

California Department of Public Health Immunization Updates for Providers

Friday, February 23, 2024

9:00AM – 10:30AM

Questions

During today's webinar, please use the Q&A panel to ask your questions so CDPH subject matter experts can respond directly.

Resource links will be dropped into, "Chat"

Housekeeping

Reminder to Panelists:

Please mute yourself when not speaking.

Please monitor the Q&A panel for questions you may be able to answer.

Reminder to Attendees:

Today's session is being recorded. For slides, webinar recordings, and other postings, see the

[CDPH Weekly Immunization Updates for Providers](#)

To be added to the CDPH email messaging listserv for providers, please email your request to billiedawn.greenblatt@cdph.ca.gov

If you have post-webinar-related questions, please email leslie.amani@cdph.ca.gov

Agenda: Friday, February 23, 2024

No.	Item	Speaker(s)	Time (AM)
1	Welcome and Announcements	Leslie Amani (CDPH)	9:00 – 9:10
2	COVID-19 Vaccine Administration Data	Hailey Maeda (CDPH)	9:10 – 9:15
3	California Immunization Registry (CAIR) Overview	Michael Powell (CDPH)	9:15 – 9:25
4	Clinical Update	Jennie Chen, MD (CDPH)	9:25 – 9:30
5	Vaccine Management	Josh Pocus (My Turn) and Maria Volk (myCAvax)	9:30 – 9:40
6	Resources and Q&A	Leslie Amani (CDPH)	9:40 – 10:30
Thank you!			

Announcements

Leslie Amani, CDPH

Change: Provider Webinar Cadence

The CDPH Immunization Updates for Providers Webinar series is beginning a new cadence! The Friday webinars will move to a biweekly (every other Friday) cadence.

There will be **no** Friday webinar on Friday, March 1, 2024.

The next session will be held on Friday, March 8, 2024, from 9AM – 10:30AM.

Please continue to use the [CDPH Immunization Updates for Providers Zoom Registration Link](#) to join the sessions.

CDPH appreciates your continued attendance. Thank you for all that you are doing for the health and wellness of all Californians!

Respiratory Syncytial Virus (RSV) Fact Sheet

Vaccine Fact Sheet: Respiratory Syncytial Virus (RSV)

Topic	Abrysvo™	Arexyv
Manufacturer	Pfizer	GSK
Product Info	Detailed prescribing information	Detailed prescribing information
Protects Against	RSV	RSV
Approved Ages	<ul style="list-style-type: none"> Individuals ≥60 years of age Pregnant individuals at 32-36 weeks gestational age 	Individuals ≥60 years of age
Routine Schedule & Intervals	<ul style="list-style-type: none"> One dose for individuals 60 years of age and older using shared clinical decision-making. One dose for pregnant individuals at 32-26 weeks gestational age using seasonal administration (typically September to January). 	One dose for individuals 60 years of age and older using shared clinical decision-making .
Administration	(IM) Intramuscular injection	(IM) Intramuscular injection
Packaging	Supplied in a kit that includes a vial of lyophilized antigen component, a prefilled syringe containing sterile water diluent component and a vial adapter. Supplied in cartons of 1, 5, or 10 kits.	Supplied in 2 vials that must be reconstituted prior to administration (lyophilized antigen component and adjuvant suspension). Supplied in carton of 10 doses.
Dosage	0.5mL single dose after reconstitution	0.5mL single dose after reconstitution
Storage	<p>Before reconstitution:</p> <p>Store refrigerated at 2°C to 8°C (36°F to 46°F) in the original carton.</p> <p>Preparation:</p> <p>Prepare by reconstituting the lyophilized antigen component (a sterile white powder) with the accompanying prefilled syringe containing sterile water diluent component.</p> <p>Do not freeze. Immunization Fact Sheet: RSV – nirsevimab (Beyfortus™)

Immunization Fact Sheet:
Respiratory Syncytial Virus (RSV)

