

A PRIMER FOR THE FIBONACCI NUMBERS

TABLE OF CONTENTS

Article	Page
EXPLORING FIBONACCI NUMBERS	1
Brother Alfred Brousseau, St. Mary's College (FQ 1:1, Feb., 1963, pp. 57-63)	
THE FIBONACCI SEQUENCE AS IT APPEARS IN NATURE	6
S. L. Basin, San Jose State College (FQ 1:1, Feb., 1963, pp. 53-56)	
PHYLLOTAXIS	9
Sister Mary de Sales McNabb, Georgetown Visitation Preparatory School (FQ 1:4, Dec., 1963, pp. 57-60)	
A PRIMER ON THE FIBONACCI SEQUENCE: PART I SIMPLE PROPERTIES OF THE FIBONACCI SEQUENCE AND MATHEMATICAL INDUCTION	13
S. L. Basin and Verner E. Hoggatt, Jr., San Jose State College (FQ 1:1, Feb., 1963, pp. 65-72)	
A PRIMER ON THE FIBONACCI SEQUENCE: PART II A MATRIX WHICH GENERATES FIBONACCI IDENTITIES	18
S. L. Basin and Verner E. Hoggatt, Jr., San Jose State College (FQ 1:2, April, 1963, pp. 61-68)	
FIBONACCI MATRICES AND LAMBDA FUNCTIONS	23
Marjorie Bicknell and Verner E. Hoggatt, Jr., San Jose State College (FQ 1:2, April, 1963, pp. 47-52)	
A PRIMER FOR THE FIBONACCI SEQUENCE: PART III MORE FIBONACCI IDENTITIES FROM MATRICES AND VECTORS	27
Verner E. Hoggatt, Jr., and I. D. Ruggles, San Jose State College (FQ 1:3, October, 1963, pp. 61-65)	
SOME NEW FIBONACCI IDENTITIES	31
Verner E. Hoggatt, Jr., and Marjorie Bicknell, San Jose State College (FQ 2:1, February, 1964, pp. 29-32)	
FIBONACCI NUMBERS AND GENERALIZED BINOMIAL COEFFICIENTS	34
Verner E. Hoggatt, Jr., San Jose State College (FQ 5:4, October, 1967, pp. 383-400)	

Article	Page
A PRIMER FOR THE FIBONACCI NUMBERS: PART IV FIBONACCI AND LUCAS VECTORS	39
V. E. Hoggatt, Jr., and I. D. Ruggles, San Jose State College (FQ 1:4, December, 1963, pp. 65-71)	
A PRIMER FOR THE FIBONACCI NUMBERS: PART V INFINITE SERIES AND FIBONACCI ARCTANGENTS	46
V. E. Hoggatt, Jr., and I. D. Ruggles, San Jose State College (FQ 2:1, February, 1964, pp. 59-66)	
A PRIMER FOR THE FIBONACCI NUMBERS: PART VI GENERATING FUNCTIONS FOR THE FIBONACCI SEQUENCES	52
V. E. Hoggatt, Jr., San Jose State College, and D. A. Lind, University of Virginia (FQ 5:5, December, 1967, pp. 445-460)	
SCOTT'S FIBONACCI SCRAPBOOK	65
Allan Scott, Phoenix, Arizona (FQ 6:2, April, 1968, pp. 176 ⁺)	
A MOTIVATION FOR CONTINUED FRACTIONS	66
A. P. Hillman and G. L. Alexanderson, University of Santa Clara (FQ 2:2, April, 1964, pp. 145-148)	
THE GOLDEN RATIO: COMPUTATIONAL CONSIDERATIONS	70
Dmitri Thoro, San Jose State College (FQ 1:3, October, 1963, pp. 53-59)	
GOLDEN TRIANGLES, RECTANGLES, AND CUBOIDS	74
Marjorie Bicknell, Wilcox High School, and Verner E. Hoggatt, Jr., San Jose State College (FQ 7:1, February, 1969, pp. 73-91)	
A PRIMER FOR THE FIBONACCI NUMBERS: PART VII INTRODUCTION TO FIBONACCI POLYNOMIALS AND THEIR DIVISIBILITY PROPERTIES	86
Marjorie Bicknell, Wilcox High School (FQ 8:4, October, 1970, pp. 407-420)	
A PRIMER FOR THE FIBONACCI NUMBERS: PART VIII SEQUENCES OF SUMS FROM PASCAL'S TRIANGLE	98
Marjorie Bicknell, Wilcox High School (FQ 9:1, February, 1971, pp. 74-81)	
A PRIMER FOR THE FIBONACCI NUMBERS: PART XIII THE FIBONACCI CONVOLUTION TRIANGLE, PASCAL'S TRIANGLE, AND SOME INTERESTING DETERMINANTS	104
Marjorie Bicknell, Wilcox High School (FQ 11:4, December, 1973)	

Article	Page
A PRIMER FOR THE FIBONACCI NUMBERS: PART IX TO PROVE: F_n DIVIDES F_{nk}	111
Marjorie Bicknell, Wilcox High School, and Verner E. Hoggatt, Jr., San Jose State College (FQ 9:5, December, 1971, pp. 529-537)	
A PRIMER FOR THE FIBONACCI NUMBERS: PART X ON THE REPRESENTATIONS OF INTEGERS	118
Brother Alfred Brousseau, St. Mary's College (FQ 10:5, December, 1972)	
A PRIMER FOR THE FIBONACCI NUMBERS: PART XII ON REPRESENTATIONS OF INTEGERS USING FIBONACCI NUMBERS	127
V. E. Hoggatt, Jr., and Nannette Cox, San Jose State University, and Marjorie Bicknell, Wilcox High School (FQ 11:2, 11:3, April and October, 1973)	
FIBONACCI NUMBERS AND GEOMETRY	146
Brother Alfred Brousseau, St. Mary's College (FQ 10:3, April, 1972, pp. 303-318)	
A PRIMER FOR THE FIBONACCI NUMBERS: PART XI MULTISECTION GENERATING FUNCTIONS FOR THE COLUMNS OF PASCAL'S TRIANGLE	159
V. E. Hoggatt, Jr., and Janet Crump Anaya, San Jose State University (FQ 11:1, February, 1973)	
SOLUTIONS TO PROBLEMS.	166
