Education

1983 **PhD, Inorganic Chemistry**, Brown University, Providence RI
1978 **BA, Chemistry**, Swarthmore College, Swarthmore, PA

Experience

2019-present **Deputy Division Director, Energy Storage and Distributed Resources Division**, Lawrence Berkeley National Laboratory, Berkeley, CA

2018-present **Senior Scientist**, Lawrence Berkeley National Laboratory, Berkeley, CA

Principal investigator in battery programs funded by the Department of Energy. Work is directed towards development of materials of possible utility in Li ion, metallic lithium, and sodium ion batteries. Responsibilities include supervision of several students and postdoctoral associates on the projects, communication of results via reports, scientific papers and presentations at conferences, and proposal writing.

1990-2018 **Staff Scientist**, Lawrence Berkeley National Laboratory, Berkeley, CA

1986-1989 **Senior Member, Technical Staff**, Computer Sciences Corporation, San Diego, CA.

Research performed at the Naval Ocean Systems Center involved synthesis, characterization, and testing of low surface tension fluorocarbons and polymers and organometallic compounds for anti-fouling applications. Responsibilities included supervision of two chemists on the project and the writing of proposals and technical papers on this topic and related work.

1985-1986 **Postdoctoral Chemist**, Lawrence Berkeley Laboratory, Berkeley, CA.

Research with Professor Robert Connick was directed towards understanding the mechanism of the oxidation of bisulfite.

1983-1985 **Postdoctoral Chemist**, University of California at Santa Barbara, Santa Barbara, CA.

Research with Professors Ralph G. Pearson and Paul Barrett concerned the matrix isolation of iron complexes of catalytic interest.
