Mar 10 23 H Rule 19(a) / Re-referred to Rules Committee

HB 03226 Rep. Lindsey LaPointe

New Act

Creates the Veterans I.O.U. Act. Provides that the General Assembly finds that veterans are owed a debt of gratitude for their service; that there is a known and large gap between veterans and their awareness of the resources, services, and benefits available to them, especially in times of need; and that closing this gap begins with being able to identify a veteran, which can eliminate the disconnect between a veteran and the resources, services, and benefits the veteran may need. Requires the Department of Veterans' Affairs to develop, by rule, standards for identifying veterans and making them aware of resources, services, and benefits that veterans may need. Provides that the rules shall require State agencies, local government agencies, as well as licensed individuals and entities, to ask an individual at the point of initial contact if the individual has ever served in any branch of the military of the United States, including the National Guard, reserve, or active duty. HB 03479 (CONTINUED)

Provides that the provisions do not apply to a credit union (rather than an insured depository credit union) organized under specified laws with member share accounts (rather than deposits) insured by an insurer approved by the credit union's primary financial regulatory agency (rather than primary regulator). Makes changes in the definitions of "digital asset", "digital asset administration", "exchange", "fiat currency", and "transfer". Defines "prepaid card". Provides that the provisions do not apply to the exchange, transfer, or storage of a digital asset or to digital asset administration to the extent that specified law governs the activity as a contract of a sale of a commodity for future delivery or a swap. Provides that the provisions shall be construed in a manner consistent with affording the greatest protection to residents, and shall not be construed to exempt an activity solely because a financial regulatory agency has anti-fraud and anti-manipulation enforcement authority over the activity. Provides that the provisions do not apply to a credit union with member share accounts insured by an insurer approved by the credit union's primary financial regulatory agency. Provides that the Department of Financial and Professional Regulation may by rule or order clarify whether an activity is governed by specified provisions. Amends the Illinois Pension Code. Provides that a security employee of the Department of Corrections or the Department of Juvenile Justice under the Tier 2 provisions is entitled to an annuity calculated under the alternative retirement formula, in lieu of the regular or minimum retirement annuity, only if the person has withdrawn from service with not less than 20 years of eligible creditable service and has attained age 55 (instead of age 60). Authorizes SLEP status under IMRF for a person who is a county correctional officer or probation officer. Amends the State Mandates Act to require implementation without reimbursement.

Pension Note (Government Forecasting & Accountability)

According to the State Employees Retirement System (SERS), reducing the Tier 2 alternative formula retirement age from 60 to 55 for security employees of the Departments of Corrections and Juvenile Justice would cause the overall accrued liability to increase by \$1.9 billion, with a corresponding increase to the State's annual contribution of \$84 million/year. A comprehensive actuarial study would be needed to assess the impact of the other components of the bill: granting the Tier 2 COLA after one year of retirement, regardless of age; lowering the normal (non-police) Tier 2 retirement age; and adding Tier 1 and 2 county correctional officers and probation officers to the IMRF SLEP program.

Changes the Act name to the Community Partnership for Deflection and Substance Use Disorder Treatment Act. Modifies and adds definitions. Provides that A law enforcement agency, other first responder entity, or local government agency (rather than only a law enforcement agency or other first responder entity) may establish a deflection program in partnership with one or more licensed providers of substance use disorder treatment services and one or more community members or organizations. Provides that a deflection program may involve a pre-arrest diversion response and proactive identification of persons thought likely to have an untreated or undiagnosed mental illness. Provides that a local deflection program shall also include case management and restorative justice aspects. Provides that a deflection program may accept, receive, and disburse, in furtherance of its duties and functions, any funds, grants, and services made available by the State and its agencies, the federal government and its agencies, units of local government, and private or civic sources. Provides that activities eligible for funding under the Act include naloxone and related harm reduction supplies (rather than related supplies) necessary for carrying out overdose prevention and reversal (rather than overdose reversal) for purposes of distribution to program participants or for use by law enforcement, other first responders, or local governmental agencies and wraparound participant funds to be used to incentivize participation and meet participant needs. Provides that the Legislative Reference Bureau shall reassign the Act in the Illinois Compiled Statutes (to reflect the addition of local government agencies to the Act).

