		"Calf" is defined as any calf of the bovine species kept for the purpose of producing the food product described				
		as veal.				
		"Kept for the purpose of producing" for purposes of section				
		25991(d) of the Health and Safety Code and this Article means				
		keeping a calf of the bovine species that is, or is intended to				
		be, slaughtered at more than 21 days of age or more than 150 pounds in liveweight for the production of food described,				
		advertised, represented, identified, or labeled as veal.				
	All facility enclosures shall allow the calf to lie down, stand up, fully extend limbs, and turn around freely.	"Fully extending the animal's limbs" means fully				
		extending all limbs without touching the side of an				
		enclosure, or another animal.				
	(c) Exceptions to the requirements of this section are	"Turning around freely" means turning in a complete circle				
1.1 1321.1(a)(1)	specified in section 25992 of the Health and Safety Code and Article 4 of this Chapter.	without any impediment, including a tether, and without touching the side of an enclosure or another animal.				
1521.1(0)(1)	and record for this drapter.	todaming the state of an endosate of another animal.				
1						
		"Usable floorspace" means the total square footage of floorspace provided to each covered animal, as calculated by				
		dividing the total square footage of floorspace provided to				
1		the animals in an enclosure by the number of animals in that				
1		enclosure.This floorspace shall also include ground-space for enclosures that are outdoor pens or pastures				
		accessible at all times by all calves confined in the				
1.2	All facility enclosures provide a minimum of 43 square	enclosure. "Enclosure" means a structure used to confine an animal or animals (i.e. a structure means any cage, crate, pen,				
1321.1(a)(2)	feet of usable floorspace per calf.	or other construction used to confine a calf).				
	Calves are not confined in non-compliant enclosures for					
1.3	husbandry purposes for more than six hours per day and					
1324.1(a)(7)	no more than a total of 24 hours in a 30-day period.					
1	If calves are kent in non-compliant enclosures for					
	If calves are kept in non-compliant enclosures for husbandry purposes, there are records demonstrating					
1.4	calves are not confined longer than 6 hours in a 24-hour					
1324.1(a)(7) and 1326.2(b)(1)	period and no more than 24 hours total in a 30-day period.					
		"Individual treatment" for purpose of section 25002.				
		"Individual treatment" for purposes of section 25992 of the Health and Safety Code, and this Chapter, means any				
		protocol, practice, procedure, or application of care				
		concerned with the diagnosis, treatment, mitigation, or prevention of animal disease, injury or harm that is				
	If calves are kept in non-compliant enclosures for	prevention of animal disease, injury or harm that is administered by, or conducted under the order or				
	individual treatment, there are records of valid VCPR,	recommendation of, a licensed veterinarian as part of a				
1.5 1324.1(a)(2) and	written veterinary protocol for use of individual treatment and individual treatment records are kept by the	veterinarian-client-patient relationship as defined in section 530.3(i) of Title 21 of the Code of Federal Regulations (April				
1326.2(b)(1)	producer.	2021).				
	Building designs must be available that detail number of enclosures available, amount of usable floorspace per					
1.6	enclosure and maximum stocking density for each					
1326.2(b)(6)	enclosure.					

1.7	Documentation is available for size of operation, number of calves housed in each enclosure, and dates of stocking,					
1326.2(b)(6)	harvest, and production.					
1.8	Varify information submitted with application for					
1.8 1326.5(c)(2)	Verify information submitted with application for certification is accurate.
