<b>Approved by:</b> Julia McCallin, Associate Vice President for Human Resources	

**(This supersedes Memo No. 8, dated April 13, 2012)**

**1.0 Purpose**

Motor vehicle use is necessary for many facets of the Institute’s work. Faculty, staff, students and visitors all may have occasion, as part of the research, studies or other business of the Institute to drive Institute-owned or leased motor vehicles (“Institute vehicles”). Use of rental vehicles and personal vehicles on Institute business is covered by the Caltech Travel Policy. The safety of the Institute’s students, staff, faculty, visitors, and the public is a central concern for the Institute. This policy is designed to help support the safe and prudent use of Institute vehicles on Institute business.

**2.0 Authorized Use**

Authorized use of Institute vehicles is limited to use in the course and scope of Institute business. Institute business means use of motor vehicles in connection with Institute-sponsored activities.

**3.0 Driver Eligibility for Institute Vehicles**

- 3.1** Possess a valid American driver’s license for the appropriate class of vehicle being driven.
- 3.2** Volunteers may not drive Institute vehicles. Guests from other institutions who have a valid American driver’s license may be authorized to drive Institute vehicles only with approval of the division chair (or designee) for academic divisions or AVP level approval for administrative departments.
- 3.3** Submit to a motor-vehicle records check and meet the Institute’s requirements as set forth in this policy. Security and Parking Services (“Security”) will process DMV record check, excluding New Hires, which will be processed by Human Resources (“HR”).
- 3.4** Disclose a three-year driving history and update this driving history any time the driver receives points on their license and/or is convicted of driving under the influence or drugs, or leaving the scene of an accident.
- 3.5** Complete behind-the-wheel driver training if driver: (a) is under 21 years old, (b) has less than four years driving experience, (c) is 75 years old or older, (d) has previously been denied authorization to drive an Institute vehicle for any reason, (e) will be driving a type of vehicle with which the driver has little or no experience (e.g. a large or unique

vehicles), or (f) will be driving off-road or in other unique circumstances as determined by the division/department.

- 3.6** In case of an emergency, a driver who possesses a valid American driver's license may drive an Institute vehicle.

#### **4.0 Motor Vehicle Records Check**

A driver will be considered an ineligible driver and will therefore not be authorized to drive Institute vehicles if their driving record shows one of the following point-count totals pursuant to the California Department of Motor Vehicles Negligent Operator Treatment System (NOTS):

- 3 points in 12 months
- 5 points in 24 months
- 6 points in 36 months

No one who has had a conviction for driving under the influence of alcohol or drugs or leaving the scene of an accident within the three years prior to requesting authorization to drive an Institute vehicle will be given such authorization.

A driver who is ineligible to drive an Institute vehicle based on this section may reapply once the point-count total on their driving record drops below the points totals listed above and/or once three years has passed since a conviction for driving under the influence of alcohol or drugs or leaving the scene of an accident. However, even if they are otherwise eligible to drive an Institute vehicle based on the criteria in this policy, such drivers must complete driver-safety awareness training before authorization to drive an Institute vehicle will be granted.

#### **5.0 Driver Responsibilities**

All drivers of Institute vehicles must:
