
COMM 459	Cultural Effects of Interactive and Online Media
COMM 461	Magazine Writing
COMM 462	Feature Writing
COMM 471	Public Relations Media and Methods
COMM 472	Public Relations Event Planning
COMM 473	Public Relations Campaigns
COMM 474	Depth Reporting
COMM 481	Advanced Multimedia Production
COMM 488	Writers' Seminar
COMM 495	Internship
COMM 496	Independent Studies

Supporting Courses and Related Areas

Select 12 credits in consultation with an academic adviser. These 12 credits, combined with electives, may be applied to a minor in support of the student's interests.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or

beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

- **Communications Theory:** Students will recall Communications theory and theorists.
- **Creativity:** Students will assess the Communication situation and create original written documents, images, sound, or graphics accordingly.
- **Practical Knowledge:** Students will construct media projects using a variety of visual, audio and Web technologies.
- **Professional Ethics:** Students will develop the professional, ethical and social responsibilities of the media professions.
- **Research Methods:** Students will analyze media using Communications theory and methods in their own research and writing.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Communications, B.A. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit

(accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
ENGL 15, 15S, 30T, or ESL 15 [‡]	3 CAS 100A or 100S [‡]	3

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ COMM Selection - 6 credits from Department List E, at least 12 credits of COMM courses must be taken at the 400 level. See List E below.

² Visual COMM – 6 credits from Department List F, at least 12 credits of COMM courses must be taken at the 400 level. See List F below.

³ COMM 342W is offered in spring only

⁴ COMM 456 is offered in fall only

⁵ COMM 458 is offered in spring only

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Program Notes:

- Prescribed Courses (12 Credits):
 - Select 6 credits each from the Comm List and the VISUAL COMM List of courses below.
- Supporting Courses (12 Credits):
 - Select 12 credits in consultation with an academic adviser. These credits, combined with electives, may be applied to a minor in support of the student's interests.

- COMM 495 Internship (3)
- COMM 496 Independent Studies (3)
- VISUAL COMM List (F) (6 credits required):
 - COMM 215 Basic Photography for Communications (3)
 - COMM 241 Graphic Design for Communications (3)
 - COMM 242 Basic Video/Filmmaking (3)
 - COMM 269 Photojournalism (3)
 - COMM 337 Intermediate Documentary Production (3)
 - COMM 338 Intermediate Narrative Production (3)
 - COMM 374 Audio Production (3)
 - COMM 415 Advanced Photography for Communications (3)
 - COMM 436 Advanced Audio Production (3)
 - COMM 437 Advanced Documentary Production (3)
 - COMM 441 Advanced Graphic Design for Communications (3)
 - COMM 495 Internship (1-3 per semester/maximum of 6)
 - COMM 496 Independent Studies (3)

Career Paths

Penn State Harrisburg's communications program features small classes, a multidisciplinary faculty with real-world professional experience, high-technology laboratories, and an excellent location for media internships.

Careers

This major prepares students for careers in areas such as public relations, journalism, graphic design, advertising, media production, and telecommunications.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE COMMUNICATIONS PROGRAM (<https://harrisburg.psu.edu/humanities/communications-ba/>)

Opportunities for Graduate Studies

Communications is an interdisciplinary program combining practical, professional instruction with critical and cultural examinations of mass media, including Penn State's Master of Arts in Communications.

Communications, Minor (Capital)

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Communications minor provides students with an introduction to the tool skills needed to function as a professional communicator, as well as a basic understanding of communication processes and theory. Students seeking careers in fields such as public administration, business, criminal justice, law, information technology, and the medical, social and behavioral professions will find this minor provides instruction in a valuable additional knowledge and skill area important in today's information society.

What is Communications?

Communications is an academic discipline that deals with the creation and distribution of mass communication messages through media such as books, newspapers, television, radio, film, video games, and the Internet. Mass communications use writing, speech, photographs, video, and interactive content to give information or influence the audience. Communications also concerns the study of how we communicate in different ways with diverse audiences through marketing, advertising, public relations, corporate communications, digital journalism, film and other media.

Entrance to Minor

Students must apply for entrance to the minor after achieving fifth semester classification.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Computer Science, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

This program is designed to prepare students for employment as computer scientists in engineering, scientific, industrial, and business environments as software developers, programmers, and systems analysts. While most students will enter the job market directly upon graduation, graduate school in computer science or related areas is also an option. Selection of electives can be tailored for students pursuing this path.

The Computer Science major provides a solid foundation in the areas of systems programming, algorithm design, artificial intelligence, and engineering large software systems using state-of-the-art methodologies and programming languages.

Students may expect to: develop a solid foundation in mathematical studies relevant to computer science; master skills in computer science; enjoy possibilities for internships and part-time employment with local

companies; and become problem solvers. These goals are consistent with the goals outlined by the Association of Computing Machinery.

What is Computer Science?

Computer science is the study of computational methods, including their principles and foundations, their efficient implementation, their analyses, and their practical application in wide-ranging areas. It includes the foundations of software development, computational problem solving, the principles of system software, and the fundamental principles and limits of computing. It is much more than just programming. It includes the mathematical foundations that support analyzing, evaluating, and proving the correctness of computational solutions. It includes specializations such as artificial intelligence, machine learning, cybersecurity, data mining, high-performance computing, computer networks, computer graphics, computer vision, quantum computing, and others. It is continually evolving with the development of new and faster forms of computation and with the identification of new problems that require computational solutions.

You Might Like This Program If...

- You have an interest or aptitude in math.
- You enjoy solving problems and you are good at analytical thinking.
- You are interested in finding more efficient solutions to problems. Remember, computer science is more than just programming.

Entrance to Major

Entry to the Computer Science General Option requires that the student has earned a C or better in the following courses:

- MATH 140
- MATH 141
- CMPSC 121 or CMPSC 131
- CMPSC 122 or CMPSC 132.

A 2.00 or higher cumulative grade-point average is required.

Entry to the Computer Science Data Science Option requires that the student has earned a C or better in the following courses:

- MATH 140
- MATH 141
- CMPSC 131
- CMPSC 132

A 2.00 or higher cumulative grade-point average is required.

Degree Requirements

For the Bachelor of Science degree in Computer Science, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	88

13 of the 45 credits for General Education are included in Requirements for the Major. This includes: 3 credits of GWS courses, 6 credits of GQ courses, and 4 credits of GN courses.

First-Year Seminar: Incoming first-year students are required to complete a course with the suffix S, T, or X, or the PSU abbreviation.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Select 5 credits of unrestricted electives at 100-400 level		5

¹ Students must earn a 2.5 or higher grade point average in the following courses:

- For the General Option: CMPSC 221, CMPSC 312, CMPSC 360, CMPSC 430, CMPSC 460, CMPSC 462, CMPSC 463, CMPSC 469, CMPSC 470, CMPSC 472, CMPSC 487W, and CMPSC 488
- For the Data Science Option: DS 220, CMPSC 312, CMPSC 360, CMPSC 430, CMPSC 445, CMPSC 446, CMPSC 460, CMPSC 462, CMPSC 463, CMPSC 469, CMPSC 472, CMPSC 487W, and CMPSC 488

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Computer Science and M.S. in Computer Science

Available at the following campuses: Harrisburg

Requirements for the Integrated B.S. in Computer Science and M.S. in Computer Science can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/computer-science/#integratedundergradgradprogramstext>).

bulletins.psu.edu/graduate/programs/majors/computer-science/#integratedundergradgradprogramstext).

Program Learning Objectives

- **Know Algorithmic Problem Solving and Analysis:** Formulate and solve problems using appropriate data structures and algorithmic techniques; analyze the efficiency and correctness of the algorithms.
- **Know Computer Hardware and Operating Systems:** Analyze the effects of computer hardware and operating systems design on the efficiency and correctness of software systems.
- **Know Programming Language Paradigms:** Express algorithms clearly and correctly in a variety of programming languages
- **Know Theoretical Foundations of Computer Science:** Explain and use the theoretical foundations of computer science effectively
- **Use Software Engineering Skills:** Design and implement large software systems through a strong foundation in the software development lifecycle, effective communication, and team work

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

General Option: Computer Science, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 120

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ 9 credits should be in CMPSC.

² Courses listed as "General Education" total 23 credits and should include 3 credits of GA, 3 credits of GH, 2 credits of GN, 3 credits of GS, 6 credits of Inter-Domain, and 6 credits of Exploration. PHYS 212 is recommended to satisfy the 2 credits of GN. The remaining 2 credits can be applied to the Exploration category or the 100-400 level general electives.

³ Students must earn a 2.5 or higher grade point average in the following courses: CMPSC 221, CMPSC 312, CMPSC 330, CMPSC 360, CMPSC 430, CMPSC 460, CMPSC 462, CMPSC 463, CMPSC 469, CMPSC 470, CMPSC 472, CMPSC 487W, and CMPSC 488.

⁴ Students in the Computer Science (COMP_BS) major are required to complete 21 of the 27 credits of 400-level prescribed courses for the major, including the senior capstone course, at Penn State Harrisburg. This is in compliance with Faculty Senate Policy 83-80.5.

⁵ CMPSC/MATH/STAT electives should be chosen from the following lists:

- CMPSC 313, CMPSC 412, CMPSC 413, CMPSC 438, CMPSC 441, CMPSC 444, CMPSC 445, CMPSC 446, CMPSC 455, CMPSC 457, CMPSC 475, CMPSC 496, CMPSC 497
- MATH 401, MATH 411, MATH 412, MATH 425, MATH 430, MATH 431, MATH 435, MATH 445, MATH 449, MATH 450, MATH 455, MATH 465, MATH 468, MATH 496, MATH 497
- STAT 401, STAT 415, STAT 462, STAT 463

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Data science Option: Computer Science, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. Career Paths

Computer Science jobs are expected to be among the top three fastest growing occupations and one of the top 20 in the number of new jobs created. According to the U.S. Bureau of Labor Statistics, employment opportunities for Computer Science graduates are projected to grow 11 percent from 2019 to 2029, faster than the average for all occupations. Computer Science students are encouraged to incorporate internships into their academic program. Internships can provide valuable hands-on experience that will benefit graduates during their job search. Previous students have completed successful internships with state government, Google, Amazon, Facebook, Microsoft, IBM, UNISYS, and other businesses.

Careers

This program is designed to prepare students for employment as computer scientists in engineering, scientific, industrial, and business environments as software developers, programmers, and systems

analysts. Over the last few years, Penn State Harrisburg Computer Science graduates have obtained positions with companies such as Blue Cross/Blue Shield, Google, Boeing, Microsoft, Intel, IBM, Oracle, General Dynamics, Northrop and Grumman, GEOS, Hershey Medical Center, Woolworth, Rite Aid, and EDS.

Opportunities for Graduate Studies

The program provides a sound background for students who plan to pursue graduate studies in computer science, including Penn State's Master of Science in Computer Science program. Selection of electives can be tailored for students pursuing this path.

Computer Science, Minor (Capital)

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

Computing has become an essential component of many disciplines, and it is driving innovation in fields far beyond computer science. The minor in Computer Science at Penn State Harrisburg provides basic proficiency in computer science, with an emphasis on building both a theoretical framework for computer science and providing practical skills needed to apply computer science to other fields of study. The knowledge and skills gained in the minor expands opportunities for students seeking careers in the growing number of fields that require a strong foundation in computer science. In addition, for students seeking to pursue graduate

study, the minor provides background knowledge for the computing intensive aspects of their chosen discipline.

The minor begins with the second-level course in computer programming (CMPSC 122 or CMPSC 132), a course in object-oriented programming in either Java or C++ (CMPSC 221 or CMPSC 330), a course in discrete math for computer science (CMPSC 360), and a course in data structures (CMPSC 462). These twelve credits are followed with an additional six credits of 400-level work in computer science (CMPSC).

What is Computer Science?

Computer science is the study of computational methods, including their principles and foundations, their efficient implementation, their analyses, and their practical application in wide-ranging areas. It includes the foundations of software development, computational problem solving, the principles of system software, and the fundamental principles and limits of computing. It is much more than just programming. It includes the mathematical foundations that support analyzing, evaluating, and proving the correctness of computational solutions. It includes specializations such as artificial intelligence, machine learning, cybersecurity, data mining, high-performance computing, computer networks, computer graphics, computer vision, quantum computing, and others. It is continually evolving with the development of new and faster forms of computation and with the identification of new problems that require computational solutions.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Code	Title	Credits

Criminal Justice, A.S. (Capital)

Begin Campus: Harrisburg, World Campus

End Campus: Harrisburg, World Campus

Program Description

Students receiving an associate degree in criminal justice should understand each of the three main components of the criminal justice system and their interrelationships. This program includes study in law enforcement, courts, and corrections individually and as components of a system, plus work in theories of crime causation, and crime control policy. Students should expect reading, writing, and critical thinking skills to be rigorously applied and developed throughout the degree program. The Associate in Science degree in Criminal Justice prepares students for entry-level positions in criminal justice or for study at the baccalaureate level.

What is Criminal Justice?

Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law,

public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.

You Might Like This Program If...

You have an interest in working in corrections, courts, court administration, law enforcement, or probation and parole. Students completing this course of study are prepared for entry level positions in the criminal justice system or to complete the baccalaureate level.

MORE INFORMATION ABOUT CRIMINAL JUSTICE (<https://altoona.psu.edu/academics/bachelors-degrees/criminal-justice/>)

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Science in Criminal Justice, a minimum of 64 credits is required:

Requirement	Credits
General Education	21
Electives	26
Requirements for the Major	29

12 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GH courses; 3 credits of GQ courses; 6 credits of GS courses.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense

of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 3 credits
- **Writing and Speaking (GWS):** 3 credits

Knowledge Domains

- **Arts (GA):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Note: Up to six credits of Inter-Domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

- **Any General Education course (including GHW and Inter-Domain):** 3 credits

University Degree Requirements

Cultures Requirement

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of

both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Criminal Justice, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg, World Campus

Program Description

The Bachelor of Science degree program in Criminal Justice helps provide its graduates with the communications and analytical skills critical to succeed in criminal justice and related careers. Through an interdisciplinary approach to the problems of crime and society, the program also equips students to pursue graduate study in criminal justice or related disciplines, and educates students to become effective problem-solvers as professionals in the field of criminal justice.

The study of criminal justice is approached as an applied interdisciplinary science, teaching students both the theoretical and the practical aspects of crime control and the administration of justice. The Criminal Justice curriculum provides students with the opportunity and assistance to acquire knowledge of the roles of policing, courts, laws, and corrections as they relate to both the adult and juvenile justice system. Students also gain knowledge of the history, concepts, and critical issues related to the role of gender and race/ethnicity in the criminal justice system, victimology, and ethics in criminal justice. The curriculum further provides a theoretical foundation of the discipline, combined with a thorough understanding of the scientific method as it applies to criminal justice. This combination is expected to sharpen the students' talents of reasoning and judgment, qualities imperative to rational functioning in criminal justice and related professions.

What is Criminal Justice?

Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law, public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.

You Might Like This Program If...

- You enjoy helping others, or doing something for the greater good.
- You are interested in all aspects of the law, including the psychology behind criminal behavior and the way criminal justice and social service agencies operate.
- You want to serve society and have good people skills.
- You are interested in a career in law enforcement, the courts, corrections, or another part of the criminal justice system.

Entrance to Major

The student must have a 2.00 cumulative grade-point average and an average of C (2.00) or better in any course already taken in the major.

Admission Requirements for Transfer Students

Transfer applicants must have at least a 2.00 cumulative grade-point average (4.00 scale). The evaluation of prior college work is conducted on an individual basis by the Office of Enrollment Services at both campuses.

World Campus

Direct Admission to the Major

Incoming first-year students who meet the program admission requirements are admitted directly into the major. Admission restrictions may apply for change-of-major and/or change-of-campus students.

For more information about the admission process for this major, please send a request to the college, campus, or program contact (listed in the Contact tab).

Degree Requirements

For the Bachelor of Science degree in Criminal Justice, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	18
Requirements for the Major	60-61

3-4 of the 45 credits for General Education are included in the Requirements for the Major. This includes 3-4 credits of GQ courses.

Requirements for the Major

At least 9 credits in Additional Courses and/or Supporting Courses must be at the 400 level.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Supporting Courses and Related Areas		
Select 6 credits: 3 credits at the 200 level and 3 credits at the 300 and 400 level or 6 credits at the 300 and 400 level from the following: AFRAS, BESC, PLSC, PUBPL, PSYCH, SOC		6
Select 15 credits in consultation with an academic adviser and in support of the student's interests. For information about specific courses in this area, contact the School of Public Affairs.		15

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Criminal Justice and M.A. in Criminal Justice

Available at the following campuses: Harrisburg

Requirements for the Integrated B.S. in Criminal Justice and M.A. in Criminal Justice can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/criminal-justice/#integratedundergradgradprogramstext>).

Program Learning Objectives

- Interpret behavior and social circumstances from a criminological perspective.
- Apply empirical evidence to describe how the use of the broad discretionary powers of police is controlled and to evaluate innovations in policing.
- Apply law, procedure, and legal philosophy to criminal justice and judicial processes.
- Apply the goals of corrections and principles of behavior modification to offenders and offender populations.
- Employ social science methodology to address criminal justice problems.
- Demonstrate proficiency in written communication at a level appropriate to criminal justice professionals.
- Incorporate contemporary scholarly perspectives on ethics and social justice into decision-making.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary

academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

Criminal Justice, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes

Internship credits do not count toward criminal justice electives, but can count toward "credits taken in consultation with adviser."

Select 6 credits from the following:

- CRIMJ 200 - Introduction to Security and Loss Control
- CRIMJ 201 - American Legal System (3)
- CRIMJ 221 - Issues in the American Criminal Justice System (3)
- CRIMJ 234 - Fundamental Techniques of Scientific Criminal Investigation (3)
- CRIMJ 241 - Computer Applications in Public Affairs (3)

and Select 6 credits from the following:

- CRIMJ 300H - Honors Seminar; Issues and Trends in Criminal Justice (3-6)

- CRIMJ 301H - (3-6)
- CRIMJ 304 - Security Administration (3)
- CRIMJ 310 - Forensic Science I (3)

- CRIMJ 495 - Internship in Criminal Justice (3-12)
- CRIMJ 496 - Independent Studies (1-18)
- CRIMJ 497 - Special Topics (1-9)
- CRIMJ 499 - (IL) Foreign Studies

or Select 12 credits from the following:

- CRIMJ 300H - Honors Seminar; Issues and Trends in Criminal Justice (3-6)
- CRIMJ 301H - (3-6)
- CRIMJ 304 - Security Administration (3)
- CRIMJ 310 - Forensic Science I (3)

Career Paths

According to the U.S. Bureau of Labor Statistics, employment opportunities in criminal justice professions are projected to grow through the year 2026. In addition, the 2017 Occupational Outlook Handbook reports that employment opportunities for substance abuse, behavioral disorder, and mental health counselors are expected to grow 20 percent through the year 2026, much faster than the national average for all occupations. Police officers have the highest rate of projected openings each year in the criminal justice field.

Careers

Penn State Harrisburg criminal justice graduates have pursued opportunities with the Federal Bureau of Investigation, the U.S. Secret Service, the U.S. Marshals' Office, sheriffs' departments, municipal and state police departments, security and loss prevention programs, court administration, legal aid/paralegal, delinquency prevention programs, juvenile court personnel, youth shelters and other juvenile residential institutions, victim advocate, and probation and parole offices.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE CRIMINAL JUSTICE PROGRAM (<https://harrisburg.psu.edu/public-affairs/criminal-justice-bs/>)

Opportunities for Graduate Studies

While job opportunities are increasing, so is the level of qualified applicants, which makes the field much more competitive. Those interested in working at the federal level and those wishing to pursue supervisory and other upper-level positions in criminal justice are especially encouraged to obtain a graduate degree. Furthermore, a graduate degree in criminal justice, such as Penn State's Master of Arts in Criminal Justice, is a great step for those interested in doctoral studies or a career in the legal system.

Cybersecurity Analytics and Operations, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Bachelor of Science in Cybersecurity Analytics and Operations in the College of Information Sciences and Technology (IST) is an interdisciplinary program that prepares students for careers as cybersecurity professionals. It educates students on the essential concepts of cyber-defense and the analytical fundamentals of

cybersecurity, with a focus on the analytical and risk management underpinnings and associated cyber-defense techniques and strategies for ensuring the safety of online information stored in large and heterogeneous networks that are embedded within and across the complex socio-technical infrastructures that are pervasive in today's business, government and military organizations. Students will acquire the knowledge and skills needed to critically assess and respond to modern information security threats, using approaches that are grounded in a holistic understanding of adversarial strategies and effective responses. More specifically, it will offer an in-depth and domain-independent approach to the development of skills in cyberdefense technologies, tools and processes; cybersecurity analytics and visualization; and cybersecurity risk analysis and management. The major draws from concepts and skills associated with a number of disciplines, including information science, management science, statistics and data science, human behavior, and law/policy. Graduates will be prepared to join the rapidly growing cybersecurity workforce deployed across organizations of diverse sizes and missions.

What is Cybersecurity Analytics and Operations?

Cybersecurity is a field that deals with the protection of computer systems, networks, programs, and data from attacks and unauthorized access. This includes the development of cyber defense tools to protect critical infrastructure as well as the analysis and mitigation of cyber threats.

Cybersecurity is a very broad field. This program focuses students beyond the information technology field and instead focuses on the analysis of cybersecurity data, identification of cyber incidents, understanding the actions of malware, communication of concerns to business stakeholders and the general public. High performing cyber analysts have a strong mathematical and computational background. They often employ computer programming and scripting to solve problems and integrate existing tools. They analyze the data they are presented with from intrusion detection sensors, firewalls, and anti-malware tools.

Cybersecurity professionals apply their skills for organizations to prevent cyber criminals, hackers, and persistent nation-state actors. They protect organizations, companies, healthcare institutions, and government agencies from the loss of confidential data. They keep abreast of new developments technically, as well as those in the work domain of the organization and events that occur in the world at large.

MORE INFORMATION ABOUT CYBERSECURITY ANALYTICS AND OPERATIONS (<https://ist.psu.edu/prospective/undergraduate/academics/cybersecurity/>)

You Might Like This Program If...

- You enjoy working with and on computers as well as their operating systems and applications.
- You have an interest in business and organizations and securing
- You want to protect digital information, data stores, and computer networks from threats.
- You want to learn the cyber defense strategies used to anticipate, recognize, and defend against computer attacks.
- You're passionate about how we can keep sensitive information out of the hands of hackers, cybercriminals, and terrorist organizations.

- You enjoy working on a team to solve technical problems for organizations.
- You are interested in computer programming and mathematics.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY CYBERSECURITY ANALYTICS AND OPERATIONS (<https://ist.psu.edu/prospective/undergraduate/academics/cybersecurity/>)

Entrance to Major

To be eligible for the Cybersecurity Analytics and Operations major, students must:

1. Have completed the following entrance-to-major requirements with a grade of C or better in each: CYBER 100 or CYBER 100S, IST 210, IST 220, IST 242 or CMPSC 122 or CMPSC 132, and STAT 200 or SCM 200.
2. Have achieved a minimum cumulative grade point average of 2.00 prior to and through the end of the semester during which the entrance to major is requested.

Degree Requirements

For the B.S. degree in Cybersecurity Analytics and Operations, a minimum of 123 credits is required:

Requirement	Credits
General Education	45
Electives	3
Requirements for the Major	87

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses, 3 credits of GS courses, 3 credits of GWS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
CYBER 262	Cyber-Defense Studio	3
CYBER 342W	Cyber Incident Handling and Response	3
CYBER 362	Cybersecurity Analytics Studio	3
CYBER 366	Malware Analytics	3
CYBER 440	Cybersecurity Capstone	3
IST 210	Organization of Data	3
IST 220	Networking and Telecommunications	3
IST 230	Language, Logic, and Discrete Mathematics	3
IST 432	Legal and Regulatory Environment of Information Science and Technology	3
IST 451	Network Security	3
IST 454	Computer and Cyber Forensics	3
IST 456	Information Security Management	3
IST 495	Internship	1
SRA 111	Introduction to Security and Risk Analysis	3

SRA 211	Threat of Terrorism and Crime	3
SRA 221	Overview of Information Security	3
SRA 231	Decision Theory and Analysis	3
SRA 311	Risk Analysis in a Security Context	3
SRA 365	Statistics for Security and Risk Analysis	3

Additional Courses

Additional Courses: Require a grade of C or better

CYBER 100	Computer Systems Literacy	3
	or CYBER 100S Computer Systems Literacy	
ENGL 202C	Effective Writing: Technical Writing	3
	or ENGL 202D Effective Writing: Business Writing	
MATH 110	Techniques of Calculus I	4
	or MATH 140 Calculus With Analytic Geometry I	
STAT 200	Elementary Statistics	4
	or SCM 200 Introduction to Statistics for Business	
Select one of the following:		3
CMPSC 121	Introduction to Programming Techniques	
CMPSC 131	Programming and Computation I: Fundamentals	
IST 140	Introduction to Application Development	
Select one of the following:		3
CMPSC 122	Intermediate Programming	
CMPSC 132	Programming and Computation II: Data Structures	
IST 242	Intermediate & Object-Oriented Application Development	
Select one of the following:		3
IST 256	Programming for the Web	
IST 261	Application Development Design Studio I	
IST 361	Application Development Design Studio II	

Supporting Courses and Related Areas

Select 9 credits from one of the Application Focus course lists. At least 3 credits must be at the 400-level. Students may also complete a custom Application Focus sequence with approval from an academic adviser and a CYBER undergraduate program coordinator.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Cybersecurity Analytics and Operations, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
IST 140*	3 MATH 110 (GQ)* [‡]	4

Total Credits 123

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

Students in the Cybersecurity Analytics and Operations (CAOCA_BS) major are expected to complete 24 credits of upper level course work in the major and the senior capstone course (CYBER 440) at Penn State Harrisburg. This is in compliance with Faculty Senate Policy 83-80.5.

CYBER 440 should be taken during the final semester of academic progress.

IST 495 Internship: Supervised work experience where the student is employed in a position related to the student's major. An internship is typically completed the summer after the junior year, but it may be completed at any time during the student's academic career. Students are required to complete one internship but may complete three. A grade of C or better must be earned in this course. For more information, contact your academic adviser.

Students who plan to apply for the National Security Agency Certifications must complete all required courses. No substitutions or transfer credits are permitted.

Students pick one of the five tracks below or create a custom 3-course application focus. Students must pick three (3) credits at the 400 level. All nine (9) credits must be in the same application focus area. It is recommended that students use the application focus area list to select a course that meets a General Education requirement (GS/GHW) and serves as a prerequisite for more advanced coursework within the

application focus. This course does not count as part of the 9 credits of application focus sequence.

Application Development

Code	Title	Credits
IST 311	Object-Oriented Design and Software Applications	3
IST 331	Foundations of Human-Centered Design	3
IST 361	Application Development Design Studio II	3
IST 402	Emerging Issues and Technologies	3
IST 411	Distributed-Object Computing	3
IST 412	The Engineering of Complex Software Systems	3

Business Administration (Harrisburg Students Only)

The Business Administration focus is for students who desire the opportunity to develop and apply skills relevant to businesses and other organizations. Included in this focus area are courses in the core business disciplines of accounting, finance, management, and marketing. Select at least nine (9) credits from below, with at least three (3) credits at the 400 level.

Code	Title	Credits
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
ECON 102 or ECON 104	Introductory Microeconomic Analysis and Policy Introductory Macroeconomic Analysis and Policy	3
MIS 250	Introduction to Problem Solving with Spreadsheet Analysis and Information Systems Management	3
BA 243	Social, Legal, and Ethical Environment of Business	4
BA 364Y	International Business and Society	3

The following courses may require prerequisites:

Code	Title	Credits
MIS 301	Business Analytics	3
MIS 390	Foundations of Information Systems	3
MGMT 301	Basic Management Concepts	3
FIN 301	Corporation Finance	3
MKTG 301	Principles of Marketing	3
SCM 301	Supply Chain Management	3
MGMT 418	Project Planning and Resource Management	3
MGMT 420	Negotiation and Conflict Management	3
MGMT 433	Leadership and Team Building	3
MIS 420	Business Process Management	3

Economics

The Economics focus is for students who have an interest in pursuing cybersecurity careers in the financial services sector or government. Designed to help students understand today's financial and economic environments, this focus highlights the importance of translating the financial and economic impact of cybersecurity activities to effectively manage any program.

Code	Title	Credits
BLAW 243	Legal Environment of Business	3
BA 301	Finance	3
ECON 302	Intermediate Microeconomic Analysis	3
ECON 402	Decision Making and Strategy in Economics	3
ECON 445	Health Economics	3

ECON 470	International Trade and Finance	3
FIN 301	Corporation Finance	3
HPA 445	Health Economics	3
PLSC 412	International Political Economy	3
PLSC 481	Global Political Economy	3

Enterprise Technology

Code	Title	Credits
IST 301	Information and Organizations	3
IST 302	IT Project Management	3
IST 420	Fundamentals of Systems and Enterprise Integration	3
IST 421	Advanced Enterprise Integration: Technologies and Applications	3
IST 423	Enterprise Information Management and Storage Architecture	3
ETI 300W	Development and Documentation of Enterprise Web	3
ETI 435	Enterprise Analytics	3
ETI 461	Database Management and Administration	3
ETI 463	Distributed Database Management Systems	3

Geopolitics

Understanding the geopolitical landscape is key to understanding and modeling cyberthreats from nation-states and other threat actors. The Geopolitics focus is for students who have an interest in pursuing cybersecurity careers in government or related consulting sectors.

Code	Title	Credits
GEOG 160	Mapping Our Changing World	3
GEOG 260	Geographic Information in a Changing World: Introduction to GIScience	3
IB 440	Globalization and Its Implications	3
PLSC 14	International Relations	3
PLSC 461	Politics of the European Union	3
PLSC 467	International Relations of the Middle East	3
PLSC 481	Global Political Economy	3
GEOG 333	Human Dimensions of Natural Hazards	3
GEOG 363	Geographic Information Systems	3
AFR/PLSC 440	Globalization and Its Implications	3
SRA 450	Cyber-Crime and Cyber-Warfare	3
SRA 480	Crisis Informatics	3
ARMY, AIR, NAVSC (any)		3

Health Care

Hospitals, pharmaceutical companies, and government agencies are just a few of the sectors that have strict requirements around protecting health care data. The Health Care focus is for students who have an interest in pursuing cybersecurity careers in a health care environment. Understanding how information is managed in these environments will help students thrive in a health care-related career.

Code	Title	Credits
HPA 101	Introduction to Health Services Organization	3
BBH 101	Introduction to Biobehavioral Health	3
ECON 445	Health Economics	3
HPA 332	Health Systems Management	3

HPA 445	Health Economics	3
HPA 450	Healthcare Policies and Politics	3
NURS 357	Introduction to Nursing Informatics (offered at Commonwealth and World Campuses; not at University Park)	3
HPA/BBH 440	Principles of Epidemiology	3
HPA 470	Health Care Information Management	3
NURS 458	Ethical Challenges in Healthcare Informatics (offered at Commonwealth and World Campuses; not at University Park)	3

Law and Policy

Cybersecurity careers in law enforcement require knowledge of laws and policies focused on the handling of evidence related to digital forensics and monitoring. Individuals in the private sector and government agencies must also understand and adhere to these topics as they involve cybersecurity. The Law and Policy focus is for students who want to understand law and policy as they relate to digital data.

Code	Title	Credits
COMM 180	Survey of Electronic Media and Telecommunications	3
COMM 404	Telecommunications Law	3
CRIM/CRIMJ 113	Introduction to Law	3
PLSC 14	International Relations	3
PLSC 140	Contemporary Controversies in International Relations	3
PLSC 438	National Security Policies	3
PLSC 442	American Foreign Policy	3
PLSC/STS 460	Science, Technology, and Public Policy	3
PLSC 467	International Relations of the Middle East	3
CRIM/CRIMJ/SOC 467	Law and Society	3
HLS/PADM 401	Introduction to Homeland Security (offered by Harrisburg and World Campus only)	3
PLSC/CRIMJ 439	The Politics of Terrorism	3
PLSC 487	International Law and Organizations (not offered at University Park)	3

Custom Application Focus

There is an option for a student to create a custom 4-course application focus sequence. It must be a coherent sequence of courses that provides context for the student in terms of cybersecurity content. It should contain three credits of GS coursework and must contain six credits of 400-level coursework. It must be selected in consultation with a teaching CYBER faculty member and an academic adviser.

Career Paths

Cybersecurity blends the technical expertise needed to analyze security issues and create cyberdefense strategies with the interpersonal skills needed to communicate threats to a variety of audiences. The program prepares students to meet the growing need for professionals who can defend against threats to digital information and assets. IST's Office of Career Solutions helps students navigate their internship and career development in the field through coaching, workshops, interview preparation, resume reviews, career fairs, job postings, and networking opportunities.

Careers

Because our courses blend technical knowledge with skills in communication and business, a Cybersecurity Analytics and Operations degree allows students to pursue opportunities as cybersecurity analysts, cyberthreat advisers, penetration testers, and a number of other unique careers in fields such as defense, government, and business.

Electrical Engineering Technology, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Bachelor of Science graduate with a major in Electrical Engineering Technology (EET) is an engineering technologist who can bridge the gap between scientific advancement and practical electrical devices and systems. Research in all fields of electrical engineering has produced an abundance of new knowledge in recent years. Many of these advanced scientific achievements have been unused due to the shortage of engineering technologists specifically educated to convert scientific information into practical devices and systems.

The EET major helps equip students with the various skills necessary to adapt new scientific knowledge to new products. Technical selections are offered in the senior year to provide some degree of specialization, but all graduates receive a well-rounded basic education in electrical and electronic design principles. The strengths of the program include: an applied hands-on program; extensive laboratory experience; promising job placement; and accreditation by the Engineering Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone 410-347-7700, Web at <https://www.abet.org>.

EET graduates who wish to continue their professional development can take the Fundamentals of Engineering examination in Pennsylvania, a prerequisite for taking the Professional Engineering examination.

What is Electrical Engineering Technology?

Electrical engineering technology (EET) is an engineering technology field that implements and applies the principles of electrical engineering. Like electrical engineering, EET deals with the design, application, installation, manufacturing, operation or maintenance of electrical/electronic systems. However, EET is a specialized discipline that has more focus on application, theory, and applied design, and implementation, while electrical engineering may have more of a generalized emphasis on theory and conceptual design.

You Might Like This Program If...

- You enjoy problem-solving and math.
- You prefer practical rather than theoretical solutions, and application and implementation over conceptual modeling.
- You enjoy working on multidisciplinary teams on complex problems.
- You want to acquire knowledge to get a good job in industry.

- You want to pursue a career as a technologist in sectors such as manufacturing, product design, testing, or technical services and sales.

Entrance to Major

Entry to the Electrical Engineering Technology major requires a 2.00 or higher cumulative grade-point average.

Re-enrollment

Associate degree students should file a re-enrollment form during the final semester of their associate degree. Students re-enrolling from an associate's degree into the bachelor's degree should run a degree audit from LionPATH, using the EET major code, to determine their curriculum requirements. Similar considerations apply to students changing majors from programs in science or engineering.

Admission Requirements for Transfer Students

Applicants must have earned a high school diploma or equivalent and have attempted at least 18 semester credits at a regionally accredited college or university with at least a 2.0 cumulative grade-point average (4.0 scale). The evaluation of prior college work is done on an individual basis by the Office of Enrollment Services.

Degree Requirements

For the Bachelor of Science degree in Electrical Engineering Technology, a minimum of 128 credits is required:

Requirement	Credits
General Education	45
Electives	5-18
Requirements for the Major	86-96

18-21 of the 45 credits for General Education are included in the Requirements for the Major. For the General Electrical Engineering Technology Option, this includes: 3 credits of GWS courses; 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS. For the Power and Automation Option, this includes: 3 credits of GWS courses; 9 credits of GN courses; 6 credits of GQ courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
CHEM 110	Chemical Principles I	3
CHEM 111	Experimental Chemistry I	1
EET 419	Capstone Proposal Preparation	1
<i>Prescribed Courses: Require a grade of C or better</i>		
EET 312	Electric Transients	4
EET 331	Electronic Design	4
EET 420W	Electrical Engineering Technology Capstone Design	3
ENGL 202C	Effective Writing: Technical Writing	3
MATH 140	Calculus With Analytic Geometry I	4

MATH 141 Calculus with Analytic Geometry II 4

Additional Courses

CMPEH 472 Microprocessors 3-4
or CMPET 211 Embedded Processors and DSP

EE 310 Electronic Circuit Design I 4
or EET 212W Op Amp and Integrated Circuit Electronics

Select 2-3 credits from the following: 2-3

EDSGN 100 Cornerstone Engineering Design

EDSGN 100S Introduction to Engineering Design

EGT 119 Introduction to CAD for Electrical and Computer Engineering

Select 3 credits from the following: 3

CMPSC 101 Introduction to Programming

CMPSC 121 Introduction to Programming Techniques

CMPSC 131 Programming and Computation I: Fundamentals

CMPSC 201 Programming for Engineers with C++

Select 3-4 credits from the following: 3-4

PHYS 150 Technical Physics I

PHYS 211 General Physics: Mechanics

PHYS 250 Introductory Physics I

Select 3-4 credits from the following: 3-4

PHYS 151 Technical Physics II

PHYS 212 General Physics: Electricity and Magnetism

PHYS 251 Introductory Physics II

Select 3-4 credits from the following: 3-4

IE 424 Process Quality Engineering

MATH 220 Matrices

MATH 230 Calculus and Vector Analysis

MATH 250 Ordinary Differential Equations

MATH/STAT 414 Introduction to Probability Theory

MATH/STAT 418 Introduction to Probability and Stochastic Processes for Engineering

STAT 200 Elementary Statistics

STAT 401 Experimental Methods

Select 4 credits from the following: 4

CMPEN 270 Digital Design: Theory and Practice

CMPEN 271 Introduction to Digital Systems & CMPEN 275 and Digital Design Laboratory

CMPET 117 Digital Electronics & CMPET 120 and Digital Electronics Laboratory

Select 3-5 credits from the following: 3-5

EE 485 Energy Systems and Conversion

EET 213W Fundamentals of Electrical Machines Using Writing Skills

EET 214 Electric Machines and Energy Conversion & EET 215 and Electric Machines and Energy Conversion Laboratory

Additional Courses: Require a grade of C or better

Select 5-8 credits from the following: 5-8

EE 210 Circuits and Devices & EE 317 and Circuits II and Data Acquisition

EET 310 Direct and Alternating Current Circuits

EET 311 Alternating Current Circuits & EET 114 and Electrical Circuits II¹

Requirements for the Option

Select an option 26

¹ EET 114 does not require a grade of C or better.

Requirements for the Option

General Electrical Engineering Technology Option (26 credits)

Available at the following campuses: Harrisburg, Wilkes-Barre

Code	Title	Credits
Prescribed Courses		
ENGR 320Y	Design for Global Society	3
Additional Courses		
<i>System Elective</i>

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3

credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

General Option: Electrical Engineering Technology, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
ENGL 15, 15S, 30T, or ESL 15 ^{†1}	3 CMPSC 121, 131, or 201 ³	3
MATH 140 ^{††}	4 MATH 141 ^{††}	4

Electronics Elective	4 ENGR 320Y [†]	3
System Elective	4 System Elective	4
Technical Elective	4 Technical Elective	4
General Education Course (Exploration: GH, GA, or GS) ⁴	3 Electives ⁷	0-3
	16	14-17

Total Credits 125-130

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

¹ First-year students at Penn State Harrisburg must take 1 to 3 credits of a First-Year Seminar course, as indicated by the "S" designation at the end of the course number. The program recommends students complete this during their first semester with one of the following courses: ENGL 15S, EDSGN 100S, or CAS 100S.

² PHYS 250 and PHYS 251 is the recommended physics course sequence for the program.

³ CMPSC 131 recommended.

⁴ One of the General Education courses must satisfy the US or IL requirement (ENGR 320Y satisfies the other). The knowledge domains that must be satisfied are indicated in parentheses, but these courses may be taken in any order.

⁵ EET 310 is only offered during Fall semesters.

⁶ EET 312, EET 331, and EE 485 are only offered during Spring semesters.

⁷ Up to 3 additional credits of electives may be needed to meet the 128-credit graduation requirement if students select courses other than the ones recommended in this suggested academic plan (for example, PHYS 150/PHYS 151 instead of PHYS 250/PHYS 251).

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

A.S. to B.S. General Option: Electrical Engineering Technology, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Third Year

Technical Elective	4 General Education Course (Inter-Domain) ⁴	3
General Education Course (GHW)	1.5	
	17.5	17

Total Credits 69

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ EET 311 is only offered during Fall semesters

² EET 312 and EET 331 are only offered during Spring semesters.

³ CMPSC 131 recommended.

⁴ One of the General Education courses must satisfy the US or IL requirement (ENGR 320Y satisfies the other). The knowledge domains that must be satisfied are indicated in parentheses, but these courses may be taken in any order.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- This suggested academic plan assumes the associate degree contains at least 59 credits of course work. If it contains fewer credits, additional elective credits will be required to meet the total of 128 credits required to complete the B.S. degree.

Career Paths

According to the U.S. Bureau of Labor Statistics, electrical engineering technologists work closely with electrical and electronics engineers and computer hardware engineers in the computer systems design services industry. Opportunities can be found in a variety of firms engaged in electronic manufacturing, industrial control, applications engineering, and in power utilities. EET graduates are encouraged to continue their professional development by taking the Fundamentals of Engineering Examination at the end of their senior year; the FE exam is a prerequisite for taking the Professional Engineering Examination.

Careers

- Design, maintain, troubleshoot electronic circuits and systems. These range from power electronics, fiber optics, control systems, networking technologies, electronic systems, etc.
- Strong focus on power generation and distribution.
- Strong introduction to embedded systems.
- Automation of facilities: From distribution centers to manufacturing plants.
- Experience in the use of hardware used in instrumentation laboratories.
- This program trains students in the same software as currently used by industry.

Opportunities for Graduate Studies

Graduates of the EET program are eligible to pursue graduate studies in a variety of programs such as Electrical Engineering, Systems Engineering, Engineering Management, etc. In some cases prior to being accepted to these programs, graduates of the EET program may be required to take additional math courses.

Accreditation

The Bachelor of Science in Electrical Engineering Technology at Penn State Harrisburg is accredited by the Engineering Technology Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Electrical/Electronic(s) Engineering Technology and Similarly Named Programs.

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the

Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

Electrical Engineering, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Bachelor of Science degree in Electrical Engineering provides a solid background in electrical engineering sciences. It also provides an opportunity for students to pursue interests in electrical and electronic circuits, including digital circuits and VLSI and its fabrication, microprocessors and their applications, electromagnetics, communications, control systems, and digital image processing and computer vision. Through participation in a senior capstone design, the curriculum emphasizes written as well as verbal communication and teamwork approach among the students to attain a common goal.

This program helps its graduates develop capabilities to analyze and design a variety of electrical and electronic systems found in many industrial and government settings as well as provide a foundation for further graduate studies. A strong background in the fundamentals is built through a broad base core in basic sciences (physics and chemistry) and mathematics as well as engineering sciences.

What is Electrical Engineering?

Electrical engineering is a broad discipline of study that includes circuit design, analog and digital electronics, electromagnetics, electro-optics, control systems, power systems, communications, and signal/image processing. Electrical engineers study and apply physics and mathematics to design electrical and electronic systems and their components for a wide range of applications such as mobile phones, wireless communications, consumer electronics, computers, computer networks, power generation, machine learning, robotics, nanoelectronics, nanophotonics, bioelectronics, autonomous transportation, wearable electronics, and metamaterials.

You Might Like This Program If...

- You enjoy problem-solving and math.
- You prefer to use analysis and the scientific method to understand things.
- You enjoy working on multidisciplinary teams on complex problems.
- You want to pursue a career in electrical engineering or its sub-branches.

Entrance to Major

Entry to the Electrical Engineering major requires that the student earned a minimum cumulative grade-point average (GPA) of 2.00 and has completed with a grade of C or better: MATH 140, MATH 141, PHYS 211, and CHEM 110.

Degree Requirements

For the Bachelor of Science degree in Electrical Engineering a minimum of 134 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	113-115

24 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 6 credits of GS courses; 9 credits of GN courses; 6 credits of GQ courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Electrical Engineering and M.S. in Electrical Engineering

Requirements for the Integrated B.S. in Electrical Engineering and M.S. in Electrical Engineering can be found in the Graduate Bulletin (<https://>

bulletins.psu.edu/graduate/programs/majors/electrical-engineering-capital/#integratedundergradgradprogramstext).

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Electrical Engineering, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ First-year students at Penn State Harrisburg must take 1 to 3 credits of a First-Year Seminar course, as indicated by the "S" designation at the end of the course number. The program recommends students complete this during their first semester with one of the following courses: ENGL 15S, EDSGN 100S, or CAS 100S.

² One of the General Education courses must satisfy the US or IL requirement (ENGR 320Y satisfies the other). The knowledge domains that must be satisfied are indicated in parentheses, but these courses may be taken in any order.

³ CMPSC 131 recommended.

⁴ Most students complete their SSET 295 credit during a summer semester while working at a paid internship with an engineering company.

⁵ EE 341 and EE 461 are only offered during Fall semesters.

⁶ STAT 200 requires a grade of C or better.

⁷ EE 330 and EE 485 are only offered during Spring semesters.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Career Paths

According to the U.S. Bureau of Labor Statistics, employment of electrical engineers is projected to grow 7 percent from 2016 to 2026, about as fast as the average for all occupations. The rapid pace of technological innovation will likely drive demand for electrical and electronics engineers in research and development, an area in which engineering expertise will be needed to design distribution systems related to new technologies. These engineers will play key roles in new developments with solar arrays, semiconductors, and communications technologies.

Careers

Graduates of the program have gained positions in a number of specialty areas including digital circuits and VSLI and its fabrication, microprocessors and their applications, electromagnetics, communications, control systems, digital image processing, and computer engineering. Career opportunities for these specialties are available in a multitude of industries including computers, automobile, power, communications, manufacturing, pure and applied research, and biomedical and environmental fields.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE ELECTRICAL ENGINEERING PROGRAM (<https://harrisburg.psu.edu/science-engineering-technology/electrical-engineering-bs/career-opportunities/>)

Opportunities for Graduate Studies

The Bachelor of Science degree in Electrical Engineering is designed to provide a solid background for students who plan to pursue graduate studies, including Penn State's Master of Engineering (<https://harrisburg.psu.edu/science-engineering-technology/electrical-engineering-meng/>) and Master of Science (<https://harrisburg.psu.edu/science-engineering-technology/electrical-engineering-ms/>) in Electrical Engineering programs.

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (<https://harrisburg.psu.edu/science-engineering-technology/>)

Accreditation

The Bachelor of Science in Electrical Engineering at Penn State Harrisburg is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Electrical, Computer, Communications, Telecommunication(s), and Similarly Named Engineering Programs.

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

Elementary Education, B.El.Ed.

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Elementary Education program at Penn State Harrisburg embodies the four tenets of our conceptual framework: constructivism, authenticity, reflectivity, and standards-based curriculum. Constructivism entails a student-centered approach in which teachers help learners build their own understandings. Authenticity refers to developing professional and pedagogical skills in authentic classroom settings; for example, in the junior and senior years prior to student teaching, the program offers extensive field experiences in a variety of settings enrolling students with diverse backgrounds and needs. Reflectivity relates to consciously analyzing course content and one's own learning for the purpose of deeper understanding and self-improvement. Standards-based curriculum means that our candidates are steeped in Pennsylvania Academic Standards as well as the standards of relevant professional organizations. Taken together, these tenets enable our candidates to become *lifelong reflective professionals committed to the learning of all students*.

Students will choose one of four options for the degree:

1. PK-4 Early Childhood Education,
2. Grades 4-8 English/Language Arts and Reading,
3. Grades 4-8 Mathematics, and
4. Grades 4-8 Social Studies.

Upon successful completion of this major, students will have met all of the requirements for either the Grades PK-4, Grades 4-8 English/Language Arts and Reading, Grades 4-8 Mathematics, or Grades 4-8 Social Studies Instructional I certification issued by the Pennsylvania Department of Education. Students must apply for admission to the major.

Prior to the full-time student teaching experience in the senior year, candidates are expected to complete all other courses required for certification, including two field placements. On-campus courses are

scheduled three or four days a week, while field experiences in nearby schools are scheduled part-time, two to three days per week.

What is Elementary Education?

Elementary Education prepares bright, creative and passionate individuals to teach students in the primary and middle-level grades, which includes pre-kindergarten through grade four or grades four through grade eight. This major includes preparation to teach all elementary subjects, as well as classroom management, working with families and evidence-based best practices of teaching and learning. Individuals in the major spend time in primary or middle school classrooms observing, leading activities, teaching lessons, and being mentored by an experienced teacher.

You Might Like This Program If...

- You enjoy working with children.
- You like critical, creative, and reflective thinking.
- You want to have an important and direct impact on the lives of others.
- You want a career in teaching or school administration.

Entrance to Major Admission Requirements

Applicants should be at the fourth-semester level and complete the Entry to Major Requirements listed below with at least a 3.0 cumulative GPA (4.0 scale). The evaluation of prior college work is done on an individual basis by the Office of Enrollment Services at Penn State Harrisburg. Students admitted to the program must have the appropriate clearances required at the time of admission. These may include FBI fingerprint check, Act 151 child abuse history clearance, and Act 34 criminal record check.

Entry to Major Requirements

Entry to the Elementary Education major requires the completion of 45 or more credits in required courses and the state's minimum cumulative GPA criteria of 3.0. Candidates must complete, with a grade of "C" or better, six (6) credits of college-level mathematics (MATH prefix), three (3) credits of college-level English literature and three (3) credits of college-level English composition. Candidates must meet the Basic Skills requirements established by the Pennsylvania Department of Education that are applicable at the time of application for entrance to major. Candidates who desire to pursue this major should plan their freshman and sophomore years carefully to ensure their successful progress during very structured junior and senior years.

Retention Requirements

Monitoring candidate progress in the elementary education program will occur each semester while the candidate is participating in the elementary education program. Candidates will be evaluated for retention in the program based on:

1. maintaining a cumulative GPA of 3.0 or higher;
2. performance on any test requirements set out by the Pennsylvania Department of Education in force at the time of application for entrance to major;
3. satisfactory completion of required courses, including the field experience component;
4. adequate writing and speaking skills as demonstrated in various classroom assignments; and

5. a positive rating on the Penn State Harrisburg Professional Dispositions for Teacher Education Programs monitoring form.

Candidates must pass any entrance test requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to the major.

Degree Requirements

For the Bachelor of Elementary Education degree in Elementary Education, PK-4 Early Childhood Option a minimum of 139 credits are required; Grade 4-8 English/Language Arts and Reading Option a minimum of 137 credits are required; Grade 4-8 Mathematics Option a minimum of 139 credits are required; and Grade 4-8 Social Studies Option a minimum of 137 credits are required:

Requirement	Credits
General Education	45
Electives	0-6
Requirements for the Major	131-141

45 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GN courses; 6 credits of GQ courses; 6 credits of GH courses; 6 credits of GS courses; 9 credits of GWS; 3 credits of GHW; 6 credits of GA. Six of these 45 credits may also satisfy the Integrative Studies requirement.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

ESL course for completion of the ESL certificate	

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ GN courses must include one Biological Science, one Physical Science, and one Earth Science course.

² If EDTHP 115S is not available, a student may substitute EDTHP 115 and any course that meets the first-year seminar requirement.

³ Select Literature. See list below for Literature courses (or as approved by an academic adviser).

⁴ **Optional Add-on:**

ESL Certificate Course: EDUC 467 or Special Education Certificate Course: EDUC 477 subs for SPLED 409A.

⁵ **Optional Add-on:**

ESL Certificate Course: EDUC 468 or Special Education Certificate Course: EDUC 452 subs for SPLED 409B.

⁶ **Optional Add-on:**

Special Education Course: (Either summer or Spring of Senior Year) A World Campus course offered in summer may substitute for SPLED 462. Contact adviser before scheduling on World Campus.

⁷ **Optional Add-on:**

ESL Certificate Course: EDUC 469 or Special Education Certificate Courses: PSYCH 443 and SPLED 418.

⁸ **Optional Add-on:**

ESL Certificate Courses: EDUC 475 and EDUC 495 (1 credit) or Special Education Certificate Course: SPLED 462. (Either Summer of Junior Year or Spring of Senior Year). (Note: A World Campus course offered in summer may substitute. Contact adviser before scheduling on World Campus.)

EDUC 495 - Special Ed Internship (3 credits). May be combined with student teaching if all coursework has been completed and is recommended by the adviser.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes (courses not on this list need to be approved by an academic adviser):

Select 3 credits of literature from the following:

- AA 193N (GA/GH) – The Craft of Comics (3)
- AFAM 141N (GA/GH/US) – African American Read-In Engaged Learning Experience (3)

- THEA 101N (GA/GS) – Performance and Society (3)
- WMNST 106N/Q (GA/GH/US/IL) – Representing Women and Gender in Literature, Art and Popular Cultures (3)

Career Paths

Elementary and middle-level teachers introduce children to learning through the basics of numbers, language, science, and social studies. They facilitate classroom activities to meet the needs and abilities of their students. They also work with children independently and in small groups. They provide instruction, conduct assessments, listen to presentations, and maintain a positive classroom climate. They individually meet with families and faculty and serve on faculty and community committees. Elementary and middle-level teachers also become supervisors, administrators, and mentors to new teachers.

Careers

According to the U.S. Bureau of Labor Statistics, overall employment of kindergarten and elementary school teachers is projected to grow 7 percent from 2016 to 2026, about as fast as the average for all occupations. Rising student enrollment should increase demand for kindergarten and elementary teachers, but employment growth will vary by region. The number of students enrolling in public kindergarten and elementary schools is expected to increase over the coming decade, and the number of classes needed to accommodate these students should rise. As a result, more teachers will be needed to teach public kindergarten and elementary school students.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE ELEMENTARY EDUCATION PROGRAM (<https://harrisburg.psu.edu/behavioral-sciences-education/teacher-education/elementary-education-beled/career-opportunities/>)

Opportunities for Graduate Studies

Additional graduate study is available, including graduate certificates in ESL, Special Education, the Master of Education in Teaching and Curriculum, and the Master of Education in Literacy Education.

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (<https://harrisburg.psu.edu/behavioral-sciences-education/teacher-education/>)

Professional Resources

- Pennsylvania Department of Education (<https://www.education.pa.gov/Pages/default.aspx>)

Accreditation

This program is accredited by the National Council for the Accreditation of Teacher Education.

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the

Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

Add-on certifications in Special Education and ESL are possible along with the initial PK-4 or 4-8 PA certifications.

English, B.Hum.

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

This English major, with its three options, offers students the unique opportunity to study literature in an interdisciplinary context where the relationships among literature and art, history, music, philosophy, media, and American Studies can be investigated. The major offers courses in American, British, and world literatures, emphasizing their cultural and historical contexts as well as teaching students to interpret them from a variety of critical perspectives. Small classes in both creative and expository writing encourage students to develop their writing skills by working closely with faculty.

Creative Writing Option

Emphasizing original works of fiction, poetry, creative nonfiction, and hybrid genres, the Creative Writing Option provides aspiring authors with a literary foundation in the craft of writing and revising original work, as well as practical skills in editing and publishing in traditional and new media formats.

General English Option

With its emphases on interpretive skills, creativity, and writing, the General English Option provides a foundation for careers in such fields as publishing, public relations, communication, government and law, as well as a strong basis for graduate education.

Secondary Education Option

This option prepares students to meet the requirements as established by the Pennsylvania Department of Education to be certified for the English Instructional I Certificate. The major prepares students to teach an array of English and humanities courses at the secondary (grades 7-12) level.

Students are challenged to prepare for teaching assignments at the middle and high school level, and in diverse settings characterized as rural, urban, and suburban. The art and science of teaching in secondary schools is undergoing significant transformation as new technologies,

time allocation for instruction, and new instructional strategies are impacting the delivery of English instruction.

Students admitted to the program must have the appropriate clearances. These include FBI fingerprint check, Act 151 child abuse history clearance, and Act 34 criminal record check.

Students thinking seriously about entering the education program should plan their freshman and sophomore years carefully, especially taking in consideration the optional year-long clinical residency during semesters 7 and 8. Semesters 5 through 8 are very structured.

What is English?

English refers to a broad field of study related to literature, professional writing, creative writing, and rhetoric. Majors develop critical thinking skills and produce influential academic, creative, professional, and digital texts. They learn to analyze genres, texts, and contexts that involve, for instance, race, class, gender, sexuality, and nationality. They also learn how various texts communicate value, meaning, and social and cultural critique.

You Might Like This Program If...

- You enjoy analyzing and exploring literature.
- You are interested in creative writing.
- You want to prepare for a professional field where communication is important, such as medicine or law.
- You want a career as an author, editor, journalist, or English teacher.

Entrance to Major

Entry to the English Major Requires:

1. a 2.00 or higher cumulative grade-point average; and
2. satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to major.

Entry to English Major, Secondary Education Option Requires the Following Additional Requirements:

1. A minimum grade point average of 3.0.
2. Completion of ENGL 15 or ENGL 30H.
3. Three credits of literature from approved list with a C or higher grade.
4. Completion of six credits of college-level mathematics (MATH or STAT prefixes) with a C or higher grade.
5. Satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for the major.
6. Submission of the Teacher Education Office of current and clear background checks required by the Pennsylvania Department of Education.
7. Submission of documentation of 20 pre-major fieldwork hours.

Retention Requirements for the Secondary Education Option

Following entrance to the major to the Secondary English Certification Program, students will be evaluated for retention in the program based on:

1. maintaining a cumulative GPA of 3.0 or higher;
2. completion of required courses with a C or higher grade;

- an acceptable or above rating on the Professional Dispositions for Teacher Education.¹
- current and clear background checks as required by the Pennsylvania Department of Education.

To be eligible to student teach, students must:

- maintain a cumulative GPA of 3.0 or higher;
- complete with a C or higher grade all required Content and Education Courses;
- Satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to major;
- be rated acceptable or above on the Professional Dispositions for Teacher Education.¹
- have current and clear background checks as required by the Pennsylvania Department of Education.

In order to successfully complete the Secondary Education Certification Program, students must:

- complete EDUC 490 with a grade of C or higher;
- maintain a cumulative GPA of 2.0 or higher for degree completion;
- maintain a cumulative GPA of 3.0 or higher for Pennsylvania teacher certification;
- complete all required Content and Education Courses with a C or higher grade;
- complete a program portfolio; and
- For Pennsylvania teacher certification, be rated acceptable or above for all criteria on the Final Professional Dispositions Review for Teacher Education.¹

¹ For more detailed information see the Secondary Education Handbook

Degree Requirements

For the Bachelor of Humanities degree in English with a General English Option, a minimum of 120 credits is required; for the Bachelor of Humanities degree in English with a Secondary Education Option, a minimum of 125 credits is required; for the Bachelor of Humanities degree in English with a Creative Writing Option, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	0-18
Bachelor of Humanities Degree Requirements	18
Requirements for the Major	45-77

0-15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: General English Option, 6 credits of General Education Arts (GA) and/or Social and Behavioral Science (GS) courses; Secondary Education Option, 6 credits of General Education Quantification (GQ) courses, 3 credits of General Education Social Sciences (GS) courses, and 6 credits of General Humanities (GH) courses. (Note: Creative Writing Option - 0 credits of General Education).

