

California Department of Public Health Immunization Updates for Providers

Friday, July 26, 2024

9:00 am – 10:30 am

Housekeeping

Reminder to Attendees:

Today's session is being recorded. For slides, webinar recordings, and other postings, see the [CDPH Weekly Immunization Updates for Providers](#)

To be added to the CDPH email messaging listserv for providers, please email your request to blanca.corona@cdph.ca.gov

If you have post-webinar-related questions, please email leslie.amani@cdph.ca.gov

Reminder to Panelists:

Please mute yourself when not speaking.

Please monitor the Q&A panel for questions you may be able to answer.

Questions

During today's webinar, please use the Q&A panel to ask your questions so CDPH panelists and subject matter experts (SMEs) can respond.

Resource links will be dropped into, "Chat"

Friday, July 26, 2024

No.	Item	Speaker(s)	Time (AM)
1	Welcome and Announcements	Leslie Amani (CDPH)	9:00 – 9:05
2	CDPH COVID-19 Testing	Stefanie Medlin (CDPH)	9:05 – 9:10
3	Long COVID and COVID-19 Therapeutics	Melissa Solis, MD (CDPH)	9:10 – 9:20
4	Vaccines for Children (VFC) Ordering	Christina Sapad (CDPH)	9:20 – 9:30
5	CDPH Field Services Quarterly Updates	Colleen Mallen and Francisco Borboa (CDPH)	9:30 – 9:40
6	Anaphylaxis Guidance	Kelley Leung, RN (CDPH)	9:40 – 9:45
7	Mpox	Louise McNitt, MD (CDPH)	9:45 – 9:50
8	Vaccines for Adults (VFA)	Lindsay Reynoso (CDPH)	9:50 – 9:55
9	Vaccine Management Updates	Josh Pocus (My Turn) and Claudia Aguiluz (myCAvax)	9:55 – 10:10
10	Resources and Q&A	Leslie Amani (CDPH)	10:10 – 10:30

Thank you for attending today's session!

Announcements

Leslie Amani, CDPH

Crucial Conversations Webinar

Title: Talking to Parents about School-Required Immunizations

Description: Dr. Eric Ball will discuss school-required vaccinations and provide examples of steps that his practice has taken to increase vaccine uptake rates, including some best practices for talking with parents about immunizations.

When: Tuesday, July 30, 2024

Time: 12:00 pm - 1:00 pm, PT

Registration link: [Crucial Conversations Webinar Registration](#)

Protect Yourself from Respiratory Viruses

Older adults, especially those with weakened immune systems, are at greater risk for getting very sick from respiratory viruses. Take these steps to lower your risk.

Stay Up to Date on Vaccines

As we get older, we need updated vaccines to keep our immune systems healthy and strong. Vaccines are our best protection against severe illness, hospitalization, and death from **flu, COVID-19, and RSV**.

Talk to your health care provider to make sure you're **up to date on all your vaccines!**

Get COVID-19 and Flu Treatments

If you have symptoms, contact your health care provider to get tested (or take an at-home COVID-19 test). If you test positive, ask your health care provider about prescription treatments to prevent symptoms from getting serious. **Act fast, most of these medications must be taken within the first 5 days** of symptoms.

Consider Extra Precautions to Prevent Spread

- Wear a mask in crowded indoor spaces
- Increase ventilation by opening windows and doors
- Stay away from others if you're sick
- Wash your hands often
- Cover your cough or sneeze

CDPH At-Home Testing Program Update

- CDPH is continuing to provide COVID-19 tests to support populations who are high risk for severe disease through **February 28, 2025**. This program has been extended due to continued availability of federal resources.
- Skilled Nursing Facilities, Elder Care Facilities, Long-Term Care Facilities, Programs serving those >65 years, and Community Based Organizations that serve the elderly can request at-home tests through CDPH until February 28, 2025, or until testing resources are exhausted.
- **As of July 2, 2024, any order for at-home tests that exceeds 4,640 tests should be shipped directly to the LHD for local distribution.**
- The FDA extended expiration date on many of these tests will vary, with some tests being shipped out expiring between September 2024 and March 2025.
- Orders should reflect tests needed for residents only. Tests cannot be requested to provide to staff and/or visitors.

Order OTC tests here: <https://labsupport.powerappsportals.us/ordercovidotc/>

Professional CLIA*-Waived Test Availability

Professional CLIA-waived tests:

CDPH no longer has an unexpired inventory of professional CLIA-waived tests. The CLIA-waived program ended on June 24, 2024. We also do not have an inventory of COVID/Flu Multiplex tests. Should any of these professional tests become available again, we will notify this group of their availability.

*Clinical Laboratory Improvement Amendments

Additional ways for individuals to obtain COVID-19 tests

- Insured? Individuals may be able to obtain tests through their health insurance. Read more about how people with insurance can get free tests on the [CDPH How to Get Tested web page](#).
- If you have individuals that would like to get tested quickly, and do not have insurance, they can find a testing site near them via [Myturn.ca.gov](#).

Your at-home tests are likely not expired!

- Most printed expiration dates are not correct and have been extended.
- Check to see the correct expiration date on the [FDA website](#)
- Replace tests that are older than the **extended** expiration dates.
- If newer tests are not easily available, you may use an expired test as long as the internal control line remains valid.
- CDPH cannot accept the return of expired at-home tests. Please access the [Test Disposal/Site Clean-up Instructions](#) for additional information on how to dispose of expired testing supplies.

Thank you

- For questions, please contact OTCTesting@cdph.ca.gov

Long COVID Updates

UPDATE: 2024 NASEM* Long COVID Definition

Long COVID (LC) is an infection-associated chronic condition (IACC) that occurs after SARS-CoV-2 infection and is present for at least 3 months as a continuous, relapsing and remitting, or progressive disease state that affects one or more organ systems.

Important Features of Long COVID (LC):

- Ranges from mild to severe
- Can last months or years
- Can follow asymptomatic, mild, or severe COVID-19 infection
 - Does not require previous diagnosis of COVID-19
- Can occur right after infection or be delayed for months
- Affects children and adults
- Can be diagnosed on clinical grounds
 - No test currently available
- Impairs individuals' ability to live daily life
 - It can have a profound emotional and physical impact on patients and their families and caregivers

COVID-19 Therapeutics

Current Outpatient COVID-19 Treatments

Preferred outpatient therapies for **certain high-risk patients:**

- ✓ **Paxlovid** (Ritonavir – boosted nirmatrelvir)
- ✓ **Remdesivir**
- ✓ **Molnupiravir** (alternative therapy for use when the above therapies are not available, feasible to use, or clinically appropriate)

COVID-19 Therapeutics Key Points

COVID-19 treatments can help prevent severe illness in eligible* patients

CDPH recommends that providers prescribe:

- ✓ Nirmatrelvir/ritonavir (Paxlovid) to non-hospitalized, symptomatic, and eligible patients
- ✓ Remdesivir (Veklury) should be considered when nirmatrelvir/ritonavir (Paxlovid) is clinically contraindicated
- ✓ Molnupiravir (Lagevrio) may be considered if remdesivir is impractical and Paxlovid is clinically contraindicated.