Senate Committee Amendment No. 1

Replaces everything after the enacting clause. Reinserts the provisions of the engrossed bill with the following changes. Provides that "deflection programs" may include an officer intervention during routine activities, such as patrol or response to a service call during which a referral to treatment, to services, or to a case manager is made in lieu of arrest (rather than an officer intervention deflection response when criminal charges are present but held in abeyance pending engagement with treatment). Removes language providing that a "deflection program" may include a pre-booking diversion response initiated by law enforcement when criminal charges are possible, but the individual is diverted to case management services in lieu of charges.

HB 03940 (CONTINUED)

Replaces everything after the enacting clause. Reinserts the provisions of the engrossed bill with the following changes. Further amends the Emergency Telephone System Act. Adds a definition of "first responder" and modifies the definition of "grade of service". Provides that within 36 (rather than 18) months of the awarding of a contract to a certified vendor to provide Next Generation 9-1-1 service, a 9-1-1 system in Illinois shall provide Next Generation 9-1-1 service, except that a municipality with a population over 500,000 shall provide Next Generation 9-1-1 service by July 1, 2024 (rather than December 31, 2023). Provides that every 9-1-1 system shall be able to accept text to 9-1-1 no later than July 1, 2024 (rather than January 1, 2023). Changes the date on which each aggregator that is operating within the State must submit (rather than email) to the Office of the Statewide 9-1-1 Administrator information that supports the implementation of and the migration to the Statewide NG9-1-1 system and provides that the Illinois State Police shall make available the form to submit the information. Makes changes relating to call handling and aid outside jurisdictional boundaries agreements. Prohibits calling or texting 9-1-1 or causing a transmission, in any manner, to a public safety agency or public safety answering point (rather than placing an emergency call to 9-1-1 for the purpose of making or transmitting a false alarm or complaint and reporting information) when, at the time the call, text, or transmission is made, the person knows there is no reasonable ground for making the call, text, or transmission (removing a requirement that the person further knows that the call or transmission could result in the emergency response of any public safety agency), and makes conforming changes to the elements of disorderly conduct in the Criminal Code of 2012. Provides that the Emergency Telephone System Board shall complete and maintain a Next Generation 9-1-1 GIS database in accordance with NENA Standards before implementation of the NG9-1-1 system. Provides that the MSAG and GIS data standardizing and synchronization must reach a 98% or greater match rate, with an option of matching with ALI, before using GIS data for NG9-1-1 (rather than complete a Master Street Address Guide database before implementation of the 9-1-1 system and that the error ratio of the database shall not at any time exceed 1% of the total database). Makes changes relating to consolidation grants. Allows the cost of upgrading the Illinois State Police's call-handling equipment to meet the standards necessary to access and increase interoperability with the statewide Next Generation 9-1-1 network to be included in the Illinois State Police's administrative costs, and includes requirements relating to those upgrades. Provides that surcharge revenues received under the Act shall be made consistent with specified federal law, including specified examples (rather than may be made by municipalities, counties, and 9-1-1 Authorities only to pay for the costs associated with specified requirements). Provides that the Illinois State Police shall create uniform accounting procedures that any emergency telephone system board (rather than board or unit of local government) receiving surcharge money must follow. Provides that the Illinois State Police shall post annual financial reports (rather than the audited financial statements) on the Illinois State Police's website. Repeals provisions relating to copies of the annual certified notification of continuing agreement to be filed with the Attorney General and the statewide 9-1-1 Administrator, call boxes, and the Wireless Carrier Reimbursement Fund. Removes references to the Wireless Carrier Reimbursement Fund in the Act and the State Finance Act. Certain changes are effective immediately.