Requirements for the Major

At least 15 credits of Prescribed, Additional, and/or Supporting courses must be taken at the 400 level.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

HDFS 239	Adolescent Development	3
LLED 420	Teaching Adolescent Literature and Literacy	3

Additional Courses

Select 6 credits of General Education Quantification courses (GQ) with a MATH or STAT prefix 6

Select 3 credits of GH literature from department list 3

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- Apply critical, theoretical, and/or disciplinary approaches to the reading and analysis of texts in multiple genres and/or media.
- Analyze the aesthetic and/or cultural significance of the ideas, values, conventions, forms, and genres associated with texts.
- Gather, evaluate, and employ an array of research materials in support of critical studies, and/or creative activity, in ways consistent with standards of academic integrity.
- Demonstrate writing and rhetorical skills appropriate to critical and/or creative tasks in a variety of media and genres.
- Analyze representative literary, theoretical, and cultural texts within significant historical, geographical, and cultural contexts.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ Departmental Lists:

American ethnic or African-American Literature

- ENGL 135 - Alternative Voices in American Literature
- ENGL 235 - African-American Oral Folk Tradition
- ENGL 431 - Black American Writers
- ENGL 461 - The Vernacular Roots of African American Literature
- ENGL 462 - Reading Black, Reading Feminist
- ENGL 463 - African American Autobiography
- ENGL 466 - African American Novel I
- ENGL 467 - African American Novel II
- ENGL 468 - African American Poetry
- ENGL 469 - Slavery and the Literary Imagination

² World or Comparative Literature

- ENGL 182 - Literature and Empire
- ENGL 185 - The Modern Novel in World Literature
- ENGL 486 - The World Novel in English
- ENGL 488 - Modern Continental Drama
- *or any Comparative Literature class (CMLIT)*

³ Upper-level British Literature

- ENGL 440 - Studies in Shakespeare
- ENGL 441 - Chaucer
- ENGL 442 - Medieval English Literature
- ENGL 443 - The English Renaissance
- ENGL 445 - Shakespeare's Contemporaries
- ENGL 445 - Milton
- ENGL 447 - The Restoration and the Eighteenth Century
- ENGL 448 - The English Novel to Jane Austen
- ENGL 450 - The Romantics
- ENGL 452 - The Victorians
- ENGL 453 - Victorian Novel
- ENGL 454 - British and Irish Drama Since 1890
- ENGL 455 - Topics in British Literature
- ENGL 456 - British Fiction: 1900-1945
- ENGL 457 - British Fiction Since 1945
- ENGL 458 - Twentieth-Century Poetry: British and Irish

⁴ Upper-level American Literature

- ENGL 430 - The American Renaissance
- ENGL 432 - The American Novel to 1900
- ENGL 433 - The American Novel: 1900-1945
- ENGL 434 - Topics in American Literature
- ENGL 435 - The American Short Story
- ENGL 436 - American Fiction Since 1945
- ENGL 437 - The Poet in America
- ENGL 438 - American Drama
- ENGL 439 - American Nonfiction Prose
- ENGL 493 - The Folktale in American Literature

⁵ Select from Literature, Writing, or Rhetoric from department list
Select any course with an ENGL or CMLIT prefix
B HUM Degree require course, of these selections (12 credits) select 4
upper or lower division courses, each from a different major/program
offering from the following list: AAA S, AM ST, ARAB, ART, ART H,
BRASS, CAS, CAMS, CHNS, CMLIT, COMM, DANCE, ENGL, FR, GER,
GREEK, HEBR, HIST, INART, IT, J ST, JAPNS, KOR, LATIN, LING, MEDVL,
MUSIC, PHIL, PORT, RL ST, RUS, SPAN, STS, THEA, WMNST.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes

Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."

General English Option: English, B.Hum. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

Penn State Harrisburg graduates in English have found success as writers, librarians, teachers, graduate students in MFA and other writing programs, and more. Many of these students' testimonials are available on our website.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE ENGLISH PROGRAM (<https://harrisburg.psu.edu/humanities/english-bhum/testimonials/>)

Opportunities for Graduate Studies

Additional graduate study is available in creative writing and literature as part of the Master of Arts in Humanities.

Professional Resources

- National Council of Teachers of English (NCTE) (<https://ncte.org/>)

Accreditation

This program has been recognized by the National Council of Teachers of English (NCTE) and the Secondary Education Option earned National Council for the Accreditation of Teacher Education (NCATE) approval.

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the

Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

Enterprise Technology Integration, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Enterprise Technology Integration major (ETI) in the College of Information Sciences and Technology is a Bachelor of Science degree program that educates students in the fundamental concepts and state-of-the-art skills in three essential areas: information technology (IT), business concepts, and "soft skills" such as working in teams. The ETI major focuses on the technology implementation perspective of enterprise system integration. The learning outcomes focus on a) information systems interconnectedness, data interchange, process modeling and reengineering, and distributed computing environments; b) business knowledge in accounting, supply chains and more; and c) teaming, leadership, and other "soft skills." Students graduating with a degree in ETI are prepared for successful careers across industries and government in systems integration and development, as well as IT and business consulting.

The ETI major is interdisciplinary, combining foundational coursework in information technology, application development and business with specialized courses in systems integration. The major draws on courses including introductory programming, databases, networks, organizational theory, project management and enterprise integration. In the ETI major, we add courses in emerging information technologies used to integrate information systems from an underlying back-end technology needed to accomplish system integration.

What is Enterprise Technology Integration?

Enterprise technology integration (ETI) explores how information technology resources and data are linked together within and across companies and organizations. Integrating information technology solutions in an enterprise is essential for businesses in conducting day-to-day activities as well as moving organizations forward as new business strategies emerge. Enterprises that can readily unify applications, services, information systems and databases through information technology integration experience a competitive advantage. As an ETI major, you will gain knowledge and skills in analyzing the technology-related needs of an organization, formulating and implementing technology-based solutions, and evaluating the outcomes.

MORE INFORMATION ABOUT ENTERPRISE TECHNOLOGY INTEGRATION (<https://ist.psu.edu/prospective/undergraduate/academics/eti/>)

You Might Like This Program If...

- You have an interest in information technology and business.
- You want to help organizations operate more effectively by creating and implementing information technology solutions and evaluating outcomes.
- You are interested in emerging technologies, such as cloud computing and advanced databases.
- You want to understand how computing systems and programs operate.
- You enjoy working on a team to solve information technology problems.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY ENTERPRISE TECHNOLOGY INTEGRATION (<https://ist.psu.edu/prospective/undergraduate/academics/eti/>)

Entrance to Major

To be eligible for the Enterprise Technology Integration major, students must:

1. Have completed the following entrance-to-major requirements with a grade of C or better in each: HCDD 113S (FYS) or HCDD 113 or IST 110 or CYBER 100 or CYBER 100S (FYS), IST 140 or CMPSC 121 or CMPSC 131, IST 210, IST 220, IST 242 or CMPSC 122 or CMPSC 132, STAT 200 or SCM 200
2. Have achieved a minimum cumulative grade point average of 2.00 prior to and through the end of the semester during which the entrance to major is requested.

Degree Requirements

For the Bachelor of Science degree in Enterprise Technology Integration, a minimum of 124 credits is required:

Requirement	Credits
General Education	45
Electives	5-6
Requirements for the Major	91-92

18 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GS courses, 6 credits of GQ courses, 9 credits of GWS courses.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
ETI 300W	Development and Documentation of Enterprise Web	3

ETI 461	Database Management and Administration	3
IST 210	Organization of Data	3
IST 220	Networking and Telecommunications	3
IST 230	Language, Logic, and Discrete Mathematics	3
IST 256	Programming for the Web	3
IST 301	Information and Organizations	3
IST 302	IT Project Management	3

IST 421	Advanced Enterprise Integration: Technologies and Applications	3

Additional Courses

Additional Courses: Require a grade of C or better

BA 302	Supply Chains	3
or SCM 301	Supply Chain Management	
CAS/ENGL 138T	Rhetoric and Civic Life II	3
or CAS 100	Effective Speech	
ECON 102	Introductory Microeconomic Analysis and Policy	3
or ECON 104	Introductory Macroeconomic Analysis and Policy	
ENGL 202C	Effective Writing: Technical Writing	3
or ENGL 202D	Effective Writing: Business Writing	
HCDD 264	Design Practice in Human-Centered Design and Development	3
or IST 331	Foundations of Human-Centered Design	
IST 402	Emerging Issues and Technologies	3
or IST 423	Enterprise Information Management and Storage Architecture	
MATH 110	Techniques of Calculus I	4
or MATH 140	Calculus With Analytic Geometry I	
STAT 200	Elementary Statistics	4
or SCM 200	Introduction to Statistics for Business	
Select 3-4 credits from the following:		3-4
BA 243	Social, Legal, and Ethical Environment of Business	
BA 301	Finance	
BA 303	Marketing	
BA 304	Management and Organization	
BLAW 243	Legal Environment of Business	
FIN 301	Corporation Finance	
IB 303	International Business Operations	
MGMT 301	Basic Management Concepts	
MKTG 301	Principles of Marketing	
Select 3 credits from the following:		3
CAS/ENGL 137H	Rhetoric and Civic Life I	
ENGL 15	Rhetoric and Composition	
ENGL 30H	Honors Rhetoric and Composition	
Select 3 credits from the following:		3
CMPSC 121	Introduction to Programming Techniques	
CMPSC 131	Programming and Computation I: Fundamentals	
IST 140	Introduction to Application Development	
Select 3 credits from the following:		3
CMPSC 122	Intermediate Programming	

CMPS 132	Programming and Computation II: Data Structures	
IST 242	Intermediate & Object-Oriented Application Development	
Select 3 credits from the following:		3
CYBER 100	Computer Systems Literacy	
CYBER 100S	Computer Systems Literacy	
HCDD 113	Foundations of Human-Centered Design and Development	
HCDD 113S	Foundations of Human-Centered Design and Development FYS	
IST 110	Information, People and Technology	
Select 3 credits from the following:		3
ETI 435	Enterprise Analytics	
ETI 463	Distributed Database Management Systems	
IST 440W	Information Sciences and Technology Integration and Problem Solving	

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

A student must complete 12 credits from a single Application Focus. 12
For most focuses, at least 3 of those credits must be at the 400-level.
1

¹ As an alternative to the pre-defined application focuses, a student may select 12 credits, with at least 3 credits at the 400-level from any courses offered by the university if done so in consultation with an academic adviser and with approval of a teaching faculty member of the Enterprise Technology Integration major.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Enterprise Technology Integration, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ Business Fundamental Course List: FIN 301, MKTG 301, MGMT 301, BA 243

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

Advising Notes:

- 1 Credit of IST 495 - Internship is required
- 30 Credits of GA, GH, GHW, GN, GS to include 6 Integrative Studies credits
- 15 Credits of GQ and GWS require a grade of "C" or better

Program Notes:

- ETI / IST courses are only offered once per year.
- IST 495 Internship: (1) Supervised work experience where the student is employed in a position related to the student's major. An internship is typically completed the summer after the junior year, but it may be completed at any time during the student's academic career. Students are required to complete one internship but may complete three. A grade of C or better must be earned in this course. For more information, contact your academic adviser.
- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."
- Students in the Information Sciences and Technology (ISSCA_BS) major are expected to complete 24 credits of upper-level course work in the major and the senior capstone course for the major at Penn State Harrisburg. This is in compliance with Faculty Senate Policy 83-80.5.

Application Focus Areas:

- Select 12 credits from a single Application Focus course listing. These are listings maintained by the department as support of major courses. At least three (3) credits must be at the 400 level. Students may also complete a custom Application Focus course sequence with approval from an academic advisor and an ETI teaching faculty member. Students may want to consider choosing courses that also fulfill US and/or IL requirements.

• University Park Business Competency (complete the Smeal College Business Fundamentals Certificate)

- In addition to meeting all other requirements of the certificate, select 12 credits from the list below to complete all 15 credits of the Smeal Certificate in conjunction with the ETI Degree's requirements:

- BA 301
- BA 303
- BA 304
- Select 3 credits from:
 - BLAW 243
 - IB 303

- Note 1: This option does not require 3-credits of 400-level courses as part of the application focus.

- Note 2: 2+2 students are encouraged to take these courses while at University Park.

• Application Development

- Select 12 credits from below, with at least three (3) credits at the 400 level:
 - Any 200-400 level HCDD Course
 - IST 261
 - IST 311
 - IST 361
 - IST 411
 - IST 412
 - IST 413

• Business Administration (Harrisburg Students Only):

- The Business Administration focus is for students who desire the opportunity to develop and apply skills relevant to businesses and other organizations. Included in this focus area are courses in the core business disciplines of finance, management, and marketing. Select at least twelve (12) credits from below, with at least three (3) credits at the 400 level:

- MIS 250
- BA 243*
- BA 364Y
- The following courses may require prerequisites:
 - MIS 301
 - MIS 390
 - MGMT 301*
 - FIN 301*
 - MKTG 301*
 - MGMT 418
 - MGMT 420
 - MGMT 433
 - MIS 420

- * Course cannot also be counted as a required Business Fundamental Course: FIN 301, MKTG 301, MGMT 301, BA 243.

• Cybersecurity

- Select 12 credits from below, with at least three (3) credits at the 400 level:
 - SRA 111
 - SRA 221
 - CYBER 262
 - Any CYBER course at the 300- or 400-level
 - IST 451

- IST 454
- IST 456
- **People, Policy and Context**
 - Select 12 credits from below, with at least three (3) credits at the 400 level:
 - IST 234N
 - IST 431
 - IST 432
 - IST 452
 - IST 453
 - IST 442
 - SRA 472
- **International and World Cultures**
 - Select 12 credits from below, with at least three (3) credits at the 400 level:
 - IST 199
 - IST 299
 - IST 399
 - IST 499
 - IST 445
 - AFR 440
- **ROTC, Intelligence and Cyberwarfare**
 - Select 12 credits from below, with at least three (3) credits at the 400 level:
 - Any courses in AIR, NAVSC or ARMY ROTC Programs
 - SRA 211
 - SRA 231
 - SRA 421
 - SRA 450
- **Health Informatics (proposed new focus area)**
 - Select 12 credits from below, with at least three (3) credits at the 400 level:
 - HPA 101
 - HPA 210
 - HPA 211
 - HPA 332
 - HPA 470
- **Custom Application Focus**
 - There is an option for a student to create a custom 4-course application focus sequence. It must be a coherent sequence of courses that provides context for the student in terms of the Enterprise Technology Integration content. Students can select the custom application focus with approval from an academic adviser, and courses must be selected in consultation with a faculty member.

Career Paths

The Enterprise Technology Integration program responds to growing national and international needs in organizational computing, particularly in the areas of application systems integration, cloud computing and database technologies. The ETI degree prepares students to analyze organizational challenges and employ information technology solutions.

IST's Office of Career Solutions helps students navigate their internship and career development in the field through coaching, workshops,

interview preparation, resume reviews, career fairs, job postings, and networking opportunities.

Careers

ETI graduates will be prepared for careers in application systems integration, as well as IT and business consulting. The program equips graduates with the skills needed to analyze business processes; identify information requirements and the systems essential to implement solutions; and implement those solutions in information systems in a variety of computing environments. The program positions graduates to compete with information systems professionals and technical business analysts who drive innovation through data, information and systems implementation to solve problems for organizations and the people within them.

End Campus: Harrisburg

Program Description

The finance major emphasizes analytic, problem solving, and computer skills which are necessary for finance and investment industry. The major prepares students for careers in corporate finance, investment and portfolio management, banking, public finance, and international finance. The major also prepares students who want to pursue graduate study in finance. Depending on their interests, graduates may then seek financial services credentials such as Certified Financial Planner (CFP) and Chartered Financial Analyst (CFA).

The requirements in the major complement basic business instruction in accounting, management, marketing, and information systems.

With business and non-business electives, the program is designed to develop necessary skills to be an effective financial manager. Because the Harrisburg area is the center of industry and economic development for south-central Pennsylvania, students are provided with many opportunities to experience the world of business.

What is Finance?

Finance focuses on how individuals and business organizations raise money and capital, and how those resources are allocated among competing investment and consumption opportunities. The field focuses on domestic and international financial economies and the role of financial markets and institutions key in the movement of savings and investment capital from lenders to borrowers. It also deals with how individuals and corporate managers evaluate alternative investment and savings opportunities and how they choose among various financial instruments.

You Might Like This Program If...

- You enjoy numbers and "real world" applications of math.
- You are interested in how businesses and banks manage their assets.
- You want a career in business, finance, or investment management.

Entrance to Major

Entry to the Finance major requires the completion of 8 entry-to-major courses: ACCTG 211¹, ECON 102¹, ENGL 15 or ENGL 30H, FIN 301¹, MATH 110¹ or MATH 140¹, MGMT 301, MKTG 301, SCM 200¹ or STAT 200¹; and a 2.00 or higher cumulative grade-point average.

Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business at Penn State Harrisburg.

¹ Course requires a grade of C or better.

Degree Requirements

For the Bachelor of Science degree in Finance, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives (non-business courses)	8
Requirements for the Major	79

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.

At least 50 percent of the business credit hours required for the degree must be taken at Capital College. No more than 60 credits should be from business and business-related courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Select 9 credits of 200-400 level business courses from: ACCTG, BA, ECON, FIN, MGMT, MIS, MKTG, or SCM in consultation with an academic adviser and in support of the student's interests		9

¹ For students considering CFA exam, FIN 407, FIN 427 and FIN 461 are recommended.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Finance and M.B.A. in Business Administration

Available at the following campuses: Harrisburg

Requirements for the Integrated B.S. in Finance and M.B.A. in Business Administration can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/business-administration-capital/#integratedundergradgradprogramstext>).

Learning Outcomes

Student graduates of our baccalaureate degree programs should be:

1. Effective communicators.
 - a. Present verbally, thoughts and ideas in a way that can be clearly understood by a target audience.
 - b. Convey ideas in a clear, coherent manner in written communication.
2. Ethical and socially responsible.
 - a. Be competent in analyzing social and ethical decision making issues in organizations.
3. Critical thinkers.
 - a. Be able to think and identify multiple dimensions of company issues and performances and make an assessment of company performances in achieving financial and strategic objectives, tracking their achievements, and giving management of companies a more complete and balanced view of how the organization is performing.
4. Competent in the Finance Discipline.
 - a. Demonstrate knowledge of time value of money, stock and bond valuations.
 - b. Demonstrate knowledge of how firms budget capital, how firms raise capital, and of cost of capital.
 - c. Demonstrate knowledge of the relationship between risk and return, portfolio theory, and investment analysis.
 - d. Demonstrate knowledge of market efficiency.
 - e. Demonstrate an understanding the nature of demand and supply, how equilibrium arises, equilibrium price and quantity, and how competitive and imperfectly competitive markets work.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 120

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain

attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes

- 30 credits of GA, GH, GHW, GN, GS to include 6 Integrative Studies credits
- 15 credits of GQ and GWS require a grade of "C" or better
- Courses required for the major must generally be completed within 10 years of entrance into the major
- FIN 495 - Finance Internship satisfies a business support requirement. For more information, contact the Economics and Finance Program Coordinator.
- Student must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)." BA 364Y (US/IL) may be used to meet either the IL or US requirement, but may be used to fulfill only 3 of the 6 credit requirement.

Career Paths

The Finance major prepares students for careers in corporate finance, investment and portfolio management, banking, public finance, and international finance. The major also prepares students who want to pursue graduate study in finance. Depending on their interests, graduates may then seek financial services credentials such as Certified Financial Planner (CFP) and Chartered Financial Analyst (CFA).

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE FINANCE PROGRAM (<https://harrisburg.psu.edu/business-administration/finance-bs/>)

Opportunities for Graduate Studies

The School of Business Administration offers a limited number of academically superior Bachelor of Science in Finance candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Finance and the Master of Business Administration.

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (<https://harrisburg.psu.edu/business-administration/finance-bs-mba/>)

Accreditation

The B.S. in Finance offered by the School of Business Administration at Penn State Harrisburg, the Capital College, is accredited by AACSB International – The Association to Advance Collegiate Schools of Business. AACSB's mission is to foster engagement, accelerate innovation, and amplify impact in business education. Synonymous with the highest standards of excellence since 1916, AACSB provides quality assurance, business education intelligence, and professional development services to over 1,600 member organizations and more than 800 accredited business schools worldwide. AACSB International (AACSB) connects educators, students, and business to achieve a common goal: to create the next generation of great leaders.

Health Policy and Administration, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

This major helps prepare students for management and policy positions or graduate study in the field of health care. Students in the major develop the skills and knowledge needed to understand the complex societal problem of providing access to quality health care at reasonable cost. All Health Policy and Administration students complete an internship in a health-care-related setting, giving them valuable experience and contacts in the industry. HPA students study a multidisciplinary curriculum that prepares them to work as health services managers or health analysts. Health services managers, also called health care executives or health care administrators, plan, direct, and coordinate medical, health, and/or long-term care services. They might manage an entire facility or specialize in managing a specific clinical area or department, administer a program or manage a practice for a group of providers. Health analysts are employed throughout the health care industry gathering, compiling, modeling, validating, and analyzing data needed by different organizations of providers, payers, and policy makers. Analysts help these organizations understand the current trends in the health care system and to make well-informed decisions. Both health services managers and analysts must be able to adapt to changes in health care laws, regulations, and technology. HPA students have also used the degree to prepare for graduate study in business, law, medicine or allied health fields, health administration, health services research or policy, and public health.

What is Health Policy and Administration?

Health Policy and Administration (HPA) is a multidisciplinary course of study with courses in the liberal arts, business administration, and health sciences. In general, HPA students are prepared to work in six types of health care organizations including:

1. Health care providers (hospitals, physician practices, nursing facilities, home health agencies, etc.)
2. Health insurers (nonprofit and commercial insurers, health maintenance organizations, etc.)
3. Health care consulting firms

4. Health care supply companies (pharmaceutical companies, medical device manufacturers, etc.)
5. Health services research and policy organizations (health policy research groups, industry trade groups, etc.);
6. Local, state, and federal health agencies and public health organizations (local public health departments, state Department of Health, federal Department of Health and Human Services, etc.).

MORE INFORMATION ABOUT HEALTH POLICY AND ADMINISTRATION (<https://hhd.psu.edu/hpa/>)

You Might Like This Program If...

- You are interested in business administration or management and want to focus primarily in the healthcare industry.
- You are interested in influencing health policy and public health by working in government at the state or federal level or nonprofit organizations
- You are interested in improving access to health care for underserved populations
- You are interested in reducing health care costs or improving health care quality through policy reform or business leadership.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY HEALTH POLICY AND ADMINISTRATION (<https://hhd.psu.edu/hpa/bachelor-science-bs-health-policy-and-administration/>)

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Health Policy and Administration, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	4-6
Requirements for the Major	81-83

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 6 credits of GS courses.

The requirements for the major are outlined below. Students may select courses in the Supporting Courses and Related Areas category to fulfill requirements for a minor, to develop a specialization, or to complete courses required for admission to medical, dental, law, or other graduate schools.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. H P A requires students to complete 24 credits for the major

through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Suggested Academic Plan for this major.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
ECON 102	Introductory Microeconomic Analysis and Policy	3
HPA 101	Introduction to Health Services Organization	3
HPA 210	Health Care Payment	3
HPA 211	Financial Decisions in Health Care Organizations	3
HPA 301	Health Services Policy Issues	3
HPA 310	Health Care and Medical Needs	3
HPA 311	Population Health and Healthcare	3
HPA 332	Health Systems Management	3
HPA 390	Professional Development in Health Policy & Administration	3
HPA 395	Field Experience in Health Policy and Administration	3
HPA 455	Strategic Planning and Marketing for Health Services	3
PLSC 1	American Politics: Principles, Processes and Powers	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
CMPSC 101	Introduction to Programming	3-4
	or CMPSC 203 Introduction to Spreadsheets and Databases	
	or MIS 204 Introduction to Management Information Systems	
STAT 200	Elementary Statistics	3-4
	or STAT 250 Introduction to Biostatistics	
Select 9 credits from the following:		9
HPA 401	Comparative Health Systems	
HPA 410	Principles of Public Health Administration	
HPA 420	Principles of Managed Care	
HPA 430	Health Care Leadership	
HPA 433	Administration of Hospital and Health Service Systems	
HPA 435	Safety Net Health Care	
HPA 438	Culturally Competent Health Services for Diverse Populations	
HPA 440	Principles of Epidemiology	
HPA 442	Long-Term Care Management	
HPA 443	Nursing Home Administration	
HPA 444	Aging Policy in the United States	
HPA 445	Health Economics	
HPA 446	Economics and Health In Low- and Middle-Income Countries	
HPA 447	Financing Health Care	

HPA 450	Healthcare Policies and Politics
HPA 454	Health Care Professional Communication
HPA 460	Human Resource Management in Health Care Organizations
HPA 470	Health Care Information Management
HPA 475	Health Care Quality
HPA 490	Physician Practice Management
HPA 497	Special Topics

Supporting Courses and Related Areas

Select 30 credits from University-wide offerings on department list in consultation with adviser¹ 30

¹ Must include at least 9 credits at the 400 level.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Know Health Organizations:** HPA graduates will possess in depth understanding of health and health care, including the structures, policies, processes and institutions that make up the U.S. health care system.
- **Organize and Direct Resources:** HPA graduates will possess the knowledge and skills necessary for organizing and directing resources towards the achievement of organizational objectives.
- **Policy Analysis:** HPA graduates will possess the knowledge and skills necessary to analyze, synthesize, and evaluate public policy.
- **Emotional Intelligence:** HPA graduates will possess an awareness of and the ability to manage one's own emotions in a way that enables positive interpersonal interactions and the building of productive relationships.
- **Diversity Adeptness:** HPA graduates will recognize the value of diversity and possess sensitivity to underrepresented and underserved groups in health care.
- **Critical Thinking:** HPA graduates will be able to interpret, analyze, and evaluate information to identify, examine, and solve problems that occur in the health care system.
- **Communication:** HPA graduates will be able to effectively receive, process, and relay information through speaking, writing, and listening.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Health Policy and Administration, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ ENGL 030 (GWS), Effective Fall 2012, all incoming Schreyer Honors College freshmen at University Park will take ENGL/CAS 137H in the fall semester and ENGL /CAS 138T in the spring semester. These courses carry GWS designation and replace both ENGL 030 and CAS 100. Each course is 3 credits. At the discretion of the college, ENGL/CAS 138T satisfies the first-year seminar requirement.

² CAS 100 (GWS), Effective Fall 2012, all incoming Schreyer Honors College freshmen at University Park will take ENGL/CAS 137H in the fall semester and ENGL /CAS 138T in the spring semester. These courses carry GWS designation and replace both ENGL 030 and CAS 100. Each course is 3 credits. At the discretion of the college,

³ ENGL/CAS 138T satisfies the first-year seminar requirement.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Career Paths

The mission of the Bachelor of Science Program (B.S.) in HPA is to develop graduates with the knowledge, skills, and values appropriate to work in entry-level management or policy-related positions or for the pursuit of graduate education in health administration, health policy, health law, health services research, public health, and other health related fields. HPA students develop the skills and knowledge needed to understand the complex societal problem of providing access to quality health care at reasonable cost.

Careers

The HPA curriculum prepares students to work as health services managers or health policy analysts. Health services managers plan, direct, and coordinate medical, behavioral, and/or long-term care services. These individuals might oversee matters of personnel, budgeting, billing, equipment outlays, information systems, planning and more. Health policy analysts are responsible for analyzing, compiling, and validating information needed by different organizations of providers, payers, and policy makers. Analysts help these organizations understand the current trends in the health care system and to make well-informed business and policy decisions. Employment of health policy and administration graduates is projected to grow 28 percent from 2022 to 2032, much faster than all other occupations.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE HEALTH POLICY AND ADMINISTRATION PROGRAM (<https://hhd.psu.edu/hpa/undergraduate/career-opportunities/career-outlook-health-care-professionals/>)

Opportunities for Graduate Studies

HPA's blend of courses in liberal arts, business administration, and the health sciences, is designed to prepare students for careers or further study in health care. HPA students have used the degree to prepare for graduate study in business, law, medicine or allied health fields, health administration, health services research or policy, and public health.

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (<https://hhd.psu.edu/hpa/undergraduate/integrated-undergraduate/graduate-programs/>)

Professional Resources

- Association of University Programs in Health Administration (<https://www.aupha.org/resourcecenter/futurestudents/>)
- American College of Health Care Administrators (<https://www.achca.org/student-societies/>)
- American College of Healthcare Executives (<https://www.ache.org>)
- National Association of Health Services Executives (NAHSE) (<https://www.nahse.org>), a non-profit association of Black health care executives
- National Association of Latino Healthcare Executives (<https://www.nalhe.org>)

- Academy Health (<https://academyhealth.org>), the professional home and leading national organization for health services researchers, policymakers, and health care practitioners and stakeholders

Accreditation

HPA is a fully certified member of the Association of University Programs in Health Administration (AUPHA). As such it has been recognized for having withstood the rigors of peer review wherein curricula, faculty, and educational outcomes have been critically examined by external peer review. In a process comparable to other specialty program accreditations, programs seeking AUPHA certification must submit an extensive self-study detailing the program's structure, educational processes, and assessment mechanisms in response to national criteria established by AUPHA.

MORE INFORMATION ABOUT ACCREDITATION BY THE ASSOCIATION OF UNIVERSITY PROGRAMS IN HEALTH ADMINISTRATION (<https://www.aupha.org/main-site/certification/certification/>)

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

Homeland Security, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Homeland Security minor provides for development of familiarity with homeland security and defense issues, including emergency management, homeland security policy, and the structure of homeland security operations. Students will come to understand the "all hazards" approach to homeland security and defense. Students will be able to develop familiarity with such aspects of homeland security as counterterrorism, emergency management, security administration, border security, critical infrastructure protection, and intelligence through taking elective courses. Recipients of the minor would be positioned to enter the workforce in entry-level positions or to prepare for transition to graduate school.

What is Homeland Security?

Homeland Security is an area of study that focuses on security policy, planning and operations dedicated to the protection of U.S. territory, assets, infrastructure, institutions and citizens from external threats. It is concerned with national security policy, government relations, intelligence, law enforcement, security technology, communications and information technology, disaster planning, and applications to specific threat scenarios.

You Might Like This Program If...

- You enjoy helping others or doing something for the greater good.
- You want to serve society and have good people skills.
- You are interested in working for a local, state, or federal agency that is involved with homeland security.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

Requirements for the Minor

At least six credits must be at the 400 level. This means that students must choose at least one elective at the 400 level.

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Code	Title	Credits
Prescribed Courses		

Prescribed Courses: Require a grade of C or better

PUBPL/HLS 201	Introduction to Homeland Security	3
PUBPL/HLS 306	Introduction to Crisis and Emergency Management	3
PUBPL/HLS 483	Seminar in National Security Policy	3

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 9 credits from the following (course substitution possible with permission of adviser):¹

CRIMJ 304	Security Administration
CRIMJ 435	Border Security
PUBPL/HLS 475	Critical Infrastructure Protection
PUBPL/HLS 476	Homeland Security Intelligence
PLSC/CRIMJ 439	The Politics of Terrorism
SRA 421	The Intelligence Environment

¹ At least 3 credits in supporting courses must be at the 400 level: this rule also applies in case of course substitutions.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Human Capital Management, B.S.

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Human Capital Management major prepares students for a career in human resource management by developing skills and competencies in managing diversity and equal opportunity, ethical and fair treatment of employees, human resource planning and staffing, employee training and development, compensation and benefits, performance management, labor relations, and protecting employee safety and health. Students completing this major would be prepared to demonstrate their knowledge of the core principles of human resource practices and the application of those principles for potential certification such as a Professional in Human Resources (PHR) or Society of Human Resource Management - Certified Professional (SHRM-CP). The Human Capital Management major is not available to students who are currently enrolled in or have completed the requirements for a Management (MNGMT_BS) degree.

What is Human Capital Management?

Human capital management (HCM) is an organization's set of practices used to attract, recruit, train, develop and retain the best employees to achieve short- and long-term objectives. HCM allows companies to invest in their employees who can maximize their potential by contributing at the highest level to the achievement of business goals. HCM sees employees as the essence of the company.

HCM focuses on adding value to an organization's human capital to deliver the best results for all stakeholders. It covers talent acquisition and management, employee relations, compensation, performance, and other key areas vital to the tactical and strategic vision and mission of a company.

HCM can create a strong organizational culture that promotes employee development, honest feedback and commitment to company goals. It can give employees more control over their careers and encourage them to dedicate their skills and talent to the employer for the long term.

You Might Like This Program If...

- You are a people person who is a problem solver.
- You have good communication skills.
- You have strong analytical skills.
- You like dynamic work environments.
- You want to help others.

- You want to have a rewarding career – financially and emotionally – that makes a big impact on the lives of others.
- You are a good listener.
- People trust you.

Entrance to Major

Entry to the Human Capital Management major requires:

1. the completion of 8 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15¹ or ENGL 30H¹ or ESL 15¹, FIN 301, MATH 110¹ or MATH 140¹, MGMT 301¹, MKTG 301, SCM 200¹ or STAT 200¹
2. and a 2.00 or higher cumulative grade-point average.

¹ Course requires a grade of C or better

Degree Requirements

For the Bachelor of Science degree in Human Capital Management, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	93

18 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits

Select 12 credits from 200-400 level business courses from: ACCTG, 12
BA, ECON, FIN, MIS, MGMT, MKTG, or SCM in consultation with an
academic adviser and in support of the student's interests

Select 5 credits of Non-Business Electives 5

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Human Capital Management, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Courses required for the major must be generally taken within 10 years of entrance to major.
- For more information regarding MGMT 495, contact the HCM Program Coordinator.
- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)." BA 364Y

(US/IL) may be used to meet either the IL or US requirement but may be used to fulfill only 3 of the 6 credit requirement.

- 30 credits of GA, GH, GHW, GN, and GS to include 6 Integrative Studies credits.
- 15 credits of GQ and GWS require a grade of "C" or better.

Career Paths

The HCM major prepares students for generalist positions as well as specialized careers in Human Resources. Talent Acquisition and Management, Compensation and Benefits, Employee and Labor Relations, and Human Resource Information Systems are just some of the specialized fields. HR Managers, HR Directors, Vice President of HR and Chief Human Resource Officer are just some of the generalist positions. If you chose not to enter HR, which managerial position does not benefit from an in-depth understanding of managing human resources in a company as well as the legal environment of employment? The HCM major prepares you to enter the workforce.

Accreditation

The B.S. in Human Capital Management offered by the School of Business Administration at Penn State Harrisburg, the Capital College, is accredited by AACSB International – The Association to Advance Collegiate Schools of Business. AACSB's mission is to foster engagement, accelerate innovation, and amplify impact in business education. Synonymous with the highest standards of excellence since 1916, AACSB provides quality assurance, business education intelligence, and professional development services to over 1,600 member organizations and more than 800 accredited business schools worldwide. AACSB International (AACSB) connects educators, students, and business to achieve a common goal: to create the next generation of great leaders. The School of Business Administration was reviewed for accreditation renewal in 2023.

The human capital management program is an SHRM (<https://www.shrm.org/certification/Pages/hr-certification.aspx>)-aligned program.

Human Capital Management, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The Human Capital Management certificate provides students with key insights into foundational human capital management processes such as total rewards (compensation and benefits), selection and development, and performance management. As future organizational leaders and managers, the understanding of key human resource practices are needed by all majors from Science, Technology, Engineering, Arts, Math to Business.

What is Human Capital Management?

Human capital management (HCM) is an organization's set of practices used to attract, recruit, train, develop and retain the best employees to achieve short- and long-term objectives. HCM allows companies to invest in their employees who can maximize their potential by contributing at the highest level to the achievement of business goals. HCM sees employees as the essence of the company.

HCM focuses on adding value to an organization's human capital to deliver the best results for all stakeholders. It covers talent acquisition and management, employee relations, compensation, performance, and other key areas vital to the tactical and strategic vision and mission of a company.

HCM can create a strong organizational culture that promotes employee development, honest feedback and commitment to company goals. It can give employees more control over their careers and encourage them to dedicate their skills and talent to the employer for the long term.

Human Development and Family Studies, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

This major is a multidisciplinary program that examines the development of individuals and families across the life span. HDFS prepares graduates for professional, managerial, or scientific roles in health and human services professions, in public and nonprofit agencies, and in business and industry, as well as for advanced professional or graduate study. Students obtain a broad background in individual and family development across the life span. Courses emphasize biological, psychological, social/cultural, and economic aspects of development as well as applied skill development. We strive for our curriculum (and the experienced and opportunities we extend to students) to foster cultural humility and highlight diverse characteristics, contexts and considerations that impact individuals, families, and communities.

Two options are available within the major:

1. Human Development and Family Science Option
2. Developmental Science for Health Professions Option

All students pursuing the HDFS B.S. are guided to complete a capstone experience customized to their interests. Capstones may include approved field experiences (internships), guided research experiences/

projects, and advanced coursework selected to align with individual student interests.

Human Development and Family Science Option

Available at the following campuses: Altoona, Brandywine, DuBois, Fayette, Harrisburg, Mont Alto, Scranton, Shenango, University Park, World Campus, York

This option focuses on the acquisition and application of scientific knowledge about development and family functioning across the life span for the purposes of enhancing personal and family development. Courses emphasize:

1. understanding the biological, psychological, and social development across the life span, and the structuring and functioning of families;
2. understanding basic theoretical and methodological issues; and
3. the development of applied skills in intervention and evaluation, prevention, and in the formulation of social policy.

Students in this option often pursue internships in service settings that work with children, youth, and/or adults. Typical employment settings include preschools, daycare centers, hospital programs for children, youth, and families, institutional and community mental health programs for individuals and families, programs for abused or neglected children and adolescents, women's resource centers, human resources programs, employee assistance programs, nursing homes, area agencies on aging and other community settings for older adults, and public welfare and family service agencies. This option also provides preparation for advanced training in careers in developmental or family research, teaching at a college or university, or for professional careers that require graduate training. Typical postgraduate pursuits of students completing this option include graduate study in human development, family studies, psychology, or sociology, or advanced professional training in psychology, law, behavioral health, counseling or social work, or other programs related to services for individuals and families.

Developmental Science for Health Professions Option

Available at the following campuses: Altoona, Brandywine, DuBois, Fayette, Mont Alto, Scranton, Shenango, University Park, York

This option is designed for students interested in focusing on human development/developmental science as a foundation to pursue health-related post graduate studies or work careers. This option guides students to acquire and apply scientific knowledge about human development (and family functioning) across the life span; emphasizing understanding biological, psychological, and social development across the life span. Additional coursework focuses on health across contexts. Students also select science foundation courses to complement their study of development across the lifespan and align with their career/post-graduate study interests. Typical postgraduate pursuits of students completing this option include graduate or professional studies in health-related areas (e.g. pediatrics, adolescent medicine, geriatrics, family medicine, psychiatry).

What is Human Development and Family Studies?

Penn State's Human Development and Family Studies (HDFS) program prepares students for careers across a wide range of human service, healthcare, and helping professions. The HDFS degree is grounded in research-based knowledge on the psychological, biological, social, cultural, and economic influences that impact the well-being of

individuals, families, and communities across the lifespan. HDFS coursework guides students to develop skills for working with and caring for diverse individuals and groups through emphasizing mindfulness, compassion, diversity, equity, advocacy and inclusion. Students take courses on infancy, childhood, and adolescent development, transitioning and thriving in adulthood, and healthy aging. Classroom experiences are supplemented by a range of engaged learning opportunities, including internships, research participation, and community partnerships through which HDFS students acquire skills preparing them for impactful careers. The program's flexible curriculum allows academic pathways and engagement experiences to be customized to align with students' career goals.

You Might Like This Program If...

- You are passionate about pursuing work focused on improving the lives and wellness of individuals, families, and communities.
- You are interested to learn about individual, family, community, and social factors influencing development as well as evidence-based practices that promote the cognitive, social, physical, and emotional well-being of children, adults, families, organizations, and communities.
- You are enthusiastic to use flexible degree requirements and integrated opportunities to pursue career exploration, experiential and engaged learning, and skill development specialized to your specific career goals.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Human Development and Family Studies, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	12-18
Requirements for the Major	60-67

3-4 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3-4 credits of GQ courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified

by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

BBH 407	Global Health Equity	
SOC 451	Health, Disease & Society	
Select 6 credits from the following courses in Advanced Development:		6
HDFS 405	Gender and Social Development	
HDFS 413	Developmental Problems in Adulthood	
HDFS 428	Infant Development	
HDFS 429	Advanced Child Development	
HDFS 432	Developmental Problems in Childhood and Adolescence	
HDFS 433	Developmental Transition to Adulthood	
HDFS 434	Perspectives on Aging	
HDFS 445	Development Throughout Adulthood	
HDFS 447	Issues in Gerontology	

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better
 Diversity and Development: Select 3 credits from HDFS at any level or choose from approved list of University-wide offerings 3
 Science and Health Foundations: Select 12 credits from approved list of University-wide offerings 12

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or

within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Understanding Development:** HDFS student will be able to demonstrate an understanding of the complexity of individual and family development across the life span in diverse contexts and changing environments.
 - Summarize, critique, and apply theories and concepts related to individual and family development from a multi-disciplinary, life-cycle perspective;
 - Articulate how biology, psychology, and history influence diversity in individuals, and in family structures and functions in a social/cultural context.
- **Evaluate and Apply:** HDFS student will be able to demonstrate the ability to evaluate and apply theory and research to practice and policy.
 - Demonstrate an understanding of the contribution of original research in human development;
 - Integrate and apply the findings of empirical research within a theoretical framework to human development;
 - Explain the strengths and weaknesses of various research methods in assessing human behavior;
 - Apply research skills in order to better understand in the use of research in agency practice;
 - Explain the process of planning and conducting research, including the role of the IRB;
 - Demonstrate skills to analyze and interpret data;
 - Apply theories to identify and resolve problems.
- **Analyze:** HDFS students will demonstrate the ability to analyze processes, policies, and contextual factors that affect the delivery of human services to individuals and families.
 - Demonstrate knowledge of history and policies for ethical conduct in the delivery of human services;
 - Examine environmental factors shaping individual and family interventions (such as political, social, economic, cultural, and technological);
 - Demonstrate an understanding of community-based programs and services;
 - Understand and articulate individual and family needs and roles of human service organizations in fulfilling those needs;
 - Demonstrate knowledge of HIPAA regulations;
 - Develop a working knowledge of and ability to evaluate community-based programs and services.
- **Ethics and Cultural Sensitivity:** HDFS students will demonstrate professional ethical and culturally sensitive standards of conduct.
 - Articulate understanding of theories, skills, and competencies of an effective helper;
 - Demonstrate knowledge of the main ethical, legal, clinical, professional and personal issues and challenges involved in the helping professions;
 - Demonstrate knowledge of informed consent for working with diverse groups of clients;
 - Understand and apply ethical decision making models;
 - Understanding how personal values and experiences influence one's ability to make professional decisions;

- Recognize stereotypical and prejudicial language and attitudes and their impact on the helping relationship.
- **Knowledge and Competence:** HDFS students will demonstrate knowledge and competence in helping, leadership, and administrative skills for human services.
 - Demonstrate knowledge about human resources in management and how to apply appropriate practices;
 - Demonstrate professional written, oral, and technology-based communication skills;
 - Demonstrate clinical and/or administrative abilities human service professionals must utilize in their practice with clients. Skill areas to be focused upon include assessment, referral, intervention, and administrative skills;
 - Identify the different organizational needs of public, private-for-profits, and private-not-for-profit agencies;
 - Translation of content knowledge to practical settings.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Human Development and Family Studies, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Total Credits 119.5

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

¹ HDFS 418 - Honors students take HDFS 300H and 310M (an honors writing intensive course).

² HDFS 401 - Enroll in HDFS 401 only if HDFS 402 and HDFS 495C will be taken.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes

- GWS, GQ, GA, GH, GS, GN and GHW are codes used to identify General Education requirements.
- US, IL, and US;IL are codes used to designate courses that satisfy University United States/International Cultures requirements. All students are required to take one IL and one US course before graduation. A course designated as US;IL may be used as a US or an IL, not both.
- W suffix signifies the course satisfies the University Writing Across the Curriculum requirement.

Program Notes

Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."

Career Paths

Demand for HDFS graduates is strong because the major provides students with a valuable foundation for understanding important social trends and guides students to develop the knowledge and skills to positively impact individuals, families, and communities. HDFS Students can customize their degree to align with career interests. HDFS students specialize through minors, certificates and credit-based hands-on learning opportunities.

HDFS students complete a capstone experience customized to their interests and designed to enhance their qualifications. Capstones include

approved internships, guided research experiences, or advanced courses. The HDFS department capstone program provides:

- A capstone preparation class to help students explore interests, identify opportunities, and submit professional applications - and -
- Experienced capstone coordinators to help students get the most out of the capstone experience

Careers

Many HDFS graduates go directly to the workplace based on their understanding of people, their knowledge of group dynamics, and their skills in training and in program development and evaluation. HDFS students pursue positions right out of college in:

- Health and Human Services Professions (e.g. youth and family services, child advocacy, health education)
- Early Childhood Development (e.g. early childhood education, early intervention specialists, applied behavioral analysis)
- Child and Youth Services
- Foster Care and Adoption
- Family Education and Intervention
- Services for Older Adults
- Services for Individuals with Disabilities
- Program Administration and Advocacy (e.g. volunteer coordination, program management and evaluation, human resources)

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE HUMAN DEVELOPMENT AND FAMILY STUDIES PROGRAM (<https://hhd.psu.edu/undergraduate/internships-and-career-opportunities/career-areas-major/careers-human-development-and/>)

Opportunities for Graduate Studies

A degree in HDFS is also a great foundation for individuals who are interested in pursuing advanced professional training/graduate study in:

- Counseling (e.g., addiction counseling, marriage and family therapy, mental health counseling, counseling psychology, educational and vocational counseling)
- Social Work and Public Health
- Clinical Health Professions (e.g. psychiatry, pediatrics, adolescent medicine, family medicine, obstetrics and gynecology, geriatrics, occupational therapy)
- Program Administration and Management
- Special Education
- Family Law
- Public Policy and Advocacy
- Research (e.g., on lifespan human development, psychology, sociology, prevention)

Human Resource Management, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Human Resource Management minor prepares students for professional certification (Assurance of Learning, Professionals in

Human Resources (PHR) or Senior Professionals in Human Resources (SPHR)) and/or a career in human resource management by developing skills and competencies in managing diversity and equal opportunity, ethical and fair treatment of employees, human resource planning and staffing, employee training and development, compensation and benefits, performance management, labor relations, and protecting employee safety and health.

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

What is Human Resource Management?

Human Resource Management explores how the proper management of employees contributes towards organizational effectiveness. This area of study includes topics such as organizational behavior, employment relations systems and processes, human resource planning, recruitment and selection, performance management, training and development, negotiation and conflict resolution, and occupational health and safety.

You Might Like This Program If...

- You enjoy working with people and are interested in what motivates them.
- You are interested in training and development within a business environment.
- You would like to help a business interact better for and with its employees.
- You would like to work in human resources.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

No more than 12 credits may be utilized to fulfill the Capital College Management degree. The minor is not available to Human Capital Management majors.

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Human-Centered Design and Development, B.S. (Capital)

Begin Campus: Any Penn State Campus**End Campus:** Harrisburg

Program Description

The Human-Centered Design and Development major (HCDD) in the College of Information Sciences and Technology is a Bachelor of Science degree program that will educate students in the fundamental concepts and state-of-the-art skills in developing applications of technology for people, with a focus on learning outcomes needed to: a) identify opportunities to support human activity with technology; b) design and create useful and usable technology-mediated activities; and c) evaluate and iterate designed technologies in their context of use. Students graduating with a degree in HCDD will be positioned for successful careers in industry, government, and education, helping to ensure that our world of increasingly complex and pervasive technologies remains aligned with human aspirations, requirements, and limitations.

The HCDD major is interdisciplinary, combining foundational coursework in mathematics, statistics, information technology, and application development with specialized courses in social and psychological aspects of information and technology use, usability engineering, user research methods, and user interface design. The major draws on courses already taught as part of the IST BS degree, but also includes new courses that expand the user-centered analysis and design concepts and methodological rigor needed to succeed as an HCDD professional.

What is Human-Centered Design and Development?

Human-Centered Design and Development is the study of how to identify, design, build, and evaluate technologies to enhance people's lives. The field focuses on understanding people and their use of technology, the methods and tools used for designing and building effective technology solutions, and the modern information technologies used to create effective solutions. The field involves working with potential users and customers to understand their needs and unique contexts, and then how to design, build, and evaluate impactful products and services. Human-centered design and development integrates ideas from design thinking, human-computer interaction (HCI), interaction design, and user experience design with the skills and techniques needed for software development.

MORE INFORMATION ABOUT HUMAN-CENTERED DESIGN AND DEVELOPMENT (<https://ist.psu.edu/prospective/undergraduate/academics/hcdd/>)

You Might Like This Program If...

- You are passionate about designing and building interactive technologies
- You want to design, build, and evaluate web, mobile, and other software applications
- You enjoy working with people to understand how they live and how technology fits into their lives
- You want to design, conduct, and interpret data from user studies
- You embrace uncertainty and change, and are not afraid to fail on the path to getting things right

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY HUMAN-CENTERED DESIGN AND DEVELOPMENT (<https://ist.psu.edu/prospective/undergraduate/academics/hcdd/>)

Entrance to Major

To be eligible for the Human-Centered Design and Development (HCDD) major, students must:

1. Have completed the following entrance-to-major requirements with a grade of C or better in each: HCDD 113S or HCDD 113, IST 140 or (CMPSC 101 and IST 240) or CMPSC 121 or CMPSC 131, IST 210, IST 220, IST 242 or CMPSC 122 or CMPSC 132, STAT 200
2. Have achieved a minimum cumulative grade point average of 2.00 prior to and through the end of the semester during which the entrance to major is requested.

Degree Requirements

For the Bachelor of Science degree in Information Sciences and Technology, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	6-12
Requirements for the Major	78-84

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses, 3 credits of GS courses, 6 credits of GWS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

ENGL 15	Rhetoric and Composition	3

or ENGL 30H	Honors Rhetoric and Composition	
ENGL 202C	Effective Writing: Technical Writing	3
or ENGL 202D	Effective Writing: Business Writing	
PSYCH 100	Introductory Psychology	3
or SOC 3	Introductory Social Psychology	

Select 12 credits from the Application Focus course listings. These are listings maintained by the department as support of major courses. At least one course must be at the 400 level. Students may also complete a custom Application Focus course sequence with approval from an academic adviser and an HCDD teaching faculty member. Students may want to consider choosing courses that also fulfill US and/or IL requirements.

Additional Courses: Require a grade of C or better

HCDD 113S	Foundations of Human-Centered Design and Development FYS	3
or HCDD 113	Foundations of Human-Centered Design and Development	
IST 261	Application Development Design Studio I	3
or IST 361	Application Development Design Studio II	
MATH 110	Techniques of Calculus I	4
or MATH 140	Calculus With Analytic Geometry I	

Select one of the following: 3-6

IST 140	Introduction to Application Development	
CMPSC 121	Introduction to Programming Techniques	
CMPSC 131	Programming and Computation I: Fundamentals	
CMPSC 101 & IST 240	Introduction to Programming and Introduction to Computer Languages	

Select one of the following: 3-6

IST 242	Intermediate & Object-Oriented Application Development	
CMPSC 221 & CMPSC 122	Object Oriented Programming with Web-Based Applications and Intermediate Programming	
CMPSC 132 & CMPSC 221	Programming and Computation II: Data Structures and Object Oriented Programming with Web-Based Applications	

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Understanding Humans:** Understanding how humans' physical and cognitive capabilities inform interaction and experience design.
- **Understanding Context:** Understanding the context and technology requirements of users and other stakeholders, and articulating how design and evaluation concerns are affected by their context.
- **Modeling Human Activity:** Developing models of human activity with and without technology support.
- **Prototyping:** Envisioning, designing, and evaluating new technology prototypes using appropriate interaction modalities, styles and techniques.
- **Developing Production and Technologies:** Developing working, production technologies to address identified design opportunities.
- **Evaluating:** Applying and developing skills in a mix of qualitative and quantitative methods to collect and analyze formative and summative usability data.
- **Managing HCDD Projects:** Selecting, organizing and implementing design and development activities involving users and other stakeholders.
- **Communicating:** Communicating with colleagues, users, and other stakeholders about complex ideas describing actual and envisioned technology in use.
- **Enacting Ethics:** Understanding the importance of professional ethics and enacting these in human-centered design and development practice.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Human-Centered Design and Development, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 120

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ IST 495 is typically completed the summer after junior year, but may be completed at any time during the student's academic career.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will

replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

Advising Notes:

Students are encouraged to meet the general education requirements of inter-domain and linked courses in their general education credits.

Students are encouraged to complete the US and IL university requirements as part of their General Education course selections or, in some cases, as part of their Application Focus course selections.

Students pick one of the application focuses areas below or create a custom four-course application focus. Students must pick three credits at the 400 level. All twelve credits must be in the same application focus area.

Students in the Human-Centered Design and Development (HCDCA_BS) major are expected to complete 24 credits of upper-level course work in the major at Penn State Harrisburg. This is in compliance with Faculty Senate Policy 83-80.5.

Psychology

Code	Title	Credits

Business Administration (Harrisburg Students Only)

The Business Administration focus is for students who desire the opportunity to develop and apply skills relevant to businesses and other organizations. Included in this focus area are courses in the core business disciplines of accounting, finance, management, and marketing. Select at least twelve (12) credits from below, with at least three (3) credits at the 400 level.

Code	Title	Credits
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
ECON 102 or ECON 104	Introductory Microeconomic Analysis and Policy Introductory Macroeconomic Analysis and Policy	3
MIS 250	Introduction to Problem Solving with Spreadsheet Analysis and Information Systems Management	3
BA 243	Social, Legal, and Ethical Environment of Business	4
BA 364Y	International Business and Society	3

The following courses may require prerequisites:

Code	Title	Credits
MIS 301	Business Analytics	3
MIS 390	Foundations of Information Systems	3
MGMT 301	Basic Management Concepts	3
FIN 301	Corporation Finance	3
MKTG 301	Principles of Marketing	3
SCM 301	Supply Chain Management	3
MGMT 418	Project Planning and Resource Management	3
MGMT 420	Negotiation and Conflict Management	3
MGMT 433	Leadership and Team Building	3
MIS 420	Business Process Management	3

Custom Application Focus

There is an option for a student to create a custom 4-course application focus sequence. It must be a coherent sequence of courses that provides context for the student in terms of content relevant to the HCDD program. It must contain three credits of 400-level coursework, so it's important to consider course prerequisites when creating your custom application focus area. It must be selected in consultation with a teaching HCDD faculty member and an academic adviser.

Career Paths

Society increasingly recognizes the need for technologies designed to account for people's capabilities, needs, desires, and limitations. Human-Centered Design and Development graduates have many career paths available to them depending on their strengths, interests, and focus of study.

Students with more technical interests can become web and mobile application developers, front-end developers, and user interface/user

experience designers and developers. Those most interested in the human dimension of technology can become usability researchers, interaction designers, and product managers. In addition, there are many opportunities to pursue graduate study in these areas.

Humanities, B.A. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

This major helps students appreciate, understand, and interpret relationships among the arts, ideas, media, and values that have shaped Western and world cultures. Students are taught to become active learners who can synthesize, interpret, and communicate knowledge and experience through writing, speaking, and creative expression in a variety of media. The School helps students meet these goals by offering a range of interdisciplinary and discipline-based courses in the arts, art history, communication studies, English, history, literature, music, philosophy, theatre, and writing. The course of study includes interdisciplinary courses which examine topics and time periods from the perspectives of multiple Humanities disciplines. These courses engage students in cross-disciplinary critical thinking and analysis and prepare them for work in an increasingly interdisciplinary world. Students also choose two Humanities subfields to investigate in greater depth, choosing from history and global cultures; the visual and performing arts; philosophy and religious studies; and literature and writing. Students are also encouraged to combine this major with a minor in such fields as business administration, writing, and communications. The Humanities major prepares students for careers in the arts, arts administration, business, corporate communications, government, teaching, museum work, and law, as well as providing a foundation for graduate study in a liberal arts field.

What is Humanities?

Humanities is an area of study that focuses on combined studies and research in the humanities subjects as distinguished from the social

and physical sciences, emphasizing languages, literatures, art, music, philosophy, religion, creative and professional writing, theater, history, and global cultures.

You Might Like This Program If...

- You are interested in critical thinking and interdisciplinary analysis.
- You are drawn to literature and the arts.
- You want to prepare for a professional field such as medicine or law.
- You want a career in the arts, teaching, communications, business, government, or museum work.

Entrance to Major

Entry to the Humanities major requires the completion of 27.1 or more credits and a 2.00 or higher cumulative grade-point average.

Degree Requirements

For the Bachelor of Arts degree in Humanities, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	0-15
Bachelor of Arts Degree Requirements	24
Requirements for the Major	51

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Requirements for the Major

At least 36 of the last 60 credits must be earned at Penn State, according to University Policy 83-80.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits

Supporting Courses and Related Areas¹

Select 12 credits in one of the four following areas and 9 credits in a 21 second area:

History and Global Cultures

HIST, CMLIT, and SPAN courses	
CAS 271N	Intercultural Communication
ENGL 486	The World Novel in English
ENGL 488	
INTST 100	Introduction to International Studies

Performing and Visual Arts and Art History

ART, ARTH, INART, MUSIC, AND THEA courses	
COMM 215	Basic Photography for Communications
COMM 241	Graphic Design for Communications
COMM 242	Basic Video/Filmmaking
COMM 250	Film History and Theory

Philosophy and Religious Studies

PHIL and RLST courses	
-----------------------	--

Literature and Writing

ENGL and CMLIT courses	
COMM 230W	Writing for Media
COMM 260W	News Writing and Reporting
COMM 332	Reporting
COMM 346	Writing for the Screen I
COMM 474	Depth Reporting

Select 12 credits from AMST, ART, ARTH, CAS, CHNS, CMLIT, COMM, 12 ENGL, FR, HIST, HUM, INART, MUSIC, PHIL, RLST, SPAN, or THEA and/or 12 credits that can be used toward a minor in an area of the student's interests

¹ At least 15 credits of supporting courses must be at the 400 level.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or

within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

- Think critically about materials from varied Humanities disciplines and points of view.
 - Write analytical and interpretive essays that effectively integrate the perspectives of two or more Humanities disciplines.
 - Comprehend, interpret, and evaluate visual and written texts.
- Write and speak clearly and persuasively about complex subjects involving multiple Humanities disciplines and perspectives.
 - Demonstrate the ability to use spoken, written, and visual language to communicate complex ideas.
 - Employ a wide range of strategies to communicate effectively with a variety of audiences.
- Understand the methods, approaches, and significant content of several disciplines within the Humanities.
 - Identify and assess a variety of interpretive methods in the Humanities.
 - Effectively employ a variety of the interpretive methods in the Humanities in written work and oral presentations.
 - Explain and analyze the relationship between texts and the historical periods that produced them.
- Demonstrate the ability to conduct in-depth research in the Humanities.
 - Locate, evaluate, and interpret major scholarship in the Humanities.
 - Demonstrate understanding of significant questions and problems in the Humanities.
 - Integrate source materials effectively into essays on a variety of topics.
- Apply and extend the understanding of goals 1 through 4 effectively in internships, employment, further academic or professional study, creative work, or voluntary activity after graduation.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of

both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Humanities, B.A. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 120-123

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ Select course in first subfield, (1) for the subfield of history and global cultures, select from HIST, CMLIT, SPAN (all courses with those prefixes), CAS 271, COMM 350, ENGL 486, ENGL 488, INTST 100; for the subfield of performing and visual arts and art history, select from ART, ART H, INART, MUSIC, THEA (all courses with those prefixes), COMM 215, COMM 241, COMM 242, COMM 250; for the subfield of philosophy and religious studies: select from PHIL, RL ST (all courses with those prefixes) for the subfield of literature and writing, select from ENGL, CMLIT (all courses with those prefixes), COMM 230W, COMM 260W, COMM 332, COMM 346, COMM 474.

² Select course in second subfield (2), for the subfield of history and global cultures, select from HIST, CMLIT, SPAN (all courses with those prefixes), CAS 271, COMM 350, ENGL 486, ENGL 488, INTST 100; for the subfield of performing and visual arts and art history, select from ART, ART H, INART, MUSIC, THEA (all courses with those prefixes), COMM 215, COMM 241, COMM 242, COMM 250; for the subfield of philosophy and religious studies: select from PHIL, RL ST (all courses with those prefixes) for the subfield of literature and writing, select from ENGL,

CMLIT (all courses with those prefixes), COMM 230W, COMM 260W, COMM 332, COMM 346, COMM 474.
³ Select HUM required course (3), select from HUM 150, HUM 311, HUM 410, HUM 430, HUM 453, HUM 460, HUM 461, HUM 491, HUM 494, HUM 495, HUM 496, HUM 497 or HUM 499.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Program Notes

Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."

Career Paths

The Humanities major prepares students for careers in the arts, arts administration, business, corporate communications, government, teaching, museum work, and law. Penn State Harrisburg's Career Services office provides numerous resources for students, including: assistance with resumes and interview preparation online resources for finding full or part time, and co-op/intern positions strategies and information on attending and getting the most out of job/intern fairs information and guidance in preparing for graduate study at Penn State or elsewhere.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE HUMANITIES PROGRAM (<https://harrisburg.psu.edu/humanities/humanities-ba/>)

Opportunities for Graduate Studies

The Humanities major also provides a foundation for graduate study in a liberal arts field, including Penn State's Master of Arts in Humanities program.

Information Sciences and Technology for Accounting, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

Accounting remains a vital organizational function which, in today's business environment, impacts the strategic direction of the firm. Technology has changed the manner in which business organizations are supported by accounting. Thus, accounting professionals with technology skills and technology professionals with accounting skills are extremely valuable in today's modern organization. This new minor will provide students with this integration of knowledge in these two fields.

Entrance to Minor

Students must apply for entrance to the minor no later than the beginning of their sixth semester.

Program Requirements

Requirement	Credits
Requirements for the Minor	21

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
ACCTG 403	Auditing	3
ACCTG 432	Accounting Information Systems	3
ACCTG 471	Intermediate Financial Accounting I	3

Information Sciences and Technology, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

This major is structured to provide students with the theoretical frameworks and skill sets necessary to compete and be productive in the information technology-intensive global context that defines the new "Information Age." Specifically, the degree will be focused on a program that will build an understanding of core information technologies and

related areas of study; will prepare students for the practical application of various information sciences and related technologies; and engage students in sharpening their abilities to think critically and to work in teams. All this will be done with considerable interdisciplinary integration in order to expose students to the cognitive, social, institutional, and global environments of IST. Team projects in most courses, a required internship, and a senior capstone experience provide additional, focused venues for involving students in the cutting-edge issues and technologies of the field.

Information Context: People, Organizations, and Society Option

Available at the following campuses: University Park

This option focuses on how information technology affects social change and the delivery of information to the consumer. This includes the human-machine interface; organization and retrieval of information; digital libraries; information and telecommunications services; information and media industry structures; software services and intermediaries; telecommunications and information law and policy; sociological aspects of technology change; multimedia; and art, design, and aesthetics.

Information Systems: Design & Development Option

Available at the following campuses: Harrisburg, World Campus

This option is focused on expanding the skills needed to develop advanced information technology systems using state-of-the-art tools and techniques. The emphasis is on providing the student with both knowledge in the design, implementation, testing and evolution of complex software systems as well as a set of project-oriented, team-programming experiences.

Information Technology: Integration & Application Option

Available at the following campuses: Harrisburg, World Campus

This option is designed to prepare students to use information technology to realize a variety of system-based goals (e.g., reliability, accessibility, efficiency, etc.). It is focused on developing a theoretical foundation and the skill set needed for integrating information technology into different systems for the purpose of enhancing system performance. The emphasis is on providing the student with both the theoretical frameworks needed to use information technology as a system attribute as well as a set of application-oriented experiences and skills.

What is Information Sciences and Technology?

Information Sciences and Technology is a discipline that explores how we can strengthen the power of information and technology, and use it to increase human potential. This includes focusing on creating innovative systems and technological solutions that benefit businesses, organizations, and individuals, and understanding the role of technology in how we live our lives.

MORE INFORMATION ABOUT INFORMATION SCIENCES AND TECHNOLOGY (<https://ist.psu.edu/prospective/undergraduate/academics/ist/>)

You Might Like This Program If...

- You want to develop new software and web applications, help businesses operate more effectively by creating and implementing technological solutions, or understand how technology is connected to broader social issues.
- You are interested in technology but also want to work with people.
- You enjoy coming up with creative solutions to difficult challenges.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY INFORMATION SCIENCES AND TECHNOLOGY (<https://ist.psu.edu/prospective/undergraduate/academics/ist/>)

Entrance to Major

To be eligible for entrance to the Information Sciences and Technology (ISTBS) major, students must:

1. have completed the following entrance-to-major requirements with a grade of C or better in each: IST 110; IST 140 (or equivalent CMPSC 101 or CMPSC 121) IST 210; and IST 220.
2. have achieved a minimum cumulative grade point average of 2.00 prior to and through the end of the semester during which the entrance-to-major procedure is carried out.

Degree Requirements

For the Bachelor of Science degree in Information Sciences and Technology, a minimum of 125 credits is required:

Requirement	Credits
General Education	45
Electives	8
Requirements for the Major	84

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes 12 credits of General Education courses: 6 credits of GQ courses; 3 credits of GS courses; and 3 credits of GWS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
STAT 200	Elementary Statistics	4
<i>Prescribed Courses: Require a grade of C or better</i>		
IST 110	Information, People and Technology	3
IST 210	Organization of Data	3
IST 220	Networking and Telecommunications	3
IST 230	Language, Logic, and Discrete Mathematics	3
IST 301	Information and Organizations	3
IST 331	Foundations of Human-Centered Design	3
IST 440W	Information Sciences and Technology Integration and Problem Solving	3
IST 495	Internship	1

Additional Courses		
Select one of the following: 3		
ECON 14	Principles of Economics	
ECON 102	Introductory Microeconomic Analysis and Policy	
ECON 104	Introductory Macroeconomic Analysis and Policy	
<i>Additional Courses: Require a grade of C or better</i>		
ENGL 202C	Effective Writing: Technical Writing	3
or ENGL 202D	Effective Writing: Business Writing	
MATH 110	Techniques of Calculus I	4
or MATH 140	Calculus With Analytic Geometry I	
Select one of the following: 3		
CMPSC 101	Introduction to Programming	
CMPSC 121	Introduction to Programming Techniques	
IST 140	Introduction to Application Development	
Supporting Courses and Related Areas		
Attainment of third-level proficiency in a single world language ¹ 12		
Select 6 credits of international courses in foreign culture from College-approved list 6		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Select 3 credits at the 400 level in emerging issues and technologies from College-approved list 3		
Requirements for the Option		
Select an option 24		

¹ Proficiency must be demonstrated by either examination or course work. See the admission section of the general information in this Bulletin for the placement policy for Penn State world language courses.

Requirements for the Option Information Context: People, Organizations, and Society Option (24 credits)

Available at the following campuses: University Park

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
IST 431	The Information Environment	6
& IST 432	and Legal and Regulatory Environment of Information Science and Technology	
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
IST 240	Introduction to Computer Languages	3
or IST 242	Intermediate & Object-Oriented Application Development	
IST 302	IT Project Management	3
or IST 413	Usability Engineering	
Supporting Courses and Related Areas		
Select 12 credits from College-approved list (at least 3 credits at the 400-level and no more than 6 credits below the 200-level) 12		

Information Systems: Design & Development Option (24 credits)

Available at the following campuses: Harrisburg, World Campus

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
IST 242	Intermediate & Object-Oriented Application Development ¹	3
IST 311	Object-Oriented Design and Software Applications	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
IST 261	Application Development Design Studio I	3
or IST 361	Application Development Design Studio II	
Select 6 credits of the following: 6		
IST 411	Distributed-Object Computing	
IST 412	The Engineering of Complex Software Systems	
IST 413	Usability Engineering	
Supporting Courses and Related Areas		
Select 9 credits from College-approved list (at least 3 credits must be at the 400-level) 9		

¹ Students in the Information Systems: Design and Development Option are expected to take IST 242 prior to taking the prescribed and additional courses for that option.

Information Technology: Integration & Application Option (24 credits)

Available at the following campuses: Harrisburg, World Campus

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
IST 302	IT Project Management	3
IST 420	Fundamentals of Systems and Enterprise Integration	3
IST 421	Advanced Enterprise Integration: Technologies and Applications	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
IST 240	Introduction to Computer Languages	3
or IST 242	Intermediate & Object-Oriented Application Development	
Supporting Courses and Related Areas		
Select 12 credits from College-approved list (at least 3 credits at the 400-level and no more than 6 credits below the 200-level) 12		

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Apply Information or Security Sciences:** Understand and apply the interdisciplinary, theoretical knowledge of the information sciences or security sciences.
- **Apply Problem-Solving Techniques:** Understand, apply and adapt various problem-solving strategies, using appropriate technology and methods.
- **Committed to Learning:** Commit to the continuous acquisition of relevant knowledge for professional development by self-teaching and/or on-going education and learning.
- **Communicate Effectively:** Communicate and work effectively (both individually and in teams) with a range of perspectives and audiences through a variety of media.
- **Understand Responsibilities:** Understand professional responsibilities in terms of the ethical, legal, security and social aspects of any given problem and its solution.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

- IST 446 - An Introduction to Building Computer/Video Games (3)
- IST 452 - Legal and Regulatory Environment of Privacy and Security (3)
- IST 454 - Computer and Cyber Forensics (3)

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- 1 Credit of IST 495 - Internship is required
- 30 Credits of GA, GH, GHW, GN, GS to include 6 Integrative Studies credits
- 15 Credits of GQ and GWS require a grade of "C" or better

Program Notes:

- Please note: IST courses are only offered once per year.
- IST 495 Internship: (1) Supervised work experience where the student is employed in a position related to the student's major. An internship is typically completed the summer after the junior year, but it may be completed at any time during the student's academic career. Students are required to complete one internship but may complete three. A grade of C or better must be earned in this course. For more information, contact your academic adviser.
- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."
- Students in the Information Sciences and Technology (ISSCA_BS) major are expected to complete 24 credits of upper level course work in the major and the senior capstone course for the major at Penn State Harrisburg. This is in compliance with Faculty Senate Policy 83-80.5.

Integration and Application Option: Information Sciences and Technology, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

• Advising Notes:

- 1 Credit of IST 495 - Internship is required.
- 30 Credits of GA, GH, GHW, GN, GS to include 6 Integrative Studies Credits.
- 15 Credits of GQ and GWS require a grade of "C" or better.

Program Notes:

- IST 4XX: Select 3 credit from:
 - IST 402 - Emerging Issues and Technologies (3)
 - IST 441 - Information Retrieval and Organization (3)
 - IST 446 - An Introduction to Building Computer/Video Games (3)
 - IST 452 - Legal and Regulatory Environment of Privacy and Security (3)
 - IST 454 - Computer and Cyber Forensics (3)

- Please note: IST courses are only offered once per year.
- IST 495 Internship: (1) Supervised work experience where the student is employed in a position related to the student's major. An internship is typically completed the summer after the junior year, but it may be completed at any time during the student's academic career. Students are required to complete one internship but may complete three. A grade of C or better must be earned in this course. For more information, contact your academic adviser.
- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."
- Students in the Information Sciences and Technology (ISSCA_BS) major are expected to complete 24 credits of upper level course work in the major and the senior capstone course for the major at Penn State Harrisburg. This is in compliance with Faculty Senate Policy 83-80.5.

Career Paths

IST allows you to explore some of the biggest challenges facing society and work to solve them by leveraging information and using technology. It blends skills from a number of fields – computer science, business, psychology, math, sociology, political science – so you can help people and organizations thrive. IST's Office of Career Solutions helps students navigate their internship and career development in the field through coaching, workshops, interview preparation, resume reviews, career fairs, job postings, and networking opportunities.

Careers

Because our courses blend technical knowledge with skills in communication and business, an IST degree allows for careers in nearly every industry including consulting, business, government, defense, entertainment, and medicine.

Information Sciences and Technology/Finance, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Information Sciences and Technology/Finance Minor is to enhance skills of students in the information sciences and finance. More organizations are integrating technology as part of their business operations, including finance. Finance is a key function of every business organization. Therefore, technology professionals with finance skills, and finance professionals with technology skills are highly valuable in any organization.

What is Information Sciences and Technology/Finance?

Information Sciences and Technology/Finance is the area of study concerned with the design, implementation, testing and evolution of complex software systems, especially those related to a business' financial operations.

You Might Like This Program If...

- You enjoy numbers and "real world" applications of math.
- You are interested in technology and how businesses and banks use it to manage their assets.
- You want a career in technology as it relates to business or finance.

Entrance to Minor

Students must apply for entrance to the minor no later than the beginning of their seventh semester.

Program Requirements

Requirement	Credits
Requirements for the Minor	21

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Additional Courses: Require a grade of C or better

Select 3 credits of FIN at the 400-level in consultation with an adviser 3

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Information Systems, B.S.

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The B.S. in Information Systems is a STEM-designated program that equips students with information systems competencies and business knowledge required to plan for, design, implement, and manage digital assets to support business operations and management of organizations. Students are empowered with digital and analytics capabilities required to leverage current and emerging technologies to help organizations achieve their strategic business objectives.

The B.S. in Information Systems builds on the business common core, which includes coursework in accounting, marketing, management, finance, and supply chain management in order to enable students to excel in future careers such as IT Consultant, Data Analyst (Data Analytics), Applications Developer, and Information Security Specialist. In addition, students in the major have the option of taking nine credits of supporting work in three specialty areas: (1) systems design; (2) data and business analytics; and (3) computing security.

What is Information Systems?

Information systems is the application of business intelligence, and design and development to resolve problems. The program is designed to help create the next generation of IS professionals who become experts in developing, applying, modifying, and strategizing technology to support IT-enabled change in organizations and achieve strategic objectives. This degree will prepare students to work with other business professionals to create platforms that integrate digital technologies to improve business processes and managerial decision making.

You Might Like This Program If...

- Your career interests intersect at business and technology.
- You are passionate about creating high-tech solutions to organizational and societal challenges.
- You are interested in application development and programming.
- You are curious about using business analytic methods to support business operations and management decision making.
- You are interested in leveraging current and emerging technologies to improve business processes and facilitate business transformation.

Entrance to Major

Entry to the Information Systems major requires the completion of 8 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30H or ESL 15, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301, SCM 200 or STAT 200; and a 2.00 or higher cumulative grade-point average.

Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business Administration at Penn State Harrisburg.

Degree Requirements

For the Bachelor of Science degree in Information Systems, a minimum of 121 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	94

18 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.

Consistent with Senate policy, at least 24 credits of coursework in the major and the capstone course must be completed at the Capital College to earn the degree.

Senate Policy 83-80.5 stipulates that the college dean and program faculty may require up to 24 credits of coursework in the major to be taken in the college where the degree is earned. Based on this policy, the

School of Business Administration has set the following credit earning limitations for INFSY_BS majors:

1. Twenty-one credits of 300/400 level prescribed and additional courses in the major field must be completed at Harrisburg.
2. Six additional credits of 300/400 level supporting courses must also be completed at Harrisburg. See the Information Systems Suggested Academic Plan for details.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

D. Individualized Concentration		
Course selections completed in consultation with an adviser		

Supporting Courses and Related Areas

Select 6 credits from 200-400 level business courses from: ACCTG, BA, ECON, FIN, MGMT, MIS, MKTG, or SCM in consultation with an academic adviser and in support of the student's interests

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Information Systems and M.S. in Information Systems

Requirements for the Integrated B.S. in Information Systems and M.S. in Information Systems can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/information-systems/#integratedundergradgradprogramstext>).

Integrated B.S. in Information Systems and M.B.A. in Business Administration

Requirements for the Integrated B.S. in Information Systems and M.B.A. in Business Administration can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/business-administration-capital/#integratedundergradgradprogramstext>).

Learning Outcomes

Student graduates of our baccalaureate degree programs should be:

1. Effective communicators.
 - a. Present verbally, thoughts and ideas in a way that can be clearly understood by a target audience.
 - b. Convey ideas in a clear, coherent manner in written communication.
2. Ethical and socially responsible.
 - a. Be competent in analyzing social and ethical decision making issues in organizations.
3. Critical thinkers.
 - a. Be able to think and identify multiple dimensions of company issues and performances and make an assessment of company performances in achieving financial and strategic objectives, tracking their achievements, and giving management of companies a more complete and balanced view of how the organization is performing.
4. Competent in the Information Systems Discipline.
 - a. Demonstrate knowledge in technologies that support the information environment.
 - b. Demonstrate knowledge in business/organizational procedures that are supported by technology.
 - c. Demonstrate general skills and abilities that promote good communication, problem-solving and analytical abilities as well as the ability to work in a collaborative environment.
 - d. Demonstrate skills to participate in and lead multidisciplinary teams in the development, implementation and management of information technology solutions.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary

academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- 30 Credits of GA, GH, GHW, GN, GS to include 6 Integrative Studies credits.
- 15 Credits of GWS, and GQ require a grade of "C" or better.
- Courses required for the major must generally be taken within 10 years of entrance to the major.
- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)." BA 364 (US/IL) may be used to meet either the IL or US requirement but may be used to fulfill only 3 of the 6 credit requirement.
- Students in the Information Systems (INFSY_BS) major are expected to complete 24 credits of upper-level course work in the major at Penn State Harrisburg. This is in compliance with Faculty Senate Policy 83-80.5.

Career Paths

The B.S. in Information Systems prepares students to meet the rising demand for well-educated IS professionals in business, education, healthcare, and government. Salaries for IS graduates are higher than typical business majors and even higher for those who complete an internship.

Careers

There is an ongoing shortage of people who have both the IT skills and the business acumen to create a competitive advantage in the global marketplace. A recent report from the 2022 Association of Information Systems IS Job Index (<https://isjobindex.com/>) indicates that the IS job market is flourishing. This same report shows the national placement rate is 81%. The most popular jobs are in data analytics, consulting, application development, information security analyst, and systems analyst.

Employers of recent IS graduates include Capital Blue Cross, CGI Federal, Deloitte, Ernst and Young, Highmark Health, RPI Consultants, Lockheed Martin, Select Medical, Shell, and Universal Health Services.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE INFORMATION SYSTEMS PROGRAM (<https://isjobindex.com/>)

Opportunities for Graduate Studies

Penn State Harrisburg's MS in Information Systems is STEM-designated degree program designed to meet the increasing need for technically grounded, upper-level information resources managers within business organizations. A limited number of academically superior B.S. in Information Systems candidates are provided the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Information Systems and the Master of Science in Information Systems in five years.

Accreditation

The B.S. in Information Systems offered by the School of Business Administration at Penn State Harrisburg, the Capital College, is accredited by AACSB International – The Association to Advance Collegiate Schools of Business. Synonymous with the highest standards of excellence since 1916, AACSB provides quality assurance, business education intelligence, and professional development services to over 1,600 member organizations and more than 800 accredited business schools worldwide. In addition, AACSB International (AACSB) connects educators, students, and business to achieve a common goal: to create the next generation of great leaders.

End Campus: Harrisburg

Program Description

The Integrative Science major is an interdisciplinary degree that aims to provide a broad, general education in science. The Bachelor of Science (B.S.) curriculum is designed specifically for students who have education goals relating to scientific theory and practice across disciplinary areas, and who seek a high degree of flexibility to obtain their educational objectives. After completing foundation courses in biology, calculus, chemistry, physics, and statistics, students select additional science courses from designated areas to customize the curriculum to their own interests. A large number of supporting credits enable students to incorporate significant breadth or specialization into their academic training, such as through courses in business, computer and information science, health science, social science, and other fields.

This major helps prepare students for careers in many different job sectors including agriculture, biotechnology, chemistry, education, government, industry, medicine, pharmaceutical, research & development, sustainability, and more. Graduates of this major pursue diverse career paths and hold a variety of roles such as research scientist, data analyst, technician, program coordinator, project manager, consultant, and laboratory associate. The degree can also be tailored to meet specific requirements of professional programs such as medical, dental, physician assistant, pharmacy, or law school, as well as graduate school.

General Science Option

Available at the following campuses: *Abington, Berks, Harrisburg, Scranton, University Park, York*

The General Science option of the B.S. Integrative Science degree allows for the most flexibility.

Achievement in a more specialized set of goals can be met by selecting one of the other B.S. options offered:

Biological Sciences and Health Professions Option

Available at the following campuses: *University Park*

Legal Studies, Government Service, Public Policy Option

Available at the following campuses: *University Park*

Life Sciences Option

Available at the following campuses: *Abington, Berks, Harrisburg, Scranton, York*

Mathematical Sciences Option

Available at the following campuses: *Abington*

Secondary Education Option

Available at the following campuses: *Harrisburg*

Not all of these options are available at all locations. See the Science program director at your College for details regarding program curriculum at your location.

What is Integrative Science?

The Integrative Science major provides a broad and interdisciplinary foundation in the natural sciences. The Integrative Science BS program uses the principles of chemistry, physics, and life sciences to understand how these integrate over general areas including biological sciences and health professions, public policy, and science research and development.

You Might Like This Program If...

- You like learning by doing hands-on experiments.
- You are curious about the natural world and how science disciplines come together to explore and understand it.
- You are intrigued by science and desire a career in current and emerging interdisciplinary science disciplines, health professions, or melding science with law, policy or business.

Entrance to Major

In order to be eligible for entrance to the Integrative Science major, a student at any location must have:

1. attained at least a 2.00 cumulative grade-point average;
2. completed MATH 140 with a grade of C or better;
3. completed at least two of the following courses, BIOL 110; CHEM 110; PHYS 211 or PHYS 250, with a grade of C or better.

Entrance to the Integrative Science Secondary Education option requires the following additional requirements:

1. completed at least one of the following courses, BIOL 220W or BIOL 230W or BIOL 240W; PHYS 250, with a grade of C or better;
2. attained at least a 3.00 cumulative grade-point average;
3. completed ENGL 15 or ENGL 30H;
4. completed 3 credits of literature from a department-approved list with a grade of C or better;
5. completed 6 credits of college-level mathematics (GQ MATH or STAT prefixes) with a grade of C or better;
6. satisfy any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for the major;
7. submission to the Teacher Education Office of current and clear background checks as required by the Pennsylvania Department of Education;
8. submission of documentation of 20 pre-major fieldwork hours.

Degree Requirements

For the Bachelor of Science degree in Integrative Science with an option in General Science; Biological Sciences and Health Professions; Legal Studies, Government Service, Public Policy; Life Science; and Mathematical Science, a minimum of 120 credits is required, with at least 15 credits at the 400 level. For the Bachelor of Science degree in Integrative Science with an option in Secondary Education, a minimum of 125 credits is required, with at least 15 credits at the 400 level.

Requirement	Credits
General Education	45
Requirements for the Major	90-110

13-30 of the 45 credits for General Education are included in the Requirements for the Major. For the General Science Option; Biological Sciences and Health Professions Option; Legal Studies, Government Service, Public Policy Option; Life Science Option this includes: 9 credits of GN courses and 4-6 credits of GQ courses. For the Mathematical Science Option this includes: 9 credits of GN courses and 6 credits of GQ courses. For the Secondary Education Option this includes: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses (ENGL 202C); 3 credits of GH courses (literature department list); 6 credits of GS courses (EDPSY 14 and HDFS 239); 3 credits of Integrative Studies courses (EDUC 466N).

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
CHEM 111	Experimental Chemistry I	1
CHEM 112	Chemical Principles II	3
CHEM 113	Experimental Chemistry II	1
<i>Prescribed Courses: Require a grade of C or better</i>		
BIOL 110	Biology: Basic Concepts and Biodiversity	4
CHEM 110	Chemical Principles I	3
MATH 140	Calculus With Analytic Geometry I	4
Requirements for the Option		
Select an option		74-94

Requirements for the Option General Science Option (74 credits)

Available at the following campuses: Abington, Berks, Harrisburg, Scranton, University Park, York

Code	Title	Credits
Additional Courses		
STAT 200 or STAT 250	Elementary Statistics Introduction to Biostatistics	3-4
Select 4 credits from the following:		4
BIOL 161 & BIOL 162	Human Anatomy and Physiology I - Lecture and Human Anatomy and Physiology I - Laboratory	
BIOL 220W	Biology: Populations and Communities	
BIOL 230W	Biology: Molecules and Cells	
BIOL 240W	Biology: Function and Development of Organisms	
Select 8-12 credits from the following:		8-12
PHYS 211 & PHYS 212 & PHYS 213 & PHYS 214	General Physics: Mechanics and General Physics: Electricity and Magnetism and General Physics: Fluids and Thermal Physics and General Physics: Wave Motion and Quantum Physics ¹	

PHYS 250 & PHYS 251	Introductory Physics I and Introductory Physics II ¹	
------------------------	---	--

Supporting Courses and Related Areas

Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser	3
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser	3
Select 3 credits in Integrative and Applied Sciences from department approved course list in consultation with adviser	3
Select 6 credits of 400-level courses	6
Select 21-26 credits from program list ^{2,3}	21-26
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>	
Select 18 credits in life, mathematical, or physical sciences, with at least 9 credits at the 400 level ^{4,5}	18

¹ PHYS 211 and PHYS 250 require a grade of C or better.

² A maximum of 12 credits of Independent Study (296, 496) may be applied toward credits for graduation.

³ Students may apply ROTC credits toward the Program List.

⁴ Only the 9 credits at the 400 level require a grade of C or better.

⁵ Life sciences include BIOL, BIOTC, BMB, FRNSC, MICRB. Mathematical sciences include CMPSC, DS, MATH, STAT. Physical sciences include ASTRO, CHEM, PHYS.

Biological Sciences and Health Professions Option (74 credits)

Available at the following campuses: University Park

Code	Title	Credits
Prescribed Courses		
HPA 101	Introduction to Health Services Organization	3
Additional Courses		
STAT 200 or STAT 250	Elementary Statistics Introduction to Biostatistics	3-4
Select 4 credits from the following:		4
BIOL 161 & BIOL 162	Human Anatomy and Physiology I - Lecture and Human Anatomy and Physiology I - Laboratory	
BIOL 220W	Biology: Populations and Communities	
BIOL 230W	Biology: Molecules and Cells	
BIOL 240W	Biology: Function and Development of Organisms	
Select 3-4 credits from the following:		3-4
BIOL 222	Genetics	
BIOL 230W	Biology: Molecules and Cells	
BIOL 322	Genetic Analysis	
BMB 211	Elementary Biochemistry	
BMB/MICRB 251	Molecular and Cell Biology I	
MICRB 201	Introductory Microbiology	
Select 6-8 credits from the following:		6-8
CHEM 202 & CHEM 203	Fundamentals of Organic Chemistry I and Fundamentals of Organic Chemistry II	
CHEM 210 & CHEM 212 & CHEM 213W	Organic Chemistry I and Organic Chemistry II and Laboratory in Organic Chemistry - Writing Intensive	
Select 8-12 credits from the following:		8-12

PHYS 211 & PHYS 212 & PHYS 213 & PHYS 214	General Physics: Mechanics and General Physics: Electricity and Magnetism and General Physics: Fluids and Thermal Physics and General Physics: Wave Motion and Quantum Physics ¹

PHYS 250 & PHYS 251	Introductory Physics I and Introductory Physics II ¹	
------------------------	--	--

Supporting Courses and Related Areas

Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser	3
--	---

Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser	3
--	---

Select 6 credits of 400-level courses	6
---------------------------------------	---

Select 21-29 credits from program list ^{2,3}	21-29
---	-------

Supporting Courses and Related Areas: Require a grade of C or better

Select 9 credits of 400-level BMB, BIOL, BIOTC, or MICRB courses	9
--	---

¹ PHYS 211 and PHYS 250 require a grade of C or better.

² A maximum of 12 credits of Independent Study (296, 496) may be applied toward credits for graduation.

³ Students may apply ROTC credits toward the Program List.

Mathematical Science Option (74 credits)

Available at the following campuses: Abington

Code	Title	Credits
Prescribed Courses		
MATH 220	Matrices	2-3
<i>Prescribed Courses: Require a grade of C or better</i>		
MATH 141	Calculus with Analytic Geometry II	4
Additional Courses		
CMPSC 122 or CMPSC 132	Intermediate Programming Programming and Computation II: Data Structures	3
CMPSC 360 or MATH 311W	Discrete Mathematics for Computer Science Concepts of Discrete Mathematics	3-4
MATH 230 or MATH 251	Calculus and Vector Analysis Ordinary and Partial Differential Equations	4
Select 3 credits from the following:		3
CMPSC 121	Introduction to Programming Techniques	
CMPSC 131	Programming and Computation I: Fundamentals	
CMPSC 201	Programming for Engineers with C++	
Select 3-4 credits from the following:		3-4
STAT 200	Elementary Statistics	
STAT 250	Introduction to Biostatistics	
STAT 318	Elementary Probability	
Select 3-4 credits from the following:		3-4
BIOL 222	Genetics	
BIOL 230W	Biology: Molecules and Cells	
BIOL 322	Genetic Analysis	
BMB 211	Elementary Biochemistry	
BMB/MICRB 251	Molecular and Cell Biology I	
MICRB 201	Introductory Microbiology	
Select 8-12 credits from the following:		8-12
PHYS 211 & PHYS 212 & PHYS 213 & PHYS 214	General Physics: Mechanics and General Physics: Electricity and Magnetism and General Physics: Fluids and Thermal Physics and General Physics: Wave Motion and Quantum Physics ¹	
PHYS 250 & PHYS 251	Introductory Physics I and Introductory Physics II ¹	
Supporting Courses and Related Areas		
Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser		3
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser		3
Select 6 credits of 400-level courses		6
Select 13-20 credits from program list ^{2,3}		13-20
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Select 9 credits of 400-level CMPSC, MATH, or STAT courses		9

¹ PHYS 211 and PHYS 250 require a grade of C or better.

² A maximum of 12 credits of Independent Study (296, 496) may be applied toward credits for graduation.

³ Students may apply ROTC credits toward the Program List.

SECONDARY EDUCATION OPTION (94 credits)

Available at the following campuses: Harrisburg

Code	Title	Credits
Prescribed Courses		
STAT 200	Elementary Statistics	4
<i>Prescribed Courses: Require a grade of C or better for teacher certification</i>		
EDUC 313	Secondary Education Field Experience	2
EDUC 314	Learning Theory and Instructional Procedures	3
EDUC 315Y	Social and Cultural Factors in Education	3
EDUC 385	Professional Development in Teaching	3
EDUC 400	Diversity and Cultural Awareness Practices in the K-12 Classroom	3
EDUC 414	Teaching Secondary Science	3
EDUC 458	Behavior Management Strategies for Inclusive Classrooms	3
EDUC 459	Strategies for Effective Teaching in Inclusive Classrooms	3
EDUC 490	Student Teaching	9
<i>Prescribed Courses: Require a Grade of C or Better</i>		
EDPSY 14	Learning and Instruction	3
EDUC 466N	Foundations of Teaching English as a Second Language	3
ENGL 202C	Effective Writing: Technical Writing	3
HDFS 239	Adolescent Development	3
MATH 141	Calculus with Analytic Geometry II	4
PHYS 250	Introductory Physics I	4
PHYS 251	Introductory Physics II	4
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 4 credits from the following:		4
BIOL 220W	Biology: Populations and Communities	
BIOL 230W	Biology: Molecules and Cells	
BIOL 240W	Biology: Function and Development of Organisms	
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a Grade of C or Better</i>		
Select 3 credits of GH literature from department list		3
Select a 3 credit EARTH course		3
Select a 3 credit ASTRO course		3
Select 9 credits of 400-level earth or physical science courses		9
Select 12 credits of science or education elective courses		12

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate

students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Interdisciplinary Thinking:** Integrate knowledge among science subfields and between science and other disciplines in theoretical and practical ways.
- **Overall Program:** See how well the students think the program is providing them support and opportunities in several key learning outcomes.
- **Process of Science:** Apply the elements of the process of science such as posing questions, generating novel hypotheses based on the scientific literature; developing appropriate technical skills for research; designing/conducting experiments to test hypotheses in laboratory and/or field settings; summarizing/interpreting data; integrating/evaluating findings in the broader scientific field to construct new knowledge; and/or participating in the peer review/revision process.
- **Quantitative Reasoning and Data Science:** Apply basic quantitative competencies such as algebra, probability, statistics, unit conversions, and fundamental principles; organize, summarize, and interpret quantitative data; use modeling/simulation to approach problems from across various scales; and/or find and analyze large databases using statistical methods and/or other approaches.
- **Science and Society:** Explore the impacts of scientific research on society and the environment and how society influences/relies on research to inform decision-making; evaluate the ethical implications of scientific research; recognize ethical issues in a variety of settings; and/or describe how different perspectives and the resulting alternative approaches might be evaluated using ethical principles to identify a solution to an issue.
- **Verbal Communication:** Logically present scientific concepts in a compelling manner suited to the audience with appropriate language, supporting material and references.
- **Written Communication:** Logically document/relate scientific concepts in a compelling manner suited to the audience with appropriate supporting data and references.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the

habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://>

bulletins.psu.edu/undergraduate/archive/) to view the appropriate Undergraduate Bulletin edition.

General Option: Integrative Science, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
ENGL 15, 15S, 30T, or ESL 15 [†]	3 BIOL 220W, 230W, or 240W	4

- Physical Science: ASTRO CHEM, PHYS

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- This outline is only a suggested academic plan. There is considerable room for adjusting the necessary courses to fit your individual needs and goals. For example, a student may take CHEM 110 along with CHEM 111 during semester 1, in which case the student may then take CHEM 112 along with CHEM 113 during semester 2. Another example, a student could choose to take a world language course during other/earlier semesters, such as semester 1 and 2. Remember, most students only have to average about 16 credits per semester to graduate in four academic years (or eight semesters). The Science major requires a total of 124 credits.
- Do not overlook the opportunity for Independent Study/Research credit, Cooperative Education, or Study Abroad Opportunities.
- For the various supporting/elective courses each student is required to complete the major, one should consider completing a sequence of courses from the same department/program as opposed to completing all introductory courses from many different departments/programs. Students can even consider completing a minor in another academic discipline with the various supporting/elective courses and any 400 level course work needed.

- See academic adviser for list of courses for: Teamwork and Interpersonal Communications, and Global, Social, and Personal Awareness.
- Course required with a C or better to enter the Science major are: MATH 140; and two out of three of BIOL 110, CHEM 110, and either PHYS 250 or PHYS 211. Consult with an academic adviser for options to satisfy the Writing Across the Curriculum requirement. If using BIOL 220W, BIOL 230W and BIOL 240W for the requirement, all 3 courses must be taken.

Life Science Option: Integrative Science, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
BIOL 110 ^{**†}	4 BIOL 220W, 230W, or 240W	4
CHEM 110 ^{**†}	3 CHEM 112 [†]	3

Total Credits 121-124

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- See academic adviser for list of courses for: Teamwork and Interpersonal Communications, and Global, Social, and Personal Awareness.
- Scheduling patterns for courses not taught each semester:
 - Fall only: MICRB 201.
 - Spring only: CHEM 212, CHEM 213.
- 9 credits of 400 level Science courses include: BMB, BIOL, BIOTC or MICRB courses. Must be a grade of C or better for the major.
- Course required with a C or better to enter the Science major are: MATH 140; and two out of the three of BIOL 110, CHEM 110, and either PHYS 250 or PHYS 211. Consult with an academic Adviser for options to satisfy the Writing Across the Curriculum requirement. If using BIOL 220W, BIOL 230W and BIOL 240W for the requirement, all 3 courses must be taken.

Career Paths

Penn State students with a BS in Integrative Science are prepared for a broad range of careers and graduate programs. The solid foundation of science and math prepares students to think critically and scientifically in a range of industries and professions.

Careers

This program often leads to careers in all healthcare professions, including physicians and physician assistants, dentists, optometrists, and podiatrists; laboratory research associates; scientific product representatives and science-based consulting.

Opportunities for Graduate Studies

Many graduates of the Integrative Science B.S. program choose to pursue graduate studies (MS and PhD) in the natural sciences. Most often, students gravitate to medically-related fields and life science sub-disciplines for focused graduate training. Students in the legal studies and public policy options may choose law school or master's in public policy programs.

International Business Administration, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

This minor provides undergraduate students in all business administration majors with further studies in such areas as international accounting, finance, information systems, comparative management, international marketing, or economics. The objective of the minor is to provide students who are interested in careers in international business with an understanding of problems and problem-solving methods that transcend national boundaries. Proficiency in a world language and study abroad provide an understanding of the social, political, and cultural context of the global marketplace. Except for Accounting, the minor can be included in the major with no additional courses being required. Professional Accountancy students may have to take 12 additional credits.

What is International Business Administration?

Organizations are increasingly international in the scope of their operations and routinely conduct business around the world. International business administration is a field that facilitates the study of management theory, human resources management, accounting, and logistics, within the greater sphere of multinational corporations. Professionals in international business are expected to analyze business portfolios and create and follow business strategies for global organizations. Trade, markets, and politics all fall within the expertise of a professional working for an international business.

You Might Like This Program If...

- You enjoy problem solving and are a good communicator.
- You are interested in how the economies of various countries are interconnected, and how they are affected by sociopolitical issues.
- You are interested in learning or expanding your knowledge of a world language.
- You enjoy international travel.
- You are interested in a career within the finance, accounting, marketing, or consulting industries.

Program Requirements

Requirement	Credits
Requirements for the Minor	18-24

Requirements for the Minor

A minimum of 3 credits in the minor must be taken in an approved study abroad program.

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

FIN 456	International Capital Markets	
or IB 299	Foreign Studies	
MGMT 461	International Management	
MIS 446	Information Technology and Business Strategy	
MKTG 445	Global Marketing	

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Kinesiology, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

Kinesiology offers a comprehensive program of study in the science of human movement and is designed for students who want to prepare for professions involving physical activity and for graduate study in related areas. The Kinesiology major options are: Applied Exercise and Health; Movement Science; and Exercise Science. All options require a culminating practicum or research experience. Relocation away from the University Park campus is generally necessary for the practicum. All options require a minimum of 120 credits for graduation. Information about the major and its options can be found at: <https://hhd.psu.edu/kines> (<https://hhd.psu.edu/kines/>).

Applied Exercise and Health Option

Available at the following campuses: University Park

This option provides applied interdisciplinary training in the foundations of the scientific understanding of exercise and health through the lifespan. Students select one of two areas of emphasis that are certification-based and practice-oriented: (a) courses and practical experiences directed toward certification by organizations such as the American College of Sports Medicine (ACSM) or the National Strength and Conditioning Association (NSCA), or (b) health and physical education; a series of courses and student teaching leading to teacher certification. The completion of the Applied Exercise and Health Option will prepare students to work in the private or corporate fitness arenas, community-based fitness organizations, and university or hospital settings, or be Pennsylvania certified in health and physical education (K-12) and secure teaching positions in public or private schools.

Movement Science Option

Available at the following campuses: Altoona, University Park

This option provides interdisciplinary scientific training in academic areas such as biomechanics, exercise physiology, movement neuroscience, psychology of physical activity, and sport history and philosophy to understand movement for prevention and diagnosis of chronic disease, rehabilitation and treatment, and/or theoretical study. Students are prepared for graduate study in many clinical fields including medicine, physical therapy, occupational therapy, physician assistant, cardiac rehabilitation, as well as a broad range of careers in biomedical and health-related fields.

Exercise Science Option

Available at the following campuses: Altoona, Berks, Harrisburg

This option is a program of study in the science of exercise. This program offers Kinesiology background and applied experience in fitness assessment, exercise physiology, exercise psychology, motor skill development, nutrition, and healthy living skills. Graduates will be able to scientifically assess fitness levels of individuals. Analyzing those assessments, graduates will then be capable of designing and implementing appropriate exercise programs. Students in the Business

Emphasis acquire basic business skills in accounting, marketing, management and entrepreneurial skills. Students choosing the Science Emphasis will select courses from a department list, including courses in basic science, social science, exercise and health sciences, and other related coursework, that will enhance their opportunity for graduate studies in fields related to Kinesiology and allied health, such as physical therapy, athletic training, and medicine. The completion of the Exercise Science Option will enable graduates to compete for employment in private, corporate, or community-based fitness organizations, in hospital or university settings, and be prepared to apply for graduate programs in allied health fields.

What is Kinesiology?

Kinesiology refers to the study of human movement. This interdisciplinary field of study focuses on physical activity, movement and sport and includes specialized areas of study that include the arts, humanities, sciences and professional disciplines. These areas include biomechanics, psychology of physical activity, exercise physiology, history and philosophy of physical activity, motor development, as well as sports medicine and physical education pedagogy. This multi-disciplinary approach is useful for addressing health and wellness in a complex society.

MORE INFORMATION ABOUT KINESIOLOGY (<https://nationalacademyofkinesiology.org/what-is-kinesiology/>)

You Might Like This Program If...

You enjoy working with people, have a passion for health and wellness, and are open to approaching problems with interdisciplinary strategies. As you learn about the human body as a whole, you will also have the opportunity to understand how you can apply your knowledge and skills to develop solutions that can help others in a number of ways, whether in a rehabilitation facility, with a professional sports team, in a corporate office or in a school setting.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Kinesiology a minimum of 120 credits is required for the Applied Exercise Health option, a minimum of 120 credits is required for the Movement Science option, and a minimum of 122 credits is required for the Exercise Science option:

Requirement	Credits
General Education	45
Electives	0-16
Requirements for the Major	80-108

18-27 of the 45 credits for General Education are included in the Requirements for the Major. This includes: Applied Exercise and Health Option - 9 credits GN, 6 credits GQ, 3 credits of GH, 6 credits of GS and

3 credits of GHW; Movement Science Option - 9 credits of GN courses, 6 credits of GQ courses, 3 credits of GS courses, 3 credits of GHW courses; Exercise Science Option - 9 credits of GN courses, 6 credits of GQ courses, 3 credits of GHW courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. KINES requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Suggested Academic Plan for this major.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
BIOL 161	Human Anatomy and Physiology I - Lecture	3
BIOL 163	Human Anatomy and Physiology II - Lecture	3
KINES 100	The Cultural and Behavioral Foundations of Kinesiology	3
KINES 101	The Biophysical Foundations of Kinesiology	3
KINES 202	Functional Human Anatomy	3
KINES 295B	Kines Careers & Observation	1
KINES 321	Psychology of Movement Behavior	3
KINES 341	The Historical, Cultural, and Social Dynamics of Sport	3
KINES 345	Meaning, Ethics, and Movement	3
KINES 350	Exercise Physiology	3
KINES 360	The Neurobiology of Motor Control and Development	3
KINES 384	Biomechanics	3
NUTR 251	Introductory Principles of Nutrition	3

Additional Courses

Additional Courses: Require a grade of C or better

Additional Courses

Additional Courses: Require a grade of C or better

MATH 26 or a higher level MATH course recommended by math placement test. Course list includes: MATH 26, MATH 40, MATH 41, MATH 110 or MATH 140

Select 3-5 credits from: 3-5

CHEM 101	Introductory Chemistry	
CHEM 106	Introductory and General Chemistry	
CHEM 110	Chemical Principles I	
CHEM 130	Introduction to General, Organic, and Biochemistry	

Select 3-4 credits from: 3-4

PHYS 150	Technical Physics I	
PHYS 250	Introductory Physics I	

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Take the following required courses with selected emphasis area: 25-29

HPE Certification Emphasis:

KINES 366	The Process of Teaching Physical Education	
KINES 395A	Ldrshp Prac:Tchrs	
KINES 400	Adapted Physical Education	
KINES 464	Physical Education Programming and Practicum	
KINES 468W	Health Instruction in the School-Content and Method	
KINES 495A	Practicum in Student Teaching	
SPLD 400	Inclusive Special Ed Foundations: Legal, Characteristics, Collaboration, Assessment, and Management	

ACSM/NSCA Certification Emphasis:

KINES 395B	Leadership Practicum: KINES	
KINES 421	Exercise Psychology	
KINES 425W	Physical Activity in Diverse Populations or KINES 48: Scientific Basis of Exercise for Older Adults or KINES 49: Programming for Business and Agencies or KINES 49: Principles and Ethics of Coaching	
KINES 457	Exercise Prescription and Case Studies	
KINES 485	Science and Practice of Training Athletes	
KINES 495B	Field and/or Research Practicum in Kinesiology	
KINES 495E	Advanced Professional Development in Kinesiology	

Select 3 credits from approved 400-level courses:

NUTR 407	Nutrition for Exercise and Sports	
KINES 402	Human Anatomy Cadaver Dissection	
KINES 405N	Bicycling Culture and Urban Design	
KINES 410	Physical Growth and Motor Development	
KINES 411	Introduction to Musculoskeletal Injury and Rehabilitation	
KINES 419	Disability Sport and Recreation	
KINES 422	Physical Activity Interventions	
KINES 423	Psychology of Sports Injuries	
KINES 424	Women and Sport	
KINES 425W	Physical Activity in Diverse Populations	
KINES 426	Physical Activity and Public Health	
KINES 427	Developmental Sport & Exercise Psychology	
KINES 428	Motivation and Emotion in Movement	
KINES 429	Psychology of Sport Performance	
KINES 430W	Groups in Physical Activity	
KINES 431	Concussion in Athletics: Brain to Behavior	
KINES 454	Women's Health and Exercise Across the Lifespan	
KINES 455	Physiological Basis of Exercise as Medicine	
KINES 458	Introduction to Electrocardiogram Interpretation	
KINES 459	Community Engagement and Outreach in Kinesiology	
KINES 460	Movement Disorders	
KINES 465	Neurobiology of Sensorimotor Stroke Rehabilitation	
KINES 467	The Science of Performance Enhancement	
KINES 481W	Scientific Basis of Exercise for Older Adults	
KINES 483	Motor Patterns of Children	
KINES 493	Principles and Ethics of Coaching	
KINES 493W	Principles and Ethics of Coaching	
KINES 495D	Expanded Field and/or Research Practicum in Kinesiology	
KINES 499	Foreign Studies	

Movement Science Option (40-42 credits)

CHEM 101	Introductory Chemistry	
CHEM 106	Introductory and General Chemistry	
CHEM 110 & CHEM 111	Chemical Principles I and Experimental Chemistry I	
CHEM 130	Introduction to General, Organic, and Biochemistry	

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 16 credits from one of the following emphasis area from an approved list, in consultation with adviser. At least 3 credits must be at the 400 level. 16

Business Emphasis
Science Emphasis

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- Arts (GA): 3 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

Integrative Studies

- Inter-Domain Courses (Inter-Domain): 6 credits

Exploration

- GN, may be completed with Inter-Domain courses: 3 credits
- GA, GH, GN, GS, Inter-Domain courses. This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- Students will demonstrate personal, professional, and ethical competency within the discipline of kinesiology.
- Students will be able to define fundamental processes, theories, and methods in kinesiology including the physiology, psychology, biomechanics, motor control, history, and philosophy of human movement.
- Students will be able to define and demonstrate competency for planning and implementing kinesiology-related health, fitness, performance, and behavior change interventions and programs.
- Students will be able to perform assessments of physical activity and fitness.
- Students will demonstrate skills related to thinking critically, evaluating research knowledge and evidence, and analyzing quantitative data.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

A Kinesiology degree can provide many opportunities for students ranging from fulfilling careers in health and wellness to graduate research and professional studies in a wide range of biomedical, clinical and allied health fields. The hands-on learning opportunities and internships in the program allow students to build experience, gain professional skills and explore their interests to create a strong foundation for a post-graduation career or in the next step of their education.

Careers

Kinesiology students have many career options after graduation. Discussion with Kinesiology faculty, an adviser, or professionals in the field through internship experiences can provide additional insight. Many students use their Penn State Kinesiology degree in allied health and wellness fields, working with a wide range of populations in many different settings. The applied learning opportunities in our curriculum give students hands-on experience to work with children and adults to promote health and wellness. Kinesiology graduate are well-rounded and valuable employees with their strong scientific foundation that can be applied to solving problems related to human movement.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE KINESIOLOGY PROGRAM (<https://americankinesiology.org/careers-in-kinesiology/>)

Opportunities for Graduate Studies

Many Kinesiology students aim to pursue graduate or professional school after they complete their undergraduate program. Kinesiology students are often interested in graduate study in physical or occupational therapy, athletic training, physician's assistant, medical school, orthotics and prosthetics, dentistry, nursing, or chiropractic school. Students also opt to attend graduate programs in Kinesiology to advance their understanding in one of the sub-disciplines of the field. Some Kinesiology students also pursue professional degrees in public health, health education or related fields after graduation. The

Kinesiology undergraduate program includes many of the prerequisite courses needed for these post-bachelor programs, providing students with a strong scientific foundation for further study.

Management, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

This major provides students with the knowledge and skills managers need in today's dynamic business environments. Core management courses instill key management competencies, such as effective leadership, team building, conflict management, and facilitating organizational change. Beyond the core courses, an array of supporting courses enables students to focus on areas such as entrepreneurship and small business management, corporate innovation and knowledge management, international management, social entrepreneurship, managing diversity, and so on. Career opportunities exist in general management and management trainee positions, in internal and external management consulting, human resource management, organizational change agents, small and family businesses, as well as entrepreneurial contexts.

What is Management?

Organizations need managers and leaders: people who can effectively lead organizations and manage the people in them, as well as develop and implement strategies that will lead to success. Management majors gain the knowledge and skills that will enable them to deal with the contemporary challenges facing organizations including leading and motivating people, working effectively in teams, developing effective organizational cultures, thinking ethically, inclusively, strategically, and sustainably, balancing the interests of multiple stakeholders in complex, legal, political, and ethical environments, and leading change.

You Might Like This Program If...

- You have an aptitude for leadership or team-building.
- You have strong communication and motivation skills.
- You enjoy working with people.
- You want a career in business or human resources.

Entrance to Major

Entry to the Management major requires the completion of 8 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15* or ENGL 30T* or ENGL 30H* or ESL 15*, FIN 301, MATH 110* or MATH 140*, MGMT 301*, MKTG 301, SCM 200* or STAT 200*; and a 2.00 or higher cumulative grade-point average.

Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business Administration at Penn State Harrisburg.

* *requires a grade of C or better*

Degree Requirements

For the Bachelor of Science degree in Management, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives (non-business courses)	8
Requirements for the Major	85

18 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.

Consistent with Senate Policy 83-80.5, at least 24 credits of course work in the major and the capstone course must be completed at the Capital College to earn the degree.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits

MIS 204 or MIS 250	Introduction to Management Information Systems Introduction to Problem Solving with Spreadsheet Analysis and Information Systems Management	3
<i>Additional Courses: Require a grade of C or better</i>		
MATH 110 or MATH 140	Techniques of Calculus I Calculus With Analytic Geometry I	4
SCM 200 or STAT 200	Introduction to Statistics for Business Elementary Statistics	4
Select 3 credits from the following:		3

CAS 100A	Effective Speech	
CAS 100B	Effective Speech	
CAS 100C	Effective Speech	
CAS 100S	Effective Speech	
Select 3 credits from the following in ENGL or ESL:		3
ENGL 15	Rhetoric and Composition	
ENGL 30T	Honors Freshman Composition First-Year Seminar	
ENGL 30H	Honors Rhetoric and Composition	
ESL 15	ESL Composition for American Academic Communication II	
Select 9 credits in MGMT at the 300-400 level from the following (at least 3 credits at the 400 level), in consultation with an academic adviser:		9
MGMT 326	Organizational Behavior and Design	
MGMT 341	Human Resource Management	
MGMT 355	Leadership and Change in Organizations	
MGMT 365	Social Entrepreneurship	
MGMT 431	Entrepreneurship and Small Business Management	
MGMT 445	Managing a Diverse Workforce	
MGMT 453	Creativity and Innovation	
MGMT 461	International Management	
MGMT 466	Organizational Learning and Knowledge Management	

Supporting Courses and Related Areas

Select 12 credits from 200-400 level business courses from: ACCTG, 12 BA, ECON, FIN, MIS, MGMT, MKTG, or SCM in consultation with an academic adviser and in support of the student's interests

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Management and M.B.A. in Business Administration

Requirements for the Integrated B.S. in Management and M.B.A. in Business Administration can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/business-administration-capital/#integratedundergradgradprogramstext>).

Learning Outcomes

Student graduates of our baccalaureate degree programs should be:

1. Effective communicators.
 - a. Present verbally, thoughts and ideas in a way that can be clearly understood by a target audience.
 - b. Convey ideas in a clear, coherent manner in written communication.
2. Ethical and socially responsible.
 - a. Be competent in analyzing social and ethical decision making issues in organizations.
3. Critical thinkers.
 - a. Be able to think and identify multiple dimensions of company issues and performances and make an assessment of company performances in achieving financial and strategic objectives, tracking their achievements, and giving management of companies a more complete and balanced view of how the organization is performing.
4. Competent in the Management Discipline through knowledge of:
 - a. Leadership and Team Building.
 - i. Demonstrate skills and knowledge necessary to become effective leaders in organizations, including leadership styles, styles of influence, persuasion, and negotiation.
 - ii. Demonstrate skills and knowledge necessary to work effectively with others in team settings, including team building techniques, team performance management, and conflict management.
 - b. Human Resources Management.
 - i. Demonstrate skills and knowledge necessary to plan and implement human resources management functions including staffing, development, appraisal, and rewarding. Learning skills and knowledge of recruiting, training and developing human capital for organizations.
 - c. Negotiation and Conflict Management.
 - i. Recognize and describe the critical concepts in negotiation and conflict management.
 - ii. Develop the ability to negotiate effectively.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes

- Courses required for the major must be generally taken within 10 years of entrance to major.
- MGMT 495 - Internship satisfies a business support requirement. For more information, contact the Management Program Coordinator.
- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)." B A 364 (US/IL) may be used to meet either the IL or US requirement, but may be used to fulfill only 3 of the 6 credit requirement.
- 30 credits of GA, GH, GHW, GN, and GS to include 6 Integrative Studies credits.
- 15 credits of GQ and GWS require a grade of "C" or better.

Career Paths

The Human Resources Management concentration prepares students for a career in human resource management by developing skills and competencies including managing diversity and equal opportunity, ethical and fair treatment of employees, planning and staffing, training and development, compensation and benefits, performance management, and protecting employee safety and health. The Entrepreneurship concentration introduces undergraduate students to the process of new venture development. Topics include business plan development, the nature of management in small business, and the role of creativity and innovation in the entrepreneurial process. Opportunities are provided

for student participation in the development of an actual new business venture.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE MANAGEMENT PROGRAM (<https://harrisburg.psu.edu/business-administration/management-bs/>)

Opportunities for Graduate Studies

The School of Business Administration offers a limited number of academically superior Bachelor of Science in Management candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Management and the Master of Business Administration.

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (<https://harrisburg.psu.edu/business-administration/management-bs-mba/>)

Accreditation

The B.S. in Management offered by the School of Business Administration at Penn State Harrisburg, the Capital College, is accredited by AACSB International – The Association to Advance Collegiate Schools of Business. AACSB's mission is to foster engagement, accelerate innovation, and amplify impact in business education. Synonymous with the highest standards of excellence since 1916, AACSB provides quality assurance, business education intelligence, and professional development services to over 1,600 member organizations and more than 800 accredited business schools worldwide. AACSB International (AACSB) connects educators, students, and business to achieve a common goal: to create the next generation of great leaders.

Marketing, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg, World Campus

Program Description

This major is designed for students interested in careers involving sales, promotion, services, distribution, research, and planning for business and the public sector. The major provides students with key concepts and methods of analysis in marketing. It focuses on understanding customer needs, developing products or services, creating and implementing marketing plans, monitoring customer responses, and projecting marketing activities for the future.

What is Marketing?

Marketing is a broad field that seeks to understand consumer, firm, and societal behaviors and subsequently identify ideas, products, services, and methodological approaches that deliver value. According to the American Marketing Association, Marketing involves "the set of institutions and processes for creating, communicating, delivering, and exchanging offerings valuable to customers, clients, partners, and society at large. Not only does marketing guide firms' managerial decisions in the marketplace, but it also offers insights into consumer awareness, public policy making, and non-commercial exchange of value (e.g., altruistic giving)."

You Might Like This Program If...

- You have an aptitude and interest in sales and promotion.
- You have strong communication skills.
- You enjoy working with people and understanding their needs and motivations.
- You want a career in market research, advertising, service industries or product management.

Entrance to Major

Entry to the Marketing major requires the completion of 8 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30H, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301¹, SCM 200 or STAT 200; and a 2.00 or higher cumulative grade-point average.

¹ *Course requires a grade of C or better*

Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business at Penn State Harrisburg.

Degree Requirements

For the Bachelor of Science degree in Marketing, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	8
Requirements for the Major	79

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.

At least 50 percent of the business credit hours required for the degree must be taken at the Capital College. No more than 60 credits should be from business and business-related courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
BA 364Y	International Business and Society	3
BA 462	Business Strategy	3
ECON 102	Introductory Microeconomic Analysis and Policy	3
ECON 104	Introductory Macroeconomic Analysis and Policy	3
ENGL 202D	Effective Writing: Business Writing	3
FIN 301	Corporation Finance	3
MGMT 301	Basic Management Concepts	3
MIS 204	Introduction to Management Information Systems	3
MIS 390	Information Systems Management and Applications	3
SCM 301	Supply Chain Management	3
<i>Prescribed Courses: Require a grade of C or better</i>		
MKTG 301	Principles of Marketing	3
MKTG 330	Consumer Behavior	3
MKTG 342	Marketing Research	3
MKTG 450W	Marketing Strategy	3
Additional Courses		
BA 241 & BA 242 or BA 243	Legal Environment of Business and Social and Ethical Environment of Business Social, Legal, and Ethical Environment of Business	4
MATH 110 or MATH 140	Techniques of Calculus I Calculus With Analytic Geometry I	4
SCM 200 or STAT 200	Introduction to Statistics for Business Elementary Statistics	4
<i>Additional Courses: Require a grade of C or better</i>		
Select three of the following:		9
ECON 342	Industrial Organization	
MKTG 302	Marketing Techniques for Electronic Commerce	
MKTG 327	Retailing	
MKTG 422	Advertising and Sales Promotion Management	
MKTG 445	Global Marketing	
MKTG 476	Sales Management	
MKTG 478	Services Marketing Management	
MKTG 485	Business-to-Business Marketing	

Supporting Courses and Related Areas

Select 12 credits from 200-400 level business courses from: ACCTG, 12
BA, ECON, FIN, MIS, MGMT, MKTG, or SCM in consultation with an
academic adviser and in support of the student's interests

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Marketing and M.B.A. in Business Administration

Available at the following campuses: Harrisburg

Requirements for the Integrated B.S. in Marketing and M.B.A. in Business Administration can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/business-administration-capital/#integratedundergradgradprogramstext>).

Learning Outcomes

Student graduates of our baccalaureate degree programs should be:

1. Effective communicators.
 - a. Present verbally, thoughts and ideas in a way that can be clearly understood by a target audience.
 - b. Convey ideas in a clear, coherent manner in written communication.
2. Ethical and socially responsible
 - a. Be competent in analyzing social and ethical decision making issues in organizations.
3. Critical thinkers.
 - a. Be able to think and identify multiple dimensions of company issues and performances and make an assessment of company performances in achieving financial and strategic objectives, tracking their achievements, and giving management of companies a more complete and balanced view of how the organization is performing.
4. Competent in the Marketing discipline.
 - a. Understand the concepts and techniques of marketing as it applies to modern organizations.
 - b. Be knowledgeable of the different environments in which marketing programs, plans, and strategies are formulated and implemented.
 - c. Understand the analytical tools necessary to assist brick-and-mortar and on-line marketing operations of companies.
 - d. Develop and carry out a marketing plan for a business.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary

academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Marketing, B.S. at Harrisburg Campus and World Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
ENGL 15, 15S, 30T, or ESL 15 ^{†#}	3 CAS 100A or 100S [†]	3

Total Credits 120

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

¹ Select 3 credits from:

MKTG 302 - Marketing Techniques for Electronic Commerce; MKTG 327 - Retailing; MKTG 422 - Advertising and Sales Promotion Management; MKTG 445 - Global Marketing (US); MKTG 476 - Sales Management; MKTG 478 - Services Marketing Management; MKTG 485 - Business-to-Business Marketing; ECON 342 - Industrial Organization

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes

- Courses required for the major must be generally taken within 10 years of entrance to major.
- MKTG 495 - Internship satisfies a business support requirement. For more information, contact the Marketing Program Coordinator.
- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)." B A 364 (US/IL) may be used to meet either the IL or US requirement, but may be used to fulfill only 3 of the 6 credit requirement.

- 30 credits of GA, GH, GHW, GN, and GS to include 6 Integrative Studies credits.
- 15 credits of GQ and GWS require a grade of "C" or better.

Career Paths

Graduates of Penn State Harrisburg's Marketing program can pursue career opportunities in marketing and sales management, advertising, marketing research, retail, public policy, public relations, education and training, and consumer affairs. These opportunities can be found in many settings including small business, large corporations, government, health care, educational institutions, and nonprofit organizations.

Careers

According to the U.S. Bureau of Labor Statistics, overall employment of advertising, promotions, and marketing managers is projected to grow 9 percent from 2016 to 2026, about as fast as the average for all occupations. Employment growth will vary by occupation. Advertising, promotional, and marketing campaigns are expected to continue to be essential as organizations seek to maintain and expand their market share. Advertising and promotions managers will be needed to plan, direct, and coordinate advertising and promotional campaigns, as well as to introduce new products into the marketplace.

