Tokorozawa-shi, Saitama-ken (JP)

(54) **Apparatus and method for sampling and storing audio information and apparatus for outputting audio information**

(57) An apparatus for sampling partial audio information from audio information and storing it in a memory device (14) provided with: a sampling device (13) for sampling the partial audio information from the audio in-

formation in the sampling time which is an integral multiple of a time interval between each beat and the next in the audio information, and a storing device (13) for storing the sampled partial audio information in a memory device (14).

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 00 11 5043

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on the above-mentioned European search report. The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