*Eligibility depends on exposure status, symptoms, and [risk factors](#) for severe disease

Pemgarda (pemivibart)

PEMGARDA (pemivibart): Emergency Use Authorization (EUA)

PEMGARDA has **not** been approved

PEMGARDA is **not** authorized for:

- × Treatment of COVID-19, or
- × Post-exposure prophylaxis of COVID-19 in individuals who have been exposed to someone infected with COVID-19

• **EUA authorization** for the **pre-exposure prophylaxis (PrEP)** of COVID-19 in certain adults and adolescent individuals:

✓ Who are not currently infected with covid-19 and who have not had a known recent exposure to an individual with COVID-19

-AND-

✓ Who are moderately-to-severely immunocompromised and are unlikely to mount an adequate response to COVID-19 vaccination

PEMGARDA (pemivibart):

What Healthcare Providers Need to Know

- Contraindicated in individuals with previous severe hypersensitivity reactions (anaphylaxis) to any component of Pemgarda
 - For individuals with a severe hypersensitivity reaction to a COVID-19 vaccine, consult with an allergist/immunologist
- Please track all serious adverse events and medication errors.
 - Contact 800-890-3385
 - Complete and submit a MedWatch form
[MedWatch: The FDA Safety Information and Adverse Event Reporting Program | FDA](#)

PEMGARDA (pemivibart): How to Obtain and Prescribe

- PEMGARDA may only be prescribed by physicians, advanced practice registered nurses, and physician assistants who are licensed or authorized under State law.
- [Pemgarda Ordering Guide](#) (PDF)
- If you need further information, please contact the INVIVYD Medical Information Department at 1-800-890-3385 or emailmedinfo@invivyd.com.

Vaccines for Children (VFC) Ordering

Christina Sapad, CDPH

2024 – 2025 VFC Flu Vaccine Products

Brand	Manufacturer	Description	NDC	Ages	CDC Pre-Book #s
Flucelvax	Seqirus	0.5mL single dose syringe, 10 pack	70461-0654-03	6 months – 18 years	140,000 doses
FluLaval	GSK	0.5mL single dose syringe, 10 pack	19515-0810-52	6 months – 18 years	850,000 doses
FluMist	AstraZeneca	0.2mL single dose sprayer, 10 pack	66019-0311-10	2 – 18 years	60,000 doses
Fluzone	Sanofi	0.5mL single dose syringe, 10 pack	49281-0424-50	6 months – 18 years	750,000 doses

- 1.8 million doses total pre-booked through CDC
- Doses pre-booked through CDC were based on doses pre-booked by providers back in January 2024

2024 – 2025 VFC Flu Vaccine Ordering Changes

- Orders will now be through myCAvax
- There is no separate flu vaccine order form.
 - Flu vaccine will be on the regular VFC vaccine order form
 - CSRs will be reviewing flu vaccine requests, just like all other vaccines
- Initial flu vaccine orders will not be shipped automatically by VFC
 - Providers will be allocated doses based on available supply.
 - Providers will be expected to actively go in and submit their flu vaccine request up to their allocated amount.
- Providers can submit a new flu vaccine order after their previous order is in “Completed” status
- Their flu season target will not display on the order form

Flu Vaccine Ordering Policies that are NOT Changing

- Usage and inventory must still be included with each vaccine order
- Providers' approved pre-book amounts will remain the same.
- Providers may only order the flu vaccine products approved for their practice as indicated during pre-book.
No brand switching will be allowed.
- Providers who did not pre-book will be allocated doses based on available supply.

Flu Vaccine Allocations

- VFC will continue to allocate doses as additional supply is received at McKesson
- Doses will be allocated up to the provider's approved pre-book amount.
 - If the provider did not pre-book in January 2024, VFC will allocate them doses based on available supply
- Initially, as supply is coming in from McKesson, providers cannot order beyond what we allocate to them
- After all our supply is received at McKesson, we will allow providers to request doses beyond what was allocated, but they would need to submit a justification.
 - VFC Program Analysts would review and add doses to providers' allocations as needed

VACCINES FOR CHILDREN Providers Enrollment

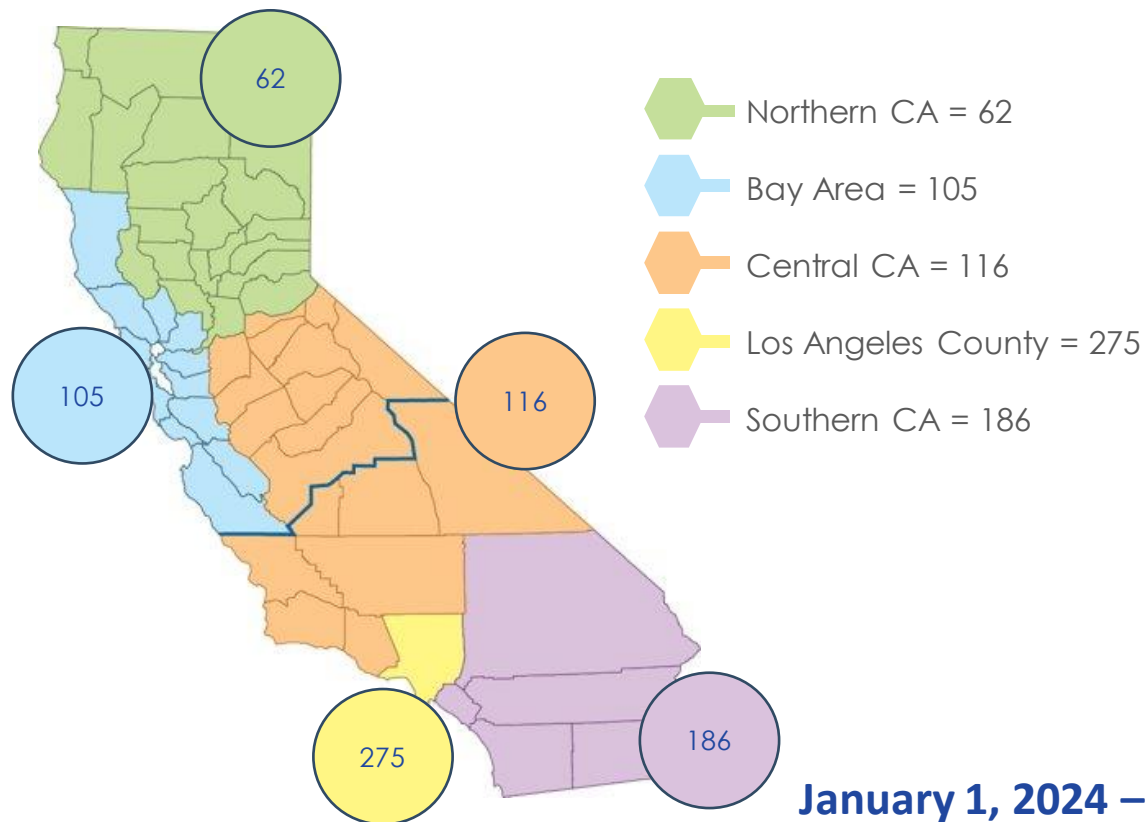

January 1, 2024 – June 30, 2024

- 3,294 VFC Enrolled VFC Providers
- 71 Providers enrolled
- Compliance and S&H Visits are conducted in-person

