

LENNTECH PROCESS DEPARTMENT - INTERNSHIP OFFER

Company: Lenntech

Location: Delfgauw, The Netherlands

Duration: 6 to 12 months

Company Description: Lenntech B.V is an international company located in the Netherlands that provides water treatment solutions around the world. The company of nearly 60 employees and 20 different nationalities is divided into several departments: processes for the sizing and sale of systems, R&D for research on innovative technologies, engineering for project execution, and a spare parts sales department (examples: membranes, filters, pumps, ...).

Offer:

As part of a multidisciplinary team, the intern will work with engineers, masters and doctorates and discover a wide range of technologies such as reverse osmosis, ion exchange and electrodeionization. Continuous training will be given on technologies, products and processes depending on the projects the intern is involved in.

The internship includes in the following tasks:

- **Technical and commercial offer preparation**
Support the process and sales engineers to design a water treatment system in accordance with client's specifications and prepare a technical and commercial proposal.
- **Project execution**
As part of the project execution team, the intern will support in the preparation of engineering documents, for example: P&ID, equipment part list, procurement.
The intern will have a clear overview and understanding of a complete project execution, from the offer acceptance to the delivery of the water treatment system.
- **Help in the development of numerous tools**
The intern will assist the engineering team by developing new tools on different platforms.

Requirements:

- Enrolled in engineering school/university on master's level (first or second year).
- English level B2 minimum. Any additional language is a plus.
- Interest in processes and environmental topics.
- Flexible, autonomous, curious, team spirit and committed.
- In possession of EU passport/working permit for the Netherlands.

Internship compensations:

- Financial allowance.
- Housing provided by Lenntech (if the student comes from abroad).
- Bike provided for daily travels.
