WRP technical assistance is provided at no cost to clients, funded by government-sponsored grants, contracts and private contributions. NC only.

Providing client-focused and results-oriented technical assistance to help North Carolina businesses and institutions be more efficient, economically competitive and environmentally sustainable.

The WRP team conducts on-site assessments and provides consulting services for energy and water efficiency, waste reduction, pollution prevention, operating efficiency improvements and cost effectiveness.

WRP services are grant sponsored or supported through technical service contracts. Most services are provided to clients at no- or reduced-cost. All services are non-regulatory.

who we are

A team of 40 distinguished retired engineers, scientists, and business professionals and staff with more than 1,400 years of experience. WRP engages mechanical, electrical, chemical, environmental and civil engineers, chemists and seasoned business leaders in its consultancy group.

what we offer

On-site efficiency improvement assessments in water and waste reduction, energy management and pollution prevention with cost-benefit analysis.

who we serve

WRP volunteers have helped more than 2,650 clients across North Carolina save money through efficiency improvements.
