SUMMARY

Highly motivated and dedicated B.Tech Computer Science student with a strong academic background and a passion for software development. Seeking a challenging position to leverage my technical skills and contribute to the success of a progressive organization.

PROJECTS

WebSocket	**OpenTalk**	**open-talk.vercel.app**

Created a real-time room-based chat application using Socket.IO, enabling users to engage in instant messaging within the same room. Facilitated dynamic communication without authentication, fostering seamless interactions between users sharing a common room number.

GraphQl	**JazBLog**	**jaz-blog.vercel.app**

Developed a dynamic and efficient blog site leveraging GraphQL technology to enhance data querying and manipulation, showcasing advanced proficiency in web development and API design.

Api Integration	**Imaginify**	**imaginify.vercel.app**

Integrated the API with a user-friendly interface, allowing users to customize and download the generated images.

NextJs Tailwind	**CleverSystems**	**cleversystems.in**

Designed and developed a static website for CleverSystems, a technology company.

Game Logic	**MiniGame**	**onemingame.vercel.app**

Created a mini-game using React, showcasing my ability to develop interactive web applications.