Topic	Nirsevimab (Beyfortus™)
Manufacturer	AstraZeneca and Sanofi
Product Info	Detailed prescribing information use links
Protects Against	Respiratory Syncytial Virus (RSV)
Approved Ages	FDA Licensed for: <ul style="list-style-type: none"> Neonates and infants born during or entering their first RSV season. Children up to 24 months of age who remain vulnerable to severe RSV disease through their second RSV season.
Routine Schedule & Intervals	<p>1 dose for all infants <8 months born during or entering their 1st RSV season if:</p> <ul style="list-style-type: none"> The birth parent did not receive RSV vaccine during pregnancy. The birth parent's RSV vaccination status is unknown. The infant was born within 14 days of prenatal RSV vaccination. <p>1 dose for infants and children 8–19 months old entering their 2nd RSV season and who are at increased risk for severe RSV:</p> <ul style="list-style-type: none"> Native American/Alaska Native children Children with chronic lung disease of prematurity who required medical support (chronic corticosteroids, diuretics, or supplemental oxygen) any time during the 6-month period before the start of the second RSV season. Children who are severely immunocompromised. Children with cystic fibrosis who have either: <ul style="list-style-type: none"> Severe lung disease (previous hospitalization for pulmonary exacerbation in the first year of life or abnormalities on chest imaging that persist when stable). Weight-for-length that is <10% percentile.
Administration	IM (Intramuscular) Injection.
Packaging	<p>Pre-filled syringes:</p> <ul style="list-style-type: none"> 50mg (0.5mL) with purple plunger rod (for infants weighing <5 kg) 100 mg (1mL) with light blue plunger rod <p>Cartons of five pre-filled syringes:</p> <ul style="list-style-type: none"> Five 50 mg/0.5 mL single-dose pre-filled syringes in a carton Five 100 mg/1 mL single-dose pre-filled syringes in a carton <p>Packaging images available at: See packaging images</p>
Dosage	<p>Age <8 months:</p> <ul style="list-style-type: none"> Weight <5 kg: 50 mg dose (purple plunger rod) Weight ≥5 kg: 100 mg dose (light blue plunger rod) <p>Age 8-19 months:</p> <ul style="list-style-type: none"> 200 mg dose (2 separate 100 mg injections, at the same time at different sites)

California Department of Public Health, Immunization Branch IMM-1512 (2/7/24)

Vaccine Fact Sheet: Respiratory Syncytial Virus (RSV) (Continued)

Topic	Nirsevimab (Beyfortus™)
Recommended Timing	<ul style="list-style-type: none"> For infants born during RSV season: Within 1 week of birth. Infants with prolonged birth hospitalizations should receive nirsevimab shortly before or promptly after hospital discharge. For infants born outside of RSV season and children 8-19 months: Optimal administration is at the start of RSV season, usually October. <p>Nirsevimab should be offered throughout the RSV season, typically October through March. For considerations of nirsevimab versus palivizumab for high-risk children, see: Nirsevimab (Beyfortus) Timing Guide</p>
Shipping	Nirsevimab ships similarly to other pediatric routine vaccines.
Storage	<p>Routine Storage: In a refrigerator at 2°C – 8°C; DO NOT FREEZE.</p> <p>Short-term storage: Room temperature (20°C – 25°C), for 8 hours, if protected from light.</p>
Use-by Limit	Nirsevimab has a shelf life of about 18 months. Once removed from the refrigerator, must be used within 8 hours or discarded.
Expiration Date	See packaging for expiration info. Nirsevimab can be returned after expiration, similar to other Sanofi vaccine products. See more for details.

CDPH Webinar: California Prenatal Screening Program

Topic: California Prenatal Screening Program Updates

When: Wednesday, March 6, 2024

Time: 5PM – 6:30PM, PST

CDPH invites health professionals to join a [webinar about updates to California's Prenatal Screening Program](#). The sex chromosome aneuploidies (SCAs or X and Y chromosome variations) are now included in the California Prenatal Screening Program cfDNA panel. Continuing Medical Education credits will be offered.

