

**Kathleen Sullivan, MD PhD FAAAAI**

Speaker Biography

Dr. Sullivan is the Division Chief of Allergy Immunology, Professor of Pediatrics, and the Director of the Undiagnosed Disease Program at Children's Hospital of Philadelphia. She trained at UCSF and Johns Hopkins and has been at the Children's Hospital of Philadelphia since 1993. She is the Division Chief of Allergy Immunology, and oversees one of the largest North American clinics for inborn errors of immunity. She is a past president of the Clinical Immunology Society and has served on the Basic and Clinical Immunology Committee of the AAAAI and the AAAAI Board. She chairs USIDNET, the North American registry of patients with primary immune deficiencies and is a past Chair of the IUIS committee on inborn errors of immunity. She co-edits Stiehm's textbook on Immune Deficiencies. Her basic science research interests include understanding inflammation and the mechanism of regulating gene expression in inflammatory diseases. Her clinical interests include the study of patients with DiGeorge syndrome/Chromosome 22q11.2 deletion syndrome, variables related to outcomes of patients with primary immunodeficiencies, and developing diagnostic methods using advanced technologies.