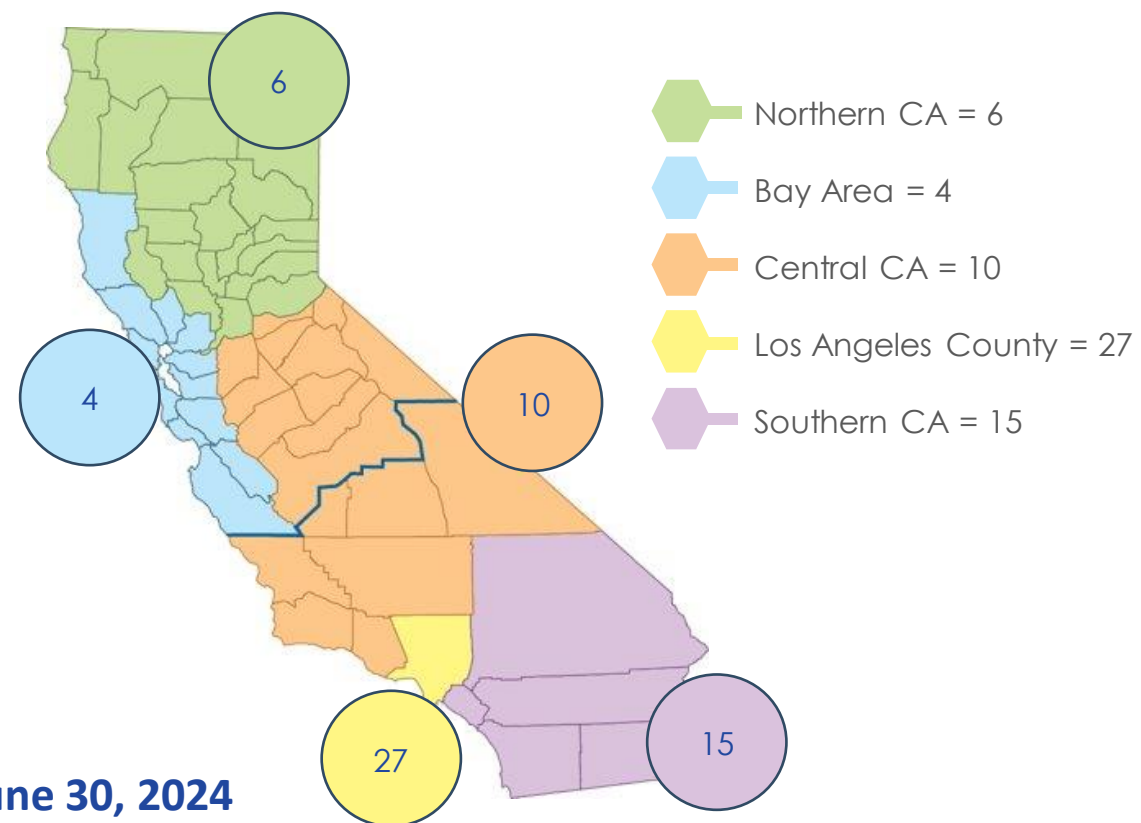

VACCINES FOR CHILDREN VISITS

Total Number of Compliance Visits = 744

Total Number of Storage and Handling Visits = 62

January 1, 2024 – June 30, 2024

VACCINES FOR CHILDREN – Top Non-compliance Items

1

ACIP-Recommended Vaccines: Availability of non-routine ACIP recommended vaccines for VFC patients who meet criteria for receiving them.

2

Temperature-Monitoring Device Type: Data is being downloaded and reviewed on a routine basis.

3

Vaccine Dose Documentation: Records contain all required federal documentation elements.

4

Temperature Documentation: For each temperature reading, there should be a time, date and name/initials recorded.

5

VIS and VAERS: Providers should readily have available, up-to-date VISs/IISs or EUA/EUI fact sheets for all ACIP-recommended vaccines pertaining to the population that they serve.