Continuing Medical Education (CME) credits will be available for 1.5 AMA PRA Category 1 Credits TM.

[Register: CA Prenatal Screening Program Webinar: Expansion of the Prenatal Screening Panel](#)

Equity-Centered Community Engagement by Public Health Departments: Lessons from the Field

The California Department of Public Health (CDPH) and many LHJs in California are working to be more inclusive of historically marginalized communities in their engagement and decision-making.

Building off of a recently-released [research brief](#) published by [Onside Partners](#) and [ThinkForward Strategies](#) in partnership with [Blue Shield California Foundation](#), this webinar will explore what authentic community engagement by public agencies looks like and showcase inspiring examples from diverse California public health and education agencies that have successfully transformed their engagement strategies. These examples illustrate that meaningful change doesn't necessarily demand vast resources but rather requires strong leadership and internal capacity building. We will hear from state and local public health practitioners about their equity-centered community engagement practices and what they see as the keys to success. Audience members will also have the opportunity to share their own community engagement practices and ask questions to the speakers. This webinar is sponsored and co-hosted by Blue Shield of California Foundation.

Speakers:

- Dr. Rohan Radhakrishna, Deputy Director, CA Department of Public Health, Office of Health Equity
- Karen Ben-Moshe, Program Officer, Blue Shield of California Foundation
- Christine Fry, Principal, Onside Partners
- Practitioner Speakers – To be announced

When: Tuesday, March 12, 2024

Time: 2PM – 3:15PM

Register: [Equity-Centered Community Engagement by Public Health Departments: Lessons from the Field](#)

Training Opportunity for VFA Providers

Audience: Identified Vaccines for Adults (VFA) key practice staff

Next Training Opportunity:

Thursday, February 29, 2024, 11AM, PST: [VFA 102 Training for Providers](#)

Save the Date – VFA Webinar

Audience: Identified VFA Key Practice Staff + Medical Staff for Adult Patient Population

Wednesday, March 13, 2024, 12 – 1PM, PST (*Registration Link will be sent soon!*)

Topics: Program Updates, ACIP Update, and a Peer-to-Peer sharing opportunity to hear about Best Practices from Golden Valley Health Centers

CDPH Infection Prevention Webinars

CDPH Infection Prevention Webinars

The California Department of Public Health (CDPH)—with the California Association of Long Term Care Medicine (CALTCM), California Association of Health Facilities (CAHF), and Health Services Advisory Group (HSAG)—hosts a monthly (4th Wednesday) webinar on infection prevention for long term care facilities to discuss any recent updates on Coronavirus Disease 2019 (COVID-19) and provide a venue for addressing questions. The webinars focus on infection prevention guidance for SNFs. It is recommended that SNF infection prevention staff attend. Local health departments and SNF administrators, directors of nursing, and medical directors are also encouraged to attend. Please register in advance; space is limited. A recording link will be available the day following the webinar.

Day of the webinar event: Call-in telephone number for all webinars is: **415.655.0003**. You may join via computer (using your computer or telephone for audio) or by telephone only. (If you join the video portion of the webinar, for a better webinar experience we recommend you have Webex call your phone—don't dial in yourself).

Note: The CDPH 2nd Tuesday all-facilities phone calls have been discontinued for 2024.

2024 California Immunization Coalition Summit

Audience: Physicians, pharmacists, nurses, administrators, educators, immunization stakeholders, coalition members, advocates and other providers from the public and private sector who are involved in working on current immunization issues, strategies and activities.

Location: Sacramento, CA

The **2024 California Immunization Coalition Summit** will provide clinical updates and the latest information on issues related to vaccine administration and communication. Participating in this statewide event will provide access to the latest information on immunization issues and communication strategies and will help connect you with public health colleagues and private sector representatives that can assist your work in educating and supporting your community. The Summit is a terrific opportunity to renew our collective vision to make access to vaccinations and disease prevention a reality for all Californians.

