

Recycled Content

What is it?

Recycled Content certification helps manufacturers of building products, wood and paper products, plastics, packaging, textiles, clothing, jewelry, and more meet their sustainability goals.

- **SCS Recycled Content Certification** - Evaluates products made from pre-consumer or post-consumer material diverted from the waste stream. Certification measures the percentage of recycled content for the purpose of making an accurate claim in the marketplace.
- **SCS Recycling Program Certification** - Helps recyclers and reclamation facilities make credible claims about their diversion strategies and recycling rates.

Benefits of Recycled Content Certification

- Qualify for LEED and environmentally preferable purchasing programs
- Meet regulatory requirements
- Satisfy purchase requirements and customer specifications
- Demonstrate leadership and product differentiation
- Effectively communicate and provide transparent documentation of your product's recycled content
- Listing of products in SCS Green Products Guide

Bundling and sourcing discounts are available, contact us to determine eligibility!
