(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface showing our new design.

The outer broken line perimeter showing the display screen and the broken lines within showing text and elements of the graphical user interface are provided for the purpose of illustrating portions of the article and form no part of the claimed design. The stipple shading within the circles indicates a contrast in appearance. The dot in the lowest circle forms a part of the claimed design.