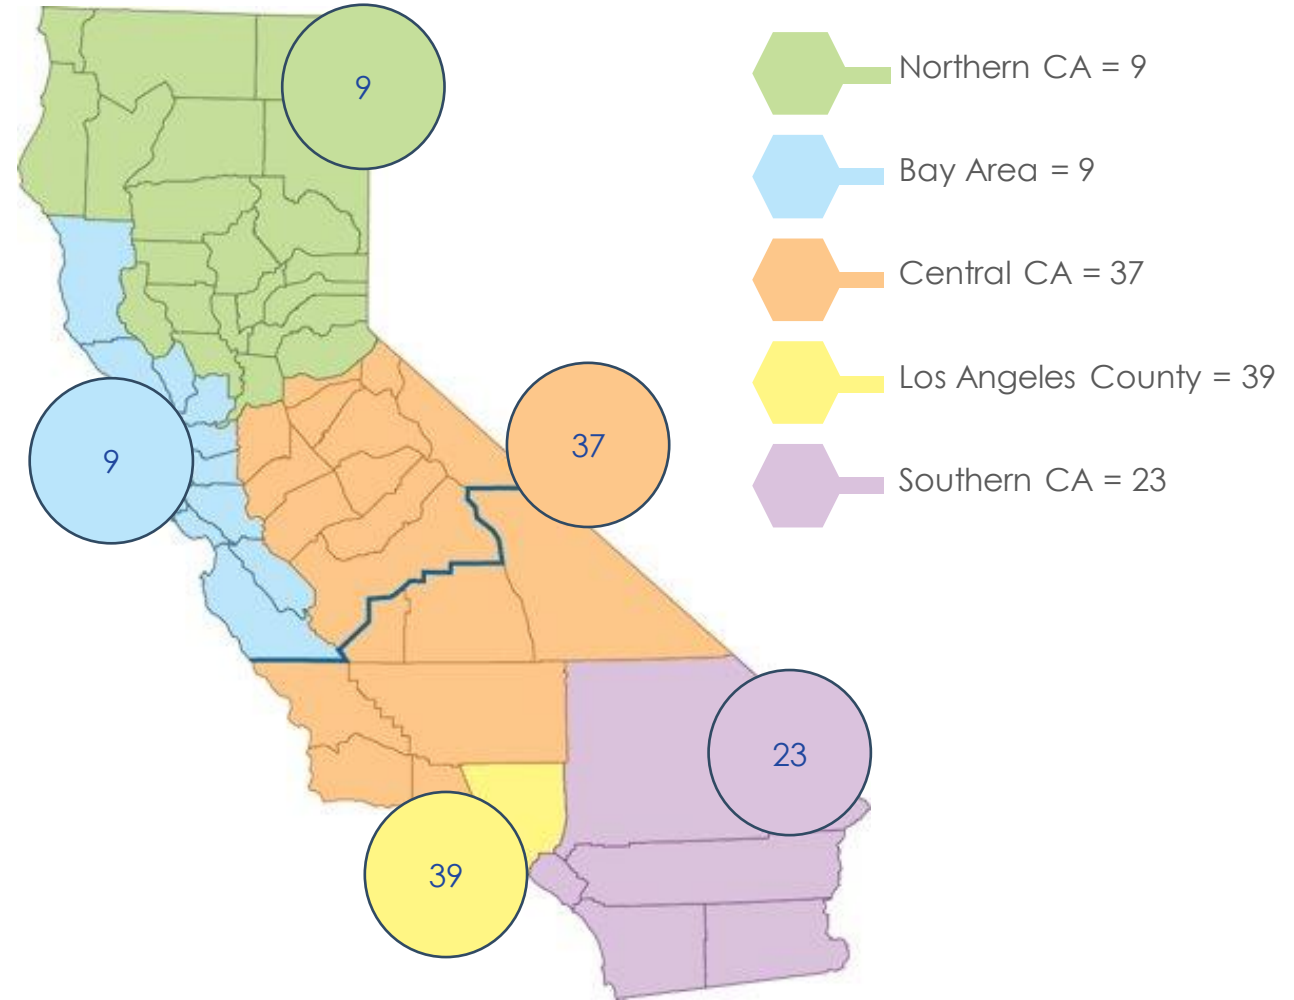

Field Services- CAIR Enrollment Update

175 manual CAIR enrollments completed by Local CAIR Representatives (LCRs) from January 1, 2024 – June 30, 2024

VACCINES FOR CHILDREN IQIP Visits

**Total Number of
IQIP Visits = 117**

January 1, 2024 – June 30, 2024

Immunization Quality Improvements for Providers (IQIP) Overview

- Quality improvement program for VFC Providers
- Provider-level strategies designed to increase on-time vaccination of children and adolescents
- IQIP Consultants provides technical assistance to help implement evidence-based strategies to improve immunization coverage among patients.

IQIP Process

IQIP Strategies to Improve Vaccination Rates

1

Schedule the next immunization visit before the patient leaves the office.

2

Leverage immunization registry functionality to support immunization practice.

3

Give a strong vaccine recommendation.

4

Strengthen vaccine communications.

IQIP Update

- LCRs for CAIR, Reviewers are conducting visits for RIDE/Healthy futures. LA County staff are conducting visits for public sites in LA County
- If you are interested in scheduling an IQIP, please email iqip@cdph.ca.gov.
- Field Representatives are phasing out of initiating IQIP visits

IQIP Program

Anaphylaxis Guidance

Kelley Leung, RN, CDPH

Anaphylaxis Guidance

Includes:

- Call for MD
- Evaluate Patient for Anaphylaxis
- Call 911
- General Treatment
- Specific Treatment of Anaphylaxis
- EMS Transport to Acute Care Facility

Initial Office Management of Anaphylaxis

Initial Office Management of Anaphylaxis

Anaphylaxis is an acute life threatening and rare event. Routine childhood immunizations rarely cause anaphylaxis.

1. Call for MD.

2. Evaluate Patient for Anaphylaxis.

Onset of symptoms: over several minutes, usually within 15 min after injection.

Evaluation	Infants	Children and Adults
First symptoms	Unable to complain	Dizzy, itching, breathing difficulty
Level of consciousness	Irritable, high pitched cry, anxious, restless	Some confusion or less responsive, usually no loss of consciousness
Appearance	Flushed (pink-red) with hives	Flushed (pink-red), hives, facial swelling
Vital signs	Pulse often above 200	Rapid, weak pulse and low blood pressure
Breathing	Rapid with retractions; possible wheezing, stridor, or cough	Wheezing or stridor with progressive distress

3. Call 911. Ask clerk or assistant to call, do not leave patient.

4. General Treatment:

- Lie on back, with legs elevated as tolerated– infants may be held by parent
- If available, give oxygen

5. Specific Treatment Of Anaphylaxis

- Aqueous epinephrine 1:1000 (1 ml = 1 mg) (intramuscular or subcutaneous)
- 0.01 ml/kg per dose (may be repeated every 5 minutes as necessary, up to 3 doses)

Age	Weight	Dosage
Infants: 0.05–0.1 ML	Under 20 lbs	0.1 ML
Children: 0.1–0.3 ML	20–35 lbs	0.15 ML
Children: 0.1–0.3 ML	35–50 lbs	0.2 ML
Adolescents/Adults: 0.3–0.5 ML	50–100 lbs	0.3 ML

*Epinephrine available in glass ampule & auto-injectors (e.g., EPIPEN JR®, AUVI-Q®, etc.; preset doses vary)
Replace if expiration date exceeded.

6. EMS Transport to Acute Care Facility

Vaccine Management

Josh Pocus, My Turn

Claudia Aguiluz, myCAvax

What's New in My Turn? – Release 51 (1 of 2)

New updates for patients launched on **Thursday, July 18, 2024!**

Release Highlights

- ✓ Translated text displayed on all pages of the 'My Turn Public' portal based on the language chosen
- ✓ Mpox carousel module with the 'Make an appointment' and 'Find a walk-in clinic' buttons added to the home page
- ✓ Visual enhancements made to the 'Testing Sites' page to align with the 'Vaccine Locator' page
- ✓ New banner supporting school vaccinations consisting of the 'Make an appointment' button added to the home page

My Turn Public

What's New in My Turn? – Release 51 (2 of 2)

New updates for Clinic Managers and Vaccine Administrators launched on **Thursday, July 18, 2024!**

Release Highlights

CDC Requirement Banner:

- ✓ New banner / notification with a message about CDC requirements for Prescribing Providers on the 'IIS Status,' 'Dashboard and Reports,' and 'Manage Users' tabs

Add New Contact/User Functionality:

- ✓ New 'Add New Contact/User' functionality on the 'Manage Users' and 'Clinics' tabs

New 'Prescribing Provider' Fields:

- ✓ New 'Prescribing Provider' fields on the digital enrollment, VA, Walk-in, IIS, CQE, and Inline / CSV bulk upload flows

New 'Key Roles' Section:

- ✓ New 'Key Roles' section with detailed descriptions for the Provider of Record, Clinic Manager, and Prescribing Provider roles
- ✓ New 'Add a contact' link leading to the key role-specific pop-up windows for adding new contact information

Error Messages on Add New Contact/User Functionality When:

- ✓ A number is entered in the 'Prescribing Provider First Name,' 'Prescribing Provider Middle Name,' or 'Prescribing Provider Last Name' fields
- ✓ Duplicate Information is detected while adding a new contact
- ✓ Entered email address in the 'Prescribing Provider Email' field is not in the correct format, such as 'name@example.com' or 'name@example.ca.gov'
- ✓ Entered information in the 'Prescribing Provider NPI' field is invalid or does not consist of 10 digits
- ✓ Entered Prescribing Provider is not an existing contact for that location

Prescribing Provider (1 of 2)

The Prescribing Provider is the person ordering immunizations for patients. Each practice location may have **one or more** Prescribing Providers.

