REPORT ON STUDENT DISCIPLINE

The University of Kentucky
Student Conduct Report
presents an overview of
student discipline during the
one-year reporting period from
July 1, 2022, to June 30, 2023.

The University of Kentucky Annual Report on Student Discipline

The University of Kentucky Student Conduct Report presents an overview of student discipline during the one-year reporting period from July 1, 2022, to June 30, 2023.

This report complies with the legislative requirement outlined in KRS 164.372, which mandates the regular submission and publication of student discipline data. This report, completed by the Office of Student Conduct, aims to provide transparency and accountability regarding student conduct matters within our institution.

The University of Kentucky Office of Student Conduct is dedicated to promoting education-based restorative practices in student discipline. The office works collaboratively with partners across campus to create an environment that prioritizes personal growth, accountability, and community restoration, while fostering a campus culture of learning, empathy, and belonging..

The Office of Student Conduct embraces a dual responsibility: we are committed to both promoting and safeguarding student rights and due process, as well as fostering accountable behavior. We achieve this by implementing education-based restorative practices that not only guide students towards personal growth but also uphold the principles of fairness, justice, and equity within our campus community.

Data Collection and Reporting

To gather and manage student conduct data, the University of Kentucky utilizes a centralized database system. The system is designed to record and categorize incidents, streamline case management, maintain confidentiality, and enable efficient data retrieval and analysis.

Privacy and Confidentiality

We adhere to strict privacy and confidentiality standards when handling student conduct data. Information shared in this report is aggregated and anonymized to protect the identities and privacy of individual students. In order to protect personal identifying information and consistent with historical reporting by the university, when case size does not allow for adequate de-identification in regards to demographics, data will be reported as <10.

Report Details

This report is structured to provide a comprehensive overview of student discipline during the one-year reporting period. It includes data responsive to the requirements of KRS 164.372.

REPORT PERIOD

The report period for this report is July 1, 2022, through June 30, 2023.

Code of Student Conduct and University Housing and Community Standards

The Code of Student Conduct and University Housing and Community Standards are distinct sets of guidelines that serve different purposes at the University of Kentucky. The Code of Student Conduct encompasses a wide range of behaviors and actions applicable to all enrolled students, regardless of their housing situation. Its primary aim is to maintain a safe and respectful campus environment, addressing violations with a range of sanctions. The University Housing and Community Standards are specific rules that primarily pertain to students residing in university-owned or affiliated housing. These standards are tailored to issues relevant to communal living, including quiet hours, guest policies, and cleanliness.

4

Misconduct by students living in UK owned or controlled residence halls, houses, and apartments is addressed by the Office of Residence Life in coordination with the Office of Student Conduct. The standards and regulations for UK owned or controlled residential facilities are contained in the written agreement between the student and UK and in the University Housing Community Standards (UHCS). The Office of Residence Life investigates alleged violations of the rules and regulations outlined under UHCS. Management of such cases is conducted in accordance with established procedures and done in coordination with the Office of Student Conduct. A compilation of all rules established under the Housing & Dining Contract as well as the UHCS are provided to all residents of the facility to which such rules apply.

If the behavior or conduct that occurs in UK owned or controlled housing poses a health or safety risk to self or others or may result in disciplinary suspension or dismissal from UK, or termination of residence in campus housing, the case will be referred directly to OSC. In cases where the alleged violation of the UHCS may constitute a violation of the provisions of the Code, the Office of Residence Life will refer the case to the Office of Student Conduct.

As such, the data responsive to this report includes behaviors address under both the Code of Student Conduct and UHCS.

DEFINITIONS

Case Creation Date

For the purposes of this report, the date a case was created in the records management system is utilized to indicate when a case was 'initiated by the institution.'

Definition of Student

During the reporting period, the Code of Student Conduct defined student as "any person who is enrolled at UK and who has not completed a program of study in which he or she is enrolled. Student status continues whether or not UK's academic programs are in session. Student status includes those taking courses for credit or non-credit at UK, either full-time or part-time, while pursuing undergraduate, graduate or professional studies. Persons who withdraw after allegedly violating the Code or who are living in the residence halls, although not enrolled at UK, are also considered students." The data includes BCTC students who live on campus at UK. These individuals meet the definition of student and are accountable to the Code of Student Conduct and UHCS.

5

Classification

Per SR 5.2.3 a student is classified as a freshman if fewer than 30 hours have been completed, as a sophomore upon completion of 30 credit hours, as a junior upon completion of 60 credit hours, and as a senior upon completion of 90 credit hours.

CPE Demographics

Consistent with other university reporting, the CPE categories for race and gender are used. The "org" category refers to organizations recognized by the university that go through the Student Conduct Process and do not have additional demographic markers.

Resolutions

KRS 164.370 asks for reporting in regard to different disciplinary proceeding outcomes. Below are how those possible resolutions are operationalized at the University.

- Dismissal of a Complaint prior to a hearing on the matter includes cases where administrative warning letter are sent or when an investigation is conducted but the student is not charged with a violation of University policy.
- A Negotiated Resolution is a resolution reached in a one-on-one setting between the student and the assigned conduct officer.
- A Hearing on the Matter is a formal hearing held by the UK Community Hearing Board at the request of the Office of Student Conduct or the Respondent.
- A Dismissal of the Complaint after a formal hearing happens when the UK Community Hearing Board or the University Appeals Board found a respondent not responsible for a violation of University policy.
- Suspensions are a defined period of separation between the respondent and the University. This includes revocation of student organization status for a defined period.
- Expulsion is a permanent ending to the relationship between the respondent and the University.
- Termination of On-Campus Residency is a permanent cancellation of a respondent's housing contract with the University.
- An Appeal to a Governing Board: The University of Kentucky Board of Trustees has designated the University Appeals Board (UAB) as their designee for the appeal of outcomes resulting in cancellation of housing contracts, suspension, expulsion, social suspension, and revocation of student organization status.
- Appeal of a Final Decision: The outcomes of a UAB hearing are not subject to appeal. In matters where revocation of degree is recommended, the Board of Trustees makes the final decision.

REPORT

Chart #1-4: These charts provide total case count for each level of resolution and a summary of demographic data at the time the case was created including race, gender, on-campus residency status, and academic classification in response to sections (1)(a) and (1)(b)(1). This chart also provides all demographic information on cases resulting in removal from University housing, suspension, and expulsion.

Chart #5-6: This chart outlines the specific violations of the Code of Student Conduct (#6)/University Housing Community Standards (#5). It's important to note that many cases have multiple violations. For example, termination of housing contact was the outcome of 16 conduct cases, but those 16 cases had a total of 49 violations.