Measles Messaging

Measles is a very contagious disease caused by a virus. About 9 out of 10 people who are not protected will become infected following exposure to the measles virus. It spreads through the air when a person with measles coughs or sneezes. Measles starts with a cough, runny nose, red eyes, and fever. Then a rash of red spots breaks out.

[Share messages](#) reminding Californians to make sure they and their children are up to date on the MMR (measles-mumps-rubella) vaccine and other recommended routine vaccines, including flu and COVID-19, especially before travel.

[Learn more](#) about measles activity in California.

My Turn – Known Issues and Workarounds

Known Issues

Flu Clinic Inventory Changes pre-Jan 9, 2024

- ✓ If you changed your flu inventory between December 12, 2023, and January 9, 2024, to the new inventory object and did not resubmit your appointment records, then they will show as invalid. Please resubmit your records through IIS Edit.

Missing 'View More' Button in the Knowledge Center

- ✓ If a Clinic Manager or Vaccine Administrator attempts to access the 'All About My Turn' section of the Knowledge Center, they may notice that we are missing some knowledge articles. These articles are currently hidden behind the missing 'View More' button. We are working to get the button back on the page so that the rest of the articles can be accessed.

Workaround / Next Steps

- ✓ Fixed: **Tuesday, January 9, 2024**
- ✓ If you have more than 500 records to resubmit, please contact the helpdesk

- ✓ Estimated Fix: **Wednesday, February 28, 2024**

VFA and LHD 317 Programs Now Live in myCAvax!

What's New in myCAvax? – Release 45 (1 of 2)

New updates for providers launched on Tuesday, February 20, 2024!

Release Highlights

All providers must:

- ✓ Enter the storage unit's brand, model, the thermometer's model, and serial number and specify the vaccine stored (by Program name) in the unit while updating storage unit records
- ✓ Have at least one backup thermometer entered in the system while creating / updating storage units

All providers can:

- ✓ View the new warning message to upload the thermometer's certificate of calibration in the 'Uploaded Documents' tab when updating the thermometer type, model, serial number, or calibration expiration date
- ✓ View the updated 'Returns and Waste' label on the options / buttons instead of 'Waste'
- ✓ View the 'Inventory On-Hand' group header updated to 'Accountability under the 'On-Hand Inventory' tab on vaccine order records
- ✓ Receive email communications when their thermometer's calibration expiration date is due or has passed the due date
- ✓ Use the new and updated multi-line transfer entry form introducing the new 'Transport Container' feature enabling them to enter multiple products in a single transfer entry

Providers enrolled in the Vaccines for Adults (VFA) / LHD 317 program can:

- ✓ View the new 'Vaccines for Adults / LHD 317' program tile on the home page
- ✓ Begin recertification by clicking the 'Recertify Locations' button visible in the 'Vaccines for Adults / LHD 317' program tile
- ✓ Enter / submit VFA / LHD 317 vaccine orders from the 'VFA / 317 Order Request' page; only one order can be placed during an ordering period
 - ❑ **Note:** Vaccine orders in the 'Draft' and 'Corrections Needed' statuses expire automatically after 14 days from the last modified date.
- ✓ Enter VFA / LHD 317 Returns and Waste Events from the 'VFA / LHD 317 Returns and Waste Events' page
- ✓ Enter VFA / LHD 317 Excursions from the 'VFA / LHD 317 Excursions' page
- ✓ Enter VFA / LHD 317 Shipment Incidents from the 'VFA / LHD 317 Shipment Incidents' page
- ✓ Enter VFA / LHD 317 Vaccine Transfers from the 'VFA / LHD 317 Transfers' page

New updates for providers launched on **Tuesday, February 20, 2024!**

Release Highlights

Providers enrolled in the VFA / LHD 317 program can:

- ✓ Receive email communications when their order gets approved or requires corrections
- ✓ Update and resubmit a vaccine order when the 'Corrections Needed' status has been set by the Customer Service Representative (CSR) following their review
- ✓ View the new 'Total Order Cost' field on the 'Order and Transfer Item' records