The following scenarios illustrate where you can expect new features / fields to add Prescribing Providers on the Provider Community portal.

Role(s)	First Name	Middle Name	Last Name	Title	NPI ID	Licensure Number	Email	Telephone	Ext
Provider of Record	+ Add a Contact								
Clinic Manager	+ Add a Contact								
Prescribing Provider	+ Add a Contact								

Buttons: Back, Submit, Chat with us

Option to add a new Prescribing Provider contact on the digital enrollment flow.

Add Clinic Manager

Please Note: Only enter business or public information (no personal emails, phone numbers, or addresses).

Create Contact
 This contact is also a Prescribing Provider.

Buttons: Cancel, Submit

Option to assign Clinic Manager / Provider of Record as Prescribing Provider on the digital enrollment flow.

Contacts Management Interface

Search:

Buttons: Add New Contact/User

Option to create a new Prescribing Provider contact on the 'Clinics' and 'Manage Users' tab.

Add Contact or User

* Select a Provider Location

* Select Contact type(s)
 Selecting only Prescribing Provider will not create a user account in myCAvax. No login credentials will be created for this contact.
 You cannot select both Clinic Manager and Vaccine Administrator.

Clinic Manager
 Prescribing Provider
 Vaccine Administrator

* Select or Add Contact
 Please Note: Only enter business or public information (no personal emails, phone number, or addresses).

Select Existing Contact: OR

Option to assign an existing contact as the Prescribing Provider for that location on the 'Clinics' and 'Manage Users' tab.

Prescribing Provider (2 of 2)

It is important to add / create Prescribing Provider as the CDC has made it **mandatory** for all vaccine records to have prescribing provider.

Prescribing Provider
 CDC requires all vaccination records to include a Prescribing Provider. If you do not see a contact in the dropdown, please update or create a new contact with the Prescribing Provider role for your location through the Manage Users page.

Prescribing Provider Middle Name: _____

Prescribing Provider Title: RN - Registered Nurse

Prescribing Provider Email: xyz@gmail.com

Utilize new Prescribing Provider fields / sections while scheduling / bulk uploading / re-submitting appointments via the Walk-in, VA, Inline / CSV bulk upload, and IIS flows.

Utilize new fields to add Prescribing Provider details in the 'Vaccine Information' section while uploading / editing vaccine records via the 'CAIR Quick Entry' feature.

My Turn – Known Issues and Workarounds

Known Issues

Greyed Out Pre-Screening Questions if Accessing Certain Appointments Through 'Additional Appointments'

- ✓ If navigating to an appointment that only has one product (traditional or super clinic appointment with one product) via the 'Additional appointments' pop-up, the pre-screening questions are greyed out.

Ordering Provider Required in CAIR for Vaccine Record Submissions

- ✓ CAIR now requires the Ordering Provider to be specified for vaccine record submissions – not having one will result in a warning response from CAIR2. The Ordering Provider data is not currently captured in My Turn.

Workaround / Next Steps

- ✓ Estimated Fix: **TBD**
 - ✓ Workaround: Access the appointment through the 'Appointments' tab.
- ✓ Estimated Fix: **TBD**

myCAvax Release Roadmap

Past Release
July 18, 2024 (R48)

Release 48

VFC

- ✓ Flu allocations enhancements

VFA / 317 / VFC

- ✓ Address validation
- ✓ Storage and handling triaging
- ✓ Excursions data migration
- ✓ Next order due date and order frequency
- ✓ Expiration emails for orders
- ✓ Inventory link on provider ordering
- ✓ Ability to view storage units from Program Location

All Programs

- ✓ Provider dashboards

Current
August 15, 2024 (R49)

Release 49

BAP

- ✓ Update programs to the 'Inactive' status
- ✓ Remove BAP references from the home pages

All Programs

- ✓ Enable storage unit management page for providers
- ✓ Enable look up program by PIN on orders
- ✓ Add VFC regions to Accounts and Program Locations
- ✓ New Home Page Knowledge Articles
- ✓ Allocations wrap up 24/25 season
- ✓ Provider staff management (Self-Service)
- ✓ SGF Enrollment updates

Future
September 2024 (R50)

Release 50

BAP

- ✓ Continue BAP Decommissioning

All Programs

- ✓ Site Visit Updates
- ✓ Transfers – Batch accept/reject and layout updates
- ✓ Excursions – Close out process
- ✓ Self Service – Manage Organization Coordinator
- ✓ Returns and Waste – Update to have batch potential and new VTrckS grouping (Prevent excess Return Labels)
- ✓ Knowledge Center

What's New in myCAvax? – Release 48

New updates for providers launched on **Thursday, July 18, 2024!**

Release Highlights

Providers are able to:

Transfers

- ✓ Add other transport containers used prior to transfer

Address Validation

- ✓ Update their address using the new 'Update Address' button on the location account or Program Location and get it verified by Smarty address validation
- ✓ Receive email notifications if the address on the location account or Program Location has been changed (Organization and Primary Vaccine Coordinators only)

Excursions Triage

- ✓ View the new triage feature that determines what action the provider should take and filter the Excursions by triage results

Dashboards

- ✓ View new program dashboards

Providers enrolled in the VFA, VFC, or LHD 317 program are able to:

Order Expiration Emails

- ✓ Receive email notifications for an expiring order in the 'Draft' or 'Corrections Needed' status after 7 / 12 days from the last modified date

Ordering

- ✓ View details about the next order due date, practice volume and order frequency, and a link to view provider inventory

Program Location

- ✓ View updated page layouts on Program Locations

Providers enrolled in the VFC program are able to:

VFC Allocations

- ✓ View a warning message to request doses within their allocation limit or to provide a justification if the number of doses requested exceeds the allocation while ordering vaccines

