

## **Aims and Scope**

Investigative and Clinical Urology (Investig Clin Urol, ICUrology) is an international, peer-reviewed, platinum open access journal published bimonthly. ICUrology aims to provide outstanding scientific and clinical research articles, that will advance knowledge and understanding of urological diseases and current therapeutic treatments. ICUrology publishes Original Articles, Review Articles, Special Articles, Editorials, and Letters, with a focus on the following areas of expertise:

- Artificial Intelligence in Urology
- Precision Medicine in Urology
- Urological Oncology
- Robotics/Laparoscopy
- Endourology/Urolithiasis
- Lower Urinary Tract Dysfunction
- Female Urology
- Sexual Dysfunction/Infertility
- Infection/Inflammation
- Reconstruction/Transplantation
- Geriatric Urology
- Pediatric Urology
- Basic/Translational Research

One of the notable features of ICUrology is the application of multimedia platforms facilitating easy-to-access online video clips of newly developed surgical techniques from the journal's website, by a QR (quick response) code located in the article, or via YouTube. ICUrology provides current and highly relevant knowledge to a broad audience at the cutting edge of urological research and clinical practice.

## **About the Journal**

Investigative and Clinical Urology (pISSN 2466-0493; eISSN 2466-054X) is the official journal of the Korean Urological Association, the Korean Society of Endourology and Robotics, and the Korean Society of Pediatric Urology.

This journal was first published in 1960 and the title was 'Taehan Pinyogikwa Hakhoe chi' (ISSN 0494-4747). The journal was renamed as the 'Korean Journal of Urology' (pISSN 2005-6737; eISSN 2005-6745) in February 2009, and was changed to 'Investigative and Clinical Urology' from the January issue of 2016. The abbreviated journal name is Investig Clin Urol. For submission instructions, subscription information, and all other information, visit http://www.icurology.org.

Investigative and Clinical Urology is indexed in MEDLINE, PubMed, PubMed Central, Science Citation Index Expanded (SCIE), Scopus, Directory of Open Access Journals (DOAJ), Embase, ScienceCentral, KoreaMed, KoMCI Web, KoreaMed Synapse, Korea Citation Index, and EBSCO. This journal is supported by a Korean Federation of Science and Technology Societies (KOFST) Grant funded by the Korean Government.

Publisher: Jun Hyuk Hong, M.D., Ph.D.