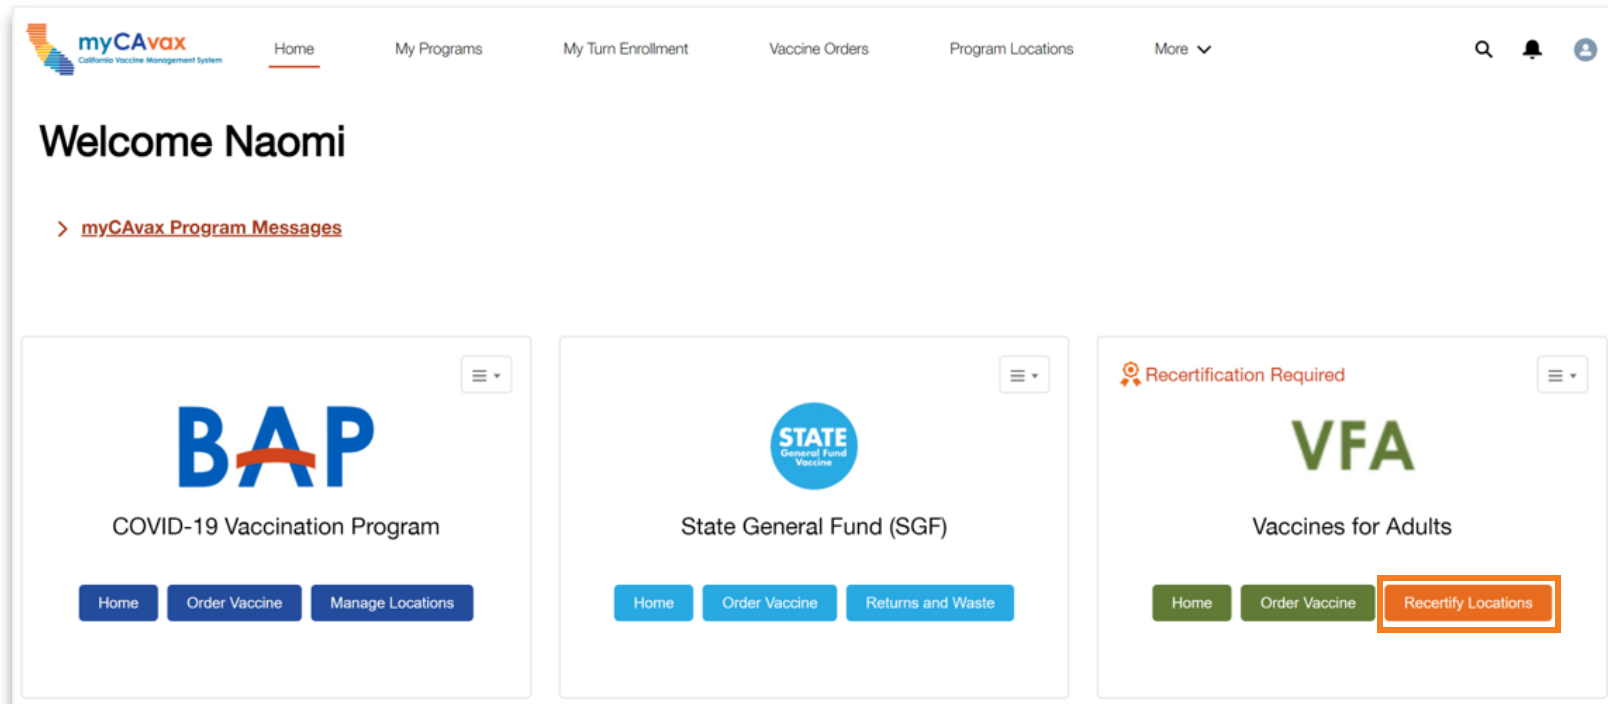

Providers

Recertifying in myCAvax for VFA

Beginning **February 20, 2024**, if you participate in the VFA program, **Primary Vaccine Coordinators** will see an added tile for 'VFA.' You will be prompted to recertify in myCAvax upon logging into the Provider Community. Click the 'Recertify Locations' button on the VFA program tile to start the process.