Materials Science and Engineering, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Minor in Materials Science and Engineering prepares students to understand the materials properties, materials processing techniques, characterization methods, and selection criteria in implementing engineering solutions. The materials selection for cutting edge mechanical design requires precise and definite knowledge of choice of materials, processing route, and mechanical response in service conditions. The materials engineer must have a sound expertise on modeling and experimental tools validating microstructural, mechanical, and electrical properties requirements for a specific design application. Hence, a wide variety of industries such as aerospace, automotive, energy, biomedical, and electronics to name a few, have a demand for engineers with a strong background in materials engineering. The MMSE covers introductory courses and laboratories on materials science in general, properties and processing of materials, materials thermodynamics and kinetics, and characterization of mechanical, microstructural and electrical properties of materials. The introductory courses and labs provide the basic foundation on materials science and engineering; the rest of the courses provide advanced knowledge on properties and selection, processing techniques, and characterization methods. Moreover, thermodynamics and kinetics of materials systems and process are also introduced. The above mentioned topics are covered by offering courses from sophomore through senior level.

What is Materials Science and Engineering?

Materials are ubiquitous. Materials play a role in every industry and facet of life. Materials science and engineering is an interdisciplinary study of the properties of matter and the exploration for new and creative uses of ceramics, metals, polymers and composites. Materials scientists and engineers study the entire life cycle of materials (production, synthesis and processing, manufacturing, use, recycling and reclamation) by employing science to solve engineering problems. This engineering discipline is unique in that our studies begin with understanding materials at the atomic scale, allowing for prediction and measurement of material properties, and creation of materials by design. What do you want to do with your career? Make alternative energy more economical?

Improve human health, cure cancer? Provide clean drinking water to the world? Make transportation more efficient and environmentally friendly? Make everyday materials more sustainable? All these outcomes and more are possible by studying materials.

You Might Like This Program If...

- You enjoy problem-solving, math, and the physical sciences.
- You like understanding why materials react the way they do to various stimuli.
- You are interested in creating tools and materials for the aerospace, automotive, energy, biomedical, or electronics industries.

Entrance to Minor

The Minor is open to any undergraduate who has: A minimum cumulative GPA of 3.0 or better and a minimum grade of "C" or better in the prerequisite courses for the minor.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

The Minor in Materials Science and Engineering requires the completion of a total of 18 credits in materials related and other supporting courses. With the approval of the student's program chair, some of these courses may also be used to satisfy the requirements for the student's major bachelor's degree. At least 9 unique credits counted toward the requirements for a student's minor must not be used to fulfill the requirements for that student's major.

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
MATSE 201	Introduction to Materials Science	3
MATSE 259	Properties and Processing of Engineering Materials	3
MATSE 460	Introductory Laboratory in Materials	1
MATSE 462	General Properties Laboratory in Materials	1
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 10 credits of the following: ¹		10
ESC 314		
MATSE 202	Introduction to Polymer Materials	
MATSE 400	Crystal Chemistry	
MATSE 401	Thermodynamics of Materials	
MATSE 402	Materials Process Kinetics	
MATSE 410	Phase Relations in Materials Systems	
MATSE 413	Solid-State Materials	
MATSE/ESC 417	Electrical and Magnetic Properties	
MATSE 419	Computational Materials Science and Engineering	

MATSE 430	Materials Characterization
MATSE 436	Mechanical Properties of Materials
MATSE 471	Metallurgy Laboratory I
MATSE 496	Independent Studies
MATSE 497	Special Topics
PHYS 414	Solid State Physics

¹ Elective courses may be drawn from a wide variety of courses in Materials Science, Engineering, and Physics.

Completion of the minor may extend graduation date.

Transfer of credits from other institutions may be eligible to satisfy the minor requirements based on adviser review and program approval.

Graduation Requirements

To be given credit for the minor, undergraduate must:

- Maintain a GPA of 3.0 in the minor courses
- Complete 18 credits from the minor

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Mathematical Sciences, B.S.

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The three options and the variety of the course offerings provide concentrations in various areas such as actuarial science, management science/operation research, statistics, data science, education, and preparation for graduate studies.

Small classes, excellent faculty, opportunities to work with faculty on projects, and strong employment prospects are just some of the strengths of the program. Students will be helped to develop:

- a solid foundation in mathematical studies;
- an awareness of the utility of mathematics, statistics, and computers;
- skills in translating practical problems into mathematical terms;
- a competency in the use of modern mathematical tools;
- problem-solving skills; and
- an awareness of the importance of mathematics in society.

The program is designed to prepare students for employment in business, industry, government, and education immediately after graduation, but graduate study in mathematics or related disciplines is also a viable alternative. Mathematical modeling is emphasized, and all students are required to take courses in statistics and computer science.

What is Mathematical Sciences?

Mathematical Sciences is the study of mathematics and its application to problems in the real world. This discipline includes both theoretical topics such as calculus, abstract algebra, real analysis, and number theory and applied topics such as statistics, math modeling, operations research, and quantitative finance.

You Might Like This Program If...

- You like mathematics and learning how to apply it to real-life problems.
- You enjoy logical and analytical reasoning.
- You like solving new problems.
- You enjoy understanding the justification of why a mathematical method works.
- You like analyzing methods of solution in order to make those methods more effective.
- You enjoy helping others to learn mathematics and to grasp both its utility and beauty.

Entrance to Major

Entry to the Mathematical Sciences General Option requires the following:

1. completion of MATH 140 and MATH 141 each with a grade of C or higher
2. a cumulative grade-point average of 2.0 or higher

Entry to the Mathematical Sciences Data Science Option requires the following:

1. completion of CMPSC 131, CMPSC 132, MATH 140, MATH 141 each with a grade of C or higher
2. a cumulative grade-point average of 2.0 or higher

Entry to the Mathematical Sciences Secondary Education Option requires the following:

1. completion of ENGL 15 or ENGL 30H, three credits of literature from approved list, MATH 140 and MATH 141 each with a grade of C or higher
2. a cumulative grade-point average of 3.0 or higher
3. satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for the major
4. submission to the Teacher Education Office of current and clear background checks as required by the Pennsylvania Department of Education
5. submission of documentation of 20 pre-major field work hours

Retention Requirements

Following entrance to the major, students in the Mathematical Sciences Secondary Education option will be evaluated for retention in the program based on:

1. maintaining a cumulative GPA of 3.0 or higher;
2. completion of required courses with a C or higher grade;
3. an acceptable or above rating on the Professional Dispositions for Teacher Education.¹
4. current and clear background checks as required by the Pennsylvania Department of Education

To be eligible to student teach, students must:

1. maintain a cumulative GPA of 3.0 or higher;
2. complete all required Content and Education Courses with a C or higher grade;
3. satisfy any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to major;
4. be rated acceptable or above on the Professional Dispositions for Teacher Education.¹
5. have current and clear background checks as required by the Pennsylvania Department of Education.

In order to successfully complete the Secondary Education Mathematics Program, students must:

1. complete EDUC 490 with a grade of C or higher;
2. maintain a cumulative GPA of 2.0 or higher for degree completion
3. maintain a cumulative GPA of 3.0 or higher for Pennsylvania teacher certification
4. complete all required Content and Education Courses with a C or higher grade;
5. complete a program portfolio
6. for Pennsylvania teacher certification, be rated acceptable or above for all criteria on the Final Professional Dispositions Review for Teacher Education.¹

¹ For more detailed information see the Secondary Education Handbook.

Degree Requirements

For the Bachelor of Science degree in Mathematical Sciences, a minimum of 120 credits is required; for the Bachelor of Science degree in Mathematical Sciences with the Secondary Education option, a minimum of 121 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	84-97

9-21 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 3 credits of GWS courses for all options. In addition, the Secondary Education option includes 6 credits of GH courses; 6 credits of GS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
ENGL 202C	Effective Writing: Technical Writing	3
MATH 140	Calculus With Analytic Geometry I	4

Select 3 credits of literature (GH) from department list. 3

Select 3 credits of 300-400 level courses in Mathematics, Computer Science, Statistics, or Education. 3

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3

credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- Restate and write mathematical statements, proofs, or solutions; produce presentations and reports that explain the statements, proofs, or solutions to others.
- Model real world phenomena mathematically.
- Restate and summarize theoretical concepts and axiomatic underpinnings of mathematics and construct proofs at the appropriate level.
- Demonstrate functional proficiency in techniques, algorithms and analysis.
- Analyze data and interpret results.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged

in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

¹ EDUC 490 - Student Teaching

A minimum GPA of 3.00 in all previous work is required for admission to EDUC 490.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes

Students must complete, with a grade of "C" or higher, six (6) credit of college level mathematics, three (3) credits of college level English literature and three (3) credits of college level English composition. Students must also complete MATH 140 and MATH 141 for entrance to Secondary Education Option of Mathematical Sciences.

Career Paths

The Mathematical Sciences program is designed to prepare students for employment in business, industry, and government or for graduate studies. The general option provides a core mathematics degree along with flexibility to incorporate courses relevant to other areas such as actuarial science, operations research, statistics, or pure mathematics. The data science option is oriented towards the area of data science. The secondary education option prepares students to teach middle school and high school mathematics and has been recognized by the National Council of Teachers of Mathematics (NCTM) and is approved by the Pennsylvania Department of Education.

Careers

According to projections by the U.S. Bureau of Labor Statistics, employment in occupations that require at least a bachelor's degree in mathematics is expected to grow faster than employment in other sectors of the American labor market. Computer-related occupations are predicted to grow at a rate of more than 100 percent. The demand for secondary math school teachers is projected to increase by 22 percent. Insurance, securities, real estate, and business service occupations are projected to add more than 100,000 jobs, yielding an employment growth rate of 17 percent.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE MATHEMATICAL SCIENCES PROGRAM (<https://>

harrisburg.psu.edu/science-engineering-technology/mathematical-sciences-bs/career-opportunities/)

Opportunities for Graduate Studies

The mathematical sciences general option provides the broad mathematical background requisite for postgraduate studies in mathematical sciences, statistics, or related disciplines. Advanced study will lead to further opportunities within higher education, business, and industry.

Mechanical Engineering Technology, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The goal of the Mechanical Engineering Technology program is to provide our students with the necessary training and education so

that they can provide high-level technical support to a variety of industrial, commercial, consulting, and governmental organizations. The emphasis of our program is in the application of scientific and engineering principles. Technical communication in oral and written form is also emphasized. Our graduates are expected to appreciate the ethical and societal responsibilities of a technologist, the concepts of Continuous Quality Improvement and the continuing impact of globalization of design, manufacturing and marketing of technical goods and services. Our graduates are trained to deal with choice of materials and methods that are safe, environmentally and aesthetically acceptable and economically competitive. Typical responsibilities that may be assigned to our graduates are the development and evaluation of machines and mechanisms; development, organization and supervision of manufacturing processes and procedures; the instrumentation, control and testing of a process; quality control; technical marketing and sales; design of mechanical systems for heating and cooling and energy management.

The strengths of our program include:

- hands-on training;
- extensive laboratory experience;
- state of the art computer methods; excellent job placement;
- accreditation by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET).

Graduates who wish to continue their professional development can take the Fundamentals of Engineering exam in Pennsylvania, a prerequisite for taking the Professional Engineering exam.

What is Mechanical Engineering Technology?

Mechanical engineering technology is the application of engineering and technology principles for the creation of products and mechanical systems. It emphasizes applied design and analysis of engineering systems and materials. Mechanical engineering technology differs from mechanical engineering in that its focus is the practical application and implementation of engineering principles as opposed to theoretical development and exploration of those principles.

You Might Like This Program If...

- You like hands-on and creative problem-solving.
- You like understanding how mechanical devices work.
- You work well within collaborative, multidisciplinary teams.
- You are interested in a career as an engineering technologist or testing engineer.

Entrance to Major

Entry to the Mechanical Engineering Technology major requires a 2.00 or higher cumulative grade-point average.

Re-enrollment

Associate degree students should file a re-enrollment form during the final semester of their associate degree. Students re-enrolling from an associate's degree into the bachelor's degree should run a degree audit from LionPATH, using the MET major code, to determine their curriculum requirements.

Degree Requirements

For the Bachelor of Science degree in Mechanical Engineering Technology, a minimum of 128 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	104

21 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 9 credits of GN courses; 6 credits of GQ courses, 3 credits of GS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The

advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 128-130

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ CHEM 111: Students may substitute either CHEM 112 or BIOL 141 for the combination of CHEM 111 and PHYS 214.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes

Technology or Engineering Electives include:

- MET 308 - Computer Aided Solid Modeling and Analysis (3)
- MET 417 - Finite Element Analysis (3)
- MET 432 - Fluid Power (3)
- MET 435 - Building Energy Systems (3)
- MET 462 - Internal Combustion Engine Design (3)
- ENVE 430 - Sustainable Engineering (3)
- or others offered by the program.

Career Paths

Mechanical Engineering Technology is a broad engineering discipline that provides a number of career possibilities. The Mechanical Engineering Technology program prepares students to provide high-level technical support to a variety of industrial, commercial, consulting, and governmental organizations.

Careers

Mechanical Engineering Technology graduates should experience good employment potential. Opportunities are expected to grow to keep pace with the demand for technical products. According to the U.S. Bureau of Labor Statistics and O*NET, opportunities for Mechanical Engineering Technologists will grow at a rate of 5-9% through 2026.

Professional Resources

Mechanical Engineering, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

Built upon a broad foundation in physics, chemistry, and mathematics, this major has the objective of educating graduates to be problem solvers. Graduates of this program will have opportunities to learn about applying scientific principles, engineering analysis, and engineering design to solve unstructured problems that are typical of those found in mechanical engineering. The major helps prepare graduates for a lifelong productive career, whether they choose professional practice, graduate school, or some other career path. Graduates will have had opportunities to learn how to work with others toward a common goal, to clearly express their ideas in written and verbal form, and to be independent and capable of adapting to the continuously changing technology of the work environment.

After completing the fundamental science core, students may pursue their interest in mechanical engineering by studying fluid and solid mechanics, engineering materials and their properties, thermodynamics, and heat transfer, computer-aided design, kinematics and dynamics of machine elements, machine design, finite elements, control systems, electricity, and electronic instrumentation and machinery. The students will be required to analyze and solve a significant mechanical engineering design problem during their fourth year.

What is Mechanical Engineering?

Mechanical engineering is the largest and broadest engineering discipline. It uses a combination of physics, chemistry, mathematics, and materials science to study mechanical, fluid, and thermal systems. Mechanical engineers are problem solvers: They use their foundational knowledge to apply scientific and engineering methods to the design, construction, and testing of products and components to ensure that they are safe, reliable, and cost effective. Mechanical engineering differs from mechanical engineering technology in that it emphasizes the math and science behind the theoretical development of engineering analysis and design process principles rather than the application of these principles. Mechanical engineers design everything from athletic equipment, medical devices, theme park rides, and personal computers to engines and power plants.

You Might Like This Program If...

- You are a curious, creative problem solver.
- You are interested in engineering, math, chemistry, and physics.
- You are looking for a broad discipline with career flexibility.
- You enjoy working on team-based projects.

Entrance to Major

In addition to the Carnegie unit and minimum GPA requirements¹ described by University policies, all students applying for entrance to any of the engineering majors at Behrend, Berks, or Capital College must have at least a 2.0 cumulative GPA by the end of the semester prior to applying for entrance to the major and have completed, with a minimum grade of C: CHEM 110, MATH 140, MATH 141, and PHYS 211. These courses must be completed by the end of the semester during which the entrance-to-major process is carried out.

¹ In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed.

Degree Requirements

For the Bachelor of Science degree in Mechanical Engineering, a minimum of 131 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	107-108

21 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 3 credits of GWS courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned.

Requirements for the Major

Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits

Additional Courses

ECON 102	Introductory Microeconomic Analysis and Policy	3
or ECON 104	Introductory Macroeconomic Analysis and Policy	

Select one of the following: 3

CHEM 111 & PHYS 214	Experimental Chemistry I and General Physics: Wave Motion and Quantum Physics	
CHEM 112	Chemical Principles II	
BIOL 141	Introduction to Human Physiology	

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 13 credits of program elective courses from school-approved list ¹ 13

¹ These credits must be selected to fulfill the thematic requirements of the major.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Mechanical Engineering and M.S. in Mechanical Engineering

Available at the following campuses: Harrisburg

Requirements for the Integrated B.S. in Mechanical Engineering and M.S. in Mechanical Engineering can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/mechanical-engineering-capital/#integratedundergradgradprogramstext>).

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

Because every industry values a mechanical engineer's problem-solving capabilities, you'll enjoy tremendous career flexibility in disciplines as varied as research, manufacturing, product and systems design and testing, health care, energy, the military, transportation, and consumer products. A mechanical engineering education also is excellent preparation for technical management, business, law, or technical sales.

Careers

Typical entry-level careers for mechanical engineering graduates are applications engineer, design engineer and mechanical design engineer, test engineer, equipment installation engineering, facilities technician, stress analysis engineer, product development engineer, and project engineer.

Opportunities for Graduate Studies

Graduate programs in mechanical engineering delve more deeply into areas of specialization such as automotive engineering, robotics, advanced manufacturing, thermal science, computational fluid mechanics, combustion modeling, or biomechanical engineering.

Mechatronics Technology, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

Mechatronics is an interdisciplinary technical discipline that combines mechanical, electrical, electronics, control and computer engineering technology. The field deals with the design, development, control, and application of advanced electro-mechanical systems. Such systems will include sensors, actuators, microprocessors, controllers, software, computer, and mechanical hardware components. The purpose of the mechatronics technology minor is to provide undergraduate students an opportunity to take relevant courses that will sequentially build on their knowledge and understanding of mechatronic systems and to provide recognition to those who do so.

What is Mechatronics Technology?

Mechatronics Technology is a multidisciplinary field of engineering and technology that includes a combination of mechanical, electronics, computer, systems, and controls technology, and focuses on real-world application of these areas. The field deals with the design, development, control, and application of advanced electro-mechanical systems. Such systems will include sensors, actuators, microprocessors, controllers, software, computer, and mechanical hardware components. The

applications of mechatronics technology include medical, defense, manufacturing, robotics, automotive, and distributed systems and smart consumer products. Mechatronics engineers and technologists develop new solutions to industrial problems using mechanical and electronic systems and computer technology in addition to designing and building completely new products by integrating various technologies. They may also develop and test factory production lines by integrating automation to improve existing process.

You Might Like This Program If...

- You like hands-on and creative problem-solving.
- You like understanding how robotics or automation work.
- You are interested in working with technology as it relates to manufacturing and systems engineering You work well within collaborative, multidisciplinary teams.
- You are interested in a career as a hands-on technologist or test engineer.
- You are interested in the synergy of electrical, computer and mechanical systems.

Program Requirements

Requirement	Credits
Requirements for the Minor	18-23

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Code	Title	Credits
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
EET 311	Alternating Current Circuits	3-4
or EET 315	Linear and Discrete System Analysis	
Select one of the following:		3
EMCH 211	Statics	
ET 300	Mechanics I: Statics	
MET 111	Mechanics for Technology: Statics	
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Select 6-8 credits of the following: ¹		6-8
<i>Group A</i>		
EE 310	Electronic Circuit Design I	
or EET 212W	Op Amp and Integrated Circuit Electronics	
Select one of the following sequences:		
CMPEN 271 & CMPEN 275	Introduction to Digital Systems and Digital Design Laboratory	
CMPET 117 & CMPET 120	Digital Electronics and Digital Electronics Laboratory	
<i>Group B</i>		
Select one of the following:		
EET 341	Measurements and Instrumentation	
EMET 330	Measurement Theory and Instrumentation	
ME 345	Instrumentation, Measurements, and Statistics	

ME 345W	Instrumentation, Measurements, and Statistics
MET 341	Mechanical Measurements and Instrumentation
Select one of the following:	
EMCH 212	Dynamics
ET 321	Dynamics
MET 206	Dynamics
Select one course each from the following categories:	
<i>Category I</i>	
CMPEH 472	Microprocessors
EE 485	Energy Systems and Conversion
<i>Category II</i>	
EET 433	Control System Analysis and Design
EET 440	Applied Feedback Controls
EMET 410	Automated Control Systems
MET 454	Automatic Controls
MET 455	Mechatronics

¹ Students graduating with an MET major should take 8 credits from Group A; students graduating with an EET major should take 6-7 credits from Group B; all other students should take one course from each group, totaling 7-8 credits.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

<https://harrisburg.psu.edu/science-engineering-technology/mechatronics-technology-minor> (<https://harrisburg.psu.edu/science-engineering-technology/mechatronics-technology-minor/>)

Mechatronics, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

Mechatronics is an interdisciplinary engineering field that combines mechanical, electrical, electronics, control and computer engineering. The field deals with the design, development, control, and application of advanced electro-mechanical systems. Such systems will include sensors, actuators, microprocessors, controllers, software, computer, and mechanical hardware components. The purpose of the minor is to provide undergraduate students an opportunity to take relevant courses that will sequentially build on their knowledge and understanding of mechatronic systems and to provide recognition to those who do so.

What is Mechatronics?

Mechatronics is a multidisciplinary field of engineering that combines mechanical, electrical, electronics, computer, systems and controls engineering, and focuses on theory and applications of these areas. The field deals with the design, development, control, and application of advanced electro-mechanical systems. Such systems will include sensors, actuators, microprocessors, controllers, software, computer, and mechanical hardware components. The applications of mechatronics engineering include medical, defense, manufacturing, robotics, automotive, and distributed systems and smart consumer products. Mechatronics engineers theorize and develop new solutions to industrial problems using mechanical, electrical and electronic systems and computer technology in addition to designing and building completely new products by integrating various technologies. They may also design and develop newer automated systems by integrating to improve existing process. Recent advances in artificial intelligence and machine learning also provide interesting opportunities for mechatronics engineers to solve many complex real world problems.

You Might Like This Program If...

- You like creative problem-solving and analysis.
- You like understanding how robotics or automation work.
- You like the idea of using mathematics to model and analyze complex systems
- You work well within collaborative, multidisciplinary teams.

Program Requirements

Requirement	Credits
Requirements for the Minor	19-22

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
EE 210	Circuits and Devices	4
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select one of the following:		3
CMPSC 121	Introduction to Programming Techniques	
CMPSC 200	Programming for Engineers with MATLAB	
CMPSC 201	Programming for Engineers with C++	
Select 6-8 credits of the following: ¹		6-8
<i>Group A</i>		
CMPEN 270	Digital Design: Theory and Practice	
or CMPEN 2 ¹ Introduction to Digital Systems and Digital Design Laboratory & CMPEN 27		
CMPEN 331	Computer Organization And Design	
or EE 310 Electronic Circuit Design I		
or EE 387 Energy Conversion		
<i>Group B</i>		
ME 345	Instrumentation, Measurements, and Statistics	
or ME 345W Instrumentation, Measurements, and Statistics		
ME 357	System Dynamics	
Select 6-7 credits of the following (one course each from Category I and II):		6-7
<i>Category I</i>		
CMPEH 472	Microprocessors	
CMPEN 472	Microprocessors and Embedded Systems	
EE 485	Energy Systems and Conversion	
EE 487	Electric Machinery and Drives	
ME 445	Microcomputer Interfacing for Mechanical Engineers	
<i>Category II</i>		
EE 483	Introduction to Automation and Robotics Systems	
ME 455	Automatic Control Systems	
ME 456	Introduction to Robotics	

¹ Students graduating with a M E major should take 7-8 credits from Group A; students graduating with an EE major should take 7 credits from group B; all other students should take 6-8 credits from both A and B.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary

academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Multidisciplinary Studies, A.A. (Capital)

Begin Campus: Harrisburg, Hershey Med Ctr, Nurses at Hershey

End Campus: Harrisburg, Hershey Med Ctr, Nurses at Hershey

Program Description

The objectives of the Multidisciplinary Studies major are to broaden the student's understanding, interests, and skills; to help the student become a more responsible, productive member of the family and community; and to offer a degree program with sufficient electives to permit some specialization according to the student's interests or career plans. Multidisciplinary Studies is a complete two-year degree major. However, graduates who later seek admission to baccalaureate degree majors may apply baccalaureate credits toward the new degree.

In addition to a wide variety of baccalaureate majors offered at University Park campus, graduates of the Multidisciplinary Studies major may qualify for admission to the baccalaureate degree majors in Behavioral Sciences, Elementary Education, Humanities, or Public Policy offered at Penn State Harrisburg. Or they may qualify for any of a large number of baccalaureate degree majors offered by Penn State Erie, The Behrend College, in business, the liberal arts, and sciences.

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Arts degree in Multidisciplinary Studies, a minimum of 60 credits is required:

Requirement	Credits
General Education	21
Electives	15
Requirements for the Major	30

6 of the 21 credits for General Education are included in the Requirements for the Major. This includes 6 credits of General Education GWS courses.

Requirements for the Major

The required credits of General Education and Requirements for the Major must be baccalaureate-level courses. For students intending to seek admission to a baccalaureate program upon graduation, it is recommended that most, if not all, of the courses be at the baccalaureate level. For those students who will seek a bachelor of arts degree upon graduation from Multidisciplinary Studies, it is strongly recommended that a world language be taken since admission to a bachelor of arts program in the College of the Liberal Arts requires one college-level course, or the equivalent, in a world language.

Courses that will satisfy the arts, humanities, social and behavioral sciences, natural sciences, and quantification requirements are defined on the Multidisciplinary Studies checklist, which may be obtained from the College of the Liberal Arts associate dean for undergraduate studies at the University Park campus or from any Multidisciplinary Studies representative at other locations.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
CAS 100	Effective Speech	3
ENGL 15	Rhetoric and Composition	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select one of the following:		3
ENGL 202A	Effective Writing: Writing in the Social Sciences	
ENGL 202B	Effective Writing: Writing in the Humanities	
ENGL 202C	Effective Writing: Technical Writing	
ENGL 202D	Effective Writing: Business Writing	
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Select 3 credits in any course designated as arts		3
Select 3 credits in any course designated as humanities		3
Select 3 credits in any course designated as social and behavioral sciences		3
Select 3 credits in any course designated as physical, biological, or earth sciences		3
Select 9 credits in any one of the following areas: arts, humanities, social and behavioral sciences, natural sciences and quantification, and world language skills ¹		9

¹ If world language courses are chosen, it is recommended that these courses be in one world language sequence.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 3 credits
- **Writing and Speaking (GWS):** 3 credits

Knowledge Domains

- **Arts (GA):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Note: Up to six credits of Inter-Domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

- **Any General Education course (including GHW and Inter-Domain):** 3 credits

University Degree Requirements

Cultures Requirement

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 60 degree credits must be earned for an associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy

83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- Students will be able to communicate clearly and persuasively the integration of their learning of multiple disciplines in a degree program that reflects their theme.
- Students will be able to apply empirical or creative process specific to their fields of specialization.
- Students will be able to synthesize multiple disciplinary perspectives into an intellectual or professional identity.
- Students will be able to engage meaningfully and respectfully with others who have different perspectives or world views.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Multidisciplinary Studies, A.A. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
ENGL 15, 15S, 30T, or ESL 15 [†]	3 General Education Course	3
Quantification	3 CAS 100A or 100S [‡]	3
General Education Course	3 General Education Course *	3
General Education Course	3 General Education Course	3

15		15

Second Year

Fall	Credits Spring	Credits
General Education Course *	3 ENGL 202A [‡]	3
General Education Course *	3 Related Courses Selection *	6
Related Courses Selection *	3 Electives	6
Electives	6	
15		15

Total Credits 60

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Additional Notes

The associate degree in letters, arts, and sciences (2 LAS) is a degree which allows learners to experience a variety of academic disciplines as well as prepare for continued studies in a bachelor degree program. Please consult with your adviser if you have a particular bachelor degree in mind. Your adviser can help build a plan to help you meet any admission or course prerequisite requirements for the bachelor degree.

Students must complete on course with each of the following designations: W: Writing intensive; US and IL for International competency. This require can be met through General Education or Related courses.

Political Science, B.A. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Political Science major offers the student an opportunity to understand not only American federal, state, and local governments, but also the political systems of other nations and the philosophies that underlie them. Courses are offered in American, comparative, and

international politics, and in political theory and methodology. Internship opportunities are available.

What is Political Science?

Political science is one of the social sciences. It is the study of systems of governance and governmental institutions, political activity, political thought, and political behavior. Political science draws from many other academic disciplines, including economics, law, sociology, history, philosophy, geography, psychology, and anthropology. There also are subfields of political science, such as comparative politics, political theory, international relations, international law, public administration, and public policy. Political science students study how American government works (and doesn't work) and what can be done to improve government at the federal, state, and local level. In comparative government and international relations coursework, students study the politics and policies of other countries. Political theory courses examine the ideas of famous political philosophers, while courses on law and the legal process provide knowledge about the criminal justice and civil litigation systems.

You Might Like This Program If...

You are interested in how power and resources are allocated in society. Students in this major study governments, public policies, and political behavior in the United States and around the world from both a humanistic and scientific perspective. If you're interested in how history, culture, and economics shape our lives and impact things like economic development, conflict, foreign policy, terrorism, globalization, and the environment, then this is the major for you.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Arts degree in Political Science, a minimum of 123 credits is required:

Requirement	Credits
General Education	45
Electives	15
Bachelor of Arts Degree Requirements	24
Requirements for the Major	39

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree

is earned. For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

In meeting the requirements for the major, students must take at least one course at any level from FOUR of the five fields offered in the department: Political Theory, Methodology, American Politics/Public Administration, Comparative Politics, and International Relations.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 15 credits in PLSC at or above the 400 level		15
Select 15 credits in PLSC at any level, with at least 9 of these credits above the 100 level or above ¹		15
Select 9 credits from the following:		9
PLSC 1	American Politics: Principles, Processes and Powers	
PLSC 3	Comparing Politics around the Globe	
PLSC 10	Scientific Study of Politics	
PLSC 14	International Relations	
PLSC 14H	International Relations Honors	
PLSC 17N	Introduction to Political Theory	
PLSC 17W	Introduction to Political Theory	

¹ Up to 6 credits of these 15 credits at any level may be taken in related or complementary disciplines with approval of an academic adviser.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- Arts (GA): 3 credits
- Health and Wellness (GHW): 3 credits

- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency

must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

- Understand Governmental Processes, Theories, and International Relations
 - Understand Constitutional Foundations, Processes, Institutions, Non-Government Actors
 - Be Able to Compare Political Systems
 - Understand Political Theory
 - Knowledge of International Relations Concepts, Actors, Processes, Political Economy
 - Knowledge of Policy Issues
- Locate, Assess, Interpret and Communicate Political Information
 - Write effectively
 - Communicate Verbally and with Use of Technology
 - Assess and Interpret Political Data and Events
 - Define Research Problems and Develop Hypotheses
- Exercise Responsibilities of Citizenship in a Democratic Society
 - Understand World, National and Regional Politics
 - Demonstrate an Understanding of Democratic Values
 - Recognize and Understand Opposing Viewpoints

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 123

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ World Language: requires World Language at the 12th credit level.

² • PLSC 7 is typically offered spring semester only.

• PLSC 117W is typically offered fall semester only.

³ Bachelor of Arts Degree Requirement: This requirement cannot be fulfilled by courses offered in a student's primary major, and cannot double count to meet General Education requirements. World Language credits for this requirement must be in a second World Language or beyond the 12th credit level of proficiency in the first World Language.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in

the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Program Notes

- Students must complete at least 15 credits of 400-level courses
- The 9-credit writing requirement for PLSC may be met by taking either PLSC 17W or PUBPL 304W
- Concurrent majors in Political Science and Public Policy are not permitted
- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)." (Prefer PLSC 110, PLSC 123, or PLSC 130 for US culture.)

Career Paths

Political Science is one of the most versatile majors in the liberal arts. The program provides students with an in-depth understanding of political issues while honing their ability to think critically and communicate persuasively. As a political science major, you will learn to conduct research and to evaluate information and assemble empirically supported arguments. These skills are necessary for success in a variety of careers, including law, public policy, lobbying, business, political campaigning, and government, as well as with non-profit organizations.

Careers

Penn State Political Science graduates are serving as advisers to the State Department; as attorneys and management specialists in the Department of Justice; as speech writers, lobbyists and policy analysts on Capitol Hill; and even in the United States Senate. Our alumni have built successful careers in business, and as lawyers, teachers, and journalists. Many are successful entrepreneurs, some work for NGOs, others are leaders of major corporations. You can learn from their experience through our alumni mentoring program.

Project and Supply Chain Management, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Project and Supply Chain Management major concentrates on developing knowledge, skills, and abilities in both project and supply chain management, dynamic and important disciplines in modern corporations. Project management skills include the development of new projects, and coordinating procurement and project delivery systems. Supply chain management emphasizes the integration of manufacturing and service operations, logistics, purchasing, and distribution that enable organizations to develop value-creating supply chain networks. The major provides students with an opportunity to develop the quantitative and people skills necessary to design and operate today's complex management systems. Students learn how to manage critical components in organizational supply chains, and apply business analytic methods for organizing and fully integrating supply chain practices throughout the organization.

Graduates are uniquely well-prepared for careers in some of the highest in-demand professions in the modern business and government environments, managing the supply chain and project initiatives in world-class business firms, public sector organizations, construction, IT organizations, third-party logistics providers, and goods and services distribution operations.

What is Project and Supply Chain Management?

It has been estimated that well over half of all activities in modern corporations are project-based. From developing a new product to constructing a new building, the list of efforts that organizations must plan, manage, and deliver (ideally on time and under budget) is nearly endless. At the same time, globalization creates a growing need for professionals who can effectively manage complex supply chains. The study of project and supply chain management emphasizes the integration of manufacturing and service operations, logistics, purchasing, and distribution—the functions that enable organizations to cultivate value-creating supply chain networks.

You Might Like This Program If...

- You're not intimidated by large projects, or ones that have many moving parts.
- You are detail oriented.
- You are looking for a versatile, in-demand business degree.
- You are interested in pursuing a concurrent certificate in Enterprise Resource Planning (ERP) with SAP (available at Erie, the Behrend College and University College campuses, Beaver, Brandywine, Fayette, Greater Allegheny, Lehigh Valley, New Kensington, Schuylkill, Shenango, Wilkes-Barre and Scranton).

Entrance to Major

Entry to the Project and Supply Chain Management major requires the successful completion of 5 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30H, MATH 110 or MATH 140, STAT 200 or SCM 200. Each course requires a C or better grade for successful completion.

Degree Requirements

For the Bachelor of Science degree in Project and Supply Chain Management, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	96

21 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 6 credits of GS courses; 9 credits of GWS courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned.

Requirements for the Major

Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

BA 462	Business Strategy	
MGMT 471W	Strategic Management and Business Policy	

Supporting Courses and Related Areas

Select 13 credits from any business major field or any non-business major field, except for all KINES (GHW) courses, any ENGL course below ENGL 15, and any MATH course below MATH 110. Exceptions may be petitioned through the applicable department chair.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense

of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Project and Supply Chain Management and M.B.A. in Business Administration

Available at the following campuses: Harrisburg

Requirements for the Integrated B.S. in Project and Supply Chain Management and M.B.A. in Business Administration can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/business-administration-capital/#integratedundergradgradprogramstext>).

Program Learning Objectives

Student graduates of our baccalaureate degree programs should be:

1. Effective communicators
 - a. Present verbally, thoughts and ideas in a way that can be clearly understood by a target audience.
 - b. Convey ideas in a clear, coherent manner in written communication.
2. Ethical and socially responsible
 - a. Be competent in analyzing social and ethical decision making issues in organizations.
3. Critical thinkers
 - a. Be able to think and identify multiple dimensions of company issues and performances and make an assessment of company performances in achieving financial and strategic objectives, tracking their achievements, and giving management of companies a more complete and balanced view of how the organization is performing.
4. Competent in their own discipline
 - a. Calculate reorder point and EOQ for continuous review system as well as annual inventory holding costs and ordering cost. Calculate order-up-to amount for periodic review system.
 - b. Calculate the critical path for a project.
 - c. Explain the functions and flows of the SCOR Model and how they interact.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ Supporting Course: Skills Enhancement, this component of the degree program consists of 12 credits that provide students with an opportunity to pursue course work related to their career interests. Students should select their courses (in consultation with an adviser) from the Supporting Courses list below.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes

- 30 Credits of GA, GH, GHW, GN, GS to include 6 Integrative Studies credits.
- 15 Credits of GQ and GWS require a grade of "C" or better
- Courses required for the major must generally be taken within 10 years of Entrance to Major.

supporting courses

Select 13 credits from any business major field or any non-business major field. Courses which are excluded as supporting courses are all KINES courses which are designated as GHW, any ENGL course below ENGL 15, and any MATH course below MATH 110.

Career Paths

The B.S. in Project and Supply Chain Management is one of only a handful of undergraduate degree programs in this field. Graduates are uniquely prepared to work in project-intensive industries such as construction, insurance, information services and information technology, manufacturing, utilities, pharmaceuticals, third-party logistics, and goods and services distribution operations.

Careers

Employers of recent B.S. in Project and Supply Chain Management graduates include Logistics Plus, Parker Hannifin, Bechtel Plant Machinery, American Eagle, Frito Lay, FairPoint Communications, Pitney Bowes, Spyne, General Electric, Wabtec Railway Electronics, Business Resource Group, Modern Industries, Eddie Bauer, Ferguson Enterprises, Unisys, Eastman Kodak, Tyco Electronics, and IBM.

Opportunities for Graduate Studies

The B.S. in Project and Supply Chain Management can be a starting point for master's- and doctoral-level study of supply chain management, project management, management science, law, organizational behavior, corporate strategy, enterprise architecture, information technology, or another specialized discipline.

Accreditation

The B.S. in Project and Supply Chain Management offered by the School of Business Administration at Penn State Harrisburg, the Capital College, is accredited by AACSB International – The Association to Advance Collegiate Schools of Business. AACSB's mission is to foster engagement, accelerate innovation, and amplify impact in business education. Synonymous with the highest standards of excellence since 1916, AACSB provides quality assurance, business education intelligence, and professional development services to over 1,600 member organizations and more than 800 accredited business schools worldwide. AACSB International (AACSB) connects educators, students, and business to achieve a common goal: to create the next generation of great leaders.

Psychology, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Psychology major emphasizes the scientific study of human behavior in areas such as cognition, development, learning, physiology, personality, and social processes. The curriculum is designed to provide students with a broad background in psychological theory and research and to

develop the analytical and critical thinking skills necessary to be good consumers of scientific information.

The Psychology program exposes students to a number of areas of psychology but allows flexibility in the specific courses that are taken in each sub-area. Students are also required to obtain applied experience by completing an internship or by assisting faculty with their research. Elective credits can be used for additional internship or research experience.

The Psychology program prepares students for careers in local, state, and federal government and for entry-level psychological services positions in human service, applied behavior, human resources, and related fields. The Psychology program also provides a strong background for graduate education at both the master's and the doctoral level in counseling, social work, and many areas of psychology.

What is Psychology?

Psychology is the scientific study of thought, behavior, and experience. Many people associate psychology with psychological therapy and the practice of clinical psychology. There are also many other important areas of scientific psychology, such as cognitive, developmental, industrial/organizational, and social psychology. What these subfields of psychology have in common is the use of the scientific method to understand human behavior and apply that understanding to the development of theory and practice. Psychologists are increasingly making use of neuroscience methods and theories to understand psychological phenomena. As a profession, psychology is related to fields such as health, education, marketing, human resources, social work, and more. The principles of psychology are relevant to almost all areas of human endeavor, and the career paths of psychology students reflect this wealth of possibilities.

You Might Like This Program If...

- You are people-oriented and naturally curious about human behavior and mental processes.
- You want a better understanding people's thoughts, feelings, and behavior.
- You are considering a career as a psychologist, counselor, social worker, or other human services professional.
- You desire a broad understanding of human behavior and mental processes, as well as valuable interpersonal and analytical skills that will help you in a variety of career paths, such as business, law, and medicine.

Entrance to Major

Entry to the Psychology major requires a 2.00 cumulative grade-point average and an average of C (2.00) or better in any courses already taken in the major.

Degree Requirements

For the Bachelor of Science degree in Psychology, a minimum of 122 credits is required:

Requirement	Credits
General Education	45
Electives	9
Requirements for the Major	74

6 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GN courses; 3 credits of GWS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
ENGL 202A	Effective Writing: Writing in the Social Sciences	3
PSYCH 100	Introductory Psychology	3
PSYCH 301W	Basic Research Methods in Psychology	4
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 3 credits from the following:		3
BIOL 141	Introduction to Human Physiology	
BIOL 161	Human Anatomy and Physiology I - Lecture	
BISC 4	Human Body: Form and Function	
At least 15 credits of the following courses must be at the 400 level:		
Select 4 credits from the following:		4
Category 1 (Statistics)		
PSYCH 200	Elementary Statistics in Psychology or STAT 200 Elementary Statistics	
Select 6 credits from two different developmental categories (3 credits each category):		6
Category 2a (Lifespan)		
PSYCH 212	Introduction to Developmental Psychology	
Category 2b (Adult)		
PSYCH 416/ HDFS 445	Development Throughout Adulthood	
Category 2c (Child)		
PSYCH 410	Child Development	
Category 2d (Adolescence)		
PSYCH 412	Adolescence	
Select 6 credits from two different individual difference categories (3 credits each category):		6
Category 3a (Social Psychology)		
PSYCH 221	Introduction to Social Psychology or PSYCH 420 Advanced Social Psychology	
Category 3b (Personality Psychology)		
PSYCH 238	Introduction to Personality Psychology or PSYCH 430 Personality Theory	
Category 3c (Personal Adjustment)		
PSYCH 243	Introduction to Well-being and Positive Psychology or PSYCH 470 Psychology of Adjustment and Social Relationships	
Category 3d (Health Psychology)		
PSYCH 441	Health Psychology	
Select 6 credits from two different clinical categories (3 credits each category):		6
Category 4a (Physical Disabilities)		

PSYCH 370	Psychology of the Differently-Abled	
Category 4b (Childhood Disorders)		
PSYCH 476	Child Psychopathology	
Category 4c (Abnormal Psychology)		
PSYCH 270	Introduction to Abnormal Psychology or PSYCH 470 Abnormal Psychology	
Category 4d (Behavior Modification)		
PSYCH 473	Behavior Modification	
Category 4e (Developmental Disabilities)		
PSYCH 443	Treatment and Education in Developmental Disabilities	
Select 6 credits from two different experimental categories (3 credits in each category):		6
Category 5a (Physiological Psychology)		
PSYCH 260/ BBH 203	Neurological Bases of Human Behavior	
or PSYCH 460 Physiological Psychology		
Category 5b (Cognitive Psychology)		
PSYCH 256	Introduction to Cognitive Psychology or PSYCH 450 Learning and Memory or PSYCH 455 Advanced Cognitive Psychology	
Category 5c (Learning Theory)		
PSYCH 261	Introduction to Psychology of Learning or PSYCH 465 Advanced Conditioning and Learning	
Select 3 credits from applications in psychology:		3
Category 6 (Applied Experience)		
PSYCH 395	Internship or PSYCH 490 Research Projects or PSYCH 495 Internship	
Select 12 credits of any PSYCH courses not used above, with the exception that only one course selected from any Category 1 through 5 will count for the major		12
Supporting Courses and Related Areas		
Complete 18 credits from department approved list		18

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Content Knowledge:** Content Knowledge: Demonstrates familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology. Understand and apply psychological principles to personal, social, and organizational issues.
 - Demonstrate knowledge of major psychological concepts, theories, and empirical findings.
 - Demonstrate the ability to apply psychological concepts and theories to research and real life situations.
- **Research Skills:** Understand basic research methods in psychology, including research design, data analysis, and interpretation.
 - Differentiate among the research methods used in psychology and apply the designs in evaluation or development of a research study.
 - Demonstrate the ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables.
- **Thinking Skills:** Respect and utilize critical and creative thinking skills.
 - Use critical and creative thinking, skeptical inquiry, and the scientific approach to solve problems related to behavior and mental processes.
 - Demonstrate critical thinking in the analysis and evaluation of information to distinguish scientific from nonscientific claims related to psychology OR Demonstrate critical thinking in the analysis, evaluation, and interpretation of information in the scientific literature to distinguish the scientific literature from other sources.
- **Communication Skills:** Demonstrate the ability to communicate effectively in a research project, or capstone clinical or research experience.
 - Communicate effectively (in writing and/or orally) the results of a project or internship.
 - Demonstrate the ability to effectively extract central points and summarize psychological research literature and to write in the format of psychological research.
- **Diversity and Ethical Considerations:** Be able to tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a science.
 - Show evidence of knowledge and appreciation for cultural diversity and relativity in human experience and for the complexity of human behavior and interactions.
 - Demonstrate knowledge, and the application of, basic principles of scientific and professional ethics.
 - Demonstrate sensitivity to ethical concerns and professionalism (including cultural considerations) in settings where applications of psychology and/or psychological research occur.
- **Career-related Skills:** Knowledge of different career areas that are appropriate for psychology majors.
 - Demonstrate knowledge of professional options and required training for careers in the major subfields of psychology.
 - Demonstrate the ability to identify personally-relevant career options to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their

intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes

- GWS, GQ, GA, GH, GS, GN and GHW are codes used to identify General Education requirements.
- US, IL, and US;IL are codes used to designate courses that satisfy University United States/International Cultures requirements. All students are required to take one IL and one US course before graduation. A course designated as US;IL may be used as a US or an IL, not both.
- W suffix signifies the course satisfies the University Writing Across the Curriculum requirement.

Program Notes

- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."
- At least 15 credits from supporting list courses must be at the 400 level.

Supporting Course List #1 (select 6 credits)

Career Paths

The American Psychological Association's Center for Workforce Studies reported in 2013, that 94% of people holding bachelor's degrees in psychology are employed. According to projections by the U.S. Bureau of Labor Statistics, most bachelor's-level Psychology graduates will move toward positions in human services, where an increase of 13 percent in job growth is expected in some areas. Other employment fields for psychology graduates, including entry-level management, human resources, and sales, anticipate growth between 5 and 7 percent.

Careers

Penn State Harrisburg's B.S. in Psychology degree provides students with a variety of skills that are exceptionally valued in the mental health and social services fields, basic and applied research, applied behavior, human resources, social work, medicine, business, law, and careers in local, state, and federal government.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE PSYCHOLOGY PROGRAM (<https://harrisburg.psu.edu/behavioral-sciences-education/psychology-bs/>)

Opportunities for Graduate Studies

The Psychology program also provides a strong background for graduate education, including Penn State's Master of Arts programs in Applied Behavior Analysis or Applied Clinical Psychology. The Master of Arts degree in Applied Clinical Psychology includes optional preparation for the Licensed Professional Counselor (LPC) credential.

Public Policy, B.S.

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Public Policy major is designed for students interested in policy issues, politics, public administration, and related areas like policy analysis and policy advocacy. The program explores a myriad of critical issues facing our communities, the nation, and the world. Students receive the educational foundation for careers in the public sector, in government-related businesses, and in non-profit organizations, as well as for graduate work in the fields of law, public administration, criminal justice, public policy, political science, and health care administration. Building on the program core, students may choose electives from a broad array of courses in public policy and other areas. For-credit Internship opportunities are available, including the Harrisburg Semester program, where qualifying students may apply for a scholarship.

Students may wish but are not required to pursue a concentration within the Public Policy major. The following concentrations are available:

1. State and Local Government
2. Governmental Affairs and Public Service Careers
3. Policy Analysis and Governance Studies

Students should consult their adviser for a complete listing of courses in each of these concentrations. Overall, the Public Policy program seeks to advance the ideals of civic culture and a commitment to public service.

Our proximity to the state capital at Harrisburg provides students with a rich environment for both study and for internships. In addition to our full-time faculty, Public Policy draws on part-time faculty with particular professional strengths. In recent years students have explored politics and political issues in classes taught by a state senator, a former lieutenant governor, a corrections system administrator, and a governor's press secretary. This integration of academic study with the "real world" of Pennsylvania politics and policy making is further enhanced through quality internships. The Public Policy program prides itself in placing qualified students in internships that facilitate the development of professional skills and promote the prospects for professional employment following graduation.

Students are encouraged to complete an internship during their senior year. Additional information regarding internships may be obtained by contacting the School of Public Affairs Internship Coordinator (see <https://harrisburg.psu.edu/public-affairs/internships> (<https://harrisburg.psu.edu/public-affairs/internships/>)). For-credit Internship opportunities available, including the Harrisburg Semester program, which offers scholarship opportunities to qualifying students. (For more information, see <https://harrisburg.psu.edu/public-affairs/internships/harrisburg-semester-internship-program> (<https://harrisburg.psu.edu/public-affairs/internships/harrisburg-semester-internship-program/>)).

What is Public Policy?

Public Policy is a discipline that focuses on the systematic analysis of public policy issues and decision processes. It includes study in the role of economic and political factors in public decision-making and policy formulation, microeconomic analysis of policy issues, resource allocation and decision modeling, and policy advocacy.

You Might Like This Program If...

- You have an interest in fostering positive policy change.
- You are concerned about critical issues facing your community or nation.
- You would enjoy working with others to solve these critical issues.
- You are interested in a career in government or with an NGO or non-profit.

Entrance to Major

Entry to the Public Policy major requires a 2.00 or higher cumulative grade-point average and an average of C (2.00) or better in any course already taken in the major.

Admission Requirements for Transfer Students

Transfer students must have a 2.00 or higher cumulative grade-point average. The evaluation of prior college work is done on an individual basis by the Office of Enrollment Services at Penn State Harrisburg.

Degree Requirements

For the Bachelor of Science degree in Public Policy, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	16
Requirements for the Major	65

6 of the 45 credits for General Education are included in the Requirements for the Major. This includes 6 credits of General Education GS courses.

Requirements for the Major

At least 15 credits must be at the 400 level.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

1. **Understand Political Processes and Government Operations at National, State & Local Levels**
 - a. Understand Constitutional Foundations, Institutions & Political Processes in the U.S.
 - b. Understand Role of States in Federal System and Local Governments within States
 - c. Understand Operation of Government Agencies
2. **Understand and Analyze Policy Creation Process, Policy Implementation & Policy Impact**
 - a. Understand Roles of Legislatures, Agencies & Interest Groups in Policy Formation
 - b. Attain Familiarity with Selected Public Policies and Their Impact
 - c. Acquire Ability to Analyze Critically the Content and Impact of Public Policies
3. **Be Prepared to Function in Policy-Related Careers in Government and NGOs**
 - a. Ability to Write Clearly and Concisely
 - b. Ability to Communicate Effectively Using Oral Skills and Technology
 - c. Knowledge of Leadership Qualities and Strategies
 - d. Ability to Function Successfully in Policy-Related Work Environments
 - e. Ability to Understand Research Methods and Use Statistics
 - f. Knowledge of Microeconomics and Macroeconomics

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes

- Students must complete at least 15 credits of 400-level courses
- Concurrent majors in Political Science and Public Policy are not permitted.
- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."

Career Paths

Our proximity to the state capital in Harrisburg provides students with a rich environment. In addition to our full-time faculty, public policy draws on part-time faculty with particular professional expertise and strengths. In recent years, students have explored politics and political issues in classes taught by a state senator, a former lieutenant governor, a corrections system administrator, and a governor's press secretary. This integration of academic study with the practice of Pennsylvania politics and policy making is further enhanced through quality internships that enhance learning outcomes by immersing students in a credit-earning, real-world experience.

Careers

The Public Policy major is designed for students interested in policy issues, politics, public administration, and related areas like policy analysis and policy advocacy. Students in the Public Policy major receive the educational foundation for careers in the public sector, in government-related businesses, and in non-profit organizations.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE PUBLIC POLICY PROGRAM (<https://harrisburg.psu.edu/public-affairs/public-policy-bs/>)

Opportunities for Graduate Studies

The Public Policy program also provides a strong background for graduate education, including Penn State's Master of Public Administration, Master of Professional Studies in Homeland Security, Master of Health Administration, Master of Arts in Criminal Justice, and the PhD in Public Administration.

Sales, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Sales minor is designed for students to develop consultative skills, which will benefit them throughout their careers. Professional selling and sales management careers help graduates learn about what the company has to offer and how to communicate with customers based on their needs. The Sales minor prepares students for professional certification in Sales. The University Sales Center Alliance (USCA), a consortium of recognized and accredited sales programs across the Nation, sponsors the Certified Sales Student designation.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Secondary Education Social Studies, B.SOSC.

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Secondary Education Social Studies major prepares students to meet the requirements as established by the Pennsylvania Department of Education, to be certified for the Social Studies Instructional I Certificate. The major prepares students to teach history, government, economics, geography, psychology, sociology, and anthropology.

Students are challenged to prepare for teaching assignments at the middle and high school level, and in diverse settings characterized as rural, urban, and suburban. The art and science of teaching social studies in secondary schools is undergoing significant transformation as new technologies, new issues and considerations, and new instructional strategies are all having an impact on the delivery of social studies instruction.

Students admitted to the program must submit and renew annually the appropriate clearances. These include FBI fingerprint check, Act 151 child

abuse history clearance, and Act 34 criminal record check. Additionally, documentation a clear tuberculosis (TB) test must be submitted no more than 90 days prior to any clinical field placement.

Students thinking seriously about entering the education program should plan their freshman and sophomore years carefully, following the Suggested Academic Plan as closely as possible. Semesters 5 through 8 are very structured.

What is Secondary Education Social Studies?

Secondary Education Social Studies prepares individuals to teach students in the secondary grades, which may include grades seven through twelve, depending on the school system or state regulations, in the areas of history, government, economics, geography, psychology, sociology, and anthropology.

You Might Like This Program If...

- You enjoy history, economics, geography, sociology, and government; You like critical, creative, and reflective thinking; You enjoy helping others learn; You want to have an important and direct impact on the lives of others; You want a career in teaching or school administration; You want to help transform the world, one student at a time.

MORE INFORMATION ABOUT THE SECONDARY EDUCATION SOCIAL STUDIES PROGRAM (<https://harrisburg.psu.edu/behavioral-sciences-education/teacher-education/secondary-education-social-studies-bsosc/>)

Entrance to Major

Entry to Secondary Education Social Studies requires the following:

1. A minimum grade point average of 3.0;
2. Completion of ENGL 15 or ENGL 30H and three credits of literature from approved list with a C or higher grade;
3. Three credits of literature from a department-approved list with a C or higher grade;
4. Completion of six credits of college-level mathematics (MATH or STAT prefixes) with a C or higher grade;
5. Satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for the major;
6. Submission to the Teacher Education Office of current and clear background checks as required by the Pennsylvania Department of Education;
7. Submission of documentation of 20 pre-major fieldwork hours.

Retention Requirements

Following entrance to the major, students will be evaluated for retention in the program based on:

1. maintaining a cumulative GPA of 3.0 or higher;
2. completion of required courses with a C or higher grade;
3. an acceptable or above rating on the Professional Dispositions for Teacher Education;¹

- current and clear background checks as required by the Pennsylvania Department of Education.

To be eligible to student teach, students must:

- maintain a cumulative GPA of 3.0 or higher;
- complete all required Content and Education Courses with a C or higher grade;
- satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to major;
- be rated acceptable or above on the Professional Dispositions for Teacher Education;¹
- have current and clear background checks as required by the Pennsylvania Department of Education.

In order to successfully complete the Secondary Education Social Studies Program, students must:

- complete EDUC 490 with a grade of C or higher;
- maintain a cumulative GPA of 2.0 or higher for degree completion;
- maintain a cumulative GPA of 3.0 or higher for Pennsylvania teacher certification;
- Complete all required Content and Education Courses with a C or higher grade;
- complete a program portfolio; and
- For Pennsylvania teacher certification, be rated acceptable or above for all criteria on the Final Professional Dispositions Review for Teacher Education.

¹ For more detailed information see the Secondary Education Handbook.

Degree Requirements

For the Bachelor of Social Science degree in Secondary Education Social Studies, a minimum of 122 credits is required:

Requirement	Credits
General Education	45
Electives	3
Requirements for the Major	95

21 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GH courses; 6 credits of GQ courses; 3 credits of GN courses; 6 credits of GS courses.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ ENGL 15S or ENGL 30T and ENGL 202A (with a grade of B or higher) together satisfy the reading and writing testing entrance to major requirement.

² MATH 200 and MATH 201 (with a grade of B or higher) together satisfy the mathematics testing entrance to major requirement.

³ At least 3 credits from selected PLSC and AFAM, AMST, HIST, WMNST, or minority studies courses must be at the 400 level.

⁴ At least 3 credits from AFAM, AMST, HIST, WMNST, or minority studies or SOC 400 level courses must be in US Cultures.

⁵ Electives can be taken in any subject area, but courses in education (including those taken toward an add-on certification) or courses relevant to social studies education are encouraged.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Career Paths

The Secondary Education Social Studies major will prepare students to teach social studies in secondary schools grades 7 to 12. As secondary school teachers, they will delve more deeply into subject matter introduced broadly during the elementary years. Additionally, Secondary Education Social Studies students should graduate with instructional, organizational, administrative, and communications abilities and an excellent background in the social studies. Other career areas requiring these skills include: public relations, sales, social work, employee training and development, social service, and employment counseling.

Careers

The Secondary Education Social Studies major prepares students to meet the requirements to be certified for the Social Studies Instructional I Certificate as established by the Pennsylvania Department of Education.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE SECONDARY EDUCATION SOCIAL STUDIES PROGRAM (<https://harrisburg.psu.edu/behavioral-sciences-education/teacher-education/secondary-education-social-studies-bsosc/careers-teaching/>)

Opportunities for Graduate Studies

Graduate programs for a Master of Education degree are available in Teaching and Curriculum and Literacy Education. Additional certification and endorsement programs in English as a Second Language (ESL), Special Education, and others are also available.

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (<https://harrisburg.psu.edu/behavioral-sciences-education/teacher-education/>)

Professional Resources

- National Council for the Social Studies (<https://www.socialstudies.org>)

Accreditation

This program is nationally recognized by the National Council for the Social Studies (NCSS) and endorsed the Pennsylvania Department of Education (PDE).

MORE INFORMATION ABOUT THE NATIONAL COUNCIL FOR THE SOCIAL STUDIES (<https://www.socialstudies.org/standards/national-standards-preparation-social-studies-teachers/>)

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

Security and Risk Analysis, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The Bachelor of Science in Security and Risk Analysis (SRA) in the College of Information Sciences and Technology responds to the expanding need for a highly trained analytic workforce to address a wide range of security and risk domains including national/homeland security, emergency and disaster management, law and crime, as well as enterprise risk management.

SRA program prepares students with core competence in four knowledge areas:

1. understanding the fundamentals of security, risk, analytic methods and decision support for the purpose of recognizing, articulating, and addressing analytic needs;
2. understanding the roles of data and analytics in various security domains and organizational contexts;
3. applying data analytics, methods, and tools (structured analytics; data gathering and manipulation; visual analytics; analytic judgements and presentation) to derive and communicate insights and actionable knowledge;
4. the legal, ethical, and professional issues within which analytics of security and risk are conducted.

Students may specialize in risk domains ranging from national security to community emergency preparedness and response. The SRA program positions our students to be future leaders to address the current and emerging security and risk challenges that face individuals, organizations and our nation.

SRA majors will choose one of the following options:

Intelligence Analysis and Modeling Option

Available at the following campuses: University Park, World Campus

This option focuses on developing a more thorough knowledge of the strategic and tactical levels of intelligence collection, analysis, and decision-making. This includes examining the foundations of decision analysis, economic theory, statistics, data mining, and knowledge management, as well as the security-specific contexts in which such knowledge is applied.

Information and Cyber Security Option

Available at the following campuses: Altoona, Berks, Harrisburg, University Park, World Campus

This option includes a set of courses that provides an understanding of the theories, skills, and technologies associated with network security, cyber threat defense, information warfare, and critical infrastructure protection across multiple venues.

What is Security and Risk Analysis?

Security and risk analysis is a field that explores the integrated processes conducted to provide decision-makers with the information needed to understand factors that can negatively influence operations and

outcomes, and make informed judgments concerning the extent of actions needed to reduce vulnerabilities, protect resources, and optimize investments. Security and risk analysis is a field of practice with two blended concentration areas: 1) security, which seeks to identify, understand, and analyze critical local, national and international security issues, and 2) risk, which includes risk assessment, risk characterization, risk communication, risk management, and the formulation of risk policy. In practice, the issues and processes for conducting of security and risk analytics are neither separate nor sequential. To be effective, the issues of security and risk must be addressed concurrently and synergistically.

