# IxTheo :: Full-text search

The full-text search expands and modernizes the **search strategy** in IxTheo. It provides a **direct and precise search** capability for single words and phrases in a large **digital corpus**.

The free text search capability is supplemented with **synonyms** and **translations** of a given word in several languages. The selection is made through a selection menu to the right of the search bar.

The search may be narrowed down to specific **text types** (table of contents, full text, summary) and combined with **IxTheo facets**.

In addition, it is possible to conduct a search through the **full text of a selected title**.

Establishing the remnant church in France: Calvin's lectures on the Minor Prophets, 1556-1559

Calvin lectured on the Minor Prophets during the late-1550s. This book offers a comprehensive analysis of these lectures, their context, audience, and aims, through which it endeavors to shed light on Calvin's prophetic work to re-establish the Christian Church

The full-text search capability is available for **commercial** as well as **open-access** theological literature. Its added value lies in the fact that it provides a **legally** valid search capability for commercial resources of various publishing houses in an open-access environment.

Our first pilot partners are the publishing houses **Brill** and **Mohr Siebeck**.
Other publishers are welcome to join this service.

The searchable **digital corpus** consists currently of **approx. 185.000 digital files**:
>90.000 summaries
>90.000 tables of contents
>5.000 full texts
