348 Payson Rd.
Belmont, Mass.

Dear Professor Terracina,

As you will see from the enclosed "tentative program" our 2nd Intern. Conference is definitively settled for Sept. 1972 at St. John's University, New York is an excellent place for such a gathering.

To secure a concentrated and constructive debate we propose it in great lines 100% by the concatenations of problems treated in the papers, secondly, by the inaugural lecture, Thirdly, and most successfully, by the initiative of the chairmen of the sessions.

I believe that we could profit
from your knowledge in
postulates, should you accept

to preside the first session which
outlines all the major issues to be
treated in the subsequent ones.

I hope that you will honor us by
your acceptance. If you do, we
could may be, meet in the near
future and make a perusal of
the papers to be read.

With best personal regards

23.1.72

yours

Terese Tymoczko

PS. The papers, debate, your short address
etc. will be published in the
vol. III of The ANALECTA HUSSERLIANA.
