Note(s):
In this table, a doctorate recipient counts once in each source category from which they received support, and detailed fields are used in table A-4. Therefore, the field of doctorate recipients may indicate multiple sources of support; thus, percentages sum to more than 100. Beginning in 2021 to the present; see the "Technical Notes."

In this table, a doctorate recipient counts once in each source category from which they received support, and detailed fields are used in the survey data collection, and new broad, major, and detailed field sare used in the present; see the "Technical Notes."

In this table, a doctorate recipient counts once in each source category from which they received support, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and new broad, major, and detailed fields are used in the survey data collection, and the survey data collection data from 2021 to the present and the survey data collection data from 2021 to the present and the survey data from 2021 to the present and the survey data from 2021 to the