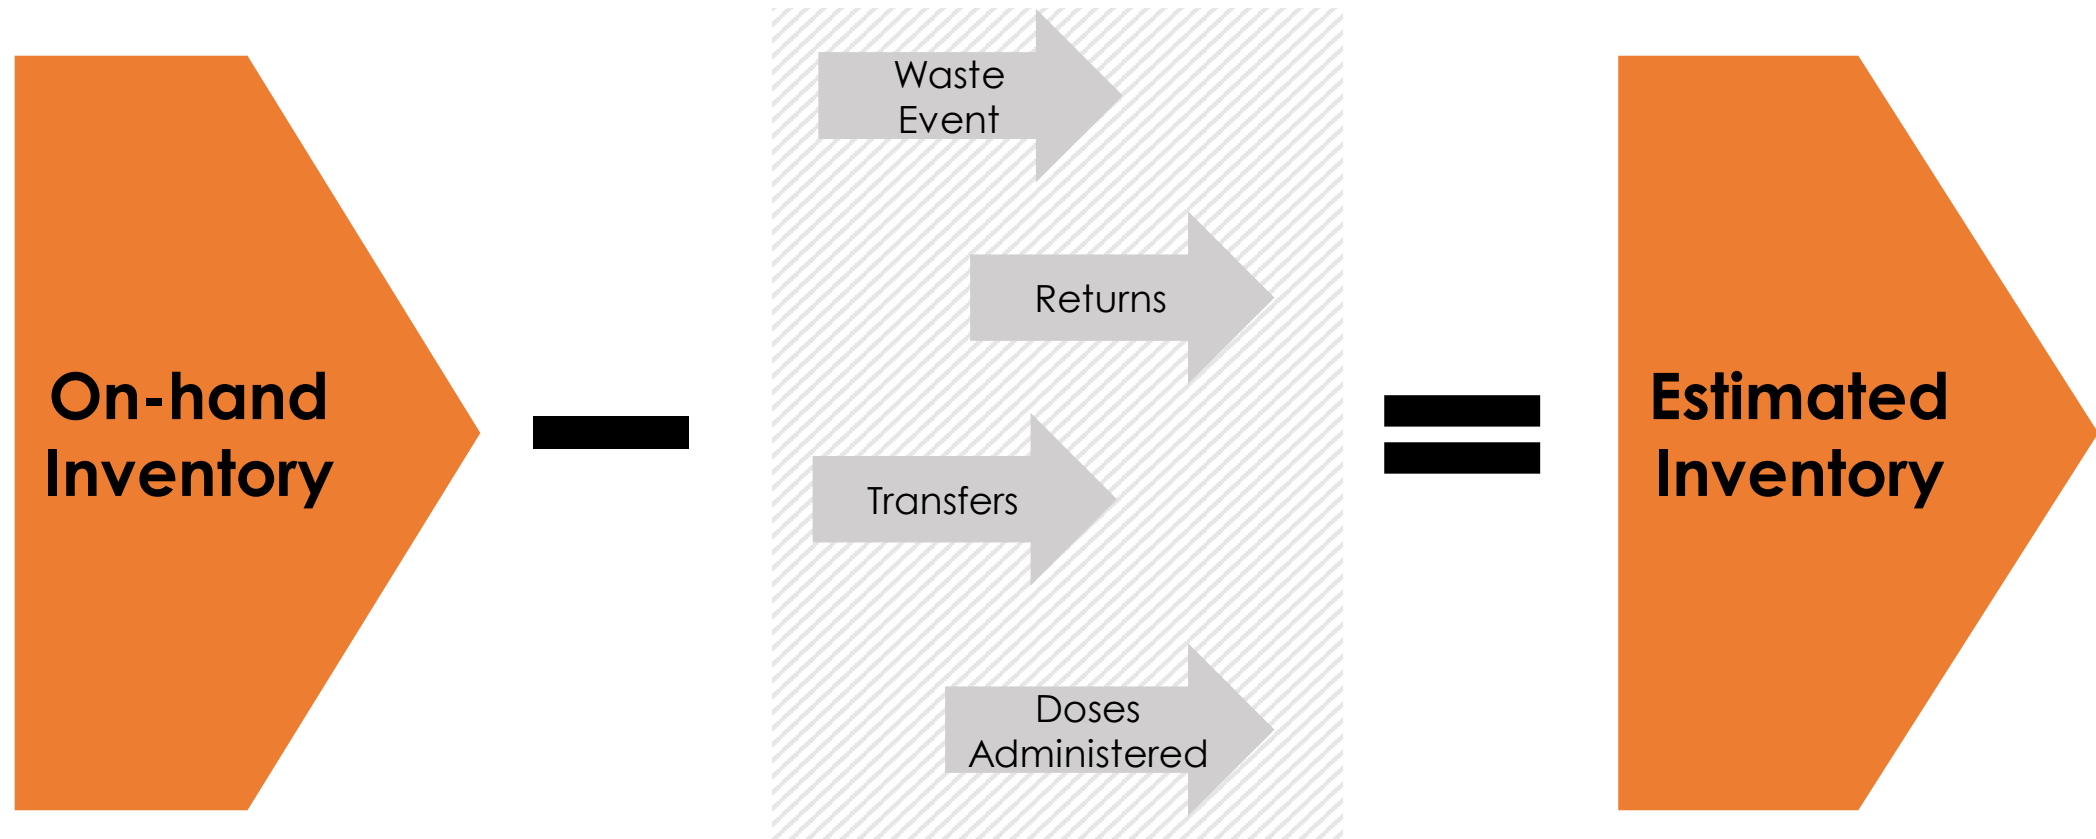

VFC Vaccine Inventory Management

- myCAvax keeps track of your practice's VFC vaccine inventory for each vaccine brand and presentation ordered – these are called Inventory Records.
- When vaccine doses are reported as administered on the VFC vaccine order form, myCAvax deducts that quantity from the Inventory Record.
- The 'Inventory Summary' column on the VFC vaccine order form shows the 'Estimated inventory' and the 'Variance'.
 - **Estimated Inventory:** This number shows the amount in your Inventory Record minus the doses reported in the 'VFC Doses administered' since your last order. The goal is to have your 'VFC On-hand inventory' quantity match the 'Estimated inventory' quantity.
 - **Variance:** This field indicates if you are reporting too many (i.e. "Over by 5") or too few doses (i.e. "Under by 5") in your on-hand inventory, doses administered, or a combination of both. The goal is to have "0" variance.

Account for every dose of VFC-supplied vaccine ordered and received by the provider location.

Vaccine Products		VFC On-hand Inventory			VFC Doses administered		Inventory Summary		Order size		
Vaccine product	*Quantity	Lot number	Expiration Date / Beyond use date	+ Qty since last order	Estimated inventory	Variance	Recommended Order size	*Doses requested	Order size reason	Please specify "Other"	
DTap	Daptacel Single Dose Vials - 10 Per Box	30	2CA77C1	4/30/2026	10	35	Under by 5		0	-Select-	
	Infanrix Single Dose Syringes - 10 Per Box	2	GG39D	6/7/2025	3	-3	Over by 5		0	-Select-	
	Kinrix Single Dose Syringes - 10 Per Box	14	5H95B	2/16/2026	16	14	0	10	10	-Select-	

Reminder: Providers Must Account for All Doses When Managing Vaccine Inventory

On-hand Inventory – (Waste Event, Returns, Transfers, Doses Administered) = Estimated Inventory

Tips for Accurate Vaccine Management

- Conduct a physical vaccine inventory in your VFC vaccine storage unit(s) and check it against your CAIR / RIDE / EHR inventory report.
- Review doses administered reports in CAIR / RIDE / EHR.
- Ensure all VFC vaccine transfers were submitted and accepted since your last order.
- View Inventory Records by navigating to the "Provider Inventory" section to verify accurate dose administration is reported when submitting orders (shown in next slide).