Step 2 - Key Practice Staff

In order to proceed, you must have at least the Provider of Record, Primary Vaccine Coordinator, Backup Vaccine Coordinator, and Provider of Record Designee information below. These staff members should be those who manage adult patients in the VFA program. Medical Licenses will be validated to ensure active status of license.

Key Practice Staff

Staff members who are responsible for managing the location

Role	Name	Title	Speciality	Clinic Title	Email	Phone Number	NPI ID	License No.	Training Complete	Actions
Provider of Record	Naomi Bradley	MD - Medical Doctor	Family Practice	Immunization Coordinator	mycavaxxx+223@gmail.com	(486) 587-6387	7576556454	72225	<input checked="" type="checkbox"/>	Change Contact
Primary Vaccine Coordinator	Naomi Bradley	MD - Medical Doctor	Family Practice	Immunization Coordinator	mycavaxxx+223@gmail.com	(486) 587-6387	7576556454	72225	<input checked="" type="checkbox"/>	Change Contact
Backup Vaccine Coordinator	Willy Shakyspeare	MD - Medical Doctor	Family Practice	Immunization Coordinator	mycavaxxx+220@gmail.com	(984) 598-3876	6756453434	72225	<input type="checkbox"/>	Change Contact
Provider of Record Designee	Abby Bradley	MD - Medical Doctor	Internal Medicine	Office Manager	mycavaxxx+222@gmail.com	(439) 719-8427	7238676475	72225	<input checked="" type="checkbox"/>	Change Contact

Additional Staff Members

Providers who should receive program communications

Role	Name	Title	Speciality	Clinic Title	Email	Phone Number	NPI ID	License No.	Training Complete	Actions
------	------	-------	------------	--------------	-------	--------------	--------	-------------	-------------------	---------

After VFA / LHD 317 release in myCAvax on **Tuesday, February 20, 2024**, providers will be asked to complete the recertification process in myCAvax, which includes:

- Completing the information verification process in myCAvax
- Updating the key practice staff managing the adult population on myCAvax. **Note:** Your primary VFA contact provided during initial recertification will populate here.
- Completing all required EZIZ training
- Reviewing and signing program participation Agreements and Addendums to complete the recertification process

Workarounds to Complete Recertification Part Two

Issues

Missing LHD 317 / VFA tile on the Landing Page

Location NPI ID Overwritten

Workaround / Next Steps

- ✓ If you do not see the LHD 317 or VFA tile on the landing page *and* you are the LHD 317 Vaccine Coordinator or Primary VFA Contact, contact the Provider Call Center.
- ✓ When you input the Provider of Record NPI ID on step 2 on recertification, your location NPI ID will be overwritten. CDPH anticipates a fix in the coming weeks.

Recertification – Storage Units Update

CDPH is collecting additional information about storage units in myCAvax. All providers need to update their storage capacities to list which programs' vaccines are stored in each individual unit. A backup thermometer is required, along with the corresponding certificate of calibration.

Refrigerated storage (2°C to 8°C)

Does your location have refrigerated storage?

Yes
 No

 **Refrigerated storage capacity**

Vaccines Stored	Unit Priority	Unit Grade	Type	Storage Capacity cu.ft	Storage Brand	Storage Unit Model	Thermometer Type	Thermometer Model	Thermometer serial number	Calibration Expiration Date	Action
	Primary			2000			Digital data lo...			10/16/2096	

Recertification – Storage Units

For Step 3 of recertification, the Primary Vaccine Coordinator must provide information related to storage units. If a provider has storage units active in myCAVax for other programs (e.g., SGF, BAP, Outbreak), they can view existing storage units here.

VFA - Recertification
Step 3 - Storage Capacity

i You must have storage equipment on site (not in transit, or on order) before submitting this form.

