(57) **CLAIM**

We claim the ornamental design for a user interface for computer display, as shown and described.

**DESCRIPTION**

The patent file contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the United States Patent and Trademark Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first embodiment of a user interface for computer display of the present invention;

FIG. 2 is a front view of a second embodiment of a user interface for computer display of the present invention;

FIG. 3 is a front view of a third embodiment of a user interface for computer display of the present invention;

FIG. 4 is a front view of a fourth embodiment of a user interface for computer display of the present invention;

FIG. 5 is a front view of a fifth embodiment of a user interface for computer display of the present invention; and,

FIG. 6 is a front view of a sixth embodiment of a user interface for computer display of the present invention.

In FIGS. 1-6, the outer rectangle shown by broken lines is the edge of a monitor screen, and the inner rectangle and the horizontal line within the outer rectangle, both shown by broken lines, are the frame of a browser shown on the screen. The ornamental design which is claimed is shown in solid lines in the drawings.

The broken line showing of the outer rectangle and inner rectangle with an horizontal line is included for the purpose of illustrating a computer display and forms no part of the claimed design. The broken line outlining the user interface is included for the purpose of illustrating the edge of the user interface and forms no part of the claimed design.