MORE INFORMATION ABOUT SECURITY AND RISK ANALYSIS (<https://ist.psu.edu/prospective/undergraduate/academics/sra/>)

You Might Like This Program If...

- You want to protect people, information, and assets from manmade and natural threats.
- You want to understand the role of data in protecting individuals, organizations and our nation.
- You are mission oriented, a good critical thinker and wish to put your problem-solving skills to work to make the world a safer place.
- You want to make informed strategic decisions that help to defend critical infrastructures that supports our daily lives.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY SECURITY AND RISK ANALYSIS (<https://ist.psu.edu/prospective/undergraduate/academics/sra/>)

Entrance to Major

In addition to the minimum grade point average (GPA) requirements described in the University Policies*, all Security and Risk Analysis (SRA) entrance to major course requirements must also be completed with a minimum grade of C: IST 140 (or equivalent CMPSC 101 or CMPSC 121), IST 210, SRA 111, and SRA 211. All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

* *In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed at the time of confirming their major choice.*

Degree Requirements

For the Bachelor of Science degree in Security and Risk Analysis, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	5-13
Requirements for the Major	77-85

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 6 credits of GS courses; and 3 credits of GWS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and->

[rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44](https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44)).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
IST 110	Information, People and Technology	3
IST 210	Organization of Data	3
IST 432	Legal and Regulatory Environment of Information Science and Technology	3
IST 495	Internship	1
SRA 111	Introduction to Security and Risk Analysis	3
SRA 211	Threat of Terrorism and Crime	3
SRA 221	Overview of Information Security	3
SRA 231	Decision Theory and Analysis	3
STAT 200	Elementary Statistics	4
Additional Courses		
ENGL 202C	Effective Writing: Technical Writing	3
or ENGL 202D	Effective Writing: Business Writing	
PSYCH 100	Introductory Psychology	3
or SOC 5	Social Problems

Supporting Courses and Related Areas		
Select 12 credits from College-approved list (at least 3 credits must be at the 400-level)		12

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Communication (Individual and Team):** Communicate and work effectively (both individually and in teams) with a range of perspectives and audiences through a variety of media
 - Participate effectively on teams in order to accomplish a common goal
 - Communicate effectively with a range of audiences, formally or informally, through writing and the spoken word
 - Seek out, analyze, and incorporate diverse ideas and broader perspectives represented in the diversity of people
 - Make respectful and inclusive choices in interacting with customers, peers, supervisors, and/or subordinates with a diversity of identity characteristics (e.g., age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, gender identify, or veteran status)
- **Knowledge/Application:** Understand and apply the interdisciplinary, theoretical knowledge of the information sciences or security sciences
 - Define and explain the core concepts, principles, processes, and theories within the academic majors of IST and/or SRA
 - Apply the core concepts of the academic majors of IST and/or SRA to real-world problems
- **Lifelong Learning:** Commit to the continuous acquisition of relevant knowledge for professional development by self-teaching and/or on-going education and learning
 - Employ information-seeking strategies and self-directed learning in pursuit of current knowledge
 - Enroll in professional development and tutoring opportunities
- **Problem-Solving:** Understand, apply and adapt various problem solving strategies to address security and risk problems within the individual, community, organizational and national security dimensions
 - Identify security and risk problem terms of the individual, community, organizational and national security levels of analysis
 - Analyze issues surrounding the problem and/or opportunity in terms of the human, informational, and technology dimensions; and determine the requirements appropriate to understanding the situation
 - Identify and recognize countermeasure application strategies to address security needs to include architectures, processes, components, or programs to meet desired needs at varying levels of analysis (e.g., individual, community, organizational and/or national security)
- **Professional Responsibilities:** Understand professional responsibilities in terms of the ethical, legal, security and social aspects of any given problem and its solution
 - Demonstrate an understanding of the cognitive, social, legal, ethical, diversity, and security perspectives surrounding a given problem
 - Assess the impact of information, computing and technology on individuals, groups, organizations, society, and the world for the purpose of making informed decisions from a sociological, governmental, legal, and/or security perspective

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of

both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- Students in the Security and Risk Analysis (SRACA_BS) major are expected to complete 24 credits of upper level course work in the major and the senior capstone course (SRA 440W) at Penn State Harrisburg. This is in compliance with Faculty Senate Policy 83-80.5.
- SRA 440W should be taken during the final semester of academic progress.
- IST 495 Internship: Supervised work experience where the student is employed in a position related to the student's major. An internship is typically completed the summer after the junior year, but it may be completed at any time during the student's academic career. Students are required to complete one internship but may complete three. A grade of C or better must be earned in this course. For more information, contact your academic adviser.
- Students who plan to apply for the National Security Agency Certifications must complete all required courses. No substitutions or transfer credits are permitted.

Supporting Course List:

Students select 12 credits from the College-approved list below. At least 3 credits must be at the 400-level.

Business: ACCTG 211*, MGMT 100

Communications: COMM 180, COMM 479* COMM 484*, COMM 489W*, COMM 490*

Crime/Criminology: CRIM 12/SOC 12, CRIM 100, CRIM 406*, CRIM 412*, CRIM 425*, PSYCH 100**, PSYCH 221*, PSYCH 270*, PSYCH 445*, SOC 1,

SOC 405*, SOC 409*, SOC 416*, SOC 419*, SOC 422*, SOC 423*, SOC 424*
SOC 440*, SOC 457*, SOC 461*, SOC 467*, SOC 470*

CYBER/IST/SRA: CYBER 262*, CYBER 362*, IST 230*, IST 240*, IST
242*, IST 301, IST 302, IST 402*, IST 442*, IST 452*, IST 453*, SRA 468*,
SRA 471*, SRA 480

Ethics: PHIL 103*, PHIL 119, PHIL 407*, PHIL 418*

Geography: GEOG 361*, GEOG 362*, GEOG 363*

Global Security: PLSC 7, PLSC 14**, PLSC 410*, PLSC 418*, PLSC 434*,
PLSC 440*, PLSC 442*, PLSC 443*, PLSC 454*, PLSC 455*, PLSC 458*
PLSC 459, PLSC 464*, PLSC 467*

Military Studies: AIR 151, AIR 351, AIR 352, AIR 451, ARMY 101, ARMY
102, ARMY 301, ARMY 402, NAVSC 101, NAVSC 204, NAVSC 311, NAVSC
402

Please be mindful of course prerequisites, as indicated with a single
asterisk (*).

Courses taken to satisfy the SRA major requirements for GEOG/PL SC
(GEOG 40 OR PLSC 1/14) and PSYCH/SOC (PSYCH 100 or soc 5) cannot
be used as a Support of Option course as indicated with a double asterisk
(**).

Career Paths

The Security and Risk Analysis program responds to the expanding need
for a highly trained analytic workforce to address a wide range of security
and risk domains including national/homeland security, emergency
and disaster management, law and crime, as well as enterprise risk
management. The SRA degree prepares students to be future leaders to
address the current and emerging security and risk challenges that face
individuals, organizations and our nation. IST's Office of Career Solutions
helps students navigate internship and career development through
coaching, workshops, interview preparation, resume reviews, career fairs,
job postings, and networking opportunities.

Careers

Security and Risk Analysis students may specialize in risk domains
ranging from national security to community emergency preparedness
and response. Because our courses blend technical knowledge with skills
in communication and business, a Security and Risk Analysis degree
allows students to pursue opportunities in intelligence, counterterrorism,
computer forensics, and a number of other growing careers. SRA
graduates work in a variety of fields, including defense, business,
and emergency management; and many graduates go on to work for
government intelligence agencies like the CIA, FBI, and NSA.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR
GRADUATES OF THE SECURITY AND RISK ANALYSIS PROGRAM ([https://
www.ist.psu.edu/current/careers/development/process/path/](https://www.ist.psu.edu/current/careers/development/process/path/))

Opportunities for Graduate Studies

With a focus on problem solving, critical thinking and the presentation of
analytic findings, the SRA program is a great stepping-stone to graduate
education and higher learning. Many SRA graduates will go on to pursue
graduate degrees in fields like law, cyber security, and data science. The
foundational skills obtained in the SRA degree directly apply to graduate
education.

Sociology, B.S. (Capital)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

Sociology is the scientific study of society in all of its complexity. It
includes the study of social structure, social interaction and social

change from the micro level of small groups and families; to the meso level of communities, organizations, and institutions; to the macro level of globalization, war, technology and culture. The world today is undergoing tremendous changes and facing great challenges, problems, and possibilities. Sociology attempts to understand our world and to improve it.

The sociology major at Penn State Harrisburg provides a unique orientation to social change at multiple levels, including families, communities, organizations, social movements, institutions, society, and the world system. The major addresses topics such as culture, race/ethnicity, gender, sexual orientation, social class, inequality, urban life, globalization, environmental change, and political conflict.

The sociology program at Penn State Harrisburg prepares students to succeed in an increasingly complex, diverse, and globalized world. A major in sociology provides opportunities for a wide range of career options. Students with degrees in sociology work in social services, community, advocacy and non-profit organizations, education, business, law, criminal justice, policy-making, social science research, and public administration. An undergraduate degree in sociology also provides a strong foundation for graduate study in sociology and fields such as law, social work, human resources, criminal justice, community psychology, urban planning, political science, and related areas.

Two options are available within the major:

1. General Sociology Option
2. Community Organization and Social Services Option

General Sociology Option

This option provides students with strong education in general sociology in a diverse range of sociological topics. The General Sociology Option is designed for students who seek a solid sociological education with preparation for the widest range of careers and employment opportunities, as well as for graduate education.

Community Organization and Social Services Option

This option provides students with strong preparation for careers working in community settings or in social services. The Community Organization and Social Services Option is designed for students who wish to work directly with people in a broad range of possible settings, in both public and private sectors.

What is Sociology?

Sociology is the scientific study of social behavior and human social groups. The topics covered in sociology are as diverse as society itself, from families to gangs, from non-profit organizations to nations. Sociology focuses on the ways that groups and individuals interact, examining how social environments, like neighborhoods, schools, religious organizations, workplaces, and social networks shape individuals' behaviors and create cooperation or conflict. Sociology uses different methods (surveys, interviews, network analysis, observation, social media, censuses, case studies) to make the invisible patterns of the social world visible.

Sociology especially helps us understand the roots of racial, gender, and class inequality by investigating the ways that social groups control resources, enforce social boundaries, and accept unequal social outcomes. But sociology also helps us to understand how societies

change, whether due to the impact of large-scale events like pandemics and economic recessions, or through social movements and labor unions.

You Might Like This Program If...

- You are people-oriented and naturally curious about group behavior.
- You would like to make the world better.
- You like working with people.
- You wonder why people do the things they do, and how they are influenced by those around them.
- You are interested in a career as a sociologist, or in another profession that requires critical and creative thinking and analytic problem-solving.

Entrance to Major

Entry to the Sociology major requires 2.00 or higher cumulative grade-point average.

Degree Requirements

For the Bachelor of Science degree in Sociology, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	9-15
Requirements for the Major	67-73

7 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 4 credits in GQ courses.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
ENGL 202A	Effective Writing: Writing in the Social Sciences	3
SOC 1	Introductory Sociology	3
SOC 207	Research Methods in Sociology	3
SOC 400W	Senior Research Seminar	3
SOC 405	Sociological Theory	3
SOC 495	Internship	3-9
Additional Courses ¹		
<i>Additional Courses: Require a grade of C or better</i>		
A. Statistics		
PSYCH 200 or STAT 200	Elementary Statistics in Psychology Elementary Statistics	4
B. Social Institutions		
Select three of the following:		9
SOC 30	Sociology of the Family	
SOC 403	Advanced Social Psychology	

SOC 411	Racial and Ethnic Diversity and the American Family	
or HDFS 416	Racial and Ethnic Diversity and the American Family	
SOC 416	Sociology of Education	
SOC 429	Social Stratification	
SOC 430	Family in Cross-Cultural Perspective	
SOC 446	Political Sociology	
SOC/WMNST 456	Gender, Occupations, and Professions	
C. Social Change and Global Perspectives		
Select three of the following:		9
SOC 15	Urban Sociology	
SOC 109	Sociological Perspectives	
SOC 297	Special Topics	
SOC 424	Social Change	
SOC 425	Social Conflict	
SOC 432	Social Movements	
SOC 445	U.S. Immigration	
SOC 448		
SOC 454	The City in Postindustrial Society	
D. Diversity		
Select two of the following:		6
AFAM 212	African Americans in the New Jim Crow Era, 1968-present	
BESC/WMNST 464	Feminine/Masculine	
SOC/AFAM/WMNST 103	Racism and Sexism	
SOC/WMNST 110	Sociology of Gender	
SOC/AFAM 409	Racial and Ethnic Inequality in America	
SOC 428	Homelessness in America	
SOC 435	Perspectives on Aging	
or HDFS 434	Perspectives on Aging	
SOC/RLST 461	Sociology of Religion	
WMNST/CED 420		

Requirements for the Option

Requirements for the Option: Require a grade of C or better
 Select an option 21

¹ At least 9 of these credits must be at the 400-level.

**Requirements for the Option
 General Sociology Option (21 credits)**

Code	Title	Credits
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 3 credits from each of sections B, C and D above		9
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Select 6 credits (at least 3 credits at the 400-level) in consultation with adviser from AAAS, AFAM, BESC, GEOG, SOC		6

Select 6 credits (at least 3 credits at the 400-level) in consultation with adviser from AMST, ANTH, ART, ARTH, COMM, CRIMJ, ENGL, HDFS, HIST, IHUM, MGMT, MUSIC, PLSC, PSYCH, PUBPL, THEA, WMNST 6

Community Organization and Social Services Option (21 credits)

Code	Title	Credits
Prescribed Courses

SOC 404	Social Influence and Small Groups	
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Choose 6 credits (at least 3 credits at the 400-level) in consultation with adviser from AFAM, AMST, ANTH, ART, ARTH, BESC, COMM, CRIMJ, ENGL, GEOG, HDFS, HIST, IHUM, MGMT, MUSIC, PLSC, PSYCH, PUBPL, SOC, THEA, WMNST		6

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN,** may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- Acquire a sociological imagination by recognizing the connections between individual lives, social structure and historical change.
 - Students will acquire the knowledge base in sociology in order to recognize and describe human social behavior in specific social-historical context.
 - Students will apply sociological imagination to their own lives.
- Differentiate between micro and macro-sociological perspectives and be able to recognize and use both.
 - Students will be able to describe and distinguish micro and macro perspectives in sociology.
 - Students will be able to apply theories to interpret social phenomena.
- Develop empirical investigations of social phenomena.
 - Recognize the role of theory in sociological research.
 - Students will be able to identify and describe methods for gathering and analyzing sociological data.
 - Students will be able to design a basic study to investigate social phenomena.
- Create written documents with the appropriate to disciplinary standards.
 - Students will be able to write a paper in an appropriate social sciences format.
 - Students will be able to employ appropriate citation practices.
- Recognize and adhere to professional and ethical standards of social science.
 - Students will be able to identify ethical codes of conduct in doing sociological research and practice.
 - Students will adhere to professional and ethical standards of social science research and practice.
- Recognize and consider the diversity of human experience.
 - Students will be able to recognize and describe the diversity of human experience.
 - Students will be able to compare different ways of organizing social life.
 - Students will be able to recognize and describe how diversity is studied as a social problem.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

General Option: Sociology, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 120

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ The following course is only offered in fall semesters:

- SOC 405 - Sociological Theory

² The following are only offered spring semesters

- SOC 1H - Honors Introductory Sociology
- SOC 207 - Research Methods in Sociology
- SOW 400W - Senior Research Seminar
- SOC 495 - Internship

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes

- GWS, GQ, GA, GH, GS, GN and GHW are codes used to identify General Education requirements.
- US, IL, and US;IL are codes used to designate courses that satisfy University United States/International Cultures requirements. All students are required to take one IL and one US course before graduation. A course designated as US;IL may be used as a US or an IL, not both.
- W suffix signifies the course satisfies the University Writing Across the Curriculum requirement.

Program Notes

Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."

Career Paths

To succeed in the 21st century new graduates need to have following skills: critical and creative thinking analytic problem-solving conducting

research and data driven analysis communication and collaboration multicultural and global understandings to be able to work in diverse teams whose members are from various cultural and ethnic backgrounds

Careers

The Sociology program at Penn State Harrisburg is designed to provide opportunities for students to study social change, diverse communities, and their interactions through scientific methods. The Bureau of Labor Statistics site states that people with sociology degrees specialize in a wide range of social topics, including health, crime, education, racial and ethnic relations, families, population, gender, poverty, and aging. Studying sociology helps students foster the core set of knowledge and skills that are required by 21st century employers.

Structural Design and Construction Engineering Technology, B.S.

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The program in Structural Design and Construction Engineering Technology provides the basic education required for the structural engineer and construction profession. Students learn the basic general engineering concepts needed for this major with emphasis on the fundamentals, structural design principles, and construction techniques through required course work. They are given the opportunity to focus in a discipline of construction management or structural design through a selected option or choose a broad general option. Courses in communication skills, arts, humanities, social and behavioral sciences, and other engineering related areas broaden the program. Students gain experience in working as members of a team and in using interdisciplinary approaches to solve problems. These experiences, as well as those related to design and construction principles, are taught through exercises in the classroom, laboratory, and field. The program culminates with a capstone project course in which the students' knowledge and skills are applied to specific problems.

What is Structural Design and Construction Engineering Technology?

Structural Design and Construction Engineering Technology is a discipline concerned with basic structural engineering principles and

construction techniques, building site inspection, site supervision, construction personnel supervision, plan and specification interpretation, supply logistics and procurement, applicable building codes, and report preparation.

You Might Like This Program If...

- You like hands-on and creative problem-solving.
- You work well within collaborative, multidisciplinary teams.
- You are interested in a career in the construction industry.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Structural Design and Construction Engineering Technology, a minimum of 125 credits is required:

Requirement	Credits
General Education	45
Electives	0-8
Requirements for the Major	96-106

24 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 3 credits of GWS courses; 3 credits of GHW courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
CET 308	Construction Methods and Materials	3
CET 342	Civil Engineering Materials - Concrete and Bituminous	3
CET 343	Soils Mechanics	3
CET 434	Foundations	3
CHEM 110	Chemical Principles I	3
CHEM 111	Experimental Chemistry I	1
ET 200	Graphic Communications	3
SSET 295	Internship	1
<i>Prescribed Courses: Require a grade of C or better</i>		
CE 254	Personal & Occupational Safety	3
CE 333W	Construction Management I	3

CET 430	Structural Analysis	3
CET 431	Structural Design-Steel	3
CET 432	Structural Design-Reinforced Concrete	3
CET 435	Construction Estimating	3
ENGL 202C	Effective Writing: Technical Writing	3
MATH 140	Calculus With Analytic Geometry I	4
Additional Courses		
CE 310	Surveying	3-4
or SUR 111	Plane Surveying	
ET 323	Strength of Materials Laboratory	1
or MET 214	Strength and Properties of Materials Laboratory	
Select 3 credits from the following: 3		
EGT 102	Introduction to Computer Aided Drafting	
& EGT 201	and Advanced Computer Aided Drafting	
EDSGN 100	Cornerstone Engineering Design	
Select 3-4 credits from the following: 3-4		
PHYS 150	Technical Physics I	
PHYS 211	General Physics: Mechanics	
PHYS 250	Introductory Physics I	
Select 3-4 credits from the following: 3-4		
PHYS 151	Technical Physics II	
PHYS 212	General Physics: Electricity and Magnetism	
PHYS 251	Introductory Physics II	
Select 3 credits from the following: 3		
ECON 14	Principles of Economics	
ECON 102	Introductory Microeconomic Analysis and Policy	
ECON 104	Introductory Macroeconomic Analysis and Policy	
Select 3 credits from the following: 3		
CMPS 101	Introduction to Programming	
CMPS 121	Introduction to Programming Techniques	
CMPS 201	Programming for Engineers with C++	
Select 3-4 credits from the following: 3-4		
ACCTG 211	Financial and Managerial Accounting for Decision Making	
MGMT 100	Survey of Management	
MGMT 301	Basic Management Concepts	
<i>Additional Courses: Require a grade of C or better</i>		
MATH 141	Calculus with Analytic Geometry II	4
or STAT 200	Elementary Statistics	
Select 3 credits from the following: 3		
EMCH 211	Statics	
ET 300	Mechanics I: Statics (does not require a grade of C or better)	
MET 111	Mechanics for Technology: Statics	
Select 3 credits from the following: 3		
EMCH 213	Strength of Materials	
ET 322	Strength of Materials	
MET 213	Strength and Properties of Materials	
Requirements for the Option		
Select an option		19-25

Requirements for the Option Construction Management Option (19-21 credits)

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
CE 456	Planning and Scheduling	3
CE 458	Construction Management II	3
CE 488C	Capstone Project - Construction	4
Additional Courses		
Select 3-4 credits from the following: 3-4		
ACCTG 211	Financial and Managerial Accounting for Decision Making	
MGMT 100	Survey of Management	
MGMT 301	Basic Management Concepts	
Select 3 credits from the following: 3		
AE 310	Fundamentals of Heating, Ventilating, and Air Conditioning	
CE 321	Highway Engineering	
ENVE 430	Sustainable Engineering	
MET 435	Building Energy Systems

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://>)

bulletins.psu.edu/undergraduate/archive/) to view the appropriate Undergraduate Bulletin edition.

Structural Design and Construction Engineering Technology, B.S. at Harrisburg Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

- † Course satisfies General Education and degree requirement

¹ (C) (S) Approved Selection
Choose from the Approved Selection list.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- The minimum number of credits required to graduate is 125.
- Students must select an option in one of the following areas: Construction (C), Structural Design (S), or General (G).

Program Notes:

- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."
- Entrance into SDCET major require a minimum of 29.1 credits and a 2.0 GPA.
- Graduation in this major: Courses listed with an * requires a grade of C or better and an option area.
- SDCET Approved Selections
- Other engineering or business courses may be accepted with permission of the program chair.
- An option-required courses cannot be used for an Approved Selection

List of Approved Courses

- M E 300 ENGINEERING THERMODYNAMICS
- MGMT 301 BASIC MGMT CONCEPT

Career Paths

The SDCET program is designed to prepare students for careers in the highly specialized construction industry. It allows for flexible scheduling, enabling students to focus their specialization in either construction or design. Study through these options could lead to opportunities as structural designers for bridges, buildings, or other projects or as project managers for commercial construction projects. Career options may also be available in government for state and federal highway projects and with construction firms in the specialty areas of scheduling, estimating, and cost control. Finally, opportunities may exist for graduates to pursue opportunities as designers, owners, or contractor representatives.

Careers

The U.S. Bureau of Labor Statistics expects excellent employment opportunities in the construction industry for the coming years. Penn State Harrisburg graduates in Structural Design and Construction Engineering Technology have had impressive job placements in the last eight years.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE STRUCTURAL DESIGN AND CONSTRUCTION ENGINEERING TECHNOLOGY PROGRAM (<https://harrisburg.psu.edu/science-engineering-technology/structural-design-construction-engineering-technology-bs/>)

Professional Resources

- American Concrete Institute (<https://www.concrete.org/students.aspx>)
- American Institute of Constructors (<https://aic-builds.org/>)
- American Institute of Steel Constructors (<https://www.aisc.org/>)
- American Society of Civil Engineers (<https://www.asce.org/membership/join/>)

Accreditation

The Bachelor of Science in Structural Design and Construction Engineering Technology at Penn State Harrisburg is accredited by the Engineering Technology Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Construction Engineering Technology and Similarly Named Programs.

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

Writing, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

Writing is valued as a mode of learning, as a means of expression, and as a skill highly desirable in the workplace. Personal development, interpersonal communication, and professional marketability may all be enhanced by the further study and practice of writing. For these reasons, the Writing minor offers students from virtually every discipline across the University an opportunity to learn more about a wide variety of writing: informative/persuasive, professional, and creative, while improving their own writing skills through hands-on writing experiences. In addition to offering students opportunities to study and practice different types of writing, the minor affords students the opportunity to write for/in different media, producing both print and electronic texts.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

For the Writing minor, a total of 18 credits is required. Students may not count courses used to satisfy General Education Writing/Speaking Skills.

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Code	Title	Credits

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 0-6 credits from a department-approved list ¹ 0-6

¹ At least 3 credits of Additional/Supporting courses must be taken at the 400 level.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Smeal College of Business

About the College

Charles H. Whiteman, John and Karen Arnold Dean, Smeal College of Business

The Penn State Smeal College of Business is a vibrant intellectual community offering highly ranked undergraduate, graduate, doctoral, and executive education opportunities to more than 8,000 students from across the country and around the world. Since our introduction in 1953, we have prepared more than 90,000 students for professional success, annually adding to Penn State's vast alumni network. We are a destination of choice for top global organizations seeking talent that will make a positive difference. Through our leading faculty and network of research centers and institutes, we are a source of knowledge that influences the business practices of tomorrow. We are forging connections, creating opportunities, and producing results.

MORE INFORMATION ABOUT THE COLLEGE (<https://www.smeal.psu.edu/about-smeal/>)

Mission

A leader in business education and research, we make meaningful impacts on society by:

- Providing extraordinary education with a global perspective and real-world application
- Producing the highest caliber research that that informs and inspires ethical, sustainable, and innovative business practices
- Partnering with and preparing learners for lifelong success
- Building and promoting a culture of integrity, diversity, service, and sustainability

Purpose

Your success as a leader depends on what you know and what you do. Equally important, however, is who you have around you from the start. For this, we are a partner for life. We are everywhere in the world and always in your corner – ready to open doors, offer advice, and cheer you

on. Wherever you are today or imagine yourself tomorrow, bring your talent, drive, and determination, and we'll prepare you for your next great opportunity, and the one after that.

MORE INFORMATION ABOUT THE MISSION AND PURPOSE OF THE SMEAL COLLEGE OF BUSINESS (<https://smeal.psu.edu/about-smeal/>)

Accreditation

The Penn State Smeal College of Business is recognized by the AACSB (Association to Advance Collegiate Schools of Business) as an accredited institution after completing a meticulous internal review and meeting all AACSB standards and requirements.

MORE INFORMATION ABOUT THE ASSOCIATION TO ADVANCE COLLEGIATE SCHOOLS OF BUSINESS (<https://www.aacsb.edu>)

Departments and Schools

Department of Accounting

The mission of the Accounting Department at the Penn State Smeal College of Business is to enhance and disseminate knowledge of accounting and the accounting profession through top-ranked educational opportunities and world-renowned faculty expertise.

MORE INFORMATION ABOUT THE DEPARTMENT OF ACCOUNTING (<https://www.smeal.psu.edu/accounting/>)

Department of Finance

The Penn State Smeal College of Business Finance Department provides students at all levels the opportunity to study investment analysis, management of banks and other financial institutions, and the financial management of corporations. Topics in business finance, security markets, commercial bank management, investment valuations, portfolio management, futures and options markets, and capital budgets are available.

MORE INFORMATION ABOUT THE DEPARTMENT OF FINANCE (<https://www.smeal.psu.edu/finance/>)

Department of Management and Organization

The Management and Organization Department at the Penn State Smeal College of Business is preparing future leaders to respond to challenges associated with creating a successful business in today's global economy while shaping management knowledge and practices for the twenty-first century.

MORE INFORMATION ABOUT THE DEPARTMENT OF MANAGEMENT AND ORGANIZATION (<https://www.smeal.psu.edu/management/>)

Department of Marketing

As a community focused on advancing the art and science of marketing, the Penn State Smeal College of Business Marketing Department combines rigorous and relevant research with an approach to education that is grounded in the fundamentals while embracing leading-edge concepts and tools.

MORE INFORMATION ABOUT THE DEPARTMENT OF MARKETING (<https://www.smeal.psu.edu/marketing/>)

Department of Risk Management

The Penn State Smeal College of Business Risk Management Department offers educational opportunities for students interested in exploring risk

analysis in a variety of business environments, as well as faculty research and expertise in a wide range of topics.

MORE INFORMATION ABOUT THE DEPARTMENT OF RISK MANAGEMENT (<https://www.smeal.psu.edu/risk-management/>)

Department of Supply Chain and Information Systems

Ranked No. 1 as a leader in supply chain education, the Penn State Smeal College of Business Supply Chain and Information Systems Department covers this boundary-spanning field of study through top-ranked degree programs, world-renowned faculty expertise and research, and corporate connections with top companies and supply chain practitioners.

MORE INFORMATION ABOUT THE DEPARTMENT OF SUPPLY CHAIN AND INFORMATION SYSTEMS (<https://www.smeal.psu.edu/scis/>)

Baccalaureate Degrees

- Accounting, B.S. (Business)
- Actuarial Science, B.S.
- Corporate Innovation and Entrepreneurship, B.S.

- Legal Environment of Business, Minor
- Supply Chain and Information Sciences and Technology, Minor
- Supply Chain and Information Systems, Minor

Certificates

- Real Estate Analysis and Development, Certificate
- Smeal College Business Fundamentals, Certificate

College Procedures

Administrative Enrollment Controls

All Smeal majors are under Administrative Enrollment Controls.

MORE INFORMATION ABOUT ADMINISTRATIVE ENROLLMENT CONTROLS FOR PROGRAMS IN THE SMEAL COLLEGE OF BUSINESS (p. 3153)

Change of Campus

Change of campus policies and procedures can be found at the link below.

MORE INFORMATION ABOUT CHANGE OF CAMPUS (<https://ugstudents.smeal.psu.edu/academics-advising/get-into-a-smeal-major/change-of-location/>)

Concurrent Majors

Due to enrollment controls and similarities in the Smeal curriculum, students are not permitted to enroll in more than one Smeal major.

MORE INFORMATION ABOUT CONCURRENT MAJORS (<https://ugstudents.smeal.psu.edu/academics-advising/degree-requirements/concurrent-majors/>)

READ SENATE POLICY 60-00: COMPLETING MORE THAN ONE UNDERGRADUATE MAJOR PROGRAM (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/60-00-completing-more-than-one-undergraduate-program/#60-00>)

Academic Warning

A student who fails to earn a 2.00 cumulative grade-point average will be placed on academic warning. A student placed on academic warning will have a hold placed on registration and will be required to meet with an academic adviser in order for this registration hold to be removed. To remove academic warning, the cumulative grade-point average must be 2.00 or higher.

READ SENATE POLICY 54-20: ACADEMIC WARNING (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-20>)

Academic Suspension

A student in academic warning who fails to maintain a semester grade-point average of 2.00 or higher will be academically suspended. A student who has been academically suspended may not schedule courses at the University for two consecutive semesters. (Note: Summer session is equal to one semester.)

READ SENATE POLICY 54-40: ACADEMIC SUSPENSION (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-40>)

Resources

Smeal College Advising Center

The Smeal College Advising Center is the source for information about undergraduate majors, minors, certificates, scheduling, degree requirements, entrance-to-major, and more. With a team of dedicated academic advisers, students are provided resources and support as they explore choices regarding their academic interests and co-curricular opportunities.

MORE INFORMATION ABOUT THE SMEAL COLLEGE ADVISING CENTER (<https://ugstudents.smeal.psu.edu/academics-advising/get-into-a-smeal-major/>)

Diversity Enhancement Programs

The mission of the Office of Diversity Enhancement Programs is to assist in the development of a diverse learning community by creating a welcoming climate for all undergraduate students. Through a variety of academic, professional, and personal enhancement opportunities, our office helps diversity students leverage the resources available through our distinctive learning community.

MORE INFORMATION ABOUT DIVERSITY ENHANCEMENT PROGRAMS (<https://www.smeal.psu.edu/diversity/>)

Business Career Center

Information on the Business Career Center at Smeal including how to prepare for career fairs; details on applying for internships, co-ops, and full-time positions; and how to get involved in students organizations.

MORE INFORMATION ABOUT THE BUSINESS CAREER CENTER (<https://careerconnections.smeal.psu.edu/>)

Strickler Office of International Programs

The Strickler Office of International Programs (SOIP) advises Smeal and Smeal-bound Division of Undergraduate Studies students on study abroad, international internships, the International Business (IB) Minor and related goals. SOIP advisors can help discuss short-term, summer, and semester study abroad programs, as well as how to develop business skills in a global environment through internships. The IB Minor is designed to provide the knowledge, skills, and experience that help students prepare for a business career in a global world. Study abroad, the IB Minor, and international internships are open to all Smeal majors.

MORE INFORMATION ABOUT STRICKLER OFFICE OF INTERNATIONAL PROGRAMS (<https://ugstudents.smeal.psu.edu/international-programs/>)

Sapphire Leadership Academic Program

The Sapphire Leadership Academic Program is designed for high-achieving students who would like to enhance their business school experience. By providing unique academic content, leadership and professional development opportunities, and real-world application of knowledge gained inside the classroom, the Sapphire Leadership Academic Program empowers student leaders to make an impact on business and society.

MORE INFORMATION ABOUT THE SAPPHIRE LEADERSHIP ACADEMIC PROGRAM (<https://smeal.psu.edu/sapphire/>)

Honors Programs

Schreyer Honors College

The Schreyer Honors College, regarded as one of the nation's top programs of its kind, promotes achieving academic excellence with integrity, building a global perspective, and creating opportunities for leadership and civic engagement. Schreyer Scholars, including those admitted after their first or second year of enrollment, are a diverse and motivated group of approximately 2,000 students at University Park and 20 Commonwealth campuses. The College strives to educate students who will have an important and ethical influence in the world, to improve educational practice, and to continue to be recognized as a leading force in honors education nationwide.

Accounting, B.S. (Business)

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

This major prepares students for careers in public, corporate, not-for-profit, and governmental accounting and also provides an appropriate background for those planning to enter law school or graduate school. Accountants develop and interpret historical and prospective financial data required for decision-making by managers, investors, regulators, and other stakeholders. To perform their functions, accountants must synthesize both numerical and qualitative information, communicate it clearly, and function effectively as individuals and in teams. The field of Accounting is diverse and offers students the opportunity to be generalists or concentrate in one of the following:

Corporate Control & Financial Management - Courses in this concentration prepare students for positions in industry, government, and business advisory services doing financial planning, analysis, control, and decision support. Students can obtain such designations as *Certified Management Accountant (CMA)*. Management accountants provide forecasts, compute costs and benefits, perform variance analysis, and review and monitor performance. Managerial accountants also design systems that provide information to decision makers.

Internal Auditing & Assessment - Courses in this concentration prepare students for positions in industry and government as internal auditors. Students can obtain such designations as *Certified Internal Auditor (CIA)*. Internal auditors are employed by the organization they audit. Internal auditing is a systematic approach to evaluating and improving the effectiveness of risk management, control, and governance processes. Internal auditors also review compliance with standards and assess the organization's risks.

Public Accounting - Public accounting is carried on by independent practitioners, most of whom are Certified Public Accountants (CPAs). In addition to statutory audits, CPAs render other assurance, tax, and management advisory services. To be licensed as a CPA in nearly every state, including Pennsylvania, individuals must complete 150 credit-hours of education, pass a demanding professional examination, and meet certain experience requirements. One way to accomplish this is to enroll in the Integrated B.S. in Accounting and Master of Accounting Program.

What is Accounting?

Accountants develop and interpret financial data required for decision-making by managers, investors, regulators, and other stakeholders. To perform their functions, accountants must work with both numerical

information and concepts, and they must be able to function effectively as individuals and in teams. Accountants work with people in their own specialized departments, and with users of financial information throughout their organization. Because of this close association with other parts of the organization, the accountant is in a unique position to develop a broad business perspective.

MORE INFORMATION ABOUT ACCOUNTING (<https://undergrad.smeal.psu.edu/majors/accounting/>)

Entrance to Major

To be eligible for entrance into the Accounting (ACCTG) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

Administrative Enrollment Controls

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2024, Fall 2024, Spring 2025

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- 36-59 graded Penn State credits (excludes transfer and AP credits)
- completed with a grade of C or better:
 - English - ENGL 15 or ENGL 30H or ESL 15 or ENGL 137H or CAS 137H
 - Mathematics - MATH 110 or MATH 140 or MATH 140B
 - Statistics - SCM 200 or SCM 200H or STAT 200
- completed ECON 102 or ECON 102H
- completed at Penn State (no substitutions or transfers), in addition with a quality grade of "C" or better and no alternative or Pass/Fail (PS) grading:
 - Accounting - ACCTG 211 or ACCTG 211H
 - Management - MGMT 301 or MGMT 301H or MGMT 301M or MGMT 301W
 - Marketing - MKTG 301 or MKTG 301H or MKTG 301W
 - Finance - FIN 301 or FIN 301H
- earned a minimum cumulative grade-point average (GPA) of 3.20

Students Who Entered Prior to Summer 2024

Students who entered the University from Summer 2018 through Spring 2024 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (<https://bulletins.psu.edu/undergraduate/archive/>). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

Degree Completion

Students accepted into the Accounting (ACCTG_BS) major are expected to enroll at University Park the fall semester after gaining entrance to the major. In addition, Senate Policy 83-80.5 stipulates that the college dean

and program faculty may require up to 24 credits of course work in the major to be taken in the college where the degree is earned. Based on this policy, the Smeal College of Business has set the following credit earning limitations for ACCTG_BS majors:

1. Twenty-one credits of 300/400 level prescribed and additional courses in the major field must be completed with Accounting faculty at University Park.
2. Six additional credits of 300/400 level supporting courses must also be completed at University Park. See the Accounting Suggested Academic Plan for details.

Degree Requirements

For the Bachelor of Science degree in Accounting, a minimum of 120 credits is required with at least 15 credits at the 400 level:

Requirement	Credits
General Education	45
Electives	11
Requirements for the Major	76

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses (ENGL 202D); 6 credits of GQ courses (MATH 110 or MATH 140 and SCM 200 or STAT 200); 3 credits of GS courses (ECON 102).

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
ACCTG 403W	Auditing	3
ACCTG 404	Managerial Accounting: Economic Perspective	3
BA 342	Socially Responsible, Sustainable and Ethical Business Practice	3
BA 411	Analyzing Business and Industry	3
BLAW 341	Business Law I: Introduction to Contracts, Liability Issues, and Intellectual Property	3
ECON 102	Introductory Microeconomic Analysis and Policy	3
ECON 104	Introductory Macroeconomic Analysis and Policy	3
MIS 250	Introduction to Problem Solving with Spreadsheet Analysis and Information Systems Management	3
SCM 301	Supply Chain Management	3
<i>Prescribed Courses: Require a grade of C or better</i>		
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
ACCTG 405	Principles of Taxation I	3
ACCTG 471	Intermediate Financial Accounting I	3
ACCTG 472	Intermediate Financial Accounting II	3
ENGL 202D	Effective Writing: Business Writing	3
FIN 301	Corporation Finance	3
MGMT 301	Basic Management Concepts	3
MKTG 301	Principles of Marketing	3

Additional Courses

Select 6 credits from the following:		6
ACCTG 406	Principles of Taxation II	
ACCTG 432	Accounting Information Systems	
ACCTG 440	Advanced Management Accounting	
ACCTG 473	Advanced Financial Accounting	
ACCTG 481	Financial Statement Analysis: Accounting Based Evaluation and Decision Making	
ACCTG 483	Forensic Accounting	

Additional Courses: Require a grade of C or better

MATH 110	Techniques of Calculus I	4
or MATH 140	Calculus With Analytic Geometry I	
SCM 200	Introduction to Statistics for Business	4
or STAT 200	Elementary Statistics	

Supporting Courses and Related Areas

Select 4 credits: Attainment of 12th credit level proficiency in a single world language. Proficiency must be demonstrated by either examination or course work. 4

Select 6 credits of supporting coursework. See Department List. 6

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Accounting and M.Acc. in Accounting

Requirements for the Integrated B.S. in Accounting and M.Acc. in Accounting can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/accounting-smeal/#integratedundergradgradprogramstext>).

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the

habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Elective ⁴	2 General Education Course ⁴	3
	14	15

Total Credits 120

¹ Course requires a grade of C or better

² Entrance-to-Major Course – complete prior to attaining 59 cumulative credits at Penn State

³ Attain 12th credit level proficiency in a world language (0-12 credits). Credits required vary based on predetermined skill level. Balance of remaining credits are taken as electives. American Sign Language does not satisfy the Smeal College world language requirement.

⁴ When planning general education and elective courses, students should factor in the following requirements:

- 3 credits of United States Culture (US)
- 3 credits of International Culture (IL)
- 6 credits of Inter-Domain (N) coursework

⁵ See the Business Breadth Course list on the Smeal College website.

⁶ See the Accounting Elective (ACCTG 4XX) courses on the Accounting Department website.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry

the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

College and Department Notes:

1. The Smeal College of Business requires that the following entrance-to-major courses be taken at Penn State: ACCTG 211, MGMT 301, MKTG 301, and FIN 301.
2. Pursuant to the Association to Advance Collegiate Schools of Business (AACSB) accreditation standards, the Smeal College of Business requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.
3. **Public Accounting** – Students interested in public accounting should take ACCTG 406 and ACCTG 473 for the Additional ACCTG courses requirement and BLAW 444 in the supporting course or electives area. These courses aid in preparation for the CPA (Certified Public Accountant) examination. To sit for the CPA exam, students must complete 150 specified credits. The Smeal College Integrated MAcc (Master of Accounting) and/or One-Year MAcc program are designed to fully prepare students for the CPA Exam.
4. **Corporate Accounting** – Students interested in corporate accounting should take ACCTG 440 and ACCTG 481 for the Additional ACCTG courses requirement. ACCTG 417 is also recommended as an elective. These courses can be used in the optional Corporate Control and Analysis certificate offered by the Smeal Accounting Department.

Accounting, B.S. at Commonwealth Campuses

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

These courses can be used in the optional Corporate Control and Analysis certificate offered by the Smeal Accounting Department.

Accreditation

The Smeal College of Business B.S. degree in Accounting (ACCTG_BS) is recognized by the AACSB (Association to Advance Collegiate Schools

of Business) as an accredited program after completing a meticulous internal review and meeting all AACSB standards and requirements.

MORE INFORMATION ABOUT THE ASSOCIATION TO ADVANCE COLLEGIATE SCHOOLS OF BUSINESS (<https://www.aacsb.edu>)

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

The Smeal College baccalaureate degree in Accounting (ACCTG_BS) consists of 120 credits which includes specific accounting and related courses. Graduates of the program are well positioned to sit for the Certified Public Accounting (CPA) exam in most states. To become a certified public accountant, an additional 30 credits are needed along with passing the CPA exam and full-time work experience under the supervision of a CPA accountant. Additional requirements may be necessary and vary from state to state.

Actuarial Science, B.S.

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

An actuary is a business professional who uses mathematical skills to define, analyze, and solve complex business and social problems. The Actuarial Science major stresses the application of mathematical and statistical concepts to the measurement of life, health, pensions, and other contingencies, while at the same time giving the student a broad understanding of the business environment. Students in the Actuarial Science major will be prepared to begin the series of professional examinations leading to Associateship and Fellowship in either the Society of Actuaries (A.S.A./F.S.A.) or the Casualty Actuarial Society (A.C.A.S./F.C.A.S.) while enrolled in the program.

What is Actuarial Science?

The Actuarial Science major provides background in the wide range of knowledge needed to be a professional actuary including calculus, probability and statistics, financial and actuarial mathematics, economics, finance, risk management, pensions, and insurance. Excellent skills in mathematics and statistics is a critical component of this major.

Actuaries are vital to corporate and government agencies, calculating the costs of life or health insurance, or how much an insurance company can expect to pay in claims due to natural disasters, car accidents, and other situations. The curriculum is designed to prepare students for the series of professional examinations needed in order to be a practicing actuary. Students are encouraged to complete several of these exams prior to graduation with employers providing assistance to complete the remaining exams.

Entrance to Major

To be eligible for entrance into the Actuarial Science major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

Administrative Enrollment Controls

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2024, Fall 2024, Spring 2025

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- 36-59 graded Penn State credits (excludes transfer and AP credits)
- completed with a grade of C or better:
 - English - ENGL 15 or ENGL 30H or ESL 15 or ENGL 137H or CAS 137H
 - Mathematics - (MATH 140 or MATH 140B) and MATH 141
 - Statistics - SCM 200 or SCM 200H or STAT 200
- completed ECON 102 or ECON 102H
- completed at Penn State (no substitutions or transfers), in addition with a quality grade of "C" or better and no alternative or Pass/Fail (PS) grading:
 - Accounting - ACCTG 211 or ACCTG 211H
 - Management - MGMT 301 or MGMT 301H or MGMT 301M or MGMT 301W
 - Marketing - MKTG 301 or MKTG 301H or MKTG 301W
 - Finance - FIN 301 or FIN 301H
- earned a minimum cumulative grade-point average (GPA) of 3.20

Students Who Entered Prior to Summer 2024

Students who entered the University from Summer 2018 through Spring 2024 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (<https://bulletins.psu.edu/undergraduate/archive/>). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

Degree Completion

Students accepted into the Actuarial Science (ACTSC_BS) major are expected to enroll at University Park the fall semester after gaining entrance to the major. In addition, Senate Policy 83-80.5 stipulates that the college dean and program faculty may require up to 24 credits of

course work in the major to be taken in the college where the degree is earned. Based on this policy, the Smeal College of Business has set the following credit earning limitations for ACTSC_BS majors:

1. Fifteen credits of 300/400 level prescribed actuarial science and risk management courses in the major field must be completed with Actuarial Science and Risk Management faculty at University Park.
2. Six additional credits of 300/400 level additional Actuarial Science elective courses must also be completed at University Park. See the Actuarial Science Suggested Academic Plan for details.

Degree Requirements

For the Bachelor of Science degree in Actuarial Science, a minimum of 120 credits:

Requirement	Credits
General Education	45
Electives	8
Requirements for the Major	82

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
BA 342	Socially Responsible, Sustainable and Ethical Business Practice	3

Additional Courses: Require a grade of C or better

RM 412	Long Term Actuarial Mathematics - Advanced Topics	3
or RM 422	Short Term Actuarial Mathematics - Advanced Topics	
SCM 200	Introduction to Statistics for Business	4
or STAT 200	Elementary Statistics	

Select 3 credits from the following: 3

ENGL 15	Rhetoric and Composition	
ENGL 30H	Honors Rhetoric and Composition	
ENGL/CAS 137H	Rhetoric and Civic Life I	
ESL 15	ESL Composition for American Academic Communication II	

Select 3 credits from the following: 3

STAT 380	Data Science Through Statistical Reasoning and Computation	
STAT 462	Applied Regression Analysis	
STAT 483	Statistical Programming in SAS	

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Attainment of 12th-credit level proficiency in a single world language. 4
Proficiency must be demonstrated by either examination or course work.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 120

¹ Course requires a grade of C or better

² Entrance-to-Major Course – complete prior to attaining 59 cumulative credits at Penn State

³ Attain 12th credit level proficiency in a world language (0-12 credits). Credits required vary based on predetermined skill level. Balance of remaining credits are taken as electives. American Sign Language does not satisfy the Smeal College world language requirement.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

Course Planning and Selection Notes:

- I. The Smeal College of Business requires that the following entrance-to-major courses be taken at Penn State: ACCTG 211, MGMT 301, MKTG 301, and FIN 301.
- II. Pursuant to the Association to Advance Collegiate Schools of Business (AACSB) accreditation standards, the Smeal College of Business requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

Career Paths

Actuarial Science has been rated as the No. 1 career path in the nation by The Wall Street Journal. The Actuarial Science major at Smeal prepares students for careers in insurance, consulting, finance, and government agencies that demand quantitative and qualitative skills. This major is also a STEM Designated Degree Program.

Careers

Smeal Actuarial Science students are highly sought by industry and government for internships and full-time jobs. Average starting salaries exceed \$70,000 and internships are paid a competitive wage. Due to the size of the Smeal Actuarial Science program, the college hosts one of the largest actuarial career fairs in the country with more than 30 companies attending each year.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE ACTUARIAL SCIENCE PROGRAM (<https://www.smeal.psu.edu/risk-management/degrees/actsc/>)

Accreditation

The Smeal College of Business B.S. degree in Actuarial Science (ACTSC_BS) is recognized by the AACSB (Association to Advance Collegiate Schools of Business) as an accredited program after completing a meticulous internal review and meeting all AACSB standards and requirements.

Corporate Innovation and Entrepreneurship, B.S.

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

The Corporate Innovation and Entrepreneurship major prepares students for challenges in the development of emerging products and new markets for demanding consumers. The ability to adapt to a rapidly changing social and business environment can yield great rewards and returns, but it requires innovative, multifunctional individuals able to adapt to and develop new technologies, innovations and businesses amid a wider environment of change, uncertainty and ambiguity. The major is conceived for students interested in starting and managing new businesses or innovating within existing business with the intent of growing the economy and providing jobs for a diverse workforce. The major focuses on developing problem solving and creative thinking skills, along with the ability to recognize opportunities, spot trends, and develop a plan to capitalize on these ideas. Emerging entrepreneurs and innovative managers of small to large businesses must be competent in various mediums of communication, have good negotiation skills, can lead with ethics and integrity, and are grounded in business aspects of planning, capital investing, goal setting, and decision making.

What is Corporate Innovation and Entrepreneurship?

Most people understand the concept of entrepreneurship – starting and running a new venture or small business. Corporate innovation, however, may not be as clear. The corporate innovation component of the CIENT major focuses on opportunities within the consulting industry as well as new product development and innovation within an existing company. The cornerstone of corporate innovation is the ability to identify opportunities and use corporate resources to implement change. An example can be a well-known chocolate company that initiated printing pictures on small pieces of candy which then opened up a whole new market segment for the company. Think creative ways to breathe life into existing product lines, or taking advantage of technology to lead a division into new business offerings or new business segments. CIENT embraces the mindset to continually look for new opportunities within an entrepreneurial context and a corporate environment.

MORE INFORMATION ABOUT CORPORATE INNOVATION AND ENTREPRENEURSHIP (<https://undergrad.smeal.psu.edu/majors/corporate-innovation-and-entrepreneurship/>)

Entrance to Major

To be eligible for entrance into the Corporate Innovation and Entrepreneurship (CIENT) major, a degree candidate must be enrolled at Penn State as a pre-major in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

Administrative Enrollment Controls

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2024, Fall 2024, Spring 2025

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- 36-59 graded Penn State credits (excludes transfer and AP credits)
- completed with a grade of C or better.
 - English - ENGL 15 or ENGL 30H or ESL 15 or ENGL 137H or CAS 137H
 - Mathematics - MATH 110 or MATH 140 or MATH 140B
 - Statistics - SCM 200 or SCM 200H or STAT 200
- completed ECON 102 or ECON 102H
- completed at Penn State (no substitutions or transfers), in addition with a quality grade of "C" or better and no alternative or Pass/Fail (PS) grading:
 - Accounting - ACCTG 211 or ACCTG 211H
 - Management - MGMT 301 or MGMT 301H or MGMT 301M or MGMT 301W
 - Marketing - MKTG 301 or MKTG 301H or MKTG 301W
 - Finance - FIN 301 or FIN 301H
- earned a minimum cumulative grade-point average (GPA) of 3.20

Students Who Entered Prior to Summer 2024

Students who entered the University from Summer 2018 through Spring 2024 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (<https://bulletins.psu.edu/undergraduate/archive/>). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

Degree Completion

Students accepted into the Corporate Innovation and Entrepreneurship major are expected to enroll at University Park the fall semester after gaining entrance to the major. In addition, Senate Policy 83-80.5 stipulates that the college dean and program faculty may require up to 24 credits of course work in the major to be taken in the college where the degree is earned. Based on this policy, the Smeal College of Business has set the following credit earning limitations for CIENT majors:

1. Eighteen credits of 300/400 level prescribed and additional courses in the major field must be completed with Management and Entrepreneurship faculty at University Park.

2. Six additional credits of 300/400 level related and supporting courses must also be completed at University Park. See the Corporate Innovation and Entrepreneurship Suggested Academic Plan for details.

Degree Requirements

For the Bachelor of Science degree in Corporate Innovation and Entrepreneurship, a minimum of 120 credits is required with at least 15 credits at the 400 level:

Requirement	Credits
General Education	45
Electives	14
Requirements for the Major	76

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GWS courses ((ENGL 15 or ENGL 30H or ENGL 137H/CAS 137H or ESL 15) and ENGL 202D); 6 credits of GQ courses (MATH 110 or MATH 140 and SCM 200 or STAT 200); 3 credits of GS courses (ECON 102)).

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 120

¹ Course requires a grade of C or better

² Entrance-to-Major Course – complete prior to attaining 59 cumulative credits at Penn State

³ Attain 12th credit level proficiency in a world language (0-12 credits). Credits required vary based on predetermined skill level. Balance of remaining credits are taken as electives. American Sign Language does not satisfy the Smeal College world language requirement.

⁴ When planning general education and elective courses, students should factor in the following requirements:

- 3 credits of United States Culture (US)
- 3 credits of International Culture (IL)
- 6 credits of Inter-Domain (N) coursework

⁵ See the Business Breadth Course list on the Smeal College website.

⁶ See the CIENT website for the list of CIENT electives.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

College and Department Notes:

1. The Smeal College of Business requires that the following entrance-to-major courses be taken at Penn State: ACCTG 211, MGMT 301, MKTG 301, and FIN 301.
2. Pursuant to the Association to Advance Collegiate Schools of Business (AACSB) accreditation standards, the Smeal College of Business requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

Corporate Innovation and Entrepreneurship, B.S. at Commonwealth Campuses

2. Pursuant to the Association to Advance Collegiate Schools of Business (AACSB) accreditation standards, the Smeal College of Business requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

Career Paths

The CIENT_BS major is designed for students interested in managing innovation, re-inventing current businesses, supporting a family business, or starting up new businesses with the intent of growing the economy, and providing jobs for a diverse workforce. By taking this major, students may prepare themselves to launch a new company or pursue professional employment in one of the following business domains:

Corporate Innovation:

- Consulting
- Project Management
- Business Operations

- Customer Development
- Innovation

Entrepreneurship:

- Start a New Venture
- Work for a Small Business
- Further a Family Business
- Work for a Company Investing in a Small Business

Accreditation

The Smeal College of Business B.S. degree in Corporate Innovation and Entrepreneurship (CIENT_BS) is recognized by the AACSB (Association to Advance Collegiate Schools of Business) as an accredited program after completing a meticulous internal review and meeting all AACSB standards and requirements.

Finance, B.S. (Business)

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

This major provides students with an opportunity to study investment analysis, management of banks and other financial institutions, and financial management of corporations and other businesses. Course coverage includes business finance, security markets, commercial bank management, investment valuations, portfolio management, futures and options markets, and capital budgeting.

What is Finance?

Finance focuses on how individuals and business organizations raise money and capital, and how those resources are allocated among competing investment and consumption opportunities. The field focuses on domestic and international financial economies and the role of financial markets and institutions key in the movement of savings and investment capital from lenders to borrowers. It also deals with how individuals and corporate managers evaluate alternative investment and savings opportunities and how they choose among various financial instruments.

Opportunities to explore and participate in real financial events include:

- **Nittany Lion Fund:** The Nittany Lion Fund is a \$12.5 million investor-owned, student-managed equity hedge fund that was founded twenty years ago. Students manage all aspects of the fund which includes selecting stocks, performance analysis, and investor reports and meetings. The fund places over 50 students per year in Wall Street internships and full-time jobs and has 400 alumni working on Wall Street.
- **Rogers Family Trading Room:** The Trading Room at Smeal (<http://www.smeal.psu.edu/finance/traderoom/>) replicates a real-world trading experience and functions as a classroom and a laboratory. Each of the more than 50 workstations in the facility is equipped with the software needed for simulated trading, deal capture, settlement, analytics, pricing, and other finance-related challenges. The resources include Bloomberg, FactSet, S&P Capital IQ.
- **Lion Leverage Capital (LLC):** LLC is a student managed paper portfolio of leveraged loans and high-yield bonds. LLC students learn the intricacies of credit analysis and how to evaluate leveraged loans and high yield bonds. LLC places over 40 students per year in Wall Street internships and full-time jobs, and has almost 100 alumni working on Wall Street.
- **Wall Street Boot Camp (WSBK):** the WSBK has been in existence for fifteen years. The WSBK is taught by Penn State Wall Street alums and provides students with an overview of Wall Street and prepares students to compete for Wall Street jobs.

MORE INFORMATION ABOUT FINANCE (<https://undergrad.smeal.psu.edu/majors/finance/>)

Entrance to Major

To be eligible for entrance into the Finance (FIN) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

Administrative Enrollment Controls

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2024, Fall 2024, Spring 2025

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- 36-59 graded Penn State credits (excludes transfer and AP credits)
- completed with a grade of C or better:
 - English - ENGL 15 or ENGL 30H or ESL 15 or ENGL 137H or CAS 137H
 - Mathematics - MATH 110 or MATH 140 or MATH 140B
 - Statistics - SCM 200 or SCM 200H or STAT 200
- completed ECON 102 or ECON 102H
- completed at Penn State (no substitutions or transfers), in addition with a quality grade of "C" or better and no alternative or Pass/Fail (PS) grading:

- Accounting - ACCTG 211 or ACCTG 211H
 - Management - MGMT 301 or MGMT 301H or MGMT 301M or MGMT 301W
 - Marketing - MKTG 301 or MKTG 301H or MKTG 301W
 - Finance - FIN 301 or FIN 301H
- earned a minimum cumulative grade-point average (GPA) of 3.50

Students Who Entered Prior to Summer 2024

Students who entered the University from Summer 2018 through Spring 2024 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (<https://bulletins.psu.edu/undergraduate/archive/>). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

Degree Completion

Students accepted into the Finance major are expected to enroll at University Park the fall semester after gaining entrance to the major. In addition, Senate Policy 83-80.5 stipulates that the college dean and program faculty may require up to 24 credits of course work in the major to be taken in the college where the degree is earned. Based on this policy, the Smeal College of Business has set the following credit earning limitations for FIN majors:

1. Fifteen credits of 300/400 level prescribed and additional courses in the major field must be completed with Finance faculty at University Park.
2. Nine additional credits of 300/400 level related and supporting courses must also be completed at University Park. See the Finance Suggested Academic Plan for details.

Degree Requirements

For the Bachelor of Science degree in Finance, a minimum of 120 credits is required with at least 15 credits at the 400 level:

Requirement	Credits
General Education	45
Electives	14
Requirements for the Major	73

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses (ENGL 202D); 6 credits of GQ courses (MATH 110 or MATH 140 and SCM 200 or STAT 200); 3 credits of GS courses (ECON 102).

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
BA 342	Socially Responsible, Sustainable and Ethical Business Practice	3
BA 411	Analyzing Business and Industry	3

BLAW 341	Business Law I: Introduction to Contracts, Liability Issues, and Intellectual Property	3
ECON 102	Introductory Microeconomic Analysis and Policy	3
ECON 104	Introductory Macroeconomic Analysis and Policy	3
MIS 250	Introduction to Problem Solving with Spreadsheet Analysis and Information Systems Management	3
SCM 301	Supply Chain Management	3

Prescribed Courses: Require a grade of C or better

ACCTG 211	Financial and Managerial Accounting for Decision Making	4
ENGL 202D	Effective Writing: Business Writing	3
FIN 301	Corporation Finance	3
FIN 305W	Financial Management of the Business Enterprise	3
FIN 406	Security Analysis and Portfolio Management	3
FIN 408	Financial Markets and Institutions	3
MGMT 301	Basic Management Concepts	3
MKTG 301	Principles of Marketing	3

Additional Courses

Additional Courses: Require a grade of C or better

MATH 110	Techniques of Calculus I	4
or MATH 140	Calculus With Analytic Geometry I	
SCM 200	Introduction to Statistics for Business	4
or STAT 200	Elementary Statistics	

Select 6 credits of the following: 6

FIN 405	Advanced Financial Management	
FIN 407	Multinational Financial Management	
FIN 410	Derivative Markets	
FIN 414	Financial Trading and Applications	
FIN 415	Advanced Financial Modeling	
FIN 460	Real Estate Financial Analysis	
or RM 460	Real Estate Financial Analysis	
FIN 470	Real Estate and Capital Markets	
or RM 470	Real Estate and Capital Markets	

Supporting Courses and Related Areas

Attainment of 12th credit level proficiency in a single world language. 4
Proficiency must be demonstrated by either examination or coursework.

Select 3 credits of related coursework. See Department List. 3

Select 6 credits of supporting coursework. See Department List. 6

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or

within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

³ Attain 12th credit level proficiency in a world language (0-12 credits). Credits required vary based on predetermined skill level. Balance of remaining credits are taken as electives. American Sign Language does not satisfy the Smeal College world language requirement.

