Journal of Advanced Computational Intelligence and Intelligent Informatics
Volume 27, 2023

3D detection 198
3D reconstruction 1216

A

access control 855
ACNN 421
acoustic analysis 848
action recognition 790
activation function(s) 567, 576
active disturbance rejection 923
acyclic chromatic number 101
adaptive decision-making 932
adaptive filter 372
adaptive identification 609
admissible 720
alcohol consumption 148
AlexNet 182
alliance routines 801
ambidextrous technological catch-up 801
amplify-and-forward 96
analytic hierarchy process 691
angular loss 173
annealing furnace 638
ant colony algorithm 105
applied experiment 632
archaeological sites 394
area allocation 1183
arithmetic distribution 700
articulation 848
artificial neural network 27
associative memory 44
attention mechanism 190, 474, 673, 1192
attraction 154
autonomous driving 609
autonomous robot 622
average propagation length 739
averaging inverse characteristics method 616

B

bag of visual words 182
BBR algorithm 346
BeiDou navigation system 812
bias magnetic field 490
bibliometric analysis 822
bifurcation analysis 378
BiLSTM 421
biped robot 404
blast furnace 585
blast furnace iron-making 304
blockchain 822, 855
blood pressure (BP) estimation . 1137
bloom graph 1108
boring survey 1079
boundary-handling strategy 932
branch factors 223
breath alcohol concentration 438
briquette 1200
burden distribution 585

C

calculation 481
camera localization 543
capacitive antenna 27
capsule network 173
cash flow 866
causality extraction 421
central bank communication 896
channel to spatial 1086
chaos synchronization 292
characteristic speed 616
China 1056
classification 1200
cloud computing 64
cloud-edge collaboration 638
CNN 165, 207, 567, 576, 655, 876, 1079, 1209
CNN-machine learning algorithm 105
CO$_2$ emissions 1056
coal mine 314
cognitive abilities 748
cognitive function 907
collaborative cloud and edge computing 948
collaborative control of total amount 501
collaborative filtering 1070
collaborative search 932
compact ion meter (CIM) 1137
competence trust 522
complete bipartite graph 645
comprehensive influence 1037
compressed sensing 259
computational intelligence .. 3, 19, 35
computational power 1130
computer vision 35, 165
condition recognition 585
conflict resolution 959
congestion control 346
constrained optimization 64
contingent negative variation 438
control 235
control system 638
convexity number 119
convolution neural network 710
convolutional block attention module 467
convolutional network 790
cooperative area coverage 1183
cooperative control 360
coordinated regional development 999
covert attention 148
COVID-19 352
crash risk 1012
cryptocurrency 822
CT 1079
cultural similarity 394
curriculum governance 215
CV model 458

D

data connectivity ... 855
data parallelism ... 700
database ... 594
DC carrier communication ... 496
decision tree ... 1159
deep learning ... 84, 165, 173, 198, 333, 576, 915, 1113, 1175, 1200, 1209
deep neural network(s) ... 622, 886
DeepSORT ... 1086
deformable convolution ... 190
density peak clustering ... 259
depth separable convolution ... 673
design and fabrication method ... 340
dexterous hand motion ... 907
dictionary learning ... 243
different magnetic strength ... 340
differentiable neural computer ... 481
differential evolution algorithm ... 490
differential privacy ... 942
digital economy ... 739
digital inclusive finance ... 251
digital multimeter ... 19
digital transformation ... 271, 780
digital twin ... 12
discrete PID path-tracking algorithm ... 411
dissipativity control ... 720
distributed high-density resistivity ... 496
distribution route ... 143
diversification informativeness ... 866
document vectors ... 603
dominating set ... 837
domination number ... 837
double-steering wheel parking robot ... 411
drill-string dynamics ... 314
drilling fluid ... 594
dual task ... 907
dynamic and auxiliary compensator ... 501
dynamic gesture recognition ... 1096
dynamic panel ... 1045
dynamic panel model ... 1025
dynamics simulation ... 404

E

eccentric connectivity index ... 649
edge computing ... 948
edge device ... 622
edge gateway ... 431
educational interfaces ... 632
EfficientNet-b0 ... 333
egg parasite classification ... 1113
elderly persons ... 907
electrical resistivity tomography ... 12
electrode conversion device ... 496
electroencephalogram ... 438
Elman neural network ... 304
embedded technology ... 431
embedding ... 645
emotion detection ... 84
emotion recognition ... 710
emotional states classification ... 967
engineering education ... 632
ensemble learning ... 1113
entity types ... 1151
environmental uncertainty ... 866
event-related potential ... 438
evolutionary approach ... 64
evolutionary metaheuristics ... 27
excavation reports ... 394
extended sliding mode observer ... 501

F

face extraction ... 54
facial beauty prediction ... 1209
facial expression ... 710
fault warning ... 458
feature adaptive fusion pyramid network ... 1086
feature adaptive fusion-YOLOX ... 1086
feature enhancement ... 561
feature tracking ... 1216
feed forward neural network ... 3
femoral fracture classification ... 1192
FFP ... 1079
field-based courses ... 281
filtering techniques ... 567
first-person-view net ... 386
fixational eye movement ... 148
FLANN-SIFT ... 182
flower snark graph ... 101
fluctuation ... 848
foot arch structure ... 404
formal framework ... 1130
four-wheel-steering mobile robot ... 135
frequency of occurrence ... 148
fresh food ... 271
functional data analysis ... 352, 999
functional principal components analysis ... 352
fuzzy clustering ... 976, 1070
fuzzy comprehensive evaluation ... 691
fuzzy control ... 360

G

gaming simulation ... 223
gear graph ... 645
generalized fan graph ... 101
generalized Möbius ladder graph ... 101
generalized predictive control ... 74
generative adversarial network ... 190
genetic algorithm ... 959, 1183
genetic programming ... 3
geodetic iteration number ... 119
geodetic number ... 119
goodwill trust ... 522
gradient-based optimizer (GBO) ... 64
grape leaf disease ... 35
greedy algorithm ... 143
green logistics ... 143
gripping comfort ... 655
gripping posture image ... 655

H

handwritten Chinese character(s) recognition ... 165, 567
Harary graph ... 554
hard vote ... 1113
harmonious passion ... 154
hash function ... 855
head pose ... 710
heat-conduction experiment ... 632
high-speed railway ... 959
high-temperature logistics ... 467
horizontal well ... 314
household assets ... 748
household registration system ... 1045
HPP ... 1130
hull number ... 119

human motion prediction............ 445
human parsing............................ 561
human pose estimation................ 543
hyperspectral anomaly detection. 243
hysteresis.................................... 235

I

idiosyncratic risk......................... 866
ILLIAC network 554
image analysis............................ 173
image classification..................... 207
image encryption......................... 292
image inpainting.......................... 190
image segmentation 458
improved equivalent input disturbance................................ 720
improved UMBmark method...... 135
impulse response function analysis 1056
impulsive controller 378
indentation-flexure........................ 27
index GARCH model.................. 105
industrial digitalization 1025
industrial structure upgrade......... 251
industrial structure upgrading ... 1025
inertial measurement unit (IMU) 915
