J31CB Web Content Management Team

How can the J31CB Web Content Management Team work for you?

Who we are:

The DLA J31CB Web Content Management Team ensures uniformity across all J3-managed web pages by implementing and adhering to web standardization processes. We create and maintain a web-based conduit that connects DLA customers to:

- Training and education opportunities
- DLA Customer Interaction Center (CIC)
- Access and support of program, product, and service solutions
- Featured information through commonly used social media

How can we help you?

The DLA J31CB Web Content Management Team can help by leveraging DLA subject matter expert knowledge and customer feedback to provide standardized, relevant, up-to-date information and solutions that meet your requirements of Logistics Operations (J3) web pages.

What we do:

- *Annual Web Site Reviews*
 - Work with Content Owners to make sure their web sites are compliant and effectively working to meet their needs.
- *508 Compliance*
 - Assist Content Owners with ensuring Section 508/accessibility compliance.
- *Web Content Change Requests*
 - Update J3 web pages at the request of the Content Owners.
- *Work with internal J3 Customers on web page design*
 - Work side-by-side with Content Owners on the development of their web pages.
