(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a display screen or portion thereof with a graphical user interface showing my new design;

FIG. 2 is a front view of a second embodiment of a display screen or portion thereof with a graphical user interface showing my new design;

FIG. 3 is a front view of a third embodiment of a display screen or portion thereof with animated graphical user interface showing a first image in the sequence showing our new design;

FIG. 4 is a second image thereof;

FIG. 5 is a front view of a fourth embodiment of a display screen or portion thereof with animated graphical user interface showing a first image in the sequence showing our new design; and,

FIG. 6 is a second image thereof.

The outermost dash-dot broken lines in the drawings illustrate the display screen or portion thereof and form no part of the claimed design. The other broken lines in the drawings illustrate portions of the graphical user interface that form no part of the claimed design.

In the third embodiment, the appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 3-4. In the fourth embodiment, the appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 5-6. The process or period in which one image transitions to another forms no part of the claimed design.
