

# DELIVERING THE WORLD

International Services

## YOUR ONE-STOP PARCELS AND MAIL CONNECTION

At IMEX Global Solutions we consolidate and distribute millions of pounds of parcels, publications, and business mail to over 200 countries annually. Our profound expertise in international logistics allows us to provide customers with the most cost-effective and efficient delivery services in the industry. Through time tested processes, we ensure that products arrive at precisely the right location, on time. The extraordinary volumes we manage qualifies IMEX for the deepest carrier discounts available, translating into lower costs for our customers. Our extensive network of top-rated private and public carriers enables us to provide you with customized delivery solutions and guarantees compliance with the ever changing international rules, regulations and codes.

# STREAMLINED DELIVERY ACROSS EVERY CHANNEL

## Operational Experience

Our operational expertise, coupled with state-of-the-art facilities and technology, has saved our clients costs while improving their efficiency. Our expansive international postal knowledge helps keep you compliant with rules, regulations, and codes.

## TSA Certified - Cargo Screening Program

With TSA certification, we speed up the transportation process by vetting and screening cargo at our facilities. This enables us to maintain in-house packing integrity, avoid screening delays at the airport and build bulk configurations to minimize cost.

## International Network

We have three operating centers dedicated to international mail. With advanced automation, we can sort more mail, quickly, accurately, and securely—helping you connect with your customers and prospects for less. Our international processing centers are strategically located in close proximity to major airports in the U.S.

## We Add Value
