(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface with icon, as shown and described.

DESCRIPTION

FIG. 1 is a front view of an image of a display screen or portion thereof with icon, according to a first embodiment of our design;

FIG. 2 is a front view of an image of a display screen or portion thereof with icon, according to the design of FIG. 1 shown in a different environment;

FIG. 3 is a front view of an image of a display screen or portion thereof with icon, according to the design of FIG. 1 shown in a different environment;

FIG. 4 is a front view of an image of a display screen or portion thereof with icon, according to design of FIG. 1 shown in a different environment;

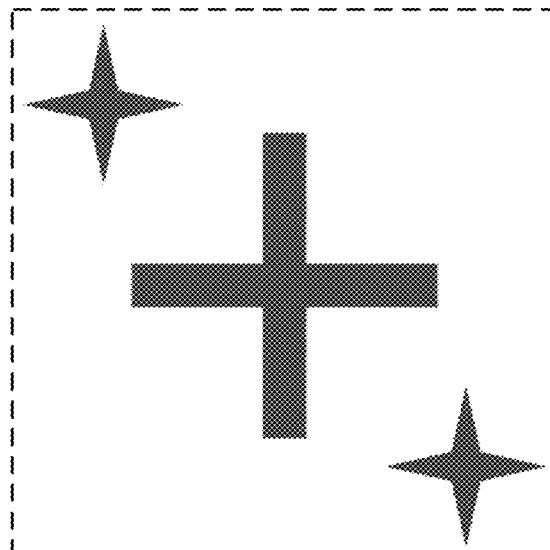

FIG. 5 is a front view of an image of a display screen or portion thereof with icon, according to the design of FIG. 1 shown in a different environment; and,

FIG. 6 is a sixth view of an image of a display screen or portion thereof with icon, according to a second embodiment of our design.

The dashed broken line illustrates a display boundary of a display screen or a portion thereof. The dashed broken line itself forms no part of the claimed design.

All other broken lines, including dotted and dash-dot broken line showings of portions of a display device, product, text, and other features in the figures are environmental only and form no part of the claimed design.