Amends the Department of Natural Resources Act. Provides that the Department of Natural Resources may lease land on property of which the Department has jurisdiction for the purpose of creating, operating, or maintaining a commercial solar energy system or a clean energy project. Provides that the lease shall be for a period not longer than 25 years. Provides that, if practical, the Department shall require that any land or property over which the Department has jurisdiction and that is used for the purpose of creating, operating, or maintaining a commercial solar energy system shall have implemented on it and maintained management practices that would qualify the land or property as a beneficial habitat under the Pollinator-Friendly Solar Site Act. Amends the Department of Natural Resources (Conservation) Law of the Civil Administrative Code of Illinois. Defines "clean energy". Provides that the Department may provide for at least one electric vehicle charging station, as defined in the Electric Vehicle Act, at any State park or other real property that is owned by the Department where electrical service will reasonably permit. Provides that the Department is authorized to charge user fees for the use of an electric vehicle charging station. Amends the State Parks Act to make conforming changes. Amends the Illinois Procurement Code. Exempts certain expenditures by the Department of Natural Resources from the Code.

Fiscal Note (Dept. of Natural Resources)

The Office of Law Enforcement is currently working with Procurement regarding the purchase of body cameras for all sworn OLE personnel. This is a mandate that must be in place by January 2025. Current figures show a total cost of \$2.6 million for a contract covering 5 years with the first expense of approximately \$680,000 hopefully still occurring prior to the end of fiscal year 2024. This expense of \$680,000 includes Cloud data storage as well as the cost of acquiring the actual equipment (body cameras and in-car cameras). Thereafter, there will be an annual cost of approximately \$500,000 for each of 4 years to cover data storage and maintenance. This contract will also allow the Office of Law Enforcement to upgrade its equipment after 3 years to take advantage of the newest technology. This upgrade would occur at no additional charge. For the purchase of technology and software, the Office of Law Enforcement is in the process of procuring a records management system that will replace obsolete databases and allow officers to input some of their own data (ie tickets, etc.) to minimize errors, repetitive handling, lost files, etc. This procurement is being worked on at this moment, but it is a very complex procurement and will likely not occur until FY25 at the earliest. Initial estimates were that the system OLE is wanting to acquire would/could cost approximately \$500,000 the first year depending on options and features available and requested. Initial estimates were that 50% of the total cost would be required at contract signing, 40% once the system was implemented and operational without errors and 10% once all applicable staff had been thoroughly trained. Once the system is in place and staff have been trained, it estimated that there would be a \$60,000 annual maintenance cost for each of the next 4 years which would include upgrades. For a 5-year contract the total cost over 5 years could approach \$750,000.

HB 04209 (CONTINUED)

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill with the following changes. In the Department of Natural Resources Act concerning the power of the Department of Natural Resources to lease land or property over which the Department has jurisdiction, and which is not immediately to be used or developed by the State, provides that the lease term shall not be more than 10 (rather than 5) years. In news provision providing for the lease of land or property over which the Department has jurisdiction for the purpose of creating, operating, or maintaining a commercial solar energy system or a clean energy project, provides that the lease term shall not be longer than 40 years and may be renewed by the Department for not more than 40 years per renewal (rather than 25 years without renewal in the introduced bill). In the Department of Natural Resources (Conservation) Law of the Civil Administrative Code of Illinois, includes the 40 (rather than 25) year lease and renewal provisions and provides that the Department shall require that any lease must provide for a signed project labor agreement for the length of the lease term. Provides that a project labor agreement entered into under this provision shall be entered into with the local building and construction trades council having geographic jurisdiction over the project. In the State Parks Act, provides that, in a lease that allows for the creation, operation, or maintenance of a commercial solar energy system, the Department shall require that any lease must include a signed project labor agreement for the length of the lease term. Provides that a project labor agreement entered into under this provision shall be entered into with the local building and construction trades council having geographic jurisdiction over the project.

House Floor Amendment No. 4

In 3 locations in the bill as amended, provides that the Department of Natural Resources "shall then" (rather than "shall" or "may also") prioritize commercial solar energy system sites with a significant history of disturbance, such as former strip mines or previously developed sites.
