(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface for converting machine, as shown and described.

DESCRIPTION

FIG. 1 is the first image of a display screen with graphical user interface for converting machine according to the first embodiment showing our new design;

FIG. 2 is the second image thereof;

FIG. 3 is the first image of a display screen with graphical user interface for converting machine according to the second embodiment showing our new design; and,

FIG. 4 is the second image thereof.

The appearance of the graphical user interface sequentially transitions between the images shown in FIGS. 1 and 2, and FIGS. 3 and 4, respectively. The process or period in which one image transitions to another image forms no part of the claimed design.

The outermost broken lines illustrate a display screen and form no part of the claimed design. The remaining broken lines illustrate portions of a graphical user interface and form no part of the claimed design.