Vaccine storage capacity and unit details
Enter all units that will be used to store VFA vaccines, and indicate at least one unit as the primary storage unit for vaccines.

Refrigerated storage (2°C to 8°C)
Does your location have refrigerated storage?
 Yes
 No

[Add Refrigerator](#)

Recertification – Storage Units Needed Action

As of today, the pencil edit functionality does not work. CDPH anticipates the functionality to be fixed next week. At the **VFA 102 Vaccine Inventory Management** training on **Thursday, February 29, 2024** we will cover how to update storage units in myCAvax. If you'd like to complete recertification this week:

- As a brand-new provider in myCAvax, add storage units as expected.
- As an existing myCAvax provider with incomplete data for storage units in myCAvax, for now proceed with recertification and do not edit incomplete information. You will be expected to update storage capacities at a later date.

Refrigerated storage (2°C to 8°C)

Does your location have refrigerated storage?

Yes

No

 **Refrigerated storage capacity**

Vaccines Stored	Unit Priority	Unit Grade	Type	Storage Capacity cu.ft	Storage Brand	Storage Unit Model	Thermometer Type	Thermometer Model	Thermometer serial number	Calibration Expiration Date	Action
	Primary			2000			Digital data lo...			10/16/2096	

Recertification Completion

The Provider of Record must review, acknowledge, and sign the VFA Agreement and Addendum in myCAVax via DocuSign to complete the recertification process.

Sandbox: E-Signature Required for Vaccines for Adults Inbox x  

 **myCAVax Program Notification** <no-reply-mycavax@cdp...>
to: 1

Hello Betsy,

You have been identified as the Provider of Record who oversees the Vaccines for Adults program for CDPH Location 3 - Vaccines for Adults. Your electronic signature is required to complete the VFA recertification process in myCAVax even if recertification within the myVFCvaccines has already been completed.

Please click on the Review Document button below to sign the provider agreement and agreement addendum.

[Review document](#)

If you have questions, email mycavax.hd@cdph.ca.gov or call (833) 502-1245, Monday through Friday from 8am to 5pm.

 **VFA** California Vaccines for Adults Program

Vaccines for Adults (VFA) Provider Agreement

To receive federally-funded Section 317 vaccines at no cost, I agree to the following conditions, on behalf of myself and all the practitioners, nurses, and others associated with the health care facility of which I am the medical director or equivalent.

1. Section 317 vaccines will be administered to any individual aged 19 years and older, who is uninsured or underinsured. Patients covered by Medi-Cal are considered insured and NOT eligible for the VFA program. Staff will consult the [VFA Vaccine Eligibility Based on Insurance](#) table as needed to determine specific vaccine eligibility for patients. Eligibility screening will be conducted prior to the administration of vaccine doses. Verification of eligibility can be obtained verbally from the individual. All staff, including front office and billing staff, will be knowledgeable of VFA eligibility.
2. Section 317 vaccines will be administered in compliance with the most recent immunization schedule, dosage, and contraindications established by the Advisory Committee on Immunization Practices (ACIP) unless: a) in making a medical judgment in accordance with accepted medical practice, the provider deems such compliance to be medically inappropriate for the patient; or b) the patient declines particular immunizations.
3. Patients immunized with Section 317 vaccines will not be billed for the cost of the vaccine nor be charged an administration fee. All systems will be checked to ensure patients are not charged and vaccine cost will not be billed.
4. Current Vaccine Information Statements (VIS) will be offered prior to each vaccination. Vaccine administration records will be maintained in accordance with the National Childhood Vaccine Injury Act (NCVIA), which includes reporting clinically significant adverse events to the [Vaccine Adverse Event Reporting System \(VAERS\)](#).
5. Organization will be enrolled in a local immunization information system (CAIR or RIDE/Healthy Futures).
6. Report all VFA vaccine doses administered to an immunization registry (CAIR2 or Healthy Futures/RIDE), and data must include all required VFA screening, patient's race and ethnicity, and administration elements. Report doses administered under the Registry ID for the corresponding VFA PIN receiving vaccines. ([CA AB1797](#))
7. Immunization of VFA-eligible patients will be documented in or submitted through data exchange as "317 Vaccine Eligibility or Vaccine Eligibility Category (HL7) Code V07" doses to the local immunization

VFA / LHD 317: Finding Support Through System Transition

If you have questions regarding the VFA program requirements or the myCAvax system, contact the Provider Call Center at (833) 502-1245 or providercallcenter@cdph.ca.gov, Mon–Fri, 8.00 AM – 5.00 PM PT.

