UNITED STATES PATENT OFFICE.

PETER NORVOTNICK, OF BONN, PRUSSIA, GERMANY.

DEVICE FOR HEAD-WASHING AND SHAMPOOING.

SPECIFICATION forming part of Letters Patent No. 367,157, dated July 26, 1887.

Application filed December 30, 1886. Serial No. 223,062. (No model.)

To all whom it may concern:

Be it known that I, PETER NORVOTNICK, of the city of Bonn, of the county of Rhineland, of the Kingdom of Prussia, German Empire, have invented certain new and useful Improvements in Devices for Head-Washing and Shampooing; and I do hereby declare that the following is a full, clear, and exact description of the invention, reference being had to the accompanying drawing, of which the figure represents a perspective view of my device.

My shampooing apparatus consists of a funnel-shaped vessel made of india-rubber. The latter is stretched upon a wire ring, *a*, and is drawn at its conical end over the occiput of the person to be shampooed, so as to allow no fluid to pass between the vessel and the head. To the vessel *b* a rubber pipe, *c*, is attached for the purpose of permitting the fluid to escape.

The whole device is supported by a stand, *d*, where the prolongation of the wire ring *a* is fastened by means of the screw *e*. The stand *d* can be raised or lowered by means of the screw *f*.

By the use of this apparatus the person who is being shampooed can sit straight on a chair, while according to the prevailing system the person must bend down toward the wash-basin as much as possible to prevent fluid from running down his neck, thus having to assume a very disagreeable position.

Having fully described my invention, what I desire to claim and secure by Letters Patent is—

In a shampooing apparatus, the combination of the funnel-shaped india-rubber vessel *b*, stretched upon a wire ring, *a*, adapted to rest lightly yet perfectly water-tight on the head, and having rubber pipe *c* to carry off the shampooing fluids, with the lateral movable and adjustable stand *d*, having screws *e* and *f*, all for the purpose and substantially as described.

PETER NORVOTNICK.

Witnesses:

DAVID SCHULZ,
FRANZ BLEYER.

Correction in Letters Patent No. 367,157.

It is hereby certified that the name of the patentee in Letters Patent No. 367,157, granted July 26, 1887, for an improvement in "Devices for Head-Washing and Shampooing," was erroneously written and printed "Peter Norvotnick," whereas said name should have been written and printed *Peter Nowotnick*; and that said Letters Patent should be read with this correction therein that the same may conform to the record of the case in the Patent Office.

Signed, countersigned, and sealed this 8th day of November, A. D. 1887.

[SEAL.]

D. L. HAWKINS,
Acting Secretary of the Interior.

Countersigned:

R. B. VANCE,
Acting Commissioner of Patents.
