Dr Neil,

You might like to have this for next
revision of Integer Sequences. I wonder when
it will appear.

For Seq 565 the LH columns of the article
attached, $n < 10^5$, are correct.

However the RH columns $10^5 < n < 10^7$
must be rearranged to show increasing
gaps. Hence there are 3 terms to be deleted.

Also J P Gorn missed 4 terms

Warm regards
