(54) Title: SYSTEMS AND METHODS FOR MANAGING MESSAGE DELIVERY BASED ON MESSAGE PRIORITY

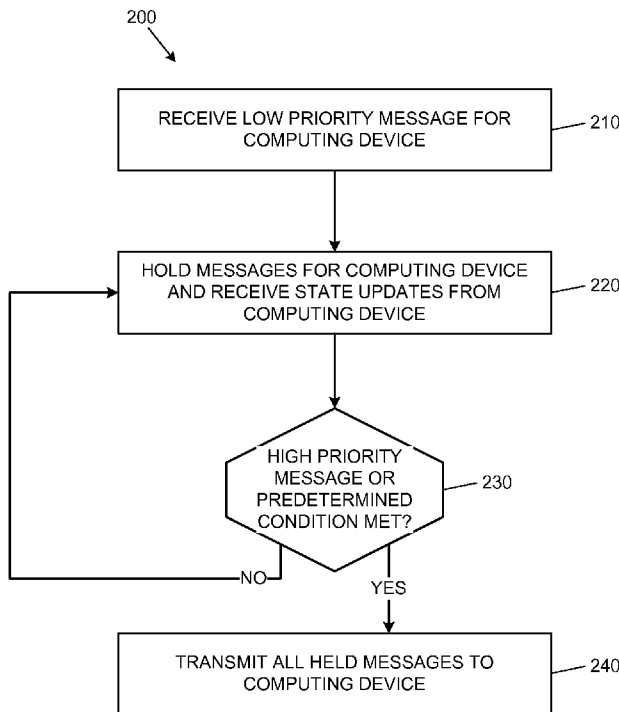

Fig. 2

(57) Abstract: The disclosed technology covers messaging systems and methods. An example messaging system may include a messaging server, a plurality of predetermined conditions, and a communication interface. The messaging server may receive one or more messages directed to a first computing device, and may assign a priority level to each of the messages. The plurality of predetermined conditions may determine when to transmit the one or more messages to the first computing device, and a first predetermined condition may be deemed met when at least one message directed toward the first computing device is assigned high priority. The communication interface may transmit the one or more messages to the first computing device if at least one of the predetermined conditions is met. The messaging server may repeatedly evaluate the predetermined conditions and may hold the one or more messages until at least one of the predetermined conditions is met.

## A. CLASSIFICATION OF SUBJECT MATTER

IPC(8) - G06F 15/16 (2013.01)

USPC - 709/207

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC(8) - G06F 11/30, 12/00, 15/16; H04M 1/73 (2013.01)

USPC - 455/466, 574; 709/203, 206, 207, 223, 225, 226, 229, 250

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

CPC - H04L 29/08729, 51/14; H04W 4/12, 8/00 (2013.01)

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&amp;" document member of the same patent family