Viewing Provider Inventory on a VFC Vaccine Order Request

Another new feature on Step 1 of a Vaccine Order Request is the 'Provider Inventory' field.

Providers can select 'View Provider Inventory' to navigate to the Provider Inventories page. This table provides a summary of all inventory transactions reported for each product.

The screenshot displays the 'VFC - Order Request' interface at 'Step 1 - Select Account and Product'. The 'Program Location' is set to 'Misty Hollows - Vaccines for Children'. A 'Provider Inventory' field is highlighted with an orange box and a red arrow pointing to a detailed table of provider inventories.

Provider Inventories Table:

Provider Inventory Name	Product	Available Quantity
1 PI-586185	Infanrix Single Dose Vials - 10 Per Box	20
2 PI-586186	Kinrix Single Dose Vials - 10 Per Box	210
3 PI-586187	Havrix Single Dose Vials - 10 Per Box	0
4 PI-586188	Engerix B Single Dose Vials - 10 Per Box	0
5 PI-586189	Pneumovax Single Dose Vial - 1 Per Box	0
6 PI-586190	2020-2021 Fluarix Single Dose Syringes - 10 Per Box	0
7 PI-586191	2020-2021 FluLaval Single Dose Syringes - 10 Per Box	0
8 PI-586192	2020-2021 Fluzone Single Dose Syringes - 10 Per Box	0
9 PI-586193	2020-2021 Flumist Intranasal Sprayers - 10 Per Box	0
10 PI-586194	2020-2021 Fluceivax Single Dose Syringes - 10 Per Box	0

The interface also includes a 'Next Order Due Date (approximate)' of September 7, 2024, and a navigation bar with options: Vaccine Products, VFC On-hand Inventory, VFC Doses administered, Provider inventory, Order size, and Chat with us. A table at the bottom lists columns for Vaccine product, Quantity, Lot number, Expiration Date / Beyond use date, Qty since last order, Estimated Provider inventory, Recommended Order size, and Doses requested.

Viewing Next Order Due Date and Order Frequency on a VFC Vaccine Order Request

When placing a vaccine order request, providers are now able to view the 'Next Order Due Date' (1) and 'Practice Volume & Order Frequency' (2) fields after selecting a Program Location on the 'Step 1 – Select Account and Product' page.

NOTE: The Next Order Due Date is an approximation based on assigned order frequency and last order process date. If placing an order before this date, providers need to indicate reasoning in the order comments.

VFC
VFC - Order Request
Step 1 - Select Account and Product

To change the program selected, navigate back to the [Vaccine Orders page](#).

Program Location
Misty Hollows - Vaccines for Children

Select Location, Provide Inventory and Doses Administered for Vaccines listed.

- Ensure the current VFC inventory in your vaccine storage units matches the On-hand Inventory you enter.
- Your VFC Doses Administered inventory must match the immunization registry (CAIR/Healthy Futures).
- View the provider inventory link below to account for every dose your location has received. If your calculated provider inventory does not match, please ensure that you have reported all transfers, waste events, and returns prior to this order request.

Next Order Due Date (approximate) 1	Provider Inventory 1	Practice Volume & Order Frequency 2
September 7, 2024	View Provider Inventory	Every 2 months

Account for every dose of VFC-supplied vaccine ordered and received by the provider location.

Vaccine Products | VFC On-hand Inventory | VFC Doses administered | Provider Inventory | Order size | Chat with us

Vaccine product	*Quantity	Lot number 1	Expiration Date / Beyond use date 1	*Qty since last order 1	Estimated Provider inventory 1	Recommended Order size 1	*Doses requested
-----------------	-----------	--------------	-------------------------------------	-------------------------	--------------------------------	--------------------------	------------------

Storage and Handling (S&H) Triaging when Reporting an Excursion

When submitting an excursion report, providers will now receive a triage result based on the excursion information inputted. This message will populate under the file upload prompt once the excursion information is inputted to help inform providers on next steps.

1. If no further action is needed, an orange message will populate, and the Excursion table will be greyed out.

2. If further action is needed, a red message will populate with instructions to contact the manufacturer to determine stability information, and this information will need to be entered in the Excursion table.

3. If temperatures were not recorded, a red message will populate with instructions to label the vaccines as 'Do not use', and the 'Affected Inventory' column of the Excursion table will need to be filled out.

1

Based on the information provided, no further action is needed at this time and you may continue vaccination services. Click Submit to document the excursion.

NOTE: Only report temperature excursions for program vaccines. Please do not report your privately purchased vaccines in myCAvax.

Please report your affected inventory and manufacturer's stability determination below. Contact the manufacturer to determine vaccine stability. If you have not been able to make contact with your manufacturer, you will need to return to this form once you have the necessary information from the manufacturer.

Provided that you have accurately reported details of your excursion to the vaccine manufacturers, and if the vaccine manufacturers have determined that your vaccines are OK to use, your clinic may resume vaccination services. For doses that may not be used, please remove the vaccine from your vaccine storage and log a returns and Excursions.

Affected Inventory			Manufacturer's Stability Determination			
Vaccine Group	Vaccine Brand	Presentation	Report case or reference number	New Beyond date (Optional)	Date incident reported to manufacturer	manufacturer stability determination
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Policy on Storage and Handling Triaging

- Providers do not need to wait for CDPH review of excursions unless it was a "temperatures not recorded" situation.
 - If temperatures were not recorded, CDPH will review the incident and provide follow-up guidance.
- If you were triaged to contact the manufacturer(s), follow their guidance regarding vaccine stability and report results on the excursion form.
 - If vaccines are spoiled, submit a return / waste form.
 - If vaccines are okay to be used, continue vaccination services. No need to wait for CDPH.

Reporting an Excursion with No Storage Unit Involved

Excursion Information

* Was this stored in a storage unit or no storage unit involved? ⓘ
 Storage Unit
 No Storage Unit Involved

* Excursion event is related to: * Please specify Other
Other Vaccines left out; Temperatures not recorded

Another new feature on the Excursion report page is the option to select 'No Storage Unit Involved' if the excursion occurred outside of a storage unit.

Providers can then select 'Other' from the 'Excursion event is related to' dropdown menu and specify details about the excursion in the 'Please specify Other' field.

An example scenario would be if an Excursion occurred while the doses were left outside of the storage unit and potentially exposed to room temperature for too long, but the temperatures were not recorded.

Reporting an Excursion with No Vaccines Stored in Unit

This functionality will be available as part of the upcoming myCAvax release on **August 15, 2024**.

In the meantime, providers must continue to document Excursions with no vaccines in the unit in the 'Additional excursion notes' section of their **Manual Temperature Logs** form.

NOTE: Do not submit the Excursion event in myCAvax if no vaccines were stored in the unit.

Check temperatures twice a day:

- Fill out clinic/unit details in header.
- Record the time and your initials.
- Record a check if alarm went off.
- Record Current, MIN, and MAX.
- Clear MIN/MAX on your device.
- Ensure data logger is recording.

