

# Interagency Contract Directory

## Introduction

The Interagency Contract Directory is a searchable database that can be used to identify Indefinite Delivery Vehicles (IDV), including Blanket Purchase Agreements (BPAs), which are available for use by either components within an agency or agencies outside of the awarding agency. These vehicles are contracts that can be used by Federal Agencies by placing orders against them.

The ICD offers Google-like search capability and intuitive drill-down options enabling the user to find desirable contracts with great ease. The ICD is designed to be efficient by delivering fast and accurate results. The ICD searches FPDS data entered up through the previous day and returns results meeting the search criteria. DOD contract that is reported within the last 90 days will not be included in the results. All contracts returned are in Final status.

Supported Browsers: Chrome, Firefox, and IE 8 onwards.

ICD can be accessed at [www.contractdirectory.gov](http://www.contractdirectory.gov).

The screenshot shows the website's header with the title "Interagency Contract Directory" and a search bar. Below the search bar are buttons for "Search", "Clear", and "Advanced Search". The main content area includes an "About ICD" section, a list of contract types (GWACs and ICD/IDIQ/BPA), and a list of links for various contract types. Logos for IAE, USA.gov, E-GOV, and GSA are visible. A warning message is at the bottom.

**About ICD**  
The **Interagency Contract Directory (ICD)** is a central repository of Indefinite Delivery Vehicles (IDV) awarded by the Federal agencies where the IDV is available for use at both the intra agency and interagency levels. IDVs include Government-Wide Acquisition Contracts (GWAC), Multi-Agency Contracts, Other Indefinite Delivery Contracts (IDC), Federal Supply Schedules (FSS), Basic Ordering Agreements (BOA), and Blanket Purchase Agreements (BPA).

The options for Advanced Search are:

- a. Vendor Type (Socio Economic Data or CO's Determination of Business Size)
- b. Product or Service Code and Description
- c. Major Procurement Program Name
- d. Fee for Use of Service
- e. Vehicle Type (IDV Type)
- f. Who Can Use
- g. Contracting Departments of Vehicles
- h. OMB Designated by IT Service Providers (NASA, GSA, HHS, NIH, etc)
- i. Cost or Pricing Arrangements

- You can see the counts of vehicles for each of the filters except Vendor type when you mouse over.

- You can select the values for any of these filters, each of which has a consolidated list of all possible values.

- 
- Vendor type, Product or Service Code and Program Acronyms have dropdowns which can be searched and multiple values can be selected as shown on the right.

- The filters Fee for Use of Service, Vehicle Type, Who Can Use, Contracting Departments of Vehicles, OMB Designated by IT Service Providers and Cost or Pricing Arrangements are radio buttons and checkboxes which can be selected.
- Once you select all your criteria, click on  button.

- All the filters you selected will be applied and shown in the Applied Filters section

Note: For the multiple values within the same filter, results matching both values will be returned. For e.g. The search results return all vehicles which are IDCs or are BPAs.

- If a filter is applied, the options for the filters are refreshed with the new count and options limiting the chances of user getting zero results

- The Search criteria can be deleted from the Search criteria by using the  button.
