(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for communicating health-related messages regarding ventilated patients, as shown and described.

**DESCRIPTION**

The SOLE FIGURE is a front view of a display screen with graphical user interface for communicating health-related messages regarding ventilated patients. The graphics and text shown in broken lines within the boundaries of the illustrated graphical user interface are directed to environment of the interface and form no part of the claimed design. The outer-most broken line is directed to environmental structure of the display screen, which is excluded from the claim.
