

Introducing....

Dear Students,

Copleaks is an advanced AI content and plagiarism detector. The Copleaks Plagiarism Checker uses advanced AI to detect plagiarism in over 100 languages, the slightest variations within the text, paraphrasing, and AI-generated content.

The Generative AI tool is placed in each course and upon submission, will assess your discussion forum postings and writing assignments in Moodle so that you can see your results. The AI tool also provides a detailed report of its findings so that you can review, improve, and deliver high quality written work.