⁴ When planning general education and elective courses, students should factor in the following requirements:

- 3 credits of United States Culture (US)
- 3 credits of International Culture (IL)
- 6 credits of Inter-Domain (N) coursework

⁵ See the Business Breadth Course list on the Smeal College website.

⁶ See the Finance Department website for the list of FIN electives.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

College and Department Notes:

- I. The Smeal College of Business requires that the following entrance-to-major courses be taken at Penn State: ACCTG 211, MGMT 301, MKTG 301, and FIN 301.
- II. Pursuant to the Association to Advance Collegiate Schools of Business (AACSB) accreditation standards, the Smeal College of Business requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

Finance, B.S. at Commonwealth Campuses

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
First-Year Seminar (if required by Campus)	1-0 MGMT 301 ^{1,2}	3
(MATH 110 or MATH 140) or (SCM 200 or STAT 200) (GQ) ^{1,2}	4 (SCM 200 or STAT 200) or (MATH 110 or MATH 140) (GQ) ^{1,2}	4

Elective ⁴	2-3 Elective ⁴	3
	14-15	15

Total Credits 120

¹ Course requires a grade of C or better

² Entrance-to-Major Course – complete prior to attaining 59 cumulative credits at Penn State

³ Attain 12th credit level proficiency in a world language (0-12 credits). Credits required vary based on predetermined skill level. Balance of remaining credits are taken as electives. American Sign Language does not satisfy the Smeal College world language requirement.

⁴ When planning general education and elective courses, students should factor in the following requirements:

- 3 credits of United States Culture (US)
- 3 credits of International Culture (IL)
- 6 credits of Inter-Domain (N) coursework

⁵ See the Business Breadth Course list on the Smeal College website.

⁶ See the Finance Department website for the list of FIN electives.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

College and Department Notes:

- The Smeal College of Business requires that the following entrance-to-major courses be taken at Penn State: ACCTG 211, MGMT 301, MKTG 301, and FIN 301.
- Pursuant to the Association to Advance Collegiate Schools of Business (AACSB) accreditation standards, the Smeal College of Business requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

Career Paths

Finance is a broad field that prepares students for positions in banking, investments, insurance, corporations, and government. Careers include positions in:

- securities analysis and investment management
- retail and commercial bank management
- retail investment brokerage
- financial advising and consulting
- corporate financial management and treasury

Accreditation

The Smeal College of Business B.S. degree in Finance (FIN_BS) is recognized by the AACSB (Association to Advance Collegiate Schools

of Business) as an accredited program after completing a meticulous internal review and meeting all AACSB standards and requirements.

Information Systems Management, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Information Systems Management minor focuses on IT supported techniques for exploring, analyzing, integrating, and reporting business data for fact-based decisions. The coursework enables students to study basic concepts, principles, and methods for information analysis, design and management, and to gain an understanding of the best practices for aligning IT-supported analytics with business strategy.

What is Information Systems Management?

This interdisciplinary minor is designed for students of other majors interested in the study of technology-supported techniques for exploring, analyzing, integrating, and reporting business data to facilitate fact-based decisions. The coursework enables you to study basic concepts, principles, and methods for business analytics and to gain an understanding of the best practices for aligning IT-supported analytics with business strategy.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

International Business, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The International Business minor provides students with knowledge, skills, and experiences that prepare them for a business career that might include international responsibilities. Mastery of fundamental business concepts, coursework in international business or economics, world language skills, and an approved study abroad experience each contribute to build perspectives about the challenges and opportunities of commercial activity in a global business environment.

The minor is designed to complement studies in business where students seek a deeper understanding of commerce and culture beyond their home country. For those interested in studying abroad, the global immersion track offers the chance to experience and study business, language, and culture for six or more weeks through an approved education abroad program. Others may choose the global business track and focus on a deeper understanding of international business. Either way, students develop a life-long appreciation for global business and culture that prepares them for a career beyond traditional boundaries.

What is International Business?

In an increasingly globalized economy, students are strongly encouraged to internationalize their undergraduate education. International business increases one's awareness in the global marketplace while broadening perspectives of different business cultures, practices, and challenges. Companies value candidates who have strong business skills and possess intercultural communication skills.

MORE INFORMATION ABOUT INTERNATIONAL BUSINESS (<https://ugstudents.smeal.psu.edu/international-programs/>)

Entrance to Minor

Enrolling in the International Business minor requires careful and advanced planning in order to avoid curricular and program obstacles that could impede progress towards completion of the minor. To circumvent these issues, the International Business minor has the following entrance requirements which also serve as prerequisites to several courses in the minor:

1. Complete the following core courses with grades of 'C' or better: ACCTG 211, MGMT 301, MKTG 301
2. Submit an International Business minor planning form to the Smeal College Office of International Programs as early as possible for review, planning, and scheduling of components in the minor.

Legal Environment of Business, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

This minor presents students with a structured study of the statutory and common law governing the business environment. Students in this program have the opportunity to learn advanced legal subject matter, including business organization structures, employment law, property law, commercial transactions, intellectual property, environmental law, and government regulation. Content is framed around the organization and support of complex business enterprises from a legal perspective. This includes complex legal transactions, litigation support and avoidance, and the development of enterprises. The emphasis on the complex nature of legal organization formation, transactions, and litigation support is provided through a rigorous selection of business law and core business courses.

What is the Legal Environment of Business?

The Legal Environment of Business minor presents you with a structured study of the statutory and common law governing the business environment. Students in this program have the opportunity to learn advanced legal subject matter, including business organization structures, employment law, property law, commercial transactions, intellectual property, environmental law, and government regulation.

Management Information Systems, B.S. (Business)

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

The Management Information Systems major focuses on IT-supported techniques for exploring, analyzing, integrating, and reporting business data to facilitate fact-based decisions and enterprise-wide management. The framework encompasses the concepts, principles, and methods for (1) collecting, transforming, and managing data, (2) doing business analytics, (3) communicating and sharing the results, (4) aligning IT-enabled business analytics with business strategy.

Students in this major have the opportunity to take nine credits of supporting work in functional business areas such as accounting, finance, marketing, risk management, and supply chain management. Graduates develop cross-functional literacy in how techniques and technologies help achieve business objectives, along with competency in applying business analytics methods on behalf of the business and in a supporting business area. Thus, graduates are well-prepared for careers in industry, consulting, and government sectors as business analytics professionals.

More information about the broad range of career opportunities is available at <http://www.smeal.psu.edu/scis/recruit> (<http://www.smeal.psu.edu/scis/recruit/>).

What is Management Information Systems?

Data is everywhere: location-based from smart phones, social media, text, corporate data, and more. Companies need to analyze this data to get meaningful information to the people who need it. Hence, Management Information Systems (MIS) lives in the space that intersects technology and business.

Some of the skills learned in the major include how to mine and analyze data, build interactive digital dashboards, create visual analytics, and how to use a variety of business software tools to support companies and facilitate data driven decision making within an organization.

Our MIS graduates use these business software tools to design informative and graphical applications, allowing executives to make strategic decisions analytically. Smeal MIS graduates are well prepared for careers in industry, consulting, and government sectors as business analytics specialists and systems analysis professionals.

Entrance to Major

To be eligible for entrance into the Management Information Systems (MIS) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

Administrative Enrollment Controls

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2024, Fall 2024, Spring 2025

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- 36-59 graded Penn State credits (excludes transfer and AP credits)
- completed with a grade of C or better.
 - English - ENGL 15 or ENGL 30H or ESL 15 or ENGL 137H or CAS 137H
 - Mathematics - MATH 110 or MATH 140 or MATH 140B
 - Statistics - SCM 200 or SCM 200H or STAT 200
- completed ECON 102 or ECON 102H
- completed at Penn State (no substitutions or transfers), in addition with a quality grade of "C" or better and no alternative or Pass/Fail (PS) grading:
 - Accounting - ACCTG 211 or ACCTG 211H
 - Management - MGMT 301 or MGMT 301H or MGMT 301M or MGMT 301W
 - Marketing - MKTG 301 or MKTG 301H or MKTG 301W
 - Finance - FIN 301 or FIN 301H
- earned a minimum cumulative grade-point average (GPA) of 3.00

Students Who Entered Prior to Summer 2024

Students who entered the University from Summer 2018 through Spring 2024 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (<https://bulletins.psu.edu/undergraduate/archive/>). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

Degree Completion

Students accepted into the Management Information Systems major are expected to enroll at University Park the fall semester after gaining entrance to the major. In addition, Senate Policy 83-80.5 stipulates that the college dean and program faculty may require up to 24 credits of course work in the major to be taken in the college where the degree is earned. Based on this policy, the Smeal College of Business has set the following credit earning limitations for MIS majors:

1. Eighteen credits of 300/400 level prescribed and additional courses in the major field must be completed with Management Information Systems faculty at University Park.
2. Six additional credits of 300/400 level related and supporting courses must also be completed at University Park. See the Management Information Systems Suggested Academic Plan for details.

Degree Requirements

For the Bachelor of Science degree in Management Information Systems, a minimum of 120 credits is required with at least 15 credits at the 400 level:

Requirement	Credits
General Education	45
Electives	14
Requirements for the Major	73

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses

(ENGL 202D); 6 credits of GQ courses (MATH 110 or MATH 140 and SCM 200 or STAT 200); 3 credits of GS courses (ECON 102).

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits

Supporting Courses and Related Areas		
Attainment of 12th-credit-level proficiency in a single world language. Proficiency must be demonstrated by either examination or coursework.		4
Select 6 credits of supporting coursework. See Department List.		6

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education

Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- Arts (GA): 3 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

Integrative Studies

- Inter-Domain Courses (Inter-Domain): 6 credits

Exploration

- GN, may be completed with Inter-Domain courses: 3 credits
- GA, GH, GN, GS, Inter-Domain courses. This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 120

¹ Course requires a grade of C or better

² Entrance-to-Major Course – complete prior to attaining 59 cumulative credits at Penn State

³ Attain 12th credit level proficiency in a world language (0-12 credits). Credits required vary based on predetermined skill level. Balance of remaining credits are taken as electives. American Sign Language does not satisfy the Smeal College world language requirement.

⁴ When planning general education and elective courses, students should factor in the following requirements:

- 3 credits of United States Culture (US)
- 3 credits of International Culture (IL)
- 6 credits of Inter-Domain (N) coursework

⁵ See the Business Breadth Course list on the Smeal College website.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

College and Department Notes:

- I. The Smeal College of Business requires that the following entrance-to-major courses be taken at Penn State: ACCTG 211, MGMT 301, MKTG 301, and FIN 301.
- II. Pursuant to the Association to Advance Collegiate Schools of Business (AACSB) accreditation standards, the Smeal College of Business requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

Management Information Systems, B.S. at Commonwealth Campuses

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

Starting salaries for MIS graduates are typically above average for business graduates along with a placement rate well above 95%. Students in MIS have countless options when thinking about internships and full-time employment. Career paths for MIS students include consulting, analytics, systems analysts, and data analysts. National and global companies visit the Smeal College annually seeking MIS graduates providing them opportunities to gain core competencies that are crucial for career success.

In addition to job-placement services available at the college and University level, the MIS program partners with Smeal's Center for Supply Chain Research (CSCR) in hosting annual fall and spring career fairs attended by more than 100 companies.

Accreditation

The Smeal College of Business B.S. degree in Management Information Systems (MIS_BS) is recognized by the AACSB (Association to Advance Collegiate Schools of Business) as an accredited program after completing a meticulous internal review and meeting all AACSB standards and requirements.

Management, B.S. (Business)

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

This major provides students with knowledge and skills managers need to deal with contemporary management challenges, such as leading and motivating people of different ages and backgrounds, developing strategies for competing in the global economy, and balancing the interest of multiple stakeholders in a complex legal, political, and ethical environment. The management core provides a foundational knowledge, skills and competencies essential for being effective and ethical managers and strategic leaders of organizations in a global environment. Students then choose from a host of electives designed to provide the requisite supplementary knowledge, skills and abilities for a wide range of career trajectories.

What is Management?

Organizations need managers and leaders: people who can effectively lead organizations and manage the people in them, as well as develop and implement strategies that will lead to success. Management majors gain the knowledge and skills that will enable them to deal with the contemporary challenges facing organizations including leading and motivating people, working effectively in teams, developing effective organizational cultures, thinking ethically, inclusively, strategically, and sustainably, balancing the interests of multiple stakeholders in complex, legal, political, and ethical environments, and leading change.

MORE INFORMATION ABOUT MANAGEMENT (<https://undergrad.smeal.psu.edu/majors/management/>)

Entrance to Major

To be eligible for entrance into the Management (MGMT) major, a degree candidate must be enrolled at Penn State as a pre-major in the Smeal

College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

Administrative Enrollment Controls

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2024, Fall 2024, Spring 2025

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- 36-59 graded Penn State credits (excludes transfer and AP credits)
- completed with a grade of C or better.
 - English - ENGL 15 or ENGL 30H or ESL 15 or ENGL 137H or CAS 137H
 - Mathematics - MATH 110 or MATH 140 or MATH 140B
 - Statistics - SCM 200 or SCM 200H or STAT 200
- completed ECON 102 or ECON 102H
- completed at Penn State (no substitutions or transfers), in addition with a quality grade of "C" or better and no alternative or Pass/Fail (PS) grading:
 - Accounting - ACCTG 211 or ACCTG 211H
 - Management - MGMT 301 or MGMT 301H or MGMT 301M or MGMT 301W
 - Marketing - MKTG 301 or MKTG 301H or MKTG 301W
 - Finance - FIN 301 or FIN 301H
- earned a minimum cumulative grade-point average (GPA) of 3.20

Students Who Entered Prior to Summer 2024

Students who entered the University from Summer 2018 through Spring 2024 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (<https://bulletins.psu.edu/undergraduate/archive/>). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

Degree Completion

Students accepted into the Management major are expected to enroll at University Park the fall semester after gaining entrance to the major. In addition, Senate Policy 83-80.5 stipulates that the college dean and program faculty may require up to 24 credits of course work in the major to be taken in the college where the degree is earned. Based on this policy, the Smeal College of Business has set the following credit earning limitations for MGMT majors:

1. Eighteen credits of 300/400 level prescribed and additional courses in the major field must be completed with Management faculty at University Park.
2. Six additional credits of 300/400 level related and supporting courses must also be completed at University Park. See the Management Suggested Academic Plan for details.

Degree Requirements

For the Bachelor of Science degree in Management, a minimum of 120 credits is required with at least 15 credits at the 400 level:

Requirement	Credits
General Education	45
Electives	14
Requirements for the Major	76

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GWS courses ((ENGL 15 or ENGL 30H or ENGL 137H/CAS 137H or ESL 15) and ENGL 202D); 6 credits of GQ courses (MATH 110 or MATH 140 and SCM 200 or STAT 200); 3 credits of GS courses (ECON 102)).

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
BA 342	Socially Responsible, Sustainable and Ethical Business Practice	3
BA 411	Analyzing Business and Industry	3
BLAW 341	Business Law I: Introduction to Contracts, Liability Issues, and Intellectual Property	3
ECON 102	Introductory Microeconomic Analysis and Policy	3
ECON 104	Introductory Macroeconomic Analysis and Policy	3
MIS 250	Introduction to Problem Solving with Spreadsheet Analysis and Information Systems Management	3
SCM 301	Supply Chain Management	3
<i>Prescribed Courses: Require a grade of C or better</i>		
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
ENGL 202D	Effective Writing: Business Writing	3
FIN 301	Corporation Finance	3
MGMT 301	Basic Management Concepts	3
MGMT 326	Organizational Behavior and Design	3
MGMT 451W	Business, Ethics, and Society	3
MGMT 481	Global Strategic Management	3
MKTG 301	Principles of Marketing	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
MATH 110 or MATH 140	Techniques of Calculus I Calculus With Analytic Geometry I	4
SCM 200 or STAT 200	Introduction to Statistics for Business Elementary Statistics	4
Select 3 credits from the following:		3
ENGL 15	Rhetoric and Composition	
ENGL 30H	Honors Rhetoric and Composition	
ENGL/CAS 137H	Rhetoric and Civic Life I	

ESL 15	ESL Composition for American Academic Communication II	
Select 9 credits from the following:		9
BA 441	Strategies for Enterprise Sustainability	
MGMT 341	Human Resource Management	
MGMT 355	Leadership and Change in Organizations	
MGMT 420	Negotiation and Conflict Management	
MGMT 441	Organizational Staffing and Development	
MGMT 443	Performance Management	
MGMT 445	Managing a Diverse Workforce	
MGMT 480	Business Transformation Consulting	

Supporting Courses and Related Areas

Attainment of 12th-credit level proficiency in a single world language. Proficiency must be demonstrated by either examination or coursework. 4

Select 6 credits of supporting coursework from an approved department list. 6

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Foundations courses (GWS and GQ) require a grade of 'C' or better.

College and Department Notes:

1. The Smeal College of Business requires that the following entrance-to-major courses be taken at Penn State: ACCTG 211, MGMT 301, MKTG 301, and FIN 301.
2. Pursuant to the Association to Advance Collegiate Schools of Business (AACSB) accreditation standards, the Smeal College of Business requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

Career Paths

The Management major prepares students for a variety of career opportunities. Management majors typically find positions across a wide variety of industries in leadership development and rotational programs, corporate human capital management, and consulting; small business management/leadership; and retail, sports, entertainment, or healthcare management. Management majors also pursue graduate school.

Accreditation

The Smeal College of Business B.S. degree in Management (MGMT_BS) is recognized by the AACSB (Association to Advance Collegiate Schools

of Business) as an accredited program after completing a meticulous internal review and meeting all AACSB standards and requirements.

Marketing, B.S. (Business)

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

This major provides professional education leading to positions in business, government, and other organizations, and helps prepare the student for advanced study at the graduate level. Career opportunities are in marketing management, sales management, advertising, marketing research, retailing, public policy, and consumer affairs. In addition to following a planned course sequence in general marketing management, the students may elect course work that focuses on their interests in consumer or business-to-business marketing, physical goods or services marketing, retail marketing, analytics, brand management, and for-profit or not-for-profit marketing.

The Marketing major is designed to be integrated with the college's professional education in business and builds on that program and on education in the social sciences.

What is Marketing?

Marketing is a broad field that seeks to understand consumer, firm, and societal behaviors and subsequently identify ideas, products, services, and methodological approaches that deliver value. According to the American Marketing Association, Marketing involves "the set of institutions and processes for creating, communicating, delivering, and exchanging offerings valuable to customers, clients, partners, and society at large. Not only does marketing guide firms' managerial decisions in the marketplace, but it also offers insights into consumer awareness, public policy making, and non-commercial exchange of value (e.g., altruistic giving)."

MORE INFORMATION ABOUT MARKETING (<https://undergrad.smeal.psu.edu/majors/marketing/>)

Entrance to Major

To be eligible for entrance into the Marketing (MKTG) major, a degree candidate must be enrolled in the Smeal College of Business or the

Division of Undergraduate Studies and satisfy requirements for entrance to the major.

Administrative Enrollment Controls

This program currently has administrative enrollment controls.

Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2024, Fall 2024, Spring 2025

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- 36-59 graded Penn State credits (excludes transfer and AP credits)
- completed with a grade of C or better:
 - English - ENGL 15 or ENGL 30H or ESL 15 or ENGL 137H or CAS 137H
 - Mathematics - MATH 110 or MATH 140 or MATH 140B
 - Statistics - SCM 200 or SCM 200H or STAT 200
- completed ECON 102 or ECON 102H
- completed at Penn State (no substitutions or transfers), in addition with a quality grade of "C" or better and no alternative or Pass/Fail (PS) grading:
 - Accounting - ACCTG 211 or ACCTG 211H
 - Management - MGMT 301 or MGMT 301H or MGMT 301M or MGMT 301W
 - Marketing - MKTG 301 or MKTG 301H or MKTG 301W
 - Finance - FIN 301 or FIN 301H
- earned a minimum cumulative grade-point average (GPA) of 3.25

Students Who Entered Prior to Summer 2024

Students who entered the University from Summer 2018 through Spring 2024 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (<https://bulletins.psu.edu/undergraduate/archive/>). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

Degree Requirements

For the Bachelor of Science degree in Marketing, a minimum of 120 credits is required with at least 15 credits at the 400 level:

Requirement	Credits
General Education	45
Electives	14
Requirements for the Major	73

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses (ENGL 202D); 6 credits of GQ courses (MATH 110 or MATH 140 and SCM 200 or STAT 200); 3 credits of GS courses (ECON 102).

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as

specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits

MKTG 474	Marketing Analytics	
Supporting Courses and Related Areas		
Attainment of 12th credit level proficiency in a single world language. Proficiency must be demonstrated by either examination or coursework.		4
Select 6 credits of supporting coursework. See Department List.		6

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Elective ⁴	2 Elective ⁴	3
	14	15

Total Credits 120

¹ Course requires a grade of C or better

² Entrance-to-Major Course – complete prior to attaining 59 cumulative credits at Penn State

³ Attain 12th credit level proficiency in a world language (0-12 credits). Credits required vary based on predetermined skill level. Balance of remaining credits are taken as electives. American Sign Language does not satisfy the Smeal College world language requirement.

⁴ When planning general education and elective courses, students should factor in the following requirements:

- 3 credits of United States Culture (US)
- 3 credits of International Culture (IL)
- 6 credits of Inter-Domain (N) coursework

⁵ See the Business Breadth Course list on the Smeal College website.

⁶ See the Marketing Tracks on the Marketing website for selecting the MKTG 4XX courses appropriate for your area of interest.

⁷ MKTG 330 and MKTG 342 must be completed during the first two semesters of enrolling in the MKTG major in order to meet prerequisite requirements for advanced marketing courses.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

College and Department Notes:

- I. The Smeal College of Business requires that the following entrance-to-major courses be taken at Penn State for a letter grade of C or better: ACCTG 211, MGMT 301, MKTG 301, and FIN 301.
- II. Pursuant to the Association to Advance Collegiate Schools of Business (AACSB) accreditation standards, the Smeal College of Business requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.
- III. **MKTG_BS: Marketing Tracks - Select One Track from the following**
 - a. **General Marketing Management -**
 - i. Select three courses from MKTG 410 Personal Selling, MKTG 426 Business Marketing, MKTG 428 Advanced Sales Management, MKTG 437 Advanced Retailing and Merchandise Management, MKTG 440 Services Marketing, MKTG 449 Sports Business Marketing Strategy, MKTG 472 Strategic Brand Management, MKTG 474 Marketing Analytics, and MKTG 495A Penn State Prime Practicum.
 - b. **Business Development and Sales Specialty -**
 - i. Select two courses from MKTG 410 Personal Selling, MKTG 426 Business Marketing, MKTG 428 Advanced Sales Management, and MKTG 440 Services Marketing.

- ii. Select one course from MKTG 422 Advertising and Sales Promotion Management, MKTG 442 Sustainable Behavior of Consumers, Firms, and Societies, MKTG 443 Sports Marketing, MKTG 445 Global Marketing, and MKTG 473 Digital Marketing.

c. **Strategic Insights and Analytics Specialty -**

- i. Select two courses from MKTG 437 Advanced Retailing and Merchandise Management, MKTG 449 Sports Business Marketing Strategy, MKTG 472 Strategic Brand Management, MKTG 474 Marketing Analytics, and MKTG 495A Penn State Prime Practicum.
- ii. Select one course from MKTG 422 Advertising and Sales Promotion Management, MKTG 442 Sustainable Behavior of Consumers, Firms, and Societies, MKTG 443 Sports Marketing, MKTG 445 Global Marketing, and MKTG 473 Digital Marketing.

Marketing, B.S. at Commonwealth Campuses

Real Estate Analysis and Development, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The Real Estate Analysis and Development (RLESAD_UCT) certificate is designed to prepare students for a variety of careers in the real estate industry. It specifies coursework in advanced real estate analysis and investments. Students pursuing this certificate will be encouraged and better prepared to seek careers in commercial real estate development, analysis, investment, valuation, banking, and brokerage. They will be positioned to enter the financial management training programs of leading corporations. Strong demand exists from corporate recruiters for well-prepared graduates to enter these post-graduation training programs.

What is Real Estate Analysis and Development?

The Real Estate Analysis & Development Certificate is designed to prepare students for opportunities to interact with the real estate industry in an intimate way. Students will gain an understating of the complexities of real estate resources, which will assist them in both personal and professional investment decisions. Skills that will be enhanced include negotiations, investment analysis, enhanced financial techniques and institutional knowledge of the real estate sector. By completing the READ Certificate, students will be given opportunities to participate in the Real Estate Boot Camp, which offers site visits, special guest lecture series, a REIT Case Competition and other special opportunities unique to the commercial real estate sector.

Entrance to Certificate

The RLESAD_UCT certificate is only open to students enrolled in a Smeal College of Business major. The RLESAD_UCT certificate is not open to students enrolled in the Risk Management major - Real Estate option.

Program Requirements

To earn an undergraduate certificate in Real Estate Analysis and Development, a minimum of 9 credits is required.

Code	Title	Credits
Required Courses		
RM 303	Real Estate Fundamentals	3
RM 450	Contemporary Issues in Real Estate Markets	3
Select one of the following:		
RM 424	Real Estate Law	3
RM 460	Real Estate Financial Analysis	
RM 470	Real Estate and Capital Markets	
RM 475	Quantitative Analysis for Business	

Non-Course Requirements

Extracurricular Activities - While not a RLESAD_UCT requirement, students who enroll in the certificate are encouraged to participate in the extra-curricular Real Estate Boot Camp offered by the Institute for Real Estate Studies (IRES) which is housed in the Smeal College of Business. Students are also encouraged to join the Real Estate Society club while at Penn State.

Certificate Learning Objectives

- Analytical and Critical Thinking: Students will develop analytical and critical thinking skills needed to excel in today's business environment.
- Foundation Concepts: Students will demonstrate competency in Real Estate and Financial concepts.
- Value System: Students will be able to evaluate the ethical and societal implications of real estate investment and development decisions.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Real Estate, B.S.

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

The Smeal College of Business Bachelor of Science degree in Real Estate (REST_BS) is targeted at individuals wishing to have a career in the real estate industry or related field. The major will provide students a solid foundation in the concepts associated with real estate finance, investment, and development analysis as well as quantitative research methods that are needed to solve complex problems in the real estate industry. The program will provide students with the required analytical tools necessary to analyze the real estate markets and solve problems or issues they may encounter in this growing industry. Students in the Real Estate major will also receive professional credit toward the required educational hours for the real estate appraisal designation offered through the Appraisal Qualifications Board (AQB) of the Appraisal Foundation. This organization is authorized by Congress as the Source of Appraisal Standards and Appraiser Qualifications.

What is Real Estate?

The Real Estate major features an innovative curriculum that allows students to tailor their coursework towards areas of greatest interest. Courses cover topics in real estate finance, law, investment valuation, appraisal processes, urban and regional economics, property development, and project management. In addition, students have the ability to select courses outside the Smeal College of Business in areas such as landscape architecture, hotel administration, construction

management and engineering, and urban economics. The Real Estate major is also a STEM Designated Degree Program.

Entrance to Major

To be eligible for entrance into the Real Estate (REST) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

Administrative Enrollment Controls

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2024, Fall 2024, Spring 2025

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- 36-59 graded Penn State credits (excludes transfer and AP credits)
- completed with a grade of C or better:
 - English - ENGL 15 or ENGL 30H or ESL 15 or ENGL 137H or CAS 137H
 - Mathematics - MATH 110 or MATH 140 or MATH 140B
 - Statistics - SCM 200 or SCM 200H or STAT 200
- completed ECON 102 or ECON 102H
- completed at Penn State (no substitutions or transfers), in addition with a quality grade of "C" or better and no alternative or Pass/Fail (PS) grading:
 - Accounting - ACCTG 211 or ACCTG 211H
 - Management - MGMT 301 or MGMT 301H or MGMT 301M or MGMT 301W
 - Marketing - MKTG 301 or MKTG 301H or MKTG 301W
 - Finance - FIN 301 or FIN 301H
- earned a minimum cumulative grade-point average (GPA) of 3.20

Students Who Entered Prior to Summer 2024

Students who entered the University from Summer 2018 through Spring 2024 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (<https://bulletins.psu.edu/undergraduate/archive/>). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

Degree Completion

Students accepted into the Real Estate (REST_BS) major are expected to enroll at University Park the fall semester after gaining entrance to the major or sooner. In addition, Senate Policy 83-80.5 stipulates that the college dean and program faculty may require up to 24 credits of course work in the major to be taken in the college where the degree is earned. Based on this policy and the College's accreditation standards, the Smeal College of Business program faculty have set the following credit earning limitations for REST_BS majors:

1. Eighteen credits of 300/400 level prescribed and additional courses in the major field must be completed with faculty in the Real Estate program.
2. Six additional credits of 300/400 level supporting courses must also be completed at University Park. See the Real Estate Suggested Academic Plan for details.

Degree Requirements

For the Bachelor of Science degree in Real Estate, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	14
Requirements for the Major	76

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 6 credits of GWS courses; 3 credits of GS courses.

REQUIREMENTS FOR THE MAJOR

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
BA 342	Socially Responsible, Sustainable and Ethical Business Practice	3
BA 411	Analyzing Business and Industry	3
BLAW 341	Business Law I: Introduction to Contracts, Liability Issues, and Intellectual Property	3
ECON 102	Introductory Microeconomic Analysis and Policy	3
ECON 104	Introductory Macroeconomic Analysis and Policy	3
MIS 250	Introduction to Problem Solving with Spreadsheet Analysis and Information Systems Management	3
SCM 301	Supply Chain Management	3
<i>Prescribed Courses: Require a grade of C or better</i>		
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
ENGL 202D	Effective Writing: Business Writing	3
FIN 301	Corporation Finance	3
MGMT 301	Basic Management Concepts	3
MKTG 301	Principles of Marketing	3
RM 330W	Real Estate Risk Analysis	3
RM 450	Contemporary Issues in Real Estate Markets	3
RM/FIN 460	Real Estate Financial Analysis	3
RM/FIN 470	Real Estate and Capital Markets	3
RM 475	Quantitative Analysis for Business	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
FIN 406	Security Analysis and Portfolio Management	3
or RM/BLAW 424	Real Estate Law	

MATH 110	Techniques of Calculus I	4
or MATH 140	Calculus With Analytic Geometry I	
SCM 200	Introduction to Statistics for Business	4
or STAT 200	Elementary Statistics	
Select 3 credits from the following:		3
ENGL 15	Rhetoric and Composition	
ENGL 30H	Honors Rhetoric and Composition	
ESL 15	ESL Composition for American Academic Communication II	
CAS/ENGL 137H	Rhetoric and Civic Life I	

Supporting Courses and Related Areas

Select 4 credits: Attainment of 12th credit level proficiency in a single world language. Proficiency must be demonstrated by either examination or coursework.	4
Select 6 credits of supporting coursework from an approved department list.	6

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Real Estate, B.S. at University Park Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
PSU 6	1 MGMT 301 ^{1,2}	3

BLAW 341 or BA 342	3 BA 342 or BLAW 341	3
General Education Course (N) ⁴	3 General Education Course ⁴	3
General Education Course ⁴	3 General Education Course ⁴	3
	15	15

Fourth Year

Fall	Credits Spring	Credits
RM/FIN 460 ¹	3 RM/FIN 470 ¹	3
BA 411 (Real Estate Elective) ^{1,6}	3 BA 411 (or Real Estate Elective) ^{1,6}	3
Business Breadth Course ⁵	3 Business Breadth Course ⁵	3
General Education Course (N) ⁴	3 General Education Course ⁴	3
Elective ⁴	2 Elective Course ⁴	3
	14	15

Total Credits 120

¹ Course requires a grade of C or better

² Entrance-to-Major Course – complete prior to attaining 59 cumulative credits at Penn State

³ Attain 12th credit level proficiency in a world language (0-12 credits). Credits required vary based on predetermined skill level. Balance of remaining credits are taken as electives. American Sign Language does not satisfy the Smeal College world language requirement.

⁴ When planning general education and elective courses, students should factor in the following requirements:

- 3 credits of United States Culture (US)
- 3 credits of International Culture (IL)
- 6 credits of Inter-Domain coursework

⁵ See the Business Breadth Course list on the Smeal College website.

⁶ See the Risk Management Department website for the list of Real Estate electives.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

Real Estate, B.S. at Commonwealth Campuses

Career Paths

With top-ranked faculty, the Real Estate major prepares students for success in an ever-changing environment. The program offers a wide range of professional opportunities in corporate real estate, investment and counseling, commercial real estate brokerage, appraisal, risk management, mortgage lending and banking, development, and government services. Career paths for our students include:

- Commercial brokerage
- Consulting
- Office Leasing
- Complex valuation and counseling
- Mortgage and construction lending
- Property Management

The Borrelli Institute for Real Estate Studies (IRES) and the Penn State Real Estate Advisory Board provide students access to leading firms and executives for mentoring and internship opportunities. The IRES sponsors an annual Real Estate Boot Camp program that provides students with outstanding extracurricular opportunities and networking events. In addition, the Penn State Real Estate Association provides leadership opportunities and networking ideas.

Accreditation

The Smeal College of Business B.S. degree in Real Estate (REST_BS) is recognized by the AACSB (Association to Advance Collegiate Schools

of Business) as an accredited program after completing a meticulous internal review and meeting all AACSB standards and requirements.

MORE INFORMATION ABOUT THE ASSOCIATION TO ADVANCE COLLEGIATE SCHOOLS OF BUSINESS (<https://www.aacsb.edu>)

Professional Licensure/Certification

The Appraisal Foundation's (TAF) Appraisal Qualification Board (AQB) which is authorized by Congress as the source for appraisal standards and real property appraisal qualifications reviewed the REST_BS program and determined that 86% of the educational qualifications for Certified General Appraisal are satisfied by the REST_BS degree. Over 90% of the educational requirements for Licensed Residential and Certified Residential are also met. For more information on specific qualifications by each state, contact the Real Estate Appraisers Board.

Risk Management, B.S.

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

The Risk Management major prepares students for careers in a wide range of private industries and public service agencies involving such areas as operations, property development, financial strategy, and government. The major is integrative in nature by crossing traditional business boundaries while offering specific areas of study in enterprise risk management, and real estate. High profile risks are faced by leaders and managers up and down the corporate ladder and require specialized skills, knowledge, and preparation. The Risk Management major prepares students for this along with a chance to study risk from various perspectives by offering specialty courses along with a common pool of risk management courses. This structure assures that the students in the risk management major are equipped with the common tools of risk analysis while at the same time permitting the students to tailor the specifics of their training.

Enterprise Management Option

The Enterprise Risk Management Option prepares students to identify, quantify and qualify the regulatory, legal, financial and contractual aspects of enterprise risk; the management of such risks; and the application of risk financing techniques to control risk exposures in organizations. Emphasis is also placed on the understanding of the principles and risks underlying complex business contracts.

Real Estate Option

This option is designed to prepare the student for a wide range of professional opportunities in corporate real estate management, real estate brokerage, appraisal, property management, mortgage lending and banking, development, and governmental service.

What is Risk Management?

Organizations face a wide array of risks in today's rapidly changing and complex business environment. Operations can be disrupted by a variety of unanticipated factors, ranging from external forces like natural disasters and political risks to internal factors like faulty product design and flawed financial systems. CEOs make risky strategic decisions in an increasingly competitive marketplace where the cost of missteps is high. In recent years, firms have encountered new risks in the form of financial mismanagement, global litigation, and the growing costs of human resources.

The goal of Risk Management is to enhance firm value through the optimal treatment of risk. Corporate interest in enterprise risk management has grown steadily in recent years, fueled in part by regulatory mandates for improved risk management systems. In addition, organizations like Standard & Poor's, the Securities and Exchange Commission, and the New York Stock Exchange now require increased risk management disclosure and assessment in corporate financial statements.

Risk Management can often be categorized into four general areas of risk:

1. Hazard Risk: Lawsuits or damage from natural disasters.
2. Operational Risk: Risk resulting from failed systems, poor design, or worker error.
3. Financial Risk: Excessive operating costs and changes in commodity prices or currencies.
4. Strategic Risk: Corporate gains and losses from changes in consumer demand.

MORE INFORMATION ABOUT RISK MANAGEMENT (<https://undergrad.smeal.psu.edu/majors/risk-management/>)

Entrance to Major

To be eligible for entrance into the Risk Management major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy the requirements for entrance.

Administrative Enrollment Controls

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2024, Fall 2024, Spring 2025

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- 36-59 graded Penn State credits (excludes transfer and AP credits)
- completed with a grade of C or better:
 - English - ENGL 15 or ENGL 30H or ESL 15 or ENGL 137H or CAS 137H
 - Mathematics - MATH 110 or MATH 140 or MATH 140B
 - Statistics - SCM 200 or SCM 200H or STAT 200
- completed ECON 102 or ECON 102H
- completed at Penn State (no substitutions or transfers), in addition with a quality grade of "C" or better and no alternative or Pass/Fail (PS) grading:
 - Accounting - ACCTG 211 or ACCTG 211H
 - Management - MGMT 301 or MGMT 301H or MGMT 301M or MGMT 301W
 - Marketing - MKTG 301 or MKTG 301H or MKTG 301W
 - Finance - FIN 301 or FIN 301H
- earned a minimum cumulative grade-point average (GPA) of 3.20

Students Who Entered Prior to Summer 2024

Students who entered the University from Summer 2018 through Spring 2024 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (<https://bulletins.psu.edu/undergraduate/archive/>). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

Degree Requirements

For the Bachelor of Science degree in Risk Management, a minimum of 120 credits is required with at least 15 credits at the 400 level:

Requirement	Credits
General Education	45
Electives	14
Requirements for the Major	73

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses (ENGL 202D); 6 credits of GQ courses (MATH 110 or MATH 140 and SCM 200 or STAT 200); 3 credits of GS courses (ECON 102).

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN,** may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous

years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Enterprise Risk Management Option: Risk Management, B.S. at University Park Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
PSU 6	1 MGMT 301 ^{1,2}	3
(MATH 110 or MATH 140) or (SCM 200 or STAT 200) (GQ) ^{1,2}	4 (SCM 200 or STAT 200) or (MATH 110 or MATH 140) (GQ) ^{1,2}	4

	14	15

Total Credits 120

¹ Course requires a grade of C or better

² Entrance-to-Major Course – complete prior to attaining 59 cumulative credits at Penn State

³ Attain 12th credit level proficiency in a world language (0-12 credits). Credits required vary based on predetermined skill level. Balance of remaining credits are taken as electives. American Sign Language does not satisfy the Smeal College world language requirement.

⁴ When planning general education and elective courses, students should factor in the following requirements:

- 3 credits of United States Culture (US)
- 3 credits of International Culture (IL)
- 6 credits of Inter-Domain (N) coursework

⁵ See the Business Breadth Course list on the Smeal College website.

⁶ See the Risk Management Department website for the list of RM-ERM electives.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

College and Department Notes:

- I. The Smeal College of Business requires that the following entrance-to-major courses be taken at Penn State: ACCTG 211, MGMT 301, MKTG 301, and FIN 301.
- II. Pursuant to the Association to Advance Collegiate Schools of Business (AACSB) accreditation standards, the Smeal College of Business requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

Enterprise Risk Management Option: Risk Management, B.S. at Commonwealth Campuses

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

Corporations and non-profits have turned to risk management to protect themselves from the adverse consequences of all of these risks. Risk analysis touches a wide range of systems including management and control of risk and legal, political, economic, and property risk assessment. This rigorous program of study is designed to prepare students for careers in risk management, compliance, risk analysis, and government agencies that demand quantitative and qualitative skills needed to meet modern risk assessment requirements.

Risk Management (RM_BS) prepares students to work in the risk management departments of major multinational and domestic corporations. The risk management function interacts with a firm's internal and external auditing functions and reports to the Board of Directors and senior offices of publicly traded companies. Demand for risk management expertise has grown throughout the economy since 2000, especially among healthcare, energy, and financial services firms. Students are recruited in these areas and by firms in industries related to risk management, including accounting firms, insurance companies, insurance brokerage, consultancy, and benefits management.

Average starting salaries for full-time employment are in the \$60,000 range. Internships are paid experiences with hourly rates around \$20.00 an hour.

Accreditation

The Smeal College of Business B.S. degree in Risk Management (RM_BS) is recognized by the AACSB (Association to Advance Collegiate Schools of Business) as an accredited program after completing a meticulous internal review and meeting all AACSB standards and requirements.

MORE INFORMATION ABOUT THE ASSOCIATION TO ADVANCE COLLEGIATE SCHOOLS OF BUSINESS (<https://www.aacsb.edu>)

Professional Licensure/Certification

Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the Professional Licensure/Certification Disclosures by State (<https://www.psu.edu/state-licensure-disclosures/>) interactive map.

Smeal College Business Fundamentals, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The Smeal College Business Fundamentals Certificate provides non-Smeal students with the background and knowledge for careers in corporate and non-profit settings. Core courses are framed around an integrated approach to management, finance, global operations, product development and promotion, and legal aspects of business. Students gain practical skills needed to compete in today's rapidly changing business environment.

What is Smeal College Business Fundamentals?

The Smeal College Business Fundamentals Certificate will add to your knowledge base across a range of critical business areas and add a Smeal-specific designation to your University transcript upon completion. If you are in a major that is not business related or if you are in a non-Smeal major with a business option or concentration, this certificate will allow you to pursue your interests outside of Smeal while broadening your undergraduate experience to develop fundamental business skills. Prerequisite courses in accounting, economics and statistics will lay the foundation for the core courses in management, marketing, finance and supply chain. In addition, a business elective in either business law or international business may be chosen. This certificate will help you develop the skills that will be needed in whatever career you choose to pursue.

MORE INFORMATION ABOUT SMEAL COLLEGE OF BUSINESS FUNDAMENTALS (<https://www.smeal.psu.edu/business-certificate/>)

Entrance to Certificate

Students must be enrolled in a non-business baccalaureate program to pursue this certificate.

Program Requirements

To earn an undergraduate certificate in Smeal College Business Fundamentals, a minimum of 15 credits is required.

A grade of C or better is required in all prescribed courses; these courses must be taken at Penn State. Provided that at least three of the five courses are taken in the Smeal College of Business, certificate courses may be satisfied by substituting Penn State courses with comparable content at the same level with the approval of the Smeal College.

Code	Title	Credits
Prerequisite Courses		
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
ECON 102	Introductory Microeconomic Analysis and Policy	3
Select three credits of 200-level statistics		3
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
BA 301	Finance	3
BA 302	Supply Chains	3
BA 303	Marketing	3
BA 304	Management and Organization	3
BLAW 243	Legal Environment of Business	3
or IB 303	International Business Operations	

Certificate Learning Objectives

- **Business Concepts and Processes:** Students will be able to explain key components of business operations and the internal and external influences impacting local, national, and international corporations.
- **Ethically Responsible Business Practices:** The ability to explain social and ethical responsibility as critical components of a successful organization. Students will be able to identify key issues in an ethical business problem, recognize personal biases influencing decisions, and make ethically responsible decisions for society.
- **Problem Solving and Critical Thinking:** The ability to demonstrate problem solving skills using analytical techniques. Students will be able to understand a given business problem, provide solutions using quantitative tools and analytical techniques.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Supply Chain and Information Sciences and Technology, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The minor in SCIST is structured to provide students not majoring in Supply Chain & Information Systems (SC&IS) or Management Information Systems (MIS) with the opportunity to develop working knowledge of information technology, supply chain management, and their interdisciplinary synergies. The joint minor is designed for professional careers in business, information systems, software development, consulting, and government. The successful minor must, at a minimum, possess basic knowledge of quantitative techniques, computer applications, and microeconomics.

What is Supply Chain and Information Sciences and Technology?

Supply Chain and Information Systems encompasses some of the largest employment sectors in the U.S. economy and offers advancement opportunities in countries around the world, along with excellent salaries. U.S. News and World Report Career Guide and Working Woman magazines have cited this area as a hot career track. Companies seeking students in this area represent: the services sector, which includes consulting, third-party logistics, transportation, warehousing, and retailing; the manufacturing sector, especially the computer, aerospace, pharmaceutical, electronics, petrochemical, auto, food, and consumer products industries; and the government sector, primarily at the federal and state levels.

Supply Chain and Information Systems, B.S.

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

The Supply Chain and Information Systems major concentrates on the management of value-creating supply chain networks that modern business enterprises use to acquire, produce, and deliver goods and services all over the world and on information technology as the key enabler of supply chain integration. Students learn how to analyze and design supply chains and manage core business processes including (1) sourcing and procuring raw materials, (2) manufacturing and service operations, and (3) planning and fulfilling customer demand. Students also develop knowledge, skills, and abilities in the information systems area, including information processing, databases, information systems design and analysis, and supply chain technologies.

Graduates are well-prepared for careers in the supply chain and information systems area in both industry and government, including manufacturing, service, technology, and merchandising companies, third-party logistics providers, transport system enterprises, consulting firms, and government agencies.

More information about the broad range of career opportunities is available at <http://www.smeal.psu.edu/scis/recruit> (<http://www.smeal.psu.edu/scis/recruit/>).

What is Supply Chain and Information Systems?

Supply Chain and Information Systems (SCIS) is a boundary-spanning field of supply chain networks. A supply chain encompasses business functions and enterprises interconnected by resource flows of goods, services, information, and funds. Supply chain management spans these interconnected networks to acquire, produce, and deliver goods and services in our global economy.

Students selecting the SCIS major develop excellent knowledge and skills in three critically important areas:

- Core flow functions, which include source, make, deliver, and return.
- The role of information systems as the critical enabler for integrating supply chains.
- The cross-functional planning perspectives that span core functions, customer relationships, post-sales support, and new product design and launches.

SCIS emphasizes real world content and exposure to best practices from internships, case studies, visiting business leaders, industry partnerships, company-sponsored research projects, study abroad opportunities, and professional development workshops.

MORE INFORMATION ABOUT SUPPLY CHAIN AND INFORMATION SYSTEMS (<https://undergrad.smeal.psu.edu/majors/supply-chain-information-systems/>)

Entrance to Major

To be eligible for entrance into the Supply Chain and Information Systems (SC&IS) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

Administrative Enrollment Controls

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2024, Fall 2024, Spring 2025

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- 36-59 graded Penn State credits (excludes transfer and AP credits)
- completed with a grade of C or better:
 - English - ENGL 15 or ENGL 30H or ESL 15 or ENGL 137H or CAS 137H
 - Mathematics - MATH 110 or MATH 140 or MATH 140B
 - Statistics - SCM 200 or SCM 200H or STAT 200
- completed ECON 102 or ECON 102H
- completed at Penn State (no substitutions or transfers), in addition with a quality grade of "C" or better and no alternative or Pass/Fail (PS) grading:

- Accounting - ACCTG 211 or ACCTG 211H
 - Management - MGMT 301 or MGMT 301H or MGMT 301M or MGMT 301W
 - Marketing - MKTG 301 or MKTG 301H or MKTG 301W
 - Finance - FIN 301 or FIN 301H
- earned a minimum cumulative grade-point average (GPA) of 3.00

Students Who Entered Prior to Summer 2024

Students who entered the University from Summer 2018 through Spring 2024 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (<https://bulletins.psu.edu/undergraduate/archive/>). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

Degree Completion

Students accepted into the Supply Chain and Information Systems major are expected to enroll at University Park the fall semester after gaining entrance to the major. In addition, Senate Policy 83-80.5 stipulates that the college dean and program faculty may require up to 24 credits of course work in the major to be taken in the college where the degree is earned. Based on this policy, the Smeal College of Business has set the following credit earning limitations for SCIS majors:

1. Fifteen credits of 300/400 level prescribed and additional courses in the major field must be completed with Supply Chain and Information Systems faculty at University Park.
2. Nine additional credits of 300/400 level related and supporting courses must also be completed at University Park. See the Supply Chain and Information Systems Suggested Academic Plan for details.

Degree Requirements

For the Bachelor of Science degree in Supply Chain and Information Systems, a minimum of 120 credits is required with at least 15 credits at the 400 level:

Requirement	Credits
General Education	45
Electives	14
Requirements for the Major	73

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses (ENGL 202D); 6 credits of GQ courses (MATH 110 or MATH 140 and SCM 200 or STAT 200); 3 credits of GS courses (ECON 102).

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Additional Courses: Require a grade of C or better

MATH 110 or MATH 140	Techniques of Calculus I Calculus With Analytic Geometry I	4
SCM 200 or STAT 200	Introduction to Statistics for Business Elementary Statistics	4

Supporting Courses and Related Areas

Attainment of 12th-credit-level proficiency in a single world language. 4
Proficiency must be demonstrated by either examination or coursework.

Select 3 credits of related coursework. See Department List.	3
Select 6 credits of supporting coursework See Department List.	6

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Supply Chain and Information Systems, B.S. at University Park Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
PSU 6	1 MGMT 301 ^{1,2}	3
(MATH 110 or MATH 140) or (SCM 200 or STAT 200) (GQ) ^{1,2}	4 (SCM 200 or STAT 200) or (MATH 110 or MATH 140) (GQ) ^{1,2}	4

General Education Course ⁴	3 Business Breadth Course ⁵	3
General Education Course (N) ⁴	3 General Education Course ⁴	3
Elective ⁴	2 Elective ⁴	3
	14	15

Total Credits 120

¹ Course requires a grade of C or better

² Entrance-to-Major Course – complete prior to attaining 59 cumulative credits at Penn State

³ Attain 12th credit level proficiency in a world language (0-12 credits). Credits required vary based on predetermined skill level. Balance of remaining credits are taken as electives. American Sign Language does not satisfy the Smeal College world language requirement.

⁴ When planning general education and elective courses, students should factor in the following requirements:

- 3 credits of United States Culture (US)
- 3 credits of International Culture (IL)
- 6 credits of Inter-Domain (N) coursework

⁵ See the Business Breadth Course list on the Smeal College website.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain

attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

All incoming Schreyer Honors College first-year students at University Park will take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and satisfy a portion of that General Education requirement. If the student's program prescribes GWS these courses will replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

College and Department Notes:

- The Smeal College of Business requires that the following entrance-to-major courses be taken at Penn State: ACCTG 211, MGMT 301, MKTG 301, and FIN 301.
- Pursuant to the Association to Advance Collegiate Schools of Business (AACSB) accreditation standards, the Smeal College of Business requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

Supply Chain and Information Systems, B.S. at Commonwealth Campuses

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. Career Paths

Students majoring in Supply Chain and Information Systems (SCIS_BS) gain knowledge, skills, and expertise to manage multiple facets of organization and businesses. Students have access to the Center for Supply Chain Research (CSCR), which provides opportunities for student research with over 35 companies. In addition, the CSCR sponsors a Spring and Fall Career Fair, which boasts over 6,000 total student/recruiter interactions between the five career fair days held during the academic year.

SCIS_BS graduates have opportunities to work in fields including production, logistics, transportation, and more. The SCIS Department at Smeal provides a dedicated job placement services office for students. Companies recruiting majors represent both the services sector (consulting, retail, and health care industries) and the manufacturing

sector (computer, aerospace, pharmaceutical, electronics, petrochemical, auto, food, and consumer products industries).

Accreditation

The Smeal College of Business B.S. degree in Supply Chain and Information Systems (SCIS_BS) is recognized by the AACSB (Association to Advance Collegiate Schools of Business) as an accredited program after completing a meticulous internal review and meeting all AACSB standards and requirements.

Supply Chain and Information Systems, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Supply Chain and Information Systems (SC&IS) minor is not open to SC&IS major (Smeal) and PSCM majors (Behrend and Capital).

The Supply Chain and Information Systems (SC&IS) minor is structured to provide the student with a working knowledge of the discipline and to complement a student's major field of study. The SC&IS minor provides exposure to core supply chain processes, methods, and techniques and to directly related enabling enterprise system technologies. Students completing the SC&IS minor can apply their expanded knowledge in both manufacturing and service sectors of the economy.

The SC&IS minor is offered on-line through World Campus. SC&IS contains World Campus sections of MIS 404, SCM 445 and SCM 465 that contain SAP-specific topics necessary for the minor. Planning and course selection is important in order to earn proper credit in the SAP-specific courses.

What is Supply Chain and Information Systems?

Supply Chain and Information Systems (SCIS) is a boundary-spanning field of supply chain networks. A supply chain encompasses business functions and enterprises interconnected by resource flows of goods, services, information, and funds. Supply chain management spans these interconnected networks to acquire, produce, and deliver goods and services in our global economy.

Program Requirements

Requirement	Credits
Requirements for the Minor	18

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
SCM 301	Supply Chain Management	3
SCM 404	Demand Fulfillment	3
SCM 406	Strategic Procurement	3
SCM 445	Operations Planning and Control	3
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
Select 6 credits of the following:		6
MIS 404	Introduction to ERP and Business Processes	
SCM 460	Purchasing and Materials Management	
SCM 465	Electronic Business Management	

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

University College

About the College

Rick Brazier, Interim Dean of University College, Senior Associate Dean for Faculty and Research

University College consists of 14 campuses distributed throughout the Commonwealth. As a land-grant institution, Penn State is committed to providing the citizens of Pennsylvania convenient access to a high-quality education at a campus near them. Many of the more than 10,000 students attending classes at a University College campus will choose to remain at their campus of admission for all four years to complete one of the 18 baccalaureate programs the College offers in a wide variety of academic disciplines, including business, engineering, nursing, the social sciences, the natural sciences, and the humanities. In addition, several campuses offer a variety of professionally-accredited associate programs in the health sciences. Other students starting at a University Campus transition to a second campus after their first two years to complete their selected program of study.

Mission and Goals

University College realizes the University's commitment to educating a diverse and ever-changing demographic of learners, a responsibility at the forefront of the campus mission. It provides a high-quality and innovative Penn State undergraduate education to prepare students for a life of professional success, personal fulfillment, and social engagement. Campuses have an impact that extends beyond their educational mission. They contribute to the educational attainment and local economies of the communities they serve.

Campuses

Penn State Beaver

Penn State Beaver serves a diverse population of approximately 700 students and offers a relaxed environment with baccalaureate degrees, on-campus housing, and varsity sports — all just 35 miles northwest of Pittsburgh.

MORE INFORMATION ABOUT PENN STATE BEAVER (<https://beaver.psu.edu/>)

Penn State Brandywine

Penn State Brandywine, located near Philadelphia, provides the charm and intimacy of a small campus and the resources of a major research university. The campus offers baccalaureate degrees, undergraduate research, internships, global programs, intercollegiate athletics and a variety of student clubs. Students live in on-campus housing or commute to campus from nearby communities.

MORE INFORMATION ABOUT PENN STATE BRANDYWINE (<https://www.brandywine.psu.edu/>)

Penn State DuBois

Penn State DuBois is a small, commuter-based campus that offers cutting-edge technology, faculty expertise, and dedication to excellence. The campus has about 600 students and is located near I-80 in north central Pennsylvania.

MORE INFORMATION ABOUT PENN STATE DUBOIS (<https://dubois.psu.edu/>)

Penn State Fayette

Penn State Fayette, The Eberly Campus, offers bachelor's and associate degrees to about 700 students. Its beautiful 100-acre campus in Pennsylvania's Laurel Highlands is the former site of an 1800's-era farmstead.

MORE INFORMATION ABOUT PENN STATE FAYETTE (<https://fayette.psu.edu/>)

Penn State Greater Allegheny

At Penn State Greater Allegheny, about 600 students enjoy the suburban environment and the neighboring city life in Pittsburgh. The campus offers residence halls, a diverse student body, athletics, and more.

MORE INFORMATION ABOUT PENN STATE GREATER ALLEGHENY (<https://greaterallegheny.psu.edu/>)

Penn State Hazleton

At Penn State Hazleton, about 800 students enjoy a residential campus located in the heart of the Pocono Mountains in northeastern Pennsylvania. Students have the opportunity to work and to learn in state-of-the-art classrooms and labs, all the while being centrally located from New York City, Philadelphia, and University Park.

MORE INFORMATION ABOUT PENN STATE HAZLETON (<https://hazleton.psu.edu/>)

Penn State Lehigh Valley

Penn State Lehigh Valley offers world-class education and opportunities both in and out of the classroom to about 900 students on a small campus near Allentown. Students have access to the area's thriving athletic and cultural attractions.

MORE INFORMATION ABOUT PENN STATE LEHIGH VALLEY (<https://lehighvalley.psu.edu/>)

Penn State Mont Alto

Penn State Mont Alto offers a world-class education on an intimate campus that includes an arboretum. The campus enrolls about 950 students, offers residence halls, and is located 30 minutes from Gettysburg and 90 minutes from Washington, D.C. and Baltimore, Md.

MORE INFORMATION ABOUT PENN STATE MONT ALTO (<https://montalto.psu.edu/>)

Penn State New Kensington

Penn State New Kensington offers an array of degrees, undergraduate research, clubs, and athletics to about 650 students. The 72-acre wooded campus is located just 17 miles from Pittsburgh.

MORE INFORMATION ABOUT PENN STATE NEW KENSINGTON (<https://newkensington.psu.edu/>)

Penn State Scranton

Penn State Scranton provides a welcoming environment to about 1,100 students on its campus in northeastern Pennsylvania. The campus strives to provide innovative instruction to help students achieve their potential.

MORE INFORMATION ABOUT PENN STATE SCRANTON (<https://scranton.psu.edu/>)

Penn State Schuylkill

Located in north central Pennsylvania, Penn State Schuylkill is close to cities such as Harrisburg, Philadelphia and New York. The campus has about 800 students and offers a world-class education in a small-town setting.

MORE INFORMATION ABOUT PENN STATE SCHUYLKILL (<https://schuylkill.psu.edu/>)

Penn State Shenango

Located near the Pennsylvania/Ohio border, Penn State Shenango combines quality academics with the personal attention of a small campus. The campus has about 500 students and is committed to serving the people of northwestern Pennsylvania.

MORE INFORMATION ABOUT PENN STATE SHENANGO (<https://shenango.psu.edu/>)

Penn State Wilkes-Barre

Penn State Wilkes-Barre offers the advantages of an intimate campus atmosphere combined with the resources of a major research university. The campus has about 550 students and is located on a scenic estate in northeastern Pennsylvania.

MORE INFORMATION ABOUT PENN STATE WILKES-BARRE (<https://wilkesbarre.psu.edu/>)

Penn State York

Penn State York has about 1,100 students and offers a wealth of stimulating intellectual, cultural, and historically-significant learning experiences in a welcoming, state-of-the-art campus environment in southern Pennsylvania.

MORE INFORMATION ABOUT PENN STATE YORK (<https://www.york.psu.edu/>)

- Supply Chain Management, Certificate
- Youth Development and Social Justice, Certificate

College Procedures

Change of Campus

Students are expected to remain at their campus of admission for the first two years of study. In exceptional situations, a student may request an early change of campus to maintain progress toward degree. The student must obtain approval from the home campus (first) and at the desired campus (second) in order for the change to be processed.

Concurrent Majors

A Concurrent Majors Program is one in which students take courses to concurrently meet the requirements of at least two majors, with graduation for all majors in the program occurring during the same semester. Students should meet with their academic adviser, review academic plans/approvals noted in Starfish and submit requests through LionPATH. Please review Penn State policies below for step by step

instructions. University College will not approve concurrent majors in the following majors: Science/Biology.

MORE INFORMATION ABOUT CONCURRENT MAJORS (<https://undergrad.psu.edu/aappm/M-3-concurrent-and-sequential-majors-program.html>)

READ SENATE POLICY 60-00: COMPLETING MORE THAN ONE UNDERGRADUATE MAJOR PROGRAM (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/60-00-completing-more-than-one-undergraduate-program/#60-00>)

Academic Warning

A student who fails to earn a 2.00 cumulative grade-point average will be placed on academic warning. A student placed on academic warning will have a hold placed on registration and will be required to meet with an academic adviser in order for this registration hold to be removed. The University College campuses support students through programming and individualized advising services. A student must work with an academic adviser to have the registration hold removed. To remove academic warning, the cumulative grade-point average must be 2.00 or higher.

READ SENATE POLICY 54-20: ACADEMIC WARNING (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-20>)

Academic Suspension

A student in academic warning who fails to maintain a semester grade-point average of 2.00 or higher will be academically suspended. A student who has been academically suspended may not schedule courses at the University for two consecutive semesters. (Note: Summer session is equal to one semester.) These students are encouraged to work closely with their advisers or other designated staff to consider the issues that led to their suspension and may apply for re-enrollment as a degree candidate by contacting any campus Registrar's office.