IF ALARM WENT OFF:

- Clear MIN/MAX and alarm symbol.
- Post "Do Not Use Vaccines" sign.
- Alert your supervisor.
- Report excursion to myCAvax for all funding sources.
- Record myCAvax Batch Excursion # under Incident IDs.
- Ensure data logger is recording.

On-Site Supervisor's Review

When complete, check all that apply:

Temperatures were recorded twice daily.

I reviewed data files to find any missed excursions.
Download date: _____

Any excursions were reported.

On-Site Supervisor's Name: _____

Signature: _____

Date: _____

Staff Names and Initials: _____

Additional excursion notes:

Keep all temperature logs and data files for three years.
Falsifying log is grounds for vaccine replacement and program termination.

Viewing Provider Dashboards

To view the myCAvax Providers Dashboard, navigate to the 'More' drop-down menu and click 'myCAvax Dashboard'.

This dashboard features charts and reports summarizing vaccine ordering and inventory management events at this program location.

The screenshot shows the myCAvax Providers Dashboard (VFC) interface. The top navigation bar includes links for Home, My Turn Enrollment, Vaccine Orders, Program Location, Vaccine Inventory, Enrollment, and a More dropdown menu. The More menu is open, highlighting the myCAvax Dashboard option. The dashboard title is "VFC Vaccines for Children - Dashboard". Below the title, there is a sub-header "Dashboard myCAvax Providers Dashboard (VFC)" with a timestamp "As of Jul 10, 2024, 9:17 AM Viewing as Ayumi Taniguchi".

The dashboard displays three key metrics in a grid:

- Total Approved Quantity:** 790. Below the number is a link: "View Report (Provider Orders Summary (VFC))".
- Total Quantity Shipped:** 0. Below the number is a link: "View Report (Provider Shipments Summary (VFC))".
- Total Number of Doses Impacted (Damaged):** 110. Below the number is a link: "View Report (Open Shipment Incidents (VFC))".

Below the metrics, there are two charts:

- Total Approved Quantity for Orders by Product:** A bar chart showing a single bar with a value of 360. The y-axis is labeled "red Quantity" and ranges from 240 to 360.
- Total Quantity Shipped by Product:** A placeholder message: "One or more of the fields selected in the component is no longer available in the report. Use the dashboard component editor to select one of the available fields."

The footer contains contact information for the California Department of Public Health, including email addresses (ProviderCallCenter@cdph.ca.gov and mycavax.hd@cdph.ca.gov) and a phone number (833) 502-1245. There is also a "Chat with us" button and a "Resources" section with links for Local Health Services, EZIZ, and My Turn Administration.

Viewing Support Resources

The screenshot shows the EZIZ website interface. At the top, it says "ENHANCED BY Google" and "A one-stop shop for immunization training and resources." The main content area features a banner for "myCAvax California Vaccine Management System" with the CDPH logo. Below the banner, a heading reads "VFC vaccine ordering moved to myCAvax on June 10, 2024!". The text explains that the VFC Program moved its vaccine ordering and provider management system to myCAvax on June 10, 2024. A "Reminder" section lists key points: report doses administered and on-hand inventory; timeframes for order submission and processing will not change; Vaccine Coordinators receive email confirmations; and providers can request shipping labels. A "Starting June 10, log in to myCAvax!" section provides instructions for existing users, including logging in to familiarize themselves with the system and submitting vaccine orders. A "Recorded Trainings and FAQs" section lists several training sessions with dates and times, such as "Getting Started with myCAvax for Brand New Users | FAQ" on Wednesday, May 22, 2024, and Friday, June 7, 2024.

This is a document titled "VFC Provider Training FAQs v.2_06.03.24". It contains a table of contents with the following items and page numbers: "nt is to support VFC providers through the transition from MyVFCvaccines to myCAvax. For the latest transition updates, visit EZIZ." (page 1), "a category to be directed to related FAQs." (page 1), "ation" (page 2), "ax" (page 2), "unt Management" (page 3), "agement" (page 4), and two entries for "7". The CDPH logo is visible at the bottom right of the document.

View VFC training recordings, decks and FAQs on EZIZ's [Move to myCAvax page](#).

For Program and Policy needs, you can contact the VFC Customer Service Center at (877) 243-8832 or via email to MyVFCVaccines@cdph.ca.gov. For myCAvax Technical Support, contact the Provider Call Center by calling the VFC Customer Service Center and selecting option 9 on the phone tree, or via email to myCAvax.HD@cdph.ca.gov.

? COVID-19 Provider FAQs

Answers to providers' COVID-19 vaccine and therapeutics questions on EZIZ [here](#).

Updated Thursday, July 25, 2024!

New *Q: Since the Bridge Access Program (BAP) ends in August 2024, what is the last day that BAP providers can administer COVID-19 vaccine that they have in stock?*

A: For your current COVID-19 vaccine stock, providers may continue to administer until expiration or deauthorization.

New *Q: When will the 2024 – 2025 COVID-19 vaccine formulation be available?*

A: The 2024 – 2025 COVID-19 vaccine formulation will be available in late summer or early fall of 2024.

COVID-19 Vaccine and Therapeutics FAQs

For providers administering COVID-19 vaccine and treating COVID-19. Providers may also visit [EZIZ COVID-19 Resources](#) for information and updates.

Provider Call Center

Dedicated to medical providers and Local Health Departments in California, specifically addressing questions about State program requirements, enrollment, and vaccine distribution.

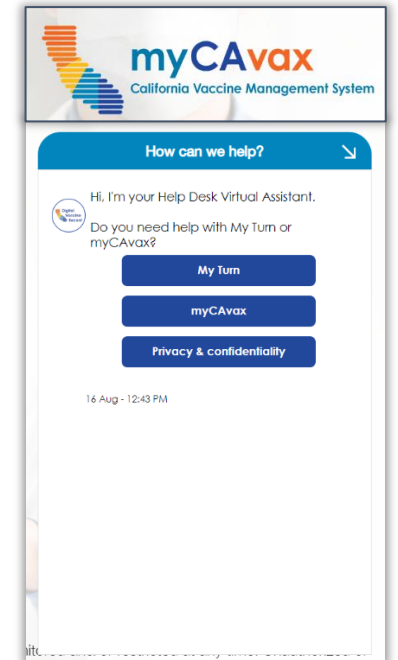

- For myCAvax Help Desk inquiries: myCAvax.hd@cdph.ca.gov
- For My Turn Clinic Help Desk inquiries: MyTurn.Clinic.HD@cdph.ca.gov
- For all other inquiries: providercallcenter@cdph.ca.gov
- Phone: (833) 502-1245, Monday through Friday from 8AM–5PM

myCAvax

- Virtual Assistant resolves many questions but will direct you to the Provider Call Center queue for live assistance!
- Knowledge Center houses key job aids and videos that are updated every release. Once logged in, you can access job aids from the myCAvax homepage (or at various places throughout the system) using the links as shown below.

Need help? View our job aids in the [Knowledge Center](#), or [contact us](#).
