(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure as it appears in the United States patent and trademark Office patent file or records but otherwise reserves all copyright rights whatsoever.

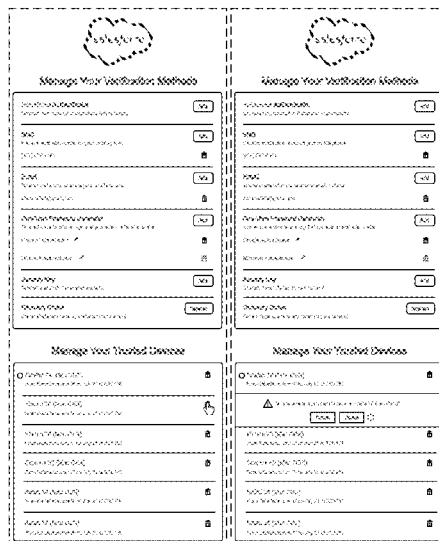

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface, showing a first image of the claimed design;

FIG. 2 is a second image thereof; and,

FIG. 3 is a third image thereof.

The outermost dashed broken lines in FIGS. 1-3 show a display screen or portion thereof, and form no part of the claimed design. The other dashed broken lines in FIGS. 1-3 show text, graphics, and other elements of the graphical user interface that form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
