The Civil Society SDG Forum aims to create a space for constructive and propositional dialogue between civil society and UN Member States, international and regional organizations and other related constituencies on the possible responses to the challenges encountered during the first four years of implementation of the 2030 Agenda for Sustainable Development. While the dialogue will be based on civil society's systemic analysis and proposed pathways to tackle multidimensional inequalities and resolve the intertwined environmental/climate, social, economic and political challenges, it is expected to promote honest dialogue with key representatives of Member States and other institutions on key strategies to move the agenda forward. The event will feature a dynamic and open format that would allow opportunities for frank exchange among those present. The Forum will be facilitated by the civil society constituencies of the HLPF Major Group and other Stakeholders Coordination Mechanism (MGoS), under the overall coordination of the HLPF MGoS Steering Group (SG) and will explore possible elements of dialogue with the two other Fora taking place in the context of the SDG Summit.

WHEN: 25 September 2019, 10 a.m. - 1 p.m.
WHERE: Conference Room 1

The International Chamber of Commerce, the UN Department of Economic and Social Affairs and the UN Global Compact are co-hosting the fourth SDG Business Forum on Wednesday 25th September. As one of the major business-led events at the UN in 2019, the SDG Business Forum reports on significant achievements and activities undertaken by business during the fourth year of implementation of the Sustainable Development Goals (SDGs). The Forum provides a unique multi-stakeholder platform to support business action and partnerships to achieve the Sustainable Development Goals — fostering public-private dialogues, catalyzing new partnerships and alliances, and exploring innovative business solutions to accelerate progress.
