VI. Interpretation

The six official languages of the Preparatory Committee are Arabic, Chinese, English, French, Russian and Spanish. Statements made at the plenary meetings will be interpreted in the official languages.

Statements made in any of the six official languages of the Preparatory Committee will be interpreted into the other official languages. Speakers are requested to deliver their statements at a speed that is interpretable. While delegations are given a time limit within which to deliver their statements, they are kindly requested to do so at a normal speed, to enable the interpreters to provide an accurate and complete rendition of their statements. When statements are delivered at a fast pace, the quality of the interpretation may suffer. It is suggested not to exceed the speed of about 100 to 120 words per minute (as a guide for statements delivered in English) in order to ensure that the statement is delivered at a normal pace.

Any speaker may make a statement in a language other than one of the official languages of the Preparatory Committee. In such cases, the delegation in question must provide an interpreter from the non-official language into an official language. Delegations seeking to provide their own interpreters for non-official languages are requested to inform the meetings management staff

and the Chief Interpreter well in advance by email at gmeets@un.org, with a copy to is-unhq@un.org, coutarel@un.org and surm@un.org.

In order to facilitate the provision of interpretation and other services, delegations are requested to submit their statements (in PDF format) by email to _estatements-ffd4@un.org. The name of the meeting and of the speaker, as well as the agenda item, should be indicated in the subject line of the email and in the heading of the statement. The statement should be submitted well in advance of the meeting, but no later than two hours before delivery, and not in hard copy. The statements will remain embargoed until their delivery and will be made available in a dedicated section of the Journal of the United Nations issued for the Conference

Please discuss your health issues with your physician before embarking on the trip. Vaccination against cholera is also required for anyone who has visited or transited through a cholera-infected area within six days prior to arrival in Ethiopia. Individuals with chronic medical conditions must bring with them enough medication to last the entire duration of their trip to Ethiopia, as some medications may not be available in the country and thus may not be easily replaced.

Currency

The Currency of Ethiopia is Birr. It is divided into 200, 100, 50, 10, 5, 1 banknotes and 1, .50, .25, .10, .05, .01 cents. One United States Dollar is approximately equivalent to 57.12 Birr (Differs daily).

Foreign currencies can be exchanged at banks only. Exchanging foreign currency outside the bank and transactions in foreign currency is illegal in Ethiopia.

Banks are open from 8:00 AM to 7:00 PM from Monday to Saturday.

If a person is found having beyond undeclared foreign currency amounting to more than USD 10,000.00 or its equivalent value in any currency, the money will be confiscated by the Airport Customs and the person will be liable before the law. That is why the law requires declaring an amount more than USD 10,000 or its equivalent upon arrival at the Customs Authority at the Bole International Airport. Such action will prevent any hustle during departure.

Please note that it is prohibited to take out of the country Ethiopian coins and notes that bear the Millennium logo or more than ETB 3,000.00.

Electricity

The electric supply is 220-240 volts, 50 cycles AC, accessible via 13-amp, two-pin (European) sockets.

Food and drink

Coffee was discovered in Ethiopia, in the region of Kaffa, and is widely served after meals and breaks. Ethiopia has a special coffee service ceremony.

The staple of every Ethiopian meal is injera, a spongy pancake-like bread. Injera is made of teff, an ancient grain believed to have originated in Ethiopia between 4,000 BC and 1,000 BC. It is the smallest grain in the world and is rich in calcium, phosphorous, iron, copper, aluminium, barium and thiamine. It is a good source of protein, amino acids, carbohydrates and fibre. It is a great gluten-free option.

Language

Ethiopia is a multi-ethnic State with some 83 languages and 200 dialects. Amharic is the working language, while Oromifa, Tigrigna and Somali are widely spoken.