READ SENATE POLICY 54-40: ACADEMIC SUSPENSION (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-40>)

Resources

Credit-by-Portfolio Assessment

Portfolio Assessment is a process that enables students to demonstrate college-level learning from experiences gained outside the classroom. The process of portfolio assessment requires that students demonstrate knowledge equivalent to a particular course. It is the student's responsibility to identify course(s) for which he or she would like to document identification of appropriate courses. University College provides guides for both faculty and staff.

MORE INFORMATION ABOUT CREDIT-BY-PORTFOLIO ASSESSMENT (<https://www.campuses.psu.edu/uc-academic-policies/>)

Course Substitution Request System

Students should visit their advisers to review their academic plan and petition course substitutions via the Course Substitution Request System. Course descriptions and syllabi for course work completed at other institutions may be required.

LOG IN TO THE COURSE SUBSTITUTION REQUEST SYSTEM (<https://csrs.psu.edu/>)

Digital Learning Cooperative

The Digital Learning Cooperative (DLC) allows students to enroll in online, hybrid, and video courses offered by Penn State campuses across the University. Courses shared on the DLC may count toward students' general education program and fulfill requirements in a wide variety of majors. DLC courses available to students will be listed in the Schedule of Courses for their campus.

Pathway to Student Success: Summer Start (PaSSS)

Assists first-time students in making the transition from high school to college. Students selected for the program are eligible to receive scholarships in the first two summers after their high school graduation and are guaranteed a on-campus job to earn money.

MORE INFORMATION ABOUT THE PATHWAY TO SUCCESS: SUMMER START (PASSS) PROGRAM (<https://summerstart.psu.edu/>)

Undergraduate Research

Penn State undergraduates who are presenting the results of their research or creative work at national or regional professional conferences may request financial support to defray the costs of attendance at the conference. If the request is approved, the costs will be equally split among the University College Dean's Office (OVPC), the Office of Undergraduate Education, the campus, and, if applicable, the Schreyer Honors College. The contribution from each partner is capped at \$400 per student. The student must be a conference presenter to be eligible for funding and the presentation must be related to the student's academic program.

Erickson Discovery Grants

The Rodney A. Erickson Discovery Grant Program, named in honor of Penn State's seventeenth President, supports undergraduate student engagement in original research, scholarship, and creative work under the direct supervision of a faculty member. Approximately 60 Erickson Discovery Grants, each in the amount of \$3,500, are available through the Office of Undergraduate Education for summer 2018. Additional grants may be funded through College and/or campus support. The Erickson Discovery Grants are directed to student-initiated projects in the arts, engineering, humanities, sciences, and social sciences that provide experience in all facets of the research, scholarship, or creative processes.

Engineering Summer REU

The Summer Multi-Campus Research Experience for undergraduates (MC REU) occurs during June and July. The MC REU program supports Penn State Undergraduate engineering students to conduct research with Penn State faculty. Selected students will complete their proposal in conjunction with a Penn State faculty member from the student's home campus and a second faculty member at the University Park campus. The objectives of the MC REU are to promote undergraduate students participating in research early in their academic programs; to broaden

their education and increase their chances of entering graduate studies; and to promote awareness and collaboration among faculty across the Commonwealth.

MORE INFORMATION ABOUT THE SUMMER MULTI-CAMPUS RESEARCH EXPERIENCE FOR UNDERGRADUATES (<https://inclusion.engr.psu.edu/research/multi-campus-research-experience.aspx>)

Global Program Student Faculty Funding for International Activities

The University office of Global Programs provides limited funds to support student international travel related to education and research opportunities in any discipline.

MORE INFORMATION ABOUT GLOBAL PROGRAMS TRAVEL GRANTS (<https://global.psu.edu/category/global-programs-travel-grants/>)

CUR Membership

Penn State has an enhanced institutional membership for the Council on Undergraduate Research (CUR). As a result of this enhanced institutional membership, any faculty member, administrator, student, or staff member from any Penn State campus or college may join the CUR at no additional cost to the individual. Membership benefits include a digital subscription to CUR Quarterly, substantial discounts on CUR materials and conferences, access to CUR's online archive of Webinar Recordings and materials, and access to the member's only portion at <https://www.cur.org/>, which includes information on funding opportunities, jobs, and other resources.

Eastern Undergraduate Research Symposium

Penn State's Eastern Regional Campuses' annual Regional Undergraduate Research Symposium communicates and celebrates the participation of undergraduate students from the eastern regional Penn State campuses in their scholarly research endeavors. Undergraduate students who have been selected to represent their local campus will present posters or other exhibits to showcase their work to a general audience. The Symposium is open to the public.

Invent Penn State

Innovation Hubs Across the Commonwealth: LaunchBox's

The Invent Penn State seed grant program provided campuses with grants of \$50,000 to launch or enhance innovation hubs. The impact of these grants is far reaching, with 21 Commonwealth communities now having Invent Penn State-affiliated spaces and programs—free to the community—that will drive innovation and economic growth. The 21 are listed at: <https://invent.psu.edu/programs/pa-innovation-hubs/>.

The Intercollege Minor in Entrepreneurship and Innovation (ENTI)

Because entrepreneurs and innovators exist in all industries and in all types of companies, the ENTI minor appeals to students regardless of their academic discipline. ENTI teaches students foundational skills they will need to succeed in the professional world, including innovative thinking, opportunity recognition, developing budget models, leadership, and project management.

Administration of Justice, B.A.

Begin Campus: Any Penn State Campus

End Campus: DuBois, Fayette, Greater Allegheny, Hazleton, Schuylkill, Wilkes-Barre

PROGRAM CURRENTLY ON HOLD; NOT ACCEPTING NEW STUDENTS
Begin Date of Enrollment Hold: October 5, 2020

Program Description

The Bachelor of Arts degree in Administration of Justice provides students with a broadly based liberal education focused on the understanding and analysis of justice systems. Having grappled with the many dilemmas and controversies presented by the problems of administering justice in a complex society, graduates of this program are given the background to be educated, thoughtful, and intelligent citizens.

What is Administration of Justice?

As we continue the journey deeper into the twenty-first century, society is facing the serious social problem of effectively addressing crime in a rapidly changing world. Administration of Justice focuses on the inter-related components of the criminal justice system, public and private sector enforcement, legal systems, correctional treatment and community services. Students achieve a liberal arts education, including competency in world language. There is a focus on the development of critical thinking, written and verbal communication skills necessary to be successful leaders in this and related careers. Students engage in classroom instruction, individual study and possible field experience.

You Might Like This Program If...

- You enjoy communicating with others.
- You are an analytical thinker.
- You wish to individualize a concentration of coursework.
- You intend to become a practitioner in one of the traditional areas of criminal justice, such as law enforcement or corrections.
- You are looking for an exciting career where no two days are alike.

- You will seek employment in a human service field such as counseling, therapy or rehabilitation.
- You are considering graduate study in Administration of Justice, Public Administration, Legal Studies or other related fields.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Arts degree in Administration of Justice, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	11-15
Bachelor of Arts Requirements	24
Requirements for the Major	43-44

4-7 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 0-3 credits of GH courses; 4 credits of GQ courses.

3 of the 24 credits for Bachelor of Arts Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits

CRIMJ 497	Special Topics

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 6 credits, in consultation with adviser, from University-wide offerings according to student's career plan 6

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3

credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

Greater Allegheny Campus

1. **Know Structure:** Demonstrate understanding around the history, structure and function of the three branches of criminal justice (Courts, Law Enforcement, Corrections).
2. **Know Context:** Demonstrate understanding around the relationship between culture, social class, race and ethnicity, gender and sexuality and criminal justice involvement.
3. **Know and Use Theory:** Demonstrate understanding of core theories in criminology and the sociology of deviance and their relevance to different types of offenses and offenders.
4. **Think Critically:** Demonstrate ability to solve criminal justice problems through an understanding of context, the identification of appropriate evidence, and appreciation of potential barriers and limitations.
5. **Do Research:** Demonstrate ability to formulate research questions, implement basic quantitative and qualitative research methods, collect and analyze limited data.
6. **Communicate:** Demonstrate ability to effectively communicate practical and theoretical criminal justice issues through papers, posters, and oral presentations.

Wilkes-Barre Campus

1. Students will be able to have a basic understanding of the nature of the three branches of the Criminal Justice System (Legal, Law Enforcement, Corrections).
2. Students will be able to have developed critical thinking skills to understand and to formulate solutions to problems relating to criminological issues.
3. The students will have developed a core of criminological knowledge and concepts which will help them understand the functioning of and issues relevant to the criminal justice system.
4. Students will be able to understand and apply theories of criminal and deviant behavior, and the behavior of law.
5. Students will be able to read and correctly interpret Criminal Justice research and data.
6. Students will be able to understand the relationship between culture, social class and criminal justice.
7. Students will be able to communicate criminological issues effectively and deliver written and/or oral presentations.
8. Students will be able to demonstrate knowledge and application skills regarding the fact that the criminal justice professional must operate in a climate of tolerance and respect where opposing viewpoints can be exchanged openly.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary

academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

¹ Additional CRIMJ courses: Select 18 credits in CRIMJ courses, with at least 9 credits at the 400-level.

² Major supporting courses: Select 6 credits, in consultation with adviser. Recommended options include psychology courses (e.g., abnormal forensic), HDFS courses (e.g., courses on developmental or family problems), IST or SRA security courses, and/or internship (CRIMJ 495).

³ Students must complete the 12th credit level in a second language. Credits vary based on skill level.

⁴ Students typically need 12 - 18 elective credits

Administration of Justice, B.A. at Schuylkill Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 123-124

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies (either Inter-domain or Linked Courses)

Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

Administration of Justice, B.A. at Wilkes-Barre Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

This major helps students prepare for a variety of challenging careers through a combination of professional and individualized liberal arts coursework, emphasizing the underlying sociological aspects of criminal justice, in addition to options for graduate study and continued education.

Careers

Graduates in the Administration of Justice program find an array of career opportunities in federal, state, and local law enforcement and correction agencies, probation and parole services, community crime prevention and treatment services, and private sector security. Many opportunities are available in juvenile and drug rehabilitation counseling, recreation programs, forestry settings, and other sites. Career opportunities, which are expanding rapidly, offer a good salary, excellent job security, and extensive possibilities for advancement.

Opportunities for Graduate Studies

The degree also provides you with an excellent opportunity for graduate school, including masters or doctorate programs in law, criminology, human development, psychology, and the social sciences. Students also participate in original research, which provides experience designed to assist you in determining your career goals.

Administration of Justice, B.S.

Begin Campus: Any Penn State Campus

End Campus: Beaver, DuBois, Fayette, Greater Allegheny, Hazleton, New Kensington, Schuylkill, Shenango, Wilkes-Barre

PROGRAM CURRENTLY ON HOLD; NOT ACCEPTING NEW STUDENTS

Begin Date of Enrollment Hold: October 5, 2020

Program Description

The Bachelor of Science degree is intended to prepare students for careers in the administration of justice. Two emphases are provided:

1. for students interested in entry-level employment in justice agencies;
2. for students interested in academic or research positions and who may seek graduate education before beginning employment.

What is Administration of Justice?

As we continue the journey deeper into the twenty-first century, society is facing the serious social problem of effectively addressing crime in a rapidly changing world. Today's students are tomorrow's front line protectors and policy makers who balance the philosophies of crime control and due process. To be successful, practitioners, managers, and administrators in the criminal justice field must demonstrate a mastery of interdisciplinary knowledge and skills. Administration of Justice focuses on the interrelated components of the criminal justice system, public and private sector enforcement and investigation, legal systems, correctional treatment, and community services and on the development of critical thinking, written and verbal communication skills necessary to be successful leaders in this and related careers. Students engage in classroom instruction, research and experiential learning which prepare them for ethical leadership, global citizenship and engaged service.

You Might Like This Program If...

- You enjoy communicating with others.
- You are an analytical thinker.
- You are interested in the law and in social issues.

- You are interested in gaining invaluable professional experience through an internship within a criminal justice agency.
- You intend to become a practitioner in one of the traditional areas of criminal justice, such as law enforcement or corrections.
- You will seek employment in a supportive field such as counseling, forensics, data analysis, therapy and rehabilitation.
- You are considering graduate study in Administration of Justice, Public Administration, Legal Studies or other related fields.
- You are looking for an exciting career where no two days are ever the same.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Administration of Justice, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	14-18
Requirements for the Major	64-65

4-7 of the 45 credits for General Education are included in the Requirements for the Major. This includes; 0-3 credits of GH courses; 4 credits of GQ courses.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits

CRIMJ 435	Border Security
CRIMJ 439	The Politics of Terrorism
CRIMJ 441	The Juvenile Justice System
CRIMJ 450W	Senior Seminar

CRIMJ 460	History and Function of Criminal Justice Components
CRIMJ 462	Comparative Criminal Justice Systems
CRIMJ 467	Law and Society
CRIMJ 469	Drugs and Drug Policy in the United States
CRIMJ 471	Legal Rights, Duties, Liabilities of Criminal Justice Personnel
CRIMJ 473	Criminal Procedure and Evidence in the Business Community
CRIMJ 482	Seminar, Criminal Justice Agency Administration
CRIMJ 489W	Victimology: Predatory Crime
CRIMJ 497	Special Topics

Emphasis

Select an emphasis	15
Field Research:	
CRIMJ 240W	Field Research in the Criminal Justice
CRIMJ 290	Introduction to Internship Experience
CRIMJ 494	Research Topics
CRIMJ 495	Internship in Criminal Justice
Research and Policy Analysis:	
Select 15 credits with at least 6 at the 400 level of the following:	
AMST 491W	American Studies Perspectives
CRIMJ 424W	Drugs and Crime
Any CMPSC	
ECON 104	Introductory Macroeconomic Analysis and Policy
LER 100	
LST 370	Research Methods for Law and Government Information Resources
PLSC 2	
PLSC 419	The Bureaucratic State
PLSC 490	Policy Making and Evaluation
SOC 409	Racial and Ethnic Inequality in America
SOC 419	Race and Public Policy
SOC 422	World Population Diversity
SOC 423	Social Demography

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 12 credits, in consultation with adviser, from University-wide offerings according to student's career plan 12

¹ Some of the courses in this category may have prerequisites that are not included in the major.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- **United States Cultures:** 3 credits
- **International Cultures:** 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

Beaver, New Kensington, and Shenango Campuses

1. Students will be able to have a basic understanding of the nature of the three branches of the Criminal Justice System (Legal, Law Enforcement, Corrections).
2. Students will be able to apply analysis and evaluation strategies specific to criminal justice/criminology to formulate solutions to criminological problems.
3. The students will have developed a core of criminological knowledge and concepts which will help them understand the functioning of and issues relevant to the criminal justice system.
4. Students will be able to understand and apply theories of criminal and deviant behavior, and the behavior of law.
5. Students will be able to read and correctly interpret Criminal Justice research and data.
6. Students will be able to understand the relationship between culture, social class and criminal justice.
7. Students will be able to communicate criminological issues effectively and deliver written and/or oral presentations.
8. Students will be able to demonstrate knowledge and application skills regarding the fact that the criminal justice professional must operate in a climate of tolerance and respect where opposing viewpoints can be exchanged openly.
9. Students will be able to show professionalism, interact appropriately with colleagues, uphold professional ethical principal, and work ethically, as part of their internships, consistent with professional standards and practices.

Fayette Campus

1. Recognize the major components of the Criminal Justice System and describe the purpose of each component (Policing, Courts, Corrections)
2. Demonstrate the ability to apply field research methods to the discipline.
3. Understand crime and criminal justice theories relevant to criminology.
4. Identify current issues relating to crime and criminal justice.
5. Understand how the criminal justice system fits within the larger social science field.

Greater Allegheny Campus

1. **Know Structure:** Demonstrate understanding around the history, structure and function of the three branches of criminal justice (Courts, Law Enforcement, Corrections).
2. **Know Context:** Demonstrate understanding around the relationship between culture, social class, race and ethnicity, gender and sexuality and criminal justice involvement.

3. **Know and Use Theory:** Demonstrate understanding of core theories in criminology and the sociology of deviance and their relevance to different types of offenses and offenders.
4. **Think Critically:** Demonstrate ability to solve criminal justice problems through an understanding of context, the identification of appropriate evidence, and appreciation of potential barriers and limitations.
5. **Do Research:** Demonstrate ability to formulate research questions, implement basic quantitative and qualitative research methods, collect and analyze limited data.
6. **Communicate:** Demonstrate ability to effectively communicate practical and theoretical criminal justice issues through papers, posters, and oral presentations.

Hazleton Campus

Students should demonstrate an understanding of the following:

1. Contemporary criminal justice system, major systems of social control and their policies and practices; victimology; juvenile justice; comparative criminal justice; ethics in criminal justice.
2. Women as victims and offenders; race, ethnicity and minority group status in relation to the criminal justice system.
3. History, theory, practice and legal environment, development of correctional philosophy, incarceration, diversions, community-based corrections, treatment of offenders, alternatives to incarceration.
4. The nature and causes of crime and deviance, typologies, offenders, and victims.
5. Criminal law, criminal procedures, prosecution, defense, and court procedures and decision-making.
6. History, theory, practice and legal environment of policing, police organization, discretion, and subculture.
7. Qualitative and Quantitative methodologies-including statistics-and methods for conducting and analyzing criminal justice research in a manner appropriate for undergraduate degree students.

Schuylkill and Wilkes-Barre Campuses

1. Students will be able to have a basic understanding of the nature of the three branches of the Criminal Justice System (Legal, Law Enforcement, Corrections).
2. Students will be able to have developed critical thinking skills to understand and to formulate solutions to problems relating to criminological issues.
3. The students will have developed a core of criminological knowledge and concepts which will help them understand the functioning of and issues relevant to the criminal justice system.
4. Students will be able to understand and apply theories of criminal and deviant behavior, and the behavior of law.
5. Students will be able to read and correctly interpret Criminal Justice research and data.
6. Students will be able to understand the relationship between culture, social class and criminal justice.
7. Students will be able to communicate criminological issues effectively and deliver written and/or oral presentations.
8. Students will be able to demonstrate knowledge and application skills regarding the fact that the criminal justice professional must operate in a climate of tolerance and respect where opposing viewpoints can be exchanged openly.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Administration of Justice, B.S. at Beaver Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

¹ Additional CRIMJ courses: Select 18 credits in CRIMJ courses, with at least 9 credits at the 400-level.

² Major supporting courses: Select 12 credits, in consultation with adviser. Recommended options include psychology courses (e.g., abnormal forensic), HDFS courses (e.g., courses on developmental or family problems), IST or SRA security courses, and/or internship (CRIMJ 495).

³ Values and Ethics course: Needs 3.0 credits. Course List: BA 243

⁴ Students typically need 12- 18 elective credits

Administration of Justice, B.S. at DuBois Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies (either Inter-domain or Linked courses) (6 credits).

Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

Career Paths

Administration of Justice helps students prepare for a challenging career through this unique combination of theory and application, emphasizing the underlying sociological aspects of criminal justice. Graduates of Administration Justice find an array of career opportunities in addition to options for graduate study and continued education.

Careers

Administration of Justice graduates provide career opportunities in federal, state, and local law enforcement and correction agencies, probation and parole services, community crime prevention and treatment services, and private sector security. Many opportunities are available in juvenile and drug rehabilitation counseling, recreation programs, forestry settings, and other sites. Career opportunities, which are expanding rapidly, offer a good salary, excellent job security, and extensive possibilities for advancement.

Opportunities for Graduate Studies

The degree also provides you with an excellent opportunity for graduate school, including masters or doctorate programs in law, criminology, human development, psychology, and the social sciences. Students also participate in original research, which provides experience designed to assist you in determining your career goals.

American Studies, B.A. (University College)

Begin Campus: Any Penn State Campus

End Campus: Brandywine

Program Description

This interdisciplinary major is designed to provide students with an integrated and critical knowledge of American culture, drawing on courses in American Studies and in the traditional disciplines and culminating in two senior seminars. A number of interests may be pursued within the major, including popular culture, art, technology, business, law, archives, museology, and conservation. The major helps prepare students for careers in business, teaching, government, and a

number of other areas, and for enrollment in law and other professional programs.

What is American Studies?

American Studies examines the country's history in a way that emphasizes culture – literature, art & architecture, film, folklore, music, and media. While discovering America's past, students learn to think critically – to analyze and evaluate information; to write and speak clearly and expressively; and to conduct research.

You Might Like This Program If...

- You enjoy pop culture and wonder what social and historical forces helped shape it.
- You like making connections between history, society, economics, literature, film, and art.
- You want to understand the American experience beyond just what is relayed in a history text.
- You want to explore the experiences of women, minorities, and different ethnic and religious groups.
- You want to pursue a career in education, law, government, museums, cultural agencies, archives, public policy, or communications.

Entrance to Major

For entrance into the major, the following must be met:

1. At the end of the sophomore year, any student in good standing may gain entrance into the major without having completed specific courses.
2. Any student seeking entrance during the fifth semester will be granted entrance at the discretion of the American Studies Committee and/or Director following evaluation of the student's record.
3. Any student seeking entrance during or after the sixth semester will be expected to have completed at least 12 credits, which may be counted toward the major in American Studies.

Degree Requirements

For the Bachelor of Arts degree in American Studies, a minimum of 123 credits is required:

Requirement	Credits
General Education	45
Electives	21
Bachelor of Arts Degree Requirements	24
Requirements for the Major	33

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
AMST 491W	American Studies Perspectives	6
Additional Courses		
<i>Additional Courses: Require a grade of C or better</i>		
AMST 100 or AMST 100Y	Introduction to American Studies Introduction to American Studies	3
Supporting Courses and Related Areas		
<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Select 9 credits in each of two of the following areas and 6 credits in one other of the areas (include 12 credits at the 400 level distributed in at least two of the areas):		
American literature		
American history		
American art, philosophy, and religion (humanities)		
American social sciences		

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN,** may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

- Gain knowledge of American culture and politics, past and present, including multiple representations of national identity.
- Employ and inter-relate disciplines of history, literature, philosophy, social sciences, humanities, and the arts, within both individual courses and the major as a whole.
- Draw upon the social and historical resources of students' immediate worlds, in their homes and in the Delaware Valley.
- Gain awareness of difference and commonality of race, class, and gender.
- Position United States experience within the wider hemisphere and world.
- Develop skills of critical observation, research, analysis, and writing.
- Bridge the gap between academic and larger worlds by and through community engagement, internships, and job-market preparedness.
- Students should have improved writing skills and greater awareness of American history, politics and culture. They should also have a better understanding of research skills connected to American Studies and related areas.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

¹ AMST 491W, the capstone course of the major, is taken twice with different topics; it also satisfies Penn State's Writing Across the Curriculum (W) requirement. Offered every semester, it may ordinarily be taken from the junior year on depending on student's choice of topics.

Career Paths

The American Studies program benefits from Penn State Harrisburg's location in a capital region in close proximity to internationally known heritage sites such as the Gettysburg Battlefield, National Civil War Museum, and U.S. Army Heritage and Education Center. Harrisburg is also home to the Pennsylvania Historical and Museum Commission, the State Archives, and the State Museum.

Careers

American Studies majors at Penn State Harrisburg have opportunities to gain a core set of skills in writing, presentation, exhibition, website development, digital documentation, fieldwork and ethnography, and records and cultural resource management in addition to contextual knowledge of American culture, society, arts, and history that can be applied to a number of occupations, particularly in heritage, communications, education, and government sectors. At Penn State Harrisburg, certificates (heritage and museum practice, folklore and ethnography), internships, assistantships, professional workshops, career

services, alumni interaction, social media, and online job postings serve to enhance the marketability of majors at various levels.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE AMERICAN STUDIES PROGRAM (<https://harrisburg.psu.edu/humanities/american-studies-ba/career-opportunities/>)

Opportunities for Graduate Studies

The American Studies major at Penn State Harrisburg prepares students for a variety of professions and to participate in the world as critical thinkers, clear communicators, and global citizens, including Penn State's Master of Arts in American Studies and the Doctor of Philosophy in American Studies programs.

Arts Administration, B.A.

Begin Campus: Any Penn State Campus

End Campus: Lehigh Valley

PROGRAM CURRENTLY ON HOLD; NOT ACCEPTING NEW STUDENTS

Begin Date of Enrollment Hold: June 7, 2021

Program Description

The Penn State Behrend Arts Administration program is intended for students with an interest in the arts and a desire to pursue careers in the administration or management of arts organizations such as museums, theatre companies, orchestras and choruses. The program combines a broad exposure to the arts with significant training in management, marketing, event planning, strategic planning, writing, development, and digital communication.

The interdisciplinary Arts Administration program answers the growing need for leaders and administrators of arts organizations that must compete, survive, and thrive in a corporate world. Recognizing that these organizations have missions that are different from business corporations, the Arts Administration program aims to produce capable arts administrators, managers, and entrepreneurs with both aesthetic sensibilities and business acumen. Successful arts administration is crucial to the continued vitality of modern cultural institutions, creative enterprises, and arts organizations. If the public is to benefit, skilled arts administrators must facilitate the work of artists to realize their artistic vision and share it with the public, by executing the necessary financial, legal, and organizational decisions. In short, talented arts administrators are partners in a collaborative artistic process. The major includes the following options:

Digital Media Option

Available at the following campuses: *Lehigh Valley*

Emphasizes design and social media engagement, so that a student may create and manage online content for cultural organizations. Students develop proficiency in web writing, image editing, layout, and communication-based advertising.

Marketing Option

Available at the following campuses: *None*

Provides a business core for careers that emphasize fiscal planning with arts organizations. The coursework includes statistics, marketing research, and services marketing which is specific to arts and cultural organizations.

What is Arts Administration?

The arts enrich our lives with moments of beauty, humor, surprise, and delight. But the arts are also a business, and like any business, arts organizations need competent, confident professionals who can manage resources and maximize opportunities. Arts administration combines broad exposure to the arts with intensive training in marketing, management, event planning, and development to produce capable arts administrators, managers, and entrepreneurs with both aesthetic sensibility and business acumen.

You Might Like This Program If...

- Your happy places are museums, art galleries, theatres, opera houses, orchestra pits, auction houses, and dance studios.
- You envision a career in the arts, but are not interested in the unpredictability of a performing or studio art career.
- You like the idea of combining a liberal arts degree with business education.

Entrance to Major

Students must earn C or better in ARTH 111 or ARTH 112, MUSIC 5, THEA 105 to be eligible for entrance to the major.

Degree Requirements

For the Bachelor of Arts degree in Arts Administration, the Marketing Option requires a minimum of 124 credits and the Digital Media Option requires a minimum of 126 credits:

Requirement	Credits
General Education	45
Bachelor of Arts Degree Requirements	24
Requirements for the Major	72-73

15-18 of the 45 credits for General Education are included in the Requirements for the Major. This includes 6 credits of GA courses; 3-6 credits of GQ courses; 3 credits of GS courses, 3 credits of GWS courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned.

Requirements for the Major

Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
BA 241	Legal Environment of Business	2
ECON 102	Introductory Microeconomic Analysis and Policy	3
ENGL 202D	Effective Writing: Business Writing	3

<i>Supporting Courses and Related Areas: Require a grade of C or better</i>		
Select 3 credits from a program-approved list of 400 level courses in Marketing		3

¹ ARTH 111, ARTH 112, MUSIC 8, and THEA 102 require a grade of C or better per course for teacher certification.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses**. This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or

beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

- Students will demonstrate skills in effective written and oral communication
- Students will know institutional structures and explain the operation of an arts organization.
- Students will explain the role of arts organizations in their communities and society at large.
- Students will design and execute a successful arts event.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ Students must demonstrate or complete the third level of proficiency in one world language

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Career Paths

Based on your career goals, you'll choose one of three modules within the program—Music, Theatre, or Visual Arts—as an area of concentration for your coursework. From there, you'll pick one of two options for further skills development, Digital Media or Marketing.

Careers

There are more than 100,000 arts organizations in the United States, all of which require executive directors, gallery and company managers, tour directors, marketing and public relations specialists, social media managers, fundraisers, event planners, volunteer supervisors, and archivists, to list only a few of your career possibilities.

Opportunities for Graduate Studies

A B.A. in Arts Administration can be the starting point for graduate-level education in more specialized fields, including contemporary art markets, public relations, art conservation, cultural management, cultural tourism, museum services, visual arts management, arts education, arts production and technology, or arts marketing.

Biobehavioral Health, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Greater Allegheny, Lehigh Valley, New Kensington

Program Description

This major provides interdisciplinary training designed to integrate biological, behavioral, and social science approaches to the study of human health and illness. Emphasis is placed on the study of physical health. The goal of this major is to help students gain working familiarity with multiple perspectives, approaches, and methods needed to address and solve problems of human health and illness. Students may select courses in the supporting courses category that will fulfill requirements for admission to graduate and professional programs. This major helps prepare graduates for entry-level jobs in a range of biomedical and health-related areas, including roles as research assistants, laboratory managers, biomedical product representatives, technical support positions in biomedical and health-related fields. This major also will

provide excellent preparation for advanced study in natural and social science disciplines and related professional areas such as epidemiology, public health, environmental health and safety, and human services.

What is Biobehavioral Health?

Biobehavioral Health is the integrative scientific study of the many different factors (e.g., biology, psychology, environment) that affect health. The discipline focuses on how these different factors influence health and the development of interventions to improve health outcomes.

You Might Like This Program If...

- You are curious about all aspects of health.
- You want to understand the multiple and layered factors that influence health.
- You like to answer important questions by considering different perspectives, and you like to study information from many disciplines (e.g., biology, psychology, neuroscience, sociology, anthropology).
- You want to pursue a health-related career, whether it be in a laboratory, clinical practice, or consulting capacity.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Biobehavioral Health, a minimum of 121 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	97-99

21-22 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3-4 credits of GQ courses; 9 credits of GN courses; 6 credits of GS courses; 3 credits of GHW courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. BBH requires students to complete 24 credits for the major through courses taken at University Park, Greater Allegheny, New Kensington and through World Campus. For more information, check the Suggested Academic Plan for this major.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
NUTR 251	Introductory Principles of Nutrition	3
<i>Prescribed Courses: Require a grade of C or better</i>		
BBH 101	Introduction to Biobehavioral Health	3
BBH/AFAM 302	Diversity and Health	3
BBH 310	Research Strategies for Studying Biobehavioral Health	3
BBH 311	Interdisciplinary Integration in Biobehavioral Health	3
BBH 316	Foundations and Principles of Health Promotion	3
BBH 411W	Research and Applications in Biobehavioral Health	3
BBH/HPA 440	Principles of Epidemiology	3
BIOL 110	Biology: Basic Concepts and Biodiversity	4
BIOL 161	Human Anatomy and Physiology I - Lecture	3
BIOL 163	Human Anatomy and Physiology II - Lecture	3
PSYCH 100	Introductory Psychology	3
Additional Courses		
Select 3 credits from the following:		3
BBH 210	Biobehavioral Aspects of Genetics	
BIOL 133	Genetics and Evolution of the Human Species	
BIOL 222	Genetics	
Select 3 credits from the following:		3
BBH 301W	Values and Ethics in Biobehavioral Health Research and Practice	
PHIL 110	Philosophy of Science	
PHIL 132/ BIOET 100	Bioethics	
Select 9 credits from the following:		9
ANTH 21	Introductory Biological Anthropology	
ANTH 22	Humans as Primates	
ANTH 216N	Sex and Evolution	
BIOL 155	Introduction to the Biology of Aging	
BIOL 162	Human Anatomy and Physiology I - Laboratory	
BIOL 164	Human Anatomy and Physiology II - Laboratory	
BIOL 220W	Biology: Populations and Communities	
BIOL 230W	Biology: Molecules and Cells	
BIOL 240W	Biology: Function and Development of Organisms	
BIOL 409	Biology of Aging	
BIOL 422	Advanced Genetics	
BMB 211	Elementary Biochemistry	
CHEM 110	Chemical Principles I	
CHEM 111	Experimental Chemistry I	
CHEM 112	Chemical Principles II	
CHEM 113	Experimental Chemistry II	
CHEM 130	Introduction to General, Organic, and Biochemistry	
CHEM 202	Fundamentals of Organic Chemistry I or CHEM 211 (Organic Chemistry I)	
CHEM 203	Fundamentals of Organic Chemistry II or CHEM 213 (Laboratory in Organic Chemistry)	
CHEM 212	Organic Chemistry II	
EARTH 100	Environment Earth	
EARTH 100H	Environment Earth: Environment and Energy	

EARTH 103N	Earth in the Future: Predicting Climate Change and Its Impacts Over the Next Century		
EGEE/MATSE 101	Energy and the Environment		
EGEE 101H	Energy and the Environment		
EGEE 102	Energy Conservation for Environmental Protection		
EGEE 102H	Energy Conservation for Environmental Protection		
EMSC 101	Resource Wars		
FDSC 404	Sensory Evaluation of Foods		
FDSC 405	Food Engineering Principles		
FDSC 406W	Physiology of Nutrition		
FDSC 407	Food Toxins		
FDSC 408	Food Microbiology		
GEOG 110	Climates of the World		
GEOG 110H	Climates of the World		
GEOG 314	Biogeography and Global Ecology		
MICRB 106	Elementary Microbiology		
MICRB 107	Elementary Microbiology Laboratory		
MICRB 201	Introductory Microbiology		
MICRB 202	Introductory Microbiology Laboratory		
PHYS 250	Introductory Physics I		
PHYS 251	Introductory Physics II		
PSYCH 260/ BBH 203	Neurological Bases of Human Behavior		
PSYCH 460	Comparative Psychology		
PSYCH 461	Advanced Conditioning and Learning		
PSYCH 462	Physiological Psychology		
PSYCH 464	Behavior Genetics		
PSYCH 470	Abnormal Psychology		
PSYCH 473	Behavior Modification		
VBSC 211	The Immune System and Disease		
VBSC 230	The Science of Poisons		
VBSC 231	Introduction to Cancer Research and Medicine		
Select 9 credits from the following:		9	
CSD 100	Vocal Health for Life		
CSD 146	Introduction to Communication Sciences and Disorders		
CSD 218	American Sign Language I		
CSD 230	Introduction to Audiology		
CSD 269	Deaf Culture		
HDFS 229	Infant and Child Development		
HDFS 239	Adolescent Development		
HDFS 249N	Adult Development and Aging		
HDFS/WMNST 250	Sexual Identity over the Life Span		
HDFS 302A	Leadership and Technology Skills for Human Services Professionals A		
HDFS 311	Human Development and Family Studies Interventions		
HDFS 315	Family Development		
HDFS 405	Gender and Social Development		
HDFS 416/ SOC 411	Racial and Ethnic Diversity and the American Family		
HDFS 418	Family Relationships		
HDFS 428	Infant Development		
HDFS 429	Advanced Child Development		
HDFS/SOC 431	Family Disorganization: Stress Points in the Contemporary Family		
HDFS 433	Developmental Transition to Adulthood		
HDFS 445/ PSYCH 416	Development Throughout Adulthood		
HPA 57	Consumer Choices in Health Care		
HPA 101	Introduction to Health Services Organization		
HPA 310	Health Care and Medical Needs		
KINES 100	The Cultural and Behavioral Foundations of Kinesiology		
KINES 101	The Biophysical Foundations of Kinesiology		
KINES 203	Medical Terminology for Allied Health Professionals		
KINES 356	Activity and Disease		
KINES 358	Ergogenic Aids		
NURS 401	Concepts of Health		
NURS/BBH/ WMNST 452	Women's Health Issues

NUTR 360	Nutrition Education and Behavior Change Theory		
PSYCH 212	Introduction to Developmental Psychology		
PSYCH 243	Introduction to Well-being and Positive Psychology		
PSYCH 270	Introduction to Abnormal Psychology		
Select 3 credits from the following:		3	
HDFS 129	Introduction to Human Development and Family Studies		
HDFS 229	Infant and Child Development		
HDFS 239	Adolescent Development		
HDFS 249N	Adult Development and Aging		
<i>Additional Courses: Require a grade of C or better</i>			
STAT 200	Elementary Statistics	3-4	
or STAT 250	Introduction to Biostatistics		
Select 3-4 credits from the following:		3-4	
BIOL 230W	Biology: Molecules and Cells		
CHEM 101	Introductory Chemistry		
CHEM 110	Chemical Principles I		
CHEM 110H	Chemical Principles I - Honors		
CHEM 130	Introduction to General, Organic, and Biochemistry		
MICRB 106	Elementary Microbiology		
Select 12 credits from the following (at least 6 credits must be at the 400 level):		12	
BBH 203/ PSYCH 260	Neurological Bases of Human Behavior		
BBH 251	Straight Talks I: Advanced Sexual Orientation/Gender Identity Peer Education		
BBH/AFR 305	Introduction to Global Health Issues		
BBH 315	Gender and Biobehavioral Health		
BBH 324	HealthWorks Peer Education Training		
BBH 325	Health Promotion Services Training		
BBH 368	Neuroanatomy, Behavior, and Health		
BBH 370	Environmental Health and Sustainability		

BBH 390A	Preparation for Global Health Field Experience
BBH 402	African Health & Development
BBH 407	Global Health Equity
BBH 410	Developmental and Health Genetics
BBH 416	Health Promotion II: Planning, Implementation, and Evaluation
BBH 417	Advanced Applications in Health Promotion
BBH 432	Biobehavioral Aspects of Stress
BBH 446	Human Sexuality as a Health Concern
BBH 451	Pharmacological Influences on Health
BBH/WMNST 452	Women's Health Issues
BBH/WMNST 458	Critical Feminist Issues in Reproduction
BBH 468	Neuroanatomical Bases for Disorders of Behavior and Health
BBH/BIOL 469	Neurobiology
BBH/BIOL 470	Functional and Integrative Neuroscience
BBH 490	Introduction to Internship Experience

Supporting Courses and Related Areas

Select 3 credits in health promotion from approved list, in consultation with adviser 3

Select 12 credits in University-wide offerings from approved list, in consultation with adviser (Students may apply 6 credits of ROTC.) 12

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Integrated B.S. in Biobehavioral Health and M.P.H. in Public Health

Requirements for the Integrated B.S. in Biobehavioral Health and M.P.H. in Public Health can be found in the Graduate Bulletin (<https://bulletins.psu.edu/graduate/programs/majors/public-health/#integratedundergradgradprogramstext>).

Program Learning Objectives

- **Critical Evaluation of Research:** Critically evaluate current empirical research on health and disease, explaining implications and limitations to the lay public.
- **Disparity Mechanisms:** Explain how the fundamental processes underlying health and disease can interact to produce individual differences in health, and health disparities among groups.
- **Ethics:** Understand and apply ethical principles in the conduct of research and professional practice and in the analyses in implementations of health-related policies and programs.
- **Health Factors:** Describe and understand the fundamental biological, behavioral, social, cultural and environmental processes that influence health and disease.
- **Promotion/Prevention:** Plan, implement, and evaluate health promotion/disease prevention programs for diverse populations.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

¹ **Supporting Basic Science Course:** 9 credits are required in Supporting Basic Science courses; some courses in this category also satisfy GN requirements. Choose from CHEM 110 GN (3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1) CHEM 202(3) or CHEM 210(3), CHEM 203(3) or CHEM 213(2), CHEM 212(3), MICRB 106 GN(3), MICRB 107 GN(1), MICRB 201 GN(3), MICRB 202 GN(2), PSYCH 260(3), ANTH 021 GN(3), ANTH 022 GN(3), ANTH 216 GN;GS(3), B M B 211(3), BIOL 155 GN(3), BIOL 129 GN(4), BIOL 142(1), BIOL 220W GN(4), BIOL 230W GN(4), BIOL 240W GN(4), BIOL 422(3), BIOL 409(3), BIOL 479(3), EARTH 100 GN(3), EARTH 103N GN(3), EGEE 101 GN(3), EGEE 102 GN(3), EM SC 101 US;IL(3), FD SC 404(3), FD SC 405(3), FD SC 406(3), FD SC 407(2), FD SC 408(3), GEOG 110 GN(3), GEOG 314 GN(3), PHYS 250 GN(4), PHYS 251 GN(4), PSYCH 460(3), PSYCH 461(3), PSYCH 462(3), PSYCH 464(3), PSYCH 470(3), PSYCH 473(3), VB SC 211 GN(3), VB SC 230(3), VB SC 231(3)

² **Supporting Health and Developmental Science Course:** 9 credits are required in Health and Developmental Science courses; some courses in this category also satisfy GS requirements. Choose from Select 9 credits from: CSD 100 GHA;US(3), CSD 146 US;IL(3), CSD 218(3), CSD 230(3), CSD 269 GH;US;IL(3), H P A 057 GHA(3), H P A 101(3), H P A 310(3), HD FS 229 GS(3), HD FS 239 GS(3), HD FS 249 GS(3), HD FS 250 US(3), HD FS 302A(3), HD FS 311(3), HD FS 315 US(3), HD FS 405 US(3), HD FS 416 US(3), HD FS 418(3), HD FS 428(3), HD FS 429(3), HD FS 431(3), HD FS 433(3), HD FS 445(3), HD FS 468(3), KINES 100(3), KINES 101(3), KINES 141 US;IL(3), KINES 180(3), KINES 203(3), KINES 356(3), KINES 358(1), NUTR 111 GH;US(3), NUTR 358(2), NUTR 360(3), PSYCH 212 GS(3), PSYCH 243 GS(3), PSYCH 270(3)

³ **Supporting course from University-wide offerings:** 12 credits are required from University-Wide Offerings; courses must be selected from the department list of approved offerings, in consultation with adviser.

⁴ **Ethics Course:** Choose from BBH 301W, PHIL 100, PHIL 132, RLST 131

⁵ BIOL 133 may be taken instead but students may not take this course if they have already completed BIOL 220W, BIOL 230W, or BIOL 240W.

⁶ 12 credits are required from BBH electives; at least 6 credits must come from 400-level courses. Choose from the list in the bulletin and note that some also require a C or higher grade.

⁷ Select 3 credits in health promotion at 400 level from approved list, in consultation with adviser.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Biobehavioral Health, B.S. at Lehigh Valley Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Biobehavioral Health, B.S. at New Kensington Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
BBH 101 ^{*†}	3 HDFS 129 ^{*†}	3
PSYCH 100 ^{*†}	3 CHEM 110/101/BIOL 230W ^{*†}	3
BIOL 110 ^{*†}	4 NUTR 251 [†]	3
ENGL 15 or 30H [‡]	3 General Education Course or General Quantification	3
General Education Course or General Quantification	3 General Education Course or General Quantification	3
16		15

Second Year

Fall	Credits Spring	Credits

Total Credits 122

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Career Paths

Students with a B.S. in Biobehavioral Health have been successful in establishing careers in a variety of fields. Four example areas of employment include: clinical professions in health care, biomedical and pharmaceutical research support, health advocacy and consulting, and public health. Advanced career tracks may require a graduate or professional degree. Students are encouraged to engage in practical learning experiences that complement formal classroom learning. These can include training at the University Health Services or a hospital, working in a research laboratory, and/or a health-related internship or travel experience. Several engaged learning experience programs available include: BBH Internship program, Global Health minor, BBH research laboratory assistant, Clinical Volunteer Training, and HealthWorks.

Careers

- Examples of careers that BBH graduates might pursue include:
- Clinic Professions in Health care: physician assistant, physician, pharmacist, nurse, health care support staff
- Biomedical and Pharmaceutical Research Support: laboratory manager, study coordinator, research assistant
- Health Advocacy and Consulting: health education specialist, social worker, genetic counselor
- Public Health: public and community health worker, epidemiologist, substance abuse, behavioral disorder, and mental health counselors

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE BIOBEHAVIORAL HEALTH PROGRAM (<https://hhd.psu.edu/bbh/undergraduate/internships-and-career-opportunities/career-areas-major/career-opportunities/>)

Opportunities for Graduate Studies

Depending on your career goals, BBH students might consider completing a graduate degree in biomedical, pharmaceutical or related health services research (e.g., M.S., Ph.D.), a clinical graduate program (e.g., M.D., D.O., P.A., Pharm. D.) or a professional degree in public health, health administration, social work, public policy or administration or law (e.g., M.P.H., M.H.A., M.S.W., M.P.A., M.P.P., J.D.)

Begin Campus: Any Penn State Campus

End Campus: Beaver, Brandywine, Lehigh Valley, Schuylkill, Scranton, York

Program Description

Biology is the scientific study of life: the diversity and organization of organisms, from single-celled bacteria to multi-cellular plants and animals, including humans. These different levels of biological organization range from the molecules and cells that compose an organism, to the interacting organisms that make up an ecosystem. Hands-on experiences, from designing and conducting lab experiments to making field observations, using many different procedures and instruments, play an important role in gaining biological knowledge. Basic research in biology provides many benefits. Faculty in the Department of Biology at Penn State are exploring ways to cure neurological diseases, to conserve coral populations in tropical oceans, to discover more efficient ways to use plants for food and bioenergy, to develop vaccines for infectious diseases, and investigating many other facets of biology, all with the goal of positively impacting humans and the environment.

You Might Like This Program If...

- You are interested in learning about aspects of the biology of organisms that live on Earth.
- You enjoy a dynamic field of study, with new discoveries being made every day.
- You are interested in hands-on experiences, including courses with integrated laboratories and conducting research with faculty.
- You plan to pursue a career in biology research, education or outreach, or attend professional school in areas including medicine and dentistry.

Entrance To Major

In order to be eligible for entrance to the Biology major, a student must have:

1. attained at least a 2.00 cumulative grade point average;
2. completed BIOL 110, CHEM 110, MATH 140, and earned a grade of C or better in each of these courses; and
3. completed at least one of the following courses with a grade of C or better: BIOL 220W, BIOL 230W, or BIOL 240W.

Degree Requirements

For the Bachelor of Science degree in Biology, a minimum of 124 credits is required:

Requirement	Credits
General Education	45
Requirements for the Major	94

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GN courses; 6 credits of GQ courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits
Prescribed Courses		
CHEM 111	Experimental Chemistry I	1
CHEM 113	Experimental Chemistry II	1
MATH 141	Calculus with Analytic Geometry II	4
<i>Prescribed Courses: Require a grade of C or better</i>		
BIOL 110	Biology: Basic Concepts and Biodiversity	4
BIOL 220W	Biology: Populations and Communities	4
BIOL 230W	Biology: Molecules and Cells	4
BIOL 240W	Biology: Function and Development of Organisms	4
CHEM 110	Chemical Principles I	3
CHEM 112	Chemical Principles II	3
MATH 140	Calculus With Analytic Geometry I	4
Additional Courses		
Select one of the following:		8-12
PHYS 211 & PHYS 212 & PHYS 213 & PHYS 214	General Physics: Mechanics and General Physics: Electricity and Magnetism and General Physics: Fluids and Thermal Physics and General Physics: Wave Motion and Quantum Physics	
PHYS 250 & PHYS 251	Introductory Physics I and Introductory Physics II	
Select one of the following:		3-4
STAT 200	Elementary Statistics	
STAT 240	Introduction to Biometry	
STAT 250	Introduction to Biostatistics	

Requirements for the Option

Select an option	46-51
------------------	-------

Requirements for the Option

Ecology Option (46-51 credits)

Available at the following campuses: Altoona, Schuylkill, University Park

Code	Title	Credits
Prescribed Courses		
BIOL 463	General Ecology	3
Additional Courses		
STAT 462 or STAT 464	Applied Regression Analysis Applied Nonparametric Statistics	3
Select one of the following:		6-8
CHEM 202 & CHEM 203	Fundamentals of Organic Chemistry I and Fundamentals of Organic Chemistry II	
CHEM 210 & CHEM 212 & CHEM 213	Organic Chemistry I and Organic Chemistry II and Laboratory in Organic Chemistry	

Groups

Select a minimum of 15 credits of 400-level biology courses, with at least 6 credits from the Ecology group, 3 credits from the Evolution group, and 3 credits from the Practicum group. A maximum of 3 credits of BIOL 400, 494, 495, 496, and SC 295, 395, 495 may be used to fulfill 15 credits minimum in the 400-level biology course requirements.

Ecology Group:		
BIOL 406	Symbiosis	
BIOL 412	Ecology of Infectious Diseases	
BIOL 415	Ecotoxicology	
BIOL 417	Invertebrate Zoology	
BIOL 419	Ecological and Environmental Problem Solving	
BIOL/PPEM 425	Biology of Fungi	
BIOL 429	Animal Behavior	
BIOL 435	Ecology of Lakes and Streams	
BIOL 436	Population Ecology and Global Climate Change	
BIOL 438	Theoretical Population Ecology	
BIOL 444	Field Ecology	
BIOL 446	Physiological Ecology	
BIOL 450W	Experimental Field Biology	
BIOL 464	Sociobiology	
BIOL 474	Astrobiology	
BIOL 482	Coastal Biology	
BIOL 499A	Tropical Field Ecology	
Evolution Group:		
BIOL 405	Molecular Evolution	
BIOL 406	Symbiosis	
BIOL 411	Medical Embryology	
BIOL 414	Taxonomy of Seed Plants	
BIOL 417	Invertebrate Zoology	
BIOL 420	Paleobotany	
BIOL 421	Comparative Anatomy of Vertebrates	
BIOL 422	Advanced Genetics	

BIOL/PPEM 425	Biology of Fungi
BIOL 427	Evolution
BIOL 428	Population Genetics
BIOL 429	Animal Behavior
BIOL 432	Developmental Genetics
BIOL 433	Evolution of Vertebrates
BIOL 434	Pathobiology of Emerging Infectious Disease
BIOL 436	Population Ecology and Global Climate Change
BIOL 438	Theoretical Population Ecology
BIOL 439	Practical Bioinformatics
BIOL 443	Evo-devo: Evolution of Developmental Mechanisms
BIOL 446	Physiological Ecology
BIOL 451	Biology of RNA
BIOL 460	Human Genetics
BIOL 463	General Ecology
BIOL 464	Sociobiology
BIOL 474	Astrobiology
BIOL 478	COMPARATIVE NEUROANATOMY
Practicum Group:	
BIOL 400	Teaching in Biology
BIOL 402W	Biological Experimental Design
BIOL 407	Plant Developmental Anatomy
BIOL 414	Taxonomy of Seed Plants
BIOL 417	Invertebrate Zoology
BIOL 419	Ecological and Environmental Problem Solving
BIOL 421	Comparative Anatomy of Vertebrates
BIOL 422	Advanced Genetics
BIOL/PPEM 425	Biology of Fungi
BIOL 433	Evolution of Vertebrates
BIOL 437	Histology
BIOL 439	Practical Bioinformatics
BIOL 444	Field Ecology
BIOL 450W	Experimental Field Biology
BIOL 461	Contemporary Issues in Science and Medicine
BIOL 473	Laboratory in Mammalian Physiology
BIOL 475N	
BIOL 478	COMPARATIVE NEUROANATOMY
BIOL 482	Coastal Biology
BIOL 494	Research Project
BIOL 495	Internship in Biology
BIOL 496	Independent Studies
BIOL 499A	Tropical Field Ecology
BIOTC 459	Plant Tissue Culture and Biotechnology
SC 295	Science Co-op Work Experience I
SC 395	Science Co-op Work Experience II
SC 495	Science Co-op Work Experience III

Supporting Courses and Related Areas

Select 17-24 credits from department list 17-24

General Biology Option (46-51 credits)

Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, Harrisburg, Lehigh Valley, Schuylkill, Scranton, University Park, York

Code	Title	Credits
Additional Courses		
Select one of the following:		6-8
CHEM 202 & CHEM 203	Fundamentals of Organic Chemistry I and Fundamentals of Organic Chemistry II	
CHEM 210 & CHEM 212	Organic Chemistry I and Organic Chemistry II	
& CHEM 213	and Laboratory in Organic Chemistry	

Groups

Select a minimum of 18 credits of 400-level biology courses, with at least 3 credits from each of the following groups (each course may be used to satisfy a requirement in only one group). Moreover, a maximum of 3 credits of BIOL 400, 494, 495, 496 and SC 295, 395, 495 may be used to fulfill the 18 credit minimum in the 400-level biology course requirements.

Plant and Fungi Group:

BIOL 406	Symbiosis
BIOL 407	Plant Developmental Anatomy
BIOL 414	Taxonomy of Seed Plants
BIOL 420	Paleobotany
BIOL 424	Seeds of Change: The Uses of Plants
BIOL/PPEM 425	Biology of Fungi
BIOL 431	Reproductive Biology
BIOL 441	Plant Physiology
BIOL 444	Field Ecology
BIOL 446	Physiological Ecology
BIOL 448	Ecology of Plant Reproduction
BIOL 451	Biology of RNA
BIOL 482	Coastal Biology
BIOL 499A	Tropical Field Ecology
PPEM 427	Mycotoxins: Effects of Fungal Toxins on Human and Animal Health

Evolution Group:

BIOL 405	Molecular Evolution
BIOL 406	Symbiosis
BIOL 411	Medical Embryology
BIOL 414	Taxonomy of Seed Plants
BIOL 417	Invertebrate Zoology
BIOL 420	Paleobotany
BIOL 421	Comparative Anatomy of Vertebrates
BIOL 422	Advanced Genetics
BIOL/PPEM 425	Biology of Fungi
BIOL 427	Evolution
BIOL 428	Population Genetics
BIOL 429	Animal Behavior
BIOL 432	Developmental Genetics
BIOL 433	Evolution of Vertebrates
BIOL 434	Pathobiology of Emerging Infectious Disease

BIOL 436	Population Ecology and Global Climate Change
BIOL 438	Theoretical Population Ecology
BIOL 439	Practical Bioinformatics
BIOL 443	Evo-devo: Evolution of Developmental Mechanisms
BIOL 446	Physiological Ecology
BIOL 451	Biology of RNA
BIOL 460	Human Genetics
BIOL 463	General Ecology
BIOL 464	Sociobiology
BIOL 474	Astrobiology
BIOL 478	COMPARATIVE NEUROANATOMY
Genetics and Developmental Biology Group:	
BIOL 404	Cellular Mechanisms in Vertebrate Physiology
BIOL 405	Molecular Evolution
BIOL 407	Plant Developmental Anatomy
BIOL 411	Medical Embryology
BIOL 413	Cell Signaling and Regulation
BIOL 416	Biology of Cancer
BIOL 422	Advanced Genetics
BIOL 426	Developmental Neurobiology
BIOL 428	Population Genetics
BIOL 430	Developmental Biology
BIOL 431	Reproductive Biology
BIOL 432	Developmental Genetics
BIOL 439	Practical Bioinformatics
BIOL 443	Evo-devo: Evolution of Developmental Mechanisms
BIOL 448	Ecology of Plant Reproduction
BIOL 451	Biology of RNA
BIOL 460	Human Genetics
BIOL 467	Molecular Basis of Neurological Diseases
BIOL 469	Neurobiology
MICRB 410	Principles of Immunology
Ecology Group:	
BIOL 406	Symbiosis
BIOL 412	Ecology of Infectious Diseases
BIOL 415	Ecotoxicology
BIOL 417	Invertebrate Zoology
BIOL 419	Ecological and Environmental Problem Solving
BIOL/PPEM 425	Biology of Fungi

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Outcomes

1. Students will be able to describe how heritable changes can lead to differences in populations over time that might result in speciation; trace energy/matter transformation, storage, and mobilization; explain how information is exchanged and stored; recognize how changes in biological structures can have varying effects on function; and/or describe the interactions and interconnections among systems across biological scales and over evolutionary time scales.
2. Students will be able to apply the elements of the process of science such as posing questions, generating novel hypotheses based on the scientific literature; developing appropriate technical skills for research; designing/conducting experiments to test hypotheses in laboratory and/or field settings; summarizing/interpreting data; integrating/evaluating findings in the broader scientific field to construct new knowledge; and/or participating in the peer review/revision process.
3. Students will be able to discriminate among scientific claims presented in a variety of sources based on the strength of evidence; find appropriate published scientific literature; and/or analyze and critically evaluate data/conclusions from the scientific peer-reviewed literature.
4. Students will be able to apply basic quantitative competencies such as algebra, probability, statistics, unit conversions, and fundamental biological equations; organize, summarize, and interpret quantitative data; use modeling/simulation to approach problems from across various scales; and/or find and analyze large databases using statistical methods and/or other approaches.
5. Students will be able to integrate knowledge among biological subfields and between biology and other disciplines.
6. Students will be able to engage with diverse communities and leverage the skills in the community to pose and solve biological questions; demonstrate the ability to work in teams to solve

biological problems; and/or communicate in a variety of formal and informal ways in the discussion of biological research.

7. Students will explore the impacts of scientific research on society and the environment and how society influences/relies on research to inform decision-making; evaluate the ethical implications of biological research; recognize ethical issues in a variety of settings; and/or describe how different perspectives and the resulting alternative approaches might be evaluated using ethical principles to identify a solution to an issue.
8. Students will be able to communicate in a professional manner and learn/use professional behaviors in all aspects of college and career building activities, including participation in opportunities such as research, internships, cooperative education, teaching and tutoring, study abroad, and/or volunteer work.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Beaver Campus

General Option: Biology, B.S. at Beaver Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
BIOL 110 ^{*#}	4 BIOL 240W ^{*#}	4

Elective / Supporting Course	3 Elective / Supporting Course	3
	15	15

Total Credits 130.5

- * Course requires a grade of C or better for the major
- ‡ Course requires a grade of C or better for General Education
- # Course is an Entrance to Major requirement
- † Course satisfies General Education and degree requirement

- ¹ *BIOL course groupings: **Group I** = Plants & fungi; **Group II** = Evolutionary biology; **Group III** = Genetics; **Group IV** = Ecology; **Group V** = Animal physiology; **Group VI** = Practicum
- ² Students in 2+2 biology program are recommended to take PHYS 250 and PHYS 251 in year 2 rather than year 3

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Brandywine Campus

General Option: Biology, B.S. at Brandywine Campus

Total Credits 124

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Lehigh Valley Campus

General Option: Biology, B.S. at Lehigh Valley Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ If placement is not for MATH 140, then review math courses will be needed (MATH 21, MATH 22, & MATH 26).

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies (either Inter-domain or Linked Courses):

Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

Genetics and Developmental Biology Option: Biology, B.S. at Schuylkill Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. * Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ Students must take a minimum of 18 credits of 400-level biology courses with at least 3 credits from each of the following groups (each course may be used to satisfy a requirement in only one group) (sem: 5-8):

- Group I (Plants and Fungi);
- Group II Evolutionary Biology;
- Group III (Genetics and Development);
- Group IV (Ecology);
- Group V (Animal Physiology);
- Group VI (Practicum).

Courses offered to complete these major requirements may be offered on a rotating basis. Consult with an academic adviser in addition to reviewing What-if Report (for pre-majors) or Academic Requirements (for those currently in the major) for course options

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Major Requirements Notes:

- Students may take PHYS 211, PHYS 212, PHYS 213, & PHYS 214 in place of PHYS 250 & PHYS 251. See adviser.
- BIOL 220W is only offered in the fall semesters.

General Education Course (GHW) 1.5

16.5

15

Total Credits 126-129

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Genetics and Developmental Biology Option, 2+2 Plan: Biology, B.S. at York Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

A Biology BS degree provides an excellent foundation and the skills required for a wide range of technical careers. While many majors use a Biology degree to prepare for entrance into health professional schools, others follow career paths in research, education, and business. Students also pursue graduate study at universities both across the U.S. and internationally.

Business Administration, A.S. (University College)

Begin Campus: Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Shenango, Schuylkill, Wilkes-Barre, World Campus, Scranton, York

End Campus: Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, Shenango, Wilkes-Barre, World Campus, York

Program Description

The associate degree program in Business Administration provides an introductory foundation to core aspects of the business environment that prepares graduates for future baccalaureate study in business or for direct entry into the work place. The primary objective of this major is to provide a business-oriented program with sufficient communicative and mathematical skills, socially relevant course work, and specific business specialties to develop a well-rounded and knowledgeable graduate.

Students should work closely with academic advisers to schedule coursework required to transition to baccalaureate business programs.

What is Business Administration?

To be successful in today's increasingly complex business world, you need to have a broad understanding of how business works. The Penn State Associate degree in Business Administration prepares students for a professional career in today's business environment. The degree offers students a managerially-oriented program emphasizing communication and mathematical skills, socially relevant course work, and advanced courses in business. While Penn State's Associate in Science in Business Administration is an excellent stand-alone credential, it can be used to seamlessly transition to a bachelor's degree such as the Bachelor of Science in Business or other business-related programs at the University.

You Might Like This Program If...

- You want to learn to use the latest technical business tools to perform your job duties effectively.
- You analyze and react to issues facing companies today.
- You collect and analyze data to make inferences and solve business problems.
- You need to execute effective communication strategies.

