Wildfire Website

Reworking https://azdeq.gov/wildfire/cleanup

Goal: ADEQ Community Liaisons to help drive people to the right place for easily accessible complete information.

Questions

1. What are your thoughts on what information we might need to address on our website that addresses environmental concerns?

2. Some onsite septic systems (alternatives) have electrical components near them and are removed from the homes. Do these present issues? If yes, how are pre evacuation checklists addressing these items?

3. Not all counties are listed on https://wildlandfire.az.gov/wildfire-resources# for emergency notification alerts. None of the documents ask folks to register for updates.

4. Smoke forecast isn't mentioned as available on any of fact sheets.
