Dear Dr. Sloane,

Thank you for your letter of June 16, 1980.
The enclosed paper contains a sequence which is
one of my favourites: 1,4,9,16,25,35....., being
the number of ways of putting balls into a row of
three boxes with the restriction that any neigh-
bouring pair of boxes must contain at least 4 balls.

Yours sincerely,

A handwritten signature in blue ink that reads "DR Breach".