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Science degree in Business Administration, a minimum of 60 credits is required:

Requirement	Credits
General Education	21
Requirements for the Major	48-50

9 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GQ General Education courses and 6 credits of GWS General Education courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
ACCTG 211	Financial and Managerial Accounting for Decision Making	4
CAS 100	Effective Speech	3
MIS 204	Introduction to Management Information Systems	3
<i>Prescribed Courses: Require a grade of C or better</i>		
ENGL 202D	Effective Writing: Business Writing	3
Additional Courses		
BA 241 & BA 242 or BA 243	Legal Environment of Business and Social and Ethical Environment of Business Social, Legal, and Ethical Environment of Business	4
ECON 102 or ECON 104	Introductory Microeconomic Analysis and Policy Introductory Macroeconomic Analysis and Policy	3
SCM 200 or STAT 200	Introduction to Statistics for Business Elementary Statistics	4
Select one of the following:		3-4
MATH 21	College Algebra with Analytic Geometry with Applications I	
MATH 22	College Algebra With Analytic Geometry and Applications II	
MATH 110	Techniques of Calculus I	
<i>Additional Courses: Require a grade of C or better</i>		
ENGL 15 or ENGL 30H	Rhetoric and Composition Honors Rhetoric and Composition	3
MGMT 301 or MGMT 301W	Basic Management Concepts Basic Management Concepts	3
MKTG 301 or MKTG 301W	Principles of Marketing Principles of Marketing	3
Supporting Courses and Related Areas		
Select 12-13 credits of the following:		12-13
BA 100	Introduction to Business	

BA 250	Small Business Management
BA 364Y	International Business and Society
CAS 250 or CAS 252	Small Group Communication Business and Professional Communication
CAS 352	Organizational Communication
IB 303	International Business Operations
MATH 22	College Algebra With Analytic Geometry and Applications II
MATH 110	Techniques of Calculus I
ACCTG 300 to ACCTG 399	
ECON 100 to ECON 399	
ENTR 100 to ENTR 399	
FIN 100 to FIN 399	
HPA 100 to HPA 399	
LER 100 to LER 399	
MGMT 100 to MGMT 399	
MKTG 100 to MKTG 399	
MIS 100 to MIS 399	
RM 100 to RM 399	
SCM 200 to SCM 399	

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 3 credits
- **Writing and Speaking (GWS):** 3 credits

Knowledge Domains

- **Arts (GA):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Note: Up to six credits of Inter-Domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

- **Any General Education course (including GHW and Inter-Domain):** 3 credits

University Degree Requirements

Cultures Requirement

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 60 degree credits must be earned for an associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

DuBois Campus

- **Communication:** Demonstrate the necessary skills and abilities to effectively communicate.
- **Compare/Contrast Local/Global Economy:** Compare, contrast and differentiate the business environment of both their local community and the globalized world economy.
- **Ethics:** Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
- **Fundamental Concepts:** Explain, utilize and apply fundamental business concepts, principles and contemporary business practices.
- **Leadership and Teamwork:** Apply leadership, team building, and project management skills.
- **Problem-Solving:** Recognize, analyze and solve business problems using quantitative and qualitative measures.
- **Technology Tools:** Apply contemporary tools of information technology to include business software applications.

Greater Allegheny Campus

- **Business Applications:** Students will utilize and apply fundamental business concepts, principles and contemporary business practices.
- **Ethics:** Students will demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.

Hazleton Campus

- **Business Applications:** Students will utilize and apply fundamental business concepts, principles and contemporary business practices.
- **Business Environment:** Students will compare, contrast and differentiate the business environment of both the local community and the globalized world economy.
- **Communication:** Students will demonstrate the necessary skills and abilities to effectively communicate.

- **Ethics:** Students will demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
- **IT Tools:** Students will apply contemporary tools of information technology to include business software applications.
- **Leadership, Team Building, and Project Management:** Students will apply leadership, team building, and project management skills.
- **Quantitative and Qualitative Measures:** Students will recognize, analyze and solve business problems using quantitative and qualitative measures.

Brandywine, Lehigh Valley, Scranton, and York Campuses

- **Data Analysis and Problem Solving:** Recognize, analyze and solve business problems using quantitative and qualitative measures.
- **Effective Communication:** Demonstrate the necessary skills and abilities to effectively communicate.
- **Ethical Awareness:** Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
- **Global and Diverse Perspectives:** Compare, contrast and differentiate the business environment of both their local community and the globalized world economy.
- **Leadership and Teamwork:** Apply leadership, team building, and project management skills.
- **Use Management Theory/Practice:** Utilize and apply fundamental business concepts, principles and contemporary business practices.
- **Use Technology:** Apply contemporary tools of information technology to include business software applications.

Fayette and Mont Alto Campuses

- **Communication Skills:** Demonstrate the necessary skills and abilities to effectively communicate
- **Technology Tools:** Apply contemporary tools of information technology to include business software applications.
- **Ethics:** Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
- **Fundamental Concepts:** Explain fundamental business concepts, principles and contemporary business practices.
- **Problem Solving:** Recognize and solve business problems using quantitative and qualitative measures.

New Kensington Campus

- **Application of Standards:** Applying the same standards throughout the reporting process, from one period to the next, to ensure financial comparability between periods.
- **Communication during the accounting process:** Students engage in listening, talking straight, persuasion, critical thinking and problem solving, and time management during the accounting period.
- **Data Analysis and Problem Solving:** Recognize, analyze and solve business problems using quantitative and qualitative measures.
- **Ethical Awareness:** Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
- **Professional Standards:** Students awareness of professional standards in the accounting field.
- **Study of the Finance and Accounting Industry:** Current events that relate to the finance and accounting industry.

Schuylkill Campus

- **Data Analysis and Problem Solving:** Recognize and solve business problems using quantitative and qualitative measures.
- **Effective Communication:** Demonstrate the necessary skills and abilities to communicate effectively.
- **Ethical Awareness:** Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
- **Technology Usage:** Apply contemporary tools of information technology to include business software applications.
- **Use Management Theory/Practice:** Explain fundamental business concepts, principles and contemporary business practices.

Shenango Campus

- **Communication:** Demonstrate the necessary skills and abilities to effectively communicate.
- **Fundamental Concepts:** Explain fundamental business concepts, principles and contemporary business practices.
- **Problem-Solving:** Recognize and solve business problems using quantitative and qualitative measures.
- **Technology Tools:** Apply contemporary tools of information technology to include business software applications.
- **Utilize and apply fundamental business concepts, principles, and contemporary business practices:** Graduates of the BSB program have the technology based analytical skills, critical thinking & problem solving skills, mathematical, and analytical business' strategy skills sought by today's employers.

Wilkes-Barre Campus

- **Data Analysis and Problem Solving:** Recognize, analyze and solve business problems using quantitative and qualitative measures.
- **Ethical Awareness:** Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
- **Global and Diverse Perspectives:** Compare, contrast, and differentiate the business environment of both their local community and the global world economy
- **Leadership and Teamwork:** Apply leadership, team building, and project management skills
- **Use Management Theory/Practice:** Explain fundamental business concepts, principles and contemporary business practices.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years' suggested academic plans, please visit the archive (<https://bulletins.psu.edu/undergraduate/archive/>) to view the appropriate Undergraduate Bulletin edition.

Business Administration, A.S. at Brandywine Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

Fall	Credits Spring	Credits
ENGL 15 or 30H ^{*†}	3 CAS 100A [‡]	3
MATH 21 [‡]	3 ECON 102 or 104	3
MIS 204	3 BA 243	4
General Education Course	3 General Education Course	3
General Education Course	3 Option Selection	3
	15	16

Second Year

Fall	Credits Spring	Credits
ACCTG 211	4 ENGL 202D ^{*‡}	3
MGMT 301W [*]	3 STAT 200 or SCM 200	4
MKTG 301 [*]	3 Option Selection	3
General Education Course	3 Option Selection	3
Option Selection	3	
	16	13

Total Credits 60

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

¹ Consultation with adviser is recommended to select the proper course placement

² If a student's plan is to move into the Bachelor of Science in Business degree program, a minimum of MATH 22 is required for entrance to major. If a student's placement is MATH 21 or 22, courses can be used for Business Supporting Courses in the Associate of Science degree plan.

Business Administration, A.S. at DuBois Campus

Program Notes:

Classes Available for Business Electives:

Select 12-13 credits from: BA 100(3); BA 250(3); BA 321, BA 322, BA 364(3); CAS 250(3) or CAS 252(3); CAS 352(3); MATH 22 GQ(3); MATH 110 GQ(4); ACCTG 300 to 399(3); ECON 100 to ECON 399(3); ENTR 100 to 399(3); FIN 100 to 399(3); HPA 100 to 399(3); IB 303 IL(3); LER 100 to 399(3); MGMT 100 to 399(3); 399(3) MKTG 100 to 399(3); MIS 100 to 399(3); RM 100 to 399(3); or SCM 200 to 399(3) (Sem: 1-4)

One class in the curriculum must contain a US (US culture) or an IL (International Competency).

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS) requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Business Administration, A.S. at Fayette Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Advising Notes:

- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL).
- As long as one Arts (GA), one Humanities (GH), one Natural Sciences (GN) and one Arts (GA) courses are taken across the four semesters, the particular order in which these courses are taken is not relevant. The course series listed above is only one of many possible ways to move through the 2BAUC_AS curriculum.
- Select 12-13 credits from: Supporting courses for the General Business Option: Supporting and Related Areas (12-13 credits) BA 100(3); BA 250(3); BA 364Y(3); CAS 250(3) or CAS 252(3); CAS 352(3); MATH 22 GQ(3); MATH 110 GQ(4); ACCTG 300 to 399(3); ECON 100 to ECON 399(3); ENTR 100 to 399(3); FIN 100 to 399(3); HPA 100 to 399(3); IB 303 IL(3); LER 100 to 399(3); MGMT 100 to 399(3); MKTG 100 to 399(3); MIS 100 to 399(3); RM 100 to 399(3); or SCM 200 to 399(3) (Sem: 1-4)
- Successful completion of MATH 22 or higher (e.g. MATH 40, 41, 110, 140) is required for anyone seeking entrance to the Bachelor of Science in Business program (BSBUC_BS).
- **Important note:** A student's career/graduate school plans should be considered in developing an individual academic plan. Be sure to

consult an Academic Adviser in this department when scheduling courses.

¹ Consultation with adviser is recommended to select the proper course placement

² If a student's plan is to move into the Bachelor of Science in Business degree program, a minimum of MATH 22 is required for entrance to major. If a student's placement is MATH 21 or 22, courses can be used for Business Supporting Courses in the Associate of Science degree plan.

Career Paths

Business impacts our society in many ways. Every business, from small companies to large corporations provide employment options. The associate in business degree can help prepare you for a wide variety of entry-level careers in this sector or for continued study in business. You

will have the opportunity to participate in an elective business internship as part of your curriculum. Internships provide valuable experience before graduation and an important first step toward starting your career.

Careers

Because the Associate in Science in Business Administration can give you a foundation of business concepts and best practices relevant to any industry, as a graduate of the program you can prepare for positions in accounting departments, management trainee opportunities, retail, insurance industry, industrial management opportunities, office manager, or business service manager. Some examples of jobs include:

- Accounting Specialist
- Accounts Examiner
- Appraisers and assessors of real estate
- Assistant Marketing Director
- Assistant Store Manager
- Billing Clerk
- Business services manager
- Computing business coordinator
- Compliance officers
- Insurance sales agent
- Industrial Salesperson
- Management Trainee
- Office Manager
- Payroll Assistant
- Sales Coordinator

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE BUSINESS ADMINISTRATION PROGRAM (<https://www.bls.gov/careeroutlook/2002/winter/art01.pdf>)

Opportunities for Graduate Studies

Upon completion of the associate degree in business, you may also choose to proceed seamlessly to the bachelor of science in business or selected other business-related majors at Penn State.

Business, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Beaver, Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, Shenango, Wilkes-Barre, York

Program Description

The Bachelor of Science in Business (B.S.B.) is a professionally-oriented business degree program that combines the theoretical underpinnings of core business disciplines, notably business analytics, management, marketing, finance, and supply chain management, with applied study in a practical setting. Through the choice of an 18-credit option, students specialize in a key business sector. Students also develop written and oral communication skills throughout the program, acquire contemporary technology skills, and engage in active and collaborative learning. The degree allows students to become familiar with the unique business environments of their local communities, a design that sets the degree apart from other business degrees offered within the University and throughout the Commonwealth.

Accounting Option

Available at the following campuses: *Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Fayette, Greater Allegheny, Lehigh Valley, New Kensington, Schuylkill, Scranton, Shenango, Wilkes-Barre, World Campus, York*

This option prepares students to pursue careers in business with an emphasis on the areas of financial and managerial accounting, systems and controls, auditing, and taxation.

Business Analytics Option

Available at the following campuses: *Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Greater Allegheny, Hazleton, Lehigh Valley, New Kensington, Schuylkill, Scranton, Wilkes-Barre, York*

The Business Analytics option prepares students to pursue careers in applying business analytics techniques to implement appropriate decision-making outcomes using data for companies.

Entrepreneurship Option

Available at the following campuses: *Altoona, World Campus*

This option prepares students to pursue entrepreneurial careers with emphasis on idea generation, opportunity analysis, new product creation, and business plan development.

Financial Services Option

Available at the following campuses: *Abington, Altoona, Berks, DuBois, Lehigh Valley, Scranton, World Campus*

This option prepares students to pursue careers in financial organizations with emphasis on wealth management, tax planning, risk management, and financial analysis.

Health Services Option

Available at the following campuses: *Abington, Lehigh Valley, Schuylkill, World Campus*

This option prepares students to pursue careers in the health services sector with emphasis on the financial and administrative aspects of health care enterprises.

Individualized Business Option

Available at the following campuses: *Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Shenango, Schuylkill, Scranton, Wilkes-Barre, World Campus, York*

This option provides the opportunity for students to pursue an approved business-focused interdisciplinary program of study.

Management and Marketing Option

Available at the following campuses: *Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Shenango, Schuylkill, Scranton, Wilkes-Barre, World Campus, York*

This option prepares students to pursue careers in business organizations with an emphasis on the skills and knowledge necessary for the business professional to function in community and regional centers of commerce.

What is Business?

Business is a professionally-oriented program providing a broad education and solid grounding of business knowledge. Focusing on practical skills and real-world experience, the program's interdisciplinary perspective provides a versatile base for mobility into all business areas, preparing students for the business world of today and tomorrow. Options provide additional specialization in accounting, entrepreneurship, financial services, health services, management and marketing or the opportunity to develop an individualized plan that fits your career goals.

You Might Like This Program If...

- You want to become a flexible business professional, equipped to adapt to the ever-changing workplace of the future.
- You are interested in an academic challenge with theoretical and practical focus in a competitive yet collaborative learning environment.
- You want transferable skills or you are not sure which business sector you wish to focus.
- You wish to be develop a broad knowledge of business operations.
- You want to develop the skills for working in business.

Entrance To Major

In order to be eligible for entrance to this major, students must complete one of the following courses: MATH 22 or MATH 40 or MATH 41 or MATH 110 or MATH 140.

In addition, students also must satisfy the following requirements:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Science degree in Business, a minimum of 120 credits is required, 15 of which must be at the 400 level:

Requirement	Credits
General Education	45
Electives	10
Requirements for the Major	80

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 6 credits of GS courses; 3 credits of GWS courses.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

Code	Title	Credits

CAS 404 Conflict Resolution and Negotiation

Supporting Courses and Related Areas ¹

Supporting Courses and Related Areas: Require a grade of C or better

Select 3 credits from 300 or 400-level MGMT courses 3

Select 3 credits from 300 or 400-level MKTG courses 3

Select 6-12 additional credits in 300 or 400-level courses from MGMT6-12 or MKTG courses

¹ A minimum of 3 credits of supporting courses must be selected at the 400-level.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN,** may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3

credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

Beaver, Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, Wilkes-Barre, York

- **Effective Communication:** Demonstrate the necessary skills and abilities to effectively communicate.
- **Use Technology:** Apply contemporary tools of information technology to include business software applications.
- **Leadership and Teamwork:** Apply leadership, team building, and project management skills.
- **Global and Diverse Perspectives:** Compare, contrast and differentiate the business environment of both their local community and the globalized world economy.
- **Ethical Awareness:** Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
- **Use Management Theory/Practice:** Utilize and apply fundamental business concepts, principles and contemporary business practices.
- **Data Analysis and Problem Solving:** Recognize, analyze and solve business problems using quantitative and qualitative measures.

Shenango Campus

- Decision-related skills to solve business related problems quantitatively, qualitatively, and creatively.
 - Create and interpret financial statements and use finance principles to diagnose the financial health of the enterprise and to make strategic decisions.
 - Analyze, find, and apply primary and secondary market data to support their development of market analyses, SWOT, goals, strategies, and tactics.
 - Use statistical tools to facilitate strategic decision making.
 - Apply microeconomic principles such as supply and demand, market structure, profit maximization, and efficiency to real-world business challenges
 - Analyze qualitative data empirical
 - Develop novel and innovative solutions to business challenges.
- Effective communication skills, both written and oral.
 - Present evidence-based arguments to defend their ideas, recommendations, and finding.
 - Create effective and engaging presentations using appropriate technologies to include the use of spreadsheets, graphics, statistical software, project management software, and other software as needed.
 - Communicate supportively and professionally to build positive interpersonal relationships and be able to engage with diverse audiences.
 - Write effective business documents such as emails, reports, memo, letters, plans, and proposals.
 - Adapt information for presentations across multiple media.
- Ethical behavior and social responsibility.
 - Adhere to the academic integrity standards.
 - Incorporate socially responsible solutions in their coursework and service activities.
 - Distinguish between ethical and unethical behavior and evaluate the impact of unethical behavior on society.
- High level application of business principles and strategies to succeed across global and diverse environments.
 - Demonstrate an understanding of domestic and international markets.
 - Create strategies that address the needs of diverse cultures in business settings.
 - Create and apply an effective situational analysis and SWOT.
 - Create and monitor the effective use of resources such as Human Resources, budget, supply chain, etc.
 - Demonstrate financial literacy.
 - Develop and evaluate a variety of plans including marketing, strategic, business, and financial.
- Leadership, team building, and project management skills.
 - Work collaboratively in teams to accomplish stated goals and objectives.
 - Demonstrate effective conflict resolution and negotiation skills.
 - Apply leadership skills, theories, and behaviors to assignments throughout the BSB curriculum.
 - Complete projects efficiently, effectively, and with given resource.
 - Identify different corporate cultures and the implications of those differences on the effectiveness of the organization.
- Proficiency in common application software relevant to the business world.

- Create professional business documents that are professionally formatted and edited using Microsoft Word or other comparable application.
- Create Excel spreadsheets to include formulas, graphics, and functions.
- Create Power Point presentations that are appropriately formatted and use engaging elements.
- Create a Project Plan using Microsoft Project to be able to track progress, manage budget, and analyze workloads.
- Use Microsoft Access or other database programs to analyze and manage data.
- Demonstrate information literacy using Current, Relevant, Authoritative, Accurate, and Purposeful data sources and protocols.

Academic Advising

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- Other Business Electives offered at DuBois include: MGMT 341, MGMT 401, and ENGL 419.
- Management 321 is a Fall Course.
- MGMT 401 is a Spring course. English 419 is a Spring course offered every other year.
- Please note you can only select 6 credits from BA 250, MKTG 220, and ENGL 419.

University Requirements and General Education Notes:

Fayette Campus

Accounting Option: Business, B.S. at Fayette Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Management and Marketing Option: Business, B.S. at Fayette Campus

¹ Students must take 0-6 credits in Business and Communication classes. Choose from the following list:

- BA 250
- ENGL 419
- MKTG 220
- CAS 250, 252, 352 or 404 (only one course may be taken from this list)

Students will also take 12-18 credits (*depending on selections above*) in 300/400 level MKTG/MGMT classes. Choose from the following list:

These selections must include at least three credits of 400-level courses in one of the next three areas. Each area below must be met as part of the 12-18 credit requirement.

- MGMT 321
- MGMT 326
- MGMT 331
- MGMT 341
- MGMT 424
- MGMT 451
- MKTG 310
- MKTG 327
- MKTG 330
- MKTG 342
- MKTG 422
- MKTG 450

² BA 495A (Internship) and BA 495B (Research) must be approved in advance. If the student only takes 3 credits in BA 495A/B, then they must take 3 credits of a 400-level option course from ACCTG, BA, ECON, ENTR, FIN, FINSV, HPA, IB, MGMT, MIS, MKTG, RM, or SCM

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

- For the B.S. degree in Business, a minimum of 120 credits is required; 15 of which must be at the 400-level.
- 18 credits minimum are required for the Marketing and Management Option.

Individualized Option: Business, B.S. at Mont Alto Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Individualized Business Option and Management and Marketing Option: Business, B.S. at New Kensington Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- Available options of the BSBUC program at Penn State Scranton are Accounting, Business Analytics, Financial Services, Management & Marketing, and Individualized. A minimum of 120 credits is required for graduation.
- Note for the Accounting Option: Students wishing to complete Pennsylvania State Board of Accountancy Requirements for CPA certification are recommended to use elective credits to meet the additional 30 hours of academic credit by taking the following courses: ACCTG 431, ACCTG 432, ACCTG 461, ACCTG 473, ACCTG 483, ACCTG 497.

Academic Advising Notes:

- FIN 301: Smeal-bound students must take FIN 301 no later than semester 4 to satisfy entrance-to-major requirements in time for their application to the Smeal College.
- STAT 200: Student must not delay taking STAT 200 past semester 4, as it is a prerequisite for FIN 301 and SCM 301.
- A student's career/graduate school plans should be considered in developing an individualized academic plan. Be sure to consult an adviser in this department and your Degree Audit when scheduling courses. The Degree Audit on LionPATH is your official check of graduation requirements.

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- Available options of the BSBUC program at Penn State Scranton are Accounting, Business Analytics, Financial Services, Management & Marketing, and Individualized. A minimum of 120 credits is required for graduation.

Academic Advising Notes:

- FIN 301: Smeal-bound students must take FIN 301 no later than semester 4 to satisfy entrance-to-major requirements in time for their application to the Smeal College.
- STAT 200: Student must not delay taking STAT 200 past semester 4, as it is a prerequisite for FIN 301 and SCM 301.
- Instead of 300/400-level Management or Marketing, TWO of the option courses (6 credits) may also be specific Business or Business Communication courses listed in the PSU Bulletin (the two most often offered on this campus are BA 250 and MKTG 220).
- A student's career/graduate school plans should be considered in developing an individualized academic plan. Be sure to consult an adviser in this department and your Degree Audit when scheduling courses. The Degree Audit on LionPATH is your official check of graduation requirements.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Individualized Option: Business, B.S. at Scranton Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Advising Notes:

This option prepares students for careers in the accounting field. When the students complete the prescribed courses of the BSB degree with Accounting Option, they will meet the academic requirements to sit for the Certified Public Accountant (CPA) examination. Graduates of the BSB degree with Accounting Option may be able to pursue other professional certifications, such as Certified Management Accountant (CMA) and Certified Internal Auditor (CIA).

Business Analytics Option: Business, B.S. at York Campus

13**12****Total Credits 119-125**

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Program Notes:

- Supporting Courses and Related Areas
 - Select 9 credits from the following (grade of C or better required): (ECON 481, MIS 336, MIS 404, MIS 415, MIS 441, MIS 445, MKTG 342¹, MKTG 343) or (MKTG 473, MKTG 474, MKTG 480², SCM 340)
 - ¹ Course offered online (from World Campus)
 - ² Course offered online (from World Campus, BSBIC_BS)

Individualized Business Option: Business, B.S. at York Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

In today's economic environment, the Bachelor of Science in Business allows companies to hire individuals who have a broad knowledge of all aspects of business. This broad knowledge give you the opportunity to be effective within many different types of organizations. You will also be well-positioned to pursue admission to graduate programs.

Careers

With a degree in business, you may specialize through options that may vary by campus. With an accounting option, you can work in the areas of financial and managerial accounting, systems and controls, taxation, and auditing. The entrepreneurship option provides the skills for you to start your own business or to work as an entrepreneur within a company. Health services provides the financial and administrative skills and knowledge necessary for you to become a health services managers. With an option in financial services you might pursue positions in wealth and risk management, estate planning or financial and retirement planning. With the management and marketing option you will be prepared for a career in retail management, small business management or in marketing, advertising and promotion. Finally, with an individualized option, you have flexibility to build specialized skills for your personal business career goals.

Opportunities for Graduate Studies

A baccalaureate degree in Business can lead to a Master's degree in Business (MBA) or other business-related masters degrees. MBA programs are offered at Penn State Great Valley, Penn State Erie, Penn State Harrisburg, Penn State Berks, Smeal College of Business and through the World Campus.

Business, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Business minor is a strong complement to virtually any major. Courses prescribed for the minor are taught by Penn State faculty providing courses to the B.S. in Business and the A.S. in Business Administration. It provides students with the opportunity to develop and apply skills appropriate to the business contexts of their chosen majors. Students pursuing the Business minor must complete 13 credits of prescribed coursework and six credits of additional coursework.

A grade of C or better is required for all courses in the minor. The prescribed thirteen credits of coursework presents students with a critical foundation of core business disciplines: accounting, management, marketing, and either macro- or micro-economics. The six credits of additional coursework must be taken at the 400-level.

The additional coursework enables students to expand on the core foundation in one of two ways. They may choose to solidify their business knowledge base by exploring six credits of 400-level business courses in the following disciplines:

- Accounting
- Business Administration
- Business Law
- Energy Business and Finance
- Economics
- Entrepreneurship
- Finance
- Financial Services
- Health Policy and Administration
- International Business
- Labor Studies and Employment Relations
- Management Information Systems
- Management
- Marketing
- Risk Management
- Supply Chain Management
- Statistics

Alternately, students can augment three credits of 400-level coursework in one of the above listed business disciplines with three credits of 400-level work from an approved list of specific business-related course in disciplines such as:

- Communication Arts and Sciences
- Corporate Communication
- Communications
- Criminal Justice
- Engineering
- English
- Human Development and Family Studies
- History
- Hospitality Management
- Information Sciences and Technology
- Kinesiology
- Philosophy
- Political Science
- Psychology
- Recreation, Park and Tourism Management
- Sociology

What is Business?

Business is a professionally-oriented program providing a broad education and solid grounding of business knowledge. The Business minor complements any major and provides a broad education and

introduction to business knowledge. With opportunities to learn about business disciplines, including accounting, management, marketing, and economics, students will gain skills and the tools to apply in any setting.

You Might Like This Program If...

You want to add business skills to strengthen your career options. You are not a business major, but are interested in working in a business setting. You enjoy courses in economics, accounting or other business disciplines. You are a collaborator, analytical thinker and effective communicator.

SOC 456	Gender, Occupations, and Professions

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

Adding valuable business skill will strengthen your academic program and assist you in meeting admissions requirements for masters in business programs.

Careers

A minor in business will complement your major and provide a well-rounded skill set that can be applied in business, education, industry, health care or non-profit settings.

Opportunities for Graduate Studies

Upon completion of minor in business, you will have completed business disciplinary courses that can assist you in transitioning to master's of business (MBA) programs.

Communication Arts and Sciences, B.A. (University College)

Begin Campus: Any Penn State Campus

End Campus: Brandywine

Program Description

This major helps students better understand and analyze how people communicate in order to influence others and impact the world around them. The ability to communicate effectively in personal, social, professional, and multicultural situations is an essential skill in modern society. Discovering how to improve practices of communication in any of those situations—whether from a humanistic or scientific perspective—is equally vital. Students of Communication Arts and Sciences will therefore learn to argue persuasively, think critically, solve problems collaboratively, understand and manage conflict, influence people ethically, form and keep relationships, and participate constructively in civic life. The flexibility of this program offers preparation for a variety of careers, which include administration, business, health, higher education, human resources, law, public service, social or political advocacy, and more. Such flexibility is illustrated in the fact that this degree offers two different options for completion based on varying instructional and student needs (the Communication Studies option and the Foundations, Scholarship, and Practice option). For these reasons, majoring in Communication Arts and Sciences also offers an excellent concurrent degree program: a substantive understanding of human communication—which is valuable in numerous forms of personal, social, or professional life—can significantly enhance students' preparation in many fields of study.

Two degree options are available for the Communication Arts and Sciences B.A. in order to provide flexibility based on student and faculty needs at different campuses where the degree is offered:

Communication Studies Option

Available at the following campuses: Berks, Brandywine

The B.A. in Communication Arts and Sciences (Communication Studies) provides increased knowledge and skill concerning the practice of human communication across an array of interpersonal, organizational, social, and cultural contexts. Students pursuing the B.A. in this degree option will learn to argue persuasively, think critically, solve problems

collaboratively, understand and manage conflict, influence people ethically, form and keep relationships, and participate constructively in civic life. The flexibility of this program offers preparation for a variety of careers, which include administration, business, health, higher education, human resources, law, public service, social or political advocacy, and more. The B.A. in Communication Arts and Sciences (Communication Studies) also offers an excellent concurrent degree program: a substantive understanding of human communication—which is valuable in numerous forms of personal, social, and professional life—can significantly enhance students' preparation in many fields of study.

Foundations, Scholarship, and Practice Option

Available at the following campuses: University Park

The B.A. in Communication Arts and Sciences (Foundations, Scholarship, and Practice) promotes an understanding of fundamental facets of human communication, knowledge of theories and research that illuminate communication processes, and expertise in practical applications of communication research to civic, cultural, family, health, interpersonal, organizational, and social contexts. Students pursuing the B.A. in this degree option will learn to argue persuasively, think critically, solve problems collaboratively, understand and manage conflict, influence people ethically, form and keep relationships, and participate constructively in civic life. The flexibility of this program offers preparation for a variety of careers, which include administration, business, health, higher education, human resources, law, public service, social or political advocacy, and more. The B.A. in Communication Arts and Sciences (Foundations, Scholarship, and Practice) also offers an excellent concurrent degree program: A substantive understanding of human communication—which is valuable in numerous forms of personal, social, or professional life—can significantly enhance students' preparation in many fields of study.

What is Communication Arts and Sciences?

Communication Arts and Sciences (CAS) privileges the study and practice of communication in interpersonal, organizational, public, and intercultural contexts. Using methods and theories that span the humanities and social sciences, faculty and students create knowledge about the history, present state, and prospects of the fact that we can and do influence one another. This major inspires students to be more effective and ethical in the personal, professional, and public roles their futures have in store for them.

You Might Like This Program If...

- You want to learn about the history and theory of communication from both humanistic and social scientific perspectives.
- You are curious about relationships, group dynamics, power, and conflict.
- You want to learn to craft powerful, ethical messages that make a difference.
- You want to develop analytical and critical thinking skills to understand how messages influence people and shape situations and institutions.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and

2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Arts degree in Communication Arts and Sciences, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	12-15
Bachelor of Arts Degree Requirements	24
Requirements for the Major	36-39

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Common Requirements for the Major (All Options)

CAS 220	Persuasion	

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing

intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

- **Analyze Current Events:** Graduates will be able to analyze current events using theories and methods from the discipline.
- **Analyze Scholarship:** Graduates will be able to analyze scholarships and discuss limitations of research.
- **Communication:** Graduates will be able to effectively receive, process, and relay information through speaking, writing, and listening.
- **Critical Thinking:** Graduates will be able to argue both sides of differing ideas and conclusion through dispassionate analysis.
- **Cross Cultural Competence:** Graduates will be able to compare and contrast cultural norms as well as discuss how communication differs, and therefore, creates different norms across cultures.
- **Knowledge of Field:** Graduates will be able to summarize scholars and scholarship within the discipline.
- **Organize Research:** Graduates will be able to organize research and arguments within the discipline via papers and presentations.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The

advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may

not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Career Paths

CAS graduates are analysts, strategists, persuaders, facilitators, negotiators, collaborators, connectors, and leaders. The CAS B.A. equips students for success in the workforce, graduate and law school, and civic life.

Careers

The CAS B.A. prepares students for success in careers that value a rigorous and diverse understanding of communication practices. Graduates thrive in careers in business, government, law, public relations, public policy, sales, and more.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE COMMUNICATION ARTS AND SCIENCES PROGRAM (<https://cas.la.psu.edu/undergraduate/careers-in-cas/>)

Opportunities for Graduate Studies

The CAS B.A. provides excellent preparation for graduate study in rhetoric, as well as fields such as business, human resources and employment relations, law, and public policy. CAS at University Park has three integrated undergraduate-graduate degrees through which approved CAS majors can earn an undergraduate and graduate degree in five years instead of six: Public Policy, Media Studies, and Human Resources and Employment Relations.

Communications, B.A. (University College)

Begin Campus: Any Penn State Campus

End Campus: Brandywine, New Kensington

Program Description

With the rapid development of digital technologies over the last decade, the field of communications has seen unprecedented growth and convergence of medium in media both technologically and structurally. The communications degree program addresses strongly articulated employer requirements for the workplace through an integrated program model. The degree provides the basic theoretical foundations of the discipline, allows for appropriate branching outside the traditional curriculum, and permits a drawing from appropriate courses in the disciplines of information sciences and technology, communications, arts and sciences, English, and business.

The degree in communications provides two options for students who wish to develop their written and verbal skills in an effort to gain professional employment in fields such as public relations, publishing, speech writing, video and multimedia, production, and/or journalism.

Corporate Communications Option

Available at the following campuses: Brandywine, New Kensington

In extending traditional organizational communication, strategic communication, and public relations to the digital age, this option prepares students to compete in a global society. The program is also effective as preparation for e-commerce.

Digital Journalism Option

Available at the following campuses: New Kensington

In today's workplace, journalism graduates are required to regularly engage rapidly converging media in their work. This option offers graduates a competitive advantage by complementing traditional options (newspaper, magazine, radio, TV) with convergent course work designed to prepare students for professional journalism in the digital age.

What is Communications?

Communications is an academic discipline that deals with the creation and distribution of mass communication messages through media such as books, newspapers, television, radio, film, video games, and the Internet. Mass communications use writing, speech, photographs, video, and interactive content to give information or influence the audience. Communications also concerns the study of how we communicate in

different ways with diverse audiences through marketing, advertising, public relations, corporate communications, digital journalism, film and other media.

You Might Like This Program If...

You are a strong writer, critical thinker, and creative person. This is a dynamic field that has an impact on the world.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Arts degree in Communications, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	0-11
Bachelor of Arts Degree Requirements	24
Requirements for the Major	55-56

3-16 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 0-6 credits of GS; 0-6 credits of GH; 0-4 credits GQ courses.

0-12 credits for the Bachelor of Arts Degree Requirements are included in Electives if world language proficiency is demonstrated by examination.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education

Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

Brandywine Campus

- **Speech:** Students will be able to write and deliver an effective speech.
- **Press Release:** Students will be able to write an effective press release.
- **Visual Communication:** Students will be able to create an effective visual communication (website, photography, graphics).
- **Professionalism:** Students will be able to create effective materials as part of their internships, consistent with professional standards and practices
- **Communication Theory:** Students will demonstrate understanding of communication theory by writing an in depth paper on a selected theory.
- **Research:** Students will be able to design and execute an original research project.
- **Intercultural Communication:** Students will demonstrate understanding of intercultural communication by writing a paper on an assigned topic.
- **Teamwork:** Students will work effectively with diverse colleagues as part of their internship.

New Kensington Campus

- Effective oral, written, and visual communication skills.
- Knowledge of and facility with current professional standards and practices.
- Facility with communications theory and research methods as a foundation of critical thinking.

- Knowledge of the roles communications systems and professionals play in shaping local, national, and global communities.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 125-129

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

¹ **MATH 21** or higher or satisfactory score on the mathematics placement examination is a prerequisite for MKTG 301, a course required for the major and in the Academic Plan in a later semester.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Career Paths

With the rapid development of digital technologies over the last decade, the field of communications has seen unprecedented growth and convergence in media, both technologically and structurally. The degree in communications provides two options for you to develop written, verbal, and visual skills in an effort to gain professional employment in fields such as social media, public relations, corporate communications, publishing, video and multimedia production, and/or digital journalism.

Careers

- **Corporate Communications Option:** In extending traditional organizational communication, strategic communication, and public relations to the digital age, this option prepares you to compete in a global society. Graduates work in corporate communications, social media, public relations/marketing, sales, non-profit development, and human resources, among other fields.
- **Digital Journalism Option:** In today's workplace, journalism graduates are required to regularly engage rapidly converging media in their work. This option offers graduates a competitive advantage by complementing traditional options (newspaper, magazine, radio, TV)

with convergent course work designed to prepare you for professional journalism in the digital age.

Opportunities for Graduate Studies

Communications students may pursue graduate studies in communications, journalism, media writing, social media, public administration, and business. Related fields include law, integrated marketing, and health communications.

Internships

All Communications majors are required to complete an internship as part of their degree requirements. Students are encouraged to seek internship experiences that will help them pursue their professional and personal goals. Our students have completed internships at hundreds of different sites across Pennsylvania and the region, ranging from local television and radio stations to the corporate offices of Disney, Aflac, Hasbro, UPMC, and Comcast, to name just a few.

Corporate Communication, B.A. (University College)

Begin Campus: Any Penn State Campus

End Campus: Fayette, Hazleton, Lehigh Valley, Schuylkill, Scranton, Shenango, Wilkes-Barre, York

Program Description

The Penn State Corporate Communication Bachelor of Arts (CCBA) program prepares students for various strategic communication roles

inside and outside organizations. Graduates of the program hold titles such as public relations professional, social media strategist, speech and copywriter, political aide, marketing communication manager, organizational learning and development specialist, corporate recruiter, and event planner. Graduates have earned advanced degrees in areas such as Business, Law, and Corporate Communication.

The CCBA program is interdisciplinary. While providing depth of study in Corporate Communication, it also includes mandatory Business courses and courses focusing on web based competencies such as writing for the web and digital design. With its overall emphasis on the human and design aspects of contemporary organizations, the program is particularly well-suited to individuals seeking to develop and apply their analytical, verbal, and creative talents. Such talents foster aptitudes in strategic counseling and integrative praxis that, in part, make a Corporate Communication degree unique and highly sought after in the marketplace.

What is Corporate Communication?

Corporate Communication encompasses all aspects of strategic communication in for-profit and not-for-profit organizations, from internal communication between senior leaders and frontline professionals to communication with external clients. Corporate communicators are highly skilled professionals in the art of planning, problem solving, and persuading with a sharp understanding of their audience's needs, tastes, and interests.

You Might Like This Program If...

- You know you are creative with strong writing and speaking skills.
- You desire to be an ethical communicator who creates meaningful connections with your audience.
- You possess an international, multicultural mindset.
- You want to pursue a career in social media, public relations, or marketing.

MORE INFORMATION ABOUT CORPORATE COMMUNICATION (<https://www.abington.psu.edu/academics/majors-at-abington/corporate-communication/>)

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Arts degree in Corporate Communication, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	2-9

Bachelor of Arts Degree Requirements	24
Requirements for the Major	51-52

3-9 of the 45 credits for General Education are included in Requirements for the Major. This includes: 3-6 credits of GS courses; 0-3 credits of GH courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

ENGL 420	Writing for the Web	
ENGL 480	Communication Design for Writers	
Select two of the following:		6

CAS 403	Interpersonal Communication Theory and Research	
CAS 404	Conflict Resolution and Negotiation	
CAS/WMNST 455	Topics in Gender and Communication	
CAS 471	Intercultural Communication Theory and Research	
MGMT 433	Leadership and Team Building	
MKTG 310	Public Relations and Marketing	
Select one of the following:		3
CC 404	Risk and Crisis in Corporate Communication	
CC 405	Strategic Speaking	
COMM 472	Public Relations Event Planning	

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN**, may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

Fayette, Hazleton, Lehigh Valley, Schuylkill, Scranton, and Wilkes-Barre Campuses

- Describe the Corporate Communication field and its central questions:

- Explain the origins of the Corporate Communication field.
- Summarize the broad nature of the Corporate Communication field.
- Categorize the various career pathways for students of Communication.
- Articulate the importance of Corporate Communication expertise in career development and civic engagement.
- Examine contemporary debates within the field.
- Distinguish the Corporate Communication field from related areas of study.
- Identify with intellectual specialization(s) in the Corporate Communication field.
- **Employ Corporate Communication Theories, Perspectives, Principles, and Concepts:**
 - Explain Corporate Communication perspectives, theories, principles, and concepts.
 - Synthesize Corporate Communication perspectives, theories, principles, and concepts.
 - Apply Corporate Communication perspectives, theories, principles, and concepts.
 - Critique Corporate Communication perspectives, theories, principles, and concepts.
- **Engage in Corporate Communication Inquiry:**
 - Interpret Corporate Communication scholarship.
 - Evaluate Corporate Communication scholarship.
 - Formulate questions appropriate for Corporate Communication scholarship.
 - Engage in Corporate Communication scholarship using the research traditions of the field.
 - Differentiate among various approaches to the study of Corporate Communication.
 - Contribute to the scholarly conversations appropriate to the purpose of inquiry.
- **Create Messages Appropriate to the Audience, Purpose, and Context:**
 - Locate and use information relevant to goals, audiences, purposes, and contexts.
 - Select creative and appropriate modalities and technologies to accomplish Corporate Communication goals.
 - Adapt messages to the diverse needs of individuals, groups, and contexts.
 - Present messages in multiple communication modalities and contexts.
 - Adjust messages while in the process of communicating.
 - Critically reflect on one's own messages after the communication event.
- **Critically Analyze Messages:**
 - Identify meanings embedded in messages.
 - Articulate characteristics of mediated and non-mediated messages.
 - Recognize the influence of messages.
 - Engage in active listening.
 - Enact mindful responding to messages.
- **Demonstrate the Ability to Accomplish Communicative Goals (Self-Efficacy):**
 - Identify contexts, situations, and barriers that impede communication self-efficacy.

- Perform verbal and nonverbal communication behaviors that illustrate self-efficacy.
- Articulate personal beliefs about abilities to accomplish communication goals.
- Evaluate personal communication strengths and weaknesses.
- **Apply Ethical Corporate Communication Principles and Practices:**
 - Identify ethical perspectives.
 - Explain the relevance of various ethical perspectives.
 - Articulate the ethical dimensions of a Corporate Communication situation.
 - Propose solutions for an (un)ethical Corporate Communication situation.
 - Evaluate the ethical elements of a Corporate Communication situation.
- **Utilize Corporate Communication to Embrace Difference:**
 - Articulate the connection between Corporate Communication and culture.
 - Recognize individual and cultural similarities and differences.
 - Appreciate individual and cultural similarities and differences.
 - Respect diverse perspectives and the ways they influence communication.
 - Articulate one's own cultural standpoint and how it affects communication and world view.
 - Demonstrate the ability to be culturally self-aware.
 - Adapt one's communication in diverse cultural contexts.
- **Influence for Greater Good:**
 - Explain the importance of Corporate Communication for civic life from the local to global levels.
 - Identify the challenges facing communities and the role of Corporate Communication in resolving those challenges.
 - Frame local, national, and/or global issues from a Corporate Communication point of view.
 - Evaluate local, national, and/or global issues from a Corporate Communication point of view.
 - Use Corporate Communication to respond to issues at the local, national, and/or global level.
 - Advocate a course of action to address local, national, and/or global issues from a Corporate Communication point of view.
 - Use Corporate Communication to empower individuals in terms of human rights, human dignity, and human freedom.
- Identify meanings embedded in messages.
- Articulate characteristics of mediated and non-mediated messages.
- Recognize the influence of messages.
- Engage in active listening.
- Enact mindful responding to messages.
- **Employ Corporate Communication Theories, Perspectives, Principles, and Concepts:**
 - Explain the origins of the Corporate Communication field.
 - Summarize the broad nature of the Corporate Communication field.
 - Categorize the various career pathways for students of Corporate Communication.
 - Articulate the importance of Corporate Communication expertise in career development and civic engagement.
 - Examine contemporary debates within the field.
 - Distinguish the Corporate Communication field from related areas of study.
 - Identify with intellectual specialization(s) in the Corporate Communication field.
- **Influence for Greater Good:**
 - Explain the importance of Corporate Communication for civic life from the local to global levels.
 - Identify the challenges facing communities and the role of Corporate Communication in resolving those challenges.
 - Frame local, national, and/or global issues from a Corporate Communication point of view.
 - Evaluate local, national, and/or global issues from a Corporate Communication point of view.
 - Use Corporate Communication to respond to issues at the local, national, and/or global level.
 - Advocate a course of action to address local, national, and/or global issues from a Corporate Communication point of view.
 - Use Corporate Communication to empower individuals in terms of human rights, human dignity, and human freedom.
- **Utilize Corporate Communication to Embrace Difference:**
 - Articulate the connection between Corporate Communication and culture.
 - Recognize individual and cultural similarities and differences.
 - Appreciate individual and cultural similarities and differences.
 - Respect diverse perspectives and the ways they influence communication.
 - Articulate one's own cultural standpoint and how it affects communication and world view.
 - Demonstrate the ability to be culturally self-aware.
 - Adapt one's communication in diverse cultural contexts.

Shenango Campus

- **Create Messages Appropriate to the Audience, Purpose, and Context:**
 - Locate and use information relevant to goals, audiences, purposes, and contexts.
 - Select creative and appropriate modalities and technologies to accomplish Corporate Communication goals.
 - Adapt messages to the diverse needs of individuals, groups, and contexts.
 - Present messages in multiple communication modalities and contexts.
 - Adjust messages while in the process of communicating.
 - Critically reflect on one's own messages after the communication event.
- **Critically Analyze Messages:**

York Campus

- Advocate a course of action to address local, national, and/or global issues from a Corporate Communications point of view.
- Apply Corporate Communication perspectives, theories, principles, and concepts.
- Describe the Corporate Communication field and its central questions.
- Engage in Corporate Communication scholarship using the research traditions of the field.

- Articulate the ethical dimensions of a Corporate Communications situation.
- Select creative and appropriate modalities and technologies to accomplish Corporate Communication goals.
- Ability to understand, apply, critique, and extend communication concepts, theories, and perspectives.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Integrative Studies (either Inter-domain or Linked Courses)

Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

Corporate Communication, B.A. at Scranton Campus

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of 'C' or better.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 3153) of this Bulletin.

Bachelor of Arts students must take 3 credits in World Cultures. See your adviser and the full list of courses approved as World Cultures courses (p. 3220).

Additional Notes:

This suggested academic plan recommends the most frequently offered courses in fields where students have the choice of taking one of several classes. The plan also notes prerequisites for selected courses to emphasize the importance of adhering to the course sequence.

University Requirements and General Education Notes:

Corporate Communication, B.A. at Shenango Campus

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

Corporate Communication is a challenging and exciting career field. Corporate communicators manage the dissemination of information to key constituencies, the execution of corporate strategy, and the development of messages for a variety of purposes inside and outside the organization. Corporate communicators usually oversee media relations, crisis communications, internal communications, reputation management, corporate responsibility, investor relations, government affairs, and sometimes marketing communication. The Penn State Abington Center for Career & Professional Development supports and serves students in all areas related to career development and preparation including career counseling and coaching, internships, resume creation, interview training, and job search strategies.

Careers

A Corporate Communication degree can lead to a career in for-profit businesses or in not-for-profit areas such as charitable, political, health care, and educational organizations. You'll be prepared to work as a professional in a wide range of fields including event planning, human resources, marketing, public relations/public information, and social media relations.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE CORPORATE COMMUNICATION PROGRAM (<https://www.abington.psu.edu/academics/majors-at-abington/corporate-communication/>)

Opportunities for Graduate Studies

A baccalaureate degree in Corporate Communication prepares students to pursue master's degrees in programs such as strategic communication and obtain admission to MBA programs and law schools, among other post-graduate opportunities.

Corporate Communication, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The minor in Corporate Communication (CC-UMNR) introduces students to strategic communication for organizations or brands, including for-profit business, non-profit organizations, and government entities. The minor will prepare students to support organizations or brands with their communication goals and stakeholder relationship management. Students will be introduced to foundational concepts of corporate communication. Additionally, students will engage in studying internal or external communication practices that contribute to organizational brand and reputation. Students will also have an opportunity to pursue special interests in corporate communication, such as social and digital media, risk and crisis communications, writing for the web, marketing, and management strategies.

What is Corporate Communication?

Corporate Communication encompasses all aspects of strategic communication in for-profit and not-for-profit organizations, from internal communication between employees, senior leaders, and frontline professionals to communication with external stakeholders such as customers, media organizations, and regulatory organizations. Corporate communicators are highly skilled professionals in the art of planning, problem solving, and persuading with a sharp understanding of their audiences' needs, expectations, and interests.

You Might Like This Program If...

- You know you are creative with strong writing and speaking skills.
- You desire to be an ethical communicator who creates meaningful connections with your audience.
- You possess an international, multicultural mindset.
- You want to pursue a career in social media, public relations, or marketing.

Program Requirements

Requirement	Credits
Requirements for the Minor	18-19

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10>). In addition, at least six credits of the minor must be unique from the prescribed courses required by a student's major(s).

Criminal Justice, A.S. (University College)

Begin Campus: Greater Allegheny

End Campus: Greater Allegheny

Program Description

Students receiving an associate degree in criminal justice should understand each of the three main components of the criminal justice system and their interrelationships. This program includes study in law enforcement, courts, and corrections individually and as components of a system, plus work in theories of crime causation, and crime control policy. Students should expect reading, writing, and critical thinking skills to be rigorously applied and developed throughout the degree program. The Associate in Science degree in Criminal Justice prepares students for entry-level positions in criminal justice or for study at the baccalaureate level.

What is Criminal Justice?

Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law, public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.

You Might Like This Program If...

You have an interest in working in corrections, courts, court administration, law enforcement, or probation and parole. Students completing this course of study are prepared for entry level positions in the criminal justice system or to complete the baccalaureate level.

MORE INFORMATION ABOUT CRIMINAL JUSTICE (<https://altoona.psu.edu/academics/bachelors-degrees/criminal-justice/>)

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Science in Criminal Justice, a minimum of 64 credits is required:

Requirement	Credits
General Education	21
Electives	26
Requirements for the Major	29

12 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GH courses; 3 credits of GQ courses; 6 credits of GS courses.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each

course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits

<i>Additional Courses: Require a grade of C or better</i>		
CRIMJ 250		3
or SOC 207	Research Methods in Sociology	

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 3 credits
- **Writing and Speaking (GWS):** 3 credits

Knowledge Domains

- **Arts (GA):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Note: Up to six credits of Inter-Domain courses may be used for any Knowledge Domain requirement, but when a course may be used to satisfy more than one requirement, the credits from the course can be counted only once.

Exploration

- **Any General Education course (including GHW and Inter-Domain):** 3 credits

University Degree Requirements

Cultures Requirement

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 60 degree credits must be earned for an associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives

- **Communicate:** Demonstrate ability to effectively communicate practical and theoretical criminal justice issues through papers, posters, and oral presentations
- **Do Research:** Demonstrate ability to formulate research questions, implement basic quantitative and qualitative research methods, and collect and analyze limited data
- **Know Context:** Demonstrate understanding around the relationship between culture, social class, race and ethnicity and criminal justice involvement
- **Know Structure:** Demonstrate understanding around the history, structure and function of the three branches of criminal justice (Courts, Law Enforcement, Corrections)
- **Know Theory:** Demonstrate understanding of core theories in criminology and the sociology of deviance and their relevance to different types of offenses and offenders
- **Think Critically:** Demonstrate ability to solve criminal justice problems through an understanding of context, the identification of appropriate evidence, and appreciation of potential barriers and limitations

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary

academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Criminal Justice, B.A. (University College)

Begin Campus: Any Penn State Campus

End Campus: Beaver, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, New Kensington, Schuylkill, Shenango, Wilkes-Barre

Program Description

Students receiving a baccalaureate degree in criminal justice should understand each of the three main components of the criminal justice system and their interrelationships, be able to evaluate critically both current and future crime control policy proposals and criminal justice research, and understand the complexity of the crime phenomenon and its relationship to individual, social, and cultural factors. This major includes study in law enforcement, courts and corrections individually and as components of a system, plus work in theories of crime causation, and crime control policy. Students should expect reading, writing, and critical thinking skills to be rigorously applied and developed throughout the degree program. The Bachelor of Arts degree in Criminal Justice provides a broadly based liberal arts background for the study of crime, justice and the criminal justice system. The Bachelor of Science degree offers an opportunity for educational enrichment in fields not traditionally considered part of the liberal arts. Either degree is excellent preparation for a career in criminal justice, graduate, or professional study, or informed citizenship.

What is Criminal Justice?

Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law, public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.

You Might Like This Program If...

You have an interest in working in corrections, courts, court administration, law enforcement, and probation and parole. Students completing this course of study are prepared to enter law school and graduate degree programs in more specialized areas. Every student in this degree will participate in an internship at a host agency located in a local, state or federal agency of their choice.

MORE INFORMATION ABOUT CRIMINAL JUSTICE (<https://altoona.psu.edu/academics/bachelors-degrees/criminal-justice/>)

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have at least third-semester classification (<https://www.registrar.psu.edu/enrollment/semester-classification.cfm>).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/>)

Degree Requirements

For the Bachelor of Arts degree in Criminal Justice, a minimum of 120 credits is required:

Requirement	Credits
General Education	45
Electives	6-10
Bachelor of Arts Degree Requirements	24
Requirements for the Major	48-49

4-7 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 0-3 credits of GH courses; 4 credits of GQ courses.

3 of the 24 credits for General Education are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if world language proficiency is demonstrated by examination.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44>).

Code	Title	Credits
Prescribed Courses		
<i>Prescribed Courses: Require a grade of C or better</i>		
CRIMJ 100	Introduction to Criminal Justice	3
CRIMJ 210	Policing in America	3
CRIMJ 220	Courts and the Prosecution Process	3
CRIMJ 230	Corrections in America	3
CRIMJ 290	Introduction to Internship Experience	2
CRIMJ 441	The Juvenile Justice System	3

CRIMJ 450W	Senior Seminar	3
CRIMJ 495	Internship in Criminal Justice	3
SOC 12	Criminology	3
SOC 119N	Race, Ethnicity and Culture	3-4
STAT 200	Elementary Statistics	4

Additional Courses

Additional Courses: Require a grade of C or better

CRIMJ 250W	Research Methods in Criminal Justice	3
or SOC 207	Research Methods in Sociology	
PHIL 103	Ethics	3
or CRIMJ 465	Ethics in Criminal Justice	

Select 9 credits from any 400-level CRIMJ course that does not already fulfill another requirement in the major 9

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 3184) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required and Inter-Domain courses do not meet this requirement.)

- **Quantification (GQ):** 6 credits
- **Writing and Speaking (GWS):** 9 credits

Breadth in the Knowledge Domains (Inter-Domain courses do not meet this requirement.)

- **Arts (GA):** 3 credits
- **Health and Wellness (GHW):** 3 credits
- **Humanities (GH):** 3 credits
- **Social and Behavioral Sciences (GS):** 3 credits
- **Natural Sciences (GN):** 3 credits

Integrative Studies

- **Inter-Domain Courses (Inter-Domain):** 6 credits

Exploration

- **GN,** may be completed with Inter-Domain courses: 3 credits
- **GA, GH, GN, GS, Inter-Domain courses.** This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (<https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80>)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

World Language (0-12 credits): Student must attain 12th credit level of proficiency in one world language in addition to English. This proficiency must be demonstrated by either examination or course work. See the Placement Policy for Penn State World Language Courses (p. 3180).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, World Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; world language credits in this category must be in a second world language in addition to English or beyond the 12th credit level of proficiency in the first language). Credits must be selected from the list of approved courses.

World Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the University Cultural Diversity (US/IL) requirement.

Program Learning Objectives

Beaver, New Kensington, and Shenango Campuses

- Students will be able to have a basic understanding of the nature of the three branches of the Criminal Justice System (Legal, Law Enforcement, Corrections).

- Students will be able to apply analysis and evaluation strategies specific to criminal justice/criminology to formulate solutions to criminological problems.
- The students will have developed a core of criminological knowledge and concepts which will help them understand the functioning of and issues relevant to the criminal justice system.
- Students will be able to understand and apply theories of criminal and deviant behavior, and the behavior of law.
- Students will be able to read and correctly interpret Criminal Justice research and data.
- Students will be able to understand the relationship between culture, social class and criminal justice.
- Students will be able to communicate criminological issues effectively and deliver written and/or oral presentations.
- Students will be able to demonstrate knowledge and application skills regarding the fact that the criminal justice professional must operate in a climate of tolerance and respect where opposing viewpoints can be exchanged openly.
- Students will be able to show professionalism, interact appropriately with colleagues, uphold professional ethical principal, and work ethically, as part of their internships, consistent with professional standards and practices.

DuBois and Greater Allegheny Campuses

- **Know Structure:** Demonstrate understanding around the history, structure, and function of the three branches of criminal justice (Courts, Law Enforcement, Corrections).
- **Know Context:** Demonstrate understanding around the relationship between culture, social class, race and ethnicity, gender and sexuality and criminal justice involvement.
- **Know and Use Theory:** Demonstrate understanding of core theories in criminology and the sociology of deviance along with their relevance to different types of offenses and offenders.
- **Think Critically:** Demonstrate ability to solve criminal justice problems through an understanding of context, the identification of appropriate evidence, and appreciation of potential barriers and limitations.
- **Research:** Demonstrate ability to formulate research questions, implement basic quantitative and qualitative research methods, collect and analyze limited data.
- **Communicate:** Demonstrate ability to effectively communicate practical and theoretical criminal justice issues through papers, visual media, and oral presentations.

Fayette Campus

- **Application of research methods:** Students will create a plan to answer a specific research question related to crime and criminal justice.
- **Evaluation of strategies to reduce crime:** Students will evaluate the effectiveness of prominent crime control policies and strategies.
- **Identification of power structures:** Students will enumerate the motives and forces that determine the shape and scope of criminal law.
- **Identify Alternatives:** Students will identify alternatives to the formal criminal justice systems as a means of facilitating pro-social, non-criminal behaviors.
- **Knowledge of American Criminal Justice System:** Students will identify and describe the components of the American criminal justice system and the processing of cases.

- **Knowledge of crime theories:** Students will identify the elements that comprise the major biological, psychological, and sociological perspectives that attempt to explain the causes of crime.

Hazleton and Wilkes-Barre Campuses

- **Knowledge Base in Criminal Justice:** Students will develop knowledge and understanding of the major components of the criminal justice system and juvenile justice system as well as how these components interact. Student understanding of the criminal justice process will be enhanced through targeted courses in courts, corrections, and policing that highlight the unique needs, challenges, and operation of these components. Across the curriculum, students will be exposed to criminological theories that help to explain the role of gender, race/ ethnicity, and other background characteristics on offending, victimization, and criminal justice processing.
 - Describe key concepts, principles, and overarching themes in criminal justice
 - Develop a working knowledge of criminal justice content domains
 - Describe applications of criminological theory
- **Research Methods:** Students will understand the importance and practical use of social science research methods and the role these play in criminal justice policy.
 - Use scientific reasoning to interpret criminal justice policy
 - Demonstrate criminal justice information literacy
 - Engage in innovative and integrative thinking and problem solving
 - Interpret, design, and conduct basic criminological research
- **Professional Writing and Critical Thinking:** Students will practice writing and critical thinking skills through writing assignments across the curriculum and the completion of at least one writing intensive course.
 - Demonstrate effective writing for different purposes
 - Exhibit effective presentation skills for different purposes
 - Interact effectively with others
 - Demonstrate critical thinking skills concerning issues in criminal justice
- **Ethics:** Students will understand the role of ethics in criminal justice.
 - Apply ethical standards to evaluate criminal justice research and policy
 - Build and enhance interpersonal relationships
 - Adopt values that build community at local, national, and global levels
- **Placement:** Students will be prepared for placement in the criminal justice field through an internship experience.
 - Apply criminal justice content and skills to career goals
 - Exhibit self-efficacy and self-regulation
 - Refine project and time-management skills
 - Enhance teamwork capacity
 - Develop meaningful professional direction for life after graduation

Schuylkill Campus

- Students will be able to have a basic understanding of the nature of the three branches of Criminal Justice System (Legal, Law Enforcement, Corrections)
- Students will be able to have developed critical thinking skills to understand and to formulate solutions to problems relating to criminological issues.

- Students will be able to read and correctly interpret Criminal Justice research and data. Data will be collected from CRIMJ 494 the capstone course for the program.
- Students will be able to demonstrate knowledge and application skills regarding the fact that the criminal justice professional must operate in a climate of tolerance and respect where opposing viewpoints can be exchanged openly.
- Analyze the nature of crime and criminal behavior and their impact on policy related to crime and public safety.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.