Bridge Access Program (BAP): Vaccine Allocations Cadence Update

Allocations of BAP COVID-19 vaccine products are refreshed on a biweekly cadence. CDPH receives allocations mid-week and distributes inventory to the LHDs within a few business days.

The most recent CDC allocation refresh was received **Wednesday, February 14, 2024**. Doses were added to LHD allocations on Tuesday, February 20, 2024.

Resources and Q&A

Leslie Amani and CDPH SMEs

California's Digital Vaccine Record (DVR)

Welcome to the Digital Vaccine Record (DVR) portal

To get a digital copy of your vaccine record, just enter a few details below. You can get a link to your COVID-19 Vaccine Record with a QR code or your California Immunization Record. Save it on your phone and use it as proof of vaccination wherever you go.

If you are a parent or guardian and have multiple vaccine records associated with a single cell phone number or email address, enter each Digital Vaccine Record request separately.

NOTE: It is possible that some or all vaccine doses you received were not reported to the California Immunization Registry (CAIR), and therefore your Digital Vaccine Record may not be complete. If your record is incomplete, please ask your provider to submit your vaccine information to CAIR so we can update your record. It's important that you provide up to date information about yourself (phone, email, first and last name) to your provider so you can access your complete record.

If you received your vaccinations from a federal agency (e.g., Department of Defense, Indian Health Services, or Veterans Affairs), you may need to contact those agencies for assistance with your vaccination record.

If you have questions about your vaccination record, [visit our FAQ](#).

Vaccine Support

Provider Call Center

Dedicated to medical providers and Local Health Departments in California, specifically addressing questions about State program requirements, enrollment, and vaccine distribution.

Provider Operations Manual

California Bridge Access Program

Special Note for Providers

You played a critical role in helping to end the COVID-19 pandemic.

For patients, you are one of the most trusted sources of information when it comes to vaccines. Patients may have questions and concerns about COVID-19 vaccines. You can help them understand the importance of vaccination, provide your strong recommendation, and build confidence in vaccines.

Strong vaccine confidence leads to more people getting vaccinated, which leads to fewer COVID-19 illnesses, hospitalizations, and deaths.

Thank you for the efforts you and your practice staff are making to keep California healthy.

COVID-19 Provider FAQs

Answers to providers' COVID-19 vaccine and therapeutics questions!

 **Q: Are there free COVID-19 telehealth treatment options for patients?**

A: Yes. There are free COVID-19 telehealth options for Californians. Please review this [CDPH COVID-19 Treatment Telehealth Options Handout](#) which provides more information.

 **Q: Are there resources that providers can use to help patients with vaccine hesitancy?**

A: Providers can find resources that address vaccine hesitancy from CDPH and CDC.

Change: Provider Webinar Cadence

The CDPH Immunization Updates for Providers Webinar series is beginning a new cadence! The Friday webinars will move to a biweekly (every other Friday) cadence.

There will be **no** Friday webinar on Friday, March 1, 2024.

The next session will be held on Friday, March 8, 2024, from 9AM – 10:30AM.

Please continue to use the [CDPH Immunization Updates for Providers Zoom Registration Link](#) to join the sessions.

CDPH appreciates your continued attendance. Thank you for all that you are doing for the health and wellness of all Californians!

Questions

During today's webinar, please use the Q&A panel to ask your questions so CDPH subject matter experts can respond directly.

Resource links will be dropped into, "Chat"
