

May 6, 2024

Hello,

I am writing to inform you that the Department of Environmental Quality Chemistry Laboratory will be increasing our laboratory testing fees by 10% on June 1, 2024.

Our last fee increase was in August of 2019. A review of some of our commonly used supplies and services indicated costs for these have risen from 5% to as much as 98% since 2021.

We appreciate the opportunity to fulfill your chemical laboratory analysis needs.

Please contact me if you have any questions.

Jim Quarnstrom

Director of Chemistry, Environmental Quality
